UNDERGRADUATE CATALOG 2008 - 2009

The Mission of Brigham Young University

The mission of Brigham Young University—founded, supported, and guided by The Church of Jesus Christ of Latter-day Saints—is to assist individuals in their quest for perfection and eternal life. That assistance should provide a period of intensive learning in a stimulating setting where a commitment to excellence is expected and the full realization of human potential is pursued.

All instruction, programs, and services at BYU, including a wide variety of extracurricular experiences, should make their own contribution toward the balanced development of the total person. Such a broadly prepared individual will not only be capable of meeting personal challenge and change but will also bring strength to others in the tasks of home and family life, social relationships, civic duty, and service to mankind.

To succeed in this mission the university must provide an environment enlightened by living prophets and sustained by those moral virtues which characterize the life and teachings of the Son of God. In that environment these four major educational goals should prevail:

- All students at BYU should be taught the truths of the gospel of Jesus Christ. Any education is inadequate which does not emphasize that His is the only name given under heaven whereby mankind can be saved. Certainly all relationships within the BYU community should reflect devout love of God and a loving, genuine concern for the welfare of our neighbor.
- Because the gospel encourages the pursuit of all truth, students at BYU should receive a broad university education. The arts, letters, and sciences provide the core of such an education, which will help students think clearly, communicate effectively, understand important ideas in their own cultural tradition as well as that of others, and establish clear standards of intellectual integrity.
- In addition to a strong general education, students should also receive instruction in the special fields of their choice. The university cannot provide programs in all possible areas of professional or vocational work, but in those it does provide the preparation must be excellent. Students who graduate from BYU should be capable of competing with the best in their fields.
- Scholarly research and creative endeavor among both faculty and students, including those in selected graduate programs of real consequence, are essential and will be encouraged.

In meeting these objectives BYU's faculty, staff, students, and administrators should also be anxious to make their service and scholarship available to The Church of Jesus Christ of Latter-day Saints in furthering its work worldwide. In an era of limited enrollments, BYU can continue to expand its influence both by encouraging programs that are central to the Church's purposes and by making its resources available to the Church when called upon to do so.

We believe the earnest pursuit of this institutional mission can have a strong effect on the course of higher education and will greatly enlarge Brigham Young University's influence in a world we wish to improve.

—Approved by the BYU Board of Trustees

UNDERGRADUATE CATALOG 2008 - 2009

The Aims of a BYU Education

Education is the power to think clearly, the power to act well in the world's work, and the power to appreciate life.

— Brigham Young[1]

The mission of Brigham Young University is "to assist individuals in their quest for perfection and eternal life" ("The Mission Statement of Brigham Young University" [hereafter Mission Statement]). To this end, BYU seeks to develop students of faith, intellect, and character who have the skills and the desire to continue learning and to serve others throughout their lives. These are the common aims of all education at BYU. Both those who teach in the classroom and those who direct activities outside the classroom are responsible for contributing to this complete educational vision.

The statement that follows reaffirms and expands on the earlier and more general Mission Statement adopted in 1981. As the quotations under each heading suggest, this document also draws on the religious and educational teachings of the university's founding prophet, Brigham Young. Quotations within the text come from the scriptures and from the counsel of modern prophets, whose teachings about BYU lay the foundation of the university's mission.

The following four sections discuss the expected outcomes of the BYU experience. A BYU education should be (1) spiritually strengthening, (2) intellectually enlarging, and (3) character building, leading to (4) lifelong learning and service. Because BYU is a large university with a complex curriculum, the intellectual aims are presented here in somewhat greater detail than the other aims. Yet they are deliberately placed within a larger context. The sequence flows from a conscious intent to envelop BYU's intellectual aims within a more complete, even eternal, perspective that begins with spiritual knowledge and ends with knowledge applied to the practical tasks of living and serving.

Spiritually Strengthening

Brother Maeser, I want you to remember that you ought not to teach even the alphabet or the multiplication tables without the Spirit of God.

—Brigham Young[2]

The founding charge of BYU is to teach every subject with the Spirit. It is not intended "that all of the faculty should be categorically teaching religion constantly in their classes, but . . . that every . . . teacher in this institution would keep his subject matter bathed in the light and color of the restored gospel."[3]

This ideal arises from the common purpose of all education at BYU—to build testimonies of the restored gospel of Jesus Christ. A shared desire to "seek learning, even by study and also by faith" (D&C 88:118) knits BYU into a unique educational community. The students, faculty, and staff in this community possess a remarkable diversity of gifts, but they all think of themselves as brothers and sisters seeking together to master the academic disciplines while remaining mastered by the higher claims of discipleship to the Savior.

A spiritually strengthening education warms and enlightens students by the bright fire of their teachers' faith while enlarging their minds with knowledge. It also makes students responsible for developing their own testimonies by strenuous effort. Joseph Smith's words apply equally to faculty and students at BYU: "Thy mind, O man! if thou wilt lead a soul unto salvation, must stretch as high as the utmost heavens, and search into and contemplate the darkest abyss, and the broad expanse of eternity—thou must commune with God."[4] Students need not ignore difficult and important questions. Rather, they should frame their questions in prayerful, faithful ways, leading them to answers that equip them to give "a reason of the hope that is in" them (1 Peter 3:15) and to articulate honestly and thoughtfully their commitments to Christ and to his Church.

Intellectually Enlarging

Every accomplishment, every polished grace, every useful attainment in mathematics, music, and in all science and art belong to the Saints, and they should avail themselves as expeditiously as possible of the wealth of knowledge the sciences offer to every diligent and persevering scholar.

—Brigham Young[5]

The intellectual range of a BYU education is the result of an ambitious commitment to pursue truth. Members of the BYU community rigorously study academic subjects in the light of divine truth. An eternal perspective shapes not only *how* students are taught but *what* they are taught. In preparing for the bachelor's degree, students should enlarge their intellects by developing skills, breadth, and depth: (1) skills in the basic tools of learning, (2) an understanding of the broad areas of human knowledge, and (3) real competence in at least one area of concentration. Further graduate studies build on this foundation.

Undergraduate

1. Skills. BYU undergraduates should acquire the basic tools needed to learn. The essential academic learning skills are the abilities to think soundly, to communicate effectively, and to reason proficiently in quantitative terms. To these ends, a BYU bachelor's degree should lead to:

- *Sound thinking*—reasoning abilities that prepare students to understand and solve a wide variety of problems, both theoretical and practical. Such skills include the ability to keep a proper perspective when comparing the things that matter most with things of lesser import. They also

include the ability to engage successfully in logical reasoning, critical analysis, moral discrimination, creative imagination, and independent thought.

- *Effective communication*—language abilities that enable students to listen, speak, read, and write well; to communicate effectively with a wide range of audiences in one's area of expertise as well as on general subjects. For many students this includes communicating in a second language.
- *Quantitative reasoning*—numerical abilities that equip students with the capacity to understand and explain the world in quantitative terms; to interpret numerical data; and to evaluate arguments that rely on quantitative information and approaches.

2. Breadth. BYU undergraduates should also understand the most important developments in human thought as represented by the broad domains of knowledge. The gospel provides the chief source of such breadth because it encompasses the most comprehensive explanation of life and the cosmos, supplying the perspective from which all other knowledge is best understood and measured. The Lord has asked his children to "become acquainted with all good books, and with languages, tongues, and people" (D&C 90:15); to understand "things both in heaven and in the earth, and under the earth; things which have been, things which are, things which must shortly come to pass; things which are at home, things which are abroad; the wars and the perplexities of the nations . . . ; and a knowledge also of countries and of kingdoms" (D&C 88:79).

"Because the gospel encourages the pursuit of all truth, students at BYU should receive a broad university education [that will help them] understand important ideas in their own cultural tradition as well as that of others" (Mission Statement). Specifically, BYU undergraduate students should be educated in the following broad areas of human knowledge:

- *Religion*—the doctrines, the covenants, the ordinances, the standard works, and the history of the restored gospel, as well as an awareness of other religious traditions.
- *Historical perspective*—the development of human civilization, appreciation for the unique contributions of America to modern civilization, and a general historical perspective, including perspective on one's own discipline.
- *Science*—The basic concepts of the physical, biological, and social sciences, and a recognition of the power and limitations of the scientific method—preferably through laboratory or field experience.
- *Arts and letters*—lively appreciation of the artistic, literary, and intellectual achievements of human cultures—including Western culture and, ideally, non-Western as well.
- *Global awareness*—informed awareness of the peoples, cultures, languages, and nations of the world.

3. Depth. BYU undergraduates should develop competence in at least one area of concentration. Competence generally demands study in depth. Such in-depth study helps prepare students for their life's work; it also teaches them that genuine understanding of any subject requires exploring it fully. Students normally acquire such depth from their major and minor fields. BYU's religion requirement also asks all students to develop depth in scriptural studies and religion.

Depth does not result merely from taking many courses in a field. Indeed, excessive course coverage requirements may discourage rather than enhance depth. Depth comes when students realize "the effect of rigorous, coherent, and progressively more sophisticated study." Depth helps students distinguish between what is fundamental and what is only peripheral; it requires focus, provides intense concentration, and encourages a "lean and taut" degree that has a "meaningful core" and a purposefully designed structure (Memorandum to the Faculty No. 13). In addition to describing carefully structured academic majors, this description applies to well-designed BYU courses of all kinds.

The chief result of depth is competence. BYU's students should be "capable of competing with the best students in their field" (Mission Statement). Even so, undergraduate study should be targeted at entrance-level, not expert-level, abilities. The desire for depth should not lead to bachelor's degrees that try to teach students everything they will need to know after graduation. Students should be able to complete their degrees within about four years.

Undergraduate programs should prepare students to enter the world of work or to pursue further study. Often this requires educational activities that help upperclassmen culminate their studies by integrating them in a capstone project, honors thesis, senior seminar, or internship. By the time they graduate, students should grasp their discipline's essential knowledge and skills (such as mathematical reasoning, statistical analysis, computer literacy, foreign language fluency, laboratory techniques, library research, and teaching methods), and many should have participated in scholarly or creative activities that let them demonstrate their mastery.

Graduate

Building on the foundation of a strong bachelor's degree, graduate education at BYU asks for even greater competency. Graduate studies may be either academic or professional and at either the master's or doctoral level. In all cases, BYU graduate programs, like undergraduate programs, should be spiritually strengthening as well as intellectually enlarging.

Graduate programs should help students achieve excellence in the discipline by engaging its primary sources; mastering its literature, techniques, and methodologies; and undertaking advanced systematic study—all at a depth that clearly exceeds the undergraduate level. In addition, graduate programs should prepare students to contribute to their disciplines through their own original insights, designs, applications, expressions, and discoveries. Graduate study should thereby enable a variety of contributions—such as teaching complex knowledge and skills, conducting original research, producing creative work that applies advanced learning in the everyday world, and extending professional service to the discipline and to society.

These intellectual aims of a BYU education are intended to give students understanding, perspective, motivation, and interpersonal abilities—not just information and academic skills. BYU should furnish students with the practical advantage of an education that integrates academic skills with abstract theories, real-world applications, and gospel perspectives. Such an education prepares students who can make a difference in the world, who can draw on their academic preparation to participate more effectively in the arenas of daily life. They are parents, Church leaders, citizens, and compassionate human beings who are able to improve the moral, social, and ecological environment in which they and their families live. They are scientists and engineers who can work effectively in teams and whose work reflects intellectual and moral integrity; historians who write well and whose profound understanding of human nature and of divine influences informs their interpretation of human events; teachers whose love for their students as children of God is enriched by global awareness and foreign language skill; artists whose performances seek to be flawless in both technique and inspiration; business leaders whose economic judgments and management styles see financial reward not as an end but as a means to higher ends. BYU graduates thus draw on an educated intellect to enhance not only what they *know* but also what they *do* and, ultimately, what they *are*.

Character Building

A firm, unchangeable course of righteousness through life is what secures to a person true intelligence.

—Brigham Young[6]

Because it seeks to educate students who are renowned for what they are as well as for what they know, Brigham Young University has always cared as much about strong moral character as about great mental capability. Consequently, a BYU education should reinforce such moral virtues as integrity, reverence, modesty, self-control, courage, compassion, and industry. Beyond this, BYU aims not merely to teach students a code of ethics but to help them become partakers of the divine nature. It aspires to develop in its students character traits that flow from the long-term application of gospel teachings to their lives. This process begins with understanding humankind's eternal nature and ends with the blessing of eternal life, when human character reflects in fully flowered form the attributes of godliness. Along the way, the fruits of a well-disciplined life are augmented and fulfilled by the fruits of the spirit of Jesus Christ—such as charity, a Christlike love for others, which God "hath bestowed upon all who are true followers of his Son, Jesus Christ" (Moroni 7:48). Students thus perfect their quest for character development by coming unto Christ through faith, repentance, and righteous living. Then their character begins to resemble his, not just because they think it should but because that is the way they are.

President David O. McKay taught that character is the highest aim of education: above knowledge is wisdom, and above wisdom is character. "True education," he explained, "seeks to make men and women not only good mathematicians, proficient linguists, profound scientists, or brilliant literary lights, but also honest men with virtue, temperance, and brotherly love."[7] Consequently, a BYU education should bring together the intellectual integrity of fine academic discipline with the spiritual integrity of personal righteousness. The result is competence that reflects the highest professional and academic standards—strengthened and ennobled by Christlike attributes.

Thus understood, the development of character is so important that BYU "has no justification for its existence unless it builds character, creates and develops faith, and makes men and women of strength and courage, fortitude, and service—men and women who will become stalwarts in the Kingdom and bear witness of the . . . divinity of the gospel of Jesus Christ. It is not justified on an academic basis only."[8] Rather, it fulfills its promise when "the morality of the graduates of this University provide[s] the music of hope for the inhabitants of this planet."[9]

Every part of the BYU experience should therefore strengthen character—academic integrity in taking a test or writing a research paper; sportsmanship on the playing field; the honest reporting of research findings in a laboratory; careful use of university funds derived from the tithes of Church members; treating all other people with dignity and fairness; and wholehearted acceptance of commitments made to bishops and parents. Character is constructed by small decisions. At this personal level of detail, BYU will realize its hope of teaching "those moral virtues which characterize the life and teachings of the Son of God" (Mission Statement).

Lifelong Learning and Service

We might ask, when shall we cease to learn? I will give you my opinion about it; never, never. . . . We shall never cease to learn, unless we apostatize from the religion of Jesus Christ.

—Brigham Young[10]

Our education should be such as to improve our minds and fit us for increased usefulness; to make us of greater service to the human family.

—Brigham Young[11]

Well-developed faith, intellect, and character prepare students for a lifetime of learning and service. By "entering to learn" and continuing to learn as they "go forth to serve," BYU students strengthen not only themselves—they "also bring strength to others in the tasks of home and family life, social relationships, civic duty, and service to mankind" (Mission Statement).

1. Continual Learning. BYU should inspire students to keep alive their curiosity and prepare them to continue learning throughout their lives. BYU should produce careful readers, prayerful thinkers, and active participants in solving family, professional, religious, and social problems. They will then be like Abraham of old, who had been "a follower of righteousness, desiring also to be one who possessed great knowledge, and to be a greater follower of righteousness, and to possess a greater knowledge, . . . desiring to receive instructions, and to keep the commandments of God." In this lifelong quest, they, like Abraham, will find "greater happiness and peace and rest" (Abraham 1:2). Thus a BYU diploma is a beginning, not an end, pointing the way to a habit of constant learning. In an era of rapid changes in technology and information, the knowledge and skills learned this year may require renewal the next. Therefore, a BYU degree should educate students in how to learn, teach them that there is much still to learn, and implant in them a love of learning "by study and also by faith" (D&C 88:118).

2. Service. Since a decreasing fraction of the Church membership can be admitted to study at BYU, it is ever more important that those who are admitted use their talents to build the kingdom of God on the earth. Hence, BYU should nurture in its students the desire to use their knowledge and skills not only to enrich their own lives but also to bless their families, their communities, the Church, and the larger society. Students should learn, then demonstrate, that their ultimate allegiance is to higher values, principles, and human commitments rather than to mere self-interest. By doing this, BYU graduates can counter the destructive and often materialistic self-centeredness and worldliness that afflict modern society. A service ethic should permeate every part of BYU's activities—from the admissions process through the curriculum and extracurricular experiences to the moment of graduation. This ethic should also permeate each student's heart, leading him or her to the ultimate wellspring of charity—the love for others that Christ bestows on his followers.

Conclusion

Education is a good thing, and blessed is the man who has it, and can use it for the dissemination of the Gospel without being puffed up with pride.

—Brigham Young[12]

These are the aims of a BYU education. Taken together, they should lead students toward wholeness: "the balanced development of the total person" (Mission Statement). These aims aspire to promote an education that helps students integrate all parts of their university experience into a fundamentally sacred way of life—their faith and reasoning, their knowledge and conduct, their public lives and private convictions. Ultimately, complete wholeness comes only through the Atonement of him who said, "I am come that they might have life, and that they might have it more abundantly" (John 10:10). Yet a university education, guided by eternal principles, can greatly "assist individuals in their quest for" that abundant "eternal life" (Mission Statement).

A commitment to this kind of education has inspired the prophets of the past to found Church schools, like BYU, on the principle that "to be learned is good if they hearken unto the counsels of God" (2 Nephi 9:29). These prophets have known the risks of such an enterprise, for "that happiness which is prepared for the saints" shall be hid forever from those "who are puffed up because of their learning, and their wisdom" (see 2 Nephi 9:42–43). Yet they have also known that education plays a vital role in realizing the promises of the Restoration; that a broad vision of education for self-reliance and personal growth is at the very heart of the gospel when the gospel is at the heart of education. To the degree that BYU achieves its aims, the lives of its students will confirm Brigham Young's confidence that education is indeed "a good thing," blessing all those who humbly and faithfully use it to bless others.

UNDERGRADUATE CATALOG 2008 - 2009

University Calendar

The annual calendar at BYU includes two semesters and two terms. Fall semester 2008 begins the first Tuesday in September and ends before the Christmas holidays. Winter semester is from early January to late April. Spring and summer terms begin April 29 and June 23 respectively. Registering for spring and summer terms allows students to accelerate their progress in many degree programs.

Fall Semester 2008		
M	Dec 1, 2007	Departmental application deadlines for fall semester 2008 entry to graduate study may be as early as December 1, 2007. For specific program and department deadlines and requirements, refer to the department listing in the 2008-2009 BYU Graduate Catalog or check with the department.
M	Jan 15, 2008	Last day continuing students can apply for Spring/Summer scholarships
Th	Feb 1	Last day new freshmen may apply to be considered for the Gordon B. Hinckley Scholarship for fall semester 2008
Th	Feb 1	Last day new freshmen may submit undergraduate applications for spring term 2008, summer term 2008, or fall semester 2008 admission, academic scholarships, and talent awards
Th	Feb 1	Last day international students (new freshman, transfer, and former) may submit admission applications for spring term 2008
Th	Mar 1	All enrolled continuing undergraduate, graduate, intern, or Study Abroad students' Continuing Student Ecclesiastical Endorsements are due to avoid registration delays for fall semester 2008
Th	Mar 1	Last day transfer and former BYU students (including international students) may submit undergraduate admission applications for spring term 2008, summer term 2008, or fall semester 2008
Th	Mar 1	Last day transfer students may submit undergraduate scholarship applications for fall semester 2008
Th	Mar 1	Last day to submit a continuing student enrollment and scholarship deferment application for spring term 2008, summer term 2008, or fall semester 2008
Su	Apr 15	Last day continuing undergraduate students and former students admitted spring term, summer term, or fall semester 2008 may apply for scholarships for fall semester 2008 or winter semester 2009
M	Aug 25	First day summer term 2008 grades are available
MTW	Aug 25-27	Annual University Conference
T	Aug 26	Tuition due in full. Ability to add additional courses for fall 2008 will be restricted due to non-payment
ThFSa	Aug28-30	New Student Orientation
M	Sep 1	Labor Day holiday
M	Sep 1	Last day to officially discontinue enrollment without a withdraw date posted on the transcript
T	Sep 2	Classes begin
M	Sep 15	Last day for undergraduates to apply and pay fee for December 2008 graduation
M	Sep 15	Last day to add classes
M	Sep 15	Last day for new and continuing students to submit Student Health Plan enrollment or certification of other coverage through the Route Y Web site
M	Sep 15	Last day to drop classes without incurring a pro-rata tuition charge
M	Sep 15	Last day to drop a class without a W (official withdrawal) appearing on the transcript
M	Sep 15	Final tuition deadline. Current class enrollment will be dropped for non-payment. Late payments will not be accepted.
Th	Sep 19	Last day to withdraw from a first block class for academic reasons
F	Sep 26	Last day graduate students may apply for December 2008 graduation
W	Oct 1	Last day new freshmen, transfer, and former BYU students (including international students) may submit undergraduate admission/scholarship applications for winter semester 2009
W	Oct 1	Last day to submit a continuing student enrollment and scholarship deferment application for winter semester 2009
M	Oct 6	Last day to officially discontinue from first block classes for nonacademic emergencies
M	Oct 6	Last day to withdraw from a semester class for academic reasons
T	Oct 21	Last day of first block classes
W	Oct 22	Second block classes begin
W	Oct 29	Last day to add second block classes
W	Oct 29	Last day to drop a second block class without a W (official withdrawal) appearing on the transcript
F	Oct 31	Last day graduate students in dissertation, thesis, or selected project programs may schedule a final oral examination (defense of their work) and submit one copy of their work to their department for December 2008 graduation
F	Nov 7	Last day to withdraw from a second block class for academic reasons
F	Nov 7	Last day Independent Study course work and midterms may be submitted for December 2008 graduation
F	Nov 14	Last day graduate students in dissertation, thesis, or selected project programs may have a final oral examination (defense of their work) for December 2008 graduation

Winter Semester 2009

Th	Feb 1, 2008	Departmental application deadlines for winter semester 2009 entry to graduate study may be as early as February 1, 2008. For specific program and department deadlines and requirements, refer to the department listing in the 2008–2009 BYU Graduate Catalog or check with the department
Su	Apr 15	Last day continuing undergraduate students may apply for scholarships for winter semester 2009
M	Oct 1	Last day new freshmen, transfer, and former BYU students (including international students) may submit undergraduate admission/scholarship applications for winter semester 2009
M	Oct 1	Last day to submit a continuing student enrollment and scholarship deferment application for winter semester 2009
Sa	Nov 15	Last day for undergraduates to apply and pay fee for April 2009 graduation
M	Dec 29	Tuition due in full. Ability to add additional courses for winter 2009 will be restricted due to non-payment
Sa	Jan 3, 2009	New Student Orientation
Su	Jan 4	Last day to officially discontinue enrollment without a withdraw date posted on the transcript
M	Jan 5	Classes begin
T	Jan 15	Last day continuing students can apply for Spring/Summer scholarships
F	Jan 16	Last day to add classes
F	Jan 16	Last day for new students to submit Student Health Plan enrollment or certification of other coverage through the Route Y Web site
F	Jan 16	Last day to drop classes without incurring a pro-rata tuition charge
F	Jan 16	Last day to drop a class without a W (official withdrawal) appearing on the transcript
F	Jan 16	Final tuition deadline. Current class enrollment will be dropped for non-payment. Late payments will not be accepted.
M	Jan 19	Martin Luther King Day holiday
Th	Jan 22	Last day to withdraw from a first block class for academic reasons
F	Jan 23	Last day graduate students may apply for April 2009 graduation
F	Feb 1	Last day new freshmen may submit unergraduate applications for spring term 2009, summer term 2009, or fall semester 2009 admission, academic scholarships, and talent awards
F	Feb 1	Last day international students (new freshman, transfer, and former) may submit admission/scholarship applications for spring term 2009
F	Feb 1	Last day new freshmen (including international students) may apply to be considered for the Gordon B. Hinckley Scholarship for fall semester 2009
M	Feb 9	Last day to officially discontinue from a first block class for nonacademic emergencies
M	Feb 9	Last day to withdraw from a semester class for academic reasons
M	Feb 16	Presidents' Day holiday
T	Feb 17	Monday class instruction—no Tuesday classes
F	Feb 20	Last day graduate students in dissertation, thesis, or selected project programs may schedule a final oral examination (defense of their work) and submit one copy of their work to their department for April 2009 graduation
W	Feb 25	Last day of first block classes
Th	Feb 26	Second block classes begin
Sa	Mar 1	Last day transfer and former BYU students—including international students (except for spring term—see Feb 15)—may submit undergraduate admission/scholarship applications for spring term 2009, summer term 2009, or fall semester 2009
Sa	Mar 1	All enrolled continuing undergraduate, graduate, intern, or Study Abroad students' Continuing Student Ecclesiastical Endorsements are due to avoid registration delays for fall semester 2009
Sa	Mar 1	Last day to submit a continuing student enrollment and scholarship deferment application for spring term 2009, summer term 2009, or fall semester 2009
Sa	Mar 1	Last day transfer students may submit undergraduate scholarship applications for fall semester 2009
Th	Mar 5	Last day to add second block classes
Th	Mar 5	Last day to drop a second block class without a W (official withdrawal) appearing on the transcript
F	Mar 6	Last day graduate students in dissertation, thesis, or selected project programs may have a final oral examination (defense of their work) for April 2009 graduation
F	Mar 13	Last day graduate students may submit their dissertation, thesis, or selected project to the dean of their college for April 2009 graduation
F	Mar 14	Last day Independent Study course work and midterms may be submitted for April 2009 graduation
Sa	Mar 15	Due date for Continuing Student Ecclesiastical Endorsement for academic year Fall 2009–Summer 2010
Su	Mar 15	Full payment due on BYU short-term loans for Winter semester 2009
M	Mar 16	Last day to withdraw from a second block class for academic reasons
F	Mar 20	Last day graduate students may submit their dissertation, thesis, or selected project to the Library Business Office; complete remaining degree requirements; pay fees; and submit exam results and any I and T, etc., grade changes to Graduate Studies for April 2009 graduation
F	Mar 28	Last day undergraduates may submit to the Records Office all incompletes, T grades, special exams, GE challenges, military credit, official transcripts of work completed at other schools, and any other information pertaining to April 2009 graduation
W	Apr 1	Last day to officially discontinue from the university or withdraw from a class for nonacademic emergencies
F	Apr 3	Last day Independent Study final exams may be submitted for April 2009 graduation
T	Apr 15	Last day continuing undergraduate students and former students admitted spring term, summer term, or fall semester 2009 may apply for scholarships for fall semester 2009 and winter semester 2010

Spring Term 2009

M	Sept 15, 2008	Departmental application deadlines for spring term 2009 entry to graduate study may be as early as September 15, 2008. For specific program and department deadlines and requirements, refer to the department listing in the 2008–2009 BYU Graduate Catalog or check with the department
T	Jan 15, 2009	Last day continuing undergraduate students may submit scholarship applications for spring or summer terms 2009
F	Feb 1	Last day new freshmen may submit undergraduate applications for spring term 2009, summer term 2009, or fall semester 2009 admission, academic scholarships, and talent awards
F	Feb 1	Last day international students (new freshman, transfer, and former) may submit admission applications for spring term 2009
Sa	Mar 1	Last day transfer and former BYU students—including international students (except for spring term—see Feb 15)—may submit undergraduate admission applications for spring term 2009, summer term 2009, or fall semester 2009
Sa	Mar 1	All enrolled continuing undergraduate, graduate, intern, or Study Abroad students' Continuing Student Ecclesiastical Endorsements are due to avoid registration delays for fall semester 2009
Sa	Mar 1	Last day to submit a continuing student enrollment and scholarship deferment application for spring term 2009, summer term 2009, or fall semester 2009
Sa	Mar 1	Last day transfer students may submit scholarship applications for spring term, summer term, or fall semester 2009
Sa	Mar 1	Last day former students admitted spring term or summer term 2009 may apply for spring term and summer term 2009 scholarships
W	Apr 15	Last day for undergraduates to apply and pay fee for August 2009 graduation
T	Apr 15	Last day former students may apply for fall semester 2009 or winter semester 2010 scholarships
T	Apr 21	Tuition due in full. Ability to add additional courses for spring 2009 will be restricted due to non-payment
M	Apr 27	Last day to discontinue enrollment without a withdraw date posted on the transcript
M	Apr 27	New Student Orientation
T	Apr 28	Classes begin
T	May 5	Last day to add classes
T	May 5	Last day for new students to submit Student Health Plan enrollment or certification of other coverage through the Route Y Web site
T	May 5	Last day to drop classes without incurring a pro-rata tuition charge
T	May 5	Last day to drop a class without a W (official withdrawal) appearing on the transcript
T	May 5	Final tuition deadline. Current class enrollment will be dropped for non-payment. Late payments will not be accepted
Th	May 14	Last day to withdraw from a class for academic reasons
F	May 22	Last day graduate students may apply for August 2009 graduation
M	May 25	Memorial Day holiday
M	Jun 1	Full payment due on BYU short-term loans for spring term 2009
T	Jun 2	Last day to officially discontinue from the university or withdraw from a class for nonacademic emergencies
M	Jun 15	Last day of class instruction
T	Jun 16	Exam preparation day
WTh	Jun 17–18	Final exams
F	Jun 19	Last day graduate students in dissertation, thesis, or selected project programs may schedule a final oral examination (defense of their work) and submit one copy of their work to their department for August 2009 graduation
F	Jun 26	Last day instructors may submit spring term 2009 grades to the Records Office
M	Jun 29	Spring term 2009 grades available
M	Jun 30	Last day federal government will accept Free Application for Federal Student Aid (FAFSA) for 2008–2009 academic year

Summer Term 2009

M	Dec 15, 2008	Departmental application deadlines for summer term 2009 entry to graduate study may be as early as December 15, 2008. For specific program and department deadlines and requirements, refer to the department listing in the 2008—2009 BYU Graduate Catalog or check with the department
T	Jan 15, 2009	Last day continuing undergraduate students may submit scholarship applications for summer term 2009
F	Feb 1	Last day new freshmen may submit undergraduate applications for summer term 2009 or fall semester 2009 admission, and academic scholarships
Sa	Mar 1	Last day transfer and former BYU students—including international students—may submit undergraduate admission applications for summer term 2009 or fall semester 2009
Sa	Mar 1	All enrolled continuing undergraduate, graduate, intern, or Study Abroad students' Continuing Student Ecclesiastical Endorsements are due to avoid registration delays for fall semester 2009
Sa	Mar 1	Last day to submit a continuing student enrollment and scholarship deferment application for summer term 2009 or fall semester 2009
Sa	Mar 1	Last day transfer students may submit scholarship applications for summer term and fall semester 2009
Sa	Mar 1	Last day former students admitted for summer term 2009 may apply for summer term 2009 scholarships
W	Apr 15	Last day for undergraduates to apply and pay fee for August 2009 graduation

Brigham Young University: A Unique Environment

Religious Environment

The Church of Jesus Christ of Latter-day Saints sponsors BYU to provide a university education in an atmosphere that nurtures spiritual growth and a strong conviction of the divinity of Jesus Christ. Church programs are closely correlated at all levels with the activities of the university, and students will find many opportunities to grow spiritually.

Religion Classes

All students at BYU should include regular gospel study as a continuous part of their university experience. Full-time undergraduate students take one religion class each semester of enrollment until a total of 14 semester hours of religion credit has been earned. See The University Core section of this catalog for more information.

University Devotionals

University devotionals, held throughout the year on Tuesdays at 11:05 a.m., provide an inspirational and integrative part of the university experience. These assemblies are occasions to celebrate the shared sense of community values in the university. Participation in these gatherings will renew spiritual commitment. Devotional speakers, selected from the General Authorities and other leaders of the Church and university personnel, come to teach the gospel and affirm the spiritual dimension of the university experience for students, faculty, and staff.

Most campus offices and services are closed during university assemblies so that members of the university community may participate.

BYU Stakes and Wards

To give students maximum opportunity to participate, the Church is organized into a number of BYU stakes composed of several wards of approximately 150 members each. All single students living away from home who are members of The Church of Jesus Christ of Latter-day Saints become members of a BYU ward. Single LDS students living at home have the option of attending their home ward or a designated BYU ward. Married students not living in university housing may attend either the designated BYU ward or the residential ward in which they live.

Other Religious Denominations

Approximately twenty-five other religious denominations are represented in the BYU student body. These students are encouraged to attend a congregation of their faith in the surrounding area, if possible.

Academic Environment

The academic environment extends beyond the four walls of a university classroom. Serious students seek enrichment in the library, at university forums and lectures, and through research. Some students may choose to become involved in the Honors Program or live in one of the "quiet halls" on campus—and everyone benefits from drawing on the resources available at college advisement centers.

New Student Orientation

The purpose of New Student Orientation (NSO) is to welcome new and transfer students into the BYU community of disciple-scholars and to familiarize them with the opportunities and challenges of university learning. Additionally, NSO provides new students several opportunities to become acquainted with the resources available to them on campus. Finally, it offers a great chance to connect with other students, faculty members, and staff personnel.

NSO events and activities range from the academic through the informational to the out-and-out fun, but they are always friendly and focused on the needs of new students. NSO activities vary according to the term or semester. They may include campus tours; learning about the library, academic advising, scholarships, financial aid, and honors education; and an introduction to several of the emotionally and spiritually satisfying traditions of the Y.

Many of the activities are organized around Y Groups, small cohorts of students led by upperclassmen, which offer students individualized attention. Orientation at BYU balances the various needs of new students by combining appropriate resources, activities, and personnel. To become fully integrated into an institution as large and complex as BYU, active participation in NSO is vital.

New Student Orientation is held three times a year, immediately prior to winter semester, summer term, and fall semester. Please refer to the Web page at http://fye.byu.edu for detailed information and registration.

University Forums

University forums are held on selected Tuesdays at 11:05 a.m. and are designed to enrich the general education experience. Speakers are noted authorities in the arts, sciences, humanities, media, and government, chosen for their contributions to their field and their ability to inspire and communicate. Participation in these assemblies and the associated question-and-answer sessions prompts inquiry into significant intellectual, cultural, and social issues and helps lay the foundation for lifelong learning.

Harold B. Lee Library

The Harold B. Lee Library (HBLL) collection numbers over eight million volumes, including books, periodicals, government documents, microfilm, and other nonprint items. The library's Web-based catalog contains numerous full-text databases and many electronic indexes to other sources.

The library is a depository for United State government documents and regularly receives publications of state and local governments. The Religion and Family History Library supports family history and genealogy through an extensive collection of microfilm, microfiche, and online resources. L. Tom Perry Special Collections houses non-circulating books and manuscripts related to Mormonism, western Americana, incunabula, Victorian and Edwardian literature, historical manuscripts and photographs, motion pictures, and many other preserved items for research and use.

The general collection is housed on five levels of the library. An information commons is located on the ground floor (level 3), and professional librarians and support staff provide research assistance at eight additional subject reference desks. Instruction in library and information literacy is available. The general library facilities are open to students, faculty, administrative and staff personnel, alumni, and other community patrons.

BYU libraries provide excellent teaching and research support for faculty and other university personnel. Library subject specialists and archival curators are available for instruction or lectures on library resources and to assist in designing class assignments that involve library research.

The library is open during fall and winter semesters from 7:00 a.m. to midnight Monday through Friday and from 8:00 a.m. to midnight Saturday.

BYU students and faculty may also use the facilities of other Utah college and university libraries in the United States through cooperative agreements implemented through state and national library consortia. Libraries operated by The Church of Jesus Christ of Latter-day Saints are also available to BYU students and employees, including the library of the Church Historical Department located in Salt Lake City.

The Lee Library provides a faculty delivery service for pickup and delivery of books to and from faculty and administrative offices.

For books unavailable at the Harold B. Lee Library, an interlibrary loan service is available. Requests should be submitted through the ILLiad request system available on the library's web page (http://library.byu.edu).

Research and Creative Activities at BYU

One of the most exciting and valuable learning experiences available to both undergraduate and graduate students at BYU is the opportunity to participate in original research and creative activities. BYU has accomplished faculty members in all areas, many of whom enjoy international reputations for the quality of their creative endeavors. Many professors enlist the help of undergraduate students, who work side by side with faculty mentors and graduate students in a laboratory or studio setting.

A wide variety of research experiences are available in many departments across campus. For example, the student might be involved in the synthesis of a new medicinal drug in the chemistry laboratory or participate in the discovery of a new species of dinosaur on a Colorado mesa. Other examples of programs involving student participation include the study of robotics systems, computer architecture, battery technology, high-energy physics, international business methods, child psychology, drug-induced birth defects, educational methodology, molecular genetics, social implications of drug use, stability and satisfaction in marriage, Church history, and a host of other topics. Students who are interested in participating in research programs are encouraged to contact their major department chair or speak directly with individual professors.

The **Office of Research and Creative Activities (ORCA)** manages, on behalf of the administration, two programs whose purpose is to bring together students and faculty in mentored experiences. The first is the ORCA Mentoring Grants for Undergraduates Program. Requests for proposals go out to all undergraduate, full-time students. One-third of all proposals are usually funded at $1800 each. Awards are made early in the semester following application. The second is the Mentored Environments Grants Program. Faculty are encouraged to submit proposals to create or enhance a mentored environment for undergraduate and graduate students. Awards range from $2,000 to $20,000, and proposals are collected in late fall and awarded in midwinter. For more information, contact any department or college, or contact ORCA at A-285 ASB, (801) 422-3841, http://orca.byu.edu.

Internships

Internships and other applied learning experiences, such as clinical and field studies, integrate academic studies with professional or career-related work experience. They are required by some degree programs and recommended by others to strengthen or complement a student's major or minor field of study. In addition to experiences within the United States, opportunities in international settings are also available when approved by the David M. Kennedy Center for International Studies.

Students who want or need academic credit for internships and other formal applied, cooperative learning experiences must receive prior department and university approval and complete formal registration before commencing. Course offerings vary according to student and program needs. Registration in a department's 199R, 299R, 399R, 496R, 599R, or 688R course is required for internship credit. Individual departments specify course numbers for clinical, practicum, or other applied, cooperative learning courses. Credit varies, generally ranging from 0.5 to 12 semester hours. Grades are based on both academic and work-related accomplishments.

To learn more about the opportunities and benefits of applied, cooperative learning experiences, contact a college or department internship coordinator, visit or call the BYU Internship Office (130A B-34, 801-422-3337), or go to http://www.byu.edu/intern.

Center for Service and Learning

Main Office: 2010 WSC, (801) 422-1277
Community Service Office: 2330 WSC, (801) 422-8686

Seeking to instill a desire for lifelong service, the Center for Service and Learning (CSL) works to provide every student with a meaningful service opportunity. The CSL's valuable network of community resources supports student volunteers, who expand their experience by reaching beyond themselves to achieve greater awareness of their surroundings and the local community. As students learn to better serve the human family, they also improve their minds and talents.

The CSL Main Office includes administrative offices, Tutoring Services, and Tutor Outreach to Provo Schools (TOPS). Tutoring is free for BYU students, and they can expect to meet with their tutor for one to three hours per week. Available for most BYU classes, tutors are frequently requested for GE math and science courses. Because tutors are provided on a first come, first served basis, students are encouraged to sign up early. Volunteer tutors are recruited throughout the year. The TOPS program offers opportunities for students to gain valuable experience serving as mentors and tutors in the local public schools.

The CSL Community Service Office coordinates over 28 programs. These programs, run by students, range from blood drives to mentoring. In addition, an Urgent Needs board and a database posting current service opportunities are maintained by the center. The center's web site, http://centerforservice.byu.edu, is an excellent resource offering online access to all opportunities. The Volunteer Solutions database found on the web site allows students to search according to their availability and interests (major and hobbies). These listings are available in hard copy at the center. Opportunities are available for individuals, FHE groups, or wards and stakes. For immediate "hands on" service, the center offers the Stop & Serve program.

Student Development Course Work

The Counseling and Career Center offers courses under the title Student Development. These courses are designed to help with the personal challenges and tasks facing college students. Some of the relevant student-centered topics are college study skills, life planning, time management, decision making, and test taking strategies. Several courses are also designed to help students decide on a college major and a career and to make the transition from college to the world of work. Each class has material to help students identify their values, develop character, and make progress with their personal goals for life. The BYU Undergraduate Catalog and the current class schedule list these courses under Student Development. For further information contact the Counseling and Career Center, 2510 WSC, (801) 422-4007.

Academic Support Office

2500 WSC
(801) 422-2723
E-mail: academic_support@byu.edu

All students admitted to the university have the potential to succeed academically; however, some students have difficulty achieving the level of success required to remain in good academic standing. The mission of the Academic Support Office is to assist students in maintaining that level of academic success. Administered through the Counseling and Career Center, a department of Student Life, the Academic Support Office uses the combined resources of the university to help students resolve most academic problems.

Students with academic problems often have difficulties in one or more of the following areas: (1) Personal concerns outside the academic realm—such as adjustment problems, illness, or relationship problems—that distract from academic goals. Such problems may be addressed by helping students refocus on their goals. (2) Inadequate academic preparation to meet the rigors of a university experience. Study-skills training helps students identify strategies appropriate to the university experience. (3) Learning styles that worked in high school but are not productive at the university. A learning-style assessment and counseling may help students identify and use academic strengths more successfully. (4) Ambiguous career goals that cause students to flounder within the university. With career guidance they can move toward a more timely graduation.

Counselors are trained to assist students with time management, study skills, learning style, career choice, and other academic concerns. Students who experience academic difficulties are encouraged to contact the Academic Support Office.

Graduate Studies

B-356 ASB
Phone: (801) 422-4091

To the student seeking advanced study, Brigham Young University offers a variety of graduate degree opportunities. Excellent graduate programs can be found in each of the colleges and schools, and successful completion of one results in the awarding of a master's or doctoral degree.

The master's degree requires advanced course work, demonstrated mastery in vital aspects of a discipline, skill in research methodology and theory, and preparation for future creative work. In certain disciplines, graduate programs blend scholarly insight with technical knowledge and skill. Integrative examinations, a major culminating piece of written work or performance, and an accompanying oral defense of that work may be required.

The doctoral degree requires the student to demonstrate an impressive scholarly competence, which includes the ability to conduct and report research in a highly effective manner. Advanced systematic study in a discipline is also essential and is followed by comprehensive examinations that require students to integrate and understand the collective knowledge of their disciplines. A dissertation resulting from independent research is defended in a concluding oral examination.

Students who are interested in pursuing advanced degrees are encouraged to become involved in research and creative activities during their undergraduate experience.

For information about master's and doctoral degree programs, students should consult the 2007–2008 BYU Graduate Catalog online at http://byu.edu/gradstudies.

Application information is available online at http://byu.edu/gradstudies, through Graduate Studies, and through individual departments. For information regarding admission to the J. Reuben Clark Law School, see the Law School section of this catalog.

Cultural Environment

Students can immerse themselves in culture at BYU. Dance, theatre, music, art exhibits, museums—all nourish the soul seeking after "anything virtuous, lovely, or of good report or praiseworthy."

BYU dance and music performance groups present major performances on campus each year and many tour throughout the world. Popular and classical plays, films, and musicals, as well as original works, are also offered throughout the year. The weekly International Cinema Program is another cultural offering worthy of note.

Performing Arts Series

The BYU Performing Arts Series presents some of the most celebrated artists in the world. Concerts and productions are scheduled throughout each year in the Harris Fine Arts Center and other venues. Season or individual event tickets are available at reduced prices for students, faculty, and staff. For further information contact the Fine Arts Ticket Office at (801) 422-HFAC (4322) or visit our web site at http://performances.byu.edu.

In recent years the Performing Arts Series has included:

Cleveland Sign Stage
Body Vox
Angela Chang
Ballet West
Nancy Ambrose King
Leigh Howard Stevens
Alison Brown Quartet
Utah Symphony

Guarneri String Quartet
Frederica von Stade

Faculty and Student Performances, Exhibitions, and Showcases

Throughout the year the faculty of the Departments of Visual Arts, Dance, Theatre and Media Arts, and the School of Music are featured in exhibitions, productions, and music performances.

As part of their educational experience, students, both individually and in groups, present concerts, exhibitions, films, plays, recitals, and productions. Theatre Ballet, The Dancers' Company, International Folk Dance Ensemble, Ballroom Dance Company, Philharmonic and Chamber Orchestras, Young Ambassadors, Living Legends, University Singers, and Synthesis Jazz Ensemble are but a few of the groups that perform in the various university venues. Plays, musical theatre, dance, and opera, as well as art and design exhibitions, are also a part of the outstanding student fare available to the university community.

For further information contact the Fine Arts Ticket Office at (801) 422-HFAC (4322), or visit our web site at http://performances.byu.edu.

Museum of Art

The Museum of Art was completed and opened during fall 1993. Funded by private donors, the 100,000-square-foot museum is located directly north of the Harris Fine Arts Center. A sculpture garden separates the two buildings, and together they form a striking visual and performing arts center. The museum houses the university's superb collection of paintings, sculpture, decorative arts, and works on paper. Major bodies of work the university owns are by such eminent artists as Mahonri Y. Young, J. Alden Weir, Maynard Dixon, C. C. A. Christensen, and Minerva Teichert. Besides its rich array of American art, the collection includes rare prints by Rembrandt, Dürer, and Daumier and a growing collection of important religious works.

Major traveling exhibitions and exhibitions from the museum's permanent collections are scheduled on a rotating basis. The museum offers a variety of educational programs for campus and community audiences as well. Included in the museum are a print study room, a lecture room, and an orientation theater. The museum also features a café, bookstore, and auditorium.

Students play an important role in the Museaum of Art. Not only are they employed in service capacities in each of the museum's departments but the museum also offers a rigorous internship program that affords selected students opportunities to be mentored on significant museum projects. Many students also serve as volunteer docents. While earning course credits toward their degrees, students gain valuable experience in museum education, curation, registration, administration, and even fabrication.

M. L. Bean Life Science Museum

Larry L. St. Clair, Director
Jack Sites, Associate Director
Marta Adair, Assistant Director
290 MLBM

The Monte L. Bean Life Science Museum is a fully functional, accredited, professional museum. Its vast teaching and research collections include nearly two million arthropods, fish, amphibians, reptiles, mammals, birds, and prepared shells, and more than 600,000 plants, lichens, and bryophytes. Specimens for these collections, which represent creative work by university faculty and students, have been gathered from around the world, making the museum one of the major repositories of scientific-quality, biological collections in the western United States.

The museum and its collections are utilized by university classes in biology, plant and wildlife sciences, education, art, and other disciplines. The Monte L. Bean Life Science Museum also maintains and manages the Lytle Nature Preserve. Located in the northernmost extension of the Mojave Desert southwest of St. George, Utah, this 562-acre desert classroom is situated in a part of Utah that is unique not only for its plant and animal communities but also for its setting at the crossroads of three major bioregions.

Public programs include temporary and permanent exhibits of natural communities that illustrate complex relationships between plants, animals, and their physical environment. Educational programs serve more than 80,000 annual visitors and provide classes and programs for public and private schools and many other organizations. Museum hours are Monday through Friday from 10:00 a.m. to 9:00 p.m. and Saturday from 10:00 a.m. to 5:00 p.m. The museum is closed on Sunday. Admission is free.

The Western North American Naturalist, a nationally recognized peer-reviewed natural history journal, is housed in the museum. Other museum publications include professional and popular works such as *A Utah Flora, Snakes of Utah,* and *Common Rocky Mountain Lichens.*

Museum of Peoples and Cultures

Paul R. Stavast, Interim Director
Glenna Nielsen, Curator of Collections
105 ALLN

The Museum of Peoples and Cultures (MPC) houses, cares for, and performs research on archaeological and ethnographic collections from around the world. The strengths of the museum's holdings are in prehistoric Utah, the American Southwest, Mesoamerica, Andean cultures, and Polynesia. An approved state and federal archaeological repository, the museum also holds a noncirculating library and a photographic archive documenting BYU archaeological research and artifactual materials.

Institutional objectives are to interpret and help elucidate the history and culture of the peoples of the world and to convey that knowledge to the scholarly community as well as to the general public. The museum's strongest commitment lies in serving the teaching and research functions of the university. In this, BYU's "teaching museum," not only do students perform office and collections duties, but they also curate all exhibitions as part of the formal curricula taught by museum staff adjunct to the Department of Anthropology. Students plan and execute public programs and design promotional strategy as part of their course work as well. These curricula are available in the department's Certificate in Museum Practices program. Students concurrently enrolled in a cognate master's program are eligible to apply to this graduate program. Three of the certificate courses (Anthr 511, 522, and 525) have no prerequisite and are available for undergraduate enrollment.

The museum's student exhibitions are staged in Allen Hall and change with each certificate class. The museum also produces occasional satellite exhibits at other university locations, such as the Museum of Art and the Joseph Smith Building. Tours of the Allen Hall galleries can be arranged by calling (801) 422-0020. Because scheduling is based on student employee availability, it is advisable to book tours from one to three weeks in advance. Visitors may also choose to guide themselves through the galleries, but groups larger than fifteen people should contact the museum in advance for logistical instructions.

The MPC offers many community educational opportunites. Available for loan to classrooms and inbound populations are anthropology teaching kits that explore the native cultures of various geographical areas. The kits include replica artifacts, handicrafts, and educational books and videos.

Students and civic volunteers are invited to help with educational programming, public relations, archaeological research, and public presentations. The MPC hosts an activity patch program for Scouts of all ages and other interested parties. Museum patches can be earned by visiting the museum and completing the patch requirements. For information about any of these programs, call (801) 422-0020.

Located at 700 North 100 East in Provo (one block south of the Brick Oven restaurant), the museum is open from 9:00 a.m. to 5:00 p.m. Monday through Friday and at other times through appointment. Admission is free, and guided tours can be arranged for a nominal charge. The MPC is closed on holidays and for two weeks in December between fall and winter semesters. Office and library hours vary according to student schedules.

Recreational Environment

Students can enjoy the small-town friendliness of Provo or drive 45 miles to the north for the cosmopolitan diversity that Salt Lake City offers. Whereas Salt Lake City is home to Ballet West, the Mormon Tabernacle Choir, and the Utah Symphony, the Provo area prides itself on its own Utah Valley Symphony and several fine community music, dance, and theatre groups.

Intercollegiate Competition

BYU begins its eighth year in the Mountain West Conference, which also includes the Air Force Academy, Colorado State University, the University of Nevada–Las Vegas, the University of New Mexico, San Diego State University, Texas Christian University, the University of Utah, and the University of Wyoming.

BYU sponsors twenty-one NCAA intercollegiate sports for men and women. The men compete in ten sports: baseball, basketball, cross country, football, golf, swimming and diving, tennis, indoor track, outdoor track and field, and volleyball.

The women compete in eleven intercollegiate sports: basketball, cross country, golf, gymnastics, soccer, softball, swimming and diving, tennis, indoor track, outdoor track and field, and volleyball.

Consistently ranked among the nation's top twenty-five athletic programs, BYU has won NCAA championships in football, men's track and field, men's golf, women's cross country (four), and men's volleyball (three). The Cougars have also won two NIT titles in men's basketball.

Extramural Competition

The extramural sports program at BYU provides opportunities for students to participate on an intercollegiate level throughout the United States and Canada in team sports not designated NCAA.

One of the best organized and most respected programs in the country, BYU's extramural sports program offers four sports for men (soccer, racquetball, lacrosse, and rugby) and one sport for women (racquetball). Many of the teams have been nationally ranked during the last several years.

Athletic Facilities

BYU's athletic facilities are among the best in the nation. Complementing the major sports complexes—the Marriott Center, football stadium, baseball diamond, softball diamond, indoor tennis pavilion, and track and field stadium—are the Richards Building and the Smith Fieldhouse. The Richards Building has facilities for racquetball, volleyball, basketball, aerobics, dance, and swimming, and the Smith Fieldhouse houses ball courts, weight rooms, an indoor track, and a west annex big enough for spring batting practice.

Intramural Activities

The campus intramural program, consisting of more than thirty events involving thousands of participants in both men's and women's activities, is one of the largest and most comprehensive in the United States. Students may participate in team activities and individual events. The intramural program offers divisions for different skill levels in each activity and provides awards for the winners in each division. Numerous employment opportunities are available as game supervisors and officials.

A Great Outdoors

The Wasatch Mountains overlook BYU on the east, and to the west lies Utah Lake. Within an hour's drive are several canyons and ski resorts; six national parks are only a half day away. Outdoor gear can be rented on campus for everything from skiing to windsurfing.

Church Educational System Honor Code

Brigham Young University, Brigham Young University—Hawaii, Brigham Young University—Idaho, and LDS Business College exist to provide an education in an atmosphere consistent with the ideals and principles of The Church of Jesus Christ of Latter-day Saints. That atmosphere is created and preserved through commitment to conduct that reflects those ideals and principles. Members of the faculty, administration, staff, and student body at BYU, BYU—Hawaii, BYU—Idaho, and LDSBC are selected and retained from among those who voluntarily live the principles of the gospel of Jesus Christ. Observance of such is a specific condition of employment and admission. Those individuals who are not members of The Church of Jesus Christ of Latter-day Saints are also expected to maintain the same standards of conduct, except church attendance. All who represent BYU, BYU—Hawaii, BYU—Idaho, and LDSBC are to maintain the highest standards of honor, integrity, morality, and consideration of others in personal behavior. By accepting appointment on the faculty, continuing in employment, or continuing class enrollment, individuals evidence their commitment to observe the Honor Code standards approved by the Board of Trustees "at all times and . . . in all places" (Mosiah 18:9).

Honor Code Statement

We believe in being honest, true, chaste, benevolent, virtuous, and in doing good to all men. . . . If there is anything virtuous, lovely, or of good report or praiseworthy, we seek after these things (Thirteenth Article of Faith).

As a matter of personal commitment, faculty, administration, staff, and students of Brigham Young University, Brigham Young University—Hawaii, Brigham Young University—Idaho, and LDS Business College seek to demonstrate in daily living on and off campus those moral virtues encompassed in the gospel of Jesus Christ, and will

Be honest
Live a chaste and virtuous life
Obey the law and all campus policies
Use clean language
Respect others
Abstain from alcoholic beverages, tobacco, tea, coffee, and substance abuse
Participate regularly in church services
Observe the Dress and Grooming Standards
Encourage others in their commitment to comply with the Honor Code

Specific policies embodied in the Honor Code include (1) the Academic Honesty Policy, (2) the Dress and Grooming Standards, (3) the Residential Living Standards, and (4) the Continuing Student Ecclesiastical Endorsement. (Refer to institutional policies for more detailed information.)

Academic Honesty Policy

The first injunction of the BYU Honor Code is the call to "be honest." Students come to the university not only to improve their minds, gain knowledge, and develop skills that will assist them in their life's work, but also to build character. "President David O. McKay taught that character is the highest aim of education" (The Aims of a BYU Education, p. 6). It is the purpose of the BYU Academic Honesty Policy to assist in fulfilling that aim.

BYU students should seek to be totally honest in their dealings with others. They should complete their own work and be evaluated based upon that work. They should avoid academic dishonesty and misconduct in all its forms, including but not limited to plagiarism, fabrication or falsification, cheating, and other academic misconduct:

Plagiarism

Intentional plagiarism is a form of intellectual theft that violates widely recognized principles of academic integrity as well as the Honor Code. Such plagiarism may subject the student to appropriate disciplinary action administered through the university Honor Code Office, in addition to academic sanctions that may be applied by an instructor. Inadvertent plagiarism, whereas not in violation of the Honor Code, is nevertheless a form of intellectual carelessness that is unacceptable in the academic community. Plagiarism of any kind is completely contrary to the established practices of higher education, where all members of the university are expected to acknowledge the original intellectual work of others that is included in one's own work. In some cases, plagiarism may also involve violations of copyright law.

Intentional Plagiarism—Intentional plagiarism is the deliberate act of representing the words, ideas, or data of another as one's own without providing proper attribution to the author through quotation, reference, or footnote.

Inadvertent Plagiarism—Inadvertent plagiarism involves the inappropriate, but nondeliberate, use of another's words, ideas, or data without proper attribution. Inadvertent plagiarism usually results from an ignorant failure to follow established rules for documenting sources or from simply being insufficiently careful in research and writing. Although not a violation of the Honor Code, inadvertent plagiarism is a form of academic misconduct for which an instructor can impose appropriate academic sanctions. Students who are in doubt as to whether they are providing proper attribution have the responsibility to consult with their instructor and obtain guidance.

Examples of plagiarism include:

Direct Plagiarism—The verbatim copying of an original source without acknowledging the source.

Paraphrased Plagiarism—The paraphrasing, without acknowledgment, of ideas from another that the reader might mistake for your own.

Plagiarism Mosaic—The borrowing of words, ideas, or data from an original source and blending this original material with one's own without

acknowledging the source.

Insufficient Acknowledgment—The partial or incomplete attribution of words, ideas, or data from an original source.

Plagiarism may occur with respect to unpublished as well as published material. Acts of copying another student's work and submitting it as one's own individual work without proper attribution is a serious form of plagiarism.

Fabrication or Falsification

Fabrication or falsification is a form of dishonesty where a student invents or distorts the origin or content of information used as authority. Examples include:

1. Citing a source that does not exist.
2. Attributing to a source ideas and information that are not included in the source.
3. Citing a source for a proposition that it does not support.
4. Citing a source in a bibliography when the source was neither consulted nor cited in the body of the paper.
5. Intentionally distorting the meaning or applicability of data.
6. Inventing data or statistical results to support conclusions.

Cheating

Cheating is a form of dishonesty where a student attempts to give the appearance of a level of knowledge or skill that the student has not obtained. Examples include:

1. Copying from another person's work during an examination or while completing an assignment.
2. Allowing someone to copy from you during an examination or while completing an assignment.
3. Using unauthorized materials during an examination or while completing an assignment.
4. Collaborating on an examination or assignment without authorization.
5. Taking an examination or completing an assignment for another or permitting another to take an examination or to complete an assignment for you.

Other Academic Misconduct

Academic misconduct includes other academically dishonest, deceitful, or inappropriate acts that are intentionally committed. Examples of such acts include but are not limited to:

1. Inappropriately providing or receiving information or academic work so as to gain unfair advantage over others.
2. Planning with another to commit any act of academic dishonesty.
3. Attempting to gain an unfair academic advantage for oneself or another by bribery or by any act of offering, giving, receiving, or soliciting anything of value to another for such purpose.
4. Changing or altering grades or other official educational records.
5. Obtaining or providing to another an unadministered test or answers to an unadministered test.
6. Breaking and entering into a building or office for the purpose of obtaining an unauthorized test.
7. Continuing work on an examination or assignment after the allocated time has elapsed.
8. Submitting the same work for more than one class without disclosure and approval.

Procedures for Handling Incidents of Academic Dishonesty or Other Academic Misconduct

Faculty are responsible to establish and communicate to students their expectations of behavior with respect to academic honesty and the student's conduct in the course. Responsible instructors will investigate these incidents, determine the facts, and take appropriate action. Finally, the instructor should notify the Honor Code Office of the final disposition of the incident as a means of encouraging behavior change and discouraging repeat violations. If the incident of academic dishonesty involves the violation of a public law, e.g., breaking and entering into an office or stealing an examination, the act should also be reported to University Police. If an affected student disagrees with the determination or action and is unable to resolve the matter to the mutual satisfaction of the student and the instructor, the student may have the matter reviewed through the university's grievance process (Student Academic Grievance Procedure).

Applicable Actions

A wide range of possible actions exists for cases of academic dishonesty. Instructors should take actions that are fair and equitable under the circumstances and should attempt to reach an understanding with the affected student on the imposition of an appropriate action. In some cases, the department, the college, or the university may also take actions independent of the instructor. Examples of possible actions include but are not limited to the following:

For instructors, programs, departments, and colleges:

Reprimanding the student orally or in writing.

Requiring work affected by the academic dishonesty to be redone.

Administering a lower or failing grade on the affected assignment, test, or course.

Removing the student from the course.

Recommending probation, suspension, or dismissal.

For the university:

The university may elect to place an affected student on probation or to suspend or dismiss the student and to place a temporary or permanent notation on the student's permanent academic transcript that he or she was suspended or dismissed due to academic misconduct.

The university may report an incident of academic misconduct to appropriate law enforcement officials and may prosecute an affected student if the act in question involves the commission of a crime (e.g., breaking into an office or building, stealing an examination, etc.).

Honor Code Office Involvement

The Honor Code Office will maintain a record of all violations of the Academic Honesty Policy reported to it by the faculty. If the occurrence is sufficiently egregious or if a pattern of dishonesty or misconduct is discovered, the Honor Code Office may take additional action on behalf of the university based upon the nature of the infraction(s). The Honor Code Office, in consultation with the involved academic personnel, including the associate academic vice president in charge of undergraduate studies, may determine to place a student on probation or to recommend that a student be suspended or dismissed for academic dishonesty and other forms of academic misconduct.

Shared Responsibility Policy Statement

Students are responsible not only to adhere to the Honor Code requirement to be honest but also to assist other students in fulfilling their commitment to be honest.

Faculty Academic Integrity

The substantive standards of academic honesty stated in this policy apply *a fortiori* to faculty. Indeed, all members of the BYU community are expected to act according to the highest principles of academic integrity.

Sources

A large number of publications and policies of colleges and universities were reviewed in creating BYU's Academic Honesty Policy. Some of the content and structure of this policy were adapted from the following sources:

1. "Academic Honesty," a brochure produced by the Office of Judicial Affairs, University of Florida.
2. "Academic Honesty and Dishonesty," a brochure produced by the Office of the Dean of Students, University of Delaware.
3. "Academic Honesty and Dishonesty," a brochure produced by the Dean of Students Office, Louisiana State University.
4. "A Statement on Plagiarism," a committee report from the October 1994 Conference on the Center for Academic Integrity, Tom Langhorne, Binghamton University (chair).
5. "Definition of Plagiarism," by Harold C. Martin, taken from *The Logic and Rhetoric of Exposition*, by Harold C. Martin, Richard M. Ohmann, and James H. Wheatly, 3rd ed. (New York: Holt, Rinehart and Winston, 1969).
6. *Legal Aspects of Plagiarism*, by Ralph D. Mawdsley (Topeka, Kansas: National Organization on Legal Problems of Education, 1985).
7. "Plagiarism—The Do's and Don'ts," a brochure produced by the Office of Student Judicial Affairs of the University of California—Davis.

Dress and Grooming Standards

The dress and grooming of both men and women should always be modest, neat, and clean, consistent with the dignity adherent to representing The Church of Jesus Christ of Latter-day Saints and any of its institutions of higher education.

Modesty and cleanliness are important values that reflect personal dignity and integrity, through which students, staff, and faculty represent the principles and standards of the Church. Members of the BYU community commit themselves to observe the following standards, which reflect the direction of the Board of Trustees and the Church publication *For the Strength of Youth*. The Dress and Grooming Standards are as follows:

Men

A clean and well-cared-for appearance should be maintained. Clothing is inappropriate when it is sleeveless, revealing, or form fitting. Shorts must be knee-length or longer. Hairstyles should be clean and neat, avoiding extreme styles or colors, and trimmed above the collar, leaving the ear uncovered. Sideburns should not extend below the earlobe or onto the cheek. If worn, moustaches should be neatly trimmed and may not extend beyond or below the corners of the mouth. Men are expected to be clean-shaven; beards are not acceptable. Earrings and other body piercing are not acceptable. Shoes should be worn in all public campus areas.

Women

A clean and well-cared-for appearance should be maintained. Clothing is inappropriate when it is sleeveless, strapless, backless, or revealing; has slits above the knee; or is form fitting. Dresses, skirts, and shorts must be knee-length or longer. Hairstyles should be clean and neat, avoiding extremes in styles or colors. Excessive ear piercing (more than one per ear) and all other body piercing are not acceptable. Shoes should be worn in all public campus areas.

Residential Living Standards

As stated in the Honor Code, Brigham Young University is committed to providing a learning atmosphere consistent with the principles of the Church. The university is likewise committed to creating such an atmosphere for students residing on and off campus and between semesters. To achieve this, BYU has established living standards to help students learn some of the high ideals and principles of behavior expected at Brigham Young University. Therefore, the university requires students to adhere to the following applicable standards:

Visiting Hours

Helaman Halls

Visitors of the opposite sex are permitted in the lobbies but not in the bedroom area, except during an established open house or home evening time, at which times room doors must remain open. Lobby visiting hours begin after 8:00 a.m. and extend until 12:00 midnight, Monday through Thursday and Saturday. On Friday night, lobby visiting hours extend until 1:30 a.m. Sunday hours are from noon until midnight.

Heritage Halls

Visitors of the opposite sex are permitted in the lobbies and apartment kitchens but not in bedrooms or bathrooms. Lobby visiting hours are from 8:00 a.m. to 12:00 midnight daily, Sunday through Thursday, and extend until 1:30 a.m. on Fridays. Apartment visiting hours are from 10:00 a.m. to

11:00 p.m. Sunday through Thursday and extend until 12:00 midnight on Friday and Saturday.

Off-Campus Visiting Hours, Wyview Park and Foreign Language Student Residence

Visitors of the opposite sex are permitted in living rooms and kitchens but not in the bedrooms in off-campus living units. The use of the bathroom areas by members of the opposite sex is not appropriate unless emergency or civility dictates otherwise, and then only if the safety, privacy, and sensitivity of other residents are not jeopardized. Visiting hours may begin after 9:00 a.m. and extend until 12:00 midnight. Friday night visiting hours may extend until 1:30 a.m. Landlords may establish a shorter visiting period if proper notice is given to students.

Conduct

All students and residents shall be required to conduct themselves in a manner consistent with the BYU Honor Code, including abstaining from possessing, serving, or consuming alcoholic beverages, tobacco, tea, coffee, or harmful drugs. Involvement with gambling; pornographic, erotic, indecent, or offensive material; obscene or indecent conduct or expressions; disorderly or disruptive conduct; or any other conduct or action inconsistent with the BYU Honor Code is not permitted in student housing. All guests of students must comply with the Residential Living Standards while on the premises of university-approved housing. Students are expected to help their guests and other residents understand and fulfill their responsibility under the BYU Residential Living Standards and the BYU Honor Code.

Dress and Grooming Standards

All students and residents of university-approved housing are required to know the BYU dress and grooming standards and abide by them.

Maintaining the Standards

Violations of these standards may be reported to the Honor Code Office, 4440 WSC, (801) 422-2847, or the Off-Campus Housing Office, (801) 378-5066.

Continuing Student Ecclesiastical Endorsement

All enrolled continuing undergraduate, graduate, intern, and Study Abroad students are required to obtain a Continuing Student Ecclesiastical Endorsement for each new academic year. Students must have their endorsements completed, turned in, and processed by the Honor Code Office before they can register for fall semester or any semester thereafter. To avoid registration delays, endorsement should be submitted to the Honor Code Office by March 15. Those applying to BYU should use the new-student Admissions Application Part 3 endorsement.

LDS students may be endorsed only by the bishop of the ward (1) in which they live and (2) that holds their current Church membership record.

Non-LDS students are to be endorsed by (1) the local ecclesiastical leader if the student is an active member of the congregation, (2) the bishop of the LDS ward in which they currently reside, or (3) the nondenominational BYU chaplain.

Requirements

Whether on or off campus or between semesters, all students are expected to abide by the Honor Code, which includes (1) the Academic Honesty Policy, (2) the Dress and Grooming Standards, and (3) the applicable Residential Living Standards. Students are required to be in good Honor Code standing to graduate.

LDS students must fulfill their duty in The Church of Jesus Christ of Latter-day Saints, attend Church meetings, and abide by the rules and standards of the Church on and off campus.

Students who are not members of The Church of Jesus Christ of Latter-day Saints are also expected to maintain the same standards of conduct. They are encouraged to participate in services of their preferred religion. All students must be in good Honor Code standing to graduate, to receive a diploma, and to have the degree posted.

Withdrawn Ecclesiastical Endorsement

A student's endorsement may be withdrawn at any time if the ecclesiastical leader determines that the student is no longer eligible for the endorsement. If an endorsement is withdrawn, no confessional information is exchanged without authorization from the student. Students without endorsements, except in unusual circumstances, must discontinue enrollment. Excommunication, disfellowshipment, or disaffiliation from The Church of Jesus Christ of Latter-day Saints results in the withdrawal of the student's endorsement. The decision to withdraw an endorsement may be appealed through the appropriate ecclesiastical leaders. Questions regarding withdrawn endorsements and reviews/appeals should be directed to the Honor Code Office.

Academic Standards

Academic Support Office, 2500 WSC, (801) 422-2723

Academic standing is determined by the grades that a student earns **at BYU**.

As of summer term 2003, a minimum of 6 graded credits are used to compute a student's academic standing.

ACADEMIC STANDING	UNDER THESE CONDITIONS	EXPECTATIONS
GOOD	When the most recent semester/term GPA and BYU cumulative GPA are 2.0 or above and the student has NOT been on academic Probation or Suspension.	The student continues to maintain a 2.0 or higher semester/term and BYU cumulative GPA.
PREVIOUS	The same as Good academic standing but indicates a student has previously been on academic Probation or Suspension.	The student continues to maintain a 2.0 or higher semester/term and BYU cumulative GPA. However, the student goes directly to academic Probation if the student has a semester/term GPA below 2.0.
WARNING Includes a registration block.	When the most recent semester/term GPA is below 2.0 and the student was in Good academic standing OR When the most recent semester/term GPA is 2.0 or higher but the BYU cumulative GPA is below 2.0 and the student was on academic Warning.	The student is blocked from registrations beyond the subsequent semester/term until the student **EITHER** submits a complete Academic Improvement Plan to the Academic Support Office by the appropriate deadline **OR** the student earns at least a 2.0 GPA for the subsequent enrollment and has at least a 2.0 cumulative GPA. Students with less than a 2.0 cumulative GPA must submit the Academic Improvement Plan.
PROBATION Includes a registraton block.	When the most recent semester/term GPA is below 2.0 and the student was on academic Warning OR When the most recent semester/term GPA is below 2.0 and the student was in Previous academic standing OR When the most recent semester/term GPA is 2.0 or higher but the BYU cumulative GPA is below 2.0 and the student was on academic Probation.	The student is blocked from registrations beyond the subsequent semester/term until the student **EITHER** submits a complete Academic Improvement Plan to the Academic Support Office by the appropriate deadline **OR** the student earns at least a 2.0 GPA for the subsequent enrollment and has at least a 2.0 cumulative GPA. Students with less than a 2.0 cumulative GPA must submit the Academic Improvement Plan. Students on Probation who earn less than a 2.0 GPA for a semester or term are academically suspended. **Note:** If a student is receiving university or federal financial aid, the student must also contact the Financial

		Aid and Scholarships Office, A-41 ASB, (801) 422-4104. Students on Probation may not be eligible for financial aid.
SUSPENSION	When the most recent semester/term GPA is below 2.0 and the student was on academic Probation OR When a student fails to comply with the conditions prescribed by the Academic Standards Committee.	1. The student is immediately dropped from all enrollments in day, evening, or extension classes (except Independent Study). 2. The student may not enroll in BYU day, evening, or extension classes (except Independent Study) for a minimum of twelve months. During this time the student is expected to resolve all problems leading to the student's academic suspension. After twelve or more months, the student may apply for readmission. If the student completes any college-level work while on Suspension, the student must receive an overall GPA of 3.0 or higher in that course work to be allowed readmission. The student should contact the Admissions Office, D-155 ASB, (801) 422-2507, for details and pertinent information about deadlines and expectations for readmission. 3. A student with extenuating circumstances—who has appropriate support and justification—may appeal the twelve-month period out of BYU through the Academic Standards Committee. The student should contact the Academic Support Office, 2500 WSC, (801) 422-2723, for assistance. No other appeals will be considered.
DISMISSAL	When a student is academically Suspended a second time.	An academically dismissed student may not enroll in day, evening, or extension classes (except Independent Study). After three years a student is eligible to enroll in evening or extension classes. A student may seek an exception to be readmitted as a degree-seeking student after two years by petitioning the Academic Standards Committee.

Note: College advisement centers (CACs) may also set registration blocks on students not progressing toward timely graduation. In such cases, students must also meet with their CAC to have this block removed.

UNDERGRADUATE CATALOG 2008 - 2009

Admissions

Admissions Office
A-153 ASB
(801) 422-2507

All Applicants

General Admissions Policies: Brigham Young University, Brigham Young University—Idaho, Brigham Young University—Hawaii, and LDS Business College exist to provide an education consistent with the religious and family values taught by The Church of Jesus Christ of Latter-day Saints. We prefer to admit members of the Church in good standing but will not unlawfully discriminate against applicants based upon gender, race, creed, religion, national origin, age, or disability who meet the requirements; who agree to abide by the Honor Code and Dress and Grooming Standards; and who are otherwise qualified based upon available space.

An applicant who is currently excommunicated or disfellowshipped from, on probation with, or voluntarily disaffiliated from The Church of Jesus Christ of Latter-day Saints is generally inadmissable until reinstated to full fellowship. (Undergraduates who desire to appeal based on extenuating circumstances may obtain an application to be excepted from the implementing policy and procedures from the executive director of Student Academic and Advisement Services, B-202 ASB.) Graduate applicants may obtain these from the dean of Graduate Studies, B-380 ASB.

The University Admissions Committee may grant special exceptions to the institution's normal entrance requirements. Individuals desiring to petition an exception should contact the Admissions Counseling Office at (801) 422-2500.

Important Notice: When admission applications reach the maximum number allowed by the BYU Board of Trustees (even if this occurs before the semester or term deadline date), the Admissions Office will only consider applications for the next possible semester or term.

"The Mission of Brigham Young University—founded, supported, and guided by The Church of Jesus Christ of Latter-day Saints—is to assist individuals in their quest for perfection and eternal life. That assistance should provide a period of intensive learning in a stimulating setting where a commitment to excellence is expected and the full realization of human potential is pursued."

To this end, the university seeks qualified students of various talents and backgrounds, including geographic, educational, cultural, ethnic, and racial, who relate together in such a manner that they are "no more strangers and foreigners, but fellowcitizens with the saints, and of the household of God" (Ephesians 2:19). It is the university's judgment that providing educational opportunities for a mix of students who share gospel values based on the gospel of Jesus Christ and come from a variety of backgrounds and experiences is an important educational asset to BYU.

Social Security Number: Each applicant is requested to supply BYU with their social security number for identification purposes. The Admissions Office will assign an appropriate identification number to international students and any others not wishing to give their social security number. If students are applying for any kind of financial aid, however, the government will require the Admissions Office to collect their social security number. Numbers may be obtained at the nearest social security office or the local post office.

Full Disclosure: Failure to disclose and submit all documents required for admission, including transcripts from each institution in which the applicant has or is currently enrolled, or any falsification of information required for admission consideration may result in immediate suspension and loss of all credit earned at BYU.

Admissions Status and Academic Standing: Admissions status (admit or deny) and academic standing (good, warning, or probation) will be determined by the Admissions Committee. This review is for all applicants, including former BYU students.

Official Notice of Admissions Committee Action: Applicants will receive electronic notice of the official action taken by the Admissions Committee. (Oral communication does not constitute a valid offer of admission.) Admission can be granted only by the Admissions Office and not by any other BYU department. An official offer of admission is valid only for the semester or term indicated. Students who wish to change the entry date specified in their notice of acceptance must request permission to do so from the Admissions Committee before the designated deadline for the entry date they desire.

Admission Deadlines: All materials must be received by the BYU Admissions Office on or before the deadline date for the semester or term in which the applicant intends to register. These dates are as follows:

Fall Semester

New freshman priority deadline: December 1
New freshman applicants: February 1
Transfer or former applicants: March 1

Winter Semester

All applicants: October 1

Spring Term

New freshman and all international applicants: February 1
Transfer or former applicants: March 1

Summer Term

New freshman priority deadline: December 1
New freshman applicants: February 1
Transfer or former applicants: March 1

International students are encouraged to submit application materials ***at least one month before the deadline dates listed***. This will allow sufficient time for the preparation of visa documents.

Please note: The university president and the University Admissions Committee reserve the right to make exceptions to admission policy and guidelines as deemed appropriate.

New Freshman Applicants—U.S.

Application: The biographical/entry selection information (Parts 1 and 2), ecclesiastical endorsement (Part 3), seminary/institute recommendation (Part 4), high school information and official transcripts from each school attended (Part 5), and activities list and essays (Parts 6 and 7), are required of each applicant. Parts 1, 2, 6, and 7 of the application can be completed using the Internet. Parts 3, 4, and 5 can be downloaded off the Internet. The Web address is www.besmart.com.

Application Fee: A $30 one-time nonrefundable application fee must accompany all applications for admission. Checks or money orders should be made payable to CES Admissions (do not send cash through the mail).

High School Graduation: Applicants should be graduates of fully accredited high schools. Those who complete their secondary education through the General Education Development Test (GED), home study, home school, or other programs will be reviewed individually by the Admissions Committee to determine admissibility. Additional information (achievement tests, personal interview, etc.) may be required as part of the application process.

High School Preparation: Students are encouraged to complete high school courses from the following list of college-preparation courses. Of particular importance are English and mathematics. Writing and math skills are basic for critical thinking. Students who perform well in these classes enhance their possibility of admission. In addition, those who complete Advanced Placement (AP) or International Baccalaureate (IB) courses will receive additional consideration in admission decisions.

Four years of English: composition, grammar, and courses that encourage "writing to learn."

Four years of mathematics (two or three years beyond algebra 1): geometry, intermediate algebra, precalculus, trigonometry, calculus.

Two years of laboratory science: chemistry, physics, biology, physiology, anatomy, genetics, botany, zoology.

Two years of history or government: U.S. history, U.S. constitution, U.S. government, Civil War, world history, medieval history, ancient history.

Two or more years of foreign language (advanced skill in one language is preferred).

Two years of literature or writing: Shakespeare, classics, mythology, American literature, creative writing.

Courses in computer science and the arts (music, drama, painting, etc.) can also be worthwhile. Students should be careful to take classes with substantial content that challenge them. In today's world typing and computer skills are valuable assets. These skills should be learned in high school or independently.

LDS Seminary: Students are encouraged to participate in LDS Seminary during each year of high school. Brigham Young University is committed to the concept that thoughtful and consistent study of the scriptures is vital to the preparation of those desiring to enter BYU. The number of years of LDS Seminary completed (released time, early morning, or home study) will influence additional consideration in admission decisions.

American College Test (ACT): All new freshman applicants and transfer students who have completed fewer than 30 semester (45 quarter) hours of college credit at the time of application are required to take the ACT. The ACT is administered nationally five times each year (October, December, February, April, and June). Students are encouraged to take the test during the last semester of their junior year in high school. The test should be taken early enough for the results to be in the Admissions Office before the deadline for the semester in which a student intends to enroll. Test results arrive at the university approximately four weeks after the test is given. Applicants must register for the ACT at least one month in advance of the test date. Registration materials can be obtained from most high school or college counseling offices or from the American College Testing Program, PO Box 414, Iowa City, IA 52243, (319) 337-1270 (www.act.org).

Other Considerations for Admission: The Admissions Committee also considers applicants with special talent, exceptional creativity, or other unusual preparation for university study not otherwise revealed in standard admission data (in evaluating these criteria, the Admissions Committee relies on scholarship recommendations from a BYU department as a demonstration of the required talent, creativity, or unusual preparation). The committee uses all application parts in making the evaluation and may also consider such matters as mission, military service, career choices, and personal circumstances.

Students who have completed college work prior to graduating from high school and are applying with or before their high school graduating class will be evaluated as "new freshmen" with regard to admission, scholarship, and registration, regardless of the number of college hours completed.

Early Admission

High school students who would like to be considered for full-time admission to Brigham Young University before high school graduation must:

1. Have a cumulative high school grade point average of 3.7 or higher on all work to date.
2. Achieve a composite ACT score of 27 or higher.
3. Submit a letter of unconditional recommendation for early admission from their high school counselor or principal. This letter must verify the student can no longer benefit from high school attendance since high school courses do not properly challenge and motivate the student. The counselor or principal must also state that the student is academically prepared and has the emotional and social maturity to benefit from attendance at BYU.
4. If under 18, submit a letter of unconditional recommendation for early admission from the applicant's parent or guardian.
5. Complete all application requirements (see application procedures for freshman applicants).

Application deadline dates for early admission are the same as for new freshman applicants.

Home School Applicants

Applicants who have been home schooled in lieu of attending a traditional high school environment must receive a composite ACT score of 27 or higher to be competitive for admission consideration. These individuals must also complete all other application requirements for freshman applicants.

Concurrent Enrollment at BYU

High school students who would like to be considered for admission to Brigham Young University as part-time students while still enrolled in and attending high school must:

1. Have a cumulative high school grade point average of 3.7 or higher on all work to date.
2. Submit a BYU concurrent enrollment voucher signed by the applicant, the parent, and a high school counselor.
3. Have completed at least the junior year of high school.
4. Complete parts 1, 2, and 3 of the admission application.

Concurrent Credit Transfer Policy: Many students are now receiving enriched high school experiences by enrolling concurrently in college courses while completing their high school curricula. BYU will consider these students for freshman admission and scholarships provided the college work is completed prior to high school graduation. This means, for example, that they may receive consideration for BYU-sponsored Heritage Scholarships.

BYU will accept all college credit that appears on an official transcript from a college or university accredited by the regional accrediting commissions or the associations of schools and colleges that together cover institutions chartered and/or licensed in the United States and its possessions, regardless of when or where the work was taken.

Transfer Applicants—U.S.

Application: The biographical/entry selection information (Parts 1 and 2), ecclesiastical endorsement (Part 3), seminary/institute recommendation (Part 4), and an essay (Part 7) are required of each applicant. In addition, official transcripts from each college attended must be submitted. Faxed copies are not accepted. Parts 1, 2, and 7 of the application can be completed using the Internet. Parts 3 and 4 can be downloaded off the Internet. The Web address is www.besmart.com.

Students with fewer than 30 semester hours (45 quarter hours) of transfer credit at the time of application must also submit official high school transcripts (Part 5), an activities list (Part 6), and the results of the American College Test (ACT).

Students who have completed college work prior to graduating from high school will be evaluated as "new freshmen" with regard to admission, scholarship, and registration, regardless of the number of college hours completed.

Application Fee: A $30 one-time nonrefundable application fee must accompany all applications for admission. Checks or money orders should be made payable to CES Admissions (do not send cash through the mail).

Admissions Criteria: To be most competitive for admission, an applicant should earn a cumulative grade point average and a general education grade point average *above* the B+ range. In addition, the majority of the transfer course work should be general education subjects (English, math, history, science, etc.). It is recommended that students transfer before beginning their junior year of college. Additional consideration may be given to applicants with special talent, exceptional creativity, or other unusual preparation for university study not otherwise revealed in standard admissions data. In evaluating these criteria, the Admissions Committee relies on scholarship recommendations from a BYU department as a demonstration of the required talent, creativity, or unusual preparation. The Admissions Committee may also consider such matters as completing an LDS mission, attending an LDS institute of religion, military service, major selection, and personal circumstances.

Evaluation of Transfer College Credit: All college transcripts will be evaluated to determine admissibility of an applicant even if all or any of that credit is not accepted for transfer.

Factors that can affect the transfer of credit include:

1. The institution is accredited by one of the following regional associations or is an institution sponsored by The Church of Jesus Christ of Latter-day Saints.
   Middle States Association of Colleges and Schools
   New England Association of Colleges and Schools
   North Central Association of Colleges and Schools
   Northwest Association of Colleges and Schools
   Southern Association of Colleges and Schools
   Western Association of Colleges and Schools

   Credit from institutions that are candidates for accreditation by one of the associations will be reviewed on a case-by-case basis, but credit is generally not transferable.
2. Military courses are evaluated using the ACE recommendations in the upper-division baccalaureate category from the Guide to the Evaluation of Educational Experiences in the Armed Services.
3. Advanced Placement scores of 3, 4, 5 and IB scores of 5, 6, or 7. Credit will be awarded according to BYU standards.
4. Students transferring to Brigham Young University after having earned an associate of arts and/or sciences degree at another college will, with one exception, have all of their lower-division general education requirements completed by the associate degree. The one exception is the American Heritage requirement, which can be filled by completing specific courses at the transfer college. The Advanced Written and Oral Communication and the Advanced Language/Mathematics requirements, which are considered to be upper-division requirements, may be filled by completing specific courses at other colleges. Students who have questions about the completion of general education courses are invited to contact the BYU Admissions Counseling Office, (801) 422-2500, for further information.
5. Credit earned more than eight years before admission or readmission (including transfer credit) will be accepted to meet general education and university graduation requirements, as well as major requirements at the discretion of the university. Courses should be applicable to BYU general education and university graduation requirements as well as to major requirements. Furthermore, transfer courses with grades below C- will not be used to fill BYU general education requirements and in most instances will not fill major requirements.

The BYU Admissions Office will determine the transferability of undergraduate credit to BYU. An electronic evaluation of transfer credits is made available to each student by the Admissions Office through the AIM system soon after the student is accepted for admission. The evaluation indicates which classes have transferred and will fill general education and university graduation requirements as well as major requirements.

Former Student Applicants

Students who interrupt their studies without processing a deferment form with the BYU Admissions Office must reapply for admission.

Application: The biographical information (Parts 1 and 2) and ecclesiastical endorsement (Part 3) are required of each applicant.

Transcript: Official transcripts from each school attended since the student's last enrollment at BYU must be provided and identified. Students will be evaluated for readmission based on their post-BYU transfer GPA (must be 3.0 or higher) and their BYU academic standing.

Transfer classes will be evaluated on a course-by-course basis. The course must be substantially equivalent to a BYU course, with a grade of C– or higher, to apply toward appropriate university or major graduation requirements.

Clearance: All holds (i.e., financial, Honor Code) placed on the student's record by BYU must be cleared before the deadline for the application to be considered. Additionally, the student must reimburse BYU for any fees incurred to collect the student's past debts.

Note: International students must also provide proof of current finances.

Deferment

One Semester

BYU day students can interrupt their studies for one semester (fall or winter) by submitting a Continuing Student Enrollment and Scholarship Deferment Application. These forms are available online and at the BYU Admissions Office. Most fall/winter scholarships will be deferred to another semester or term(s) within the same academic year. Students planning to return to BYU in a different academic year must reapply for scholarships prior to established deadlines. Spring/Summer scholarships cannot be deferred.

LDS Missionary

Students wanting to serve an LDS mission can defer their admission status by submitting an LDS Mission Deferment form soon after the mission call has been received. Any unused portion of a university-awarded scholarship will also be deferred as long as all deferment requirements have been met.

Individuals who return home prior to completion of a full-term mission lose their admission and scholarship deferment and may not immediately be admissible to BYU. In most cases there will be a period of six months between the time an individual returns and the time to be eligible to apply for admission and scholarship consideration. This period of time is provided to give the individual sufficient opportunity, before returning to the rigors of academic life, to address the issues or concerns that were the cause of the early mission release.

Missionaries who come home early due to medical circumstances and who receive an honorable release can apply for readmission prior to the six months requirement by providing a letter of recommendation from the attending professional (doctor, psychiatrist, etc.) regarding the applicant's readiness for the rigors of academic life.

To reapply the student must complete Parts 1, 2, and 3 of the application for admission.

International Student Applicants

Admissions Considerations: Criteria used by the university Admissions Committee to evaluate international students' admission to Brigham Young University are:

1. Academic performance
2. Level of education completed
3. TOEFL test results
4. ACT or SAT test scores (needed if student has three or more years of high school in U.S. or Canada)
5. Ability to finance desired education

   Note: Students are advised to obtain copies of the affidavit and bank statements from the sponsor for personal records and visa application.

6. Ecclesiastical endorsement

In addition to the above, factors considered in granting admission to international transfer students are the grades or marks of all previous university and college work. If the applicant has less than one year's work at a university, secondary school marks will also be reviewed.

An entering freshman student must send official documents showing all secondary school marks and a final diploma. An official English translation of the documents is also required.

Application: The biographical/entry selection information (Parts 1 and 2), ecclesiastical endorsement (Part 3), seminary/institute recommendation (Part 4), activities list and essays (Parts 6 and 7), financial information (Part 8), official transcripts, and financial information are required of each applicant. Parts 1, 2, 6, 7, and 8A of the application can be completed using the Internet. Parts 3, 4, 5, and 8B can be downloaded off the Internet. The Web address is www.besmart.com. TOEFL test results are required for nonnative English speakers, including U.S. citizens and permanent residents.

Application Fee: A $30 one-time nonrefundable application fee must accompany all applications for admission. This fee cannot be waived. Checks or money orders (U.S. funds drawn on U.S. banks) should be made payable to CES Admissions (do not send cash through the mail).

American College Test (ACT) or Scholastic Aptitude Test (SAT) Scores: The results of these tests must be sent as part of the application materials. Test information can be obtained by writing to:

American College Test Information
PO Box 414
Iowa City, IA USA 52243

(319) 337-1270

or

Scholastic Aptitude Test
Educational Testing Service
Princeton, NJ USA 08540
(212) 713-8000

English: All nonnative English-speaking applicants must send official results of the TOEFL exam to BYU. Applicants need to have a total (computer) TOEFL score of 173 or higher, with no section score below 17. Paper-based test scores require a total score of 550 or higher, with no section score below 55. Those who take the Internet-based test (iBT) should earn an overall score of 66 with a minimum score of 17 on the Reading and Writing sections, and a minimum score of 16 on the Listening and Speaking sections. Tests must be on official international test dates. Institutional tests are not acceptable.

Bilingual students who are admitted to BYU must take an English diagnostic examination during the orientation period. Based on the results of the test, a student may be required to register for one or more specific English courses, designed to improve areas of low proficiency.

Registration and Completion Requirements: All international students in attendance must register for and complete at least 12 hours of daytime credit per semester (6 hours per term).

Official University Visa Policy: Applicants entering the United States on a B visa are ineligible to attend Brigham Young University. Students should not attempt to enter the United States to attend BYU as a full-time student without presenting a Form I-20 from BYU (Certificate of Eligibility), a valid passport, and a valid F-1 visa. Maintaining visa status is the responsibility of the student.

Note: All international students must report to International Services, 1351 WSC, (801) 422-2695, within one week after arrival on campus.

Post-Baccalaureate Studies (PBS) Applicants

The Post-Baccalaureate Studies (PBS) Program is designed to assist an applicant on the path toward a graduate degree or professional certification. Applicants for PBS must have earned a baccalaureate degree.

Those interested in attending BYU as a post-baccalaureate student should have at least a 3.0 (B) grade point average; complete Parts 1, 2, and 3 of the undergraduate application; and attach a statement explaining their purpose in seeking enrollment and the courses to be taken.

Registration for courses will be on a space-available basis. Students may not attend for more than one academic year and must enroll for fewer than 12 hours per semester unless a waiver is granted by the University Admissions Committee.

Note: International students (unless permanent residents of the United States) cannot attend BYU as PBS students.

Second Degree (Second Major/Additional Major)

Students who have already received a baccalaureate degree or higher from any institution, including BYU, are not eligible for admissions consideration to pursue another baccalaureate degree or major.

Spring/Summer Visiting Student Program

This program is open specifically to high school graduates who will be actively pursuing a degree at another college or university. Non-BYU students who want the opportunity to be part of the university's community on a limited basis will need to fill out an admission application. Admission and enrollment in the Spring/Summer Visiting Student Program does not in any way imply continued enrollment at BYU beyond summer term. Students wanting to pursue a degree at BYU must submit an application for undergraduate admission and meet the admissions criteria in effect at the time of application.

Applicants for the visiting student program should complete Parts 1, 2, and 3 of the undergraduate application, pay a $30 application fee (if not previously paid), and submit an ACT score and high school/college transcripts. Students who have completed 30 semester hours/45 quarter hours of college credit need only provide college transcripts. It is recommended that applicants have academics approaching an ACT score of 18 or higher and a GPA of 2.50 or higher.

Advanced Placement (AP) Credit

Students who complete a full year of an AP subject and score 3 or higher on the AP test will receive a minimum 6 semester hours of college credit in that subject. Students completing a half year of an AP subject with a score of 3 or higher on the AP test will receive a minimum 3 semester hours of credit in that subject. AP credit posted to another institution's transcript is reevaluated based on BYU's standard. Most AP subjects fill a BYU general education graduation requirement and in some instances fill graduation requirements in the major.

International Baccalaureate (IB) Credit

Students who complete the International Baccalaureate examinations may receive college credit. An IB course at the subsidiary level will normally be given 3 hours of general credit. An IB course completed at the higher level may receive 6 hours of general credit and possibly fill a general education

requirement. The

College Level Examination Program (CLEP) Credit

BYU discontinued giving credit for general exams in 2000. Additionally, BYU does not give credit for subject exams. CLEP credit posted to another institution's transcript is reevaluated based on BYU's standard.

Printable PDF

Advisement Resources

BYU undergraduates should develop competence in at least one area of concentration. Competence generally demands study in depth. Such in-depth study helps prepare students for their life's work; it also teaches them that genuine understanding for any subject requires exploring it fully. Students normally acquire such depth from their major and minor fields. (The Aims of a BYU Education)

In addition to completing the university core, each student must choose a specialized area of study—a major. Requirements vary considerably from major to major, but all majors share in common a sequential development from introductory foundation courses to those that expect increasingly greater depth and sophistication. As the aims indicate, "By the time they graduate, students should grasp their discipline's essential knowledge and skills . . . , and many should have participated in scholarly or creative activities that let them demonstrate their mastery." Within this sequential development, prerequisites —whether within or outside the major department—help prepare students for subsequent, more focused work in the major. Some majors also require allied course work in related fields outside the major proper.

Aptitudes, Interests, and Objectives

Success in a major depends upon the right combination of interests, skills, effort, and aptitudes. Students who choose a major only because of its job possibilities and fail to consider their own interests and aptitudes will probably be disappointed. Some majors, particularly those in professional programs (e.g., accounting) lead directly to employment in a particular field; others (e.g., philosophy) provide a rich liberal arts preparation for subsequent graduate study or professional programs (e.g., law) but may not track as directly into employment in the field of the major. Liberal arts majors do open up a great variety of employment opportunities, but students majoring in such fields need to be more conscious of exploring such opportunities over the course of the major.

Flexibility and Adaptability

The only things that can be counted on in the future are change and a continued knowledge explosion. Some futurists have estimated that today's high school graduates will be in five to seven different careers during their lifetime. Flexibility and adaptability, learning how to learn, and learning to think carefully and critically are the aims of a strong liberal arts education.

For some careers a degree in a particular major is not required. Employers respond favorably to applicants who have developed analytical skills, who have the ability to reason abstractly, and who have learned to communicate precisely and effectively.

Choosing a Major

Although some students may change their major several times before arriving at a "good fit," bouncing from major to major can prove to be costly in both time and money. Careful and thoughtful consideration before choosing a major will reduce the time to graduation and help make the most of the time at BYU. Major requirements and course descriptions can be found by using the QuickSearch feature or by using the list of majors. Students may find some combination of the following action steps useful in selecting a major:

1. **Review catalog information pertaining to undergraduate majors.** A list of majors can be found in the Alphabetical List of Undergraduate Majors at Brigham Young University section of this catalog. Detailed information on each major is included in the respective Academic Departments/Schools/Areas, Degrees, and Courses section of the catalog.

2. **Meet as often as needed with an open major advisor in the University Advisement Center (UAC).** Open major advisors are available to help students choose a major or career path. Contact them at 2500 WSC, (801) 422-3826, or e-mail to university_advisement@byu.edu. You can also access their Web page at http://www.ccc.byu.edu/uac/openadv.php.

3. **Choose university core requirements carefully.** Once a major is chosen, a college advisement center can help in

the selection of classes that both satisfy university core requirements and expose students to the core subject matter of a major or career: http://saas.byu.edu/classschedule/policy/fall/univcore.html.

4. **Enroll in a career exploration course or career workshop.** Student Development (StDev) 117, Career Exploration, is a 2-credit course designed to help students choose a major and a career path. In addition, workshops on this subject are available in the Career and Learning Information Center (2590 WSC). These workshops last for one hour and are free of charge. Juniors and seniors may want to take StDev 317, Career Transitions, a 1-credit hour course designed to help upper-division students focus on career placement and take final steps into the workforce. This course is offered only on the block at http://ccc.byu.edu/stdev/courses.php.

5. **Visit the Career Learning Information Center (CLIC).** The CLIC (2590 WSC) has hundreds of printed and electronic resources designed to help students educate themselves about majors and career options so that they can make informed decisions. Discover, a Web-based self-assessment and career exploration program, and the book *From Major to Career,* which contains many tips for turning academic majors into careers, are available in the CLIC. Both of these tools, along with several others, are also available on the Web at http://www.byu.edu/ccc/clic.

6. **Complete a career interest inventory.** The University Advisement Center (2500 WSC) administers career interest inventories that help students match their interests with a major or career. There is a small fee for these tests.

7. **Learn, firsthand, about potential careers.** Part-time work, summer employment, internships, and volunteer work provide useful opportunities for students to collect information about what a specific career entails and to make contacts that will help them further their career goals. In addition, students might ask relatives or friends doing the kind of work they are interested in if they can be their "shadow" for a day, or perhaps longer. Alternatively, students might interview individuals in these positions, asking them about their work, the associated academic prerequisites, and so forth. For more information, go online to http://www.ccc.byu.edu/majortocareer/book.pdf#pagemode=bookmarks.

8. **Take introductory or seminar courses for majors/careers being considered.** BYU offers seminar courses for pre-medicine, pre-dentistry, pre-optometry, pre-law, and many of the engineering majors. There are other introductory courses such as Introduction to the English Major (Engl 195), Historian's Craft (Hist 200), and Introduction to International Studies (IAS 100) that may be helpful. Information on these courses is available through college advisement centers.

9. **Pursue multiple options.** When trying to choose between two majors, take courses that will fill major and minor requirements for both. When deciding which of the two will be the major, the other choice can possibly become a minor.

10. **Seek advice from the faculty.** Faculty members who teach and mentor in a particular major understand the purposes of the major program, its array of courses, and the opportunities available to those who complete it. Students should identify an appropriate member of the faculty and ask for assistance, which will often require an appointment.

11. **Make a firm commitment.** Pursuing a major with a firm commitment to go beyond its requirements will bring satisfaction and ensure future opportunities. Tentative or half-hearted completion of minimum requirements of any major will lead only to discouragement and detachment. Students are encouraged to choose carefully, trust their choice, and diligently pursue their studies in the major.

12. **Learn about deadlines, prerequisites, and application requirements for limited-enrollment programs.** Some majors have limited enrollment and only accept students by application. Limited-enrollment programs are identified with an asterisk (*) in the list of majors referred to in step 1. Students should become familiar with the prerequisite courses required for limited-enrollment majors several semesters before they plan to apply. When applying to limited-enrollment programs, students should have a backup plan in case they are not accepted. Advisors in the University Advisement Center can help develop alternative academic plans for reaching a given career objective.

Choosing a Minor

A minor offers students the opportunity to increase their breadth of expertise by exploring an area of study in depth but not to the same degree as in a major. Some majors require students to complete a minor from a specified set of options, but for most students a minor is optional. Students who elect to complete a minor often choose fields related to the major. Others may choose a minor in an area in which they have expertise or interest. In most cases, the minor would be chosen from a different department than the major.

Courses used to satisfy the requirements of a student's major may also be used to satisfy the requirements of a minor, unless the minor's requirements place restrictions on the double counting of courses. A list of minors can be found at: http://saas.byu.edu/catalog/2008-2009ucat/Advisement/MinorList.php.

Academic Advisement

The university provides a number of resources to assist students with careful and thoughtful academic and career planning while at BYU. It is expected that students will partner with the university by taking full advantage of these available resources and opportunities to enhance their chances of a successful academic experience.

The university is committed to providing students with access to academic advisors who will:

- Stay abreast of major and university requirements, and the corresponding academic resources
- Assist students by making appropriate recommendations for registration
- Help students in their pursuit of an appropriate major and career
- Aid students in planning an education program consistent with their academic progress
- Offer friendly, attentive, informative service, listening to the student's situation before offering a solution

Students will be successful as they:

- Prepare for and keep appointments with their college advisement center (CAC) advisor; preferably at least once a calendar year
- Establish and follow an academic plan for graduation
- Use university resources such as MyMap, Major Academic Plans (MAPs), Academic Information Management (AIM), and the progress report
- Become familiar with their basic academic program and requirements
- Review personal academic progress each semester

The key components to advisement are:

- MyMAP (available on Route Y through the BYU homepage; your net ID and PIN are necessary for access)
- Major MAPs (available on the web at: http://saas.byu.edu/depts/advisement/MAP.aspx and at college and university advisement centers.

AIM

The Academic Information Management (AIM) system provides students with easy access to information on their academic progress and other vital information. In AIM, students can change their addresses and phone numbers, access their class schedules, determine course availabilities and instructor schedules, monitor their progress reports, look at their grades and BYU credit, make PIN changes, check on transfer and AP credit, and conduct personal registration procedures.

MyMAP

In the new MyMAP feature in AIM, students will be able to plan their academic course of study for the entire time they're at BYU. By using their progress report, on the *Build* page, students can plan which classes they want to take to meet certain requirements. The *Organize* page will provide students with the capability of mapping their courses semester by semester. Their academic plan can then be viewed on the *Register* page as the student registers for classes. Easy access to course descriptions can be found on any MyMAP page by simply clicking on the course title.

Progress Reports

Progress Reports were created to provide students with accurate academic progress information. Students can access their progress report in the AIM system (through *Advisement, Registration, Student Academic Record* or *MyMAP*). In the new MyMAP feature in AIM, students can actually use their progress report (on the *Build* page) as a tool to plan their academic course of study.

MAP

This supplement to the BYU Undergraduate Catalog is also a valuable academic resource for students as they plan and prepare their academic schedules. The MAP includes information regarding university core and major requirements, semester-by-semester recommendations for course selection, and course availability. Please see the following Web site for more information: http://saas.byu.edu/advisement/maps/map08-09.php.

College Advisement Centers (CACs)

CACs exist in every academic college. At these centers, students receive personal assistance in meeting their educational goals as quickly as possible. Students should contact their advisement centers at least once a calendar year.

University Advisement Center

2500 WSC
(801) 422-3826
E-mail: university_advisement@byu.edu
Web: http://ccc.byu.edu/uac/openadv.php

The University Advisement Center provides academic advising and career counseling to students seeking information on how to choose majors or careers. **Services include:** general academic advisement, advisement on how to choose a major or career, graduate school advisement, career interest testing, and information and referral to appropriate university resources. The center serves as the college advisement center for open major students, but all students are welcome to use its services and resources for assistance in making informed and appropriate decisions about majors or careers. Advisement to special populations, including Summer Visiting Students, international students, and students in transition, is also provided.

Honors Advisement Center

102A MSRB
(801) 422-5497
E-mail: honors@byu.edu
Web: http://www.byu.edu/honors/

Honors education is open to all students who choose to participate. Students who intend to graduate with University Honors should consult with an advisor in the Honors Advisement Center (102A Maeser Building) for assistance with choosing honors courses and understanding honors graduation requirements.

Career Counseling

2500 WSC
(801) 422-3826
E-mail: university_advisement@byu.edu
Web: http://ccc.byu.edu/uac/index.php

Career counseling is offered to all students who need help choosing a career direction. Students can meet with a university advisor who can assist with career assessment and exploration, information-gathering strategies, and decision-making needs.

Preprofessional Advisement Center

3328 WSC
(801) 422-3044

The Preprofessional Advisement Center serves students preparing to apply to professional graduate programs, specifically law, health (medical, dental, etc.), and graduate management (MBA, MPA, etc.). For those students who are interested in such professional graduate programs, the center offers individual counseling, admissions advice, and courses to help students explore these fields and prepare for the study and practice of the student's chosen field. The center is open to freshmen through seniors from any major.

Veterinary Medicine

Dr. Beverly L. Roeder (386 WIDB, [801] 422-6873), Advisor

Competition for freshman class spaces in veterinary school is keen, and students should expect to achieve above a 3.5 GPA. Many successful applicants have completed the bachelor's degree. Because course requirements differ with individual veterinary schools, students should familiarize themselves with entrance requirements for the schools to which they will apply.

Course work typically includes the following: English, two semesters; mathematics, one semester; chemistry, five semesters;

microbiology with lab, one semester; biology, three semesters; physics, two semesters with lab; humanities, three semesters; social science, three semesters; and statistics, one semester. It is also important to have experience working with veterinarians and with animals.

Students are encouraged to incorporate the preveterinary curriculum into an academic program leading to a career alternative.

Academic Support

2500 WSC
(801) 422-2723
E-mail: academic_support@byu.edu
Web: http://ccc.byu.edu/academic/

Academic counseling is available for students who are experiencing difficulty with their studies. This counseling includes help in working through and overcoming obstacles to successful academic performance. Information about the university's academic standards, a student's academic standing, or help with learning problems is available at this office as well. (See also Academic Standards in this catalog.)

Additional Advisement Resources: Counseling and Career Center

The Counseling and Career Center offers advisement services to students who need help becoming a successful student, choosing a major or career, or considering options for graduate school. Services include the following: (1) general academic advisement, (2) academic standing advisement for students on academic warning, probation, or suspension, (3) advisement on study and learning skills, (4) advisement on choosing a major or a career, (5) graduate school advisement, and (6) workshops on career and learning skills.

Workshops

2590 WSC
(801) 422-2689
E-mail: workshops@byu.edu
Web: http://www.byu.edu/ccc/clic/workshops.php

Fifty-minute workshops designed to assist students with personal development, study skills, and career decision making are offered each day that BYU classes are in session. Topics include time management, communication, graduate school exploration, choosing a major, testing preparation, listening, and note taking. Printed self-help materials used in the workshops are also available.

Courses for Credit

2500 WSC
(801) 422-4007
Web: http://www.byu.edu/stlife/cdc/stdev/courses.php

Students in various areas of student development can receive credit for courses dealing with college study skills, life planning and decision making, career exploration, and job seeking listed under Student Development (StDev) in the class schedule. See also the Student Development section of this catalog for course numbers and descriptions.

Career and Learning Information Center

2590 WSC
(801) 422-2689
E-mail: clic@byu.edu
Web: http://www.byu.edu/ccc/clic

The Career and Learning Information Center (CLIC) is a resource area designed to assist students with a variety of career and/or learning concerns. Printed and electronic resources, personnel, and workshops are available to help students make informed decisions about majors, careers, and graduate school options. In addition, the CLIC offers workshops, materials, and assistance to students who desire to improve their learning skills so that they can be more successful academically.

Testing Services

2590 WSC
(801) 422-2689
E-mail: careertests@byu.edu
Web: http://ccc.byu.edu/clic/testingServices.php

Printed and electronic inventories are available to assess career interests, abilities, and values so that students can more accurately determine suitable career options for themselves. After completing an inventory a student will meet with an advisor who will interpret the results and guide the student toward additional resources so that they can research careers. Although modest fees are charged for most tests, there are no-fee assessments available.

Career Services

2410 WSC
(801) 422-3000
Fax: (801) 422-3444
Web: http://ccc.byu.edu/placement/

Career Services assists BYU students and alumni from all colleges, departments, majors, and class standings with job and internship preparation and searches. Students who register at http://byu.erecruiting.com gain access to such services as advisement on job and internship search strategies, on-campus interviews with recruiters, and information about specific job and internship opportunities submitted by employers from business, education, and government. A system (eRecruiting.com) is available that allows students to register, research employers search job postings, submit résumés to employers, schedule interviews, and check interview schedules.

UNDERGRADUATE CATALOG 2008 - 2009

Discontinuance

Discontinuance Office
B-150 ASB
(801) 422-7705

To withdraw from the university, day students who have registered for classes and paid tuition must officially discontinue to initiate a tuition refund. (Refer to the Tuition and Fees section of this catalog for refund information.)

The discontinuance process includes the following:

1. Before the add deadline students may use the AIM registration system through Route Y.
2. After the add deadline consult with the Discontinuance Office representative and complete discontinuance forms available from the Discontinuance Office or http://discontinuance.byu.edu/.
3. If discontinuing during or after the sixth week of the semester (or third week of the term or block), obtain signatures of individual class instructors (student is now responsible for grades earned in class). The instructor will indicate an official withdrawal (W) or an academically failing (WE) withdrawal grade.
4. Submit discontinuance forms and be signed out by a Discontinuance Office representative.
5. Discontinuance on or after the first day of class will result in a withdraw date posted on the student's transcript. The withdraw date coincides with the date the student discontinues.

Discontinuance from a fall or winter semester or from the term to which you are newly admitted could forfeit your eligibility to attend future semesters without reapplying through the Admissions Office. All undergraduate students who discontinue during a major semester (fall or winter) or during the term for which they were accepted, should contact the discontinuance counselor at (801) 422-7705 about future readmission eligibility and deferment options.

To withdraw after the twelfth week of the semester (or fifth week of a block or term), students must file a petition with the Registration/Records petition secretary (B-150 ASB) rather than contacting the Discontinuance Office.

Those students registered as Evening Classes students only must discontinue through the Office of Evening Classes, 120 HCEB. Law School students must initiate their discontinuance through the office of the Law School dean, 348-A JRCB.

Students who leave the university under emergency conditions and subsequently do not return still have the responsibility to discontinue before the discontinuance deadline. Official termination can be completed by contacting the Discontinuance Office at the earliest possible time.

Scholarships and Financial Aid

Financial Aid and Scholarship Office
A-41 ASB
(801) 422-4104

Over the past decade the cost of obtaining an excellent university education has increased considerably. As a result, many students and their families have found it difficult to obtain the funds to pursue an education. The university is sensitive to this situation and to those students who are hard-pressed to finance their studies. Major changes have been made by the university to improve the delivery system through which students can receive financial aid. There is a firm commitment to assist those who truly need the resources to further their studies.

Financial aid at BYU comes from various federal, state, and university programs in the form of loans, scholarships, and grants. The Financial Aid and Scholarship Office coordinates these financial aid programs and assists students in identifying the financial resources for which they might qualify. Because the number of students applying for financial assistance usually exceeds the funds available through university and federal programs, the distribution of financial aid at BYU is based on an assessment of the student and family's financial need. There are some exceptions to need-based awarding, e.g., BYU academic scholarships, performance and talent and athletic awards, and BYU short-term loans.

The process of determining a student's eligibility for financial aid is called *need analysis*. In a need analysis, income and asset information from both students and parents is examined to determine the family's ability to contribute toward educational costs. This figure, called the *estimated family contribution*, is subtracted from what it will cost the student to attend BYU for a specific length of time (typically, one academic year). If the cost of education is more than the family can contribute, the student has demonstrated *financial need*.

BYU uses the government need analysis form, the Free Application for Federal Student Aid (FAFSA), in determining how much the student and family should contribute. All students applying for financial aid must complete this form. The application process is not complete until the results of the FAFSA have been received by the Financial Aid and Scholarship Office.

Even though a standard formula is used to analyze a student's financial situation, the Financial Aid Office carefully considers the individual circumstances of each student applying for aid.

Applying for financial aid can be complicated and time consuming. Considerable delays and frustrations can arise from filling out forms incorrectly or failing to submit the proper documents in a timely manner. Students and their parents are encouraged to read instructions carefully and to complete all forms and documents correctly. Professional counselors are available and eager to assist in answering questions and helping with the application process.

Eligibility Requirements

Applicants for federal financial aid (Federal Pell Grants, Federal Stafford Loans, and Federal PLUS Loans) must be U.S. citizens or eligible noncitizens. In addition, students must maintain satisfactory academic progress to have federal financial aid disbursed to them. Any student enrolled in a degree-seeking program may apply for financial aid.

Students who have a baccalaureate degree and are returning to receive a teaching certificate may also apply for Federal Stafford Loans if they have a cumulative 2.0 GPA and are admitted to the teacher licensure program.

Rules and regulations governing the disbursement of federal financial aid are subject to change. Contact the Financial Aid Office if you have additional questions regarding your eligibility for financial assistance.

Scholarships

Brigham Young University offers scholarships to select students who have demonstrated a serious and diligent commitment to spiritual preparation and academic excellence as an investment in their education. Scholarship funds are provided through the tithes of the LDS Church and the offerings of generous individuals. They are given to encourage continued commitment to spiritual and intellectual growth. The gift of a scholarship assumes an obligation on the part of the recipient to use that investment to prepare for expanded and purposeful service in the Lord's kingdom. The principle of replenishment is endorsed, and all are invited to make a similar investment in someone else's future by contributing to the university's scholarship programs when in a financial position to do so.

Although the contributions of the Church and others have been generous, funds are still insufficient to invest in all students. Consequently, policies and procedures have been established to better ensure fairness in awarding available scholarship funds consistent with the university's aims and donors' wishes. For additional information about our policies and procedures, please contact the Financial Aid and Scholarship Office, A-41 ASB, Provo, UT 84602-1009, telephone (801) 422-4104; e-mail: scholarships@byu.edu; Web: http://scholarships.byu.edu.

Academic

The majority of BYU scholarships are awarded to students based on academic merit. After the scholarship application deadline, students are ranked within their college by their academic preparation and performance. Beginning at the top of the ranked order, scholarships are awarded until funds are exhausted.

BYU scholarships are not renewable, and most are awarded for two semesters only. Unless students receive a four-year award, *they must reapply every year by the appropriate deadline to be considered*. Applicants must also officially declare a major by the end of their sophomore year.

Gordon B. Hinckley Presidential Scholarships are the most prestigious awards offered by Brigham Young University to incoming LDS freshman students. Named after the President of The Church of Jesus Christ of Latter-day Saints, this scholarship pays each recipient's tuition and an additional stipend for eight semesters of undergraduate work at Brigham Young University.

To be considered for this scholarship, students must have academic credentials in the multiyear scholarship range of the freshman matrix, accessible from http://matrix.byu.edu. Students will be required to submit a separate application, available online, by February 1, 2008.

Heritage Scholarships are eight-semester, full LDS tuition awards to incoming freshman students. These scholarships honor the intellectual, spiritual, and cultural heritage of the Church and the university.

National Merit Scholarships are eight-semester, full LDS tuition awards sponsored by BYU for a number of the incoming freshman students who qualify as finalists in this competition. To be considered, finalists must inform National Merit Corporation that BYU is their first-choice university. National Merit Corporation will then forward necessary materials to BYU. *Because funds are limited, finalists are not guaranteed a BYU-sponsored National Merit Scholarship*. Students must be in the multiyear scholarship range on the freshman matrix to be selected.

Brigham Young Scholarships are generally two-semester awards that cover either half or full LDS tuition. Students must reapply each year to be considered for future scholarships.

New Freshman Students

New freshman academic scholarships are based on candidates' unweighted high school GPAs and composite ACT/SAT scores, as calculated and certified by BYU Admissions Services.

New Transfer Students

Academic scholarships are evaluated according to academic performance at the previous institution(s). Generally, candidates must have a GPA of 3.85 or higher to be considered. Those transferring to BYU with fewer than 30 semester hours (45 quarter hours) of college credit will also be evaluated on their high school credentials.

Former Students

Academic scholarships are based on overall academic performance. Primary considerations include BYU and total grade point average and the number of hours completed per enrollment. Candidates will be considered in the same applicant pool as continuing students.

Continuing Students

Academic scholarships are based on overall scholastic performance. Primary considerations include BYU and total grade point average and the number of hours completed per enrollment.

- Fall/Winter
  The Scholarship Committee will consider the GPA earned at BYU through winter semester and course loads during previous enrollments. Generally, only full-time students are eligible. To qualify for an academic scholarship, both the BYU GPA and the cumulative GPA, including any transfer work, must be within the awarding range.
- Spring/Summer
  The committee will consider academic performance through fall semester.

Alumni Association

Generations of BYU students have benefited from the generous support of the Church and private individuals. With that support they have received a first-rate education that has helped them "go forth to serve." Part of that service includes providing for the education of future generations.

The Alumni Replenishment Grants consider not only need and eligibility in its applicants but also a moral commitment to repay the amount of the grant, so that future students can receive and continue such financial assistance.

Alumni Association Replenishment

The Alumni Association Replenishment Grant is available to junior, senior, and graduate students whose total costs of education may not be met through other financial aid programs. Scholarships are awarded annually in amounts equal to half or full LDS tuition. The scholarship recipients will be eligible for membership in the Society of Alumni Scholars and will be asked to replenish the fund once they are in a financial position to do so.

To be considered, both the cumulative and BYU GPA must be at least 3.0 by the end of winter semester. Applicants must also demonstrate financial need and be willing to replenish the scholarship fund at a later date. To apply, complete the online scholarship application on Route Y, including the Alumni Replenishment Grants section.

Alumni Association Regional Replenishment

Several regional chapters of the BYU Alumni Association offer scholarships to students whose permanent residence lies within their boundaries.

To apply, complete the online scholarship application on Route Y, including the Alumni Regional Replenishment Grants section.

Athletic

The university awards grants-in-aid to outstanding athletes who qualify under the rules and regulations of the Mountain West Conference and the National Collegiate Athletics Association (NCAA).

For program applications, deadlines, and additional information, apply directly to the coach of the sport in which you wish to participate or contact Intercollegiate Athletics, 331 SAB, Provo, UT 84602, (801) 422-2046, e-mail: athletics@byu.edu.

College and Departmental

In addition to the scholarship programs described in this bulletin, other private scholarships are available through the colleges and some departments. Students can check with their college or department for additional information and applications.

International

The university offers a limited number of grants each year to international undergraduate students who demonstrate unusual financial need. Eligible candidates must have an F-1 visa, have earned 24 credit hours at BYU, and be in good academic standing.

Generous friends of the university have established a few additional scholarships to assist international students with their studies. To apply, complete the online comprehensive scholarship application on Route Y.

International Study Programs

The International Study Programs Office offers scholarships and grants to assist undergraduate students participating in its programs.

Study Abroad

- The *Mae Covey Gardner Scholarship* is available to students going on programs to European countries.
- The *Howard B. and Mary D. Nelson Scholarship* is available to students studying French, Italian, or Spanish and attending Study Abroad in France, Italy, or Spain. This scholarship is not available to returned missionaries who served in the destination country.
- The *Study Abroad Scholarship* is available to students participating in programs centered outside Europe.
- The *International Study Program Scholarship* is awarded to qualified students receiving university credit for field research or internships in an overseas setting.
- The *Service and Learning Scholarship* is available to students who enroll in an ISP program that has a strong service component.

All applicants must have a minimum 3.0 GPA. Applicants must show financial need by having a current *Free Application for Federal Student Aid (FAFSA)* on file at the Financial Aid Office, A-41 ASB, telephone (801) 422-4104. The Internet URL is www.fafsa.ed.gov. Students must complete the scholarship essay page of the ISP application and submit it with the rest of the application by the appropriate application deadline. For program applications, deadlines, and additional information, contact International Study Programs, 204 HRCB, Provo, UT 84602-4540; telephone (801) 422-3686; or visit our Web site at http://kennedy.byu.edu/isp/.

Jerusalem Center

The Jerusalem Center for Near Eastern Studies offers financial aid to undergraduate and graduate students participating in the various Jerusalem Center study programs. This financial aid is administered under the following categories:

Grants are awarded primarily on the basis of financial need. These grants will vary according to the length of the program, the applicant's financial need, and the funds available.

Scholarships are awarded primarily on the basis of academic performance and will vary as stated above. A minimum GPA of 3.60 is required to be considered.

For program applications, deadlines, and additional information, contact the Jerusalem Center Office, 301 HCEB, Provo, UT 84602-1524, telephone (801) 422-6017, e-mail: deborah_peterson@byu.edu.

Need-Based

While the majority of its scholarships are merit-based, BYU budgets a limited number of need-based awards for United States citizens and permanent residents. Each applicant's circumstances and resources are reviewed and evaluated; unfortunately, there is always more need than available funding. Interested students must complete the *Free Application for Federal Student Aid (FAFSA)* and the comprehensive scholarship application on Route Y.

Other Private

Generous friends of the university have contributed a number of private scholarships. Many of these scholarships carry specific stipulations and restrictions. To be considered for these scholarships, complete the online scholarship appliction on Route Y, including the Additional Opportunities section.

Research

The following scholarships promote and reward research:

The Undergraduate Scholarship Awards are given to a select number of students, generally juniors and seniors, in good academic standing to fund research projects. To obtain the application instructions and guidelines, deadlines, and additional information, contact the Office of Research and Creative Activities, A-285 ASB, Provo, UT 84602-1231, telephone (801) 422-3841.

Students should also contact their department and college to learn about other research opportunities and awards.

ROTC

Both the Army ROTC and the Air Force ROTC offer competitive scholarships to qualified students enrolling in their programs. ROTC scholarship recipients may receive full tuition, fees, books, and associated costs. In addition, both scholarship and nonscholarship students enrolled in courses numbered in the 300- and 400-series may apply for a $100 monthly subsistence allowance. For further information and application requirements, contact the Military Science Department (Army ROTC), 320 Wells ROTC Building, Provo, UT 84602-8301, telephone (801) 422-3601, e-mail: armyrotc@byu.edu; or the Aerospace Studies Department (Air Force ROTC), 380 Wells ROTC Building, Provo, UT 84602-8301, telephone (801) 422-2671, e-mail: afrotc@byu.edu.

Students with Disabilities

Generous donors have established a few private scholarships to assist students with disabilities. Because funds are limited, the Undergraduate Scholarship Committee will consider the nature of the applicant's disability and its impact on his or her ability to function in class and earn a living. Academic performance and financial need will also be considered. Interested students must complete the comprehensive scholarship application on Route Y, the *Free Application for Federal Student Aid (FAFSA)*, and submit appropriate current documentation of the disabling condition from a licensed professional to the University Accessibility Center, 1520 WSC, Provo, UT 84602, (801) 422-2767 v/tty.

Talent Awards

BYU offers talent awards in the areas of communications, dance, music, theatre and media arts, and visual arts. For these awards, demonstrated talent is a more important criterion than scholastic achievement. Awards range in value from $100 to full tuition and fees for one year. For further information and application materials, contact the appropriate department directly:

Communications: Department of Communications, 360 BRMB, Provo, UT 84602-6403, (801) 422-2997, e-mail: commsec@byugate.byu.edu.

Dance: Department of Dance, 294 RB, Provo, UT 84602-2005, (801) 422-5086, e-mail: dance@byu.edu.

General University Scholarship Policies

Students granted university scholarships must do the following to remain eligible for their award:

1. Abide by the Honor Code and adhere to the dress and grooming standards of BYU.
2. Scholarships may be applied to approved International Study Programs and Travel Study programs but may not be used for Independent Study or Continuing Education courses or for BYU–Idaho or BYU–Hawaii courses.
3. Register as a full-time student and complete a minimum of 14 credit hours per the semester(s) or 6 credit hours per the term(s) of the award.

   Courses repeated within the same academic year will count only once toward the hour requirement.

   Credit must be earned within the classroom. Credit earned through special examination or Independent Study and audited classes may not be used to meet the requirement.

Additional provision:

Undergraduate students who have acquired more than 160 hours of credit or who have received scholarships for a total of eight semesters, excluding spring and summer terms, are ineligible for future scholarships.

Discontinuance

A student claims a scholarship by registering for classes and using the scholarship to pay tuition. If the student then does not attend school or, once enrolled, discontinues for nonemergency reasons, the scholarship will be cancelled and the student will be billed for the appropriate tuition and discontinuance fees. Students who need to discontinue because of illness, injury, or extenuating circumstances should contact the Financial Aid and Scholarship Office as well as the Discontinuance Office for appropriate action.

Note: Exceptions to these policies may sometimes be granted according to individual needs and circumstances. Students wanting an exception must submit a formal written petition to the Financial Aid and Scholarship Office prior to the necessary change.

BYU Short-Term Loan

A short-term loan is available to full- or part-time day students or full-time evening students admitted to day school. A student may borrow up to the cost of tuition only, and because the loan is "short-term" the loan must be repaid during the same semester or term in which the money is borrowed. The loan is not available for Independent Study, job interviewing, or debt payments.

Federal Programs

Federal Pell Grant

A Federal Pell Grant is awarded by the U.S. Department of Education and is based on financial need. A Pell Grant is not a loan and does not have to be repaid. Only undergraduate students who haven't already earned a bachelor's degree are eligible for a Pell Grant. (Students who pay graduate tuition are not eligible.) In addition, students must meet other eligibility requirements (see preceding Eligibility Requirements). Federal Pell Grants are based on an eligibility index determined by a federal formula. Pell Grant payments are disbursed to BYU students one semester at a time and vary with the number of hours for which a student is enrolled per semester (spring and summer terms combined are considered one semester).

- 12.0 or more semester hours equal a full-time payment.
- 9.0–11.5 semester hours equal a three-quarter-time payment.
- 6.0–8.5 semester hours equal a half-time payment.
- Fewer than 6.0 semester hours equal a less-than-half-time payment.

In determining hours for Federal Pell Grant payments, please note that:

1. Audit hours, special courses and conferences, and hours obtained by challenging classes may not be used.
2. Continuing Education, Salt Lake Center, Study Abroad, and Travel Study classes, etc., may be used only during the term or semester for which the student is admitted to BYU day school.

ACG and SMART Grants

Academic Competitiveness Grants (ACGs) are available to U.S. citizens, enrolled full-time in their first or second academic year of study, who are Federal Pell Grant recipients and have completed a "rigorous secondary school program of study." Second-year ACG recipients must have at least a 3.0 cumulative GPA. Applicants for the ACG must document how they have completed a "rigorous secondary school program of study."

National Science and Math Access to Retain Talent (SMART) Grants are available to U.S. citizens, enrolled full-time in their third or fourth academic year of study, who are Federal Pell Grant recipients, have at least a 3.0 cumulative GPA (checked every enrollment), and are majoring in physical, life, or computer science; engineering; mathematics; technology; or critical foreign languages. Eligible students will be notified by the Financial Aid and Scholarship Office.

Federal Subsidized Stafford Loan

A subsidized Federal Stafford Loan is a low-interest, federally subsidized loan based on financial need. It is available to undergraduate and graduate students who meet the eligibility requirements (see preceding Eligibility Requirements) and the requirements for need as calculated by the FAFSA. Subsidized Stafford Loan recipients must be enrolled in at least 6 credit hours per semester (or 3 credit hours per term) during the entire period of their loan. No audit hours may be used to meet the minimum hour requirement.

To avoid the burden of excessive debt, students should consider other forms of financial aid such as grants, scholarships, awards, part-time employment, and family assistance. Students should also contact their state educational agency to apply for state grants and other state aid that may be available. High school counselors and employers may also provide information regarding sources of financial aid. An unsubsidized Stafford Loan is also available to students who do not qualify for a fully subsidized Stafford Loan. Contact the Financial Aid and Scholarship Office for details.

Federal Parent Loan for Undergraduate Students (PLUS)

A Federal PLUS Loan is an educational loan that parents may obtain to meet the educational expenses of their dependent children who meet the

eligibility requirements above and are enrolled in at least 6 credit hours per semester (or 3 credit hours per term) during the entire loan period.

A PLUS Loan is neither need based nor federally subsidized. It requires credit approval by the lender. PLUS Loans are disbursed to the school by check made copayable to the parent and the school. Monthly payments generally begin sixty days after the loan is disbursed.

Federal Unsubsidized Stafford Loan

An unsubsidized Federal Stafford Loan is an educational loan that students may obtain to meet their educational expenses. To be considered for an unsubsidized Stafford Loan, students must meet the eligibility requirements and be enrolled in at least 6 credit hours per semester (or 3 credit hours per term) for the entire loan period.

Although the unsubsidized Stafford Loan is neither need based nor federally subsidized, a student must first complete the FAFSA to determine eligibility for a Federal Pell Grant or subsidized Federal Stafford Loan. Payments generally begin sixty days after the loan is disbursed. A student may receive an unsubsidized Stafford Loan in addition to a subsidized Stafford Loan.

Satisfactory Academic Progress

Federal regulations require schools to establish, publish, and apply reasonable standards for determining whether a student receiving financial aid is maintaining satisfactory academic progress in his or her course of study. Two separate standards for measuring satisfactory academic progress are required: one is based on academic grades and the other is based on rate of progress toward a degree. In keeping with these regulations, Brigham Young University has established and will apply the following policies governing satisfactory academic progress for financial aid.

Evaluation Measures

Newly admitted students (both entering freshmen and transfer students) are eligible for financial aid during their first academic year at BYU. At the end of the first academic year, and at the end of each semester thereafter, the status of all students will be evaluated to determine if they are making satisfactory academic progress in each of these areas.

1. **Academic Standing:** Students on academic probation are ineligible for federal financial aid.
2. **Rate of Progress:** Students who fail to successfully complete at least 70 percent of their courses are ineligible for financial aid. For purposes of this policy, the following are "nonprogress" grades: E, I, IE, NS, W, and WE. Repeated courses are also considered nonprogress.

   Students not meeting the 70 percent completion rate will remain ineligible for federal financial aid until they:

   a. Improve their completion rate to 70 percent, or
   b. Successfully complete 12 hours (with no nonprogress grades) during regular terms or semesters at BYU, through Independent Study, or at another college or university.

Generally, undergraduate students with over 180 attempted credit hours are ineligible for financial aid. Similarly, students who have more than 60 hours of nonprogress grades (E, I, IE, NS, W, WE) are ineligible for financial aid.

Petitions for Overrides

Students may petition to receive aid for current or future semesters or terms within the same academic year. Generally, students may appeal to receive aid if there were special or unusual circumstances that prevented them from making satisfactory academic progress. Possible reasons for a petition might be accident or injury, medical or family emergency, or another similar circumstance.

Students requesting an override of the 180-hour limit must file a copy of their approved graduation plan with their petition.

Important Tax Information

Under the Tax Reform Act of 1986, only scholarship, fellowship, benefit, and grant amounts used for tuition, fees, books, supplies, and equipment required for courses of instruction are excluded from the recipient's gross income. Any of these funds used for other expenses, such as room and board, must be included in income. If funds are received from any of these sources, a detailed record should be kept of all expenditures for tuition, fees, books, and required equipment and supplies. For more detailed information, consult a personal tax advisor.

Exception to University Financial Aid Policy

Students desiring an exception to University Financial Aid Policy must petition the Financial Aid Committee, stating the reason for the requested exception. The committee meets on a regular basis to review petitions. Contact the Financial Aid and Scholarship Office, A-41 ASB, (801) 422-4104.

Additional Information Regarding Financial Aid

Students with questions regarding financial aid at Brigham Young University are invited to visit the web site: http://saas.byu.edu/depts/finaid.

Estimated College Expenses

On entering the university, students are responsible for making arrangements to cover enrollment expenses and should have sufficient funds on hand for at least the first semester. University financial aid is available to supplement savings through one or more of the following programs: scholarships and awards, student loans, Pell Grants, and student employment.

For estimated costs, please see the Financial Aid Web site: http://saas.byu.edu/depts/finaid/costs.aspx.

UNDERGRADUATE CATALOG 2008 - 2009

Grading and Records

Grading

Grade point averages are computed by assigning numeric values to the letter grades:

Letter Grade Values

A	4.0
A–	3.7
B+	3.4
B	3.0
B–	2.7
C+	2.4
C	2.0
C–	1.7
D+	1.4
D	1.0
D–	0.7
E, I, IE, WE	0.0

The grade given in a course is the teacher's evaluation of the student's performance, achievement, and understanding in that subject as covered in the class. The following adjectives indicate the meaning of the letter grades:

A Excellent
B Good
C Satisfactory
D Minimum passing
E Failure

Hence, the grade **A** means that the student's performance, achievement, and understanding were excellent in the portion of the subject covered in the class.

There are prerequisites that qualify students to be admitted to the more advanced classes offered by a department. A senior has added experience, understanding, and preparation and, consequently, progresses in courses that would have been impossible when the student was a freshman. The level of performance, achievement, and understanding required to qualify for each grade that carries credit (any grade other than E, I, IE, or WE) is higher in a more advanced class than in those classes that precede it, and the student is prepared to work at this higher level.

Additional grade designations are as follows:

1. If a student withdraws officially from a class during the first ten class days of a semester or the first six class days of a term, the permanent record will not show a registration for that class. If the student properly withdraws from a class between the eleventh and twenty-fifth class days of a semester or between the seventh and thirteenth class days of a term, the record will be marked **W** (official withdrawal).

2. A **WE** grade will be given if a student petitions to withdraw from a class after the deadline and he or she is failing the class at that time.

3. A grade of **P** indicates a passing grade. It has no effect on the GPA.

4. The letter grade **I** (Incomplete) is given on a contractual basis with the instructor to students who are unable to complete the work in the prescribed period of time. An incomplete grade may be given for nonacademic extenuating circumstances (serious illness, personal injury, death in the immediate family, etc.) that may arise *after* the discontinuance deadline (the twelth week of a semester or the sixth week of a term). To be eligible for an incomplete, the student must have attended up until the discontinuance deadline and be passing the class. If extenuating circumstances arise before the twelfth week of a semester or the sixth week of a term, the student should discontinue or petition through the Registration Office to be officially withdrawn from the class(es). The Incomplete Grade Contract must be completed and signed by the instructor and the $10 fee paid before submission of the official grade roll at the end of the semester. A copy of the Incomplete Grade Contract must be submitted to the Records Office by the grade submission deadline. A grade of E will be posted until a valid Incomplete Grade Contract is submitted to the Records Office.

   Class attendance in a subsequent semester or reregistration is not permitted to make up the incomplete. In some special instances, such as a lab class, attendance may be required for the portion of the class or lab section missed. Once the work has been completed, the instructor should complete the portion of the Incomplete Grade Contract, showing the grade earned, and submit the form to the Records Office (B-150 ASB).

   The instructor may designate the specific length of time the student has to complete the course requirements (not to exceed one year). If the work is not completed and the new grade submitted by the instructor within the agreed upon deadline, the I grade will be changed to an IE (the IE grade is considered and calculated as a failing grade). (To extend the contract date within the one-year deadline contact the Records Office, B-150 ASB.)

5. A grade of **T** indicates course work in progress and is only used in certain approved courses in which work may extend beyond the semester. The T grade may be changed to A, B, C, D, E, or P, depending on the grade rule for the course, when the work is completed.

6. The grade **NS** is placed on the student record when a grade roll has not been submitted to the Records Office by the grade submission

deadline. After the deadline, individual Grade Change Authorization forms must be used to submit a new grade to change the NS grade. The NS will not be considered in calculating the grade point average.

Grade Changes

After the final grade submission deadline, grades may be changed only for the following reasons:

- making a calculating error in computing the grade
- posting the wrong grade to the grade roll
- changing a T grade after the course work is completed
- posting a grade if no grade was submitted
- reevaluation of the previous grade with no additional work submitted

When such corrections need to be made, an official Grade Change Authorization Form must be completed and sent directly to the Records Office.

If a student completes any additional work beyond the end of the semester or term (original T grades excluded), grade changes should not be made. Instead, the student should request to have an Incomplete Grade Contract.

A previous grade cannot be changed to a W (Official Withdrawal). If the student had a nonacademic emergency, he or she should file a petition for withdrawal with the Registrar's Office.

Numeric Grade Values (Law School)

In fall semester 1987 the Law School was granted permission to grade their courses on the numeric grading system. In fall semester 1994 the Law School was granted permission to change the numeric grading system to a new numeric scale. All current Law School students with previously earned numeric grades had their grades converted to the new numeric scale:

1987–1994	Description	Fall 1994
80–90	Superior	3.7–4.0
75–79	Excellent	3.3–3.6
71–74	High pass	3.0–3.2
66–70	Pass	2.7–2.9
59–65	Low pass	2.2–2.6
50–58	Fail	1.6–2.1

Student Academic Grievance Policy

There may be occasions when a student believes her/his academic work or conduct has been unfairly or inadequately evaluated[1] by the faculty.[2] Usually such differences of opinion can be amicably resolved informally between the student and teacher. If not, the following procedures are intended to encourage satisfactory resolution of academic grievances with a minimum of formal procedure.

1. The grievance must be initiated by the student no later than four months (120 days) from the last day of the examination period of the semester in which the alleged unfair or inadequate evaluation occurred. A grievance related to restrictions limiting participation in university academic programs must be initiated within 30 days of the decision in question.
2. The student should initially address the grievance in writing to the faculty member or administrator responsible, requesting review and resolution. If the faculty member or administrator is unavailable or the student has a valid reason to believe the matter will not be dealt with fairly or that retribution may result, the student may submit the grievance directly to the applicable department chair. (The faculty member, administrator, or department chair shall have the right to consult others regarding the matter as reasonably necessary and with due regard to the student's right to privacy under the Family Educational Rights and Privacy Act.)
3. If the grievance is addressed to the faculty member, and it is not resolved satisfactorily, the student may submit a written request for further review to the department chair within 30 days of the faculty member's decision.
4. The department chair's decision shall be given in writing to both the student and the faculty member within 30 days after receiving the student's request and all supporting material for review.
5. If the matter is still unresolved, the student may submit a written request for formal review to the dean or director of the applicable college or school within 30 days of the department chair's written decision.
6. If formal review is requested, the applicable dean or director shall be assisted in reviewing the grievance by a committee, as described in the following paragraphs.

   6.1 The dean or director will appoint several individuals associated with the university to serve as an ad hoc review panel. At least two of these individuals must be faculty with continuing faculty status from outside the area of study in which the grievance arose. One of these faculty members will be appointed to chair and conduct the proceedings, which should take place within 30 days after receiving the student's written request and all supporting materials. Faculty appointed to a panel reviewing a graduate student's grievance must have graduate faculty status.

   6.2 In reviewing the grievance, the review panel, the affected student, and the affected faculty member are responsible to identify or provide relevant sources of information. The review is intended to be collegial and not adversarial. Accordingly, legal counsel is not allowed to attend nor advocate in the review process. Presentation of the issues should be concise and relevant. The chair of the review panel shall be responsible to conduct the review and establish applicable procedures if such are not available from the dean or director. Any formal presentation should be limited to pertinent issues and panel members allowed sufficient time for questions. Following presentation and discussion of the grievance, the review panel will deliberate in closed session and submit its written recommendation to the dean or director.

   6.3 The dean or director will determine the resolution of the grievance and give the decision in writing to the student and faculty member within 10 days of receipt of the review panel's recommendation. This decision is final and not subject to further appeal, unless it involves termination of a graduate program or termination from the university.

Notes

1. Academic evaluations which are subject to this policy include grading, restrictions limiting participation in university academic programs, dismissal from the university or a university program for academic reasons, actions arising from incidents of academic dishonesty, the withholding, and/or revocation of a diploma for academic reasons, and the withholding of or special notation on transcripts for academic reasons. Evaluations relating to admissions to the university, ecclesiastical endorsements, discipline administered by the Honor Code Office, or petitions are not covered by this policy. Persons who believe they have been unlawfully discriminated against or sexually harassed should contact the Equal Opportunity Office.
2. For purposes of this policy, "faculty" means any teacher or other individual authorized by the university to academically evaluate students, or who has a legitimate need to know regarding the processing and disposition of an academic grievance.

Scholastic Recognition Each Semester

The dean of each academic college at the close of each semester will post a list of names of undergraduate students who are ranked in the top 5 percent of their college for the given semester, who have earned a minimum of 14 credit hours (7 credit hours for spring and summer terms), and who have earned a minimum grade point average of at least 3.5 for the semester.

Grades

After the semester has ended and all grades have been submitted by the faculty, students may access their grades through Route Y on the BYU homepage.

Records

Records Office
B-150 ASB
(801) 422-2631

The Records Office is the official guardian of all permanent records of all academic work done at the university. The office is also responsible for issuing official transcripts of credit. Official transcripts include only credit completed through BYU.

Classification of Students

Students are classified as follows:

Credit Hours Earned	Classification
0.5–29.9	Freshman
30–59.9	Sophomore
60–89.9	Junior
90 and over	Senior

Access to Education Records—FERPA

Student educational records at BYU are generally accessible to eligible students according to the provisions of the Family Educational Rights and Privacy Act (FERPA). BYU has adopted an Access to Student Records Policy that explains in detail student rights relating to their educational records. A copy of the policy is available at the Office of the Registrar, B-150 ASB, Provo, UT 84602-1114.

The following is notice of student rights to their educational records, a summary of the procedures for exercising those rights, and a description of student directory information that may be disclosed to the public without the student's consent as required by law:

Eligible students, admitted and enrolled at BYU, generally have the right to:

1. Inspect and review their educational records within a reasonable period of time upon submitting to the appropriate department managing their educational records a written request, with proof of identification, specifying the records to be inspected. The department will notify the student of the time and place the records may be inspected.
2. Petition BYU to amend or correct any part of the education record believed to be inaccurate, misleading, or in violation of their privacy rights. Students may submit a written request to the department holding the record, clearly identifying the part of the record they want changed, and specify why it is inaccurate or misleading. If the department decides not to amend the record as requested, the department will notify the student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures as outlined in university policy will be provided to the student when notified of the right to a hearing.
3. Consent to disclosure of personally identifiable information contained in the student's educational record, except as otherwise authorized by law. Examples of exceptions to consent of disclosure include:
   a. Access of educational records by BYU officials and agents having a legitimate educational interest in the records. This category generally includes any BYU official or agent who accesses student educational records for the purpose of performing a task or responsibility relating to his or her employment or professional responsibility at the university. These individuals may include faculty, administration, staff, and other university agents who manage student educational record information including, but not limited to, student education, discipline, or financial aid.
   b. Parents who establish the student's dependency for federal income tax purposes.
   c. Upon request, BYU will disclose educational records without consent to officials of another college or university to which the student seeks or intends to enroll.
4. File a complaint with the U.S. Department of Education concerning failures by BYU to comply with the requirements of FERPA. The name and

address of the office that administers FERPA is Family Policy and Compliance Office, U.S. Department of Education, 400 Maryland Avenue SW, Washington, DC 20202-4605, www.ed.gov/offices/om/fpco/.

BYU has designated the following student information as directory information that it may disclose to the public without the consent of the student:

Name
Addresses and telephone numbers
E-mail address
Month/Day/Place of birth
Names of parents or spouse
Major and minor fields of study
Participation in officially recognized activities and sports
Weight and height of members of athletic teams
Pictures
Dates of attendance (current and past)
Number of months/semesters enrolled
Class standing (freshman, sophomore, etc.)
Enrollment status (full-time, part-time, less than half-time)
Degrees and awards received
Previous educational institutions attended
Dates of employment and job titles for student employment positions
Anticipated future enrollments
Course registrations prior to the beginning of a semester or term
Expected date of graduation
Deferred registration eligibility

Students have the right to restrict disclosure of the above directory information. To request restriction of disclosure, students must file a written request in the Registrars' Office. To avoid being listed on some directories, this must be done on or before the tenth day of a semester or the sixth day of a term. Forms for this request are available in the Office of the Registrar.

Transcript Record Holds

A hold will be placed on a student's record for failure to meet university obligations (fees outstanding, university standards violations, etc.). Until the obligation is fulfilled, no copy of the academic record or diploma or information about the record will be released, and graduation may be delayed or denied.

Earning Credits

Students earn approved university credit in the following ways:

Regular Course Work

Complete work in regular courses offered at BYU. Complete college-level courses through Independent Study, Evening Classes, or other Continuing Education programs.

Transfer Work

Transfer credit for college-level courses completed at an accredited college or university and transferred to Brigham Young University. (See the Admissions section of this catalog for further explanation on transfer college credit.)

Advanced Placement (AP) Exam

Complete the Advanced Placement (AP) examinations. Students who score a composite grade of 5, 4, or 3 in any subject may receive up to 8 semester hours of college credit in that subject.

Military Credit

Serve in the armed forces. Students who have been on active duty in the service for more than one year can receive 2 semester hours of wellness and 4 semester hours in military science. Additional credit may be granted for college-level training and experience in the service. To receive credit, bring the military service DD-214 form to the Admissions Office, A-153 ASB.

International Baccalaureate (IB)

Students who complete the International Baccalaureate (IB) examinations will receive college credit. An IB course at the subsidiary level will normally be given 3 hours of general credit. An IB course completed at the higher level may receive 6 hours of general credit and possibly fill a general education requirement.

Challenge Examination

Students may receive credit by challenging some courses at the university through a separate examination procedure. Departments reserve the right to decide which courses may be challenged by examination. Religion courses, internship courses, exercise sciences and dance activity courses, and other activity participative courses, such as music, youth leadership, and ROTC, may not be challenged.

Only under exceptional circumstances, such as the foreign language challenge examination, can a course completed earlier be repeated by the challenge procedure.

The challenge examination is not meant to certify that a student has attended the class and completed all course requirements. The challenge examination credit merely shows that the student's skill and knowledge is sufficient to pass a challenge examination for the course.

Only students who have completed at least one course at BYU through day or evening school or the Salt Lake Center are eligible for the challenge examination option. Students currently enrolled are eligible to take the exam, but the credit will not be posted to the transcript until the other BYU credit and grades are posted. Students who are suspended or dismissed from the university are not eligible to challenge courses. Students who are suspended or dismissed may not have challenge examination credit posted to their record even if the examination was taken prior to the suspension or dismissal.

Once students have graduated, they are not eligible for challenging any additional credit at BYU unless it is specific to the graduate program to which

the students have been admitted. (See current BYU Graduate Catalog for information on how to challenge graduate courses.)

Some challenge exams for credit are offered in the Testing Center, and others are arranged through the department offering the course. A fee payable to the Testing Center is charged for exams offered there. A fee payable to Student Services in D-155 ASB is required for exams offered through individual departments. The student should check with the department to see if the exam is offered in the department or through the Testing Center. To earn academic credit and a grade for the course, the student must sign a Challenge Examination Form and have the Testing Center or the department submit it to the Records Office in B-150 ASB. The time limit for a student to choose course credit is determined by the individual academic department, not to exceed one year. No additional fees are charged to post the credits to the transcript. The student's transcript and cumulative grade point average reflect the grade earned on the exam. The procedure to take exams and request academic credit follows.

Procedure for Challenge Exams Given at the Testing Center

1. Contact the appropriate department for the exam procedure and content before going to the Testing Center.
2. Go to the Testing Center (265 HGB). (For testing dates on GE challenge exams, see table in University Core: General Education section of the current class schedule.)
3. Pay the required fee at the Testing Center.
4. After the exam is graded and the choice is made to receive graded credit, obtain a Challenge Examination Form at the Testing Center and have it validated there. To accept the grade and receive credit for the course, sign the Challenge Examination Form and have the Testing Center submit it to the Records Office (B-150 ASB). After taking the exam there is a limited time to request that the grade be submitted to receive course credit. The time limit to choose course credit is determined by the department, not to exceed one year. Graded credit will be added to the student's official university transcript, and the progress report will show any GE requirement as fulfilled. (Students taking the Physical Science examination may take the grade or an exemption if their score is 75 percent or above. If their score is between 60 and 74 percent, they may receive graded credit.)
5. Students enrolled in the course when they pass its challenge exam **must** also drop the course. Students who drop the class after the *add deadline* (ten class days after a semester starts or six days after a term starts) will receive a W on their transcript for dropping the course. If the course is not *officially* dropped before the withdraw deadline, the grade given by the instructor based on class performance will appear on the transcript.

Procedure for Challenge Exams Not Given at the Testing Center

1. Whether or not students are enrolled in the course they are challenging:
    a. Complete the Challenge Examination Form available from the department.
    b. Arrange with the department to take the exam.
    c. Pay the $20 required fee at Student Services in D-155 ASB and have the form validated there ($20 fee per course except for the language exams).
    d. Present the validated form to the department examiner.
    e. Have the grade and credit recorded on the form by the examiner and obtain the necessary departmental signatures.
    f. After seeing the grade, students may choose to have the credit posted to their academic record by signing the Challenge Examination Form and having the department send the completed form to the Records Office (B-150 ASB). After taking the exam there is a limited time to request that the grade be submitted to receive course credit. The time limit to choose course credit is determined by the department, not to exceed one year.
2. Students enrolled in the course when they pass its challenge exam **must** also drop the course. Students who drop the class after the *add deadline* (ten class days after a semester starts or six days after a term starts) will receive a W on their transcript for dropping the course. If the course is not *officially* dropped before the withdraw deadline, the grade given by the instructor based on class performance will appear on the transcript.

Exemption Examinations for GE Requirements

Some general education requirements can be accomplished by successfully completing an examination. Exemption examinations for selected GE courses are offered at the Testing Center. (See table in University Core: General Education section of the current class schedule for dates of exemption examinations.)

Procedure for Exemption Exams

1. Contact the appropriate academic department for exam procedure and content before going to the Testing Center.
2. Go to the Testing Center (265 HGB) on one of the examination days. (See table in University Core: General Education section of the current class schedule.)
3. Pay the required fee per class at the Testing Center.

Students enrolled in the course when they pass its exemption examination **must** also drop the course. Students who drop the course after the *add deadline* (ten days after a semester starts or six days after a term starts) will be officially withdrawn. (This shows as a W on the transcript.) If the course is not *officially* dropped before the drop deadline, the grade given by the instructor based on class performance will appear on the transcript.

Note: The progress report of students who pass an exemption exam at the Testing Center will be updated automatically at the end of the semester or term. Students should retain their score report for their records.

Earning BYU Credit While on Suspension

Students who have been suspended from Brigham Young University are not eligible to enroll in courses through day school, evening school, or any of the Continuing Education programs offered by the university except those courses offered through Independent Study. Students should consult their advisement center to determine which Independent Study courses to take.

Repeating Classes

To have a previously completed course marked *repeated*, the new course must be equal or greater in credit hours. When a class has been repeated, the credit used in computing the grade point average is the grade and credit hours earned the last time the repeated class was taken. Students may repeat classes in the following ways:

1. Repeat Brigham Young University courses at Brigham Young University (except for R-suffix courses—see Abbreviations and Symbols in the Using This Catalog section).
2. Repeat at Brigham Young University courses initially taken at another university. (A statement of equivalency must be supplied by the appropriate BYU department chair.)
3. Repeat at another institution courses taken there and have the credit transferred to Brigham Young University.

Note: A course repeated at an institution other than the one at which it was taken originally and other than at BYU will not be counted as a repeat.

Graduation

Graduation Evaluation Office
B-150 ASB
(801) 422-4218

Graduation Information

Adherence to University Standards/Honor Code

Students are required to be in good Honor Code standing to graduate. In addition, graduation may be delayed or denied for students whose ecclesiastical endorsement has been withdrawn.

Note: Any hold, warning, or probation by the Honor Code Office must be properly cleared well before graduation.

Application for Graduation

All students desiring to graduate must apply for graduation. Students applying for the bachelor's degree should do so during their junior year. Application forms are available at the college advisement centers. Students must submit a completed application form and the graduation fee of $15 for a bachelor's degree to Student Financial Services (D-155 ASB) no later than September 15 for December graduation; November 15 for April 2009 graduation; and April 15 for August graduation.

Students who apply after the deadline dates will need to contact their advisement center to be considered for graduation. The Graduation Evaluation Office (B-150 ASB) will notify students in writing of the general education, major(s), minor(s), and university requirements remaining.

Students who plan to obtain teacher licensure must see the Education Advisement and Certification Office before turning in their graduation application to Student Financial Services.

Attendance at Commencement

All candidates for graduation are encouraged to attend the commencement and convocation exercises. Diplomas will be mailed to students after all grades are submitted and all graduation requirements are certified complete. Commencement exercises are held in April and August only. December graduates are invited to the April commencement following their graduation.

Deadlines for Transfer, Correspondence, and Incomplete Credit

All incomplete grades must be removed from the student's record, special examinations and general education requirements must be passed and recorded, and all transfer and correspondence (Independent Study) credit must be on file in the Records Office at least four weeks before graduation.

Earning Lower Degree After Receiving Higher Degree

A person who has earned a higher degree is ineligible to earn a lesser degree at BYU unless exception has been granted by the Undergraduate Steering Committee (USC). Petitions for exception can be directed to the Admissions Office, which will forward the petition to the USC.

Independent Study Credit

A maximum of 36 semester hours of Independent Study credit may be applied toward the 120-semester-hour requirement for a baccalaureate degree.

Note: See the Bachelor of General Studies Program section of this catalog for BGS requirements.

Scholastic Recognition

University Honors

To graduate with University Honors, a student must:

1. Commit to graduate with University Honors and consult with an Honors Advisement Center representative on a regular basis.
2. Complete the honors curriculum requirement.
3. Complete the honors Great Works requirement.
4. Complete the honors Advanced Languages requirement.
5. Complete the honors service requirement.
6. Complete the honors thesis requirement.
7. Have a cumulative grade point average of at least 3.5.

8. Submit a graduation portfolio that summarizes the student's honors experiences.

More detailed explanations of the Honors Program are available in 102-A MSRB and in the Honors Program section of this catalog.

Latin Scholastic Distinctions

Latin Scholastic Distinctions at graduation are determined by GPA for the top 10 percent of the graduating seniors based on cumulative total and BYU grade point averages.

Summa Cum Laude is awarded on the basis of grade point average to the top 1.0 percent of the baccalaureate candidates who have earned a minimum 45 semester hours of credit at BYU.

Magna Cum Laude is awarded on the basis of grade point average to the top 1.1 to 5.0 percent of the baccalaureate candidates who have earned a minimum 45 semester hours of credit at BYU.

Cum Laude is awarded on the basis of grade point average to the top 5.1 to 10.0 percent of the baccalaureate candidates who have earned a minimum 45 semester hours of credit at BYU.

Graduation Requirements

Baccalaureate Degree Requirements

The baccalaureate degree is awarded for completion of a specified program of university study. It recognizes important changes in outlook, understanding, and proficiency that result from university experience. At BYU this program of study includes the university core, the discipline of a specific major, and each student's choice of electives. In addition, a minimum of 30 semester credit hours in residence at BYU, a minimum total of 120 credit hours, and a cumulative GPA of at least 2.0 are required.

University Core Requirements for the Baccalaureate Degree

See the University Core section of this catalog for complete information.

Major Requirements for the Baccalaureate Degree

See specific major requirements in the Academic Departments/Schools/Areas, Degrees, and Courses section of this catalog.

Minimum University Requirements

Residency Requirement

At least 30 credit hours must be earned in residence on the BYU campus in Provo as an admitted day student to qualify for a baccalaureate degree.

Total Credit-Hour Requirement

A candidate for a baccalaureate degree must complete a minimum of 120 credit hours.

Grade Point Average Requirement

To graduate from BYU students must earn a minimum 2.0 cumulative BYU grade point average and a minimum 2.0 total cumulative grade point average. Students must also meet any stipulated minimum grade point average requirements in their major.

Honor Code Requirement

Students must be in good standing with the Honor Code Office.

D Credit

Students may use a course in which they receive a D ("minimum passing") to complete major, minor, religion, or general education requirements. Those receiving a D in a course will not be required to retake the course unless a higher minimum grade is stipulated in a degree program or course sequence description in the undergraduate or graduate catalog.

Courses taken at other colleges or universities with D grades will count toward the total hour requirement for graduation, but will not fill BYU general education requirements—and in most instances will not fill major requirements.

Major Requirements

The curricular requirements of a specific major must be satisfactorily completed, including any additional departmental requirements related to the major. A minimum of 20 credit hours in the major must be completed in residence as an admitted day student, 10 of these on the BYU campus in Provo.

Double Major

A second major is rare and *must be approved* by the chair(s) of the department(s) involved and the dean of the college responsible for the primary major. The second major *proposal and approval process* requires an evaluation of all university core and major requirements and a time-to-graduation analysis. College advisement centers are prepared to assist interested students in this process. Courses used to satisfy the requirements of a student's major can also be used to satisfy the requirements of an approved second major, unless such is not permitted by the requirements of the proposed second major. Students who graduate with a second major only receive one degree and one diploma. Only the primary major will be listed in the university commencement program.

Changes of Requirements

University graduation requirements are occasionally modified or changed. The university informs students of such modifications through its catalog, online class schedules, and all advisement centers on campus. Students who leave the university for an extended period of time can be informed of

such changes through these sources.

Policy on "Old" Graduation Requirements and Credit

Brigham Young University is committed to providing its students with an excellent university education consisting of a broad general education that includes religious education and a strong major education. Programs of the university change and develop in the continuing effort to make learning and experience as valuable as possible. Development, growth, and improvement are expected parts both of our lives and our institutions. It is because of the commitment to a superb education that the university's programs develop and improve and that students are expected to meet the current standards of the university when they graduate, even though they may have begun their studies long ago under quite different expectations.

Students who complete a baccalaureate degree within eight academic years of enrollment at BYU qualify for graduation by meeting those religion, university, and general education requirements in effect when they initially enrolled, even though there may have been changes in general education and religion requirements since that time.

In addition, students who complete a baccalaureate degree within eight academic years of enrollment at BYU qualify for graduation by meeting those major education requirements in effect when they officially declared the major with which they plan to graduate even though such declaration was made at some point following their original enrollment. (A student officially declares a major one of two ways: [1] by indicating the choice of major on part 2 of the CES Admission and Scholarship Application or [2] by submitting a Change of Major Form to a college advisement center at a subsequent time.)

Students who have not graduated within eight years of their initial enrollment at BYU will be required to meet with the dean and department chair in the area in which they are majoring to determine graduation requirements and the use of credit previously earned. The Graduation Evaluation Office will evaluate credit for general education requirements. Where general education or major requirements have changed or where credit previously earned was in an area of substantial change, students may be required to do additional work to meet graduation requirements.

This means that credit earned more than eight years before admission or readmission (including transfer credit) will be accepted to meet general education or major graduation requirements at the discretion of the university.

Students who return to the university after an extended absence should contact the Graduation Evaluation Office (B-150 ASB, [801] 422-4218) and confer with their college advisement center counselors and department advisors immediately upon returning to the university, both for advice and help concerning graduation requirements and for evaluation of their credit. In many instances it will prove possible to negotiate a schedule of classes that will allow the student to move toward a degree without lost effort.

Bachelor of General Studies

See the Bachelor of General Studies Program in the Division of Continuing Education section of this catalog.

Advisement

An important corollary of the university's commitment to provide its students with an excellent university education is its commitment to help students find their way through their programs effectively and efficiently. Students whose educational experience has reached over many years and who find that changes in programs will require additional work and preparation should consult with department advisors for help in planning their schedules in the best and most encouraging way possible.

The university's requirement that a student graduate under current or very recent standards is meant to benefit the student and is in no way established to deter a determined person from returning to the university after years away. Good advisement can be of great help in working out a program of study at the university, taking into account individual needs, concerns, and experience.

MyMAP

Students have been provided access to a student academic planning system called MyMAP. This tool will not only allow students the ability to track their academic progress towards graduation, but also have the capability of planning and selecting specific courses for university core, major, and minor requirements. In addition to planning specific courses, the system will allow students to organize planned courses into a semester/term schedule and register for classes from that schedule. There are many other features that will help students have important information at their fingertips. Students can access MyMAP under the school section of Route Y. To learn more about MyMAP go to http://mymap.byu.edu.

Housing

Campus Accommodations Office
100 SASB
Phone: (801) 422-2611
Toll-free: (877) 403-0040
Fax: (801) 422-0837
E-mail: housing@byu.edu
Internet: http://www.byu.edu/oncampushousing/

Quality residential living is an important, indeed an integral, part of the total educational experience at BYU, and students should carefully consider the accommodations available in view of the type of living experience they desire, the time they have available for activities within their housing situation, and their economic needs. Housing is available on campus and in the surrounding communities, and programs have been established within campus residence halls and with off-campus landlords to integrate living experiences with the total university educational program.

On-Campus Housing

On-campus housing includes room-and-board residence halls and apartment-style living for men and women—each directed by a competent hall advisor—and family apartments. Assisting the hall advisor in room-and-board areas and the apartment-style living are several resident assistants—mature, advanced students who reside with the student group. Students are known personally by the staff and have someone available to assist with normal student problems.

The residence hall program is designed to provide experiences in self-government, sharing relationships, and other responsibilities that encourage maturity and independence.

All residents have access to CougarNet, which provides them with an e-mail address, Internet access, printing capabilities on campus network printers, file storage, and access to the library (BYLINE) and registration (AIM) databases.

Residence Halls for Men and Women

Board and room in **Helaman Halls** is provided for both men and women. Each hall contains student lounges; study rooms; common shower and restroom areas; and laundry and storage facilities. A reading and writing lab, as well as math and computer lab, are also provided in the central building and are staffed by teaching assistants. The central building features a spacious cafeteria, dining room, reception area, offices, and mail service for the entire residence area. Recreational facilities include a swimming pool, sports courts, and large lawn areas.

Apartment Living for Men and Women

Heritage Halls and **Wyview Park** provide apartment-style housing for both men and women. Apartments are furnished, except for bedding and kitchen items.

Most Heritage Halls apartments have a combination kitchen-dining-study room, three bedrooms (designed for two people each), and a bathroom. Each building has a large lobby/living area, recreation room, laundry, and storage facilities. The Heritage Halls Central Building includes a resource center, staffed with specialists who are available to provide information and equipment for residents, and a computer lab, staffed by Office of Information Technology (OIT) teaching assistants.

Wyview Park apartments have a kitchen and dining room, living room, two or three bedrooms, and a bathroom. Two-bedroom apartments have one private bedroom and one shared bedroom. Three-bedroom apartments have two private bedrooms and one shared bedroom.

Residences for Families

Accommodations for student families are provided at **Wymount Terrace**. Each apartment is furnished with an electric or gas range, refrigerator, garbage disposal, and blinds. A limited assortment of furniture can be rented from the Student Family Housing Office. Residents have access to sports courts, children's playgrounds, large lawn areas, and the Helaman Halls swimming pool.

These apartments do not have washer/dryer hookups, but the areas have self-service laundry facilities. A BYU Creamery outlet is located at Wymount Terrace. The Housing Office also has a computer lab available.

Wymount Terrace has 898 one-, two-, or three-bedroom apartments and is located on the northeast side of campus.

Foreign Language Student Residence

The College of Humanities sponsors the Foreign Language Student Residence, located near the Missionary Training Center. Students pledge to speak only the foreign language in their apartment while they live and study together under the supervision of a faculty advisor and a native speaker.

All rooms in the complex are shared, single rooms are not availabale. Male and female residents in each target language eat five meals a week together, with the cost of some meals included in the fees. For details contact the coordinator of the Foreign Language Student Residence at 3086C JFSB or (801) 422-7797.

Applications/Agreements for On-Campus Housing

Students who plan to enroll at BYU and live in a university residence hall or a student family housing complex are advised to request housing as soon

as possible.

Single Student On-Campus Housing

Single student housing application availability dates are posted online at www.byu.edu/oncampushousing. A $100 security deposit and $50 processing fee are due after the the student has been admitted to the university and at least two days prior to the student's Room Selection Date. Both the $100 security deposit and $50 processing fee are fully refundable if the student never selects a bed space on campus. The *security deposit* is refundable (1) if the student is not admitted to the university or on-campus housing, (2) if cancellation is received before the deadline shown on the agreement, or (3) at the end of the agreement if there is no debt owed to the university.

The student's Room Selection Date is based on the date and time the application is submitted. Students should be prepared to live by the terms of the agreement once they have acquainted themselves with its terms and submitted it; this will avoid any possible misunderstanding or financial loss. Agreements are made for the academic school year.

Student Family On-Campus Housing

Family housing apartment availability is updated online Monday-Friday (excluding holidays) at www.byu.edu/familyhousing. For student family housing, the completed agreement must be submitted with a $100 security deposit and a nonrefundable $50 processing fee.

Time of Arrival: Residence halls are not open to students before the announced opening date, which is usually the day Orientation begins. The university does not advise students who are going to live on campus to arrive before that date.

Off-Campus Housing

2170 WSC
(801) 422-5066
Internet: www.byu.edu/offcampushousing

Brigham Young University is committed to creating an atmosphere conducive to intellectual and spiritual development for all of its students, including those who live off campus. The BYU Off-Campus Housing Office was established to assist in this task by:

1. Aiding students in locating off-campus housing.
2. Encouraging landlords to maintain and improve rental facilities.
3. Advising and giving counsel to students and landlords in their relationships with one another.
4. Attempting to ensure that BYU living standards are maintained off campus.

To help achieve these ends, single undergraduate BYU students are required to live in university-contracted housing (see below). At present, more than 22,000 rental spaces have been contracted by the university for single undergraduate students living off campus. For further information concerning off-campus rentals and BYU regulations, contact the Off-Campus Housing Office between 8:00 a.m. and 5:00 p.m. Monday through Friday or visit the web site at www.byu.edu/offcampushousing.

BYU Housing Referral Service

The BYU Off-Campus Housing Office maintains a complete referral service for all university-contracted rental facilities. Thousands of rental units of all types are available, including large apartment complexes, condominiums, duplexes, houses, basement apartments, and sleeping rooms. Some housing for families is also listed, although student family housing is not subject to university contracting.

Detailed lists of current vacancies are available at the Off-Campus Housing Office from 8 a.m. to 5 p.m. Monday through Friday. Listings are also available at www.byu.edu/offcampushousing and in the distribution trays located in the hall outside the Off-Campus Housing office entrance. A guide with housing tips and essential rental data on the large apartment complexes will be mailed on request and may also be found on the web site. Officials are also available to help students who have problems finding suitable off-campus housing.

University-Contracted Housing

All BYU students are required to provide the residential address where they reside (not a post office box) as part of the registration process. Unless specifically excused by the Off-Campus Housing Office, all single undergraduate BYU students are required to live in university-contracted housing either on or off campus. The requirement may be waived by the Off-Campus Housing Office for the following students:

1. Single parents with children.
2. Single students living with parents.
3. Single students who are taking classes away from Provo.
4. Under certain conditions, as determined by the Off-Campus Housing Office, the university housing requirement may be waived for other students who have a special circumstance or hardship.

Hotels, motels, and studio apartments are not contracted housing for single students. A studio apartment is a living unit that does not provide a separate bedroom but combines the living and sleeping area.

Students who do not provide their residential address or who live in housing not contracted by the university and who are not excused by the BYU Off-Campus Housing Office are subject to the following sanctions:

1. Non-compliant fees may be incurred, future registration may be stopped, and activity card privileges may be withheld until the student verifies that he or she is living in or will be living in university-contracted housing.
2. Students falsifying their addresses will be subject to the above consequences as well as disciplinary action by the university for Honor Code violations.

When a student signs an agreement to live in a facility not contracted by the university and has not been excused from the university housing requirement, these sanctions will be applied even though the student's tenancy extends beyond the current semester or term in which the student is enrolled. A student in this situation will have to either move from the uncontracted housing unit, regardless of the consequences, or forego registration and other privileges at the university until complying with this policy.

The university contracts off-campus living units whose owners have agreed to:

1. Adequately separate single men and women.

2. Exercise reasonable efforts to maintain the BYU Residential Living Standards.
3. Maintain the facilities in good repair.
4. Not abuse basic tenant rights.

The university cannot guarantee that owners and managers are employing their best efforts to maintain the standards, that all residents are complying with BYU standards, or that contracted living units always meet the physical criteria. Thus, students are individually responsible to carefully choose an acceptable apartment and compatible roommates. Students should first inform their area management if they suspect that the standards and the physical criteria are not being maintained. Students may also contact the BYU Off-Campus Housing Office and/or the BYU Honor Code Office with concerns.

Because a student's living environment has a profound influence on academic performance and spiritual growth, BYU promotes an environment in contracted off-campus housing facilities that is consistent with its mission and with the moral virtues taught by The Church of Jesus Christ of Latter-day Saints. Specifically, the BYU off-campus housing program sets *guidelines* for landlords and students, which, if followed, will cultivate that desired moral climate. BYU off-campus housing personnel attempt to rectify any deviations from these standards and policy guidelines.

Chartered Housing

Chartered housing, begun in fall 2006, is a pilot program that will run until 2009. Working closely with the property managers of designated housing providers, the university will assist with staff training and study BYU students' experiences in this style of housing. In order to compare chartered housing with other styles, all residents will be BYU students.

For more information about the chartered housing pilot program, please see the web site: www.byu.edu/housing/chartered_housing.html.

Registration

Registration Office
B-130 ASB
(801) 422-2824

Who May Register?

Students are eligible to register if they are either continuing BYU students or new students who have received a letter of acceptance from the Admissions Office for the semester they wish to attend.

Continuing student status ends if a student does not complete day school classes the previous full semester (fall or winter) or if a student has graduated from BYU. Students who have lost continuing student status must be readmitted by the Admissions Office (D-155 ASB) before registration may begin.

An individual who has disaffiliated from The Church of Jesus Christ of Latter-day Saints or has been excommunicated or disfellowshipped is not eligible for enrollment at Brigham Young University until he or she is once again in good standing in the Church. If a current student disaffiliates or is excommunicated or disfellowshipped from the Church, the Continuing Ecclesiastical Endorsement is always immediately withdrawn, and the student is discontinued. Every student must have a current Continuing Ecclesiastical Endorsement for continued enrollment.

The Registration Process

Complete registration instructions and deadlines are listed in the current class schedule for each semester or term or on the web site http://saas.byu.edu/registrar/.

Registration is based on a priority system (**fall** and winter semesters only) that allows students to begin registration according to their class standing or number of completed hours. Priority begins with graduate students and seniors, then juniors, sophomores, and freshmen. Post-baccalaureate non-degree-seeking graduates will be given access after continuing freshmen. Newly admitted freshmen will register together in a separate priority (fall semester only).

All eligible students will receive a registration notice by email for **fall** and winter semesters that will inform students of their priority registration day. Students may begin registering for fall semester in April and for winter semester in October by following the instructions in the current class schedule or on the web site.

Spring and summer term registration is not based on a priority system. Schedules become available sometime in December, and eligible students can register for spring and summer terms beginning in February. Students have continuous access to the online registration system; however, once school begins some classes must be added with an instructor's signature.

Adding and Dropping Classes

Students may use the web registration system to add and drop classes until the add deadline. Each academic department determines how classes are added. The add method of each class is noted in the current class schedule with an **O** (web registration system is open through add deadline), **S** (department or faculty signature required always), or **F** (web registration system until classes start—instructor signature thereafter).

To add a class that requires a signature:

1. Obtain a change of registration (add/drop) card from the Registration Office, a college advisement center, or a department.
2. Obtain a signature of approval from the instructor or department as shown in the current class schedule.
3. Take the add card to the Registration Office at OneStop during the first ten school days of a semester for fall and winter and to the Registration Office (B-130 ASB) during spring and summer terms (first six days).
4. For classes not officially added before the add deadline, students may petition for exception through the Petitions Office (B-150 ASB) and pay a $10 fee per class.

To drop a class once school begins:

Use the AIM registration system during the add period (first **ten** class days of a semester or first **six** days of a term). Drop cards are also accepted at OneStop during Fall and Winter semesters.

Note: A student can be registered for more than one section of an R-suffix course and therefore must drop each unwanted section.

To withdraw from a class:

1. During the withdraw period (eleventh through twenty-fifth day of a semester, seventh through thirteenth day of a term) students may use the AIM registration system to withdraw from classes. A $10 fee per class will be charged to the student's account and a W will be posted on the student's transcript.
2. To withdraw from classes for extenuating circumstances after the withdraw deadline, students may petition for exception through the Petitions Office (B-150 ASB) and pay a $10 fee per class.

Full-, Three-Quarter-, or Part-Time Status

A student who registers for 12 or more credit hours a semester or 6 or more credit hours a term is full-time for tuition purposes. Registration for 9 to 11.5 credit hours per semester or 4.5 to 5.5 credit hours per term is deemed three-quarter-time for tuition purposes. Registration for 0.5 to 8.5 credit hours a semester (0.5 to 4 credit hours a term) gives the student part-time status. International students and students receiving financial assistance may be required to register for more hours to be considered full-time.

Verification of Full-Time Status for Graduate Students

Graduate students (master's and doctoral students) who are enrolled for at least 2 credit hours per semester and who can be certified by their department as being engaged full-time in pursuit of their degrees can petition for graduate full-time status. Requests for such an exception should be directed to the Office of Graduate Studies (B-356 ASB).

Withdrawal from Classes

Students who choose to withdraw from a class must do so officially. Students who do not officially withdraw before the published deadline will receive a failing grade. Refer to the current class schedule for the appropriate procedure and deadlines and fees.

Auditing Classes

Students who wish to audit a class (take a course without receiving any credit for it) must add the class, listing it as an audit course, on an add/drop card within the first ten class days of a semester or the first six class days of a term. Audited classes do not appear on transcripts and do not count for verification purposes. *Students must be officially enrolled either for credit or audit to be eligible to attend class.*

Class Preparation Time

The expectation for undergraduate courses is three hours of work per week per credit hour for the average student who is appropriately prepared; much more time may be required to achieve excellence. These three hours may include one hour of lecture plus two hours of work outside class, three hours in a laboratory with little outside work, or any other combination appropriate to a particular course.

Maximum Hours per Semester/Term

An undergraduate student in good standing may register for as many as 18 credit hours in any one semester (9 per term) by following the regular registration procedure. Once school begins the college advisement center may authorize a student who has demonstrated superior academic ability to register for a maximum of 21 hours per semester (11 per term). Registering for classes through Continuing Education or auditing classes constitutes a part of the total registration. Through a petition process after the first day of school, exceptions to these rules may be granted by the university registrar (B-150 ASB). Students registering in the Semester Away program through Evening Classes may register for up to 12 credit hours in a semester (6 per term), of which 9 credit hours (5 per term) may be Independent Study courses.

Final Examinations

The university schedules exam preparation and examination periods. An examination period occurs at the end of each semester and term. The examination period is preceded by exam preparation days, which give time for conscientious review, study, and synthesis of the semester's work. The exam preparation and the examination periods are firmly scheduled parts of the semester; students must not make plans that interfere with these important academic activities. Students may not take final examinations early. If illness or other uncontrollable circumstances prevent a student from taking an examination at the scheduled time, that student is responsible to inform the class instructor as soon as possible.

The instructor may give the grade *Incomplete* for nonacademic extenuating circumstances occurring after the discontinuance deadline. The incomplete cannot be given unless the student and instructor together prepare a contractual agreement (see Grading and Records for further information.) In cases where a student has conflicting examinations or more than three examinations in one day, individual arrangement for alternative test times may be made by the instructor.

Registration Holds

The university may place a hold on a student's records that will block registration privileges. The hold will be indicated on the registration system. It is the student's responsibility to contact the appropriate office to clear any holds before attempting to register for classes.

Student Academic Record Appeals Process

The Student Academic Record Appeals Process has been established for students who encounter situations involving non-academic extenuating circumstances or emergencies potentially affecting their educational records that fall outside the realm of normal university policy and procedure. The petition process must be initiated within one year from the semester or term in question. It is the student's responsibility to obtain the necessary supporting information from the instructor, physician, employer, etc., to accompany the request. Petition forms may be obtained at the Registrar's Office, B-150 ASB.

Tuition and Fees

Student Services
D-155 ASB
(801) 422-4104

Tuition Rates

Tuition and class fees for all academic programs are established annually by Brigham Young University's Board of Trustees. Tuition rates are based on graduate or undergraduate status, full- or part-time status, and membership in The Church of Jesus Christ of Latter-day Saints (Church). There are also separate rates for graduate students attending the J. Reuben Clark Law School and the Marriott School of Management.

BYU is owned and operated by the Church, and a significant portion of university operating costs are paid with the tithes of Church members. In recognition of this support, Church members are assessed lower tuition fees than those who are not members. This practice is similar in principle to that of state universities charging higher tuition to nonresidents. Students are considered members of the Church if they have been baptized at any time during the semester or term.

Tuition rates for the 2008–2009 academic year are as follows:

Per Semester (fall or winter)		**Per Term** (spring or summer)	
LDS	Non-LDS	LDS	Non-LDS
Undergraduate Students			
Full-Time			
$2,040	$4,080	$1,020	$2,040
Three-Quarter-Time			
$1,970	$3,955	$985	$1,978
Part-Time (per credit hour)			
$209	$418	$209	$418
Graduate Students (other than students in the Law School and Graduate School of Management)			
Full-Time			
$2,580	$5,160	$1,290	$2,580
Part-Time (per credit hour)			
$287	$573	$287	$573
Graduate School of Management and Law School Students			
Full-Time			
$4,620	$9,240	$2,310	$4,620
Part-Time (per credit hour)			
$513	$1,027	$513	$1,027

The university reserves the right to change tuition and fees without notice.

Noncredit and Audited Course Fees

Tuition for noncredit courses or for courses being audited is charged at the same rate as for credit courses. Noncredit and audit hours will be considered when determining part-time, three-quarter-time, or full-time status for tuition assessment purposes.

Student Status for Tuition Assessment Purposes

The Church of Jesus Christ of Latter-day Saints | BYU-Hawaii | BYU-Idaho | BYU Jerusalem Center | BYU Salt Lake Center | LDS Business College | Missionary

Graduate Status. Students (both degree-seeking and non-degree-seeking) who have received their bachelor's degree prior to the beginning of the semester or term for which they are registering. Note that the preceding tuition rate table does not apply to students of the J. Reuben Clark Law School and the Marriott School of Management. Separate tuition and fee schedules are available for these programs within the respective schools.

Full-time Status. Undergraduate students registered for 12.0 or more credit hours per semester or 6.0 or more credit hours per term. For graduate students, full-time status is defined as registration for 8.5 or more credit hours per semester or 4.5 or more credit hours per term.

Three-Quarter-Time Status. Undergraduate students registered for 9.0 to 11.5 credit hours per semester or 4.5 to 5.5 credit hours per term. There is no three-quarter-time status for graduate students. Enrollment as a three-quarter-time student does not entitle the student to physical education suit and facility privileges.

Part-Time Status. Undergraduate students registered for 0.5 to 8.5 credit hours per semester or 0.5 to 4 credit hours per term. For graduate students, part-time status is defined as registration for 0.5 to 8.0 credit hours per semester or 0.5 to 4.0 credit hours per term. Enrollment as a part-time undergraduate student does not entitle the student to health service, student activity privileges, or physical education suit and facility privileges.

Payment of Tuition and Fees

Tuition and fees are considered due and payable seven calendar days prior to the first day of class. Failure to pay by this date will result in holds being placed on the student's account, restricting the ability to add additional classes, unless the student has pending financial aid. Class registrations will be dropped if payment of tuition and fees is not received by midnight on the add deadline. Classes will generally not be dropped if adequate financial aid is pending. However, it is the student's responsibility to ensure that financial aid or other forms of payment are available to satisfy tuition and fees prior to the deadline. Class registrations that are dropped for nonpayment will not be reinstated for payments received after the payment deadline.

Short-Term Loans

The university makes short-term loans available to assist students to meet the tuition payment deadline. These loans are intended to be used for short-duration financing needs. Short-term loans are due as follows:

Semester/Term	Due Date
Fall 2008	November 1, 2007
Winter 2009	March 1, 2008
Spring 2009	June 1, 2008
Summer 2009	August 1, 2008

A $20 processing fee will be charged for each short-term loan. No interest is charged on those loans if they are paid by the due date. Short-term loans outstanding after the due date bear interest at the rate of 12 percent per annum. Holds on registration for future semesters or terms are placed on all student accounts the day the short-term loan is disbursed and are not released until the loan is paid in full. This may affect the ability of some students to take advantage of priority registration.

Pro-Rata Charges for Dropped Classes

Students may drop classes without penalty until the add deadline. After the add deadline, tuition will be recalculated based on the student's current enrollment status. A pro-rata tuition charge will be applied for dropped classes that result in a student moving from full-time to three-quarter-time or three-quarter time to part-time or fewer hours within part-time status. The pro-rata charge applies to tuition and most class fees. Certain class fees relate to the delivery of required supplies or services and are not refundable. The pro-rata charges are as follows:

If class is dropped beginning:	The pro-rata charge will be:
Fall Semester	
September 16, 2008	15%
September 22, 2008	25%
October 27, 2008	50%
November 10, 2008	100%
Winter Semester	
January 20, 2009	15%
January 26, 2009	25%
March 2, 2009	50%
March 16, 2009	100%
Spring Term	
May 6, 2009	15%
May 11, 2009	25%
May 26, 2009	50%
June 1, 2009	100%
Summer Term	
June 30, 2009	15%

July 6, 2009	25%
July 20, 2009	50%
July 27, 2009	100%

The recalculation of tuition and fee charges may result in a refund. The amount of the refund a student will receive is based on the date the classes are dropped, or in the case of an official discontinuance, the date that the student reports such discontinuance to the Discontinuance Office (B-150 ASB).

Any refund due the student will be paid by check through the mail approximately ten days after the classes are dropped. If the student has elected direct deposit for student account refunds, the refund will be deposited into the student's bank. Payments originally paid by credit card will be returned to the credit card. Unpaid university charges may be deducted from the refund amount.

Refunds will not be paid to students whose tuition has been paid by a loan, scholarship, or benefit.

If a student with federal financial aid drops below half-time enrollment (undergraduate, 6 hours per semester or 3 hours per term; graduate, 4.5 hours per semester or 2.5 hours per term), the federal program or lender may require that a portion of the refund be returned.

A petition for exception to the refund schedule will be considered for students forced to discontinue because of circumstances that are beyond their control, such as death in the immediate family, life-threatening situations, medical incapacitation, a university error, or military leave. Students should not submit petitions based on ignorance of university policies and procedures. These will be denied. Petition forms are avialable in D-155 ASB.

Collection of Unpaid Tuition and Fees

BYU retains all legal remedies to collect unpaid tuition, fees, and other amounts due to the university for housing, traffic fines, etc. BYU uses a variety of methods to keep students informed of amounts due the university, including financial Web sites, statements, and various forms of correspondence. It is the student's responsibility to remain aware of obligations to the university and to make payment on a timely basis.

If BYU is unable to collect amounts due the university within a reasonable time, the debt may be referred to an outside collection agency and/or attorney for collection. All collection costs, including collection agency fees, attorney fees, and court costs will be charged to the student's account.

Failure to pay all amounts due BYU, including collection fees, may also result in various actions, including but not limited to withholding services and restricting the student's ability to register for class, participate in graduation, receive a transcript or diploma, or be considered for readmission to the university. The university also reserves the right to report both positive and negative payment histories to credit-reporting agencies.

Payments for Tuition and Fees

Tuition and fees include charges such as tuition, class fees, tuition reassessments, tuition late fees, Study Abroad fees, and health plan charges. Students are responsible to pay the correct amount of tuition, fees, and past due balances in U.S. dollars (checks must be drawn on a U.S. bank). A current billing statement is available on Route Y by clicking the My Financial Center link under the School heading. The following options are available for making tuition and fee payments. For more information on making payments to BYU, please visit http://payments.byu.edu.

Pay Tuition Online

BYU encourages you to take advantage of the fast, easy, and secure way to pay online. Payments may be made online by logging into Route Y and selecting the My Financial Center link under the School heading.

1. **eCheck** (BYU's preferred payment method)
   eCheck is a *free* electronic check option that uses a secure Web transmission to electronically deduct payments directly from a checking or savings account. The payer's bank routing and account numbers are required when making eCheck payments. Payments from mutual fund, money market, line of credit, or brokerage accounts cannot be accepted.

2. **Credit Card with a Service Fee**
   The university no longer accepts credit card payments for tuition and fees directly, but BYU has arranged for a third-party vendor to accept American Express, Discover, and MasterCard. The third party charges the payer a nonrefundable service fee equal to 2.75 percent of the transaction amount. This fee will be in addition to the tuition and fee charges. **Visa is not accepted** because its operating rules prevent participation in service fee programs of this type.

   Debit cards are considered credit cards for tuition and loan payment purposes and would therefore be subject to the same credit card restrictions and service charges. Because eChecks and debit cards both deduct payments directly from a checking or savings account, students can avoid the service charge by choosing the eCheck option.

   Note the Credit Card Refund Policy: Existing credit card regulations prohibit BYU from making a refund to you in cash or check when you make a payment by credit card and there is an adjustment made to the charges paid. When you pay by credit card and there is a reduction in the amount of your charges, we are required to refund the amount back to the credit card you used to make the payment. The third party vendor will not refund any portion of the service fee even though a refund has been made to the credit card.

Pay Tuition by Mail

Check or money order payments may be mailed to Student Financial Services, A-153 ASB, Provo, UT 84602. Please make checks payable to Brigham Young University or BYU. Do not mail cash. Include with your check the student's BYU ID number and the amount to apply to each category.
Training Center

Pay Tuition in Person

Payments may be made throughout the year in person at D-155 ASB. However, during the first two weeks of each semester or term, only limited services are available at this location. Full cashiering services during these periods are available at OneStop Student Services in the Wilkinson Student Center. Tuition may be paid using check, money order, or cash. **Credit cards and the Signature Card cannot be used to pay tuition or fees at BYU cashiering locations** (see Pay Tuition Online above for acceptable use of credit cards). Check or money order payments may also be left in the drop boxes at OneStop Student Services in the Wilkinson Center or D wing on the main floor of the ASB.

Pay Tuition by Telephone

eCheck payments may be made over the telephone by calling (801) 422-4104. Credit card payments for tuition cannot be made over the telephone. Credit card payments for tuition can only be made online through the third-party vendor.

Pay Tuition Through Western Union

This option is probably most advantageous for international payments. Using cash rather than credit card as the payment method will greatly reduce the amount of Western Union fees.

Follow these instructions to make a tuition payment using Western Union Quick Collect:

1. Go to a Western Union agent location. To find a location call toll-free 1-800-325-6000, press 2, 1; or go to the Web site at http://www.westernunion.com
2. Complete the blue Quick Collect form. You will need the following information to complete the form:
   - Pay to: Brigham Young University
   - Code city: BrighamYoung (case sensitive and no spaces)
   - State: UT
   - Account Number: (nine-digit BYU student ID)
3. Provide payment to Western Union
   - Payment amount includes amount owed to BYU plus Quick Collect fee (between $11 and $15 U.S.)
   - $5,000 U.S. limit for each cash transaction
4. Receive the receipt with the ten-digit money transfer control number (MTCN). This number can be used to track your Quick Collect payment. Notification of cash payment is sent within a few minutes.

Pay Tuition by Wire Transfer

To pay tuition using an international or domestic wire transfer, please contact us for wire transfer instructions via phone (801) 422-4104 or via email at wiretransfer@byu.edu.

University Fees

Class Fees

Army ROTC Leadership Laboratory	$40

*Student must also have equipment and purchase lift passes.

**See department for a refund application.
***See department for a fee card.
†See department for amount.

Class fee refunds are based on the same schedule as listed for tuition refunds. Those with asterisks (*) are exceptions to this schedule and must be requested at the respective academic department.

Materials/Service Fees

The following courses charge fees based on materials consumed or services provided. Contact the individual department or professor to determine the appropriate payment procedure.

CM 105, 155, 210.

EC En 212, 301.

IT 101, 104A,B, 344, 347, 443, 447.

TEE 200, 209, 229, 450, 490R, 593R.

TMA 285, 475R.

VA 133.

VAStu 104, 105, 106, 204R, 205, 206R, 216, 217, 218, 219, 350, 351, 355R, 356R, 358, 359, 456R, 459R, 656R, 659R.

Student Teaching/Practicum Fees

Fingerprint Fee

Students in teacher education must be fingerprinted and pass a background check prior to starting practicum experiences with K–12 students. Fees for fingerprinting and background checks are set by the Utah State Office of Education and are listed on the Education Advisement Center Web site: http://education.byu.edu/eac.

Licensure Fee

Students who meet all program requirements qualify for a Level 1 teaching license in Utah. Fees for licensure are due with the student teaching application. Licensure fees are set by the Utah State Office of Education and are listed on the Office of Field Services Web site: http://education.byu.edu/fieldservices.

Miscellaneous Fees and Fines

Admission evaluation fee (nonrefundable)	$30
Bicycle registration (Provo City license)	1
Change of registration fee—per class (after add deadline)	10
Dishonored check charge	20
Examination, special equivalency	10–20
NDFS-dietetics insurance and ADA dues	48
Graduation (undergraduate) fee (nonrefundable)	15
Identification photo for replacement ID card (no charge for first replacement	10
Incomplete grade contract fee per class (to a maximum of $30)	10
National League of Nursing Diagnostic Exam	40
Physical education locker	5
Traffic violation fines, variable according to violation	5–300
Transcript fee (pay at Records Office)	2

Health Insurance Requirement

BYU requires all three-quarter- and full-time students (9 credit hours or more for a semester; 4.5 credit hours for a term) to carry adequate medical insurance. This applies the entire time a student has continuing status, including students taking a semester or term off. All participants in groups on tour, Study Abroad, or internships are required to carry adequate medical insurance.

Enrollment in the BYU Student Health Plan satisfies the university's insurance requirement, as does enrollment in a group medical plan provided by an employer or a spouse's or parent's employer. We recommend that any other medical insurance plan should:

- provide at least 70 percent coverage for all major medical expenses, including physician, hospital, and ancillary services;
- have an individual annual deductible of no more than $500; and
- have an annual plan limit of no less than $25,000.

Three-quarter- or full-time students must enroll in the BYU Student Health Plan or provide verification of other adequate insurance coverage when first enrolling at BYU and prior to the beginning of fall semester each year thereafter. Students who do not return a properly completed

waiver form via the Web to the BYU Student Health Plan Office prior to the last day to add/drop will be automatically enrolled in and assessed the appropriate premium (single or married student rate) for the BYU Student Health Plan.

The BYU Student Health Plan is an annual plan but is billed and must be paid each semester/term. The health plan fee is due the first day of class each semester or term. Following fall semester, students who will not be attending BYU for one or more semesters or terms (except as described above) are eligible to remain on the BYU Student Health Plan but must continue to pay the health plan fee on a timely basis. Following fall semester, students who will no longer be attending BYU may also opt out of participation in the health plan. If you choose to not remain on the student health plan, you must submit in writing such decision to the BYU Student Health Plan Office by the due date of the plan fee.

For the latest BYU Student Health Plan fees, check the Web site at http://health.byu.edu/healthplan/index.php.

Appeals

Students with unusual circumstances may appeal for special consideration of any item in this section to the Student Services Office. Appeal forms may be obtained at the Student Services windows at D-155 ASB.

Please report any problems to web_ugrad_cat@byu.edu, Brigham Young University, Provo, UT 84602 - (801)422-4245 - Copyright 2007, All Rights Reserved
XHTML CSS 508

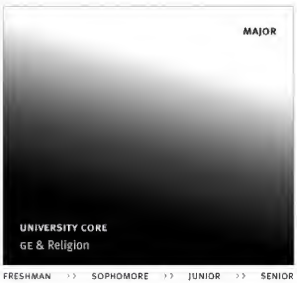
The University Core: General and Religious Education

The BYU Baccalaureate: The Ideal of Integration

Many people, when they think of university education, think primarily of the major—a bachelor's degree in, for example, economics or chemistry or engineering. But a baccalaureate is much more than a major and much more than job-based training in a particular field. The very wording of the diploma does not state the major: something greater has been earned and conferred—a *university* baccalaureate.

There are three formal components to the baccalaureate at Brigham Young University: religious education, general education, and education in a major. Of these, the first two constitute the *university core*. In accordance with The Aims of a BYU Education—which invites each student and every member of the university community to wholeness—each of the three components complements the others. They are not partitioned off from one another; none claims preeminence; together they comprise a whole, a harmony.

The following visual model differs from the way many think about general education and religion courses, as things to get out of the way as quickly as possible:



Skills and depth are developed over time as the student progresses in both the core and the major; breadth, unfolding partly from historical perspective, ought to characterize the major as well as the core. The relationship between core and major will vary in any given year according to the competing demands upon the student's attention. However, students should strive to develop their programs in such a way that a lively interrelationship between the university core and the major, in which each nourishes and informs the other, is pursued over their entire undergraduate experience.

The major and the core blend into each other. It is here that open electives play their particular role. Without prolonging time at the university, each student enjoys the latitude—and, for some, ample latitude—to design an individual educational experience. Electives enrich; choices that students make about electives define what is unique about their education. Having found a core science course

engaging, for example, a student might take cognate courses to explore the subject more deeply.

Having completed the 14-hour religion requirement, students are not barred from taking further religion courses. Majoring in a technical field, students might enlarge their experience of the liberal arts beyond what the core requires. A humanities major might choose to complete an applied minor in computing skills or to construct an unofficial "mini-minor" of courses that open up a particular opportunity for employment or further education at a professional school.

Students are encouraged to acquire skills in both foreign language and mathematics, even though only one of these is required by the core. Additional curricular and extracurricular opportunities in the Honors Program are open to all students at whatever level they might wish to be involved.

Why a University Core?

All students at BYU should be taught the truths of the gospel of Jesus Christ. Any education is inadequate which does not emphasize that His is the only name given under heaven whereby mankind can be saved....

Because the gospel encourages the pursuit of all truth, students at BYU should receive a broad university education. The arts, letters, and sciences provide the core of such an education, which will help students think clearly, communicate effectively, understand important ideas in their own cultural tradition as well as that of others, and establish clear standards of intellectual integrity. (BYU Mission Statement)

Most graduates, five years after completing their degrees, are not employed directly in the areas of their majors, and studies show that those do best in the long term whose breadth of education, rather than specialized training, has given them versatility. A university provides marketable skills; it bestows credentials necessary to some future goal; its graduates, statistically, make more money. But students who enroll at the university seeking only these things—or worse, students who graduate having sought only these things—cheat themselves of the best the university has to offer.

Students benefit most who desire to savor and to ponder, to recognize (in whatever eventual major) the hidden likenesses among the subjects they study, to aim at integration and wholeness. Students benefit most who take the university with them: changed by their experience, they have developed educated habits of mind; they have deepened their faith; they have learned to integrate the sacred and the secular; and they have learned that the craving for knowledge is not fully capable of satisfaction within a lifetime. Students benefit most who become lifelong learners, engaged in service to their fellow human beings.

That it integrates sacred and secular education is the hallmark of a BYU baccalaureate. All disciplines at BYU are "bathed in the light and color of the restored gospel" (Aims, "Spiritually Strengthening"). Religion courses themselves—both Doctrinal Foundation and electives—are not intended as only a devotional supplement to the educational enterprise of the university. At once rigorous and inspiring, they engage the mind and the heart in an ever deeper understanding of the gospel of Jesus Christ through close and meticulous study of the scriptures and the teachings of the living prophets.

General education joins with religious education to make *university* education different from specialized vocational training. It builds a foundation for intellectual development; it increases our understanding of civilization—of humankind's most valuable knowledge and achievements in the arts, letters, and sciences. General education teaches us the importance of critical thinking, an awareness of the past, aesthetic sensibility, and moral judgment. These, together with the training provided in verbal and quantitative skills amd in manipulating symbolic systems, help prepare us for a lifetime of learning, effective communication, responsible action, forming and judging arguments, and appreciating and creating the good and the beautiful.

Administration of the University Core

The university core is administered collaboratively by the deans of Undergraduate Education and Religious Education under the direction of the academic vice president. Religious Education is

responsible for the Doctrinal Foundation and Religion Electives components and the courses that meet these requirements; Undergraduate Education is responsible for the general education components. The success of the core depends upon dedicated faculty from throughout the university. The Faculty General Education Council, chaired by the associate dean of Undergraduate Education for General Education, reviews and approves all courses meeting general education requirements within the university core.

Modification of the GE Program and Implementation of the University Core in 2004

A revised general education (GE) program and university core (in which GE and religion requirements are combined) was implemented in fall 2004. Students who enter BYU fall 2004 or thereafter must complete the new core program described below. Students who have taken classes at BYU before fall 2004 have the option to continue with the previous GE program. These continuing students should visit their college advisement centers to discuss the optimal program, given their current status.

The modifications in general education, effective fall 2004, have been made in an effort to achieve closer alignment with The Aims of a BYU Education, helping to assure that each student develop valuable skills and breadth in fundamental areas of human knowledge. To accommodate these changes, earlier restrictions against double-counting have been abandoned. It is now be possible, in some instances, for two requirements to be met by the same class. Among these modifications are the following:

- A new Quantitative Reasoning requirement replaces the previous one in Pre-College Math.
- A Global and Cultural Awareness requirement has been added, with many possibilities for double-counting.
- The former Arts and Letters requirement has been separated into two, with one course in each area.
- It is possible to double-count one Civilization 2 class (designated sections only) for either the Arts, Letters, or Global and Cultural Awareness requirement.
- Social Science has been grouped with Biological Science and Physical Science under Scientific Principles and Reasoning and limited to courses grounded in scientific method.
- A new instruction course, in conjunction with two activities classes, has been added to the Wellness requirement as an option.
- An oral communication component has been added to the Advanced Written and Oral Communication requirement.
- The minimum credit needed to complete the GE program has decreased from 34.5 credits to 31.5 credits, freeing up further space for open electives.

Who Must Complete University Core Requirements?

All students who receive undergraduate degrees from BYU are required to complete the new core requirements as outlined below, except those students who have taken classes at BYU before fall semester 2004. These latter students may complete either the new university core program or the previous GE program. Information on the previous GE program can be obtained in the college advisement centers. Students completing requirements under the previous GE program must do so before fall semester 2008.

Description of the University Core

The new university core comprises five categories titled Doctrinal Foundation; The Individual and Society; Skills; Arts, Letters, and Sciences; and Core Enrichment: Electives.

These areas are explained below. Brief statements of the ways to satisfy these requirements are provided in the accompanying table.

Consult the University Core/General Education Courses section of the current class schedule for an up-to-date list of approved courses. The current class schedule is available online at http://saas.byu.edu/classschedule

Doctrinal Foundation and Religion Electives

Religious Education administers and offers courses in ancient and modern scripture, Church history and doctrine, and related subjects. Together these help students toward an ever deeper understanding of "the doctrines, the covenants, the ordinances, the standard works, and the history of the restored gospel" (Aims, "Intellectually Enlarging").

Because The Church of Jesus Christ of Latter-day Saints maintains that regular gospel study is a necessary part of the university experience, religion courses are provided so that students may progress in their religious understanding and convictions simultaneously with their educational progress in secular fields. As such, religion courses are not meant to be a mere devotional supplement but an integral part of the university curriculum that conforms to university standards and expectations. Therefore, while students are enrolled at BYU, they are required to take religion courses from BYU.

Doctrinal Foundation

The heart of the university core's religion component is the doctrinal foundation based upon careful, informed, and reflective study of sacred scripture and doctrines of The Church of Jesus Christ of Latter-day Saints.

While enrolled at BYU, all students must complete the Doctrinal Foundation requirement of the university core as outlined in the chart below. Note that the requirement is different for transfer students. Since the religion requirement is determined by the number of transfer hours, if is important for each student to refer to their official personal progress report or consult with a university advisement center to determine their official status and their corresponding religion requirement for graduation.

It is strongly recommended that the Book of Mormon requirement (Rel A 121/H *and* 122/H) be taken the first year at the university. **All students who have completed an LDS mission and have not previously completed these courses must enroll in Book of Mormon sections designated for returned missionaries.**

Students who are **not LDS** are strongly encouraged to enroll in Rel C 100, Introduction to Mormonism, during their first semester in residence. This course is designed to be informational, to introduce students to the culture, scriptures, and distinctive doctrines of The Church of Jesus Christ of Latter-day Saints, and to prepare them for subsequent religion classes. Rel C 100 may be used to fill either the New Testament or Doctrine and Covenants Doctrinal Foundation requirement.

Religion Electives

In addition to fulfilling the Doctrinal Foundation requirement, all students are required to take a specified number of BYU religion course hours as outlined in the chart below. Fulfilling these hours can be accomplished by taking BYU Doctrinal Foundation courses and/or BYU religion elective courses intended to enrich the Doctrinal Foundation with rigorous study from a variety of religious topics dealing with ancient scripture and Church history and doctrine. **Religion courses taken from LDS institutes of religion (including stake institutes) or Church Educational System schools (BYU–Idaho or BYU–Hawaii) will not fulfill the required number of BYU religion hours to be taken by each student. Only religion hours taken at the Provo campus will fulfill this requirement.**

Religion courses taken at the BYU Salt Lake Center and through the BYU Independent Study program are considered part of the BYU campus and will fulfill the required number of religion courses required of each student.

Because regular gospel study should be a continuous part of a student's university experience, it would be ideal to take one religion class each semester of enrollment. **To encourage this, no more than 4 hours of religion credit per semester (spring/summer counts as one semester) may be counted toward the required religion hours to be taken at BYU.**

No religion course numbered in the 500s and 600s may be applied toward undergraduate religion credit.

Religion credit from non-LDS universities will not be counted toward fulfilling any part of the religion requirement.

Total Hours Transferred to BYU	Total BYU Religion Hours to Take While Enrolled at BYU	Doctrinal Foundation Courses Required for Graduation**
0–14.9	14	Book of Mormon (Rel A 121/H and 122/H), New Testament (Rel A 111 or 200 or 211/H or 212/H or 310 or 311), Doctrine and Covenants (Rel C 324/H or 325/H).
15–29.9	12	
30–44.9	10	
45–59.9	8	
60–74.9	6	Book of Mormon (Rel A 121/H and 122/H), Doctrine and Covenants (Rel C 324/H or 325/H).
75–89.9	4*	
90 or more	2*	Book of Mormon (Rel A 121/H and 122/H).
* More credits may be needed if the Doctrinal Foundation requirement has not been completed. There are no exceptions to the Book of Mormon requirement. **These courses may be transferred from LDS institutes, BYU–Hawaii, or BYU–Idaho but must correspond with BYU courses (number/content and hours) and will not reduce the number of total BYU religion hours that must be taken while enrolled at BYU.		

The Individual and Society

The Individual and Society requirements inspire students to continue learning and serving throughout their lives. Students will actively participate in solving family, professional, religious, and social problems after leaving BYU. Under the Individual and Society category are grouped the areas of Wellness and Citizenship, the latter of which includes American Heritage and Global and Cultural Awareness.

The Wellness requirement provides instruction based on current scientific evidence and revealed knowledge about what constitutes a healthy lifestyle and offers practical experience in fitness and wellness. It provides instruction in health principles for lifelong physical well-being and emphasizes the underlying principles of cultivating a "sound mind in a sound body."

American Heritage gives students an introduction to the political and economic foundations of the American democratic system and helps students appreciate the unique contribution of America to modern civilization. The Global and Cultural Awareness requirement ensures that students develop an "informed awareness of the peoples, cultures, languages, and nations of the world." Students understand important ideas in their own cultural tradition as well as others and are prepared to "go forth to serve."

Skills

In our modern, complex society, the ability to communicate effectively is deemed a crucial skill. Under the Skills category are grouped the following requirements: first, under the heading Effective Communication is First-Year Writing, followed by Advanced Written and Oral Communication; second, Quantitative Reasoning; and third, Languages of Learning. All these requirements convey information and understanding. First-Year Writing teaches methods of library research, text analysis, and writing skills in different genres and styles. These essential skills will be used and expanded in all succeeding years of university work. Once students have identified an area for major study, the Advanced Written and Oral Communication requirement introduces them to the discourse and documentation style of their chosen discipline.

To function in a technological society, a basic knowledge of mathematics as a means of communication and problem solving is essential. Quantitative Reasoning requires all students to certify a basic level of

numeracy, either with an appropriately high score on the mathematics section of the ACT or SAT exams or by completion of a BYU course. Then, under the Languages of Learning requirement, students gain advanced symbolic language skills in mathematics, statistics, or a foreign language that broadly applies to a variety of disciplines. Students thus achieve an exposure to cultures and to the ways in which practitioners of the language structure their knowledge.

Arts, Letters, and Sciences

The university's Mission Statement asserts that the "arts, letters, and sciences provide the core of [a broad university] education." These requirements build upon work in other categories of the core by developing "historical perspective" and "a lively appreciation of the artistic, literary, and intellectual achievements of human cultures" and by extending the student's understanding of "basic concepts of the . . . sciences," including "a recognition of the power and limitations of the scientific method" (*Aims,* "Intellectually Enlarging"). This category comprises a Civilization sequence, separate requirements in Arts and in Letters, and requirements in the Biological, Physical, and Social Sciences. The Civilization requirement provides a historical framework and a consideration of important works and themes. Through the Arts and Letters requirements, students deepen their appreciation of artistic and literary works and grow in their capacity to analyze, interpret, and draw justifiable implications from their reading and from their experience with the visual and performing arts.

The area of Scientific Principles and Reasoning contains three requirements: Biological Science, Physical Science, and Social Science. These requirements help develop an understanding of scientific reasoning and the scientific method and expose students to the excitement of discovery in these separate fields. Students will be able to evaluate scientific data to make rational decisions on science-related issues that will affect their lives and community.

Core Enrichment: Electives

This element of the core is in two parts: Religion Electives, which are discussed above in conjunction with the Doctrinal Foundation; and Open Electives, which vary according to the number of credit hours required by the major and other factors. As mentioned, one of the changes in the new general education program implemented fall 2004 was a reduction in hours, aimed at freeing up space for further open electives. Thoughtful choice of electives allows students to design a unique and enriched educational experience. Some suggestions on how these electives might be used are given above under the heading The BYU Baccalaureate: The Ideal of Integration.

Selection and Timing of GE Classes

Each GE requirement is completed by taking one course or a combination of courses, chosen from the approved list in the table found in the current class schedule. Single-course options are most often designed for students whose major is topically distant from the requirement. On the other hand, combination-of-course options are often designed for majors related to the requirement, and may include courses a student might take to satisfy a major or minor requirement. Students should carefully consider which option best meets their educational needs, keeping in mind the aim of pursuing a lively interrelationship between the core and the major over the whole undergraduate experience.

Not all courses listed in the class schedule are appropriate for all students. For instance, some have prerequisites, some are upper-division courses, and some are designed primarily for certain majors. These courses are labeled in the university core table as either "has prerequisite" or "not for all students." Students should avoid registering for courses for which they are not academically prepared and should consult with the class instructor if they are unsure.

Occasionally it is possible to complete more than one GE requirement with a single course. For example, Civilization 2 courses are typically designated either "ARTS" for Arts-focused, "LTRS" for Letters-focused, or "GCA" for Global and Cultural Awareness-focused. A Civilization 2 (ARTS) course can be used to complete both the Civiliztion 2 requirement and the Arts requirement; a Civilization 2 (LTRS) course can be used to complete both the Civilization 2 requirement and the Letters requirement; and a Civilization 2 (GCA) course can be used to complete both the Civilization 2 requirement and the Global

and Cultural Awareness requirement. (Note: A Civilization 2 course can double count only once—either for Arts or Letters or Global and Cultural Awareness.) Students are encouraged to use such "Double-counting" sparingly—the more GE courses a student takes, the greater the breadth and value of the overall educational experience. The individual college advisement center is a valuable resource concerning questions of course selection, timing, and planning.

For First-Year Students. Although the time to complete GE requirements varies according to the major, all new students should complete First-Year Writing and the two Book of Mormon classes during their freshman year. First-Year Writing may be taken in either semester of the first year. It is also recommended that students who, because of an ACT math subscore below 22, need to fill the Quantitative Reasoning requirement do so in their first-year, and that all new students begin work in the mathematics or foreign language options under Languages of Learning.

Students planning to satisfy the Scientific Principles and Reasoning/Biological Science,/Physical Science requirements with the one-course options (e.g., Bio 100, Phy S 100) should also complete these, along with American Heritage, during their first two years, making some progress on them in their first year. Civilization courses are designed as sophomore-level courses, although some programs include them during the freshman year. Advice as to when to complete the other GE requirements can be obtained at college advisement centers or department offices.

The University Core and the Honors Program

The Honors Program, which is open to all interested students, offers an array of enriched courses that simultaneously satisfy university core and honors graduation requirements. These courses take two forms: those offered through the Honors Program proper (designated Honrs), which explore disciplinary topics in creative and innovative ways; and honors sections of departmental courses (designated by /H or a title that begins with the abbreviation *Honors*). See the Honors Program section of this catalog for a fuller description. Additional information may be obtained from the Honors Advisement Center, 102A MSRB, (801) 422-5497, or by consulting the Honors Program Course Guide at www.byu.edu/honors/.

The University Core and Freshman Academy

Many courses meeting university core requirements can be taken in an enhanced learning-community format through Freshman Academy. This one-semester program, open to all first-year students, helps them to make important connections within the university during their first semester at BYU. There are both nonhonors and honors options within the academy. A brief description of Freshman Academy is found in the Undergraduate Education section of this catalog. For fuller details see the academy Web site, frac@byu.edu, or call (801) 422-8176 or 1-877-890-5451.

Ways to Complete GE Requirements Other Than by Course Work

In addition to completing approved courses, students may satisfy individual GE requirements within the university core by (1) transferring acceptable credit from other academic institutions, (2) receiving credit from selected Advanced Placement (AP) and International Baccalaureate (IB) examinations, or (3) passing exemption or challenge examinations offered for some classes at the university.

1. Transfer Credit. The application of transfer credit to GE requirements is handled by the Transfer Evaluation Office, A-183 ASB, (801) 422-2500. Articulation agreements have been arranged with several junior and community colleges to facilitate the transfer process for students who have completed certain associate degrees. The Transfer Evaluation Office can be contacted for up-to-date information regarding the status of those agreements with other institutions.

2. Advanced Placement and International Baccalaureate Credit. The results of some Advanced Placement (AP) and International Baccalaureate (IB) exams may be used to meet certain GE requirements and to obtain general university credit. AP or IB credit posted to a transfer institution will be evaluated upon BYU's standards and not those of the transfer institution. The Advisement Support Office can be contacted for details regarding credit hours and exemption from GE requirements for both

AP and IB exams.

Note: College Level Examination Program. BYU stopped giving credit for general exams in 2000. At this time BYU does not give credit for subject exams either. CLEP credit posted to another institution's transcript is reevaluated based on BYU's standards.

3. Exemption and Challenge Examinations. Some requirements can be accomplished by successfully completing an examination. Two types of examinations are available: the exemption exam and the challenge exam. The primary difference between an examption exam and a challenge exam is that an exemption exam is used exclusively to fulfill a general education requirement. No academic credit or letter grade is posted to the transcript. The challenge exam, however, is not restricted to GE courses, and academic credit and a letter grade may be posted to the transcript if the student so choose. A student may only take an exemption or challenge exam for a single course only once during each semester or term. Students do not have to be enrolled in a course to take an exemption or challenge exam. However, some of the exams are given early enough each semester/term so that students who are enrolled and pass the exam may withdraw from the course. Students not enrolled in a course have an opportunity to take the challenge or exemption exams offered at the Testing Center.

Obtaining Help with Specific Questions Concerning General Education

The essential information concerning general education is found in this catalog or online at http://saas.byu.edu/classschedule. However, the recommended source of information and advice about university core requirements is the student's college advisement center. The ten college advisement centers, together with the University Advisement Center, 2500 WSC, provide assistance with registration, graduation requirements, policies and procedures, fields of study, changes of major, and many other aspects of academic life. Computer terminals are available in the advisement centers and other locations on campus to provide students with an up-to-date report of their academic status. Students can access a progress report (formerly Advisement by Computer or ABC Report) through Route Y on the BYU home page.

The University Core

The current University Core details are found in the Class Schedule.

Printable PDF

Course Numbering System

A course's level of instruction is shown by the number assigned to it:

Course Number	Type of Course
1 to 99	Preparatory and remedial (noncredit)
100 to 299	Lower-division
300 to 499	Upper-division
500 to 599	Advanced undergraduate or graduate
600 to 799	Graduate

Credit-Hour Designations

One semester hour of credit represents a minimum of one hour of instruction per week in a semester or two hours of instruction per week in a term (e.g., a three-hour class will meet at least three hours per week). The three-number code that appears in parentheses immediately after each course title has the following significance:

First number	Semester hours of credit
Second number	Class hours of lecture, recitation, or seminar meeting per week
Third number	Laboratory hours required per week or hours of field study or individual research per week, beyond the hours shown in the second number

Abbreviations and Symbols

Course Listings

The following abbreviations and symbols are used in the course listings:

A,B	Indicate parts of a course to be taken in separate enrollments.
Arr.	Credit, class, or laboratory hours arranged
ea.	Credit-hour designation applies to each registration
M	Majors-only course
R	Designates a course that may be repeated for credit. Two R courses with the same number on a transcript are treated as two independent courses. An R course cannot be repeated to raise the grade received; all grades will be counted because it is assumed that the subject matter varies from time to time.

When Courses Are Offered

The following abbreviations are used following the credit hour designation on some courses to indicate when the course is offered:

F	Fall semester
W	Winter semester
Sp	Spring term
Su	Summer term
Alt. sem.	Alternate semester
Alt. term	Alternate term
Alt. yr.	Alternate year
Even yr.	Even year
Odd yr.	Odd year
1st blk.	First block
2nd blk.	Second block
On dem.	On demand

David O. McKay School of Education

301 MCKB
(801) 422-3694

Dean: K. Richard Young, Professor, Counseling Psychology and Special Education
Associate Dean: Barbara Culatta, Professor, Communication Disorders
Associate Dean: Marie Tuttle, Teaching Professor, Teacher Education

The five departments in the David O. McKay School of Education are:

Communication Disorders
Counseling Psychology and Special Education
Educational Leadership and Foundations
Instructional Psychology and Technology
Teacher Education

The principal purposes of the David O. McKay School of Education are:

1. Preparing teachers for public and private schools;
2. Providing graduate programs for the preparation of school principals, counselors, school psychologists, curriculum supervisors, speech-language pathologists, and master teachers;
3. Offering research-based graduate programs; and
4. Researching educational processes and issues.

McKay School Student Services Center

Jay Oliver, Supervisor
120 MCKB
(801) 422-3426

The McKay School of Education Sudent Services Center is designed to centrally locate a variety of programs for the purpose of better servicing students needs. Three major programs housed in the Student Services Center includes the Education Advisement and Certification Office, the Field Services Office, and the Scholarship Office.

Education Advisement and Certification Office

The Education Advisement and Certification Office assists students from the beginning of the freshman year through graduation and teacher licensure. Students majoring in elementary education, early childhood education, special education, or communication disorders are advised concerning general education and major requirements, graduation requirements, and teacher licensure procedures.

Secondary education majors in social science receive their total program advisement from the Education Advisement and Certification Office. Other secondary education majors receive advisement in general education and major requirements from their respective college advisement centers. All majors receive licensure advisement in the Education Advisement and Certification Office.

Students are encouraged to visit their advisement centers on a regular basis. Forms are available on the Web site:
http://education.byu.edu/eac/index.html

Field Services Office

The Field Services Office assists students with student teaching and internship placements in local partnership schools and in schools selected for national and international programs. Students must make application and receive clearance for student teaching and internships by submitting a Student Teaching / Internship Application to Field Services, 120 MCKB. Forms are available on the Field Services Web site:
http://www.education.byu.edu/fieldservices/index.html.

Scholarship Office

The McKay School of Education Scholarship Office provides a variety of private scholarships, grants and loans to students majoring in a teaching program and other McKay School majors or programs. The scholarship, loan, and grant application is available online at
http://education.byu.edu/deans/scholarships.html.

Career Placement Office—Education

Lisa Christensen, Supervisor
2400 WSC
(801) 422-6934

E-mail: education_placement@byu.edu

The Education Placement Office seeks to assist students and alumni in their career search by providing students with tools, information, and encouragement to perform a successful job search. Students may register with the Education Placement Office by going to http://educationplacement.byu.edu and following the placement file Web site links. Registrants gain access to many valuable services including information and advisement on resumes, interviewing, networking, and teacher fair participation. The placement office also schedules recruiters and advertises job postings received from school districts across the nation and internationally.

Acceptance into Teacher Education Licensure Programs

Acceptance into teacher education licensure programs in the David O. McKay School of Education is based on a student's application and admission criteria, including an FBI background clearance. The David O. McKay School of Education seeks students who attain high educational standards and who evidence aptitude for teaching.

Secondary education majors are encouraged to take Sc Ed 276R in their sophomore year. Early childhood education and special education majors must complete their "Exploratory Experience in Education" (see advisor for details) before the final semester of their sophomore year, after which formal acceptance into professional program in the David O. McKay School of Education normally occurs.

Withdrawals. Students who withdraw from the university or who otherwise interrupt their education (excepting spring and summer terms) must expect, on returning to the university, to meet the most recent requirements for teacher education licensure programs.

Transfer Students. Students who transfer to the David O. McKay School of Education from a two-year college, another university, or another college within BYU must meet the requirements for acceptance set forth above.

Preparation of Teachers

Candidates for all teacher preparation programs are required to complete an application that includes core criteria for each program. Applications are available online at http://education.byu.edu/ted for all teaching majors except special education.

Fingerprint and Background Check

All candidates for teacher licensure are required by state statute to be fingerprinted and pass an FBI background check before participating in required field experiences. Fingerprinting can be done in the Education Advisement Center, 120 MCKB. Refer to the advisement center webstie: http://education.byu.edu.eac/index.html for a fingerprinting schedule. Allow from five to six weeks for fingerprints to be processed. FBI background clearance is valid for only three years. If clearance expires before graduation, candidates must repeat the fingerprinting and clearance process, including a new fee payment.

Failing to expunge a police record prior to the background check may result in a blocked registration while a panel reviews the charges. Candidates who cannot pass an FBI background check will be removed from the teacher education licensure program.

Early Childhood Teaching. Students who want to teach young children from prekindergarten through grade 3 should register in the Department of Teacher Education. Students receive advisement from the David O. McKay School of Education Advisement and Certification Office. Prior application and acceptance are required to enroll in the professional education course sequence. Students should plan their programs and course schedules with the designated advisors in the Education Advisement and Certification Office. Elementary education majors may elect to fullfill certification requirements for teaching P–K by completing a subject area emphasis in early childhood education. Contact the Education Advisement and Certification Office for further details.

Elementary School Teaching. Elementary education majors should check with their advisor in the Education Advisement and Certification Office for modifications to the program. An accepted application is required for admission to the elementary education licensure program. Applications must be completed before the final semester of the sophomore year. Applicants must demonstrate and maintain established standards for personal conduct and interpersonal skills as outlined in the program.

Students interested in elementary school teaching register in the Department of Teacher Education. Prior application and acceptance are required to take the professional sequence. Courses and prerequisites are listed in the Teacher Education section of this catalog. Students majoring in elementary education should plan their programs with the designated advisors in the Education Advisement and Certification Office.

Secondary School Teaching. Students who plan a career in secondary school teaching should register in the department of their academic major, except for social science majors, who register in the Department of Teacher Education. There is no major in secondary education per se, but students must complete professional education requirements as well as an academic teaching major or composite major. Some teaching majors require a teaching minor. Students should begin their professional preparation (Sc Ed 276R) during the sophomore year to facilitate scheduling the balance of the licensure program. For course listings and prerequisites, see the Department of Teacher Education section of this catalog. Students should plan their program with the designated advisors in their major advisement center.

Special Education Teaching. Students who plan to teach K–12 students with disabilities should apply through the Department of Counseling Psychology and Special Education. Application materials for the program are available online at http://education.byu.edu/cpse/undergradapp.pdf. Both an accepted application and successful completion of the "Special Education Exploratory Experience" packet are required for admission. These must be completed before the final semester of the sophomore year so that alternate educational plans can be made—without prolonging the time to graduation—if the student is denied admittance into the special education program.

Applicants must demonstrate and maintain established standards for personal conduct and interpersonal skills as outlined. The program includes multiple practica in the schools, and spring/summer enrollment is required. In addition to core courses, majors select an area of emphasis in either mild/ moderate or severe disabilities. Students receive advisement from the Education Advisement and Certification Office.

Communication Disorders. Students interested in helping people who have language, speech, and hearing problems can major in communication disorders. The undergraduate major is open (no application is required) and students should formally request this major at the Education Advisement Center, 120 MCKB. The major is primarily preprofessional. It prepares students for graduate study in either speech-language pathology (requiring a master's degree) or audiology (requiring a doctor's degree). The major focuses on the nature and characteristics of normal and impaired human communication.

Student Teaching. The culminating experience for students in teacher education is a student teaching assignment in a public school classroom under the supervision of mentor teachers and university supervisors. Students must plan their programs carefully to meet requirements for student teaching.

Internships. Internship appointments in a public school are available and may substitute for student teaching. Internship appointments are for a full year and carry a modest stipend. Interested students should contact their major supervisor or liaison.

Application for Licensure

The licensure of teachers is a function of the Utah State Office of Education (USOE). Requirements for Utah licensure are available in the Education Advisement and Certification Office. As licensure requirements are frequently updated, students should check the Web sites and attend the update sessions offered by the Department of Teacher Education to stay informed. Although such modifications are not retroactive, they may still affect the uncompleted portion of a student's program.

Prior to graduation, students are responsible to take the required Praxis II Content Test, to have the test score sent to BYU, to pay the state licensing fees, and to check that their fingerprint background clearance is still current. Students will also be responsible for any additional requirements imposed by the state prior to their graduation. To confirm the status of these requirements, contact the Education Advisement Center, 120 MCKB, (801) 422-3426. Graduation and licensure cannot be processed until these requirements have been completed.

Students who apply for Utah licensure must have the recommendation of the dean of the David O. McKay School of Education. Students are encouraged to plan their programs with the assistance of advisors in the Education Advisement and Certification Office so that they will be assured of meeting requirements for licensure.

Certification/Licensure in Other States. Under reciprocity agreements, Utah licensure is accepted in those states where such agreements are in effect. Specific information is available in the Education Advisement and Certification Office. Students who plan to certify/license in another state should contact that state for requirements beyond those in Utah as early in their programs as possible.

UNDERGRADUATE CATALOG 2008 - 2009

Ira A. Fulton College of Engineering and Technology

270 CB
(801) 422-4326

Dean: Alan R. Parkinson, Professor, Mechanical Engineering
Associate Dean: David K. Anthony
Associate Dean: John N. Harb, Professor, Chemical Engineering
Associate Dean: Spencer P. Magleby, Professor, Mechanical Engineering

The Ira A. Fulton College of Engineering and Technology is accredited under the Accreditation Board for Engineering and Technology (ABET) for all engineering and technology programs. The men and women who have graduated from our college will be prepared for entry into the finest graduate schools or workplaces. The mission of the Fulton College is to develop men and women of faith, character, and technical ability who will become outstanding leaders throughout the world.

Alphabetical list of majors offered in the College of Engineering and Technology:

Chemical Engineering (Ch En)
Civil and Environmental Engineering (CE En)
Construction Management (CM)
Electrical and Computer Engineering (EC En)
Facilities Management (FM)
Industrial Design (InDes)
Information Technology (IT)
Manufacturing Engineering and Technology (Mfg)
Mechanical Engineering (Me En)
Technology and Engineering Education (TEE)

Minors offered in the College of Engineering and Technology:

Information Technology (IT)
Manufacturing (Mfg)

See the department sections in this catalog for details regarding these programs or go to http://www.et.byu.edu.

College Advisement Center (CAC)

Pamela O. Williamson, Supervisor
Judith Ann Benedict, Advisor
264 CB
(801) 422-4325

The college advisement center advisors are available to assist students with academic planning and information about majors, the university core, changing majors, application for graduation, scholarships, and university policies and procedures.

International and Area Studies

The College of Family, Home, and Social Sciences administers the International Relations Program, coordinated by Kerk Phillips. Faculty in the college also teach courses in the various area studies programs, including Asian Studies, Latin American Studies, and Middle East Studies. Students in these programs receive advisement from the IAS Advisement Center, 273 HRCB, (801) 422-3548.

College Advisement Center

Lori L. Seely, Supervisor
151 SWKT
(801) 422-3541

Advisors are prepared to assist students in the selection of university core offerings that will contribute to a broad education. Advisors also assist faculty in offering counsel for specific majors, counseling for a career, and monitoring a student's progress toward graduation.

Purposes

The College of Family, Home, and Social Sciences is composed of departments whose primary focus is people. Particular concerns include the family as the basis of society, understanding governments and societies in which people live, and solving world problems.

The instructional program of the College of Family, Home, and Social Sciences has two major emphases. One provides a broad education that helps develop an appreciation of the values that establish and strengthen modern civilization and that prepares individuals to contribute effectively as citizens. The other prepares professionals to discover truths that reveal our heritage and to provide significant service to individuals, families, and institutions.

Many of the departments and programs housed within the college provide opportunities for student learning and exploration outside the classroom through internships and faculty-mentored teaching and research experiences.

Degrees Offered

Bachelor's, master's, and doctoral degrees are offered in the college. See the individual department and program listings in this catalog for specific degrees offered and the requirements for each.

Scholarships and Awards

Scholarships and awards are available to qualified students. Applications may be obtained from the Financial Aid Office, A-141 ASB.

Women's Studies Minor

Bonnie Ballif-Spanvill, Director
1063 JFSB
(801) 422-4609

The Women's Research Institute sponsors a minor in Women's Studies. This program educates students in the findings, theory, and research methodologies fundamental to the women's studies field and fosters critical thinking and superior scholarship. The research and study of women and their viewpoints in traditional academic disciplines creates a new framework of interpretation and scholarship for our historical and cultural traditions. Courses in the minor represent many disciplines and provide a variety of perspectives on topics relating to women's experiences.

See the Women's Research Institute section of this catalog for course requirements for this minor.

Family Studies Center

Randal D. Day, Director
1053 JFSB
(801) 422-2948

The Family Studies Center is dedicated to identifying characteristics associated with strong families and the processes by which they develop. At the heart of the center's mission is a deep and abiding desire to understand families and family members and to assist them to achieve their full potential. The fundamental guiding document is "The Family: A Proclamation to the World" by the First Presidency and the Quorum of the Twelve Apostles of The Church of Jesus Christ of Latter-day Saints. Understanding and promoting the principles in this proclamation will provide guidelines to help strengthen individuals, marriages, and families.

The center fosters the important link that research can and must have to families themselves. Research that illuminates the relationship between the family and other important institutions such as governments, schools, and business, as well as social contexts including households, neighborhoods, and cultures, is germane to the center's research program. Relevant information is presented through publications, conferences, symposia, seminars, and lectures.

The center helps organizations design and implement programs to aid couples and individuals in building and sustaining stronger families. Programs are designed not only to strengthen families but also to prevent critical family problems, including family violence, child abuse and neglect, divorce, financial mismanagement, and substance abuse. In addition, public policies that strengthen families are discussed and developed.

Museum of Peoples and Cultures

105 ALLN
(801) 422-0020

The Museum of Peoples and Cultures is located in Allen Hall at 700 North 100 East in Provo. Museum hours are from 9:00 a.m. to 5:00 p.m. Monday through Friday. Guided tours are available for a nominal fee and can be scheduled by calling the museum at (801) 422-0020.

Educational Opportunities. Classes in museum practices designed to provide students with practical experience in collections care and management—including computer applications, exhibition curation, and educational programming— are available with approval. Museum practice courses are taught by the museum's staff, who are adjunct anthropology faculty (see listings in the Anthropology section of this catalog). The museum also employs several students each semester to assist in collections work and welcomes volunteers to assist in educational and promotional work.

Anthropological Collections and Research Opportunities. Museum collections comprise prehistoric and ethnographic artifacts from various parts of the world. The bulk of holdings are from the Southwest, Mesoamerica, Polynesia, ancient Peru, and the Great Basin, especially Utah Valley. The museum also cares for a collection of more than 20,000 black and white and color photographs that document BYU archaeological research and artifactual materials. The museum encourages students to inquire about research possibilities using its collections.

Neuroscience Center

Dawson W. Hedges, Director
1055 SWKT
(801) 422-1218

The College of Family, Home, and Social Sciences is the current host for the multi-disciplinary Neuroscience Center. Neuroscience is the field of study covering the development and function of the central nervous system and its connection to influencing and regulating behavior. This degree-granting program functions through the collaborative efforts of the Department of Psychology and the Department of Physiology and Developmental Biology

(College of Biology and Agriculture). See the Neuroscience Center section of this catalog for program admission information and course requirements.

UNDERGRADUATE CATALOG 2008 - 2009

College of Fine Arts and Communications

A-501 HFAC
(801) 422-2819

Dean: Stephen M. Jones, Professor, Music
Associate Dean: Sherry L. Baker, Associate Professor, Communications
Associate Dean: Rory R. Scanlon, Professor, Theatre and Media Arts
Assistant Dean: Scott M. Boyter

The following departments and school are in the College of Fine Arts and Communications:

Communications
School of Music
Theatre and Media Arts
Visual Arts

Music dance theatre is an interdisciplinary degree offered by the College of Fine Arts and Communications through the cooperative involvement of its School of Music and Department of Theatre and Media Arts and the College of Health and Human Performance's Department of Dance.

Animation is an interdisciplinary degree offered by the College of Fine Arts and Communications through the cooperative involvement of the Department of Theatre and Media Arts, the Department of Visual Arts, and the Ira A. Fulton College of Engineering's School of Technology.

The College of Fine Arts and Communications teaches students to think, to feel, to perform, and to communicate. Its purpose is to give students the knowledge and skills requisite to a higher education in fine arts and communications. It opens the doors to the world of truth and beauty for exploration by majors and nonmajors alike. Its programs require discipline, critical analysis, research, empathy, and integrity as the means to acquire knowledge and competency in various areas of study encompassed by the college.

The college's classroom instruction is augmented by off-campus internship programs and on-campus laboratory experiences. Journalism students who edit the *Daily Universe*, a student laboratory newspaper, regularly win national awards. Advertising students work on professional campaigns through BYU's Advanced Ad Lab facilities, winning clients from across the nation. Music and theatre performance students participate annually in national competitions, receiving top honors. Film and animation students are well represented in their organizational competitions and hold recognized international awards. Additionally, student and faculty touring groups instruct and entertain Church members and friends around the globe, while BYU Broadcasting offers a worldwide campus connection on both the television and radio stream in multilanguage programming. Back on campus, the Museum of Art and the Division of Design and Production maintain excellence in public art presentation under the direction of the college.

Members of the faculty are competent, dedicated men and women who are concerned about the success of their students. The college also brings to campus distinguished professionals for special lectures and artistic performances. Housed in the Harris Fine Arts Center and the Brimhall Building, the college includes five theatres; two concert halls; three art galleries; design, journalism, advertising, broadcast, film, and music laboratories; and many music practice and rehearsal rooms.

Enrollment in a Major Program

Because **enrollment** in most degree programs in the College of Fine Arts and Communications **is limited** by the availability of resources such as facilities, equipment, and faculty, students are required to follow a specific application process designed to assess individual ability, preparation, and potential. This process also helps each student evaluate the level of accomplishment they might expect to experience in the major and, after graduation, in the profession itself.

Students are encouraged to carefully study the requirements of the major program they desire to enter. This will help each determine if the program really fits their personal goals and educational objectives. Through a careful review of the catalog, other possible majors can also be considered to make certain one is aware of all the options that might fit their primary and secondary areas of interest. Students may also find additional information on career and educational options by visiting the Counseling and Career Center (1500 WSC).

Applications for degree programs in the college are available from the college advisement center. Students preparing to apply for entrance into a major program must make certain that they complete all of the prerequisite courses and/or specific requirements stipulated in the application process. If they need further assistance, the reception desk in the college advisement center (D-444 HFAC) can provide information.

The application process for each major has been structured to be as fair and impartial as possible, and those who evaluate applications endeavor to admit as many into each program as possible. But enrollment limitations sometimes exclude those who would succeed in the program if they could only be admitted. Those who are not successful in the application process are encouraged to move quickly and decisively toward an alternative major program.

Students admitted to a major program in the College of Fine Arts and Communications are assigned to one of the academic advisors in the college advisement center. The advisors help each student structure a plan for timely graduation and assist with problems and issues that may arise along the way. As students become familiar with the faculty in their area of study, they are able to identify those who are best prepared to assist them in learning more about opportunities following graduation.

College Advisement Center

Brenda Butterfield, Supervisor
D-444 HFAC
Telephone: (801) 422-3777

E-mail: cfacadvise@byu.edu
Internet: http://www.byu.edu/cfac/advisement/index.html

Students can receive help in the following ways:

1. This catalog outlines graduation requirements in the areas of emphasis encompassed within the disciplines of communications, music, theatre and media arts, and visual arts, as well as the interdisciplinary programs of animation and music dance theatre.
2. Assigned faculty members are available to students desiring an assessment of potential performance and career opportunities.
3. After a student has been admitted to a major, CAC advisors will plan student schedules and will keep individual student records.
4. Students will apply for graduation with their academic advisor, at which time general education, university, and major requirements are checked for graduation.
5. Students are cleared for graduation by the college advisement center.

Scholarships and Awards

Scholarships, performance awards, and grants-in-aid are available to qualified students.

Applications for academic scholarships can be obtained at the Scholarship Office (A-41 ASB, (801) 422-4104). Performance awards are offered by each of the academic units within the college. Applications and information about auditions for performance awards can be obtained by contacting the appropriate department or school.

For information about graduate scholarships, fellowships, and grants-in-aid, see the current BYU Graduate Catalog.

UNDERGRADUATE CATALOG 2008 - 2009

College of Health and Human Performance

212 RB
(801) 422-2645

Dean: Sara Lee Gibb, Professor, Dance
Associate Dean: Diane Chamberlain, Teaching Professor, Exercise Sciences
Associate Dean: Gordon Lindsay, Professor, Health Science

The following departments are in the College of Health and Human Performance:

Dance
Exercise Sciences
Health Science
Recreation Management and Youth Leadership

The mission and goals of the College of Health and Human Performance align with the institutional objectives of Brigham Young University by providing an "environment that increases faith in God and the restored gospel, is intellectually enlarging, is character building, and leads to a life of learning and service" (Merrill J. Bateman, "From Pioneer Roots to a World-Class, Worldwide Institution," 1999 Annual University Conference, p. 8). The college contributes to the total development of students and faculty by "educat[ing] the minds, [bodies,] and spirits of students" (ibid.).

A challenging environment emphasizes the achievement of excellence according to one's aptitudes in the various areas of human development. A foundation for continuous learning prepares individuals to serve their professions effectively, meet personal challenges, care for their families, and serve as responsible citizens.

Goals

1. Provide professional preparation in the academic programs of dance, exercise sciences, health, and recreation management and youth leadership.
2. Advance truth and knowledge through quality research and creative works in areas of specialization in the various disciplines. Such works are often cooperative efforts between faculty and students.
3. Help students obtain the knowledge, skills, and motivation necessary to maintain a healthy lifestyle and improve their neuromuscular skills in dance, sport, and fitness activities.
4. Sponsor outstanding performing groups in dance that favorably promote the university and the Church among alumni, Church members, friends, and others in this country and throughout the world.
5. Contribute to the knowledge, health, and well-being of members of the university community by providing opportunities to engage in dance, sport, and fitness activities through service, intramural, and free-play programs.

College Advisement Center

203 RB
(801) 422-3638

Students obtain help in planning their educational programs through the College of Health and Human Performance Advisement Center and the respective departments.

Health and Human Performance Services

Health and Human Performance Services coordinates free play, intramurals, and event scheduling. Students, faculty members, and staff may use the physical education facilities during scheduled free-play times.

A college computer lab, a teaching technology lab, and a learning resource center are available to support student learning.

UNDERGRADUATE CATALOG 2008 - 2009

College of Humanities

4002 JFSB
(801) 422-2775

Dean: John R. Rosenberg, Professor, Spanish
Associate Dean: Gregory Clark, Professor, English
Associate Dean: Ray T. Clifford, Professor, Linguistics
Associate Dean: Joseph Parry, Associate Professor, Humanities

What Are the Humanities?

The humanities focus on the quest for fluency in the languages of the human conversation, for it is fluency in those languages that makes us full participants in human life. Specifically, the humanities involve inquiry into the structure and uses of language itself, as well as into the ideas and aesthetics of the languages of art, literature, and philosophy.

Study in the humanities fosters historical consciousness; recognition of the connections between ideas, texts, and the people who create them; awareness of the complexity and subtlety of the multiple voices that make up the human conversation; and facility in languages and cultures other than one's own. Building on these essential components of what it means to be "an educated person," students of the humanities develop the higher-order cognitive abilities needed for critical reading, interpretation, analytical thinking, and writing.

This understanding of and ability in the "languages of the human conversation" provide a foundation for successful careers in many different professions and for productive and rewarding lives as educated citizens.

Academic Departments

Asian and Near Eastern Languages
English
French and Italian
Germanic and Slavic Languages
Humanities, Classics, and Comparative Literature
Linguistics and English Language
Philosophy
Spanish and Portuguese

International and Area Studies

The College of Humanities supports the following International and Area Studies (IAS) programs:

Asian Studies: James Davis, Coordinator
European Studies: Scott Sprenger, Coordinator
Latin American Studies: Christopher Lund, Coordinator
Middle East Studies/Arabic: Donna Lee Bowen, Coordinator

College of Humanities faculty members also teach courses in the following area studies minor programs: African Studies, Ancient Near Eastern Studies, Arab-Islamic Studies, Asian Studies, Chinese Studies, French Studies, German Studies, Italian Studies, Japanese Studies, Jewish Studies, Korean Studies, Latin American Studies, Modern Near Eastern Studies, Russian Studies, Spanish Studies, and Western American Studies.

Students in American Studies receive advisement from the College of Humanities Advisement Center, 1175 JFSB, (801) 422-4789.

Students in Asian Studies, Latin American Studies, and Middle East Studies/Arabic receive advisement from the IAS Advisement Center, located in the David M. Kennedy Center, 273 HCRB, (801) 422-3548.

College Advisement Center

Mary Anne Rich, Supervisor
1175 JFSB
(801) 422-4789

The advisement center assists students with registration; information about majors, university core, and changing majors; application for graduation and graduation clearance; career opportunities; and policy and procedure. Students are encouraged to take advantage of these advisement center services.

For advisement regarding specific major requirements, career options, or graduate programs, students should consult with faculty advisors within the various departments. Substitutions, waivers, or evaluation of transfer equivalency within a major will be authorized by the departments, with documentation going to the advisement center.

Language Credit by Examination

Jerry W. Larson, Professor of Spanish; Director, Humanities Technology and Research Support Center
1163E JFSB

Any student enrolled at BYU whose native language is English may receive credit by special examination for certain foreign language courses for which he or she has acquired the equivalent skill or knowledge. However, this is possible only if no university credit has been given through AP, CLEP, or transfer of equivalent credit from another university or other institutions. Students whose native language is not English may not receive credit for their native language, but they may receive credit by special examination for courses in English offered through the TESOL program of the Linguistics and English Language Department. They may also receive credit by special examination for a language other than their native language as described above.

Graded examinations for languages taught on the BYU campus are administered by the department concerned. Pass-fail examinations for other languages are administered by the coordinator of the Foreign Language Testing Program in the Humanities Technology and Research Support Center. An examination once taken for pass/fail credit cannot be retaken or reevaluated for graded credit.

Center for Language Studies

Ray T. Clifford, Director
3086 JFSB
(801) 422-1201

To extend the exceptional foreign language capabilities of BYU to a large audience, the Center for Language Studies offers a variety of intensive language courses during the summer term (mid-June to mid-August) and regular courses in less commonly taught languages during the academic year. See in-depth information in the Center for Language Studies section of this catalog.

Center for the Study of Christian Values in Literature

Jesse S. Crisler, Professor of English, Director
4106 JFSB

The center holds symposia, conducts writing contests, and publishes the journal *Literature and Belief*.

English Language Center

Neil Anderson, Administrative Coordinator, 4056A JFSB
Norm Evans, Academic Coordinator, 4050 JFSB

The English Language Center is a resident program of intensive English language training.

Foreign Language Student Residence

Robert Erickson, Coordinator
3086C JFSB
(801) 422-5193

Students who desire a more in-depth language study experience and practical application of the language under the direction of faculty and native residents may apply to live in the Foreign Language Student Residence. All activities in the individual apartments in the residence are conducted in the foreign language. Inquiries should be directed to the coordinator or to the appropriate departmental advisor for detailed information concerning opportunities for men and women in French, Russian, Italian, German, Japanese, Spanish, Chinese, Arabic, Portuguese, and Hebrew.

Humanities Technology and Research Support Center

The

Jerry W. Larson, Professor of Spanish, Director
1163E JFSB

The Humanities Technology and Research Support Center provides technological and consulting resources to support research and teaching in the College of Humanities. Available in the center are audio, video, and microcomputer facilities in addition to optical scanning services.

UNDERGRADUATE CATALOG 2008 - 2009

J. Reuben Clark Law School

341 JRCB
(801) 422-4277

Dean: Kevin J Worthen
Associate Dean: Kif Augustine Adams
Associate Dean: Scott W. Cameron
Associate Dean: James D. Gordon
Associate Dean: Katherine D. Pullins
Assistant Dean: Carl Hernandez III
Assistant Dean: Mary H. Hoagland

The J. Reuben Clark Law School offers a six-semester course of graduate professional study leading to the juris doctor (JD) degree. Information about legal education, admissions standards, and related matters can be obtained from the Law School Admissions Office or at www.law2.byu.edu/.

To be admitted to the Law School, an applicant must be a college graduate who has excelled academically and has scored in the upper range of the nationally administered Law School Admission Test. In addition, applicants must meet the general university admission requirements, including the personal standards required of all students.

Apply for admission online at www.lsac.org by March 1 preceding the fall of expected enrollment in the Law School. Enrollment takes place only in the fall of each year.

For more information regarding prelegal education, consult the Preprofessional Advisement Center (Law).

(801) 422-3963
Internet: http://lifesciences.byu.edu

Dean: Rodney J. Brown, Professor, Nutrition, Dietetics, and Food Science
Associate Dean: John D. Bell, Professor, Physiology and Developmental Biology
Associate Dean: Alan R. Harker, Professor, Microbiology and Molecular Biology
Assistant Dean: John D. Lee, Microbiology and Molecular Biology
Assistant Dean: Steven L. Taylor
Assistant Dean: Shauna C. Anderson, Professor, Microbiology and Molecular Biology

The following departments are included within the College of Life Sciences:

- Biology (Bio)
- Microbiology and Molecular Biology (MMBio)
- Nutrition, Dietetics, and Food Science (NDFS)
- Physiology and Developmental Biology (PDBio)
- Plant and Wildlife Sciences (PWS)

Courses offered in the life sciences give students a general understanding of the fundamental principles of plant, animal, and microbial life and their relationship to the world. Specialized courses emphasizing teaching and research are offered to majors in the several branches of biological science.

Alphabetical List of Majors Offered in the College of Life Sciences

Bioinformatics (Bio)

Life Sciences Student Services

Shauna C. Anderson, Assistant Dean
Jeanne M. Gubler, Supervisor
C. Gale Larson, Assistant Advisor
Audrey Megerian, Coordinator

379–380 WIDB
(801) 422-3042
Hours: 8:00 a.m. to 5:00 p.m., Monday–Friday

The goal of Life Sciences Student Services is to provide "one stop shopping for students and faculty." The center services students in five areas: advisement, assessment, career advisement and placement, college life, and mentored experiences.

Advisement—Students are supported in general education advisement as well as a 4-year curriculum plan for their chosen major. Among other advisement services are the change of major, academic success, and graduation processes. Specific advisement needs such as over-hours requests or last semester options can also be met by the staff.

Assessment—Students are informed of the importance of maintaining the university's accreditation standing. Students assist the assessment process by providing input through surveys, exit interviews, one-year-out and five-year-out surveys, and results on national major field exams and other national and professional school admission exams.

Career advisement and placement—Students are given opportunities to discuss career and job placement with a member of the Career Placement Services.

College life—The "Empowering Others" philosophy encourages students to help and teach each other by creating a spirit of cooperation rather than competition. Study groups are fostered and organized to enhance learning. A learning facility was created to provide tutoring services for students enrolled in the essential biology courses. This walk-in area allows a student access to tutors 10–12 hours per day. In addition help with scholarship

applications and the awarding of scholarships is handled in the center.

Mentored experiences—Internships provide students with opportunities to try out their prospective careers. The center provides resources for obtaining internships as well as processing all the paperwork and awarding grants to students who desire that experience. Assisting faculty with research constitutes a mentorship. Students learn invaluable skills and problem-solving techniques from their mentors. The center can help students seeking mentored experiences.

M. L. Bean Life Science Museum

Larry St. Clair, Director
Jack Sites, Associate Director
Marta Adair, Assistant Director
290 MLBM
Internet: http://mlbean.byu.edu/
Hours: 10:00 a.m. to 9:00 p.m. Monday–Friday
10:00 a.m. to 5:00 p.m. Saturday

Current museum curators and collection managers are as follows:

Duane Atwood, Collections Manager, Herbarium
John Bell, Curator of Mollusks
Shawn Clark, Collections Manager, Arthropods
Keith Crandall, Curator of Crustaceans
Leigh Johnson, Curator, Herbarium
Duke Rogers, Curator of Mammals
Dennis Shiozawa, Curator of Fish
Jack Sites, Curator of Reptiles and Amphibians
Wesley Skidmore, Collections Manager, Vertebrates
Larry St. Clair, Curator of Nonvascular Cryptogams
Clayton White, Curator of Birds
Michael Whiting, Curator of Insects

The museum offers a broad range of educational opportunities for students, from specialized graduate and undergraduate research in various systematic collections to impromptu tours for the casual visitor. Many university classes utilize the museum's extensive collections, which also serve the broader community. The museum provides visiting scientists opportunities for elementary and secondary students, as well as community groups.

The Botanical Collection includes herbaria of vascular plants and nonvascular cryptogams from many parts of the world. The vascular plant collection includes more than 10,000 species represented by more than 500,000 herbarium sheets. The collection is principally made up of plants from western North America but includes many materials from the eastern states, Europe, Mexico, Australia, and the Pacific Isles. Acquisitions of plants from Alaska, Greenland, Siberia, and the Canadian Arctic have added significantly to the Arctic plant collections.

The herbarium also includes more than 2,000 specimens from the Mediterranean region of Europe and from the Middle Eastern countries of Iran and Afghanistan. The fossil plant collections contain more than 10,000 specimens. Nonvascular cryptogams number more than 100,000 specimens, mostly from western North America.

The Zoological Collections consist of a large series of vertebrate and invertebrate species from North America and many foreign countries.

The invertebrate collection includes more than two million insect specimens (emphasizing butterflies, flies, and beetles) and their near relatives as well as other invertebrate phyla. Medically important arthropods such as fleas, lice, mites, and ticks are well represented. A large and valuable collection of invertebrate sea shells is also present, as well as more than 5,000 crustaceans. The invertebrate collections are a sampling of specimens from all parts of the world but are particularly strong in their representation of the Great Basin environments.

The vertebrate collections consist of more than 100,000 fish, 37,000 amphibians and reptiles, 11,000 birds, and 37,000 mammal research specimens. The vertebrate collections also include birds' eggs, South and Central American birds, and Hawaiian fishes. Staff members, graduate students, and friends of the university have contributed material from Mexico, South America, Africa, Taiwan, Malaysia, the South Pacific islands, and other areas. The vertebrate collections also include big game wildlife gathered from around the world.

More than 50,000 invertebrate and vertebrate museum specimens include frozen tissue or tissue preserved in ethanol.

A highlight of the vertebrate display collections, housed in the museum, serve as a valuable university resource for documenting phylogenic and systematic research.

The museum is accredited by the American Association of Museums and maintains membership in professional museum organizations regionally and nationally.

The Lytle Preserve in southwestern Utah provides a 600 plus acre site which serves as an outdoor classroom in the northernmost extension of the Mojave Desert. It is managed for natural study and ecological research in a unique desert setting.

Information Systems

Marshall B. Romney, Chair
510A TNRB, (801) 422-5704

Marriott School of Management Advisement Center
460 TNRB, (801) 422-4285

Admission to Degree Program

The degree program in the department carries special enrollment limitations. Please see the Marriott School of Management Advisement Center for specific details.

The Discipline

Computer-based information systems have become a critical part of the products, services, operations, and management of all organizations. The effective and efficient use of information and communications technologies is an important element in achieving competitive advantage for business organizations as well as achieving excellence in service for government and non-profit organizations. The twenty-first century has seen the rapid growth of the Internet, eCommerce, and purely electronic enterprises. These organizations would not even exist without the technology provided by computer-based information systems. The importance of information systems to organizations and the need for well-educated professionals in the field is the basis for strong educational programs and the development of a professional community of information systems (IS) practitioners.

Information systems involves two broad areas: (1) the acquisition, deployment, and management of an organization's information systems resources and services and (2) the development of computer-based systems and technology infrastructures for use in organization processes. Information systems professionals provide services ranging from the managerial to the highly technical. Information systems and technology skills are critical to the success of virtually all modern organizations, including small business, corporations, government, and educational institutions.

Career Opportunities

Information systems graduates work in large and small organizations of all types, helping maintain existing technology infrastructure and specifying technology solutions to business needs. They serve as the bridge between an organization's technical personnel and its business side. Well-educated information systems graduates are in high demand in accounting firms, consulting firms, large corporations, midsized companies, technical companies, government agencies, and smaller entrepreneurial concerns. Challenging career opportunities embrace a wide range of interests. The variety of employment prospects includes opportunities for everyone from those who are primarily interested in people and organizations to those who enjoy very technical activities such as database and network administration or software development.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Majors

BS in Information Systems

For help or information on the undergraduate program, please see the Marriott School of Management Advisement Center or visit http://isys.byu.edu.

For information on management degrees, see Management section of this catalog.

Graduate Programs and Degrees

MISM in Information Systems Management

For more information see the Information Systems Department Graduate Advisement Center (510 TNRB) or the BYU 2008–2009 Graduate Catalog.

General Information

Application Requirements

1. Complete or pass the competency tests for I Sys 100 and 101.

2. Have a 3.0 minimum average GPA in the four prerequisite courses: I Sys 201, 202, Acc 200, M Com 320. No grade lower than a C+ will be accepted for any of the prerequisite courses.

Note 1: If a student must leave the program for a mission, internship, or other reason, a leave of absence request form is required. A prompt return to the program is required. Students who have interrupted their education for more than two years or without prior approval will be required to meet the requirements of the program in effect at reacceptance.

Note 2: Upper-division information systems class credits earned prior to five years before graduation may not be used to meet specific graduation requirements for the BS degree. This policy does not affect the recognition of those hours earned to satisfy total university credit.

BS Information Systems, Concurrent with MISM

The MISM program has a five-year integrated option for BYU students in the undergraduate information systems program, as well as an option for students who have already completed a bachelor's degree. The first year of the undergraduate program, or the junior core, must be completed with a minimum 3.0 GPA to be eligible to apply for continuation into the master of information systems management program.

BS in Information Systems (74-75 hours*)

Show All Course Descriptions
Hide All Course Descriptions

This is a limited-enrollment program requiring departmental acceptance. Please see the college advisement center for information regarding requirements for application to this major.

Program Requirements | View MAP

1. No more than 12 semester hours of upper-division transfer credit will be accepted toward the major and only 6 hours beyond the Pre-Systems Core.
2. Students are encouraged to enroll in courses outside the Marriott School of Management. Only 50 upper-division Marriott School hours count toward graduation.
3. Pass a computer proficiency requirement for spreadsheet and presentation software skills. Students may demonstrate spreadsheet and presentation skills either by earning a Pass grade in I Sys 100 and 101 or a B grade in equivalent transfer courses, or by presenting Microsoft Office certification (either MOS or MCAS) certificates validating core-level competency in MS Excel and PowerPoint.
4. Complete the following Pre-Information Systems courses:

   I SYS 201 : Introduction to Management Information Systems. (3:3:1)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: I Sys 100, 101, and declared business major.
   DESCRIPTION: Using technology to solve business problems. Hands-on spreadsheet, database, and Internet software in a business context.

   I SYS 202 : Introduction to Computer Programming. (3:3:0)
   OFFERED: W, Sp
   PREREQUISITE: I Sys 201 or concurrent enrollment (with instructor's consent); information systems major status.
   DESCRIPTION: Object-oriented program design and development. Principles of algorithm formulation and implementation.

   ACC 200 : Principles of Accounting. (3:3:0)
   DESCRIPTION: Financial and managerial accounting principles. Basic accounting statements, processes, and management applications. Open to all students.
   NOTE: Independent Study also.

   M COM 320 : Communication in Organizational Settings. (3:3:1)
   OFFERED: F, W, Sp, Su; Honors also.
   PREREQUISITE: GE First-Year Writing requirement. To be taken before senior year. Not for freshmen.
   DESCRIPTION: Developing written and oral communications for professional organizations, including composing and designing employment communications. Incorporates oral presentations.
   NOTE: Fulfills GE Advanced Written and Oral Communication requirement.

   Note: The Pre-Information Systems Core must be completed with at least a 3.0 GPA (no grade lower than a C+), with no more than one repeat for each course. Repeated courses will be discounted 0.3 of a grade during the admissions process.
5. Be accepted into the information systems program.
6. Complete the following Management Core 1 and 2 courses:

   ACC 210 : Principles of Accounting 2. (3:3:0)
   PREREQUISITE: Acc 200.
   DESCRIPTION: Additional issues in financial and managerial accounting. Review of issues related to balance sheet accounts, performance evaluation and capital budgeting.

NOTE: For Marriott School of Management students only.

ACC 241 : Business Law in the Environment. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Marriott School of Management major status.
DESCRIPTION: Introduction to legal principles and institutions affecting business.

BUS M 301 : Financial Management. (3:3:1.5)
OFFERED: F, W, Sp, Su
PREREQUISITE: Premanagement and Management cores and full acceptance into the Marriott School upper-division major.
DESCRIPTION: Financial management from the viewpoint of the business manager emphasizing profitability, liquidity, and long-range financial planning.

BUS M 384 : E-Business Lecture Series. (1:1:0)
OFFERED: F, W
DESCRIPTION: Lectures by e-business leaders on subjects significant to e-business-type opportunities.

ECON 110 : Economic Principles and Problems. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Strengths and weaknesses of markets and governments for solving problems of social organization or conflict, including policy response to inflation, unemployment, pollution, poverty, growth, etc.

MATH 119 : Introduction to Calculus. (4:4:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Introduction to plane analytic geometry and calculus.
NOTE: For students in the College of Life Sciences and the Marriott School of Management.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

7. Complete the following Integrated Management Core courses:

BUS M 341 : Marketing Management. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Premanagement and Management I cores and full acceptance into the Marriott School upper-division major.
DESCRIPTION: Market segmentation, product service, promotion, channel, pricing strategies. Marketing principles in consumer and industrial markets, profit and nonprofit organizations, domestic and international companies, and small and large firms.

BUS M 361 : Supply Chain, Services, and Operations Management. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Premanagement and Management 1 cores and full acceptance into the Marriott School upper-division major.
DESCRIPTION: Control and coordination of materials and services from point of origin to final point of consumption to meet customer needs efficiently.

BUS M 390 : Ethics for Management. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Management Core.
DESCRIPTION: Analyzing ethical dilemmas and understanding ethical theories as they apply to decision making in management.

ORG B 321 : Organizational Effectiveness. (3:2:2)
OFFERED: F, W, Su
PREREQUISITE: For Marriott School of Management majors only.
DESCRIPTION: Theories and concepts for creating effective organizations, e.g., individual, group, and organizational processes and human resource functions, including selection, compensation, and performance management.

And complete one course from the following:
MANEC 300 : Economics of Market Systems. (3:3:0)

OFFERED: F, W; Independent Study also.
PREREQUISITE: Econ 110.
DESCRIPTION: Decision making, price formation, and economic organization of the firm in market environments.

MANEC 358 : International Economics. (3:3:0)
OFFERED: F
PREREQUISITE: Econ 110.
DESCRIPTION: International trade theory and issues, economic integration, trade and development, contemporary trade problems.

MANEC 387 : Economics of Strategy. (3:3:0)
OFFERED: F, W
PREREQUISITE: Major status.
DESCRIPTION: Economic tools influencing the success of strategy (creation and appropriation of value) emphasizing application of economic theory to management of practice.

MANEC 453 : Money, Banking, and Business. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: BusM 301 or accounting junior core.
DESCRIPTION: Economic analysis of effects of money, banking, and financial institutions on business decisions and aggregate economic activity.

8. Complete the following Information Systems Core 1 courses (taught fall only):

I SYS 401 : Systems Analysis. (3:3:0)
OFFERED: F
PREREQUISITE: Admission to information systems major, concurrent enrollment in same section of I Sys 402 and 403.
DESCRIPTION: Early phases of systems development life cycle, including project management, planning, investigation, requirements definition, systems specifications, alternative selection. Tools and techniques of object-oriented analysis.

I SYS 402 : Database Systems. (3:3:0)
OFFERED: F
PREREQUISITE: Admission to information systems major; concurrent enrollment in same section of I Sys 401, 403, and 404.
DESCRIPTION: Concepts and techniques of database system development, focusing on object-oriented modeling and its implementation methods.

I SYS 403 : Principles of Business Programming. (3:3:0)
OFFERED: F
PREREQUISITE: Admission to information systems major; concurrent enrollment in same section of I Sys 401, 402, and 404.
DESCRIPTION: Programming business systems. Algorithms, data structures, programming patterns, and interfaces.

I SYS 414 : Business Processes and Controls. (3:3:0)
OFFERED: F
PREREQUISITE: Information systems majors status; concurrent enrollment in I Sys 401, 402, 403.
DESCRIPTION: Enterprise-level systems that support basic business processes, information systems control and security issues, systems integration and deployment.

9. Complete the following Information Systems Core 2 courses (taught winter only):

I SYS 404 : Data Communications. (3:3:0)
OFFERED: W
PREREQUISITE: Admission to information systems major; concurrent enrollment in same section of I Sys 411, 413, and 415.
DESCRIPTION: Principles of data communications, local- and wide-area networks, hardware, software, media, standards, management, and business applications.

I SYS 411 : Systems Design and Implementation. (3:3:0)
OFFERED: W
PREREQUISITE: Sys 401, 402, 403, 414; concurrent enrollment in same section of I Sys 404, 413, and 415.
DESCRIPTION: Later phases of systems development life cycle. System architecture, user interfaces, system interface, and application design. Testing and integration. Object-oriented development.

I SYS 413 : Enterprise Application Development. (3:3:0)
OFFERED: W

PREREQUISITE: I Sys 401, 402, 403, 414; concurrent enrollment in same section of I Sys 404, 411, and 415.
DESCRIPTION: Client- and server-side programming. Internet and Web-based applications. Enterprise systems and architectures.

I SYS 415 : Information Systems Capstone Project. (3:3:0)
OFFERED: W
PREREQUISITE: I Sys 401, 402, 403, and 414; concurrent enrollment in I Sys 404, 411, and 413.
DESCRIPTION: Applying concepts, principles, and methods of enterprise-level information systems by designing and developing a full-scale system including hardware, software, and network.

10. Complete the following capstone course:
BUS M 498 : Strategic Management. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Bus M 301; major status.
DESCRIPTION: Concepts, tools, and approaches to understand competitive forces and to systematically and consistently develop sustainable competitive advantages.

11. Complete Marriott School exit survey online.

*Hours include courses that may fulfill university core requirements.

Management Advisement Center

Joan Young, Director
460 TNRB
(801) 422-4285

Advisors are prepared to assist undergraduate students in successfully completing university, college, and major requirements. Students are encouraged to meet frequently with their advisors. Center personnel are available to help with registration, graduation requirements, fields of study, changes in major, and transfer evaluation, as well as to clarify policies and procedures.

Undergraduate Programs

Three undergraduate degrees are offered by the Marriott School of Management. The first is a bachelor's degree in management, which provides a broad management education. The program is designed to assist students in acquiring knowledge, insight, maturity, competence, and a strong sense of moral and ethical character. An area of emphasis may be taken by students seeking specialization. These areas include finance, marketing, global supply chain, strategy, organizational behavior/human resources, entrepreneurship, and general business.

The second bachelor's degree is offered by the School of Accountancy to students seeking to combine accounting skills with broad management education (see the School of Accountancy section of this catalog for details). Accounting students interested in acquiring in-depth specialization or seeking careers in public accounting are encouraged to apply to the Master of Accountancy Program.

The third bachelor's degree is offered by the Information Systems Department to students seeking to combine information systems skills with broad management education (see the Information Systems section of this catalog for details). Students interested in acquiring in-depth specialization in information systems are encouraged to apply to the Master of Information Systems Management Program.

Graduation Application for Bachelor's Degree

When a student has completed 86–96 earned hours (usually during the junior year), application for graduation should be initiated at the Marriott School of Management Advisement Center.

Graduate Programs

The Marriott School of Management offers the following graduate degrees:

MAcc	Professional Accountancy
MAcc	Tax
MBA	Business Administration
MISM	Information Systems Management
MPA	Public Administration

Individual program brochures are available from the Marriott School of Management, 730 TNRB, Brigham Young University, Provo, UT 84602-3113. Also, refer to the BYU 2008–2009 Graduate Catalog.

I SYS 413 : Enterprise Application Development. (3:3:0)
OFFERED: W
PREREQUISITE: I Sys 401, 402, 403, 414; concurrent enrollment in same section of I Sys 404, 411, and 415.
DESCRIPTION: Client- and server-side programming. Internet and Web-based applications. Enterprise systems and architectures.

I SYS 414 : Business Processes and Controls. (3:3:0)
OFFERED: F
PREREQUISITE: Information systems majors status; concurrent enrollment in I Sys 401, 402, 403.
DESCRIPTION: Enterprise-level systems that support basic business processes, information systems control and security issues, systems integration and deployment.

I SYS 415 : Information Systems Capstone Project. (3:3:0)
OFFERED: W
PREREQUISITE: I Sys 401, 402, 403, and 414; concurrent enrollment in I Sys 404, 411, and 413.
DESCRIPTION: Applying concepts, principles, and methods of enterprise-level information systems by designing and developing a full-scale system including hardware, software, and network.

I SYS 498 : Strategic Management of Information Systems. (3:3:0)
OFFERED: W
PREREQUISITE: I Sys 411, 413; concurrent enrollment in I Sys 490.
DESCRIPTION: Achieving strategic information systems alignment to create sustainable competitive advantage. Concepts and methods critical for information systems management, such as outsourcing, security, controls, and organizational transformation.

Graduate Courses

Undergraduate Courses

The Department of Instructional Psychology and Technology does not offer a baccalaureate degree. However, undergraduate courses are offered as service courses to other departments in the David O. McKay School of Education.

200-Level Courses

IP&T 286 : Instructional Technology in Teaching. (1:1:ARR)
OFFERED: F, W, Sp
DESCRIPTION: Using instructional design, visual design, and differentiated staffing principles along with multimedia authoring systems, telecommunication, and other computer-based tools in the development of educational applications for secondary education settings.

IP&T 287 : Instructional Technology for Early Childhood, Elementary, and Special Education. (2:2:ARR)
OFFERED: F, W
DESCRIPTION: Using instructional design, visual design, and differentiated staffing principles, along with multimedia authoring systems, telecommunication, and other computer-based tools in the development of educational applications for early childhood, elementary, and special education settings.

300-Level Courses

IP&T 301 : Educational Psychology. (2:2:0)
OFFERED: F, W
DESCRIPTION: Basic principles of educational psychology applied to teaching, including learning theory, instructional strategies, assessment of learning outcomes, and classroom inquiry.

400-Level Courses

IP&T 470R : Undergraduate Research Training. (.5-3:ARR:ARR)
OFFERED: F, W
DESCRIPTION: Introduction of undergraduate students to the concepts of research and evaluation through practical experience.

500-Level Graduate Courses (available to advanced undergraduates)

IP&T 514R : Special Topics in Instructional Psychology. (.5-3:ARR:0)
OFFERED: On demand
DESCRIPTION: Topics vary. Topics may include technical applications, effective teaching, student assessment.

: Effective Teaching.
: Student Assessment.
: Technical Applications.

IP&T 515R : Special Topics in Instructional Psychology and Technology. (.5-3:ARR:ARR)
OFFERED: F, W, Sp, Su on demand.

: Evaluating Student Learning.
: Instructional Techniques in Teaching.
: Program Evaluation.
: Tutoring Children in Reading.

IP&T 520 : Foundations of Instructional Technology. (3:3:0)
OFFERED: F
DESCRIPTION: Introduction to instructional psychology and technology theory and practice: psychological foundations of human performance technology and learning sciences. Current research issues, professional organization of the field, and ethical issues.

IP&T 550 : Empirical Inquiry and Statistics. (6:6:0)
OFFERED: F
DESCRIPTION: Integration of empirical research and statistical analysis in evaluation. Designing, conducting, analyzing, reporting, and critically evaluating research studies.

IP&T 560 : Microcomputer Materials Production. (3:3:ARR)
OFFERED: W, Su
PREREQUISITE: IP&T 286 or 515R (Microcomputers in Schools).
DESCRIPTION: Designing, programming, and debugging educational applications of microcomputers using a high-level computer language.

IP&T 564 : Instructional Design. (3:3:ARR)
OFFERED: F, Su

IP&T 599R : Academic Internship. (.5-6:0:18)
OFFERED: F, W, Sp, Su
PREREQUISITE: Departmental consent.

Jerusalem Center for Near Eastern Studies

General Information

1. The Brigham Young University Jerusalem Center for Near Eastern Studies is an educational and cultural center created for study in the Near East, emphasizing religion, the humanities, and the social sciences. The Jerusalem Center has four principal goals:
    a. Provide students an opportunity to study the scriptures in the setting in which the patriarchs, prophets, and the Lord himself lived and taught, and by that study to gain understanding of and commitment to the truths of the gospel of Jesus Christ.

    b. Expand students' understanding of the religions, cultures, history, archaeology, geography, languages, and politics of the ancient and modern Near East.

    c. Foster research and creative endeavors by BYU faculty, students, and visiting scholars.

    d. Promote understanding with other peoples, cultures, and religious faiths that trace their roots to the Holy Land.
2. To achieve these goals, the Jerusalem Center offers a core curriculum with courses in the Old and New Testament and in the ancient and modern Near East. In addition, the center provides specialized courses in archaeology, geography, history, and cultures of the Near East, including language study in Hebrew and Arabic.
3. The Jerusalem Center has marvelous physical facilities on Mount Scopus overlooking the oldest part of the city of Jerusalem. Classrooms, a library, a learning center, auditoriums, student and faculty apartments, a gymnasium and conditioning room, and a cafeteria provide a complete learning environment.

Academic Program

1. **Calendar and Program Emphasis.** Three programs are offered during the calendar year, scheduled to approximate the Provo campus calendar: fall, winter, and spring/summer semesters (four-month programs).
    a. The semester programs are designed for students who are currently enrolled at a college or university seeking their first undergraduate degree. Most of the courses offered are at the upper-division level. Students are encouraged to prepare themselves in advance for this exceptional experience by taking such courses as Pl Sc 170, Geog 120, Hist 300, 302, Arab 101, Heb 101.

    b. All programs include field trips within the Holy Land and to Jordan, Sinai, and Egypt.
2. **Predeparture Orientation Course.** This Independent Study course (NES 100) is taken the semester or term before a student's work at the Jerusalem Center.
3. **Curriculum.** The following subject areas are currently taught at the center:
    a. Biblical Studies: Old Testament and New Testament

    b. Ancient Near Eastern Studies

    c. Modern Near Eastern Studies

    d. Introductory course in either Hebrew or Arabic (required during fall and winter semesters; not offered during spring or summer terms).

    e. Elective courses in biblical studies, ancient and modern Near Eastern Studies, and archaeology as arranged each semester.

Note: Some courses taken at the Jerusalem Center for Near Eastern Studies may be applied toward degrees in Near Eastern Studies, International Relations, and other majors in the College of Family, Home, and Social Sciences. Students should contact their advisement centers concerning specific degree requirements.

Study of Nursing at Brigham Young University

The College of Nursing at Brigham Young University, established in 1952, is accredited by the Utah State Board of Nursing and the Commission on Collegiate Nursing Education. The mission of the College of Nursing is to develop professional nurses who promote health, care for the suffering, engage in the scholarship of the discipline, invite the Spirit into health and healing, and lead with faith and integrity.

Baccalaureate graduates are prepared to function in generalist roles in hospital and community settings. They also have excellent preparation for entrance into graduate programs. Graduates of the MS program are prepared for a variety of advanced practice and leadership roles in the health care delivery system.

The college faculty are committed to creating a stimulating learning environment based on Christian principles. They maintain a broad range of research and clinical interests.

Student resources include a fully equipped learning resource center with audiovisual and computer learning aids, a research center, and a state-of-the-art clinical simulation laboratory. Clinical practice opportunities exist in a variety of urban and rural hospital, school, home, and community settings along the Wasatch Front. Students may also gain extended experiences with specialized national and international health programs.

Scholarships and Awards

Scholarships are available for undergraduate and graduate students. Information about additional sources of funding for study are available in the College of Nursing Advisement Center. Research assistantships and teaching assistantships are also available.

Undergraduate Courses

Courses offered at the Jerusalem Center are *not* offered on the Provo campus and hence cannot be retaken.

Orientation Course

NES 100 : Jerusalem Center Orientation. (1:2:0)
PREREQUISITE: Application for a Jerusalem Center foreign study program.
DESCRIPTION: Introduction to the peoples and cultures of the Near East.
NOTE: Required of all participants prior to departure.

Religion Courses

REL A 101 : Old Testament Survey. (2:2:3)
OFFERED: Su
DESCRIPTION: Survey of the Old Testament, integrated with extensive field study in the biblical world; leads to understanding, appreciation, and application of scriptural teachings today.
NOTE: Offered only at the BYU Jerusalem Center for Near Eastern Studies. Jerusalem Center courses may not be repeated.

REL A 111 : New Testament Survey of the Gospels. (2:2:3)
OFFERED: Su
DESCRIPTION: Survey of the New Testament Gospels integrated with extensive field experience in the biblical world; leads to understanding, appreciation, and application of scriptural teachings today.
NOTE: Offered only at the BYU Jerusalem Center for Near Eastern Studies. Jerusalem Center courses may not be repeated.

REL A 303 : Old Testament Studies. (3:3:4)
OFFERED: F, W
DESCRIPTION: Study of the Old Testament integrated with extensive field experiences in the biblical world; leads to an understanding, appreciation, and application of scriptural teachings today.
NOTE: Offered only at the BYU Jerusalem Center for Near Eastern Studies. Jerusalem Center courses may not be repeated.

REL A 311 : New Testament Studies of the Gospels. (3:2:4)
OFFERED: F, W
DESCRIPTION: Study of the New Testament Gospels integrated with extensive field experiences in the biblical world; leads to an understanding, appreciation, and application of scriptural teachings today.
NOTE: Offered only at the BYU Jerusalem Center for Near Eastern Studies. Jerusalem Center courses may not be repeated.

Near Eastern Studies Courses

NES 101R : Topics in Near Eastern Studies. (.5-3:ARR:ARR)
DESCRIPTION: Studies based on individual and program needs.
NOTE: Elective credit for major and minor. Offered at the Jerusalem Center for Near Eastern Studies only.

NES 136 : Introduction to Near Eastern Studies. (2:2:1)
DESCRIPTION: Survey core course in social science/humanities.
NOTE: Offered (as part of the summer term program) at the Jerusalem Center for Near Eastern Studies only. Elective credit for major and minor.

NES 326 : Introduction to Near Eastern Studies. (2:2:1)
PREREQUISITE: At least junior class standing.
DESCRIPTION: Social science/humanities core course.
NOTE: Elective credit for major and minor. Offered (as part of the summer term program) at the Jerusalem Center for Near Eastern Studies only. Does not receive GE credit.

NES 336 : Ancient Near Eastern Studies. (3:3:2)
DESCRIPTION: Social science/humanities core course emphasizing ancient history extending to the Byzantine period.
NOTE: Elective credit for major and minor. Offered at the Jerusalem Center for Near Eastern Studies only.

NES 347 : (NES-Hist 242) Arab and Islamic Civilization. (2:2:1)
DESCRIPTION: Social science/humanities core course covering Arab and Islamic civilization; historical evolution of Middle East to present. Overview of modern Palestinian society.
NOTE: Elective credit for major and minor in NES. Offered at the Jerusalem Center for Near Eastern Studies only. Does not receive GE credit.

NES 349 : (NES-Hist 243) Jewish Civilization. (2:2:1)
DESCRIPTION: Social science/humanities core course; broad introduction to Jewish self-understanding and history, focusing on relationships among people, faith, and land.

NES 398R : Advanced Topics in Near Eastern Studies. (.5-3:ARR:ARR)
DESCRIPTION: Studies based on individual and program needs.
NOTE: Elective credit for major and minor. Also offered at the Jerusalem Center for Near Eastern Studies.

NES 499R : Special Topics in Near Eastern Studies. (.5-3:ARR:0)
PREREQUISITE: Instructor's consent.
DESCRIPTION: Studies based on individual and program needs.

Language Courses

ARAB 100 : Introduction to Arabic. (1:1.5:0)
DESCRIPTION: Beginning Arabic
NOTE: Offered at the Jerusalem Center for Near Eastern Studies only.

HEB 100 : Introduction to Hebrew. (1:1.5:0)
DESCRIPTION: Beginning Hebrew.
NOTE: Offered at the Jerusalem Center for Near Eastern Studies only.

HEB 313 : Readings in the Old Testament. (3:3:0)
DESCRIPTION: Readings in the Old Testament in Hebrew.
NOTE: Heb 312 (Hebrew Media), Heb 313, Heb 411R (Advanced Conversation), and Heb 421 are offered in the intensive modern Hebrew program. Arab 312 (Arabic Media) and 411R (Advanced Conversation) are offered in the intensive modern Arabic program. The intensive Hebrew and Arabic programs are offered alternate years during the winter program only.

HEB 321 : Intermediate Conversation and Media. (3:3:0)
OFFERED: W alt yr.
PREREQUISITE: Heb 101, 102.
DESCRIPTION: Capitalizing on daily life in Jerusalem to increase speaking, reading, writing, and listening comprehension in modern Hebrew.
NOTE: Offered at the Jerusalem Center for Near Eastern Studies only.

HEB 411R : Advanced Conversation. (4:4:4)
PREREQUISITE: Heb 311R or equivalent.
DESCRIPTION: Emphasizes conversation in everyday situations. Students role play various situations in class and then apply their learning in Jerusalem.
NOTE: Heb 312 (Hebrew Media), Heb 313, Heb 411R (Advanced Conversation), and Heb 421 are offered in the intensive modern Hebrew program. Arab 312 (Arabic Media) and 411 (Advanced Conversation) are offered in the intensive modern Arabic program. The intensive Hebrew and Arabic programs are offered alternate years during the winter program only.

HEB 421 : Readings in the Hebrew Translation of the New Testament. (3:3:0)
DESCRIPTION: Readings in the New Testament in Hebrew translation.
NOTE: Heb 312 (Hebrew Media), Heb 313, Heb 411R (Advanced Conversation), and Hebrew 421 are offered in the intensive modern Hebrew program. Arab 312 (Arabic Media) and 411R (Advanced Conversation) are offered in the intensive modern Arabic program. The intensive Hebrew and Arabic programs are offered alternate years during the winter program only.

Note: Heb 312 (Hebrew Media), Heb 313, Heb 411R (Advanced Conversation), and Heb 421 are offered in the intensive modern Hebrew program. Arab 312 (Arabic Media) and 411R (Advanced Conversation) are offered in the intensive modern Arabic program. The intensive Hebrew and Arabic programs are offered alaternate years during the winter program only.

Center for Language Studies

Ray T. Clifford, Director
3086 JFSB, (801) 422-1201

College of Humanities Advisement Center
1175 JFSB, (801) 422-4789

General Information

To make the exceptional foreign language capabilities of BYU available to a large audience, the Center for Language Studies offers a variety of language courses during the summer term (mid-June to mid-August) as well as during the academic year.

Summer intensive courses include:

Advanced language/culture courses for returned missionaries (and others of comparable ability), especially in less commonly taught languages. Some of these courses will fulfill the general education language requirement.

Foundation courses covering the equivalent of a full academic year of study in a major language.

Students may earn up to two semesters of academic language credit for an intensive summer course. Students need not be regular BYU students to enroll and receive credit during the summer term. Student demand and availability of qualified faculty determine which languages are taught each summer.

Interested students and potential adjunct faculty are requested to register their desires to participate in summer programs as early as possible by completing the survey form on the center's Web page, http://cls.byu.edu, or by contacting the office at 3086 JFSB.

Language and culture courses for returned missionaries (see departmental pages for additional language courses):

Note: Some of the following courses are designated as "culminating courses" to fulfill the general education language requirement. Returned missionaries should receive advice from the relevant department when multiple classes in the language of their interest are listed.

Academic-year courses include two categories:

- Established courses taught as regular daytime classes.
- On-demand courses that are taught if sufficient student demand and qualified teachers are available. Enrollment in these courses is generally through the Division of Continuing Education, Evening Classes. Most of the less commonly taught languages are listed under the general title Foreign Language (FLang).

Courses offered:

Department of Humanities, Classics, and Comparative Literature
Dansh 340.
Finn 340.
Norwe 340.
Swed 340.

Department of Asian and Near Eastern Languages
Cant 202.
Chin 112, 201, 202.
Japan 221, 301.
Korea 301.

Department of Germanic and Slavic Languages
Bulgn 330.
Czech 330.
Dutch 340.
Germ 330.
Hung 330.
Polsh 330.
Russ 330.
Sln 330.
SrbCr 330.
Ukrai 330.

Department of French and Italian
Fren 201, 321, 340.
Ital 321, 340.
Rom 340.

Department of Spanish and Portuguese
Port 315.
Span 321.

Center for Language Studies

The center offers the following courses—often in collaboration with language departments—depending on demand and availability of qualified faculty. The number and types of classes vary. (Students should check with their major advisement center to determine whether the class offered fulfills the GE Foreign Language requirement.)

Afrikaans	Hawaiian	Niuean
Akan	Hebrew	Norwegian
Albanian	Hindi	Persian
Arabic	Hmong	Polish
Armenian	Hungarian	Portuguese
Aymara	Icelandic	Quechua
Basque	Ilangot	Rarotongan
Bicolano	Ilocano	Romanian
Bulgarian	Ilonggo	Russian
Burmese	Indonesian	Samoan
Cakchiquel	Italian	Serbian
Cambodian	Japanese	Slovenian
Cantonese	Javanese	Spanish
Catalan	Kazakh	Swahili
Cebuano	K'iche	Swedish
Croatian	Korean	Tagalog
Czech	Laotian	Tahitian
Danish	Latin	Taiwanese
Dutch	Latvian	Thai
Estonian	Lithuanian	Tongan
Fijian	Malagasy	Trukese
Finnish	Malay	Turkish
French	Mandarin	Ukrainian
Ga	Maori	Urdu
German	Marshallese	Vanuatau
Greek (Classical)	Maya	Vietnamese
Greek (Modern)	Mongolian	Waray-Waray
Guarani	Navajo	Welsh
Haitian Creole		

Less commonly taught languages listed under the general title FLang 330R may also fulfill the GE Foreign Language requirement.

Upon completion of an approved culminating language course that fulfills the foreign language general education requirement, returned missionaries and others with comparable skills may receive additional graded credit by examination for classes leading to the level of the culminating course (up to an additional 16 credit hours). In some cases, up to 12 credit hours may be earned by examination *without taking the culminating course*, but all such credit will be pass/fail credit. An examination once taken for pass/fail credit cannot be retaken or reevaluated for graded credit. Contact the Humanities Technology and Research Support Center for information about these examinations. All language credit earned by enrollment on campus will be graded.

College of Physical and Mathematical Sciences

N-181 ESC
(801) 422-2674

Dean: Scott D. Sommerfeldt, Professor, Physics and Astronomy
Associate Dean: Dana Thomas Griffen, Professor, Geological Sciences
Associate Dean: Thomas W. Sederberg, Professor, Computer Science

The College of Physical and Mathematical Sciences consists of seven departments:

- Chemistry and Biochemistry
- Computer Science
- Geological Sciences
- Mathematics
- Mathematics Education
- Physics and Astronomy
- Statistics

Freshmen who are interested in the physical and mathematical sciences but are undecided about a specific major may register in science fundamentals core courses: Math 112; Chem 111 or 105; Phscs 121.

College Advisement Center

Shane M. Jorgenson, Supervisor
N-179 ESC, (801) 422-6270
1112 TMCB, (801) 422-4214

The advisement center provides information and help on registration, graduation requirements, policies and procedures, fields of study, changes of major, and many other aspects of the college's academic life.

Degrees Offered

Bachelor's degrees are offered in chemistry, chemistry education, computer science, earth and space science education, geology, mathematics, mathematics education, physical science teaching, physics, physics teaching, and statistics.

The master of science degree is offered in biochemistry, chemistry, computer science, geology, mathematics, physics, and statistics. The master of arts degree is available in mathematics education. The doctor of philosophy degree is offered in biochemistry, chemistry, computer science, mathematics, physics, and physics/astronomy.

See specific departmental sections of this catalog for baccalaureate degree requirements. Graduate programs are detailed in the 2008–2009 BYU Graduate Catalog.

Life Sciences Student Services

Shauna C. Anderson, Assistant Dean
379-380 WIDB, (801) 422-3042

Admission to Life Sciences Preparation (Premajor Program)

The program has open enrollment.

The Discipline

This is a premajor program for students interested in biology or life sciences and haven't decided on a specific major. It will allow students to investigate the science classes and then move to a major in the college without losing time to graduation.

Learning Outcomes

1. Describe the services offered by the Life Sciences Student Services
2. The preparation program in Life Sciences is designed to allow students to investigate the various majors offered by the college by describing the following for each major:
    a. the discipline
    b. student learning outcomes and assessments used to measure them
    c. courses required
    d. possible careers or post-graduate opportunities

Life Sciences Preparation (Premajor Program) (28–29 hours*)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements | View MAP

1. Complete the following survey course:
   LFSCI 101 : Freshman Life Sciences Seminar. (.5:1:0)
   OFFERED: F, W
   DESCRIPTION: Presentations of the various majors offered in the College of Life Sciences.

2. Complete the following:
   CHEM 105 : General College Chemistry. (4:5:0)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
   DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energectics, electrochemistry, acids and bases, inorganic and organic chemistry.
   NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

   CHEM 106 : General College Chemistry. (3:4:0)
   OFFERED: F, W, Su
   PREREQUISITE: Chem 105 or equivalent.
   DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.
   NOTE: Three lectures and one recitation section per week.

   CHEM 107 : General College Chemistry Laboratory. (1:0:3)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: Chem 106 or concurrent enrollment.
   DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.
   NOTE: Required for most students needing one year of general chemistry.

   MMBIO 240 : Molecular Biology. (3:3:1)
   OFFERED: F, W, Sp
   PREREQUISITE: PDBio 120, Chem 105.
   DESCRIPTION: Fundamentals of protein and nucleic acid structure and their function in the context of the classical experiments that have informed our current models of biology at the molecular level.

   MMBIO 241 : Molecular and Cellular Biology Laboratory. (1:0:3)
   OFFERED: F, W, Sp
   PREREQUISITE: MMBio 240 or concurrent enrollment.
   DESCRIPTION: Molecular and cellular biology techniques laboratory.

   PDBIO 120 : Science of Biology. (2:2:1)
   OFFERED: F, W, Sp, Su; Honors also.
   DESCRIPTION: General biology course designed for biological science majors, emphasizing the scientific method, cell theory, biochemical unity, the Central Dogma, bioenergetics, reproduction, and evolutionary theory.

   PHSCS 105 : Introductory Applied Physics. (3:3:0)
   OFFERED: F, W, Sp
   PREREQUISITE: High school algebra and trigonometry.
   RECOMMENDED: Concurrent enrollment in Phscs 107.

DESCRIPTION: Applied physics course not requiring calculus. Topics include mechanics, heat, wave motion, sound.

PHSCS 106 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Phscs 105 or equivalent.
RECOMMENDED: Concurrent enrollment in Phscs 108.
DESCRIPTION: Continuation of Phscs 105. Topics include electricity and magnetism, atomic and nuclear physics, and optics.

PHSCS 107 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 105 or concurrent enrollment.

PHSCS 108 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Su
PREREQUISITE: Phscs 106 or concurrent enrollment.

PWS 340 : Genetics. (2:2:1)
OFFERED: F, W, Su
PREREQUISITE: MMBio 240.
DESCRIPTION: Genetic mechanisms, their fundamental nature, interactions, and applications to human affairs. Genetics in quantitative terms. Extensive practice in problem solving.

3. Complete one course from the following:

MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

MATH 113 : Calculus 2. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
NOTE: Honors also.

MATH 119 : Introduction to Calculus. (4:4:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Introduction to plane analytic geometry and calculus.
NOTE: For students in the College of Life Sciences and the Marriott School of Management.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

*Hours include courses that may fulfill university core requirements.

Undergraduate Courses

100-Level Courses

LFSCI 101 : Freshman Life Sciences Seminar. (.5:1:0)
OFFERED: F, W
DESCRIPTION: Presentations of the various majors offered in the College of Life Sciences.

LFSCI 190R : College of Life Sciences Student Council. (1:1:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Application for student council position.
DESCRIPTION: Active involvement on the student council for the College of Life Sciences. Issues facing students in the college explored and solutions suggested.

300-Level Courses

LFSCI 399R : Academic Internship. (.5-6:0:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Mentor's consent.
DESCRIPTION: Approved experiential learning.

: Mentored Internship.

400-Level Courses

LFSCI 489R : Senior Library Thesis. (1-6:0:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Prospectus approval by Life Sciences Student Services.
DESCRIPTION: Mentored library study that extensively explores relevant questions determined by an approved faculty mentor.

LFSCI 490R : Special Problems. (1-6:0.0:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Life Sciences Student Services consent.

LFSCI 494R : Mentored Research. (1-6:0:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Mentor's consent.

LFSCI 499R : Senior Honors Thesis. (1-6:0:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Mentor's consent.
DESCRIPTION: Topic to be cleared with Honors Program Office and Life Sciences Student Services.

Admission to Degree Program

All undergraduate degree programs in the Department of Linguistics and English Language are open enrollment.

The Discipline

Linguistics is the study of language in all its aspects—from speech sounds to sentence formation to meaning; from how language is organized and used in a social setting to how it is organized and processed in the brain or by computers. Linguists study language form, language change, language acquisition, and even the texts in which language is recorded. Linguists recognize that the communicative power of language is what brings cohesion to all human enterprises. For the student interested in the nature of language, linguistics is the subject to study.

The science of linguistics has many real-world applications, including translation, information storage/retrieval, lexicography, editing, and language teaching. In addition to its majors in general linguistics and in English language, BYU's Department of Linguistics and English Language offers undergraduate minor programs (as well as graduate degrees) in several of these areas.

Career Opportunities

A linguistics degree with an emphasis in computers may lead to jobs in high technology, e.g., machine translation, information retrieval, speech recognition and production software, and lexicography. Linguistics is also recognized as a strong specialization for those pursuing a career in military intelligence or technical writing.

The English language major is in many ways similar to the linguistics major, though its focus is more specifically on English linguistics. The major provides useful preparation for careers that require special attention to the English language, such as advertising and technical writing. The English language major along with a TESOL or editing minor is an especially strong combination.

The teaching of English to speakers of other languages is an applied linguistics area of high demand, both within the United States and around the world (see further description under TESOL below).

In addition, the linguistics and English language majors are excellent preparations for those planning graduate studies in areas as diverse as law, international business, tourism, library science, TESOL, communicative disorders, and speech pathology, not to mention graduate studies in specific languages or in linguistics itself.

General Information

The Department of Linguistics and English Language strongly recommends that StDev 317, a 1-credit-hour course, be taken at the end of the sophomore year or the beginning of the junior year. Because liberal arts degrees provide preparation in a variety of useful fields rather than a single career track, this course is recommended to help liberal arts students focus on specific educational and occupational goals and to identify the career options or educational opportunities available to them. The course will introduce them to the resources needed for accessing information about graduate schools, internships, careers, and career development. Students will learn basic employment strategies, including the steps necessary for obtaining employment related to their own specialty.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Church History and Doctrine

Research and Academic Support Areas

Religious Studies Center

Purposes

The mission of Religious Education at Brigham Young University is to build the kingdom of God by teaching and preserving the doctrine of the gospel of Jesus Christ. We spread the light of the Restoration through classroom instruction, gospel scholarship, and outreach to the larger community.

Religious Education oversees the teaching of and research into scripture, doctrine, LDS and Christian church history, and world religions. We strive to create a learning environment and provide resources that are "spiritually strengthening, intellectually enlarging, and character building" and an educational experience that results in "lifelong learning and service" (The Aims of a BYU Education).

Religious Education seeks to spread the light of restored truth to Latter-day Saints and to those not of the LDS faith in three ways:

1. Instruction. We seek in Religious Education to find new ways and more effective ways to communicate timeless truths and to provide "a stimulating setting where a commitment to excellence is expected and the full realization of human potential is pursued" (BYU Mission Statement). In general, we search for ways to enhance the educational experience and to build a faith in and a commitment to the restored gospel that is as stimulating and satisfying to the mind as it is soothing and settling to the heart.
2. Scholarship. The search for new truths and the quest to better understand well-known truths are central to the work of Religious Education. While the ultimate interpretation of doctrinal matters rests with apostles and prophets, we seek to discover historical backgrounds, provide cultural and linguistic details, and explore new avenues of understanding into our faith, history, and way of life.
3. Outreach. An important dimension of the work of Religious Education is outreach, the effort to teach, share, and discuss Mormonism in the larger non-LDS community of scholars and to foster understanding between men and women of all faiths.

Degrees Offered

Religious Education offers the master of religious education degree. For further information on this program, please contact Religious Education, 370 JSB, (801) 422-2735.

No other degree programs are offered in this area.

Scholarships and Awards

Graduate-level scholarships and awards are available to qualified students. Applications may be obtained from the Office of the Dean of Religious Education, 370 JSB.

Religious Studies Center

Richard N. Holzapfel, Director
167 HGB
(801) 422-2332
http://religion.byu.edu/rsc_about.php

The Religious Studies Center (RSC) is the research and publication arm of Religious Education. It continues to pursue its original charter to encourage and sponsor serious, faithful, gospel-related scholarship and the ensuing publication of that scholarship. It fulfills the charge to help meet the university's commitment to religious studies and Religious Education's aim to teach and preserve the doctrine of the gospel of Jesus Christ. It also serves the greater Church through the publication of the works of Religious Education faculty and other scholars who have written important, timely, scholarly work of a faith-promoting nature.

To encourage and promote religiously oriented scholarship, the RSC awards grants and provides other financial assistance. It proactively reaches out to faculty to encourage research in specific areas and supports them in the publication of their findings. To accomplish this the RSC sponsors two faculty mentors, known as area directors, who oversee and fund research in Church history and ancient scripture.

Minors

- Editing
- Humanities Computing
- Linguistics
- Linguistic Computing
- TESOL

Students should see their college advisement center for help or information concerning the undergraduate programs.

Graduate Programs and Degrees

- MA in Linguistics
- Cert in TESOL
- MA in TESOL

For more information see the BYU 2008-2009 Graduate Catalog.

Program Requirements | View MAP

1. Complete the following prerequisite to all courses required for the English language major:
   ELANG 223 : Introduction to the English Language. (3:3:0)
   OFFERED: F, W, Sp, Su
   DESCRIPTION: Overview of English from linguistic point of view, emphasizing structure of English and social, biological, and psychological aspects of language.

2. Complete the following core courses:
   ELANG 273 : Empirical Methods in English Linguistics. (3:3:0)
   OFFERED: F, W
   PREREQUISITE: ELang 223 or concurrent enrollment.
   DESCRIPTION: The use of large collections of texts for teaching and particularly for research, including the study of many different types of linguistic variation.

   ELANG 322 : Modern American Usage. (3:3:0)
   OFFERED: F, W, Su
   PREREQUISITE: ELang 223 or Ling 330.
   DESCRIPTION: Current conventions and effective use of American English.

   ELANG 324 : History of the English Language. (3:3:0)
   OFFERED: F, W, Sp
   PREREQUISITE: ELang 223 or Ling 330.
   DESCRIPTION: Basic changes from Old English to modern English, including modern American dialects.

   ELANG 325 : The Grammar of English. (3:3:0)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: ELang 223 or Ling 330.
   DESCRIPTION: Study of English grammar in various applications.

   ELANG 326 : English Semantics and Pragmatics. (3:3:0)
   OFFERED: F, W
   PREREQUISITE: ELang 223 or Ling 330.
   DESCRIPTION: Structure of meaning in words, phrases, and discourse. Lexical semantics and the mental lexicon; phrase-level meaning; interaction of situation and meaning.

   ELANG 327 : English Phonetics and Phonology. (3:3:0)
   OFFERED: W
   PREREQUISITE: ELang 223 or Ling 330.
   DESCRIPTION: Pronunciation, perception, and interaction of English speech sounds. Dialect variation.

   ELANG 495R : The Senior Course. (3:3.0:0.0)
   PREREQUISITE: Senior status; English language major status.
   DESCRIPTION: In-depth study of a limited area of English language. Content varies; requires research and writing.

3. Complete one course from the following:
   ELANG 362 : Discourse Analysis. (3:3:0)
   PREREQUISITE: ELang 223 or Ling 330.
   DESCRIPTION: Linguistic analysis of connected speech or written discourse, especially larger linguistic units above the clause level, such as conversational exchanges or written texts.

ELANG 468 : Varieties of English. (3:3:0)
PREREQUISITE: ELang 223 or Ling 330.
DESCRIPTION: Regional and social variation in English, especially standard and nonstandard national and world Englishes such as English-based pidgins and creoles.

LING 550 : Sociolinguistics. (3:3:0)
OFFERED: W
DESCRIPTION: Research and theory in anthropological linguistics and sociolinguistics.

4. Complete one of the following period courses:
ELANG 525 : Old English 1. (3:3:0)
OFFERED: F odd years.
PREREQUISITE: ELang 223, 324; or equivalents.
DESCRIPTION: Old English grammar and vocabulary; traditional syntactical patterns in various types of Old English prose and poetry.

ELANG 526 : Middle English. (3:3:0)
OFFERED: F even years.
PREREQUISITE: ELang 223, 324; or equivalents.
DESCRIPTION: Detailed study of the principal dialects of Middle English, as illustrated in the literature of the period.

ELANG 527 : Early Modern English. (3:3:0)
OFFERED: W
PREREQUISITE: ELang 223, 324; or equivalents.
DESCRIPTION: English language from about 1500 to 1800, with special emphasis on language of Shakespeare and the King James Bible.

5. Complete three courses from the following:
CHUM 210 : Instructional Applications Programming 1. (3:3:0)
OFFERED: F, W
PREREQUISITE: CHum 100R or 200 or computer experience.
DESCRIPTION: Applying computer technology to teaching: designing, authoring, and evaluating computer-based instructional materials for lab and classroom use.
NOTE: Recommended for teaching majors and minors.

CHUM 230 : Print Publishing 1. (3:3:0)
OFFERED: F, W
PREREQUISITE: CHum 100R or 200 or word processing experience.
DESCRIPTION: Applying computer technology to academic publishing in print media; journals, newsletters, textbooks, and other scholarly publications.

CHUM 250 : Internet Publishing. (3:3:0)
OFFERED: F, W
PREREQUISITE: CHum 100R or 200 or computer experience.
DESCRIPTION: Applying computer technology to academic publishing in electronic media: Internet sites for classes, research projects, and academic organizations. Scripting for intelligent/dynamic Web pages.

CHUM 310 : Instructional Applications Programming 2. (3:3:0)
OFFERED: W
PREREQUISITE: CHum 210.
DESCRIPTION: Advanced applications of computer technology to teaching: integrating digital graphics, sound, and video; hypertext and hypermedia; computer-based testing; network applications.

CHUM 355 : Text Encoding and Markup. (3:3:0)
OFFERED: W
PREREQUISITE: CHum 250 or 260.
DESCRIPTION: Principles of markup languages (SGML, XML, etc.) and encoding standards for academic content. Practical experience encoding, processing, and delivering marked-up data.

ELANG 362 : Discourse Analysis. (3:3:0)
PREREQUISITE: ELang 223 or Ling 330.
DESCRIPTION: Linguistic analysis of connected speech or written discourse, especially larger linguistic units above the clause level, such as conversational exchanges or written texts.

ELANG 421R : Studies in Language or Editing. (3:3:0)

PREREQUISITE: ELang 223.
DESCRIPTION: Topics vary.

ELANG 468 : Varieties of English. (3:3:0)
PREREQUISITE: ELang 223 or Ling 330.
DESCRIPTION: Regional and social variation in English, especially standard and nonstandard national and world Englishes such as English-based pidgins and creoles.

ELANG 521R : Studies in Language. (3:3:0)
PREREQUISITE: ELang 223 or equivalent.
DESCRIPTION: Topics vary.

: English Spelling.

ELANG 522 : Language Policy and Planning in English Language Contexts. (3:3:0)
PREREQUISITE: ELang 223 or Ling 330 or equivalent.
DESCRIPTION: Theories and practices of governing entities as they formulate policies relating to the status and codification of the English language.

ELANG 524 : History of the Book. (3:3:0)
DESCRIPTION: History and development of the book, including modern methods and practices.

ELANG 525 : Old English 1. (3:3:0)
OFFERED: F odd years.
PREREQUISITE: ELang 223, 324; or equivalents.
DESCRIPTION: Old English grammar and vocabulary; traditional syntactical patterns in various types of Old English prose and poetry.

ELANG 526 : Middle English. (3:3:0)
OFFERED: F even years.
PREREQUISITE: ELang 223, 324; or equivalents.
DESCRIPTION: Detailed study of the principal dialects of Middle English, as illustrated in the literature of the period.

ELANG 527 : Early Modern English. (3:3:0)
OFFERED: W
PREREQUISITE: ELang 223, 324; or equivalents.
DESCRIPTION: English language from about 1500 to 1800, with special emphasis on language of Shakespeare and the King James Bible.

ELANG 529 : Structure of Modern English. (3:3:0)
OFFERED: Sp on demand.
PREREQUISITE: ELang 325, or instructor's consent.
DESCRIPTION: English syntax through modern grammars; theories underlying those grammars.

ELANG 535 : Language and Literature. (3:3:0)
OFFERED: Sp on demand.
PREREQUISITE: ELang 223 or Ling 330 or equivalent.
DESCRIPTION: Literature from a language perspective; applying linguistic constructs to literary language; examining literary style; linguistic analysis of unfamiliar texts.

ELANG 548 : Old English 2. (3:3:0)
PREREQUISITE: ELang 525.
DESCRIPTION: Additional reading in Old English, emphasizing sound changes, dialects, and textual production.

LING 450 : Introduction to Historical-Comparative Linguistics. (3:3:0)
OFFERED: W, Su
PREREQUISITE: Ling 330 or ELang 223.
DESCRIPTION: Theory and method of language change via comparison of daughter languages and reconstruction of their ancestral language: phonological, morphological, semantic, and lexical.

LING 485 : Corpus Linguistics. (3:3:0)
PREREQUISITE: Ling 330, ELang 223, or ELang 273.
DESCRIPTION: Using large collections of texts for teaching and particularly for research, including many types of linguistic variation

LING 545 : Psycholinguistics. (3:3:0)
OFFERED: W

PREREQUISITE: ELang 223 or Ling 330 or equivalent.
DESCRIPTION: How the mind interprets, stores, retrieves, and produces language. Anatomical structures and physiological processes of the brain dealing with language.

LING 550 : Sociolinguistics. (3:3:0)
OFFERED: W
DESCRIPTION: Research and theory in anthropological linguistics and sociolinguistics.

Note: Only one computers and the humanities (CHum) course can be used to fill this requirement.

6. Complete 12 credit hours (to a 200-level or higher) of university course work (or the equivalent) in any single language. This may be the same language used to satisfy the GE Foreign Language option. A language relevant to the historical development of English is strongly recommended, namely Latin, French, German, or classical Greek.

Program Requirements | View MAP

1. Complete the following prerequisite:
   LING 330 : Introduction to Linguistics (Modern). (3:3:0)
   OFFERED: F, W, Sp, Su
   DESCRIPTION: Basic understanding of linguistic systems. Phonology, morphology, syntax, semantics, and pragmatics.

2. Complete the following courses:
   LING 420 : Phonetics. (3:3:0)
   OFFERED: F, W
   PREREQUISITE: Ling 330.
   DESCRIPTION: General inventory of speech sounds possible in language, from both an acoustic and articulatory point of view.

   LING 427 : Phonology and Morphology. (3:3.0:0)
   OFFERED: F
   PREREQUISITE: Ling 330 or ELang 223.
   DESCRIPTION: Introduction to phonology and morphology in the world's languages emphasizing the analysis of English.

   LING 430 : Theoretical Syntax. (3:3:0)
   OFFERED: F, W
   PREREQUISITE: ELang 223 or Ling 330.
   DESCRIPTION: Theoretical comparison and contrast of different sentence types. Methods of argument to develop and critique generative theories of lexical categories, grammatical roles, and syntactic structure.

   LING 450 : Introduction to Historical-Comparative Linguistics. (3:3:0)
   OFFERED: W, Su
   PREREQUISITE: Ling 330 or ELang 223.
   DESCRIPTION: Theory and method of language change via comparison of daughter languages and reconstruction of their ancestral language: phonological, morphological, semantic, and lexical.

   LING 490 : Senior Seminar. (3:3:0)
   OFFERED: F, W
   PREREQUISITE: Ling 330.
   RECOMMENDED: Ling 420, 427, 430, 450.
   DESCRIPTION: Reading and discussing major issues in linguistics, writing a senior paper, and reviewing content of core courses.

3. Complete 15 credit hours (to a 200-level or higher) of university-level course work (or the equivalent) in a single foreign language (American Sign Language also qualifies). Students intending to pursue graduate studies in linguistics are strongly encouraged to study a non-Indo-European language. Non-native speakers of English may elect to use English to fill this requirement. They may choose to earn the credit by special examination or by taking classes (ESL 301, 302, 303, 304, and 305).

4. Complete one of the following options:
   a. Complete an approved university minor in one of the following areas (approx. 18-21 hours): TESOL, linguistic computing, or editing.
   b. Complete 15 hours of approved electives:
      1. Nine credit hours from linguistic (Ling) courses other than those in items 1 and 2 above.

2. Six credit hours from:
   Any additional linguistics (Ling) courses.
   Any English language (ELang) courses (except ELang 223).
   ANTHR 309 : Language in Culture and Society. (3:3:0)
   OFFERED: W, Sp
   DESCRIPTION: Sociocultural categories and processes as expressed through, and determined by, language. Semiotics: language as sign system. Ethnosemantics, syntactic analysis, translation problems, ethnography of speaking/communication.

   PHIL 420 : Philosophy of Language. (3:3:0)
   OFFERED: F, W
   PREREQUISITE: One philosophy course.
   DESCRIPTION: Meaning and reference, synonymy, metaphor, exemplification, translation; linguistic, artistic, and perceptual symbol systems.

   PSYCH 375 : Cognition. (3:3:0)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent.
   DESCRIPTION: Perceptual organization; information processing; cognitive development; relationships between sensory analysis, perception, memory, learning, language, and problem solving.
   NOTE: Contains content featured in the Graduate Record Examination (GRE).

   PSYCH 376 : Language Development. (3:3:0)
   OFFERED: F alternate years.
   PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent.
   DESCRIPTION: Principles of language acquisition including communicative development in infancy, sematic and syntactic development, language and literacy in the school years, and effects of brain damage.

*Hours include courses that may fulfill university core requirements.

Program Requirements

1. Complete the following:

CHUM 230 : Print Publishing 1. (3:3:0)
OFFERED: F, W
PREREQUISITE: CHum 100R or 200 or word processing experience.
DESCRIPTION: Applying computer technology to academic publishing in print media; journals, newsletters, textbooks, and other scholarly publications.

ELANG 223 : Introduction to the English Language. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Overview of English from linguistic point of view, emphasizing structure of English and social, biological, and psychological aspects of language.

ELANG 322 : Modern American Usage. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: ELang 223 or Ling 330.
DESCRIPTION: Current conventions and effective use of American English.

ELANG 325 : The Grammar of English. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: ELang 223 or Ling 330.
DESCRIPTION: Study of English grammar in various applications.

ELANG 350 : Basic Editing Skills. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: ELang 322, 325.
DESCRIPTION: Editing theory and practice, emphasizing copy editing and basic line editing.

ELANG 410R : Genre and Substantive Editing. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: ELang 322, 325.
DESCRIPTION: Exploring a different genre of publishing each semester, instruction in substantive editing.

2. Complete three hours of the following:

ELANG 430R : Editing for Publication. (1-3:ARR:0)
OFFERED: F, W, Sp
PREREQUISITE: ELang 350, 410R; Chum 230.
DESCRIPTION: Refining copy editing and substantive editing skills through hands-on work with actual publications; one-on-one feedback and mentoring.

Program Requirements

1. Complete one course from the following prerequisite courses:
   ELANG 223 : Introduction to the English Language. (3:3:0)
   OFFERED: F, W, Sp, Su
   DESCRIPTION: Overview of English from linguistic point of view, emphasizing structure of English and social, biological, and psychological aspects of language.

   LING 330 : Introduction to Linguistics (Modern). (3:3:0)
   OFFERED: F, W, Sp, Su
   DESCRIPTION: Basic understanding of linguistic systems. Phonology, morphology, syntax, semantics, and pragmatics.

2. Complete one course from the following prerequisite courses (or equivalent experience):
   CHUM 200 : Basic Humanities Computing Skills. (3:3:0)
   OFFERED: F, W
   PREREQUISITE: Word processing experience.
   DESCRIPTION: Software applications for computer-based instruction, academic publishing, and research; introduction to programming new applications.

   C S 100 : Fundamentals of Computing and Information. (3:3:0)
   OFFERED: F, W, Sp, Su
   DESCRIPTION: Computing, information structures, programming principles, Internet, World Wide Web, text, spreadsheets, data representations for images, sound and video.
   NOTE: For nonmajors.

3. Complete the following:
   CHUM 220 : Linguistic Computing Programming 1. (3:3:0)
   OFFERED: F, W
   PREREQUISITE: CHum 200 or C S 100 or equivalent experience.
   DESCRIPTION: Computer programming for language applications: data types, character representation, flow of control, file input/output, string manipulation.

   CHUM 260 : Text Processing and Analysis. (3:3:0)
   OFFERED: F, W
   PREREQUISITE: CHum 200 or C S 100 or equivalent experience.
   DESCRIPTION: Applications of computer technology to research in language and literature: text processing, retrieval, and analysis tools for text corpora and online resources.

4. Complete 9 hours from the following:
   CHUM 200 : Basic Humanities Computing Skills. (3:3:0)
   OFFERED: F, W
   PREREQUISITE: Word processing experience.
   DESCRIPTION: Software applications for computer-based instruction, academic publishing, and research; introduction to programming new applications.

   Or
   C S 100 : Fundamentals of Computing and Information. (3:3:0)
   OFFERED: F, W, Sp, Su
   DESCRIPTION: Computing, information structures, programming principles, Internet, World Wide Web, text, spreadsheets, data representations for images, sound and video.

Undergraduate Education

302 MSRB
(801) 422-3037
Email: ugrad@byu.edu

Dean: Daniel J. Fairbanks, Professor, Plant and Wildlife Sciences
Associate Dean—General Education: John D. Lamb, Professor, Chemistry and Biochemistry
Associate Dean—Honors Program: Madison U. Sowell, Professor, Italian and Comparative Literature
Associate Dean—University Writing: Gary L. Hatch, Associate Professor, English
Associate Dean—First-Year Experience: R. Steven Turley, Professor, Physics and Astronomy
Assistant Dean: Carolyn Tuitupou

The Office of Undergraduate Education supervises and fosters essential university-wide elements of the baccalaureate: General Education, Honors Program, University Writing, and First-Year Experience, including Freshman Academy and New Student Orientation. These interrelated programs together promote and champion teaching and learning within an integrated *university* education. They aim to enrich the educational experience and to benefit the life of each undergraduate student.

General Education

The General Education (GE) components of the university core are overseen by an associate dean and administrative assistant. The Faculty General Education Council, consisting of faculty members from a variety of disciplines and chaired by the associate dean, regularly reviews general education courses and has final authority to decide which courses meet GE requirements. From time to time the associate dean, in consultation with the dean and the administration, initiates a broad-based, systematic evaluation of the GE program that may result in recommendations for changes.

General Education requirements are set forth in the University Core section of this catalog. Beyond this and the more detailed listing in the current class schedule, the recommended source of information and advice about General Education requirements is the individual college advisement center. The ten college advisement centers, together with the University Advisement Center (2500 WSC), provide assistance with registration, graduation requirements, policies and procedures, fields of study, changes of major, appeals, and many other aspects of academic life. The General Education Office (350 MSRB) regularly consults with each advisement center on issues related to GE.

The General Education Office promotes the university forum assemblies, which are designed to complement specific GE components of the university core or the idea of liberal education itself. A forum speaker may be nominated by any member of the university community (student, faculty, or staff). Nominations are evaluated by the Forum Committee, comprising faculty and student representatives, which recommends speakers to the university administration.

In an ongoing effort to strengthen the GE offerings in the university core, the General Education Office is engaged in faculty and course development through the GE Academy on Teaching and Learning, faculty general education seminars, and grants for course development and enhancement. It also oversees faculty teaching awards for excellence in general education (including honors GE) courses: the Alcuin Fellowships and the Karl G. Maeser General Education Professorships. (For a description and list of current recipients, see the Maeser Fellowships and Alcuin Fellows section of this catalog.) General education courses are taught by faculty from throughout the university, and the General Education Office works closely with the colleges in a collaborative effort to foster a strong and engaging GE offering within the university core.

Honors Program

The Honors Program, open to all BYU students following a brief orientation, complements the university's expansive educational agenda by providing the benefits of a small liberal arts learning community. These benefits include opportunities to enroll in small classes with high-quality teaching and learning that challenge students to reach their highest potential; fostering a spirit of ongoing inquiry that includes undergraduate research in a mentored environment; and underscoring the importance of combining personal excellence, faithful discipleship, and meaningful service. See the Honors Program section of this catalog for details concerning the program's requirements, offerings, benefits, administration, extra-curricular opportunities, and student-operated advisement center.

University Writing

University Writing promotes effective written, oral, and visual communication, helping students to succeed in their academic work and laying a foundation for lifelong learning. *The Aims of a BYU Education* states that undergraduates should acquire "language abilities that enable students to listen, speak, read, and write well; to communicate effectively with a wide range of audiences in one's area of expertise as well as on general subjects." University Writing purposes to accomplish these objectives through general education courses in First-Year Writing and Advanced Written and Oral Communication—offered both in departments and in the Honors Program—as well as by enhancing writing instruction in courses throughout the curriculum.

Through the Writing Across the Curriculum (WAC) program, University Writing helps faculty members integrate writing instruction within their content courses. WAC trains teaching assistants as evaluators of writing; sponsors faculty workshops, often in conjunction with bringing writing experts to campus; and publishes a newsletter, *Writing Matters*. These efforts are supported by the Writing Fellows program. Writing Fellows is a discipline-based, peer-tutoring program that encourages and supports the development of mature student writing across the disciplines. University Writing also promotes student publication by encouraging faculty members to mentor students in research and writing and by supporting student

NOTE: For nonmajors.

CHUM 355 : Text Encoding and Markup. (3:3:0)
OFFERED: W
PREREQUISITE: CHum 250 or 260.
DESCRIPTION: Principles of markup languages (SGML, XML, etc.) and encoding standards for academic content. Practical experience encoding, processing, and delivering marked-up data.

CHUM 360 : International Software and Text Processing. (3:3:0)
OFFERED: W
PREREQUISITE: CHum 220 or equivalent experience.
DESCRIPTION: Developing international software that can be available in English and other languages. Globalization, internationalization, localization, Unicode, fonts, multilingual user interfaces, and working with foreign language texts.

CHUM 361 : Speech Processing. (3:3:0)
OFFERED: On demand.
PREREQUISITE: CHum 260.
DESCRIPTION: Analyzing and manipulating speech data. Developing software applications that include speech recognition and/or speech generation.

CHUM 489R : Humanities Computing Project. (.5-3:ARR:0)
OFFERED: F, W
PREREQUISITE: Any 300-level computers in the humanities course.
DESCRIPTION: Applying principles from other courses to a substantial research or development project. Students work individually with faculty and technical advisors.

(3 hours required)
CHUM 490R : Current Topics and Issues. (1-3:ARR:Arr)
PREREQUISITE: Instructor's consent.
DESCRIPTION: Individual or group study of current issues and developments in humanities computing. Extended readings; research or project required.

(with coordinator approval)
CHUM 496R : Academic Internship. (1-3:0:0)
PREREQUISITE: CHum 300-level course or equivalent experience.
DESCRIPTION: On-the-job experience in publishing production (print or electronic), courseware/software development, museum/collection/textbase management, language/linguistics research or other application of computers in the humanities.

LING 480 : Problems in Translation. (3:3:0)
OFFERED: F
PREREQUISITE: Proficiency in a second language.
DESCRIPTION: History, theory, and practice of human and machine translation.

LING 485 : Corpus Linguistics. (3:3:0)
PREREQUISITE: Ling 330, ELang 223, or ELang 273.
DESCRIPTION: Using large collections of texts for teaching and particularly for research, including many types of linguistic variation

LING 580R : Problems in Linguistics and Applied Linguistics. (1-3:3:0)
OFFERED: On demand
DESCRIPTION: Advanced research in language acquisition, sociolinguistics, psycholinguistics, linguistics field study, applied linguistics.

(with coordinator approval)
LING 581 : Natural Language Processing. (3:3:0)
OFFERED: F
PREREQUISITE: Good programming skills in at least one language (preferably LISP, Prolog, C, C++, Perl, or Java) and a knowledge of basic, discrete math. Upper-division linguistics/computers and the humanities students with less programming experience may enroll with instructor`s consent.
DESCRIPTION: Intensive overview of natural language processing, including computational techniques, hands-on experience with linguistic technologies and corpora, language modeling approaches, and readings from current research.

Note: If CHum 200 or C S 100 was taken in item 2 above, it will also count toward the elective hours.

Minor in Humanities Computing (15–18 hours)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements

1. Complete 9 credit hours from the following foundation courses, including at least one course incorporating programming:
   a. Courses with programming content:

CHUM 210* : Instructional Applications Programming 1. (3:3:0)
OFFERED: F, W
PREREQUISITE: CHum 100R or 200 or computer experience.
DESCRIPTION: Applying computer technology to teaching: designing, authoring, and evaluating computer-based instructional materials for lab and classroom use.
NOTE: Recommended for teaching majors and minors.

CHUM 220* : Linguistic Computing Programming 1. (3:3:0)
OFFERED: F, W
PREREQUISITE: CHum 200 or C S 100 or equivalent experience.
DESCRIPTION: Computer programming for language applications: data types, character representation, flow of control, file input/output, string manipulation.

CHUM 222* : Humanities Computing Programming. (3:3:0)
OFFERED: F
PREREQUISITE: Chum 100R or 200 or computer experience.
DESCRIPTION: Introduction to fundamental principles and skills of programming; creating humanities computing applications, including program design and logic, variables, modularity and object orientation, and critical problem solving.

or
C S 142 : Introduction to Computer Programming. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Knowledge of algebra.
DESCRIPTION: Introduction to object-oriented program design and development. Principles of algorithm formulation and implementation.

CHUM 250* : Internet Publishing. (3:3:0)
OFFERED: F, W
PREREQUISITE: CHum 100R or 200 or computer experience.
DESCRIPTION: Applying computer technology to academic publishing in electronic media: Internet sites for classes, research projects, and academic organizations. Scripting for intelligent/dynamic Web pages.

CHUM 260* : Text Processing and Analysis. (3:3:0)
OFFERED: F, W
PREREQUISITE: CHum 200 or C S 100 or equivalent experience.
DESCRIPTION: Applications of computer technology to research in language and literature: text processing, retrieval, and analysis tools for text corpora and online resources.

   b. Other CHum course options:

CHUM 230 : Print Publishing 1. (3:3:0)
OFFERED: F, W
PREREQUISITE: CHum 100R or 200 or word processing experience.
DESCRIPTION: Applying computer technology to academic publishing in print media; journals, newsletters, textbooks, and other scholarly publications.

CHUM 240 : Databases for the Humanities. (3:3:0)

OFFERED: On demand.
PREREQUISITE: CHum 200 or C S 100 or equivalent experience.
DESCRIPTION: Design and use of relational databases, oriented toward humanities and linguistic applications.

CHUM 290R : Current Topics and Issues. (1-3:Arr:Arr)
PREREQUISITE: Instructor's consent.
DESCRIPTION: Individual or group study of current issues and developments in humanities computing. Extended readings; research or project required.

(with coordinator approval)

2. Complete 3 credit hours of the following advanced courses:

CHUM 310 : Instructional Applications Programming 2. (3:3:0)
OFFERED: W
PREREQUISITE: CHum 210.
DESCRIPTION: Advanced applications of computer technology to teaching: integrating digital graphics, sound, and video; hypertext and hypermedia; computer-based testing; network applications.

CHUM 330 : Print Publishing 2. (3:3:0)
OFFERED: W
PREREQUISITE: CHum 230.
DESCRIPTION: Advanced application of computer technology to academic publishing in print media: books, journals, and supporting scholarly publications.

CHUM 345 : Web Databases. (3:3:0)
OFFERED: W
PREREQUISITE: CHum 240 or 250.
DESCRIPTION: Using advanced Internet applications and services to create dynamic, database-driven Web sites. Integrating database methods with Internet publishing approaches and principles. Techniques for Web-based applications like address books, discussion forums, surveys and adaptive quizzes, secure group/class sites, and user-maintained content.

CHUM 355 : Text Encoding and Markup. (3:3:0)
OFFERED: W
PREREQUISITE: CHum 250 or 260.
DESCRIPTION: Principles of markup languages (SGML, XML, etc.) and encoding standards for academic content. Practical experience encoding, processing, and delivering marked-up data.

CHUM 360 : International Software and Text Processing. (3:3:0)
OFFERED: W
PREREQUISITE: CHum 220 or equivalent experience.
DESCRIPTION: Developing international software that can be available in English and other languages. Globalization, internationalization, localization, Unicode, fonts, multilingual user interfaces, and working with foreign language texts.

CHUM 390R : Current Topics and Issues. (1-3:Arr:Arr)
PREREQUISITE: Instructor's consent.
DESCRIPTION: Individual or group study of current issues and developments in humanities computing. Extended readings; research or project required.

(with coordinator approval).

3. Complete 3 credit hours of project/integrative/capstone courses:

CHUM 450R : Internet Publishing Project. (3:Arr:Arr)
PREREQUISITE: CHum 345 or 355 or instructor's consent (depending on project).
DESCRIPTION: Applying Internet publishing principles to a substantial development project. Students work as a group with faculty advisors/mentors.

CHUM 489R : Humanities Computing Project. (.5-3:ARR:0)
OFFERED: F, W
PREREQUISITE: Any 300-level computers in the humanities course.
DESCRIPTION: Applying principles from other courses to a substantial research or development project. Students work individually with faculty and technical advisors.

CHUM 490R : Current Topics and Issues. (1-3:ARR:Arr)
PREREQUISITE: Instructor's consent.
DESCRIPTION: Individual or group study of current issues and developments in humanities computing. Extended readings; research or project required.

(with coordinator approval).

CHUM 496R : Academic Internship. (1-3:0:0)

PREREQUISITE: CHum 300-level course or equivalent experience.

DESCRIPTION: On-the-job experience in publishing production (print or electronic), courseware/software development, museum/collection/textbase management, language/linguistics research or other application of computers in the humanities.

A project/internship/capstone course in the student's major involving substantial computer work may also be used. See the Humanities Advisement Center.

Note: Students without basic computer literacy should take CHum 100 or CHum 200 or C S 100 before beginning the minor.

OFFERED: F, W, Su
DESCRIPTION: Processes of academic writing, reading, and research for international students who have English as their second language.
NOTE: Fulfills GE First-Year Writing requirement.

200-Level Courses

ELANG 223 : Introduction to the English Language. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Overview of English from linguistic point of view, emphasizing structure of English and social, biological, and psychological aspects of language.

ELANG 273 : Empirical Methods in English Linguistics. (3:3:0)
OFFERED: F, W
PREREQUISITE: ELang 223 or concurrent enrollment.
DESCRIPTION: The use of large collections of texts for teaching and particularly for research, including the study of many different types of linguistic variation.

300-Level Courses

ELANG 322 : Modern American Usage. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: ELang 223 or Ling 330.
DESCRIPTION: Current conventions and effective use of American English.

ELANG 324 : History of the English Language. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: ELang 223 or Ling 330.
DESCRIPTION: Basic changes from Old English to modern English, including modern American dialects.

ELANG 325 : The Grammar of English. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: ELang 223 or Ling 330.
DESCRIPTION: Study of English grammar in various applications.

ELANG 326 : English Semantics and Pragmatics. (3:3:0)
OFFERED: F, W
PREREQUISITE: ELang 223 or Ling 330.
DESCRIPTION: Structure of meaning in words, phrases, and discourse. Lexical semantics and the mental lexicon; phrase-level meaning; interaction of situation and meaning.

ELANG 327 : English Phonetics and Phonology. (3:3:0)
OFFERED: W
PREREQUISITE: ELang 223 or Ling 330.
DESCRIPTION: Pronunciation, perception, and interaction of English speech sounds. Dialect variation.

ELANG 350 : Basic Editing Skills. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: ELang 322, 325.
DESCRIPTION: Editing theory and practice, emphasizing copy editing and basic line editing.

ELANG 351R : Editing Student Journals. (1-2:0:ARR)
OFFERED: F, W, Sp
DESCRIPTION: Hands-on training and experience in all aspects of editing and publishing student journals.

ELANG 362 : Discourse Analysis. (3:3:0)
PREREQUISITE: ELang 223 or Ling 330.
DESCRIPTION: Linguistic analysis of connected speech or written discourse, especially larger linguistic units above the clause level, such as conversational exchanges or written texts.

ELANG 399R : Academic Internship: Editing and English Language. (1-9:0:0)
OFFERED: F, W, Sp

400-Level Courses

ELANG 410R : Genre and Substantive Editing. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: ELang 322, 325.
DESCRIPTION: Exploring a different genre of publishing each semester, instruction in substantive editing.

ELANG 421R : Studies in Language or Editing. (3:3:0)
PREREQUISITE: ELang 223.
DESCRIPTION: Topics vary.

ELANG 430R : Editing for Publication. (1-3:ARR:0)
OFFERED: F, W, Sp
PREREQUISITE: ELang 350, 410R; Chum 230.
DESCRIPTION: Refining copy editing and substantive editing skills through hands-on work with actual publications; one-on-one feedback and mentoring.

ELANG 468 : Varieties of English. (3:3:0)
PREREQUISITE: ELang 223 or Ling 330.
DESCRIPTION: Regional and social variation in English, especially standard and nonstandard national and world Englishes such as English-based pidgins and creoles.

ELANG 495R : The Senior Course. (3:3.0:0.0)
PREREQUISITE: Senior status; English language major status.
DESCRIPTION: In-depth study of a limited area of English language. Content varies; requires research and writing.

500-Level Graduate Courses (available to advanced undergraduates)

ELANG 521R : Studies in Language. (3:3:0)
PREREQUISITE: ELang 223 or equivalent.
DESCRIPTION: Topics vary.

: English Spelling.

ELANG 522 : Language Policy and Planning in English Language Contexts. (3:3:0)
PREREQUISITE: ELang 223 or Ling 330 or equivalent.
DESCRIPTION: Theories and practices of governing entities as they formulate policies relating to the status and codification of the English language.

ELANG 524 : History of the Book. (3:3:0)
DESCRIPTION: History and development of the book, including modern methods and practices.

ELANG 525 : Old English 1. (3:3:0)
OFFERED: F odd years.
PREREQUISITE: ELang 223, 324; or equivalents.
DESCRIPTION: Old English grammar and vocabulary; traditional syntactical patterns in various types of Old English prose and poetry.

ELANG 526 : Middle English. (3:3:0)
OFFERED: F even years.
PREREQUISITE: ELang 223, 324; or equivalents.
DESCRIPTION: Detailed study of the principal dialects of Middle English, as illustrated in the literature of the period.

ELANG 527 : Early Modern English. (3:3:0)
OFFERED: W
PREREQUISITE: ELang 223, 324; or equivalents.
DESCRIPTION: English language from about 1500 to 1800, with special emphasis on language of Shakespeare and the King James Bible.

ELANG 528 : Varieties of English. (3:3:0)
PREREQUISITE: ELang 223, 324; or equivalents.
DESCRIPTION: Regional and social variation in English, especially standard and nonstandard national and world Englishes, including English-based pidgins and creoles.

ELANG 529 : Structure of Modern English. (3:3:0)
OFFERED: Sp on demand.
PREREQUISITE: ELang 325, or instructor's consent.
DESCRIPTION: English syntax through modern grammars; theories underlying those grammars.

ELANG 535 : Language and Literature. (3:3:0)
OFFERED: Sp on demand.
PREREQUISITE: ELang 223 or Ling 330 or equivalent.
DESCRIPTION: Literature from a language perspective; applying linguistic constructs to literary language; examining literary style; linguistic analysis of unfamiliar texts.

ELANG 548 : Old English 2. (3:3:0)
PREREQUISITE: ELang 525.
DESCRIPTION: Additional reading in Old English, emphasizing sound changes, dialects, and textual production.

Undergraduate Courses

200-Level Courses

LING 230 : Language, Mind, and the World. (3:3:0)
OFFERED: F, W
DESCRIPTION: Broad overview of language as the medium that makes thinking, understanding, communications, and teaching possible.

LING 299R : Academic Internship: English Language Teaching. (1-9:0:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Ling 377R.
DESCRIPTION: Students with focused training teach specific English skills to speakers of other languages in the U.S. or abroad.

300-Level Courses

LING 330 : Introduction to Linguistics (Modern). (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Basic understanding of linguistic systems. Phonology, morphology, syntax, semantics, and pragmatics.

LING 377R : Basic Training in TESOL. (1-3:ARR:ARR)
OFFERED: On demand.
PREREQUISITE: Planned participation in IAS- or U.S.-based English teaching experience.
DESCRIPTION: Basic preparation to teach English to speakers of other languages in particular settings.
NOTE: Especially for international service volunteers who plan to teach ESL or EFL.

LING 399R : Academic Internship: Linguistics. (.5-9:0:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Program coordinator's consent.
DESCRIPTION: On-the-job experience and education related to linguistics.

400-Level Courses

LING 420 : Phonetics. (3:3:0)
OFFERED: F, W
PREREQUISITE: Ling 330.
DESCRIPTION: General inventory of speech sounds possible in language, from both an acoustic and articulatory point of view.

LING 427 : Phonology and Morphology. (3:3.0:0)
OFFERED: F
PREREQUISITE: Ling 330 or ELang 223.
DESCRIPTION: Introduction to phonology and morphology in the world's languages emphasizing the analysis of English.

LING 430 : Theoretical Syntax. (3:3:0)
OFFERED: F, W
PREREQUISITE: ELang 223 or Ling 330.
DESCRIPTION: Theoretical comparison and contrast of different sentence types. Methods of argument to develop and critique generative theories of lexical categories, grammatical roles, and syntactic structure.

LING 441 : Language Acquisition in TESOL. (2:2:0)
OFFERED: F
PREREQUISITE: ELang 223.
DESCRIPTION: Understanding fundamental theories and processes of first and second language acquisition. How teachers can enhance language learning in English as a second or foreign language.

LING 450 : Introduction to Historical-Comparative Linguistics. (3:3:0)
OFFERED: W, Su
PREREQUISITE: Ling 330 or ELang 223.
DESCRIPTION: Theory and method of language change via comparison of daughter languages and reconstruction of their ancestral language: phonological, morphological, semantic, and lexical.

LING 461 : Language Assessment in TESOL. (2:2:0)
OFFERED: W
PREREQUISITE: ELang 223, Ling 441; Ling 477 or concurrent enrollment.
DESCRIPTION: Understanding key issues in language testing, writing good language tests and test items, and completing basic test and item analyses.

LING 473 : Literacy Development in TESOL. (2:2:.5)

academic journals.

Students have the opportunity to take part in any or all of these programs during their time at BYU to improve their abilities to communicate effectively in their own disciplines and across the curriculum.

First-Year Experience

2006 JKB
(801) 422-4243
Email: fye@byu.edu

The First-Year Experience Office (FYE) facilitates coordination of all university efforts that have an impact on new students. This includes helping new students develop habits of the mind to deepen and enrich their BYU experience, establish personal connections, find their way around campus, develop an awareness of available campus resources, and improve their sense of purpose and motivation by increasing their understanding of BYU's heritage and history. These efforts span the time between students' first contact with BYU and the end of their first year on campus.

Before students arrive at BYU, FYE coordinates projects that provide students and their parents with information through Web sites and e-mail. In collaboration with other university units, the office provides additional information and links about campus resources through mailings to new students (freshman and transfer), local firesides, and individual telephone contact. When students first arrive on campus, FYE—assisted by representatives from key university areas in a campus-wide undertaking—coordinates New Student Orientation to facilitate personal contact, an introduction to campus locations, campus life activities, advisement, and mentoring by peers and university faculty and staff. Throughout the student's first year, FYE provides additional transition assistance through Freshman Academy (see below), freshman seminars, peer mentoring, and other First-Year events. The seminars (Univ 101, together with Honrs 100) provide an opportunity for incoming students to have sustained engagement with a faculty member on an academic subject in a small-group context.

UNIV 101 : Freshman Seminar. (.5-2:Arr:Arr)

Freshman Academy

Director: Patricia B. Esplin
Associate Director: Fred Pinnegar
2014 JKB
(801) 422-8176 or 1-877-890-5451
frac@byu.edu

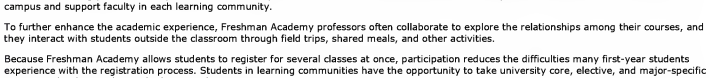
Freshman Academy is a one-semester learning communities program designed to integrate first-year students into the life of the university and connect them with campus resources. Relatively small groups of students take the same set of three or more classes together and may live near each other in residence halls. (Options for students who live off-campus are also available). Participation in Freshman Academy gives students an immediate sense of community and involvement in the life of the university.

Freshman Academy learning communities are a *mentored environment* in which upper-division students serve as peer mentors. These peer mentors, many of them former participants in the program, encourage students to adopt good learning habits, help them form study groups, and model successful learning practices. The peer mentors also help students connect with the cultural, academic, spiritual, and social resources available on campus and support faculty in each learning community.

To further enhance the academic experience, Freshman Academy professors often collaborate to explore the relationships among their courses, and they interact with students outside the classroom through field trips, shared meals, and other activities.

Because Freshman Academy allows students to register for several classes at once, participation reduces the difficulties many first-year students experience with the registration process. Students in learning communities have the opportunity to take university core, elective, and major-specific courses with other students who have similar interests.

The figure below is an example of a learning community composed solely of courses meeting university core requirements:



The next figure illustrates a learning community created for students with a particular major in mind. It combines university core and major courses:

OFFERED: W
PREREQUISITE: ELang 223, Ling 441.
DESCRIPTION: Understanding basic processes of literacy development in English as a second or foreign language. How knowledge of these processes informs classroom literacy instruction and practices.

LING 477 : Methods and Strategies in TESOL. (3:3:.5)
OFFERED: F, Sp
PREREQUISITE: ELang 223; Ling 441 or concurrent enrollment.
DESCRIPTION: Instructional methods and strategies for teaching English as a second or foreign language. Overview of curriculum development for teaching listening, speaking, reading, and writing.

LING 478 : Language Teaching Methods: MTC. (3:3:0)
OFFERED: F, W
PREREQUISITE: ELang 223.
DESCRIPTION: Instructional methods and strategies for teaching second and foreign languages at the Missionary Training Center (MTC).

LING 480 : Problems in Translation. (3:3:0)
OFFERED: F
PREREQUISITE: Proficiency in a second language.
DESCRIPTION: History, theory, and practice of human and machine translation.

LING 485 : Corpus Linguistics. (3:3:0)
PREREQUISITE: Ling 330, ELang 223, or ELang 273.
DESCRIPTION: Using large collections of texts for teaching and particularly for research, including many types of linguistic variation

LING 490 : Senior Seminar. (3:3:0)
OFFERED: F, W
PREREQUISITE: Ling 330.
RECOMMENDED: Ling 420, 427, 430, 450.
DESCRIPTION: Reading and discussing major issues in linguistics, writing a senior paper, and reviewing content of core courses.

LING 496R : Academic Internship: TESOL. (.5-9:0:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: ELang 223, Ling 441, 473, 477.
DESCRIPTION: Individualized work or volunteer experience in a domestic or international setting.
NOTE: International internships must be coordinated through International Study Programs. All internships require prior departmental approval.

500-Level Graduate Courses (available to advanced undergraduates)

LING 500 : Introduction to Research in TESOL. (3:3:0)
OFFERED: F
PREREQUISITE: Admission to TESOL graduate certificate or language acquisition MA program.
DESCRIPTION: Research questions in language teaching and learning, literature review, research design, data collection, and interpretation. Understanding research methods as used in others' studies.

LING 521 : Phonology. (3:3:0)
OFFERED: W
PREREQUISITE: Ling 330.
DESCRIPTION: Distinctive values of speech sounds: their function in the communicative process. Analysis of phonological data via postulation of underlying forms and derivational rules.

LING 535 : Semantics. (3:3:0)
OFFERED: F
PREREQUISITE: Ling 330.
DESCRIPTION: Theory and practice of semantic analysis with special emphasis on Jakobsonian and Peircean semiotics.

LING 540 : Language Acquisition. (3:3:0)
OFFERED: F, W
PREREQUISITE: Ling 330 or equivalent.
DESCRIPTION: First- and second-language acquisition viewed in light of psycholinguistics and sociolinguistics.

LING 545 : Psycholinguistics. (3:3:0)
OFFERED: W
PREREQUISITE: ELang 223 or Ling 330 or equivalent.
DESCRIPTION: How the mind interprets, stores, retrieves, and produces language. Anatomical structures and physiological processes of the brain dealing with language.

LING 550 : Sociolinguistics. (3:3:0)
OFFERED: W
DESCRIPTION: Research and theory in anthropological linguistics and sociolinguistics.

LING 551 : Anthropological Linguistics. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Language in culture and society: development, typology, and description.

LING 555 : Teaching Culture. (3:3:0)
OFFERED: Sp
DESCRIPTION: What culture is, how it affects language learners and teachers, and development of U.S. lifestyle patterns.

LING 558 : Historical-Comparative Linguistics. (3:3:0)
OFFERED: F
PREREQUISITE: Ling 450 or equivalent.

LING 577 : TESOL Methods and Materials. (4:4:1)
OFFERED: F
PREREQUISITE: ESL 404 or native English speaker.
DESCRIPTION: Foundation course surveying concepts, procedures, and techniques in second/foreign language teaching methodology and materials selection. Includes observing actual classes and participating in a mentored teaching practicum.

LING 579 : TESOL Student Teaching. (3:0:8)
OFFERED: W
PREREQUISITE: Ling 577 and departmental consent.
DESCRIPTION: Sustained and supervised practice teaching at the English Language Center.

LING 580R : Problems in Linguistics and Applied Linguistics. (1-3:3:0)
OFFERED: On demand
DESCRIPTION: Advanced research in language acquisition, sociolinguistics, psycholinguistics, linguistics field study, applied linguistics.

LING 581 : Natural Language Processing. (3:3:0)
OFFERED: F
PREREQUISITE: Good programming skills in at least one language (preferably LISP, Prolog, C, C++, Perl, or Java) and a knowledge of basic, discrete math. Upper-division linguistics/computers and the humanities students with less programming experience may enroll with instructor`s consent.
DESCRIPTION: Intensive overview of natural language processing, including computational techniques, hands-on experience with linguistic technologies and corpora, language modeling approaches, and readings from current research.

LING 590R : Readings in Linguistics. (1-3:ARR:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: instructor's consent.
DESCRIPTION: Individual study of current linguistic literature. Occasional discussion sessions with instructor and other class members.
NOTE: Pass/fail grade only.

LING 595 : (Ling-FLang) Research Design in TESOL. (1:2:0)
OFFERED: Sp
PREREQUISITE: Ling 500; admission to TESOL MA (thesis option) or language acquisition MA program; preliminary draft of rationale and review of literature for MA thesis.
DESCRIPTION: Research design options for examining language acquisition and teaching. Designing research and writing the third chapter of the MA thesis.
NOTE: Students may enroll concurrently for up to 2 hours of Ling 699R (thesis) credit.

LING 596 : Research Design in Linguistics. (1:2:0)
PREREQUISITE: Admission to linguistics MA program.
DESCRIPTION: Research options in linguistics. Selecting thesis topic and writing first chapters of MA thesis.
NOTE: Students may enroll concurrently for up to 2 hours of Ling 699R (thesis) credit.

LING 599R : Academic Internship: Linguistics. (1-9:9:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: On-the-job experience under faculty supervision, with department approval.

Teaching English to Speakers of Other Languages

The Discipline

Preparation to teach English to speakers of other languages involves multidisciplinary course work in a number of areas, including linguistics, language acquisition, language assessment, and teaching methods and materials. The TESOL minor is designed to prepare teachers of English as a second or foreign language in general and offers students the flexibility to choose an emphasis in keeping with their professional interests. (The David O. McKay School of Education offers a minor which leads to an ESL endorsement. See Teaching English Language Learners)

Career Opportunities

TESOL minors are qualified for many overseas positions teaching English as a foreign language. They may also work in various ESL programs in the United States and other English-speaking countries. Possible teaching settings include adult community ESL classes, intensive English programs, and English for special purposes such as business or health.

Program Requirements

1. Complete the following:

ELANG 223 : Introduction to the English Language. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Overview of English from linguistic point of view, emphasizing structure of English and social, biological, and psychological aspects of language.

LING 441 : Language Acquisition in TESOL. (2:2:0)
OFFERED: F
PREREQUISITE: ELang 223.
DESCRIPTION: Understanding fundamental theories and processes of first and second language acquisition. How teachers can enhance language learning in English as a second or foreign language.

LING 461 : Language Assessment in TESOL. (2:2:0)
OFFERED: W
PREREQUISITE: ELang 223, Ling 441; Ling 477 or concurrent enrollment.
DESCRIPTION: Understanding key issues in language testing, writing good language tests and test items, and completing basic test and item analyses.

LING 473 : Literacy Development in TESOL. (2:2:.5)
OFFERED: W
PREREQUISITE: ELang 223, Ling 441.
DESCRIPTION: Understanding basic processes of literacy development in English as a second or foreign language. How knowledge of these processes informs classroom literacy instruction and practices.

LING 477 : Methods and Strategies in TESOL. (3:3:.5)
OFFERED: F, Sp
PREREQUISITE: ELang 223; Ling 441 or concurrent enrollment.
DESCRIPTION: Instructional methods and strategies for teaching English as a second or foreign language. Overview of curriculum development for teaching listening, speaking, reading, and writing.

2. Complete one course from the following:

CHUM 210 : Instructional Applications Programming 1. (3:3:0)
OFFERED: F, W
PREREQUISITE: CHum 100R or 200 or computer experience.
DESCRIPTION: Applying computer technology to teaching: designing, authoring, and evaluating computer-based instructional materials for lab and classroom use.
NOTE: Recommended for teaching majors and minors.

ELANG 325 : The Grammar of English. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: ELang 223 or Ling 330.
DESCRIPTION: Study of English grammar in various applications.

3. Complete 3 hours of the following:

LING 496R : Academic Internship: TESOL. (.5-9:0:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: ELang 223, Ling 441, 473, 477.
DESCRIPTION: Individualized work or volunteer experience in a domestic or international setting.
NOTE: International internships must be coordinated through International Study Programs. All

internships require prior departmental approval.

Many Freshman Academy students receive priority placement in on-campus housing, allowing them to live near other students from their learning community. These residency provisions make it easier for students to form study groups, work on projects, and develop long-lasting relationships. Contact Residence Life at http://www.byu.edu/housing/oncampushousing/ to apply for on-campus housing. In addition to class-related activities, Freshman Academy learning communities socialize, attend cultural events, and participate in service-learning projects together. All of these activities contribute to the individual student's achievement of the academic and spiritual aims of a BYU education.

Participation in a Freshman Academy learning community helps students become aware of the responsibilities they owe to themselves and to others. It is a serious commitment, and the program expects students to be true to their word, to attend and participate in classes, to work collaboratively with fellow students, to respect the dignity and individuality of others, and to respond to the spiritual and temporal needs of individuals and communities. By interacting with others in these ways and taking responsibility for their own learning, Freshman Academy students develop the attributes of responsible and engaged citizens.

Participants in the Freshman Academy program reflect the composition of the entire BYU freshman class in the distribution of majors and levels of academic preparation. A few learning communities are composed entirely or partially of honors-designated courses for highly-prepared and motivated students. All first-semester students are encouraged to participate in Freshman Academy during either the fall or winter semesters or summer term.

For more information about Freshman Academy and to view learning community options, please visit http://academy.byu.edu.

Prestigious Scholarships and Fellowships

The Office of Prestigious Scholarships and Fellowships assists students in finding and applying for major externally funded scholarships and fellowships for undergraduate and graduate study (e.g., National Science Foundation, Fulbright, Rhodes, Goldwater, Truman, etc.) and scholarships for research opportunities, summer programs, and study abroad. Students are encouraged to review the online information describing each scholarship at www.byu.edu/scholarships. For more information contact Carolyn Tuitupou in 102B MSRB or e-mail prestigious_scholarships@byu.edu.

Admission to Degree Program

The degree programs in the Marriott School of Management carry special enrollment limitations. Please see the advisement center for specific details.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Majors

BS in Management

Emphases:

General Business
Entrepreneurship
Finance
Global Supply Chain Management
Marketing Management
Organizational Behavior/HR Management
Strategy

Minors

Management
Strategy

Certificates

Global Management

For information on accounting or information systems degrees, see School of Accountancy or Information Systems Department.

Students should see their college advisement center for help or information concerning the undergraduate programs.

Graduate Programs and Degrees

MAcc in Professional Accountancy
MAcc in Tax
MBA in Business Administration
MISM in Information Systems Management
MPA in Public Administration

Individual program brochures are available from the Marriott School of Management, 730 TNRB, Brigham Young University, Provo, UT 84602-3113. Also refer to the BYU 2008–2009 Graduate Catalog.

Engineering/Technology Management Degree Program

See Marriott School of Management in the BYU 2008-2009 Graduate Catalog and the Ira A. Fulton College of Engineering and Technology Advisement Center.

The Discipline

Courses are designed to create opportunities for students to develop and apply their analytical and decision-making abilities. For this reason, the Marriott School programs make extensive use of faculty expertise, case studies, student projects, and internships.

Career Opportunities

Specific job descriptions are many and varied. Some examples are: banker, consultant, financial analyst, credit analyst, real estate developer, financial planner, human resource specialist, employee benefit specialist, personnel officer, business systems consultant/analyst, sales representative, account executive, research specialist, marketing analyst, management trainee, buyer, merchandiser, production manager, technical sales person, inventory manager, logistics manager, materials supervisor.

General Information

This is a limited-enrollment program requiring departmental admissions approval. Please see the college advisement center for information regarding requirements for admission to this major.

Students are encouraged to apply to the Marriott School of Management during their sophomore year, as soon as they have completed the pre-management core courses.

Because of controlled enrollments in management programs, the competition for acceptance is keen. Those choosing to enter these majors should decide early, plan their schedules carefully, be aware of all the requirements, and stay informed about any changes by checking often with the Marriott School of Management Advisement Center.

Students interested in management as a major must make application for the management major. A separate application to the School of Accountancy or Information Systems Department is necessary for those seeking an accounting or information systems major. Students not accepted into the program should work closely with advisement personnel to select a new major outside the Marriott School.

Requirements for application are:

1. Cumulative GPA must be at least 3.0 in the pre-management courses, with no more than one repeat for each class. No grade lower than a C- will be acceptable.
   Not every student meeting the minimum requirements is guaranteed acceptance into the undergraduate program.

2. Demonstrate a knowledge of computer skills, including PowerPoint and spreadsheet analysis.
   Students may demonstrate PowerPoint and spreadsheet skills with either a minimum grade of B in an equivalent transfer course or a P grade in I Sys 100 and 101.

BS in Management: General Business Emphasis (63-64 hours*)

Show All Course Descriptions
Hide All Course Descriptions

This is a limited-enrollment program requiring departmental admissions approval. Please see the college advisement center for information regarding requirements for admission to this major.

The general business, or open, emphasis is available to students wishing to design their own program to meet specific goals such as working in a family business or preparing for a graduate program.

Program Requirements | View MAP

1. No more than 12 semester hours of upper-division transfer credit will be accepted toward the major and only 6 hours beyond the Integrated Management Core. No transfer courses will be accepted for the Integrated Management Core courses.

2. Only courses sufficient for a single emphasis are permitted.

3. Complete the following Premanagement Core Courses:

ACC 200 : Principles of Accounting. (3:3:0)
- DESCRIPTION: Financial and managerial accounting principles. Basic accounting statements, processes, and management applications. Open to all students.
- NOTE: Independent Study also.

ECON 110 : Economic Principles and Problems. (3:3:0)
- OFFERED: F, W, Sp, Su
- DESCRIPTION: Strengths and weaknesses of markets and governments for solving problems of social organization or conflict, including policy response to inflation, unemployment, pollution, poverty, growth, etc.

I SYS 100 : Computer Spreadsheet Skills. (.5:0:1)
- OFFERED: F, W, Sp, Su
- DESCRIPTION: Basic computer skills, focusing on spreadsheet and database programs. No technical background necessary.
- NOTE: Fee.

I SYS 101 : Computer Presentation Skills. (.5:0:1)
- OFFERED: F, W, Sp, Su
- DESCRIPTION: Basic computer skills focusing on developing presentations. No technical background necessary.
- NOTE: Fee.

MATH 119 : Introduction to Calculus. (4:4:1)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 110 or equivalent.
- DESCRIPTION: Introduction to plane analytic geometry and calculus.
- NOTE: For students in the College of Life Sciences and the Marriott School of Management.

STAT 221 : Principles of Statistics. (3:3:2)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 110 or equivalent.
- DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
- NOTE: Honors and Independent Study also.

Note 1: Premanagement Core courses must be completed or in concurrent process of being completed before a student enrolls in Management Core 1 courses.

Note 2: Before registering for Management Core 1 courses, students must complete and submit the "continuance" form to the college advisement center. Based on student performance to date, permission may be granted to take some restricted major-only Management Core 1 courses.

4. Apply and be formally accepted into the program.

5. Complete the following Management Core 1 courses:

ACC 210 : Principles of Accounting 2. (3:3:0)
- PREREQUISITE: Acc 200.
- DESCRIPTION: Additional issues in financial and managerial accounting. Review of issues related to balance sheet accounts, performance evaluation and capital budgeting.
- NOTE: For Marriott School of Management students only.

BUS M 301 : Financial Management. (3:3:1.5)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Premanagement and Management cores and full acceptance into the Marriott School upper-division major.
- DESCRIPTION: Financial management from the viewpoint of the business manager emphasizing profitability, liquidity, and long-range financial planning.

BUS M 320 : Career Orientation and Preparation. (.5:1:0)
- OFFERED: F, W, Sp
- PREREQUISITE: Acceptance into Marriott School.
- DESCRIPTION: Student orientation and preparation for careers in management.
- NOTE: Must be taken first semester in Marriott School.

BUS M 321 : Mentor Program. (.5:0:0)
- OFFERED: F, W, Sp
- PREREQUISITE: Acceptance into Marriott School.
- DESCRIPTION: Discussions with outside mentor about career opportunities.
- NOTE: Must be taken first semester in Marriott School.

I SYS 201 : Introduction to Management Information Systems. (3:3:1)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: I Sys 100, 101, and declared business major.
- DESCRIPTION: Using technology to solve business problems. Hands-on spreadsheet, database, and Internet software in a business context.

M COM 320 : Communication in Organizational Settings. (3:3:1)
- OFFERED: F, W, Sp, Su; Honors also.
- PREREQUISITE: GE First-Year Writing requirement. To be taken before senior year. Not for freshmen.
- DESCRIPTION: Developing written and oral communications for professional organizations, including composing and designing employment communications. Incorporates oral presentations.
- NOTE: Fulfills GE Advanced Written and Oral Communication requirement.

Note: Management Core 1 courses must be completed or in concurrent process of being completed before a student enrolls in the Integrated Management Core

6. Complete the following Integrated Management Core courses:

BUS M 341 : Marketing Management. (3:3:0)
- OFFERED: F, W, Sp
- PREREQUISITE: Premanagement and Management I cores and full acceptance into the Marriott School upper-division major.
- DESCRIPTION: Market segmentation, product service, promotion, channel, pricing strategies. Marketing principles in consumer and industrial markets, profit and nonprofit organizations, domestic and international companies, and small and large firms.

BUS M 361 : Supply Chain, Services, and Operations Management. (3:3:0)
- OFFERED: F, W, Su
- PREREQUISITE: Premanagement and Management 1 cores and full acceptance into the Marriott School upper-division major.
- DESCRIPTION: Control and coordination of materials and services from point of origin to final point of consumption to meet customer needs efficiently.

BUS M 390 : Ethics for Management. (3:3:0)
- OFFERED: F, W, Sp
- PREREQUISITE: Management Core.
- DESCRIPTION: Analyzing ethical dilemmas and understanding ethical theories as they apply to decision making in

management.

ORG B 321 : Organizational Effectiveness. (3:2:2)
OFFERED: F, W, Su
PREREQUISITE: For Marriott School of Management majors only.
DESCRIPTION: Theories and concepts for creating effective organizations, e.g., individual, group, and organizational processes and human resource functions, including selection, compensation, and performance management.

And complete one course from the following:

MANEC 300 : Economics of Market Systems. (3:3:0)
OFFERED: F, W; Independent Study also.
PREREQUISITE: Econ 110.
DESCRIPTION: Decision making, price formation, and economic organization of the firm in market environments.

MANEC 358 : International Economics. (3:3:0)
OFFERED: F
PREREQUISITE: Econ 110.
DESCRIPTION: International trade theory and issues, economic integration, trade and development, contemporary trade problems.

MANEC 376 : Government and Business. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Econ 110.
DESCRIPTION: Interaction of political and economic forces in determining product and asset prices and the distribution of income and wealth.

MANEC 387 : Economics of Strategy. (3:3:0)
OFFERED: F, W
PREREQUISITE: Major status.
DESCRIPTION: Economic tools influencing the success of strategy (creation and appropriation of value) emphasizing application of economic theory to management of practice.

7. Complete the following additional courses:
ACC 241 : Business Law in the Environment. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Marriott School of Management major status.
DESCRIPTION: Introduction to legal principles and institutions affecting business.

And complete one course from the following:

BUS M 371R : Entrepreneurship Lecture Series. (1:1:0)
OFFERED: F, W, Sp
DESCRIPTION: Lectures by successful entrepreneurs on subjects significant to entrepreneur-type opportunities.

: Marriott School Lecture Series.
: Women Entrepreneurs.

BUS M 380 : Executive Lectures. (1:1:0)
OFFERED: F
DESCRIPTION: Lectures by top executives on subjects significant to executive leadership.

BUS M 382 : Financial Services Lecture Series. (1:1:0)
OFFERED: W
DESCRIPTION: Lectures by executives on financial services topics.

BUS M 384 : E-Business Lecture Series. (1:1:0)
OFFERED: F, W
DESCRIPTION: Lectures by e-business leaders on subjects significant to e-business-type opportunities.

And complete one course from the following:

MANEC 301 : Macroeconomics for Business Decisions. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Econ 110.

DESCRIPTION: Models of aggregate economic fluctuations, economic growth, inflation, and interest rates.

MANEC 453 : Money, Banking, and Business. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: BusM 301 or accounting junior core.
DESCRIPTION: Economic analysis of effects of money, banking, and financial institutions on business decisions and aggregate economic activity.

8. Complete the following after the integrated management core has been completed:
BUS M 498 : Strategic Management. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Bus M 301; major status.
DESCRIPTION: Concepts, tools, and approaches to understand competitive forces and to systematically and consistently develop sustainable competitive advantages.

9. Complete four Marriott School 300- and 400-level major courses that meet specific student needs (except Bus M 371R, 372, 380, 382, 384).

10. Complete Marriott School exit survey online.

*Hours include courses that may fulfill university core requirements.

BS in Management: Entrepreneurship Emphasis (66-67 hours*)

Show All Course Descriptions
Hide All Course Descriptions

This is a limited-enrollment program requiring departmental admissions approval. Please see the college advisement center for information regarding requirements for admission to this major.

The entrepreneurship emphasis is designed to acquaint students with the problems commonly encountered when starting, growing, and harvesting business ventures. Emphasis is on the entrepreneurial career and perspective, not on one-shot ventures.

Program Requirements | View MAP

1. No more than 12 semester hours of upper-division transfer credit will be accepted toward the major and only 6 hours beyond the Integrated Management Core. No transfer courses will be accepted for the Integrated Management Core courses.

(801) 422-5497

Dean, Undergraduate Education: Daniel J. Fairbanks, Professor, Plant and Wildlife Sciences
Associate Dean—Honors/Honors Program Director: Madison U. Sowell, Professor, Italian and Comparative Literature
Assistant Dean, Undergraduate Education: Carolyn Tuitupou
Administrative Assistant: Shauna Barrick

Participation in Honors

The Honors Program provides an unusually rich and challenging experience for capable and motivated undergraduate students. Its purpose is to assist students as they establish lifelong patterns of learning and appreciation of the world's great treasures of knowledge. Honors education is not merely a more intensive general education or a more strenuous program in a major. Rather, it provides students with the advantages of an enriched education in a small-class setting with excellent professors, while utilizing all of the advantages of a large university. Students who pursue an honors education at Brigham Young University take honors courses that meet university core requirements; experience Great Works in literature, art, music, film, theater, and science; and participate in an intensive honors thesis experience in their major.

To graduate from BYU, students must meet not only the requirements of a major department but also the university core requirements in general education and religion. Most students complete the nonmajor requirements through courses in the general university curriculum. Because all students must complete core requirements, some required classes have high enrollments, and there is little opportunity for students to interact closely with the professors. The Honors Program invites capable and motivated students to satisfy university core requirements through honors as alternatives to the standard general and religious education programs. Honors courses have smaller enrollments (usually fewer than 30 students per class) and are focused on class discussion and writing.

University Honors is a distinction awarded to all graduates of BYU who have met the honors requirements as described below. This prestigious designation is recorded on the university diploma, on the official transcript of grades, and in the graduation program. It is widely recognized as an indication of exceptional academic achievement. Although it is hoped that students will choose to complete all of the requirements for the University Honors designation, those who do not intend to do so are welcome to participate in the Honors Program to whatever extent they choose. All students are invited to consider honors as a way to achieve the quality academic experiences they seek. Students may register for honors courses at any time during their undergraduate years without necessarily intending to complete all the honors graduation requirements.

Honors education is open to all students who choose to participate. Students who intend to graduate with University Honors must complete an enrollment form that may be obtained from the Honors Advisement Center in 102A Maeser Building (MSRB).

Facilities and Opportunities Available to Honors Students

The Honors Program is housed in the historic Maeser Building on the southwest part of campus. This quiet corner is surrounded by beautiful grounds and wooded areas. The building is named after Karl G. Maeser, the first principal of Brigham Young Academy (the school that later became Brigham Young University). A bronze statue of Karl G. Maeser stands at the building's east entrance. Constructed in 1911, the Maeser Building is the oldest building on the current campus. The building was restored in 1985 with modern electrical and ventilation systems but retains its historic architecture and decoration, its marble halls richly appointed with oak and brass trim.

Facilities for honors students in the Maeser Building include the Honors Reading Room in 150 MSRB, with study tables and a small library of reference works and classics; the Honors Student Lounge in 102 MSRB, where students can meet for informal discussions; an art gallery in the lower-floor hall; the Honors Advisement Center in 102A MSRB, where students receive counseling about their honors education; and the Martha Jane Knowlton Coray Lecture Hall in 321 MSRB, where classes, lectures, and musical concerts are held. Another Honors Reading Room is located in 3770 Harold B. Lee Library.

Students who have completed an enrollment for and who are active participants in the Honors Program are eligible for reduced-rate admission to selected musical and theatrical performances, some of which include visiting performers of international renown. They also have priority registration privileges for honors courses. The Honors Program sponsors lectures, concerts, symposia, and socials. Students can also participate in intercampus events with honors students from other universities and colleges. Each week, on Thursdays at 11:00 a.m., during fall and winter semesters, the Honors Program sponsors honors lectures featuring a religious or academic presentation by a professor or member of the community. Students are also invited to participate with the Honors Student Advisory Council, a group of student representatives who assist in policy development, social activities, and academic functions of the Honors Program.

Who Should Participate in Honors?

The characteristics that best define honors students are motivation and a strong desire to obtain the most from the educational experience that BYU has to offer. Honors students seek breadth in their education by taking honors courses outside their majors. They excel in their majors by learning how to conduct research and scholarly work within their chosen fields. They usually tend to work harder and spend more time on their course work than other students, not because their courses are more difficult but because they take courses that interest them. They attend concerts, plays, films, lectures, and art and science exhibitions, and they participate in informal discussions with their professors and fellow students. Because many of their classes are small and discussion-oriented, they are personally acquainted with their professors. They become well-rounded, literate, and humane scholars whose faith in the restored gospel is strong. Their thirst for knowledge lasts a lifetime. They are not necessarily those with the highest grade-point averages or the highest standardized test scores, nor do all honors students have scholarships.

Approximately 30 percent of the BYU student body participates in honors, and students benefit thereby from an enriched education. The Honors

BS in Management: Finance Emphasis (66–67 hours*)

Show All Course Descriptions
Hide All Course Descriptions

This is a limited-enrollment program requiring departmental admissions approval. Please see the college advisement center for information regarding requirements for admission to this major.

Program Requirements | View MAP

1. No more than 12 semester hours of upper-division transfer credit will be accepted toward the major and only 6 hours beyond the Integrated Management Core. No transfer courses will be accepted for the Integrated Management Core courses.
2. Only courses sufficient for a single emphasis are permitted.
3. Complete the following Premanagement Core Courses:

ACC 200 : Principles of Accounting. (3:3:0)
DESCRIPTION: Financial and managerial accounting principles. Basic accounting statements, processes, and management applications. Open to all students.
NOTE: Independent Study also.

ECON 110 : Economic Principles and Problems. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Strengths and weaknesses of markets and governments for solving problems of social organization or conflict, including policy response to inflation, unemployment, pollution, poverty, growth, etc.

I SYS 100 : Computer Spreadsheet Skills. (.5:0:1)
OFFERED: F, W, Sp, Su
DESCRIPTION: Basic computer skills, focusing on spreadsheet and database programs. No technical background necessary.
NOTE: Fee.

I SYS 101 : Computer Presentation Skills. (.5:0:1)
OFFERED: F, W, Sp, Su
DESCRIPTION: Basic computer skills focusing on developing presentations. No technical background necessary.
NOTE: Fee.

MATH 119 : Introduction to Calculus. (4:4:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Introduction to plane analytic geometry and calculus.
NOTE: For students in the College of Life Sciences and the Marriott School of Management.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

Note 1: Premanagement Core courses must be completed or in concurrent process of being completed before a student enrolls in Management Core 1 courses.

Note 2: Before registering for Management Core 1 courses, students must complete and submit the "continuance" form to the college advisement center. Based on student performance to date, permission may be granted to take some restricted major-only Management Core 1 courses.

4. Apply and be formally accepted into the program.

5. Complete the following Management Core 1 courses:

ACC 210 : Principles of Accounting 2. (3:3:0)
- PREREQUISITE: Acc 200.
- DESCRIPTION: Additional issues in financial and managerial accounting. Review of issues related to balance sheet accounts, performance evaluation and capital budgeting.
- NOTE: For Marriott School of Management students only.

BUS M 301 : Financial Management. (3:3:1.5)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Premanagement and Management cores and full acceptance into the Marriott School upper-division major.
- DESCRIPTION: Financial management from the viewpoint of the business manager emphasizing profitability, liquidity, and long-range financial planning.

BUS M 320 : Career Orientation and Preparation. (.5:1:0)
- OFFERED: F, W, Sp
- PREREQUISITE: Acceptance into Marriott School.
- DESCRIPTION: Student orientation and preparation for careers in management.
- NOTE: Must be taken first semester in Marriott School.

BUS M 321 : Mentor Program. (.5:0:0)
- OFFERED: F, W, Sp
- PREREQUISITE: Acceptance into Marriott School.
- DESCRIPTION: Discussions with outside mentor about career opportunities.
- NOTE: Must be taken first semester in Marriott School.

I SYS 201 : Introduction to Management Information Systems. (3:3:1)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: I Sys 100, 101, and declared business major.
- DESCRIPTION: Using technology to solve business problems. Hands-on spreadsheet, database, and Internet software in a business context.

M COM 320 : Communication in Organizational Settings. (3:3:1)
- OFFERED: F, W, Sp, Su; Honors also.
- PREREQUISITE: GE First-Year Writing requirement. To be taken before senior year. Not for freshmen.
- DESCRIPTION: Developing written and oral communications for professional organizations, including composing and designing employment communications. Incorporates oral presentations.
- NOTE: Fulfills GE Advanced Written and Oral Communication requirement.

Note: Management Core 1 courses must be completed or in concurrent process of being completed before a student enrolls in the Integrated Management Core.

6. Complete the following Integrated Management Core courses:

BUS M 341 : Marketing Management. (3:3:0)
- OFFERED: F, W, Sp
- PREREQUISITE: Premanagement and Management I cores and full acceptance into the Marriott School upper-division major.
- DESCRIPTION: Market segmentation, product service, promotion, channel, pricing strategies. Marketing principles in consumer and industrial markets, profit and nonprofit organizations, domestic and international companies, and small and large firms.

BUS M 361 : Supply Chain, Services, and Operations Management. (3:3:0)
- OFFERED: F, W, Su
- PREREQUISITE: Premanagement and Management 1 cores and full acceptance into the Marriott School upper-division major.
- DESCRIPTION: Control and coordination of materials and services from point of origin to final point of consumption to meet customer needs efficiently.

BUS M 390 : Ethics for Management. (3:3:0)
- OFFERED: F, W, Sp
- PREREQUISITE: Management Core.
- DESCRIPTION: Analyzing ethical dilemmas and understanding ethical theories as they apply to decision making in management.

ORG B 321 : Organizational Effectiveness. (3:2:2)

OFFERED: F, W, Su
PREREQUISITE: For Marriott School of Management majors only.
DESCRIPTION: Theories and concepts for creating effective organizations, e.g., individual, group, and organizational processes and human resource functions, including selection, compensation, and performance management.

And complete one course from the following:

MANEC 300 : Economics of Market Systems. (3:3:0)
OFFERED: F, W; Independent Study also.
PREREQUISITE: Econ 110.
DESCRIPTION: Decision making, price formation, and economic organization of the firm in market environments.

MANEC 358 : International Economics. (3:3:0)
OFFERED: F
PREREQUISITE: Econ 110.
DESCRIPTION: International trade theory and issues, economic integration, trade and development, contemporary trade problems.

MANEC 376 : Government and Business. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Econ 110.
DESCRIPTION: Interaction of political and economic forces in determining product and asset prices and the distribution of income and wealth.

MANEC 387 : Economics of Strategy. (3:3:0)
OFFERED: F, W
PREREQUISITE: Major status.
DESCRIPTION: Economic tools influencing the success of strategy (creation and appropriation of value) emphasizing application of economic theory to management of practice.

7. Complete the following additional courses:
ACC 241 : Business Law in the Environment. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Marriott School of Management major status.
DESCRIPTION: Introduction to legal principles and institutions affecting business.

And complete one course from the following:

BUS M 371R : Entrepreneurship Lecture Series. (1:1:0)
OFFERED: F, W, Sp
DESCRIPTION: Lectures by successful entrepreneurs on subjects significant to entrepreneur-type opportunities.

: Marriott School Lecture Series.
: Women Entrepreneurs.

BUS M 380 : Executive Lectures. (1:1:0)
OFFERED: F
DESCRIPTION: Lectures by top executives on subjects significant to executive leadership.

BUS M 382 : Financial Services Lecture Series. (1:1:0)
OFFERED: W
DESCRIPTION: Lectures by executives on financial services topics.

BUS M 384 : E-Business Lecture Series. (1:1:0)
OFFERED: F, W
DESCRIPTION: Lectures by e-business leaders on subjects significant to e-business-type opportunities.

8. Complete the following after the integrated management core has been completed:
BUS M 498 : Strategic Management. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Bus M 301; major status.
DESCRIPTION: Concepts, tools, and approaches to understand competitive forces and to systematically and consistently develop sustainable competitive advantages.

9. Complete the following finance junior core courses within the same semester:
ACC 440 : Corporate Financial Reporting. (3:3:0)

PREREQUISITE: Acc 200, 210, Bus M 301.
DESCRIPTION: Accounting principles of corporate financial reporting. Judgments managers make preparing financial statement information. How complexities, alternatives, and impacts affect completed financial statements.
NOTE: For nonaccounting majors.

BUS M 401 : Advanced Financial Management. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: BusM 301; major status.
DESCRIPTION: Capital budgeting, cost of capital, capital structure/dividends, mergers and acquisitions, and current financial problems.

BUS M 410 : Investments. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: BusM 301; major status.
DESCRIPTION: Security markets, security analysis, and portfolio management.

MANEC 453 : Money, Banking, and Business. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: BusM 301 or accounting junior core.
DESCRIPTION: Economic analysis of effects of money, banking, and financial institutions on business decisions and aggregate economic activity.

10. Complete at least two finance elective courses from the following. Suggested options are as follows:

Corporate Finance:

BUS M 407 : Risk Management. (3:3:0)
OFFERED: F, W
PREREQUISITE: BusM 301; major status.
DESCRIPTION: Management of risk exposures in a business setting. The process of identifying, measuring, and dealing with risk. Coverage includes both traditional insurable risks and financial risks.

BUS M 432 : International Corporate Finance. (3:3:0)
OFFERED: F, W
PREREQUISITE: Bus M 301, 430; major status.
DESCRIPTION: Financial aspects of multinational corporations operating within an international environment; direct foreign investment, foreign exchange regulations, capital markets, etc.

Asset Management:

BUS M 411 : Advanced Investments. (3:3:0)
OFFERED: F, W
PREREQUISITE: BusM 301, 410; major status.
DESCRIPTION: Current investment literature, efficient markets, modern portfolio theory, capital assets pricing, options pricing theory.

BUS M 415R : Portfolio Management. (1.5:1.5:0)
OFFERED: F, W
PREREQUISITE: Bus M 401, 410, Acc 440, ManEc 453; by application only.
DESCRIPTION: Team management of actual investment portfolio for a full school year. Responsibility for economic forecasts, security selection, and portfolio strategy.

(two enrollments required).

Entrepreneurial Finance:

BUS M 475 : Financing New Ventures. (3:3:0)
OFFERED: F, W
PREREQUISITE: Bus M 301, 341, 361, Org B 321; major status.
DESCRIPTION: Concepts and skills of entrepreneurship, emphasizing how new and emerging companies are financed. Applying functional tools to case situations.

BUS M 479 : (Bus M-Mfg) Creating and Managing New Ventures. (3:3:0)
OFFERED: F, W
PREREQUISITE: For management majors: Bus M 301, 341, 361; major status. For engineering and technology majors: management minor status; senior status.
DESCRIPTION: Key issues and problems facing managers in start-up companies. Team-taught by professors and entrepreneurs; particularly helpful for students starting businesses.

Financial Institutions:

BUS M 405 : Management of Financial Institutions. (3:3:0)
PREREQUISITE: BusM 301; major status.

DESCRIPTION: Management problems of commercial banks and nonbank financial institutions, emphasizing balance sheet management, regulation, and the process of intermediation.

BUS M 412 : Investments Academy. (3:3:0)
OFFERED: F, W
PREREQUISITE: Bus M 301; major status.
DESCRIPTION: Applying financial principles to practical investment problems; insights into the investment banking profession.

International Finance:
BUS M 430 : Introduction to International Business. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: Complexities confronting U.S. firms and their management in international environments. Emphasizes functional and planning areas, including organization, market research, financial analysis.

BUS M 432 : International Corporate Finance. (3:3:0)
OFFERED: F, W
PREREQUISITE: Bus M 301, 430; major status.
DESCRIPTION: Financial aspects of multinational corporations operating within an international environment; direct foreign investment, foreign exchange regulations, capital markets, etc.

Investment Banking: Complete two of the following courses:
BUS M 411 : Advanced Investments. (3:3:0)
OFFERED: F, W
PREREQUISITE: BusM 301, 410; major status.
DESCRIPTION: Current investment literature, efficient markets, modern portfolio theory, capital assets pricing, options pricing theory.

BUS M 412 : Investments Academy. (3:3:0)
OFFERED: F, W
PREREQUISITE: Bus M 301; major status.
DESCRIPTION: Applying financial principles to practical investment problems; insights into the investment banking profession.

BUS M 415R : Portfolio Management. (1.5:1.5:0)
OFFERED: F, W
PREREQUISITE: Bus M 401, 410, Acc 440, ManEc 453; by application only.
DESCRIPTION: Team management of actual investment portfolio for a full school year. Responsibility for economic forecasts, security selection, and portfolio strategy.

(two enrollments required).
Personal Financial Planning:
BUS M 406 : Insurance and Financial Services Academy. (3:3:0)
OFFERED: W
PREREQUISITE: Major status, BusM 301.
DESCRIPTION: The process of identifying, measuring, and dealing with personal risk. Introduction to property/casualty as well as life and health insurance issues and products.

BUS M 418 : Financial Planning. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: BusM 301; major status.
DESCRIPTION: Applying financial principles to household decision making, stressing integration between areas. Income tax and estate planning, retirement, investments, portfolio management, and risk management.

Real Estate: Complete two of the following courses:
BUS M 413 : Real Estate Finance and Investment. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: BusM 301; major status.
DESCRIPTION: Terminology, concepts, principles, and analytical techniques related to financing of and investment in real estate.

BUS M 414 : Real Estate Development. (3:3:0)
OFFERED: F, W
PREREQUISITE: Major status, BusM 301.
DESCRIPTION: Applying financial and real estate principles to practical property investments; insights into the real estate profession.

BUS M 419 : Advanced Real Estate Analysis. (3:3:0)
OFFERED: F, W
PREREQUISITE: Bus M 413; finance junior core.
DESCRIPTION: Real estate financial investment and valuation analysis incorporating contemporary case studies; advanced analytical techniques, including simulation analysis and advanced valuation and portfolio analysis.

General Finance: Complete two electives from above except for Bus M 430 and 479.

11. Complete Marriott School exit survey online.

*Hours include courses that may fulfill university core requirements.

BS in Management: Global Supply Chain Management Emphasis (66–67 hours*)

Show All Course Descriptions
Hide All Course Descriptions

This is a limited-enrollment program requiring departmental admissions approval. Please see the college advisement center for information regarding requirements for admission to this major.

Supply chain management involves the control and coordination of materials and services from the original point of origin to the final point of consumption. Increasing competitiveness through higher quality, lower cost, greater responsiveness, and unique innovation is a critical aspect of supply chain management. Likewise, managing across boundaries within the firm and throughout the channel is emphasized. Course work is designed to prepare students for managerial positions in manufacturing and service industries in the areas of purchasing, operations, logistics, customer service, and supply chain management.

Program Requirements | View MAP

1. No more than 12 semester hours of upper-division transfer credit will be accepted toward the major and only 6 hours beyond the Integrated Management Core. No transfer courses will be accepted for the Integrated Management Core courses.

BUS M 382 : Financial Services Lecture Series. (1:1:0)
OFFERED: W
DESCRIPTION: Lectures by executives on financial services topics.

BUS M 384 : E-Business Lecture Series. (1:1:0)
OFFERED: F, W
DESCRIPTION: Lectures by e-business leaders on subjects significant to e-business-type opportunities.

And complete one course from the following:

Program invites all BYU students who seek an enhanced educational experience to take advantage of the many opportunities offered by the Honors Program.

Overview of Requirements for Graduation with University Honors

This section provides a brief overview of the requirements to graduate with University Honors. Detailed explanations of each requirement follow this section. The staff in the Honors Advisement Center, 102A MSRB, (801) 422-5497, is available to answer questions about honors requirements. To graduate with University Honors, a student must:

1. Complete an honors enrollment form.
2. Complete the honors curriculum requirement.
3. Complete the honors great works requirement.
4. Complete the honors advanced languages requirement.
5. Complete the honors service requirement.
6. Complete the honors thesis requirement.
7. Graduate with a cumulative grade point average of at least 3.5.
8. Submit a graduation portfolio that summarizes the student's academic experiences.

The requirements for graduation with University Honors complement both major and university core education. The honors curriculum, great works, and advanced languages requirements enhance the university core components; the honors thesis requirement enhances the major education component.

Detailed Explanations of Requirements for Graduation with University Honors

1. **Honors Enrollment Form**

   Students who intend to graduate with University Honors should complete as early as possible in their undergraduate program an enrollment form available at the Honors Advisement Center after a brief orientation. Students who have completed the enrollment form have certain privileges, among them the opportunity to preregister for honors courses and to receive reduced-rate admission to certain musical and theatre performances and films. Consultation with the advisement center allows the Honors Program to know students' plans so advisement personnel can help them register for the correct classes and keep them informed of honors activities.

2. **Honors Curriculum Requirement**

   The honors curriculum requirement enhances the core component of students' undergraduate education. Nearly all honors courses (Honrs) and honors sections of department courses meet the university core requirements that all BYU students must complete. Students should consult the University Core table to be sure which core requirements are met by the courses for which they choose to register.

   To fulfill the honors curriculum requirements, students must complete 22 credit hours selected from honors courses and honors sections of department courses, subject to the following limitations:

   a. Three of the 22 credit hours must be from one of the following writing courses: Honrs 150, Engl 150 (honors section), or Phil 150 (honors section).
   b. No more than 12 credit hours from honors sections of department courses can be used to meet this requirement. Of these, no more than 4 credit hours can be from honors sections of religion courses.
   c. No more than 4 credit hours of non-GE honors classes (Honrs 100, 290R, or 292R) can be used to meet this requirement.

   Honors options are available for nearly all university core requirements. Honrs 499R (honors thesis) does not count as credit for the honors curriculum requirement.

3. **Honors Great Works Requirement**

   The honors great works and arts engagement requirement introduces students to the world's treasures of literature, music, theatre, film, art, and science and technology. It is intended to enhance not just their undergraduate education but their entire life as it encourages them to develop a lifelong pattern of experiencing the great works of humankind. Students can fulfill this requirement entirely on their own, or they may include works of literature, music, theatre, film, art, and science that they study as part of their course work. BYU provides many opportunities to fulfill this requirement within its course offerings and its rich schedule of musical, theatrical, and artistic productions. Some of the great works are part of many honors courses. The Honors Program provides reduced-rate admission for honors students to attend selected performance events. Most faculty and student recitals and most art exhibitions are open to students and the public with no admission charge.

   This requirement must be met during the time students are undergraduates. They cannot reduce the requirement by counting works studied only during high school. Students will benefit most from this requirement if they spread it out over their undergraduate years. Each area requires students to study or attend twelve works, performances, or exhibitions—which is three per year in each area if spread out over a period of four years. A great works requirement packet is available in the Honors Advisement Center (102A MSRB) or electronically at http://honors.byu.edu. This packet includes the detailed information students will need and a checklist that they can use to ensure that they properly complete this requirement.

   To fulfill this requirement during their four years as an undergraduate, students must:

   a. Read twelve works of literature from the approved reading list on the honors Web site or in the great works requirement packet (or from approved substitutions to that list). Students must choose at least one work from each of the following categories of literature in the Western tradition: classical, medieval, renaissance and reformation, seventeenth and eighteenth centuries, nineteenth century, and twentieth century; and at least one work from the non-Western tradition. The remaining five works can be from any of the time periods and from Western or non-Western traditions. As students make their selections, they should choose at least one work from each of the following fields: social science, female authors, and persons of color.

      Inclusion of works not on the approved list is permitted but requires completion of a substitution letter (information available in the Honors Advisement Center) that must be preapproved by the Honors Program director or the dean.

   b. Attend twelve theatrical performances, including at least one play by Shakespeare.

   c. Attend twelve musical performances. The performances must include at least two symphonies, one concerto, one opera, two faculty or

MANEC 301 : Macroeconomics for Business Decisions. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Econ 110.
DESCRIPTION: Models of aggregate economic fluctuations, economic growth, inflation, and interest rates.

MANEC 453 : Money, Banking, and Business. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: BusM 301 or accounting junior core.
DESCRIPTION: Economic analysis of effects of money, banking, and financial institutions on business decisions and aggregate economic activity.

8. Complete the following after the integrated management core has been completed:
BUS M 498 : Strategic Management. (3:3:0)

OFFERED: F, W, Sp
PREREQUISITE: Econ 110.
DESCRIPTION: Models of aggregate economic fluctuations, economic growth, inflation, and interest rates.

MANEC 453 : Money, Banking, and Business. (3:3:0)

student recitals, one jazz performance, and one dance performance.

d. Attend twelve films from the approved list or presented through BYU's L. Tom Perry Special Collections or the International Cinema program. Films viewed as part of a university course also qualify. At least six of the films should be in a language other than English. (Foreign language films shown in International Cinema have English subtitles.)

e. Attend twelve art exhibitions (either traveling exhibitions or permanent collections) at local art museums (BYU Museum of Art, Springville Museum of Art, and Museum of Church History and Art) and/or at renowned national or international art museums. Students who have the opportunity to travel are strongly encouraged to visit museums and architectural sites to meet this requirement.

f. Engage twelve great ideas in science or technology through such means as in-class experiments, virtual lab exercises, scientific and mathematical treatises, and attendance at science fairs, exhibits, and germane lectures.

g. As part of their graduation portfolio, students submit twelve response papers that examine two works of literature, two theatrical works, two works of music, two films, two works of art, and two experiences with science or technology from the lists included in the great works requirement packet. The packet also contains detailed instructions on writing responses.

4. **Honors Advanced Languages Requirement**

Honors students must gain proficiency in a foreign language (at least two semesters of foreign language study, or the equivalent) and proficiency in advanced mathematics, statistics, or logic (at least one course from Honrs 250, Math 112/H, 113/H, 119, Phil 305, Psych 301, Stat 221/H, or an acceptable substitute). Fulfillment of this requirement meets and exceeds the core advanced Languages of Learning requirement in requiring both languages and math.

5. **Honors Service Requirement**

Students who participate in honors are multi-talented and highly motivated. The Honors Program encourages students to share their gifts with others through meaningful service. To complete this requirement students must participate in some form of service that draws upon their unique talents and abilities during their undergraduate years. The requirement is flexible in that it allows students to define the form of service they plan to use to meet it. Their contribution may be in a single project or spread out over several projects. Examples of service projects that students have used to complete this requirement include volunteer tutoring of high school or college students; assistance in programs that benefit people who are handicapped, elderly, ill, or impoverished; service as a volunteer in museums, hospitals, parks, or other public facilities; and participation on restoration or conservation projects. This service can be part of activities sponsored by educational, religious, government, business, or charitable organizations, including BYU and the LDS Church, or students can plan and carry out service on their own. For those students who serve full-time LDS missions, the service that meets this requirement should be carried out while a student and should be in addition to any service performed as a full-time missionary. Missions often provide students with skills and opportunities that they can use to provide significant service after their full-time missions are completed.

6. **Honors Thesis Requirement**

The honors thesis requirement gives students the opportunity to participate in original research or creative work in the discipline of their major. Honors students typically complete the thesis requirement during their junior and senior years after they have obtained sufficient training in their major to conduct independent work in a specialized academic field. Each student consults with a departmental honors coordinator to choose a faculty advisor in the department of his or her major and, in consultation with the advisor, chooses a thesis topic.

Students should complete significant course work within the subject area of the thesis (usually at least 30 credit hours, several of which are from 300- or 400-level major courses). The thesis is intended to acquaint students firsthand and in depth with the type of scholarly work that characterizes the field they intend to pursue professionally. For these reasons, only under rare circumstances is an honors thesis topic outside the major area approved. (In most cases students who complete a thesis outside the major do so in fields cognate to their majors.)

Before students begin work on an honors thesis, they must submit a written thesis proposal and have it approved by the Honors Program Office. Guidelines for writing the proposal are available in the Honors Advisement Center (102A MSRB) or electronically at http://honors.byu.edu. Students can request financial support as a part of the thesis proposal. Many honors students obtain competitive undergraduate research grants from BYU's Office of Research and Creative Activities for honors thesis work. Also, many professors and departments have research funding that can be devoted to research on an honors thesis. Personnel in the Honors Program can help students explore the various opportunities available to support their work on an honors thesis.

After completing thesis research and writing the thesis, each student must conduct a thesis defense. The defense committee consists of the thesis advisor, a faculty referee, and a representative of the Honors Program administration, who chairs the defense. After the thesis defense is completed and all final changes are incorporated into the thesis, the Honors Program will have the thesis bound and add it to the collection of honors theses housed in the Harold B. Lee Library Honors Reading Room (3770 HBLL).

7. **Graduate with a Cumulative Grade Point Average (GPA) of at Least 3.5**

Honors students are not necessarily those with the highest GPAs, although most perform very well in their classes. Rather than select easy courses to receive high grades, honors students tend to seek challenging courses taught by excellent professors, and they participate in a variety of activities. Nevertheless, honors students are expected to perform well academically, defined as a minimum GPA of 3.5 at the time of graduation.

8. **Graduation Portfolio Summarizing the Honors Experiences**

The honors portfolio is a record of a student's undergraduate experience. It is a file kept by all candidates for University Honors graduation and is submitted for review at the same time as the completed thesis. The portfolio contains samples of a student's best academic work from the undergraduate program. Although students should place their best work in the portfolio, the file is intended as a record of growth; thus early struggling attempts also have their place. It is always illuminating to students to see where they have been and how far they have come.

When submitted for examination, the portfolio should contain (but is not limited to):

a. A one- or two-page summary, semester by semester, of the major highlights and achievements of the student's undergraduate experience.
b. A one-page evaluation of the most memorable service the student contributed as an undergraduate.
c. A current transcript indicating a GPA of at least 3.5.
d. A list of three faculty members who know the student and can recommend his or her academic record.
e. A representative collection of the student's best academic work, reflecting educational progression throughout the undergraduate years.
f. A great works and arts engagement experience log.
g. Twelve great works and arts engagement response papers.

Note: The general Web site for the BYU Honors Program is http://honors.byu.edu.

OFFERED: F, W, Sp
PREREQUISITE: BusM 301 or accounting junior core.
DESCRIPTION: Economic analysis of effects of money, banking, and financial institutions on business decisions and aggregate economic activity.

8. Complete the following after the integrated management core has been completed:
BUS M 498 : Strategic Management. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Bus M 301; major status.
DESCRIPTION: Concepts, tools, and approaches to understand competitive forces and to systematically and consistently develop sustainable competitive advantages.

9. Complete the following emphasis courses:
ORG B 327 : Human Resource Management. (3:3:0)
OFFERED: F, W; Independent Study also.
DESCRIPTION: Functions of human resource management: employee selection, wage and salary administration, training and development, employee relations, and human resource planning.

BS in Management: Strategy Emphasis (63–64 hours*)

Show All Course Descriptions
Hide All Course Descriptions

This is a limited-enrollment program requiring departmental admissions approval. Please see the college advisement center for information regarding requirements for admission to this major.

Program Requirements | View MAP

1. No more than 12 semester hours of upper-division transfer credit will be accepted toward the major and only 6 hours beyond the Integrated Management Core. No transfer courses will be accepted for the Integrated Management Core courses.
2. Only courses sufficient for a single emphasis are permitted.
3. Complete the following Premanagement Core Courses:

ACC 200 : Principles of Accounting. (3:3:0)
DESCRIPTION: Financial and managerial accounting principles. Basic accounting statements, processes, and management applications. Open to all students.
NOTE: Independent Study also.

ECON 110 : Economic Principles and Problems. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Strengths and weaknesses of markets and governments for solving problems of social organization or conflict, including policy response to inflation, unemployment, pollution, poverty, growth, etc.

I SYS 100 : Computer Spreadsheet Skills. (.5:0:1)
OFFERED: F, W, Sp, Su
DESCRIPTION: Basic computer skills, focusing on spreadsheet and database programs. No technical background necessary.
NOTE: Fee.

I SYS 101 : Computer Presentation Skills. (.5:0:1)
OFFERED: F, W, Sp, Su
DESCRIPTION: Basic computer skills focusing on developing presentations. No technical background necessary.
NOTE: Fee.

MATH 119 : Introduction to Calculus. (4:4:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Introduction to plane analytic geometry and calculus.
NOTE: For students in the College of Life Sciences and the Marriott School of Management.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

Note 1: Premanagement Core courses must be completed or in concurrent process of being completed before a student enrolls in Management Core 1 courses.

Note 2: Before registering for Management Core 1 courses, students must complete and submit the "continuance" form to the college advisement center. Based on student performance to date, permission may be granted to take some restricted major-only Management Core 1 courses.

4. Apply and be formally accepted into the program.

5. Complete the following Management Core 1 courses:

ACC 210 : Principles of Accounting 2. (3:3:0)
- PREREQUISITE: Acc 200.
- DESCRIPTION: Additional issues in financial and managerial accounting. Review of issues related to balance sheet accounts, performance evaluation and capital budgeting.
- NOTE: For Marriott School of Management students only.

BUS M 301 : Financial Management. (3:3:1.5)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Premanagement and Management cores and full acceptance into the Marriott School upper-division major.
- DESCRIPTION: Financial management from the viewpoint of the business manager emphasizing profitability, liquidity, and long-range financial planning.

BUS M 320 : Career Orientation and Preparation. (.5:1:0)
- OFFERED: F, W, Sp
- PREREQUISITE: Acceptance into Marriott School.
- DESCRIPTION: Student orientation and preparation for careers in management.
- NOTE: Must be taken first semester in Marriott School.

BUS M 321 : Mentor Program. (.5:0:0)
- OFFERED: F, W, Sp
- PREREQUISITE: Acceptance into Marriott School.
- DESCRIPTION: Discussions with outside mentor about career opportunities.
- NOTE: Must be taken first semester in Marriott School.

I SYS 201 : Introduction to Management Information Systems. (3:3:1)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: I Sys 100, 101, and declared business major.
- DESCRIPTION: Using technology to solve business problems. Hands-on spreadsheet, database, and Internet software in a business context.

M COM 320 : Communication in Organizational Settings. (3:3:1)
- OFFERED: F, W, Sp, Su; Honors also.
- PREREQUISITE: GE First-Year Writing requirement. To be taken before senior year. Not for freshmen.
- DESCRIPTION: Developing written and oral communications for professional organizations, including composing and designing employment communications. Incorporates oral presentations.
- NOTE: Fulfills GE Advanced Written and Oral Communication requirement.

Note: Management Core 1 courses must be completed or in concurrent process of being completed before a student enrolls in the Integrated Management Core.

6. Complete the following Integrated Management Core courses:

BUS M 341 : Marketing Management. (3:3:0)
- OFFERED: F, W, Sp
- PREREQUISITE: Premanagement and Management I cores and full acceptance into the Marriott School upper-division major.
- DESCRIPTION: Market segmentation, product service, promotion, channel, pricing strategies. Marketing principles in consumer and industrial markets, profit and nonprofit organizations, domestic and international companies, and small and large firms.

BUS M 361 : Supply Chain, Services, and Operations Management. (3:3:0)
- OFFERED: F, W, Su
- PREREQUISITE: Premanagement and Management 1 cores and full acceptance into the Marriott School upper-division major.
- DESCRIPTION: Control and coordination of materials and services from point of origin to final point of consumption to meet customer needs efficiently.

BUS M 390 : Ethics for Management. (3:3:0)
- OFFERED: F, W, Sp
- PREREQUISITE: Management Core.
- DESCRIPTION: Analyzing ethical dilemmas and understanding ethical theories as they apply to decision making in management.

ORG B 321 : Organizational Effectiveness. (3:2:2)

OFFERED: F, W, Su
PREREQUISITE: For Marriott School of Management majors only.
DESCRIPTION: Theories and concepts for creating effective organizations, e.g., individual, group, and organizational processes and human resource functions, including selection, compensation, and performance management.

MANEC 387 : Economics of Strategy. (3:3:0)
OFFERED: F, W
PREREQUISITE: Major status.
DESCRIPTION: Economic tools influencing the success of strategy (creation and appropriation of value) emphasizing application of economic theory to management of practice.

7. Complete the following additional courses:
ACC 241 : Business Law in the Environment. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Marriott School of Management major status.
DESCRIPTION: Introduction to legal principles and institutions affecting business.

And complete one course from the following:

BUS M 371R : Entrepreneurship Lecture Series. (1:1:0)
OFFERED: F, W, Sp
DESCRIPTION: Lectures by successful entrepreneurs on subjects significant to entrepreneur-type opportunities.

: Marriott School Lecture Series.
: Women Entrepreneurs.

BUS M 380 : Executive Lectures. (1:1:0)
OFFERED: F
DESCRIPTION: Lectures by top executives on subjects significant to executive leadership.

BUS M 382 : Financial Services Lecture Series. (1:1:0)
OFFERED: W
DESCRIPTION: Lectures by executives on financial services topics.

BUS M 384 : E-Business Lecture Series. (1:1:0)
OFFERED: F, W
DESCRIPTION: Lectures by e-business leaders on subjects significant to e-business-type opportunities.

And complete one course from the following:

MANEC 301 : Macroeconomics for Business Decisions. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Econ 110.
DESCRIPTION: Models of aggregate economic fluctuations, economic growth, inflation, and interest rates.

MANEC 453 : Money, Banking, and Business. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: BusM 301 or accounting junior core.
DESCRIPTION: Economic analysis of effects of money, banking, and financial institutions on business decisions and aggregate economic activity.

8. Complete the following:
BUS M 480 : Strategy 1. (3:3:0)
OFFERED: W
PREREQUISITE: Acc 200, Math 110, Econ 110, Stat 221.
DESCRIPTION: Structured problem solving, strategic thinking, and basic strategy concepts to prepare students to analyze and understand the sources of competitive advantage and superior firm performance.

BUS M 481 : Strategy 2. (3:3:0)
OFFERED: F
PREREQUISITE: Acc 200, Math 110, Econ 110, Stat 221.
DESCRIPTION: Advanced strategy topics such as growth and diversification strategy, pricing strategy, game theory and competitor analysis, strategy as real options, and strategic flexibility and commitment.

BUS M 482 : Strategy Implementation. (3:3:0)
OFFERED: W

PREREQUISITE: Acc 200, Math 110, Econ 110, Stat 221.
DESCRIPTION: Integrative course on strategy formulation and implementation, including a field study. Topics include organizational alignment (structure and processes that fit the stragety), change management, and strategic leadership.

9. Complete two courses from the following:

BUS M 401 : Advanced Financial Management. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: BusM 301; major status.
DESCRIPTION: Capital budgeting, cost of capital, capital structure/dividends, mergers and acquisitions, and current financial problems.

Or

BUS M 475 : Financing New Ventures. (3:3:0)
OFFERED: F, W
PREREQUISITE: Bus M 301, 341, 361, Org B 321; major status.
DESCRIPTION: Concepts and skills of entrepreneurship, emphasizing how new and emerging companies are financed. Applying functional tools to case situations.

BUS M 448 : Competitive Intelligence. (3:3:0)
OFFERED: W
PREREQUISITE: major status.
DESCRIPTION: 0verview of the intelligence process including information collection, intelligence analysis, dissemination, ethics and establishing the process from a managerial perspective.

BUS M 479 : (Bus M-Mfg) Creating and Managing New Ventures. (3:3:0)
OFFERED: F, W
PREREQUISITE: For management majors: Bus M 301, 341, 361; major status. For engineering and technology majors: management minor status; senior status.
DESCRIPTION: Key issues and problems facing managers in start-up companies. Team-taught by professors and entrepreneurs; particularly helpful for students starting businesses.

BUS M 483R : Topics in Strategy. (3:3:0)
OFFERED: Alternate semesters.
PREREQUISITE: Acceptance into the management program.
DESCRIPTION: Topics and instructors vary.

I SYS 520 : Spreadsheet Automation and Modeling. (3:3:0)
OFFERED: F, W
PREREQUISITE: I Sys 201 or equivalent.
DESCRIPTION: Programming in Excel VBA; automating common tasks; retrieving data from web servers; building optimization models.

   BUS M 465 : Global Supply Chain. (3:3:0)
   OFFERED: F
   DESCRIPTION: The emerging rules of a global marketplace and their influence on key supply chain activities and processes.

   BUS M 495R : E-Business Projects. (3:3:0)
   OFFERED: On demand.
   PREREQUISITE: Instructor's consent.
   DESCRIPTION: Consulting/Field studies projects in e-business.

   M B A 539 : Theory and Practice of Third-World Development. (3:3:0)
   DESCRIPTION: Paradigms of economic development; strategies and applications in various societies.

3. Complete the following business language course:
   BUS M 596R : Business Language. (3:3:0)
   OFFERED: F, W
   DESCRIPTION: For experienced speakers of the language being taught. Emphasizes business concepts; practice and case study including conversation, reading,and presenting, while enriching business vocabulary.

   : Business Arabic.
   : Business Chinese.
   : Business English.
   : Business French.
   : Business German.
   : Business Italian.

: Business Japanese.
: Business Korean.
: Business Portuguese.
: Business Russian.
: Business Spanish.

(available in Arabic, Chinese, English, French, German, Italian, Japanese, Korean, Portuguese, Russian, or Spanish).

4. Complete the international business experience in the form of an international internship, international field study, or business Study Abroad program.

Admission to Degree Program

The degree program in the Department of Mathematics is open enrollment.

The Discipline

Mathematics is a means of dealing with order, pattern, and number as seen in the world around us. The abilities to compute, to think logically, and to take a reasoned approach to solving problems are highly valued in society and are characteristics of any educated person. Mathematics is not just a body of knowledge, but a process of analysis, reasoning, comparison, deduction, generalization, and problem solving.

A mathematician's stock in trade is the ability to solve problems and to explain the solutions to others. Having once determined what the right questions are, solving problems involves analyzing both concrete and abstract situations, relating them to mathematical ideas, and using mathematical techniques to work toward solutions. Explaining the solution involves pointing out what has been solved and why the solution is valid.

Career Opportunities

Majors in mathematics (BS) prepare for a wide variety of careers. Some enter graduate school or professional schools and prepare for careers in such fields as college teaching, consulting, research and development, law, medicine, and business administration. Others take positions in government agencies, industrial laboratories, information management firms, or business organizations. All of them spend much time communicating with colleagues about the problems they are solving as they continue to learn more mathematics and share mathematical ideas with others.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Major

BS in Mathematics

Minor

Mathematics

Students should see their college advisement center for help or information concerning the undergraduate programs.

Graduate Programs and Degrees

MS in Mathematics
PhD in Mathematics

For more information see the BYU 2008–2009 Graduate Catalog.

Advisement

Upon completion of five core courses (from Math 112, 113, 190, 214, 343), undergraduate majors are required to meet with an assigned faculty advisor. Students whose grade point average is less than a B in the five core courses need to realize that advanced courses require much more depth of understanding and may be difficult for them.

Students who are considering graduate work in mathematics may receive advice from the graduate coordinator.

General Information

1. It is recommended that a student complete the following courses in high school:
   4 units of English
   1 unit of physics or chemistry.
   4 units of mathematics, including 2.5 units of algebra, 1 unit of geometry, and .5 unit of trigonometry. This qualifies a student to begin college mathematics with Math 112. If calculus is available in high school, a student planning to major in mathematics is strongly encouraged to take it; doing so requires completing one of the preceding algebra units before high school.
   Advanced Placement (AP) credit is available in mathematics as follows:
   - A score of 3 on the calculus AB exam gives credit in Math 110 and 111; a score of 4 or 5 on the calculus AB exam gives credit in Math 110 and 112.
   - A score of 3 on the calculus BC exam gives credit in Math 110 and 111; a score of 4 on the calculus BC exam gives credit in Math 110 and 112; a score of 5 on the calculus BC exam gives credit in Math 112 and 113.
   - An AP student without credit in Math 112 must begin with Math 112; an AP student without credit in Math 113 must begin with Math 112 or 113.

   AP students should direct Educational Testing Service (ETS) to report scores to BYU to have credit posted.

   Questions regarding placement should be directed to the Mathematics Department, 292 TMCB.

2. Majors are strongly urged to study Econ 110, Phscs 121 and 220 during their first two years.

Program Requirements | View MAP

1. Grades of C- or below will not be acceptable in major courses.

2. Complete the following core requirements:

MATH 112 : Calculus 1. (4:5:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 110 and 111 or equivalent.
- DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
- NOTE: Honors also.

MATH 113 : Calculus 2. (4:5:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 112 or equivalent.
- DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
- NOTE: Honors also.

MATH 121R : Seminar in Mathematics. (.5:1:0)
- OFFERED: F, W
- RECOMMENDED: Math 112, 113.
- DESCRIPTION: Careers, topics, and problems in mathematics.

MATH 190 : Fundamentals of Mathematics. (3:3:0)
- OFFERED: F, W
- PREREQUISITE: Math 112 or concurrent enrollment with instructor's consent.
- DESCRIPTION: Achieving maturity in mathematical communication. Introduction to mathematical proof; methods of proof; analysis of proof; induction; logical reasoning.

MATH 214 : Calculus of Several Variables. (3:3:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 113; 343 or concurrent enrollment.
- DESCRIPTION: Partial differentiation, the Jacobian matrix, and integral theorems of vector calculus.

MATH 315 : Theory of Analysis. (3:3:0)
- OFFERED: F, W
- PREREQUISITE: Math 113, 190, 343.
- DESCRIPTION: Rigorous treatment of calculus of single and several variables. Topics include uniform continuity, metric spaces, Riemann integral, implicit function theorem, and integral theorems of vector calculus.

MATH 334 : Ordinary Differential Equations. (3:3:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 113, 343.
- DESCRIPTION: Methods and theory of ordinary differential equations.

MATH 343 : Elementary Linear Algebra. (3:3:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 112 or 119.
- DESCRIPTION: Linear systems, matrices, vectors and vector spaces, linear transformations, determinants, inner

product spaces, eigenvalues, and eigenvectors.

MATH 371 : Abstract Algebra. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Math 190, 343.
DESCRIPTION: Groups, rings, fields, vector spaces, linear transformations, matrices, field extensions, etc.

Note: Math 112, 113 should be honors sections. Math 121R is a one-half credit seminar that must be taken at least twice.

3. Complete the following:
   MATH 316 : Theory of Analysis. (3:3:0)
   OFFERED: F, W
   PREREQUISITE: Math 315.
   DESCRIPTION: Rigorous treatment of calculus of single and several variables. Topics include uniform continuity, metric spaces, Riemann integral, implicit function theorem, and integral theorems of vector calculus.

   MATH 332 : Introduction to Complex Analysis. (3:3:0)
   OFFERED: F, W
   PREREQUISITE: Math 214 or 316.
   DESCRIPTION: Complex algebra, analytic functions, integration in the complex plane, infinite series, theory of residues, conformal mapping.

4. Complete the following:
   C S 142 : Introduction to Computer Programming. (3:3:0)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: Knowledge of algebra.
   DESCRIPTION: Introduction to object-oriented program design and development. Principles of algorithm formulation and implementation.

5. Complete one of the following:
   STAT 321 : Elements of Mathematical Statistics. (3:3:2)
   OFFERED: F, Su
   PREREQUISITE: Math 113 or 119 or equivalent.
   DESCRIPTION: Probability, random variables, frequency distributions, estimation and tests of hypotheses from a theoretical standpoint.

   STAT 441 : Statistical Theory 1. (3:3:0)
   OFFERED: F, W
   PREREQUISITE: Math 214.
   DESCRIPTION: Axiomatic probability theory for discrete and continuous random variables; moment-generating functions; conditional probability; stochastic independence; transformations; limiting distributions; stochastic convergence; central limit theorem.

   STAT 470 : Statistical Theory for Actuaries. (3:3:0)
   OFFERED: F
   PREREQUISITE: Math 214.
   DESCRIPTION: Probability theory; discrete, continuous, mixture random variables; loss distributions; moment-generating functions; conditional probability, expectation; total probability; stochastic independence; transformations. Prepares for Exam P.

6. With signed approval by a department advisor, select a minimum of three upper-division elective courses to form a coherent set with an identified educational goal.

7. Complete an additional six hours from the following:
   MATH 300 : (Math-MthEd) History and Philosophy of Mathematics. (3:3:0)
   OFFERED: F, W, Sp
   PREREQUISITE: Math 113.
   DESCRIPTION: Historical development of important mathematical ideas and philosophies; implications for the mathematical curriculum.

   MATH 331 : (Math - EC En 370) Probability Theory. (3:3:0)
   OFFERED: F
   PREREQUISITE: Math 343.
   DESCRIPTION: Axiomatic probability theory, conditional probability, discrete / continuous random variables, expectation, conditional expectation, moments, functions of random variables, multivariate distributions, laws of large numbers, central limit theorem.

MATH 347 : Introduction to Partial Differential Equations. (3:3:0)
OFFERED: W, Su
PREREQUISITE: Math 303 or 334.
DESCRIPTION: Boundary value problems; transform methods; Fourier series; Bessel functions; Legendre polynomials.

MATH 350 : Combinatorics. (3:3:0)
OFFERED: Su
PREREQUISITE: Math 343, 371.
DESCRIPTION: Permutations, combinations, recurrence relations, applications.

MATH 355 : Graph Theory. (3:3:0)
OFFERED: W
PREREQUISITE: Math 343.
DESCRIPTION: Maps, graphs and digraphs, coloring problems, applications.

MATH 362 : (Math-MthEd) Survey of Geometry. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Math 112, 190.
DESCRIPTION: Logical and historical development of Euclidean and non-Euclidean geometry, transformations and symmetry; relationships among axiomatic systems; use of software and other geometric models; proofs and Van Hiele levels.

MATH 372 : Abstract Algebra. (3:3:0)
OFFERED: F, W
PREREQUISITE: Math 371.
DESCRIPTION: Groups, rings, fields, vector spaces, linear transformations, matrices, field extensions, etc.

MATH 387 : Number Theory. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: Math 343, 371.
DESCRIPTION: Foundations; congruences; quadratic reciprocity; unique factorization, prime distribution or Diophantine equations.

MATH 410 : Introduction to Numerical Methods. (3:3:0)
OFFERED: F
PREREQUISITE: Math 214, 343.
DESCRIPTION: Root finding, interpolation, curve fitting, numerical differentiation and integration, multiple integrals, direct solvers for linear systems, least squares, rational approximations, Fourier and other orthogonal methods.

MATH 411 : Numerical Methods. (3:3:0)
OFFERED: W
PREREQUISITE: Math 334, 410.
DESCRIPTION: Iterative solvers for linear systems, eigenvalue, eigenvector approximations, numerical solutions to nonlinear systems, numerical techniques for initial and boundary value problems, elementary solvers for PDEs.

MATH 435 : Mathematical Finance. (3:3:0)
OFFERED: W
PREREQUISITE: Math 331.
DESCRIPTION: The binomial asset pricing model (discrete probability). Martingales, pricing of derivative securities, random walk in financial models, random interest rates.

MATH 451 : Introduction to Topology. (3:3:0)
OFFERED: W
PREREQUISITE: Math 315.
DESCRIPTION: Developing topological concepts, beginning from a linear setting. Developing proofs or counterexamples from axioms to a structured sequence of topological propositions using only notes provided.

MATH 460R : Topics in Geometry. (3:3:0)
OFFERED: On demand
PREREQUISITE: Math 343, 362, or equivalent.
DESCRIPTION: Topics selected from the various aspects of synthetic, analytic, algebraic, and differential geometry.

MATH 465 : Differential Geometry. (3:3:0)
PREREQUISITE: Math 214; 315 or equivalent.
RECOMMENDED: Math 316 or equivalent.
DESCRIPTION: Geometry of smooth curves and surfaces. Topics include the first and second fundamental forms, the Gauss map, orientability of surfaces, Gaussian and mean curvature, geodesics, minimal surfaces and the Gauss-Bonnet Theorem.

MATH 480 : Mathematical Models. (3:3:0)
OFFERED: On demand
PREREQUISITE: Math 214, 334, 343, 410.
DESCRIPTION: Construction, solution, and interpretation of discrete and continuous models applied to problems in the physical, natural, and social sciences.

MATH 495R : Readings in Mathematics. (.5-2:0:3)
OFFERED: F, W, Sp, Su
PREREQUISITE: instructor's consent.
DESCRIPTION: Directed readings beyond the scope of usual undergraduate courses.

MATH 510 : Numerical Methods for Linear Algebra. (3:3:0)
OFFERED: F
PREREQUISITE: Math 343, 410; or equivalents.
DESCRIPTION: Numerical matrix algebra, orthogonalization and least squares methods, unsymmetric and symmetric eigenvalue problems, iterative methods, advanced solvers for partial differential equations.

MATH 511 : Numerical Methods for Partial Differential Equations. (3:3:0)
OFFERED: W
PREREQUISITE: Math 303 or 347; 410; or equivalents.
DESCRIPTION: Finite difference and finite volume methods for partial differential equations. Stability, consistency, and convergence theory.

MATH 513R : Advanced Topics in Applied Mathematics. (3:3:0)
OFFERED: On demand
PREREQUISITE: instructor's consent

MATH 521 : Methods of Applied Mathematics 1. (3:3:0)
OFFERED: Sp
PREREQUISITE: Math 334, 343; or equivalents.
DESCRIPTION: Possible topics include variational, integral, and partial differential equations; spectral and transform methods; nonlinear waves; Green's functions; scaling and asymptotic analysis; perturbation theory; continuum mechanics.

MATH 522 : Methods of Applied Mathematics 2. (3:3:0)
OFFERED: On demand.
PREREQUISITE: Math 334, 343; or equivalents.
DESCRIPTION: Possible topics include variational, integral, and partial differential equations; spectral and transform methods; nonlinear waves; Green's functions; scaling and asymptotic analysis; perturbation theory; continuum mechanics.

MATH 532 : Complex Analysis. (3:3:0)
OFFERED: Su
PREREQUISITE: Math 332 or instructor`s consent.
DESCRIPTION: Introduction to theory of complex analysis at beginning graduate level. Topics: Cauchy integral equations, Riemann surfaces, Picard's theorem, etc.

MATH 534 : Introduction to Dynamical Systems 1. (3:3:0)
OFFERED: W
PREREQUISITE: Math 315, 334; or equivalents.
DESCRIPTION: Discrete dynamical systems; iterations of maps on the line and the plane; bifurcation theory; chaos, Julia sets, and fractals. Computational experimentation.

MATH 541 : Real Analysis. (3:3:0)
OFFERED: F
PREREQUISITE: Math 315, 343; 214 or 316.
DESCRIPTION: Rigorous treatment of differentiation and integration theory; Lebesque measure; Banach spaces.

MATH 542 : Real Analysis. (3:3:0)
OFFERED: W

PREREQUISITE: Math 315, 343; 214 or 316.
DESCRIPTION: Rigorous treatment of differentiation and integration theory; Lebesque measure; Banach spaces.

MATH 543 : Advanced Probability 1. (3:3:0)
OFFERED: F
PREREQUISITE: Math 214 or equivalent.
RECOMMENDED: Math 314, 315, Stat 441; or equivalents.
DESCRIPTION: Probability theory and its applications. Topics include random variables, independence and conditioning, laws of large numbers, random walks, martingales, Markov chains, renewal processes, ergodic theorems, Brownian motion, and stochastic integration.

MATH 544 : Advanced Probability 2. (3:3:0)
OFFERED: W
PREREQUISITE: Math 214 or equivalent.
RECOMMENDED: Math 315, 316, Stat 441; or equivalents.
DESCRIPTION: Probability theory and its applications. Topics include random variables, independence and conditioning, laws of large numbers, random walks, martingales, Markov chains, renewal processes, ergodic theorems, Brownian motion, and stochastic integration.

MATH 547 : Partial Differential Equations 1. (3:3:0)
OFFERED: On demand
PREREQUISITE: Math 214, 334; or equivalents.
RECOMMENDED: Math 314, 315; or equivalents.
DESCRIPTION: Topics include the method of characteristics, elliptic equations, potential theory, parabolic equations and systems, maximum principles, linear and nonlinear waves, Hamilton-Jacobi equations, Fourier transforms, Green's functions, distributions, and energy methods.

MATH 548 : Partial Differential Equations 2. (3:3:0)
OFFERED: On demand
PREREQUISITE: Math 214, 334; or equivalents.
RECOMMENDED: Math 315, 316; or equivalents.
DESCRIPTION: Topics include the method of characteristics, elliptic equations, potential theory, parabolic equations and systems, maximum principles, linear and nonlinear waves, Hamilton-Jacobi equations, Fourier transforms, Green's functions, distributions, and energy methods.

MATH 553 : Foundations of Topology 1. (3:3:0)
OFFERED: F
PREREQUISITE: Math 451 or instructor's consent.
DESCRIPTION: Naive set theory, topological spaces, product spaces, subspaces, continuous functions, connectedness, compactness, countability, separation axioms, metrization, complete metric spaces, function spaces, and Baire spaces.

MATH 554 : Foundations of Topology 2. (3:3:0)
OFFERED: W
PREREQUISITE: Math 553 or instructor's consent.
DESCRIPTION: Fundamental group, retractions and fixed points, homotopy types, separation theorems, classification of surfaces, Seifert-van Kampen Theorem, classification of covering spaces, and applications to group theory.

MATH 561 : Introduction to Algebraic Geometry. (3:3:0)
OFFERED: F
PREREQUISITE: Math 671 or concurrent enrollment.
DESCRIPTION: Projective varieties, curves, surfaces, differential forms, and divisors.

MATH 562 : Introduction to Algebraic Geometry. (3:3:0)
OFFERED: W
PREREQUISITE: Math 671 or concurrent enrollment.
DESCRIPTION: Projective varieties, curves, surfaces, differential forms, and divisors.

MATH 570 : Matrix Analysis. (3:3:0)
PREREQUISITE: Math 302 or 343; or equivalents.
DESCRIPTION: Special classes of matrices, canonical forms, matrix and vector norms, localization of eigenvalues, matrix functions, applications.

MATH 586 : Introduction to Algebraic Number Theory. (3:3:0)
OFFERED: W
PREREQUISITE: Math 372 or equivalent; instructor's consent.
DESCRIPTION: Algebraic integers; different and discriminant; decomposition of primes; class group; Dirichlet unit

theorem; Dedekind zeta function; cyclotomic fields; valuations; completions.

MATH 587 : Introduction to Analytic Number Theory. (3:3:0)
OFFERED: F
PREREQUISITE: Math 332 or equivalent; instructor's consent.
DESCRIPTION: Arithmetical functions; distribution of primes; Dirichlet characters; Dirichlet's theorem; Gauss sums; primitive roots; Dirichlet L-functions; Riemann zeta-function; prime number theorem; partitions.

8. Students who continue toward graduate work should complete:

MATH 372 : Abstract Algebra. (3:3:0)
OFFERED: F, W
PREREQUISITE: Math 371.
DESCRIPTION: Groups, rings, fields, vector spaces, linear transformations, matrices, field extensions, etc.

MATH 532 : Complex Analysis. (3:3:0)
OFFERED: Su
PREREQUISITE: Math 332 or instructor`s consent.
DESCRIPTION: Introduction to theory of complex analysis at beginning graduate level. Topics: Cauchy integral equations, Riemann surfaces, Picard's theorem, etc.

MATH 541 : Real Analysis. (3:3:0)
OFFERED: F
PREREQUISITE: Math 315, 343; 214 or 316.
DESCRIPTION: Rigorous treatment of differentiation and integration theory; Lebesque measure; Banach spaces.

MATH 542 : Real Analysis. (3:3:0)
OFFERED: W
PREREQUISITE: Math 315, 343; 214 or 316.
DESCRIPTION: Rigorous treatment of differentiation and integration theory; Lebesque measure; Banach spaces.

9. Those planning for doctoral work should also complete Math 451, 553, and 554 and are advised to gain competence in one or two languages from French, German, and Russian.

10. Students are required to take the mathematics major field test the last semester before they graduate. The test is an ETS (Educational Testing Service) standardized assessment test of undergraduate mathematics. Go to ETS Major Field Tests for a test description and sample problems. A passing score is required. This test does not appear on the transcript or affect the GPA.

11. Students must participate in an exit interview before graduation.

Recommended Courses

ECON 110 : Economic Principles and Problems. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Strengths and weaknesses of markets and governments for solving problems of social organization or conflict, including policy response to inflation, unemployment, pollution, poverty, growth, etc.

PHSCS 121 : Principles of Physics 1. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Calculus or concurrent enrollment.
DESCRIPTION: Newtonian mechanics. Weekly lab.

PHSCS 220 : Principles of Physics 3. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121 or equivalent; Math 113 or equivalent.
DESCRIPTION: Electricity and magnetism. Weekly lab.

*Hours include courses that may fulfill university core requirements.

Program Requirements

1. Grades of C- or below will not be accepted.

2. Complete the following courses:

MATH 112 : Calculus 1. (4:5:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 110 and 111 or equivalent.
- DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
- NOTE: Honors also.

MATH 113 : Calculus 2. (4:5:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 112 or equivalent.
- DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
- NOTE: Honors also.

MATH 190 : Fundamentals of Mathematics. (3:3:0)
- OFFERED: F, W
- PREREQUISITE: Math 112 or concurrent enrollment with instructor's consent.
- DESCRIPTION: Achieving maturity in mathematical communication. Introduction to mathematical proof; methods of proof; analysis of proof; induction; logical reasoning.

MATH 343 : Elementary Linear Algebra. (3:3:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 112 or 119.
- DESCRIPTION: Linear systems, matrices, vectors and vector spaces, linear transformations, determinants, inner product spaces, eigenvalues, and eigenvectors.

3. Complete one course from the following:

MATH 214 : Calculus of Several Variables. (3:3:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 113; 343 or concurrent enrollment.
- DESCRIPTION: Partial differentiation, the Jacobian matrix, and integral theorems of vector calculus.

MATH 302 : Mathematics for Engineering 1. (4:4:0)
- OFFERED: F, W
- PREREQUISITE: Math 113 and passing grade on required preparatory exam taken during first week of class. (Practice exams available on class Website).
- DESCRIPTION: Multivariable calculus, linear algebra, and numerical methods.

4. Complete one course from the following:

MATH 303 : Mathematics for Engineering 2. (4:4:0)
- OFFERED: F, W
- PREREQUISITE: Math 302; or Math 214 and 343.
- DESCRIPTION: ODEs, Laplace transforms, Fourier series, PDEs, numerical methods.

MATH 315 : Theory of Analysis. (3:3:0)
- OFFERED: F, W

PREREQUISITE: Math 113, 190, 343.
DESCRIPTION: Rigorous treatment of calculus of single and several variables. Topics include uniform continuity, metric spaces, Riemann integral, implicit function theorem, and integral theorems of vector calculus.

MATH 331 : (Math - EC En 370) Probability Theory. (3:3:0)
OFFERED: F
PREREQUISITE: Math 343.
DESCRIPTION: Axiomatic probability theory, conditional probability, discrete / continuous random variables, expectation, conditional expectation, moments, functions of random variables, multivariate distributions, laws of large numbers, central limit theorem.

MATH 332 : Introduction to Complex Analysis. (3:3:0)
OFFERED: F, W
PREREQUISITE: Math 214 or 316.
DESCRIPTION: Complex algebra, analytic functions, integration in the complex plane, infinite series, theory of residues, conformal mapping.

MATH 334 : Ordinary Differential Equations. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 113, 343.
DESCRIPTION: Methods and theory of ordinary differential equations.

MATH 347 : Introduction to Partial Differential Equations. (3:3:0)
OFFERED: W, Su
PREREQUISITE: Math 303 or 334.
DESCRIPTION: Boundary value problems; transform methods; Fourier series; Bessel functions; Legendre polynomials.

MATH 355 : Graph Theory. (3:3:0)
OFFERED: W
PREREQUISITE: Math 343.
DESCRIPTION: Maps, graphs and digraphs, coloring problems, applications.

MATH 362 : (Math-MthEd) Survey of Geometry. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Math 112, 190.
DESCRIPTION: Logical and historical development of Euclidean and non-Euclidean geometry, transformations and symmetry; relationships among axiomatic systems; use of software and other geometric models; proofs and Van Hiele levels.

MATH 371 : Abstract Algebra. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Math 190, 343.
DESCRIPTION: Groups, rings, fields, vector spaces, linear transformations, matrices, field extensions, etc.

or any 400- or 500-level mathematics course.

*Hours include courses that may fulfill university core requirements.

Undergraduate Courses

Note: for courses containing material preparatory to Math 97 (up through beginning algebra) please refer to Independent Study.

MATH 097 : Intermediate Algebra. (0:2:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: High school algebra.
DESCRIPTION: Elementary logic, real number system, equations and inequalities (linear, polynomial, rational, and radical expressions), graphing, function notation, inverse function, exponential functions, systems of equations, variations.
NOTE: Fee.

100-Level Courses

MATH 102 : Quantitative Reasoning. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Practicing and applying quantitative reasoning: personal finance, consumer statistics, etc.
NOTE: For students who do not need developmental algebra for subsequent courses.

MATH 110 : College Algebra. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 97 or equivalent.
DESCRIPTION: Functions, polynomials, theory of equations, exponential and logarithmic functions, matrices, determinants, systems of linear equations, permutations, combinations, binomial theorem.

MATH 111 : Trigonometry. (2:2:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Circular functions, triangle relationships, identities, inverse trig functions, trigonometric equations, vectors, complex numbers, DeMoivre's theorem.

MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

: Honors Calculus 1.

MATH 113 : Calculus 2. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
NOTE: Honors also.

: Honors Calculus 2.

MATH 119 : Introduction to Calculus. (4:4:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Introduction to plane analytic geometry and calculus.
NOTE: For students in the College of Life Sciences and the Marriott School of Management.

MATH 121R : Seminar in Mathematics. (.5:1:0)
OFFERED: F, W
RECOMMENDED: Math 112, 113.
DESCRIPTION: Careers, topics, and problems in mathematics.

MATH 190 : Fundamentals of Mathematics. (3:3:0)
OFFERED: F, W
PREREQUISITE: Math 112 or concurrent enrollment with instructor's consent.
DESCRIPTION: Achieving maturity in mathematical communication. Introduction to mathematical proof; methods of proof; analysis of proof; induction; logical reasoning.

200-Level Courses

MATH 214 : Calculus of Several Variables. (3:3:0)

OFFERED: F, W, Sp, Su
PREREQUISITE: Math 113; 343 or concurrent enrollment.
DESCRIPTION: Partial differentiation, the Jacobian matrix, and integral theorems of vector calculus.

300-Level Courses

MATH 300 : (Math-MthEd) History and Philosophy of Mathematics. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Math 113.
DESCRIPTION: Historical development of important mathematical ideas and philosophies; implications for the mathematical curriculum.

MATH 302 : Mathematics for Engineering 1. (4:4:0)
OFFERED: F, W
PREREQUISITE: Math 113 and passing grade on required preparatory exam taken during first week of class. (Practice exams available on class Website).
DESCRIPTION: Multivariable calculus, linear algebra, and numerical methods.

MATH 303 : Mathematics for Engineering 2. (4:4:0)
OFFERED: F, W
PREREQUISITE: Math 302; or Math 214 and 343.
DESCRIPTION: ODEs, Laplace transforms, Fourier series, PDEs, numerical methods.

MATH 315 : Theory of Analysis. (3:3:0)
OFFERED: F, W
PREREQUISITE: Math 113, 190, 343.
DESCRIPTION: Rigorous treatment of calculus of single and several variables. Topics include uniform continuity, metric spaces, Riemann integral, implicit function theorem, and integral theorems of vector calculus.

MATH 316 : Theory of Analysis. (3:3:0)
OFFERED: F, W
PREREQUISITE: Math 315.
DESCRIPTION: Rigorous treatment of calculus of single and several variables. Topics include uniform continuity, metric spaces, Riemann integral, implicit function theorem, and integral theorems of vector calculus.

MATH 331 : (Math - EC En 370) Probability Theory. (3:3:0)
OFFERED: F
PREREQUISITE: Math 343.
DESCRIPTION: Axiomatic probability theory, conditional probability, discrete / continuous random variables, expectation, conditional expectation, moments, functions of random variables, multivariate distributions, laws of large numbers, central limit theorem.

MATH 332 : Introduction to Complex Analysis. (3:3:0)
OFFERED: F, W
PREREQUISITE: Math 214 or 316.
DESCRIPTION: Complex algebra, analytic functions, integration in the complex plane, infinite series, theory of residues, conformal mapping.

MATH 334 : Ordinary Differential Equations. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 113, 343.
DESCRIPTION: Methods and theory of ordinary differential equations.

MATH 343 : Elementary Linear Algebra. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or 119.
DESCRIPTION: Linear systems, matrices, vectors and vector spaces, linear transformations, determinants, inner product spaces, eigenvalues, and eigenvectors.

: Honors Elementary Linear Algebra.

MATH 347 : Introduction to Partial Differential Equations. (3:3:0)
OFFERED: W, Su
PREREQUISITE: Math 303 or 334.
DESCRIPTION: Boundary value problems; transform methods; Fourier series; Bessel functions; Legendre polynomials.

MATH 350 : Combinatorics. (3:3:0)
OFFERED: Su
PREREQUISITE: Math 343, 371.
DESCRIPTION: Permutations, combinations, recurrence relations, applications.

MATH 355 : Graph Theory. (3:3:0)
OFFERED: W
PREREQUISITE: Math 343.
DESCRIPTION: Maps, graphs and digraphs, coloring problems, applications.

MATH 362 : (Math-MthEd) Survey of Geometry. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Math 112, 190.
DESCRIPTION: Logical and historical development of Euclidean and non-Euclidean geometry, transformations and symmetry; relationships among axiomatic systems; use of software and other geometric models; proofs and Van Hiele levels.

MATH 371 : Abstract Algebra. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Math 190, 343.
DESCRIPTION: Groups, rings, fields, vector spaces, linear transformations, matrices, field extensions, etc.

MATH 372 : Abstract Algebra. (3:3:0)
OFFERED: F, W
PREREQUISITE: Math 371.
DESCRIPTION: Groups, rings, fields, vector spaces, linear transformations, matrices, field extensions, etc.

MATH 387 : Number Theory. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: Math 343, 371.
DESCRIPTION: Foundations; congruences; quadratic reciprocity; unique factorization, prime distribution or Diophantine equations.

MATH 391R : Seminar in Mathematics. (1:1:0)
OFFERED: F, W
DESCRIPTION: Topics from classical problems of antiquity, combinatorial mathematics, graph theory, real functions, number theory, functional equations.

MATH 399R : Academic Internship. (.5-9:9:0)
OFFERED: On demand
DESCRIPTION: On-the-job experience.

400-Level Courses

MATH 410 : Introduction to Numerical Methods. (3:3:0)
OFFERED: F
PREREQUISITE: Math 214, 343.
DESCRIPTION: Root finding, interpolation, curve fitting, numerical differentiation and integration, multiple integrals, direct solvers for linear systems, least squares, rational approximations, Fourier and other orthogonal methods.

MATH 411 : Numerical Methods. (3:3:0)
OFFERED: W
PREREQUISITE: Math 334, 410.
DESCRIPTION: Iterative solvers for linear systems, eigenvalue, eigenvector approximations, numerical solutions to nonlinear systems, numerical techniques for initial and boundary value problems, elementary solvers for PDEs.

MATH 435 : Mathematical Finance. (3:3:0)
OFFERED: W
PREREQUISITE: Math 331.
DESCRIPTION: The binomial asset pricing model (discrete probability). Martingales, pricing of derivative securities, random walk in financial models, random interest rates.

MATH 451 : Introduction to Topology. (3:3:0)
OFFERED: W
PREREQUISITE: Math 315.
DESCRIPTION: Developing topological concepts, beginning from a linear setting. Developing proofs or counterexamples from axioms to a structured sequence of topological propositions using only notes provided.

MATH 460R : Topics in Geometry. (3:3:0)
OFFERED: On demand
PREREQUISITE: Math 343, 362, or equivalent.
DESCRIPTION: Topics selected from the various aspects of synthetic, analytic, algebraic, and differential geometry.

MATH 465 : Differential Geometry. (3:3:0)
PREREQUISITE: Math 214; 315 or equivalent.
RECOMMENDED: Math 316 or equivalent.
DESCRIPTION: Geometry of smooth curves and surfaces. Topics include the first and second fundamental forms, the Gauss map, orientability of surfaces, Gaussian and mean curvature, geodesics, minimal surfaces and the Gauss-Bonnet Theorem.

MATH 480 : Mathematical Models. (3:3:0)
OFFERED: On demand
PREREQUISITE: Math 214, 334, 343, 410.
DESCRIPTION: Construction, solution, and interpretation of discrete and continuous models applied to problems in the physical, natural, and social sciences.

MATH 495R : Readings in Mathematics. (.5-2:0:3)
OFFERED: F, W, Sp, Su
PREREQUISITE: instructor's consent.
DESCRIPTION: Directed readings beyond the scope of usual undergraduate courses.

MATH 499R : Senior Thesis. (.5-3:0:3)
OFFERED: F, W, Sp, Su

500-Level Graduate Courses (available to advanced undergraduates)

MATH 510 : Numerical Methods for Linear Algebra. (3:3:0)
OFFERED: F
PREREQUISITE: Math 343, 410; or equivalents.
DESCRIPTION: Numerical matrix algebra, orthogonalization and least squares methods, unsymmetric and symmetric eigenvalue problems, iterative methods, advanced solvers for partial differential equations.

MATH 511 : Numerical Methods for Partial Differential Equations. (3:3:0)
OFFERED: W
PREREQUISITE: Math 303 or 347; 410; or equivalents.
DESCRIPTION: Finite difference and finite volume methods for partial differential equations. Stability, consistency, and convergence theory.

MATH 513R : Advanced Topics in Applied Mathematics. (3:3:0)
OFFERED: On demand
PREREQUISITE: instructor's consent

MATH 521 : Methods of Applied Mathematics 1. (3:3:0)
OFFERED: Sp
PREREQUISITE: Math 334, 343; or equivalents.
DESCRIPTION: Possible topics include variational, integral, and partial differential equations; spectral and transform methods; nonlinear waves; Green's functions; scaling and asymptotic analysis; perturbation theory; continuum mechanics.

MATH 522 : Methods of Applied Mathematics 2. (3:3:0)
OFFERED: On demand.
PREREQUISITE: Math 334, 343; or equivalents.
DESCRIPTION: Possible topics include variational, integral, and partial differential equations; spectral and transform methods; nonlinear waves; Green's functions; scaling and asymptotic analysis; perturbation theory; continuum mechanics.

MATH 532 : Complex Analysis. (3:3:0)
OFFERED: Su
PREREQUISITE: Math 332 or instructor`s consent.
DESCRIPTION: Introduction to theory of complex analysis at beginning graduate level. Topics: Cauchy integral equations, Riemann surfaces, Picard's theorem, etc.

MATH 534 : Introduction to Dynamical Systems 1. (3:3:0)
OFFERED: W
PREREQUISITE: Math 315, 334; or equivalents.
DESCRIPTION: Discrete dynamical systems; iterations of maps on the line and the plane; bifurcation theory; chaos, Julia sets, and fractals. Computational experimentation.

MATH 541 : Real Analysis. (3:3:0)
OFFERED: F
PREREQUISITE: Math 315, 343; 214 or 316.
DESCRIPTION: Rigorous treatment of differentiation and integration theory; Lebesque measure; Banach spaces.

MATH 542 : Real Analysis. (3:3:0)
OFFERED: W
PREREQUISITE: Math 315, 343; 214 or 316.
DESCRIPTION: Rigorous treatment of differentiation and integration theory; Lebesque measure; Banach spaces.

MATH 543 : Advanced Probability 1. (3:3:0)
OFFERED: F
PREREQUISITE: Math 214 or equivalent.
RECOMMENDED: Math 314, 315, Stat 441; or equivalents.
DESCRIPTION: Probability theory and its applications. Topics include random variables, independence and conditioning, laws of large numbers, random walks, martingales, Markov chains, renewal processes, ergodic theorems, Brownian motion, and stochastic integration.

MATH 544 : Advanced Probability 2. (3:3:0)
OFFERED: W
PREREQUISITE: Math 214 or equivalent.
RECOMMENDED: Math 315, 316, Stat 441; or equivalents.
DESCRIPTION: Probability theory and its applications. Topics include random variables, independence and conditioning, laws of large numbers, random walks, martingales, Markov chains, renewal processes, ergodic theorems, Brownian motion, and stochastic integration.

MATH 547 : Partial Differential Equations 1. (3:3:0)
OFFERED: On demand
PREREQUISITE: Math 214, 334; or equivalents.
RECOMMENDED: Math 314, 315; or equivalents.
DESCRIPTION: Topics include the method of characteristics, elliptic equations, potential theory, parabolic equations and systems, maximum principles, linear and nonlinear waves, Hamilton-Jacobi equations, Fourier transforms, Green's functions, distributions, and energy methods.

MATH 548 : Partial Differential Equations 2. (3:3:0)
OFFERED: On demand
PREREQUISITE: Math 214, 334; or equivalents.
RECOMMENDED: Math 315, 316; or equivalents.
DESCRIPTION: Topics include the method of characteristics, elliptic equations, potential theory, parabolic equations and systems, maximum principles, linear and nonlinear waves, Hamilton-Jacobi equations, Fourier transforms, Green's functions, distributions, and energy methods.

MATH 553 : Foundations of Topology 1. (3:3:0)
OFFERED: F
PREREQUISITE: Math 451 or instructor's consent.
DESCRIPTION: Naive set theory, topological spaces, product spaces, subspaces, continuous functions, connectedness, compactness, countability, separation axioms, metrization, complete metric spaces, function spaces, and Baire spaces.

MATH 554 : Foundations of Topology 2. (3:3:0)
OFFERED: W
PREREQUISITE: Math 553 or instructor's consent.
DESCRIPTION: Fundamental group, retractions and fixed points, homotopy types, separation theorems, classification of surfaces, Seifert-van Kampen Theorem, classification of covering spaces, and applications to group theory.

MATH 561 : Introduction to Algebraic Geometry. (3:3:0)
OFFERED: F
PREREQUISITE: Math 671 or concurrent enrollment.
DESCRIPTION: Projective varieties, curves, surfaces, differential forms, and divisors.

MATH 562 : Introduction to Algebraic Geometry. (3:3:0)
OFFERED: W
PREREQUISITE: Math 671 or concurrent enrollment.
DESCRIPTION: Projective varieties, curves, surfaces, differential forms, and divisors.

MATH 570 : Matrix Analysis. (3:3:0)
PREREQUISITE: Math 302 or 343; or equivalents.
DESCRIPTION: Special classes of matrices, canonical forms, matrix and vector norms, localization of eigenvalues, matrix functions, applications.

MATH 586 : Introduction to Algebraic Number Theory. (3:3:0)
OFFERED: W
PREREQUISITE: Math 372 or equivalent; instructor's consent.
DESCRIPTION: Algebraic integers; different and discriminant; decomposition of primes; class group; Dirichlet unit theorem; Dedekind zeta function; cyclotomic fields; valuations; completions.

MATH 587 : Introduction to Analytic Number Theory. (3:3:0)
OFFERED: F
PREREQUISITE: Math 332 or equivalent; instructor's consent.
DESCRIPTION: Arithmetical functions; distribution of primes; Dirichlet characters; Dirichlet's theorem; Gauss sums; primitive roots; Dirichlet L-functions; Riemann zeta-function; prime number theorem; partitions.

Graduate Courses

For 600- and 700-level courses, see the BYU 2008–2009 Graduate Catalog.

Mathematics Faculty

Professors

Baker, Roger C

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Mathematics
RANK: Professor
DEGREES: BS, Birkbeck College, London, 1968
PhD, Birkbeck College, London, 1971

Barrett, Wayne Walton

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Mathematics
RANK: Professor
DEGREES: BS, University of Utah, 1968
MS, New York University, 1975
PhD, New York University, 1975

Cannon, James W

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Mathematics
RANK: Professor
DEGREES: BA, University of Utah, 1967
PhD, University of Utah, 1969

Chahal, Jasbir S

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Mathematics
RANK: Professor
DEGREES: MA, Punjab University, India 1970
PhD, Johns Hopkins University, 1979

Fearnley, Lawrence

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Mathematics
RANK: Professor
DEGREES: BS, University of London, 1953
PhD, University of Utah, 1959

Forcade, Rodney W

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Mathematics
RANK: Professor
DEGREES: BS, University of Chicago, 1961
MS, University of Chicago, 1963
PhD, University of Washington, 1971

Humphries, Stephen P

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Mathematics
RANK: Professor
DEGREES: BSc, University of Wales, 1974
MSc, University of Wales, 1978
PhD, University of Wales, 1983

Jarvis, Tyler J

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Mathematics
RANK: Professor
DEGREES: BS, Brigham Young University, 1989
MS, Brigham Young University, 1990
MA, Princeton University, 1992
PhD, Princeton University, 1994

Kuttler, Kenneth L

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Mathematics
RANK: Professor
DEGREES: BS, Brigham Young University, 1974
MS, Brigham Young University, 1976
PhD, University of Texas, Austin, 1981

Lang, William E

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Mathematics
RANK: Professor
DEGREES: BA, Carleton College, 1974
MS, Yale University, 1975
PhD, Harvard University, 1978

Lu, Kening

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Mathematics
RANK: Professor
DEGREES: BS, Sichuan University, China, 1982
MS, Sichuan University, China, 1985
PhD, Michigan State University, 1988

Ouyang, Tiancheng

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Mathematics
RANK: Professor
DEGREES: MS, Nankai University, China, 1981
PhD, University of Minnesota, Minneapolis, 1989

Smith, William V.

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Mathematics
RANK: Professor
DEGREES: BS, University of Utah, 1973
PhD, University of Utah, 1978

Wright, David Grant

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Mathematics
RANK: Professor
DEGREES: BS, Brigham Young University, 1970
MA, University of Wisconsin, Madison, 1972
PhD, University of Wisconsin, Madison, 1973

Associate Professors

Cardon, David Alan

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Mathematics
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1990
MS, Stanford University, 1993
PhD, Stanford University, 1996

Chow, Shue-Sum

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Mathematics
RANK: Associate Professor
DEGREES: BS, University of Canterbury, New Zealand, 1979
PhD, Australian National University, Australia, 1983

Conner, Gregory

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Mathematics
RANK: Associate Professor
DEGREES: BA, Humboldt State University, 1987
MS, University of Utah, 1989
PhD, University of Utah, 1992

Dallon, John Carlile

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Mathematics
RANK: Associate Professor
DEGREES: BA, University of Utah, 1989
MS, University of Utah, 1991
PhD, University of Utah, 1996

Dorff, Michael John

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Mathematics
RANK: Associate Professor
DEGREES: BA, Brigham Young University, 1986
MS, University of New Hampshire, 1992
PhD, University of Kentucky, Lexington, 1997

Civilization 2: Arts.
DESCRIPTION: Colloquium or seminar in the history of civilization from ca. A.D. 1500 to the present.
HONRS 204R : Fine Arts. (3-6:ARR:ARR)
Fine Arts.
HONRS 205R : Humanities. (3-6:ARR:ARR)
Humanities.
HONRS 209R* : Arts: Global and Cultural Awareness. (3-6:ARR:0)
Arts: Global and Cultural Awareness.
HONRS 304R : Fine Arts. (3-6:ARR:ARR)
Fine Arts.
HONRS 306R : Humanities. (3-6:ARR:ARR)
Humanities.
HONRS 309R* : Arts: Global and Cultural Awareness. (3-6:ARR:0)
Arts: Global and Cultural Awareness.

Letters

HONRS 202* : Civilization 2: Letters. (3:3:0)
Civilization 2: Letters.
HONRS 203R : Literature. (3-6:ARR:ARR)
Literature.
HONRS 205R : Philosophy. (3-6:ARR:ARR)
Philosophy.
HONRS 206R : Humanities. (3-6:ARR:ARR)
Humanities.
HONRS 208R* : Letters: Global and Cultural Awareness. (3-6:ARR:0)
Letters: Global and Cultural Awareness.
HONRS 303R : Literature. (3-6:ARR:ARR)
Literature.
HONRS 305R : Philosophy. (3-6:ARR:ARR)
Philosophy.
HONRS 306R : Humanities. (3-6:ARR:ARR)
Humanities.
HONRS 308R* : Letters: Global and Cultural Awareness. (3-6:ARR:0)
Letters: Global and Cultural Awareness.

Scientific Principles and Reasoning

HONRS 259 : Physical Science Principles and Reasoning. (3:3:0)
Physical Science Principles and Reasoning.
HONRS 260 : Biological Science Principles and Reasoning. (3:3:0)
Biological Science Principles and Reasoning.
HONRS 261 : Social Science Principles and Reasoning. (3:3:0)
Social Science Principles and Reasoning.

Doud, Darrin M

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Mathematics
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1992
MS, Brigham Young University, 1993
MS, University of Illinois, Urbana-Champaign, 1999
PhD, University of Illinois, Urbana-Champaign, 1999

Glasgow, Scott Alan

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Mathematics
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1988
PhD, University of Arizona, 1993

Grant, Christopher P

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Mathematics
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1986
MS, Brigham Young University, 1988
PhD, University of Utah, 1991

Halverson, Denise M

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Mathematics
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1989
MS, Brigham Young University, 1994
PhD, University of Tennessee, Knoxville, 1999

Li, Xian-Jin

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Mathematics
RANK: Associate Professor
DEGREES: BS, Hunan Normal University, China, 1982
MS, Academia Sinica, Beijing, China, 1985
PhD, Purdue University, 1993

Swenson, Eric Lewis

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Mathematics
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1987
PhD, Brigham Young University, 1993

Tolman, Lawrence Kirk

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Mathematics
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1960
MS, Brigham Young University, 1961
PhD, University of New Mexico, 1972

Villamizar, Vianey

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Mathematics
RANK: Associate Professor
DEGREES: BS, Universidad Central de Venezuela, 1977
MS, Universidad Central de Venezuela, 1983
PhD, Rensselaer Polytechnic Institute, 1987

Assistant Professors

Bakker, Lennard Frank

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Mathematics
RANK: Assistant Professor
DEGREES: BS, University of Victoria, Canada, 1991
MS, University of Victoria, Canada, 1993
PhD, Queen's University, Canada, 1997

Fisher, Todd

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Mathematics
RANK: Assistant Professor
DEGREES: BS, Brigham Young University, 1998
MS, Brigham Young University, 1999
PhD, Northwestern University, 2004

Humpherys, Jeffrey C

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Mathematics
RANK: Assistant Professor
DEGREES: BS, Utah State University, 1995
MA, Indiana University, 1997
PhD, Indiana University, 2002

Purcell, Jessica

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Mathematics
RANK: Assistant Professor
DEGREES: BA, University of Utah, 1998
MS, University of Michigan, 1999
PhD, Stanford University, 2004

Associate Teaching Professor

McKay, Steven M

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Mathematics
RANK: Associate Teaching Professor
DEGREES: BS, Utah State University, 1983
MS, Utah State University, 1985

Admission to Degree Program

Candidates for all teacher preparation programs are required to complete an application that includes core criteria for each program. Applications are available from the Mathematics Education Department.

The Discipline

Mathematics is the discipline through which we make sense of the order, patterns, and quantitative situations we perceive in the world around us. The foundational skills of this discipline—the abilities to formulate, focus, and solve problems; to articulate, test, and justify conjectures; to communicate one's reasoning about quantities and the relationships between them; and to see connections between different mathematical ideas and real-world contexts—are highly valued in society and are characteristics of any educated person. Mathematics is not only a body of knowledge but also a process of analysis, reasoning, comparison, deduction, generalization, and problem solving.

Mathematics educators depend heavily upon their own understanding of mathematics in order to identify and articulate the mathematical ideas they want students to learn, to assess which concepts their students already possess that might serve as a foundation for learning, and to develop activities that help students develop rich understandings. They also use their understanding of the nature of the discipline to structure a culture of inquiry, reasoning, and problem solving in their classrooms.

Courses in the undergraduate program are designed to help prospective teachers plan, manage, and implement classroom activities that facilitate students' learning of mathematics. Specific program goals include (1) mastery of the foundational skills of mathematics, (2) deep reflection on mathematics learning at all levels through observation of and participation in high-quality classroom practice, (3) increased autonomy and confidence as an investigator, active learner, and productive thinker, and (4) extended field experience, informed by the best current understanding.

Program faculty include educational and mathematical researchers, specialists in both preservice and inservice teacher education, and school practitioners, spanning a broad range of interest and experience.

Career Opportunities

Majors in mathematics education prepare for careers in teaching at the middle school and junior and high school levels or graduate studies in the field.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Major

BS in Mathematics Education

Minor

Mathematics Education

Students should see their college advisement center and department advisors for information concerning the undergraduate programs.

Graduate Programs and Degrees

MA in Mathematics Education

For more information see the BYU 2008–2009 Graduate Catalog.

Advisement

Upon completion of five core courses (Math 112 [honors section], 113 [honors section], 190, MthEd 117, Sc Ed 276R), undergraduate majors are required to meet with the undergraduate advisor to begin the program admissions process. Students whose grade point averages are less than a B in the first five core courses need to realize that advanced courses require much more depth of understanding and may be difficult for them.

Students who are considering graduate work in mathematics education may receive advice from the graduate coordinator.

General Information

It is recommended that a student complete the following courses in high school:

- 4 units of English.
- 1 unit of physics or chemistry.
- 4 units of mathematics, including 2.5 units of algebra, 1 unit of geometry, and .5 unit of trigonometry. This qualifies a student to begin college mathematics with Math 112 (honors section). If calculus is available in high school, a student planning to major in mathematics education is strongly encouraged to take it; doing so requires completing one of the preceding algebra units before high school.
- Advanced Placement (AP) credit is available in mathematics as follows:
  - A score of 3 on the calculus AB exam gives credit in Math 110 and 111; a score of 4 or 5 on the calculus AB exam gives credit in Math 110 and 112.
  - A score of 3, 4, or 5 on the calculus BC exam gives credit in Math 112 and 113.
  - An AP student without credit in Math 112 must begin with Math 112 (honors section); an AP student without credit in Math 113 must begin with Math 112 or 113 (honors sections).
  - AP students with credit in Math 113 are urged to begin with Math 113 (honors section) anyway, unless they scored 5 on the calculus BC exam.
  - AP students should direct Educational Testing Service (ETS) to report scores to BYU to have credit posted.

Questions regarding placement should be directed to the Mathematics Education Department, 167 TMCB.

Program Requirements | View MAP

1. Grades below C- will not be acceptable in major courses.

2. Complete the following core requirements:

MTHED 117 : Critical Review of School Mathematics. (3:3:0)
- OFFERED: F, W, Sp
- PREREQUISITE: Math 113.
- DESCRIPTION: Strengthen understanding of high-school mathematics; gain awareness as mathematics learners in learning communities; learn how to support collaborative communities as teachers.

MTHED 218 : Task Design and Assessment of Student Understanding. (3:3:0)
- OFFERED: F, W, Sp
- PREREQUISITE: Math 113, 190, 343, MthEd 117, Sc Ed 276R.
- DESCRIPTION: Building tasks that elicit important mathematical ideas. Reflecting on and assessing the success of tasks through questioning and other methods of formative assessment.

MTHED 308 : Mathematics Teaching with Technology. (3:3:0)
- OFFERED: F, W, Sp
- PREREQUISITE: Math 214, 343, 362; basic computer literacy.
- DESCRIPTION: Using technology to teach and understand mathematics. Math-specific software and calculators used to investigate Euclidean geometry, non-Euclidean geometry, algorithms, probabilities, etc., research regarding effectiveness.

MTHED 377 : Mathematics Teaching in the Public Schools. (3:3:0)
- OFFERED: F, W
- PREREQUISITE: Math 113, 190, 343, MthEd 117, 218, Sc Ed 276R, departmental consent.
- DESCRIPTION: Mathematics teaching practice in grades 7-12, including lesson/task design, curriculum evaluation, and classroom management in context of practice teaching.

MTHED 378 : Practicum in Mathematics Education. (1:0:3)
- OFFERED: F, W
- PREREQUISITE: MthEd 117, 218, Sc Ed 276R; concurrent enrollment in MthEd 377.
- DESCRIPTION: Implementing meaningful and engaging instruction for secondary students; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

Note 1: Prerequisites for all mathematics education courses will be strictly adhered to.

Note 2: Fingerprinting and FBI clearance must be completed prior to enrollment in MthEd 377.

3. Complete the following:

MATH 112 : Calculus 1. (4:5:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 110 and 111 or equivalent.
- DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
- NOTE: Honors also.

MATH 113 : Calculus 2. (4:5:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 112 or equivalent.

DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
NOTE: Honors also.

MATH 190 : Fundamentals of Mathematics. (3:3:0)
OFFERED: F, W
PREREQUISITE: Math 112 or concurrent enrollment with instructor's consent.
DESCRIPTION: Achieving maturity in mathematical communication. Introduction to mathematical proof; methods of proof; analysis of proof; induction; logical reasoning.

MATH 214 : Calculus of Several Variables. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 113; 343 or concurrent enrollment.
DESCRIPTION: Partial differentiation, the Jacobian matrix, and integral theorems of vector calculus.

MATH 315 : Theory of Analysis. (3:3:0)
OFFERED: F, W
PREREQUISITE: Math 113, 190, 343.
DESCRIPTION: Rigorous treatment of calculus of single and several variables. Topics include uniform continuity, metric spaces, Riemann integral, implicit function theorem, and integral theorems of vector calculus.

MATH 334 : Ordinary Differential Equations. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 113, 343.
DESCRIPTION: Methods and theory of ordinary differential equations.

MATH 343 : Elementary Linear Algebra. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or 119.
DESCRIPTION: Linear systems, matrices, vectors and vector spaces, linear transformations, determinants, inner product spaces, eigenvalues, and eigenvectors.

MATH 371 : Abstract Algebra. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Math 190, 343.
DESCRIPTION: Groups, rings, fields, vector spaces, linear transformations, matrices, field extensions, etc.

MTHED 300 : (MthEd-Math) History and Philosophy of Mathematics. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Math 113.
DESCRIPTION: Historical development of important mathematical ideas and philosophies; implications for the mathematical curriculum.

MTHED 362 : (MthEd-Math) Survey of Geometry. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Math 112, 190.
DESCRIPTION: Logical and historical development of Euclidean and non-Euclidean geometry, transformations and symmetry; relationships among axiomatic systems; use of software and other geometric models; proofs and Van Hiele levels.

STAT 301 : Statistics and Probability for Secondary Educators. (3:3:2)
OFFERED: F, Sp
PREREQUISITE: Math 113.
DESCRIPTION: Statistics and probability, emphasizing secondary-specific curriculum. Principles of counting, probability distributions, density functions, graphical methods, descriptive and inferential statistics, computer package.

Note: Math 112 and 113 must be honors sections.

4. Complete one course from the following:
MATH 350 : Combinatorics. (3:3:0)
OFFERED: Su
PREREQUISITE: Math 343, 371.
DESCRIPTION: Permutations, combinations, recurrence relations, applications.

MATH 355 : Graph Theory. (3:3:0)

OFFERED: W
PREREQUISITE: Math 343.
DESCRIPTION: Maps, graphs and digraphs, coloring problems, applications.

MATH 387 : Number Theory. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: Math 343, 371.
DESCRIPTION: Foundations; congruences; quadratic reciprocity; unique factorization, prime distribution or Diophantine equations.

5. A teaching minor is not needed for licensure. However, it is strongly recommended.

6. Complete the Professional Education Component:
   a. Complete the following:

CPSE 402 : Educating Students with Disabilities in Secondary Classrooms. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or comparable major course.
DESCRIPTION: Issues, policies, and methods in teaching secondary students with disabilities in general education classrooms. Lab.

SC ED 276R : Exploration of Teaching. (3-4:ARR:ARR)
OFFERED: F, W
PREREQUISITE: Major-area preadmission requirements.
DESCRIPTION: Field-based initial teaching experience directed at helping prospective teachers experience demands and opportunities associated with teaching secondary students.

: Exploration of Teaching - Theatre and Media Arts.
: Exploration of Teaching: English.
: Exploration of Teaching: Foreign Language.
: Exploration of Teaching: Music.
: Exploration of Teaching: Social Science.
: Exploration of Teaching: Art.
: Exploration of Teaching: Biological Sciences.
: Exploration of Teaching: Dance.
: Exploration of Teaching: Exercise Sciences.
: Exploration of Teaching: Family and Consumer Sciences.
: Exploration of Teaching: Health.
: Exploration of Teaching: Mathematics.
: Exploration of Teaching: Physical Science.
: Exploration of Teaching: Technology Teacher Education.

(Four hours required)

SC ED 350 : Adolescent Development in an Education Context. (2:2:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Sc Ed 276R or comparable major course.
DESCRIPTION: Adolescent development and its implications for integrated school culture, curriculum design, instructional practices, and assessment.

SC ED 353 : Multicultural Education. (2:2:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or comparable major course.
DESCRIPTION: Designing and adapting instruction for diverse learners, collaborating with families, cultures, and communities in promoting and sustaining learning.

SC ED 379 : Classroom Management. (1:1:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Concurrent enrollment in Sc Ed 377R and 378, or equivalent major courses.
DESCRIPTION: Current theory, research, and application in classroom management; creating positive teacher-student and peer relationships; developing optimal learning environments.

   b. Complete 12 hours of one of the following:

SC ED 476R : Secondary Student-Teaching Internship. (12:ARR:ARR)
OFFERED: F, W
PREREQUISITE: Completion of all course work or departmental approval.
DESCRIPTION: Capstone, field-based, semester-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

: Secondary Student Teaching Internship - Theatre and Media Arts.
: Secondary Student-Teaching Internship - Art.
: Secondary Student-Teaching Internship - Biological Sciences.

: Secondary Student-Teaching Internship - Dance.
: Secondary Student-Teaching Internship - English.
: Secondary Student-Teaching Internship - Foreign Language.
: Secondary Student-Teaching Internship - French.
: Secondary Student-Teaching Internship - German.
: Secondary Student-Teaching Internship - Health.
: Secondary Student-Teaching Internship - Home Economics.
: Secondary Student-Teaching Internship - Mathematics.
: Secondary Student-Teaching Internship - Music.
: Secondary Student-Teaching Internship - Physical Education.
: Secondary Student-Teaching Internship - Physical Science.
: Secondary Student-Teaching Internship - Social Science.
: Secondary Student-Teaching Internship - Spanish.
: Secondary Student-Teaching Internship - Technology Teacher Education.

SC ED 496R : Academic Internship: Secondary Education. (12:ARR:ARR)
OFFERED: F, W
PREREQUISITE: Completion of all course work or departmental approval.
DESCRIPTION: Capstone, field-based, year-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

: Academic Internship: Biological Sciences.
: Academic Internship: English.
: Academic Internship: Mathematics.
: Academic Internship: Social Sciences.
: Academic Internship: Physical Sciences.

*Hours include courses that may fulfill university core requirements.

Minor in Mathematics Education (33 hours*)

Show All Course Descriptions
Hide All Course Descriptions

The mathematics education minor is intended for students who are pursuing secondary education licensure through the David O. McKay School of Education.

Program Requirements

1. Grades below C- will not be accepted.

2. Complete the following:

MATH 112 : Calculus 1. (4:5:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 110 and 111 or equivalent.
- DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
- NOTE: Honors also.

MATH 113 : Calculus 2. (4:5:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 112 or equivalent.
- DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
- NOTE: Honors also.

MATH 190 : Fundamentals of Mathematics. (3:3:0)
- OFFERED: F, W
- PREREQUISITE: Math 112 or concurrent enrollment with instructor's consent.
- DESCRIPTION: Achieving maturity in mathematical communication. Introduction to mathematical proof; methods of proof; analysis of proof; induction; logical reasoning.

MATH 343 : Elementary Linear Algebra. (3:3:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 112 or 119.
- DESCRIPTION: Linear systems, matrices, vectors and vector spaces, linear transformations, determinants, inner product spaces, eigenvalues, and eigenvectors.

MATH 362 : (Math-MthEd) Survey of Geometry. (3:3:0)
- OFFERED: F, W, Su
- PREREQUISITE: Math 112, 190.
- DESCRIPTION: Logical and historical development of Euclidean and non-Euclidean geometry, transformations and symmetry; relationships among axiomatic systems; use of software and other geometric models; proofs and Van Hiele levels.

MTHED 117 : Critical Review of School Mathematics. (3:3:0)
- OFFERED: F, W, Sp
- PREREQUISITE: Math 113.
- DESCRIPTION: Strengthen understanding of high-school mathematics; gain awareness as mathematics learners in learning communities; learn how to support collaborative communities as teachers.

MTHED 218 : Task Design and Assessment of Student Understanding. (3:3:0)
- OFFERED: F, W, Sp
- PREREQUISITE: Math 113, 190, 343, MthEd 117, Sc Ed 276R.
- DESCRIPTION: Building tasks that elicit important mathematical ideas. Reflecting on and assessing the success of

tasks through questioning and other methods of formative assessment.

MTHED 308 : Mathematics Teaching with Technology. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Math 214, 343, 362; basic computer literacy.
DESCRIPTION: Using technology to teach and understand mathematics. Math-specific software and calculators used to investigate Euclidean geometry, non-Euclidean geometry, algorithms, probabilities, etc., research regarding effectiveness.

MTHED 377 : Mathematics Teaching in the Public Schools. (3:3:0)
OFFERED: F, W
PREREQUISITE: Math 113, 190, 343, MthEd 117, 218, Sc Ed 276R, departmental consent.
DESCRIPTION: Mathematics teaching practice in grades 7-12, including lesson/task design, curriculum evaluation, and classroom management in context of practice teaching.

MTHED 378 : Practicum in Mathematics Education. (1:0:3)
OFFERED: F, W
PREREQUISITE: MthEd 117, 218, Sc Ed 276R; concurrent enrollment in MthEd 377.
DESCRIPTION: Implementing meaningful and engaging instruction for secondary students; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

STAT 301 : Statistics and Probability for Secondary Educators. (3:3:2)
OFFERED: F, Sp
PREREQUISITE: Math 113.
DESCRIPTION: Statistics and probability, emphasizing secondary-specific curriculum. Principles of counting, probability distributions, density functions, graphical methods, descriptive and inferential statistics, computer package.

Undergraduate Courses

100-Level Courses

MTHED 117 : Critical Review of School Mathematics. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Math 113.
DESCRIPTION: Strengthen understanding of high-school mathematics; gain awareness as mathematics learners in learning communities; learn how to support collaborative communities as teachers.

200-Level Courses

MTHED 218 : Task Design and Assessment of Student Understanding. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Math 113, 190, 343, MthEd 117, Sc Ed 276R.
DESCRIPTION: Building tasks that elicit important mathematical ideas. Reflecting on and assessing the success of tasks through questioning and other methods of formative assessment.

300-Level Courses

MTHED 300 : (MthEd-Math) History and Philosophy of Mathematics. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Math 113.
DESCRIPTION: Historical development of important mathematical ideas and philosophies; implications for the mathematical curriculum.

MTHED 305 : Basic Concepts of Mathematics. (3:3:1)
OFFERED: F, W
PREREQUISITE: Math 110 or equivalent; permission from Teacher Education Department.
DESCRIPTION: Concept-oriented exploration of number, measurement, and informal geometry in relation to children's learning.
NOTE: Required of prospective elementary school teachers.

MTHED 306 : Concepts of Mathematics. (3:3:1)
OFFERED: F, W
PREREQUISITE: MthEd 305; permission from Teacher Education Department.
DESCRIPTION: Concept-oriented exploration of rational numbers and proportional reasoning, probability, and early algebraic reasoning in relation to children's learning.
NOTE: Required of prospective elementary school teachers.

MTHED 308 : Mathematics Teaching with Technology. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Math 214, 343, 362; basic computer literacy.
DESCRIPTION: Using technology to teach and understand mathematics. Math-specific software and calculators used to investigate Euclidean geometry, non-Euclidean geometry, algorithms, probabilities, etc., research regarding effectiveness.

MTHED 362 : (MthEd-Math) Survey of Geometry. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Math 112, 190.
DESCRIPTION: Logical and historical development of Euclidean and non-Euclidean geometry, transformations and symmetry; relationships among axiomatic systems; use of software and other geometric models; proofs and Van Hiele levels.

MTHED 377 : Mathematics Teaching in the Public Schools. (3:3:0)
OFFERED: F, W
PREREQUISITE: Math 113, 190, 343, MthEd 117, 218, Sc Ed 276R, departmental consent.
DESCRIPTION: Mathematics teaching practice in grades 7-12, including lesson/task design, curriculum evaluation, and classroom management in context of practice teaching.

MTHED 378 : Practicum in Mathematics Education. (1:0:3)
OFFERED: F, W
PREREQUISITE: MthEd 117, 218, Sc Ed 276R; concurrent enrollment in MthEd 377.
DESCRIPTION: Implementing meaningful and engaging instruction for secondary students; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

400-Level Courses

MTHED 495R : Readings in Mathematics Education. (.5-2:0:3)

OFFERED: F, W, Sp, Su
PREREQUISITE: instructor's consent.
DESCRIPTION: Directed readings beyond scope of usual undergraduate courses.

MTHED 499R : Senior Thesis. (.5-3:0:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: instructor's consent.

500-Level Graduate Courses (available to advanced undergraduates)

MTHED 550 : Problem Solving. (3:3:0)
OFFERED: On demand.
PREREQUISITE: Strong background in undergraduate mathematics; instructor's consent.
DESCRIPTION: Solving and building explanations and presenting solutions to conceptually important problems. Connections between problem solving and understanding, and implications for teaching and learning.

MTHED 562 : Euclidean Geometry: Content, Learning, and Teaching. (3:3:0)
OFFERED: Alternate years on demand.
PREREQUISITE: Math 362 or equivalent.
DESCRIPTION: Euclidean geometry, including classical problems, polyhedra, transformations, congruence, similarity, integer geometry, minimization; technology in geometry, Van Hiele levels, role of proof, and high school curriculum.

MTHED 585R : Research Practicum. (3:3:0)
OFFERED: Sp
PREREQUISITE: Graduate student status or instructor's consent.
DESCRIPTION: Hands-on introduction to department research projects. Data analysis, discussion of theoretical frameworks, and reflection on possible implications.

MTHED 590 : Foundational Issues in Learning Mathematics. (3:2:2)
PREREQUISITE: Teaching certificate or completion of student teaching.
DESCRIPTION: Introduction to research in mathematics learning; mathematical thinking; cognitive, social, and philosophical approaches to describing mathematics learning. Lab experience in classrooms.

MTHED 591 : Scholarly Inquiry in Mathematics Education. (3:2:2)
PREREQUISITE: MthEd 590.
DESCRIPTION: Introduction to scholarly inquiry in mathematics education; issues in research methodology. Lab experience in classrooms.

MTHED 598R : Topics in Mathematics Education. (.5-3:ARR:ARR)
PREREQUISITE: Instructor's consent.
DESCRIPTION: Includes specific research areas and curriculum studies of school mathematics topics (i.e. geometry, algebra, and calculus).

Graduate Courses

For 600- and 700-level courses, see the BYU 2008–2009 Graduate Catalog.

Admission to Degree Program

The degree program in the Department of Mechanical Engineering carries special enrollment limitations at the junior level. Please see Professional Program Acceptance below and the college advisement center for specific details.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Major

BS in Mechanical Engineering

Students should see their college advisement center for help or information concerning the undergraduate programs.

Graduate Programs and Degrees

MS in Mechanical Engineering
PhD in Mechanical Engineering

For more information see the BYU 2008–2009 Graduate Catalog.

The Discipline

Mechanical engineers work with concepts, ideas, and products that are primarily mechanical or energy related. Mechanical engineering is a broad discipline that prepares a person to contribute in a wide range of fields such as aerospace, computer graphics, power generation, machine tools, petroleum, agricultural and construction equipment, medicine, government, and all types of transportation. A mechanical engineer may work in research, design, analysis, manufacturing, testing, operations, sales, or management. Engineers use critical problem-solving methods and basic principles of mathematics and science to creatively solve problems.

Educational Objectives

The Brigham Young University Department of Mechanical Engineering undergraduate bachelor of science program pursues the following objectives:

1. Teach the fundamental concepts of math, science, and mechanical engineering to produce graduates who demonstrate technical excellence and provide service to their profession, community, family, and church.
2. Instill a desire and ability to learn continuously, both through study and faith, to enable graduates to meet the changing demands of their profession and personal life.
3. Provide practical and open-ended engineering experiences to develop graduates who think independently and demonstrate leadership and creativity.
4. Engage students in activities to produce graduates who communicate and work effectively and ethically with people of diverse backgrounds.

Program Outcomes

To assure that these objectives are reached, the department has articulated twelve outcomes of the BS program. Each student graduating from this program is expected to have:

1. A basic understanding of fundamental physical phenomena and governing principles.
2. The ability to develop and solve mathematical models of fundamental physical phenomena and apply them to predict the behavior of

engineering systems.

3. The ability to use engineering principles to design an innovative system, component, or process to meet desired needs.
4. The expertise to plan and conduct an experimental program and evaluate the results.
5. The ability to use modern engineering tools and techniques in engineering practice.
6. An understanding of manufacturing processes and planning.
7. Effective oral and written communication skills.
8. The ability to work with and lead others to accomplish goals.
9. An appreciation of history, philosophy, literature, science, and the fine arts and how they influence the culture and behavior of societies.
10. Personal behavior demonstrating and practicing high moral and ethical standards.
11. The ability to practice engineering in a global environment.
12. A desire for and commitment to lifelong learning and service.

All courses in the curriculum are designed to help achieve these outcomes.

The curriculum in mechanical engineering is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology, Inc. (ABET).

Career Opportunities

A bachelor of science degree in mechanical engineering provides widely recognized professional training for careers in industry, government, and other areas. Most industrial companies hire some mechanical engineers. Companies that make mechanical or energy-related products may hire mostly mechanical engineers. As a result, many mechanical engineering positions are available worldwide. Mechanical engineers have job opportunities in companies involved in such areas as aircraft and spacecraft design; manufacturing processes; product safety and reliability; solar energy; electronic equipment packaging and cooling; power plant design; jet, train, truck, and automobile engines; environmental protection; artificial intelligence; robotics; medical and hospital equipment; new material development and applications; and technical writing. Increasing numbers of positions utilize foreign language experience.

A graduate in mechanical engineering is prepared for advanced studies in the field as well as in a variety of other disciplines, including law, medicine, and business administration. Perhaps most important to graduates are the problem-solving strategies and thinking processes acquired in the study of mechanical engineering that help one to succeed in any area of endeavor.

General Information

Any student may choose to major in mechanical engineering and to enroll in all classes in the preprofessional program (items 1 and 2 under BS Mechanical Engineering Major Requirements).

Professional Program Acceptance

Students must be accepted into the professional program before they may take the professional Me En core or technical electives (items 4 and 5 in major requirements). To apply, students must have completed the following four courses at a college or university (neither AP nor concurrent enrollment credit meet this requirement):

1. One course from the basic science core (item 1 in the major requirements).
2. One course from the mathematics core (item 2 in the major requirements).
3. Me En 172.
4. CE En 103.

Only one repeat is allowed in any of these courses for purposes of determining professional program acceptance. If a student has taken more than four professional application courses or has repeated any of these courses, all grades received in the professional application courses will be considered in determining professional program acceptance.

A fixed number of students is granted acceptance to the professional program each year. Acceptance is based primarily upon the grade point average for the professional application courses. Because the class size is fixed, the GPA necessary for admission varies from year to year. Historically, students with a GPA of 2.9 or above in the professional application courses have been admitted to the professional program.

Normal application deadlines are June 1, October 1, and February 1. Applications from transfer students who have been admitted to the university may be considered at other times.

Professional program application forms are available in the college advisement center.

Academic Standards and Continuance

On gaining acceptance into the professional program, students must maintain a minimum university cumulative grade point average of 2.0. No more than 6 credit hours of grades below C- in major courses may be applied toward graduation. A professional program course may not be retaken more than once.

This is a limited-enrollment program requiring departmental admissions approval. Please see the college advisement center or the department office for information regarding requirements for admission to this major.

Program Requirements | View MAP

1. Complete the following basic science core:

CHEM 105 : General College Chemistry. (4:5:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
- DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energetics, electrochemistry, acids and bases, inorganic and organic chemistry.
- NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

PHSCS 123 : Principles of Physics 2. (3:3:1)
- OFFERED: F, W, Sp
- PREREQUISITE: Phscs 121.
- DESCRIPTION: Waves, thermal physics, optics, special relativity, and introduction to modern physics. Weekly lab.

PHSCS 220 : Principles of Physics 3. (3:3:1)
- OFFERED: F, W, Sp
- PREREQUISITE: Phscs 121 or equivalent; Math 113 or equivalent.
- DESCRIPTION: Electricity and magnetism. Weekly lab.

Note: Students without high school physics should start with Phscs 121.

2. Complete one of the following mathematics core sequences:
   a. MATH 112 : Calculus 1. (4:5:0)
      - OFFERED: F, W, Sp, Su
      - PREREQUISITE: Math 110 and 111 or equivalent.
      - DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
      - NOTE: Honors also.

      MATH 113 : Calculus 2. (4:5:0)
      - OFFERED: F, W, Sp, Su
      - PREREQUISITE: Math 112 or equivalent.
      - DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
      - NOTE: Honors also.

      MATH 302 : Mathematics for Engineering 1. (4:4:0)
      - OFFERED: F, W
      - PREREQUISITE: Math 113 and passing grade on required preparatory exam taken during first week of class. (Practice exams available on class Website).
      - DESCRIPTION: Multivariable calculus, linear algebra, and numerical methods.

      MATH 303 : Mathematics for Engineering 2. (4:4:0)
      - OFFERED: F, W
      - PREREQUISITE: Math 302; or Math 214 and 343.

DESCRIPTION: ODEs, Laplace transforms, Fourier series, PDEs, numerical methods.

b. MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

MATH 113 : Calculus 2. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
NOTE: Honors also.

MATH 214 : Calculus of Several Variables. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 113; 343 or concurrent enrollment.
DESCRIPTION: Partial differentiation, the Jacobian matrix, and integral theorems of vector calculus.

MATH 334 : Ordinary Differential Equations. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 113, 343.
DESCRIPTION: Methods and theory of ordinary differential equations.

MATH 343 : Elementary Linear Algebra. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or 119.
DESCRIPTION: Linear systems, matrices, vectors and vector spaces, linear transformations, determinants, inner product spaces, eigenvalues, and eigenvectors.

3. Complete the following preprofessional engineering courses:
CE EN 103 : Engineering Mechanics--Statics. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: Math 112 or 119 or concurrent enrollment (if 119, then Math 111 must have already been taken).
DESCRIPTION: Concepts of mechanics: force systems in equilibrium, resultants, friction, centroids, utilization of vector algebra.

CE EN 203 : Engineering Mechanics--Mechanics of Materials. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: CEEn 103.
DESCRIPTION: Fundamental concepts of elastic stress and strain relations; cylinders and spheres; torsion; beam theory, including bending stresses; deflections; and two-dimensional elastic theory.
NOTE: Independent Study also.

CE EN 204 : Engineering Mechanic--Dynamics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: CEEn 103 or Phscs 121.
DESCRIPTION: Concepts of dynamics applied to particles, systems of particles, rigid bodies, vibration systems, and nonrigid particles systems.
NOTE: Independent Study also.

EC EN 301 : Elements of Electrical Engineering. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 220; Math 303 or 334.
DESCRIPTION: Linear electric circuits, computer organization, and logic circuits for nonmajors.
NOTE: Fee.

ME EN 172 : Engineering Graphics--Principles and Applications. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Engineering and technology major status.
DESCRIPTION: Comprehensive applications of CAD-based national (ANSI) and international (ISO) graphics standards, including coordinate and geometric dimensioning and tolerancing practices, manufacturing, and product verification procedures.

ME EN 191 : New Student Seminar. (.5:1:0)

OFFERED: F, W
DESCRIPTION: Topics of special interest to new mechanical engineering majors.
NOTE: Required of all first-semester freshman and transfer students.

ME EN 250 : Science of Engineering Materials. (3:3:0)
OFFERED: F, W, Sp or Su
PREREQUISITE: Chem 105.
DESCRIPTION: Principles and properties of solid materials and their behavior as applied to engineering.

ME EN 282 : Manufacturing Processes. (3:2:3)
OFFERED: F, W, Sp or Su
PREREQUISITE: CEEn 203, MeEn 250.
DESCRIPTION: Common manufacturing processes, including technological limitations and economic considerations. Influence of product design on process selection and manufacturing efficiency.

4. Complete the following professional mechanical engineering core:

ME EN 312 : Fluid Mechanics. (3:3:1)
OFFERED: F, W, Sp or Su
PREREQUISITE: MeEn 373 or concurrent enrollment; 321, 363.
DESCRIPTION: Physics and modeling of fluid flow; fluid statics, dimensional analysis, momentum, internal and external viscous flow, compressible flow, and fluid machinery.

ME EN 321 : Thermodynamics. (3:3:0)
OFFERED: F, W, Sp or Su
PREREQUISITE: Phscs 123; Math 303 or 334.
DESCRIPTION: Fundamentals of thermal energy and work; principle of state, conservation of mass, conservation of energy, increase of entropy principle; application to thermal and mechanical processes.

ME EN 335 : Dynamic System Modeling and Analysis. (3:3:1)
OFFERED: F, W, Sp or Su
PREREQUISITE: Math 303 or 334, MeEn 363, 373, CEEn 204.
DESCRIPTION: Formulating mathematical models for mechanical, electrical, fluid, and combined systems; numerical solution of motion equations; first- and second-order systems, frequency response, and transfer functions.

ME EN 340 : Heat Transfer. (3:3:1)
OFFERED: F, W, Sp or Su
PREREQUISITE: MeEn 312.
DESCRIPTION: Fundamentals of heat transfer; basics of conduction, convection, and radiation; mass transfer by analogy; heat exchangers; computer applications to practical design and analysis problems.

ME EN 363 : Elementary Instrumentation. (3:3:1.5)
OFFERED: F, W, Sp or Su
PREREQUISITE: Math 303 or 334; ECEn 301; Engl 316 or concurrent enrollment.
DESCRIPTION: Fundamentals of mechanical measuring systems; sensors, signal conditioning, statistical error analysis, dynamic response, standards.

ME EN 372 : Mechanical System Design Fundamentals. (3:2:3)
OFFERED: F, W, Sp or Su
PREREQUISITE: CEEn 203, MeEn 172, 250, 282; 373 or concurrent enrollment.
DESCRIPTION: Static and dynamic stress and failure analysis for mechanical systems.

ME EN 373 : Introduction to Scientific Computing and Computer-Aided Engineering. (3:2:3)
OFFERED: F, W, Sp or Su
PREREQUISITE: Math 113; concurrent enrollment in Math 214 or 302.
DESCRIPTION: Computer programming for engineers taught in context of solving physical systems using numerical methods. Student will program solutions using the C++ language, spreadsheets, symbolic solvers, etc.

ME EN 475 : Integrated Product and Process Design 1. (3:2:3)
OFFERED: F, W
PREREQUISITE: MeEn 321, 363, 372, 373; senior standing (fewer than 30 hours remaining in the program) in mechanical engineering, manufacturing engineering technology, industrial design, or related disciplines with instructor's consent.
DESCRIPTION: Comprehensive two-semester design experience from conception to manufacturing planning and prototype. Product development process. Economic and manufacturing considerations. Intellectual property assignment agreement required.
NOTE: MeEn 475 and 476 must be taken in consecutive fall and winter semesters.

ME EN 476 : Integrated Product and Process Design 2. (3:2:3)
OFFERED: F, W
PREREQUISITE: MeEn 321, 363, 372, 373; senior standing (fewer than 30 hours remaining in the program) in mechanical engineering, manufacturing engineering technology, industrial design, or related disciplines with instructor's consent.
DESCRIPTION: Comprehensive two-semester design experience from conception to manufacturing planning and prototype. Product development process. Economic and manufacturing considerations. Intellectual property assignment agreement required.
NOTE: MeEn 475 and 476 must be taken in consecutive fall and winter semesters.

5. Complete the following supporting courses:
ENGL 316 : Technical Communication. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
PREREQUISITE: Engl 150 or equivalent; junior or senior status.
DESCRIPTION: Effective processes of written, oral, and visual technical communication, including collaborative processes. Writing for academic and professional audiences.
NOTE: Carries GE Advanced Written and Oral Communication credit.

STAT 332 : Quality Improvement for Industry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Math 112 or 119.
DESCRIPTION: Quality management philosophies (Deming, etc.) Strategies for continuous improvement. Graphical and numerical methods of data analysis. Process control charts. Design and analysis of experiments for process characterization and improvement.

6. Complete 15 hours (five courses) of technical electives.

The purpose of these courses is to strengthen the engineering education of the student by a) deepening the student's understanding of engineering and/or science fundamentals, b) helping the student learn to apply engineering fundamentals in specific areas of interest, and/or c) helping the student to develop critical skills related to engineering practice.

The technical electives are normally 400-level or higher mechanical engineering courses, but other courses may be used as long as the following requirements are met:

- At least three courses must be in mechanical engineering.
- No courses may be below the 300 level.
- A maximum of 3 credit hours in Me En 495R, 595R, or other independent project courses may be applied to meet technical elective requirements.
- All courses must be of an acceptable level from mechanical engineering, civil engineering, chemical engineering, computer engineering, electrical engineering, mathematics, statistics, physics, chemistry, or computer science; or be on the approved elective list in the department office. If a student wishes to count a course outside these areas as an elective, approval must be granted *before* the course is taken. Approval is requested by submitting a one-page petition to the department undergraduate committee that lists all of the proposed electives and demonstrates how the proposed exception meets the purposes described above.
- No course used to satisfy other major requirements for graduation may be used as an elective.

A. *General Elective Option*

Complete a total of 15 elective hours from the following:

1. Complete a minimum of 9 hours from 400- or 500-level mechanical engineering courses.
2. Complete a maximum of 6 hours of acceptable electives outside of mechanical engineering.

B. *Manufacturing Option*

The Society of Manufacturing Engineers has identified four areas of competency for manufacturing engineering as follows: (1) materials and manufacturing processes; (2) process, assembly and product engineering; (3) manufacturing competitiveness; and (4) manufacturing systems design.

An option in manufacturing engineering is available. It may be completed by taking the following 15 hours of technical electives:

1. Complete 3 hours from the following:
ME EN 585 : Manufacturing Competitiveness: Quality and Productivity. (3:3:0)
OFFERED: F
PREREQUISITE: Stat 332, Me En 282; or equivalents.
DESCRIPTION: Production strategies to improve quality, decrease cost, and increase throughput to create market advantage; effective production management systems; applying quality improvement tools to process data; theory of constraints and lean production.

MFG 532 : Manufacturing Systems. (3:2:2)
OFFERED: F
PREREQUISITE: Mfg 480 or instructor's consent.
DESCRIPTION: Analyzing lean manufacturing systems. Numerous examples and case studies from industry demonstrating principles of lean production, inventory management, and lean distribution. Project with a local company to gain confidence with these principles in an industrial setting.

2. Complete 3 hours from the following:

ME EN 482 : Manufacturing Systems Analysis and Design. (3:3:0)
OFFERED: F
PREREQUISITE: MeEn 250, 282; or equivalents.
DESCRIPTION: Analysis, synthesis, and control of processing and assembly operations; mathematical modeling of manufacturing processes; systems integration; applying conservation principles to processing and assembly operations.

ME EN 486 : Automation. (3:3:0)
OFFERED: F
DESCRIPTION: Determining appropriate levels of manufacturing automation based on economics and productivity. Elements of automation, including sensors, robots, conveyors, and part feeders.

ME EN 537 : Advanced Mechanisms, Robotics. (3:3:0)
OFFERED: W
PREREQUISITE: Me En 437 or equivalent.
DESCRIPTION: Kinematics and dynamics of advanced mechanisms, such as robots, with computer simulation of mechanism motion.

3. Complete 3 hours from the following:

ME EN 452 : Intermediate Materials. (3:3:0)
PREREQUISITE: Me En 250, 372; or equivalent.
DESCRIPTION: Mechanical behavior of engineering materials including metals, plastics, ceramics, and composites.

ME EN 456 : Composite Material Design. (3:3:0)
PREREQUISITE: Me En 250.
DESCRIPTION: Macro- and micro-mechanical analysis and design of uni- and multidirectional composite materials.

ME EN 477 : Design for Manufacture and Assembly. (3:3:0)
OFFERED: W
PREREQUISITE: MeEn 282, 372; or equivalent.
DESCRIPTION: Design practice for manufacturing considerations. Surface finish, tolerances, GD&T, and inspection and gaging principles. Application of computer-aided tolerancing and inspection.

ME EN 558 : Metallurgy. (3:3:0)
OFFERED: F even years
PREREQUISITE: MeEn 250 or instructor's consent.
DESCRIPTION: Fundamental principles of physical metallurgy and their application to design.

ME EN 584 : Manufacturing Process Machine Design. (3:3:0)
OFFERED: W
PREREQUISITE: MeEn 372 or equivalent.
DESCRIPTION: Applying machine design principles to manufacturing process machines and tooling; integrating machine elements; precision machine design. Designing and analyzing the effects of loading, combined stresses, and deflections on machine process capability. Sensors applied to process machines.

4. Complete 3 additional hours from the manufacturing electives list.

5. Complete 3 additional hours from the mechanical engineering general elective list.

When combined with required courses for all mechanical engineering majors related to manufacturing, namely Me En 250, 282, 475/476, and Stat 332, this option provides a strong foundation in manufacturing engineering.

*Hours include courses that may fulfill university core requirements.

Undergraduate Courses

100-Level Courses

ME EN 172 : Engineering Graphics--Principles and Applications. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Engineering and technology major status.
DESCRIPTION: Comprehensive applications of CAD-based national (ANSI) and international (ISO) graphics standards, including coordinate and geometric dimensioning and tolerancing practices, manufacturing, and product verification procedures.

ME EN 191 : New Student Seminar. (.5:1:0)
OFFERED: F, W
DESCRIPTION: Topics of special interest to new mechanical engineering majors.
NOTE: Required of all first-semester freshman and transfer students.

ME EN 199R : Academic Internship. (.5-3:ARR:ARR)
OFFERED: F, W, Sp or Su
PREREQUISITE: consent of both department chair and cooperative education coordinator.
DESCRIPTION: Work experience evaluated by supervisor and posted on student's transcript.

200-Level Courses

ME EN 250 : Science of Engineering Materials. (3:3:0)
OFFERED: F, W, Sp or Su
PREREQUISITE: Chem 105.
DESCRIPTION: Principles and properties of solid materials and their behavior as applied to engineering.

ME EN 282 : Manufacturing Processes. (3:2:3)
OFFERED: F, W, Sp or Su
PREREQUISITE: CEEn 203, MeEn 250.
DESCRIPTION: Common manufacturing processes, including technological limitations and economic considerations. Influence of product design on process selection and manufacturing efficiency.

300-Level Courses

ME EN 312 : Fluid Mechanics. (3:3:1)
OFFERED: F, W, Sp or Su
PREREQUISITE: MeEn 373 or concurrent enrollment; 321, 363.
DESCRIPTION: Physics and modeling of fluid flow; fluid statics, dimensional analysis, momentum, internal and external viscous flow, compressible flow, and fluid machinery.

ME EN 321 : Thermodynamics. (3:3:0)
OFFERED: F, W, Sp or Su
PREREQUISITE: Phscs 123; Math 303 or 334.
DESCRIPTION: Fundamentals of thermal energy and work; principle of state, conservation of mass, conservation of energy, increase of entropy principle; application to thermal and mechanical processes.

ME EN 335 : Dynamic System Modeling and Analysis. (3:3:1)
OFFERED: F, W, Sp or Su
PREREQUISITE: Math 303 or 334, MeEn 363, 373, CEEn 204.
DESCRIPTION: Formulating mathematical models for mechanical, electrical, fluid, and combined systems; numerical solution of motion equations; first- and second-order systems, frequency response, and transfer functions.

ME EN 340 : Heat Transfer. (3:3:1)
OFFERED: F, W, Sp or Su
PREREQUISITE: MeEn 312.
DESCRIPTION: Fundamentals of heat transfer; basics of conduction, convection, and radiation; mass transfer by analogy; heat exchangers; computer applications to practical design and analysis problems.

ME EN 363 : Elementary Instrumentation. (3:3:1.5)
OFFERED: F, W, Sp or Su
PREREQUISITE: Math 303 or 334; ECEn 301; Engl 316 or concurrent enrollment.
DESCRIPTION: Fundamentals of mechanical measuring systems; sensors, signal conditioning, statistical error analysis, dynamic response, standards.

ME EN 372 : Mechanical System Design Fundamentals. (3:2:3)
OFFERED: F, W, Sp or Su

ME EN 373 : Introduction to Scientific Computing and Computer-Aided Engineering. (3:2:3)
OFFERED: F, W, Sp or Su
PREREQUISITE: Math 113; concurrent enrollment in Math 214 or 302.
DESCRIPTION: Computer programming for engineers taught in context of solving physical systems using numerical methods. Student will program solutions using the C++ language, spreadsheets, symbolic solvers, etc.

400-Level Courses

ME EN 412 : Applications of Fluid Dynamics. (3:3:0)
OFFERED: F
PREREQUISITE: Me En 312.
DESCRIPTION: One-dimensional compressible flow, shocks, expansions, nozzles; turbomachinery design and performance; pumps, compressors, fans, and turbines; introduction to CFD with applications.

ME EN 415 : Applied Aerodynamics and Flight Mechanics. (3:3:0)
OFFERED: Sp or Su
PREREQUISITE: MeEn 312.
DESCRIPTION: Modern applied aerodynamics, including performance, stability, and control of aerospace vehicles.

ME EN 422 : Applied Thermodynamics. (3:3:1)
OFFERED: W; Sp or Su
PREREQUISITE: Me En 321, 363, 373.
DESCRIPTION: Applied engineering thermodynamics including air and steam power cycles, thermodynamic relations, and introduction to combustion and equilibrium chemical reactions.

ME EN 425 : Internal Combustion Engines. (3:2:3)
OFFERED: F
PREREQUISITE: Me En 321 or equivalent.
DESCRIPTION: Fundamental operating characteristics of internal combustion engines, spark and compression ignition. Thermodynamic cycle analysis, performance and emissions characterization, and dynamometer testing on CFR and production engines.

ME EN 426 : Gas Turbine and Jet Engine Design. (3:3:0)
OFFERED: W
PREREQUISITE: Me En 312, 321; or equivalents.
DESCRIPTION: Design and synthesis of land-based and aircraft gas turbines utilizing fluid flow and thermodynamic fundamentals. Extensive discussion of turbojet, turbofan, and turboprop engines.

ME EN 431 : (Me En-EC En 483) Design of Control Systems. (3:3:0)
OFFERED: F
PREREQUISITE: Me En 335 or EC En 380.
DESCRIPTION: Classical frequency response and time domain design of control systems. State variable control and computer simulation of control systems.

ME EN 437 : Kinematics. (3:3:0)
OFFERED: W; Sp or Su
PREREQUISITE: CE En 204; Math 303 or 334; Me En 373.
DESCRIPTION: Relative motion of links in mechanisms; velocities and accelerations of machine parts; rolling contact; cams; synthesis of mechanisms. Includes computer-aided engineering techniques.

ME EN 452 : Intermediate Materials. (3:3:0)
PREREQUISITE: Me En 250, 372; or equivalent.
DESCRIPTION: Mechanical behavior of engineering materials including metals, plastics, ceramics, and composites.

ME EN 456 : Composite Material Design. (3:3:0)
PREREQUISITE: Me En 250.
DESCRIPTION: Macro- and micro-mechanical analysis and design of uni- and multidirectional composite materials.

ME EN 471 : Computer-Aided Engineering Applications. (3:3:0)
OFFERED: F
PREREQUISITE: Me En 172, 373, CE En 203, 204.
DESCRIPTION: Application of computer-aided engineering tools to design; 3-D geometry and solid modeling; applying finite element analysis, kinematic analysis, and other software to engineering analysis.

ME EN 472 : Mechanical Systems Design Applications. (3:3:0)
OFFERED: W
PREREQUISITE: Me En 372.
DESCRIPTION: Theory, analysis, and design of mechanical systems and components.

ME EN 475 : Integrated Product and Process Design 1. (3:2:3)
OFFERED: F, W
PREREQUISITE: MeEn 321, 363, 372, 373; senior standing (fewer than 30 hours remaining in the program) in mechanical engineering, manufacturing engineering technology, industrial design, or related disciplines with instructor's consent.
DESCRIPTION: Comprehensive two-semester design experience from conception to manufacturing planning and prototype. Product development process. Economic and manufacturing considerations. Intellectual property assignment agreement required.
NOTE: MeEn 475 and 476 must be taken in consecutive fall and winter semesters.

ME EN 476 : Integrated Product and Process Design 2. (3:2:3)
OFFERED: F, W
PREREQUISITE: MeEn 321, 363, 372, 373; senior standing (fewer than 30 hours remaining in the program) in mechanical engineering, manufacturing engineering technology, industrial design, or related disciplines with instructor's consent.
DESCRIPTION: Comprehensive two-semester design experience from conception to manufacturing planning and prototype. Product development process. Economic and manufacturing considerations. Intellectual property assignment agreement required.

ME EN 477 : Design for Manufacture and Assembly. (3:3:0)
OFFERED: W
PREREQUISITE: MeEn 282, 372; or equivalent.
DESCRIPTION: Design practice for manufacturing considerations. Surface finish, tolerances, GD&T, and inspection and gaging principles. Application of computer-aided tolerancing and inspection.

ME EN 482 : Manufacturing Systems Analysis and Design. (3:3:0)
OFFERED: F
PREREQUISITE: MeEn 250, 282; or equivalents.
DESCRIPTION: Analysis, synthesis, and control of processing and assembly operations; mathematical modeling of manufacturing processes; systems integration; applying conservation principles to processing and assembly operations.

ME EN 486 : Automation. (3:3:0)
OFFERED: F
DESCRIPTION: Determining appropriate levels of manufacturing automation based on economics and productivity. Elements of automation, including sensors, robots, conveyors, and part feeders.

ME EN 495R : Mentored Learning for Undergraduates in Mechanical Engineering. (1-6:Arr.:Arr.)
OFFERED: F, W, Sp, Su
DESCRIPTION: Independent learning with a faculty member.

ME EN 499R : Honors Thesis. (.5-6:0:0)
OFFERED: F, W, Sp or Su

500-Level Graduate Courses (available to advanced undergraduates)

ME EN 500 : (MeEn-CEEn) Design and Materials Applications. (3:3:0)
OFFERED: W
PREREQUISITE: CEEn 203; MeEn 372 or CEEn 321; or equivalents.
DESCRIPTION: Applied and residual stress; materials selection; static, impact, and fatigue strength; fatigue damage; surface treatments; elastic deflection and stability--all as applied to mechanical design.

ME EN 501 : (MeEn-CEEn) Stress Analysis and Design of Mechanical Structures. (3:3:0)
OFFERED: Sp or Su
PREREQUISITE: CEEn 321 or MeEn 372 or equivalent.
DESCRIPTION: Stress analysis and deflection of structures; general bending and torsion, with computer applications to mechanical and aerospace structure design.

ME EN 503 : (MeEn-CEEn) Plasticity and Fracture. (3:3:0)
OFFERED: F
PREREQUISITE: CEEn 203; MeEn 250; Math 303; senior standing or instructor's consent.
DESCRIPTION: Tensor algebra; stress and deformation tensors; relationships between dislocation slip, yielding, plastic constitutive behavior, and microstructure development; cracks and linear elastic fracture mechanics.

ME EN 504 : (Me En-CE En) Computer Structural Analysis and Optimization. (3:3:0)
OFFERED: F
PREREQUISITE: Linear algebra; CE En 321 or Me En 372; or equivalents.
DESCRIPTION: Matrix analysis of rods, shafts, beams, trusses, frames, and grids using the generalized stiffness method. Optimization methods for these structures. Organizing computer programs for structural analysis and structural optimization.

ME EN 506 : (MeEn-CEEn) Continuum Mechanics and Finite Element Analysis. (3:3:0)
OFFERED: W
PREREQUISITE: Linear algebra; CE En 321 or Me En 372; or equivalents.
DESCRIPTION: Equilibrium, constitutive, and compatibility equations; closed-form solutions from elasticity; finite element theory, programming, and usage; membrane, axisymmetric, and solid elements. Application to heat transfer, fluid mechanics, and seepage.

ME EN 508 : (Me En-CE En) Structural Vibrations. (3:3:0)
OFFERED: F
PREREQUISITE: CE En 321 or Me En 372 or equivalent.
DESCRIPTION: Dynamic analysis of single degree-of-freedom, discrete multi-degree-of-freedom, and continuous systems. Applications include aerospace, civil structures, and mechanical components.

ME EN 510 : Compressible Fluid Flow. (3:3:1.5)
OFFERED: W odd years
PREREQUISITE: Me En 312 or equivalent.
DESCRIPTION: One-dimensional analysis of compressible flow with area change, friction, heat transfer, shock waves, and combined effects, including experimental methods.

ME EN 512 : Intermediate Fluid Dynamics. (3:3:0)
OFFERED: F
PREREQUISITE: Me En 312 or instructor's consent.
DESCRIPTION: Review of fluid properties, Navier-Stokes equations, exact and similarity solutions, introduction to potential flows, stream functions, lift and drag, boundary layers, vorticity, and turbulence.

ME EN 521 : Intermediate Thermodynamics. (3:3:0)
OFFERED: F odd years
PREREQUISITE: Me En 422 or equivalent.
DESCRIPTION: Review of first and second law analysis; exergy; equations of state and other thermodynamic relations; properties of mixtures and multiphase systems; chemical reactions and equilibrium.

ME EN 522 : Combustion. (3:3:0)
OFFERED: W

ME EN 523 : (Me En-CE En) Aircraft Structures. (3:3:0)
OFFERED: W
PREREQUISITE: CE En 321 or Me En 372; or equivalents.
DESCRIPTION: Requirements, objectives, loads, materials, and tools for design of airframe structures; static behavior of thin-wall structures; durability and damage tolerance; certification and testing. Airframe component team design project.

ME EN 534 : Dynamics of Mechanical Systems. (3:3:0)
OFFERED: W
PREREQUISITE: Me En 335 or equivalent.
DESCRIPTION: Hamiltonian and Lagrangian dynamics, generalized coordinates, linear and angular momentum, Euler angles, rigid-body motions, and gyroscopic effects. Theory taught with applications integrated.

ME EN 535 : Mechanical Vibrations. (3:3:0)
OFFERED: F
PREREQUISITE: Me En 335 or equivalent.
DESCRIPTION: Introduction to energy methods for system modeling, eigenvalues and mode shapes, frequency response, and spectral characterization of vibrations.

ME EN 537 : Advanced Mechanisms, Robotics. (3:3:0)
OFFERED: W
PREREQUISITE: Me En 437 or equivalent.
DESCRIPTION: Kinematics and dynamics of advanced mechanisms, such as robots, with computer simulation of mechanism motion.

ME EN 538 : Compliant Mechanisms. (3:3:0)
PREREQUISITE: Me En 372; 475 or concurrent enrollment; or instructor's consent.
DESCRIPTION: Design and analysis of compliant mechanisms and compliant structures. Large-deflection analysis/force displacement relationships; mechanisms synthesis.

ME EN 540 : Intermediate Heat and Mass Transfer. (3:3:0)
OFFERED: W
PREREQUISITE: Me En 340 or equivalent.
DESCRIPTION: Analytical approaches to conduction, convection, and radiation heat transfer. Introduction to mass transfer.

ME EN 541 : Numerical Heat Transfer. (3:3:0)
OFFERED: F
PREREQUISITE: Me En 340 or instructor's consent.
DESCRIPTION: Heat transfer analysis by numerical methods. Finite difference and finite element methods, stability, and error analysis.

ME EN 550 : (Me En-EC En) Microelectromechanical Systems (MEMS). (3:3:0)
OFFERED: F even years
PREREQUISITE: EC En 450 or Me En 372 or equivalent.
DESCRIPTION: Design, fabrication, and applications of MEMS. Mechanical properties governing their design and reliability and the processing technologies used to fabricate them.

ME EN 557 : Corrosion. (3:3:0)
OFFERED: F odd years
PREREQUISITE: Chem 105 or equivalent.
DESCRIPTION: Basic principles, eight common forms of corrosion, testing, materials, applications, modern theory, and high temperature metal-gas reactions.

ME EN 558 : Metallurgy. (3:3:0)
OFFERED: F even years
PREREQUISITE: MeEn 250 or instructor's consent.
DESCRIPTION: Fundamental principles of physical metallurgy and their application to design.

ME EN 561 : (Me En-Phscs) Fundamentals of Acoustics. (3:3:0)
OFFERED: F
PREREQUISITE: Phscs 123 or equivalent; Math 303 or 334 or equivalent.
RECOMMENDED: Phscs 318, 321; or equivalents.
DESCRIPTION: Sound generation, transmission, reflection, and reception. Vibrating systems, elastic media, mechanical energy, and radiation. Sound in tubes and cavities. Acoustic filters. Noise measurement and perception.

ME EN 562 : (Me En-Phscs 660) Analysis of Acoustic Systems. (3:3:0)
OFFERED: W
PREREQUISITE: Phscs 561 or instructor's consent.
DESCRIPTION: Analyzing and modeling electro-mechano-acoustic systems. Transducers, calibration, and acoustical measurements. Sound sources, arrays, coupling, radiation, and directivity. Duct acoustics. Energy-based acoustics.

ME EN 564 : Digital Instrumentation and Mechatronic Systems. (3:2:3)
OFFERED: F
PREREQUISITE: MeEn 363 or equivalent.
DESCRIPTION: Design and analysis of instrumentation systems, fundamental sensor characteristics, and computer data acquisition; time and frequency domain modeling with analog and digital components.

ME EN 570 : (Me En-CE En) Computer-Aided Engineering Software Development. (3:3:0)
OFFERED: F
PREREQUISITE: Me En 373 or C programming.
DESCRIPTION: Programming methods for development of engineering software. Data structures, architecture, libraries, and graphical user interfaces, with applications to CAD systems.

ME EN 572 : (Me En-CE En) Computer-Aided Geometric Design. (3:3:0)
OFFERED: W

ME EN 574 : Product Development Automation. (3:3:0)
OFFERED: W
PREREQUISITE: Prerequisite: Me En 475, 476; or equivalents.
DESCRIPTION: Design automation, network modeling of design systems, mass customization, agent-based methods, transnational design systems. Aerospace, automotive, and consumer product applications.

ME EN 575 : (Me En-CE En) Optimization Techniques in Engineering. (3:3:0)
OFFERED: W
PREREQUISITE: Math 302 and FORTRAN, C, or similar computer language.
DESCRIPTION: Application of computer optimization techniques to constrained engineering design. Theory and use of state-of-the-art computer routines. Robust design methods.
NOTE: Fee.

ME EN 576 : Product Design. (3:3:0)
OFFERED: F
PREREQUISITE: MeEn 475 or instructor's consent.
DESCRIPTION: Emerging design methodology and design strategies for complex systems, including decomposition methods and sensitivity analysis. Advanced CAD/CAE/CAM technologies applied to design.

ME EN 578 : CAD/Cam Applications. (3:3:0)
OFFERED: W
PREREQUISITE: Advanced FORTRAN, C, or C++.
DESCRIPTION: Principles and practices involved in parametric surface and solid modeling, associativity, NC tool path generation, etc. Construction of complete CAD models for design, analysis, and manufacture.

ME EN 584 : Manufacturing Process Machine Design. (3:3:0)
OFFERED: W
PREREQUISITE: MeEn 372 or equivalent.
DESCRIPTION: Applying machine design principles to manufacturing process machines and tooling; integrating machine elements; precision machine design. Designing and analyzing the effects of loading, combined stresses, and deflections on machine process capability. Sensors applied to process machines.

ME EN 585 : Manufacturing Competitiveness: Quality and Productivity. (3:3:0)
OFFERED: F
PREREQUISITE: Stat 332, Me En 282; or equivalents.
DESCRIPTION: Production strategies to improve quality, decrease cost, and increase throughput to create market advantage; effective production management systems; applying quality improvement tools to process data; theory of constraints and lean production.

ME EN 595R : Special Topics in Mechanical Engineering. (.5-18:2:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: department chair's consent.

: Topics in Materials.
: Topics in Mechanical Design.

Graduate Courses

Mechanical Engineering Faculty

Professors

Adams, Brent Larsen

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Mechanical Engineering
RANK: Professor
DEGREES: BS, University of Utah, 1974
MS, Ohio State University, Columbus, 1976
PhD, Ohio State University, Columbus, 1979

Chase, Kenneth W

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Mechanical Engineering
RANK: Professor
DEGREES: BES, Brigham Young University, 1962
MS, Brigham Young University, 1964
PhD, University of California, Berkeley, 1972

Howell, Larry L

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Mechanical Engineering
RANK: Professor
DEGREES: BS, Brigham Young University, 1987
MS, Purdue University, 1991
PhD, Purdue University, 1993

Magleby, Spencer P

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Mechanical Engineering
RANK: Professor
DEGREES: MS, Brigham Young University, 1983
BS, Brigham Young University, 1983
PhD, University of Wisconsin, Madison, 1988

McLain, Timothy Wayne

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Mechanical Engineering
RANK: Professor
DEGREES: BS, Brigham Young University, 1986
MS, Brigham Young University, 1987
PhD, Stanford University, 1995

Parkinson, Alan Roger

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Mechanical Engineering
RANK: Professor
DEGREES: BS, Brigham Young University, 1977
MS, University of Illinois, Urbana, 1979
PhD, University of Illinois, Urbana, 1982
MBA, Brigham Young University, 2003

Red, Walter Edward

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Mechanical Engineering
RANK: Professor
DEGREES: BS/MA, Rice University, 1965
PhD, Arizona State University, 1972

Smith, Craig C

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Mechanical Engineering
RANK: Professor
DEGREES: BES, Brigham Young University, 1969
MS, Brigham Young University, 1970
PhD, Massachusetts Institute of Technology, 1973

Todd, Robert H

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Mechanical Engineering
RANK: Professor
DEGREES: BS, California State University, Northridge, 1964
MS, Stanford University, 1965
PhD, Stanford University, 1971

Webb, Brent W

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Mechanical Engineering
RANK: Professor
DEGREES: BS, Brigham Young University, 1981
MS, Brigham Young University, 1982
PhD, Purdue University, 1986

Associate Professors

Cox, Jordan Jay

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Mechanical Engineering
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1983
MS, Brigham Young University, 1984
PhD, Purdue University, 1991

Fullwood, David

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Mechanical Engineering
RANK: Associate Professor
DEGREES: BSc, University of York, 1987
MS, University of Utah, 1989
PhD, University of London, 1992
MS, Brigham Young University, 2005

Military Science (Army ROTC)

Major Theodore M. Leblow, Chair
320 ROTC, (801) 422-3601

Admission to Degree Program

Students must be accepted by the Department of Military Science into the program.

The Discipline

The Army Reserve Officer Training Corps (ROTC) Leadership Excellence Program is designed to produce highly qualified commissioned officers in the U.S. Regular Army, the U.S. Army Reserve, or the U.S. Army National Guard. Students specialize in the major field of their choice and graduate with the ability to function as a junior executive.

Career Opportunities

Officer in the U.S. Army in the career field of:

Adjutant General's Corps (Human Resource Administration)
Air Defense Artillery
Armor
Aviation (Pilots)
Chemical Corps
Engineers
Field Artillery
Finance Corps
Infantry
Judge Advocate General's Corps (Legal)
Medical Service Corps (nurses, doctors, and health care administrators)
Military Intelligence
Military Police (Law Enforcement)
Ordnance Corps (Logistics)
Quartermaster Corps (Logistics)
Signal Corps (Information Technology)
Transportation Corps (Logistics)

General Information

Textbooks, Uniforms, and Allowances. All textbooks, uniforms, and training materials are furnished by the U.S. Army. Those in the advanced course receive a $450 to $500 monthly allowance and approximately $800 for participation in the national Leadership Development and Assessment Course for five weeks during the summer between the junior and senior year.

Army ROTC Scholarship Program. Scholarships are available on a competitive basis. Senior students in high school may qualify for a four-year scholarship. College students may also qualify for a four-, three-, or two-year scholarship. The scholarship provides for tuition and fees or room and board, a textbook allowance, and from $300 to $500 per month (up to ten months per year) for the period of the scholarship. Students who qualify must complete their degree program prior to their thirty-fifth birthday. Contact the Military Science Department for application procedures and specifics.

SMP Program (Simultaneous Membership Program). Students already members of the Army Reserve or National Guard may concurrently participate in ROTC and qualify for additional pay and benefits, to include tuition assistance.

Extracurricular Activities. Army ROTC cadets extend academic and laboratory associations into a variety of extracurricular ROTC activities. Among these are the Ranger Challenge, Army Color Guard, Cannon Crew, annual Military Ball, and many school service projects performed by the corps of cadets.

LDS Missions. Students, including scholarship recipients, who wish to serve a two-year LDS mission can do so most conveniently between their freshman and sophomore years. This allows students to be on campus during the spring of their sophomore year to facilitate their selection for the advanced course. Interruptions of the program at other times for a mission may be arranged by obtaining individual approval from the professor of military science.

Leadership Laboratory and Course Fee. Each course requires a corresponding leadership lab, which meets on Thursdays for three hours. The labs require physical activity, including: land navigation, mountaineering, rope bridging, marksmanship, and tactical training. Students are also expected to attend physical fitness training and one field training exercise per semester. A course fee of $40 is required of each participating student to cover cadet activity expenses.

Graduation Requirements in Wellness. Students in the Army ROTC Program may complete the Wellness requirements listed in the University Core Summary section of this catalog by participating in the leadership laboratory for eight semesters. Physical education credit may be received if the student enrolls in ExSc 143R.

Program of Instruction. The ROTC Leadership Excellence Program is designed to produce commissioned officers for the United States Army. It has been described as the best leadership program in the nation. Training is experiential and demands that students practice leadership skills while completing their baccalaureate degree in their chosen course of study. Ultimately, students become qualified to serve as commissioned officers in the Regular Army, National Guard, or Army Reserve. Upon graduation and follow-on training, these officers immediately become the leaders of soldiers

deployed abroad or at home in defense of the United States and her values. After graduation, it is possible for Reserve or Guard officers to fulfill their military obligation and pursue a civilian career simultaneously. Following the completion of service, BYU ROTC graduates often become effective leaders in their community, business, and church endeavors for the balance of their lives.

Program Requirements

1. The traditional Army ROTC Leadership Excellence Program extends over a four-year period compatible with normal progression through four years of college. It consists of two phases: a two-year basic course during the freshman and sophomore years and an advanced course designed for completion during the junior and senior years. Also included is a five-week Leadership Development and Assessment Course normally attended in the summer before the senior year. Students may receive academic credit for the first two years of ROTC by attending the month-long Leaders' Training Course, (LTC) during the summer before the start of the advanced course.

   Scholarship students and students wishing to participate in the advance course must pass the Army Physical Fitness Test with a score of 60 points in each event. See an Army ROTC faculty member for more information.

   Two-year program: Qualified veterans or students with placement credit for the basic course or LTC with requirements for the advanced course. Applicants for this two-year program may be upper-division or graduate students, provided a minimum of four semesters remain at BYU at the time of entry into the program. Students must complete a physical examination and other associated requirements. The professor of military science must approve any exceptions for those seeking to accelerate the advance course and earn an officer's commission in less than two years.

2. Non-scholarship freshman and sophomore students incur no military obligation. Upon entering the advanced course, students agree to enlist in the U.S. Army Reserve Control Group for a period of eight years; they are then sworn into the reserve and begin to receive the monthly $450 to $500 subsistence allowance.

3. Non-U.S. citizens may participate in the basic course provided they obtain approval from their consulate and the BYU international student division and their travel documents are in order. International students apply for enrollment on a case-by-case basis but cannot participate in the advanced course unless they are pending citizenship. They may not be commissioned as officers until they are U.S. citizens.

4. To receive a commission as a second lieutenant in the U.S. Army, students must earn a baccalaureate degree and complete the advanced course. Those who are in a five-year academic program, such as engineering, may complete their Army ROTC courses at any point before graduation.

5. Upon commissioning, the new second lieutenant incurs an obligation to the U.S. Army, which may be filled by serving on Active Duty, in the U.S. Army Reserve, National Guard, Individual Ready Reserve (IRR), or various combinations of the above.

6. The basic course comprises the following:
   Mil S 120, 121, 220, 221.

7. The advanced course comprises the following:
   Mil S 320, 321, 420, 421.

8. Professional Military Education (PME): Before being commissioned, each cadet must complete one of the following military history courses during their course of study at BYU:
   Hist 220, 221, 371, 372, 373, 374, 375, 376, 398R.

Note: Courses not specified above may satisfy the requirement but must be approved by the professor of military science.

Minor in Military Science (16 hours)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements

1. Complete the following:

MIL S 320 : Adaptive Team Leadership. (4:3:3)
OFFERED: F
DESCRIPTION: Adaptive leadership skills; demands of leadership in tactical and garrison situations. Cadets have multiple opportunities to lead one another and receive feedback on leadership abilities. Lab included.
NOTE: Fee.

MIL S 321 : Leadership in Changing Environments. (4:3:3)
OFFERED: W
PREREQUISITE: Must be contracted in ROTC program.
DESCRIPTION: Using intense real-world leadership situations to build skills in leading small units, decision-making, persuasion, and motivation when "under fire." Final preparation and evaluation prior to attendance at Leader Development and Assessment Course (LDAC). Lab included.
NOTE: Fee.

MIL S 420 : Developing Adaptive Leaders. (4:3:3)
OFFERED: F
PREREQUISITE: Must be contracted in ROTC program.
DESCRIPTION: Developing proficiency in planning, executing, and assessing operations; functioning on a staff; and providing feedback to subordinates with situational real-world opportunities to assess risk, make decisions, and coach others. Emphasizes leadership ethics. Lab included.
NOTE: Fee.

MIL S 421 : Leadership in a Complex World. (4:3:3)
OFFERED: W
PREREQUISITE: Must be contracted in ROTC program.
DESCRIPTION: Dynamics of leading military operations. Subjects include military law, principles of war, operations, training, and logistics. Presented in context of modern battlefield. Culminates with commission as an officer in the U.S. Army. Lab included.
NOTE: Fee.

Undergraduate Courses

100-Level Courses

MIL S 120 : Leadership and Personal Development. (2:1:3)
OFFERED: F
DESCRIPTION: Developing comprehension of Army leadership dimensions, focusing on critical thinking, time management, and fitness. Introduction to the corps of cadets; building courage and self-confidence. Lab included.
NOTE: Fee.

MIL S 121 : Introduction to Tactical Leadership. (2:1:3)
OFFERED: W
DESCRIPTION: Leadership fundamentals; setting direction, problem solving, listening, presentation skills, and providing feedback. Integration into the corps of cadets through tactical field training. Lab included.
NOTE: Fee.

200-Level Courses

MIL S 220 : Innovative Team Leadership. (3:2:3)
OFFERED: F
DESCRIPTION: Creative leadership strategies and styles; team dynamics; leadership theory; the Army leadership framework. Includes basics of land navigation and squad tactics. Lab included.
NOTE: Fee.

MIL S 221 : Foundations of Tactical Leadership. (3:2:3)
OFFERED: W
DESCRIPTION: Challenges of leading tactical teams in contemporary operations environment of the U.S. Army, focusing on Army Orders process, terrain analysis, and adaptive leadership. Lab included.
NOTE: Fee.

300-Level Courses

MIL S 320 : Adaptive Team Leadership. (4:3:3)
OFFERED: F
DESCRIPTION: Adaptive leadership skills; demands of leadership in tactical and garrison situations. Cadets have multiple opportunities to lead one another and receive feedback on leadership abilities. Lab included.
NOTE: Fee.

MIL S 321 : Leadership in Changing Environments. (4:3:3)
OFFERED: W
PREREQUISITE: Must be contracted in ROTC program.
DESCRIPTION: Using intense real-world leadership situations to build skills in leading small units, decision-making, persuasion, and motivation when "under fire." Final preparation and evaluation prior to attendance at Leader Development and Assessment Course (LDAC). Lab included.
NOTE: Fee.

MIL S 325R : Staff Organization and Operations. (1-2:Arr:Arr)
OFFERED: F, W, Sp, Su
PREREQUISITE: Must be contracted in ROTC program.
DESCRIPTION: Seminar in Army Staff Operations. Various opportunities for leadership and organiztional experience. Lab included.

400-Level Courses

MIL S 420 : Developing Adaptive Leaders. (4:3:3)
OFFERED: F
PREREQUISITE: Must be contracted in ROTC program.
DESCRIPTION: Developing proficiency in planning, executing, and assessing operations; functioning on a staff; and providing feedback to subordinates with situational real-world opportunities to assess risk, make decisions, and coach others. Emphasizes leadership ethics. Lab included.
NOTE: Fee.

MIL S 421 : Leadership in a Complex World. (4:3:3)
OFFERED: W
PREREQUISITE: Must be contracted in ROTC program.
DESCRIPTION: Dynamics of leading military operations. Subjects include military law, principles of war, operations, training, and logistics. Presented in context of modern battlefield. Culminates with commission as an officer in the U.S. Army. Lab included.
NOTE: Fee.

MIL S 425R : Leadership in a Complex World. (2:3:16)
OFFERED: F, W
PREREQUISITE: Current enrollment in AROTC program.
DESCRIPTION: Emphasis on fitness and tactical proficiency. Participation on University Ranger Challenge Team. Requires commitment and endurance. Provides insight into advanced Army professional training.

Admission to Degree Program

All degree programs in the Department of Microbiology and Molecular Biology are open enrollment. However, special limitations apply for clinical laboratory science.

The Discipline

The Microbiology and Molecular Biology Department offers degrees in microbiology, molecular biology, and clinical laboratory science. A wide range of courses may be incorporated into a program of study, including: ecology, genetics, immunology, microbial physiology, molecular biology, molecular evolution, parasitology, and pathogenesis.

Career Opportunities

Graduates are employed in a wide variety of positions in industry, hospitals, government agencies, and universities. Majors from this department are an excellent preprofessional course of study for those interested in medicine, dentistry, law, or business.

The following courses are recommended for those students interested in graduate and professional programs:

Chem 351, 352, 353, 481.
Math 119 or higher.
Phscs 105, 106, 107, 108.
Stat 221.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Majors

BS in Clinical Laboratory Science
BS in Microbiology
BS in Molecular Biology

Minors

Microbiology
Molecular Biology

Students should see their department advisor for help or information concerning the undergraduate programs.

Graduate Programs and Degrees

MS in Microbiology
MS in Molecular Biology
PhD in Microbiology
PhD in Molecular Biology

For more information see the BYU 2008–2009 Graduate Catalog.

Departmental Sections of Honors Courses

Show All Course Descriptions
Hide All Course Descriptions

Selected departments offer designated honors sections of introductory courses that meet particular university core requirements as well as honors requirements. Dates and times are listed in the current class schedule, and courses are designated by the word *honors* in the title. Approved departmental honors courses include:

A HTG 100 : Honors American Heritage (3:3:0)
Honors American Heritage
ANTHR 101 : Honors Social/Cultural Anthropology. (3:3:0)
Honors Social/Cultural Anthropology.
OFFERED: F, W, Sp, Su
DESCRIPTION: Aspects of society and culture: kinship, beliefs, economy, and political order among peoples worldwide. Methods and perspectives used in social /cultural anthropology.
ANTHR 110 : Honors Introduction to Archaeology. (3:3:0)
Honors Introduction to Archaeology.
OFFERED: F, W, Sp
DESCRIPTION: Review of great archaeological discoveries about the ancient world. Overview of world prehistory.
ARTHC 111 : Honors Introduction to Art History. (3:3:0)
Honors Introduction to Art History.
DESCRIPTION: Topical approach to art history and appreciation.
BIO 100 : Honors Principles of Biology. (3:3:1)
Honors Principles of Biology.
OFFERED: F, W, Sp, Su
DESCRIPTION: Introductory course for general education students.
CHEM 111 : Honors Principles of Chemistry. (3:3:1)
Honors Principles of Chemistry.
OFFERED: F
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
RECOMMENDED: High school chemistry, physics, and introductory calculus or concurrent enrollment in Math 112.
DESCRIPTION: Stoichiometry, kinetic-molecular theory, thermodynamics, states of matter, solutions and equilibria, electrochemistry, structure and bonding, chemical reactions, kinetics.
NOTE: Tutorial included.
CL CV 110 : Honors Introduction to Greek and Roman Literature. (3:3:0)
Honors Introduction to Greek and Roman Literature.
OFFERED: W
DESCRIPTION: Homer's *Illiad*, Sophocles' *Oedipus the King*, Vergil's *Aeneid*, and other important works of the Greeks and Romans.
NOTE: All readings in English.
CL CV 201 : Honors Classical Tradition 1: Antiquity to Renaissance. (3:3:0)
Honors Classical Tradition 1: Antiquity to Renaissance.
OFFERED: F
DESCRIPTION: Civilization from Greek and Roman antiquity to the Italian Renaissance, emphasizing Greco-Roman culture--its institutions, literature, arts, and ideas.
CL CV 202 : Honors Classical Tradition 2: Reformation to Modern. (3:3:0)
Honors Classical Tradition 2: Reformation to Modern.
DESCRIPTION: Civilization from the Reformation to the twentieth century, emphasizing the heritage of Greco-Roman culture--its institutions, literature, arts, and ideas.
CL CV 241 : Honors Greek and Roman Mythology. (3:3:0)
Honors Greek and Roman Mythology.
OFFERED: F, W
DESCRIPTION: Greek and Roman gods, heros, and myths, emphasizing literature but also giving attention to representatives in the visual arts.
CMLIT 201 : Honors Civilization: Literature 1. (3:3:0)
Honors Civilization: Literature 1.
DESCRIPTION: Major world civilizations from antiquity to early Italian Renaissance, emphasizing socioeconomic, political, intellectual, and aesthetic developments, with primary focus on literary texts.
CMLIT 202 : Honors Civilization: Literature 2. (3:3:0)
Honors Civilization: Literature 2.
DESCRIPTION: Major world civilizations from Europe's High Renaissance to modern times, emphasizing socioeconomic, political, intellectual, and aesthetic developments, with primary focus on literary texts.
DANCE 260 : Honors Introduction to Dance. (3:3:0)
Honors Introduction to Dance.
DESCRIPTION: Critical analysis of dance as a cultural and expressive art form studied through lecture, reading, research, multimedia presentations, and practical movement experiences.
NOTE: No previous dance experience required.
ECON 110 : Honors Economic Principles and Problems. (3:3:0)
Honors Economic Principles and Problems.
OFFERED: F, W, Sp, Su
ENGL 150 : Honors Writing and Rhetoric. (3:3:0)
Honors Writing and Rhetoric.
OFFERED: F, W, Sp, Su
DESCRIPTION: Processes of writing, reading, and research with an emphasis on argumentation and rhetorical analysis.
NOTE: Fulfills General Education First-Year Writing requirement.
ENGL 201 : Honors Masterpieces of World Literature 1. (3:3:0)
Honors Masterpieces of World Literature 1.

BS in Clinical Laboratory Science (63 hours*)

Show All Course Descriptions
Hide All Course Descriptions

This is a limited-enrollment program requiring departmental admissions approval. Please see the department office for information regarding requirements for admission to this major.

Students who want to practice clinical laboratory science/medical technology in diagnostic laboratories or pursue related options choose this degree. The program in clinical laboratory science is accredited by the National Accrediting Agency for Clinical Laboratory Sciences (8410 West Bryn Mawr Avenue, Suite 670, Chicago, IL 60631, [773] 714-8880).

Admittance Requirements | View MAP

1. Students must complete the following courses before applying to the program:
   CHEM 105 : General College Chemistry. (4:5:0)
   - OFFERED: F, W, Sp, Su
   - PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
   - DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energectics, electrochemistry, acids and bases, inorganic and organic chemistry.
   - NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

   MMBIO 240 : Molecular Biology. (3:3:1)
   - OFFERED: F, W, Sp
   - PREREQUISITE: PDBio 120, Chem 105.
   - DESCRIPTION: Fundamentals of protein and nucleic acid structure and their function in the context of the classical experiments that have informed our current models of biology at the molecular level.

   MMBIO 361 : Infection and Immunity. (4:4:0)
   - OFFERED: F, W, Sp
   - PREREQUISITE: Chem 105; PDBio 120 or MMBio 221 or equivalent.
   - DESCRIPTION: Principles of infectious organisms (principally bacteria and viruses), the diseases they cause, and the role of host immune responses in health and disease.

   PDBIO 120 : Science of Biology. (2:2:1)
   - OFFERED: F, W, Sp, Su; Honors also.
   - DESCRIPTION: General biology course designed for biological science majors, emphasizing the scientific method, cell theory, biochemical unity, the Central Dogma, bioenergetics, reproduction, and evolutionary theory.

2. Application deadlines are March 1 for fall semester admittance and October 1 for winter semester admittance.

Program Requirements

1. Complete the following life sciences core requirements:
   MMBIO 240 : Molecular Biology. (3:3:1)
   - OFFERED: F, W, Sp
   - PREREQUISITE: PDBio 120, Chem 105.
   - DESCRIPTION: Fundamentals of protein and nucleic acid structure and their function in the context of the classical experiments that have informed our current models of biology at the molecular level.

   MMBIO 241 : Molecular and Cellular Biology Laboratory. (1:0:3)
   - OFFERED: F, W, Sp
   - PREREQUISITE: MMBio 240 or concurrent enrollment.
   - DESCRIPTION: Molecular and cellular biology techniques laboratory.

PDBIO 120 : Science of Biology. (2:2:1)
OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: General biology course designed for biological science majors, emphasizing the scientific method, cell theory, biochemical unity, the Central Dogma, bioenergetics, reproduction, and evolutionary theory.

PDBIO 220 : Human Anatomy (with lab). (3:2:2)
OFFERED: F, W, Sp, Su
DESCRIPTION: Structure and function of the human body. Lab included.

PDBIO 305 : Human Physiology (with lab). (4:4:2)
OFFERED: F, W, Sp
PREREQUISITE: Chem 101 or equivalent.
RECOMMENDED: A general biology course.
DESCRIPTION: Function of body organ systems.
NOTE: Not acceptable for physiology and developmental biology, biophysics, or neuroscience majors. Designed for students with basic chemistry / no molecular biology. Students with chemistry/molecular biology should take PDBio 362.

PDBIO 360 : Cell Biology. (3:3:1)
OFFERED: F, W
PREREQUISITE: MMBio 240.
DESCRIPTION: Fundamentals of cell structure and function with reference to analytical methods used by cell biologists. Practice in designing, executing, and interpreting relative experiments.

PWS 340 : Genetics. (2:2:1)
OFFERED: F, W, Su
PREREQUISITE: MMBio 240.
DESCRIPTION: Genetic mechanisms, their fundamental nature, interactions, and applications to human affairs. Genetics in quantitative terms. Extensive practice in problem solving.

2. Complete the following chemistry courses:

CHEM 105 : General College Chemistry. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energectics, electrochemistry, acids and bases, inorganic and organic chemistry.
NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

CHEM 106 : General College Chemistry. (3:4:0)
OFFERED: F, W, Su
PREREQUISITE: Chem 105 or equivalent.
DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.
NOTE: Three lectures and one recitation section per week.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 106 or concurrent enrollment.
DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.
NOTE: Required for most students needing one year of general chemistry.

CHEM 285 : Introductory Bio-organic Chemistry. (4:4:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 101 or equivalent.
DESCRIPTION: Principles of organic chemistry and biochemistry relating to biomolecule structure and function.

3. Complete the following department courses:

MMBIO 102 : Introduction to Clinical Laboratory Techniques. (1:0:3)
OFFERED: F, W
DESCRIPTION: Hospital laboratory techniques.

MMBIO 361 : Infection and Immunity. (4:4:0)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105; PDBio 120 or MMBio 221 or equivalent.

DESCRIPTION: Principles of infectious organisms (principally bacteria and viruses), the diseases they cause, and the role of host immune responses in health and disease.

MMBIO 392 : Hematology. (2.5:2.5:1)
OFFERED: W
PREREQUISITE: Clinical laboratory science program acceptance.
DESCRIPTION: Normal and abnormal hematology.

MMBIO 393 : Immunohematology and Coagulation Theory. (2.5:2.5:1)
OFFERED: W
PREREQUISITE: Clinical laboratory science program acceptance.
DESCRIPTION: Theory and practice of bloodbanking and coagulation theory.

MMBIO 394 : Practical Hematology. (2:0:7)
OFFERED: W
PREREQUISITE: MMBio 392 or concurrent enrollment.
DESCRIPTION: Laboratory to accompany MMBio 392; medical laboratory techniques in hematology.

MMBIO 395 : Practical Immunohematology and Coagulation Theory. (2:0:7)
OFFERED: W
PREREQUISITE: MMBio 393 or concurrent enrollment.
DESCRIPTION: Laboratory to accompany MMBio 393; medical laboratory techniques in immunohematology and coagulation theory.

MMBIO 407 : Clinical Microbiology. (4:2:6)
OFFERED: W
PREREQUISITE: MMBio 361.
DESCRIPTION: Approaches to laboratory diagnosis of infectious diseases.

MMBIO 417 : Medical Parasitology. (3:2:3)
OFFERED: F, W
PREREQUISITE: Bio 100 or equivalent.
DESCRIPTION: Pathogenesis, diagnosis, and epidemiology of human parasitic diseases. Laboratory included.

MMBIO 420 : Pathophysiology and Laboratory Diagnosis in Clinical Chemistry. (5:4:2)
OFFERED: F
PREREQUISITE: Clinical laboratory science program acceptance.
DESCRIPTION: Laboratory diagnosis of disorders involving the major systems of the human body.

MMBIO 421 : Laboratory Techniques in Clinical Chemistry and Diagnostic Molecular Biology. (4:0:14)
OFFERED: F
PREREQUISITE: Concurrent enrollment in MMBio 420.
DESCRIPTION: Medical laboratory techniques in urinalysis, clinical chemistry, and diagnostic molecular genetics.

MMBIO 491 : Concept Applications in Laboratory Medicine. (1:1:0)
OFFERED: F
PREREQUISITE: Acceptance into clinical laboratory science program.
DESCRIPTION: Case presentations of various medical disorders.

4. Complete an internship experience. During one semester and one term, complete at least 2 hours from the following:
   MMBIO 496R : Clinical Experience. (1-9:0:0)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: MMBio 392, 393, 394, 395, 407, 417, 420, 421, 491.
   DESCRIPTION: Performing the full range of clinical laboratory tests in an affiliated clinical facility. A six-month internship experience.

5. Complete an exit interview.

6. Pass the BYU comprehensive exam offered during the clinical experience.

Recommended Courses

ENGL 316 : Technical Communication. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
PREREQUISITE: Engl 150 or equivalent; junior or senior status.
DESCRIPTION: Effective processes of written, oral, and visual technical communication, including collaborative processes. Writing for academic and professional audiences.
NOTE: Carries GE Advanced Written and Oral Communication credit.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

*Hours include courses that may fulfill university core requirements.

BS in Microbiology (61–67 hours*)

Show All Course Descriptions
Hide All Course Descriptions

This is the preferred degree for microbiology majors who desire an advanced degree (master's or doctorate) in microbiology.

Program Requirements | View MAP

1. Complete the following:

MMBIO 151 : Introduction to Microbiology. (4:3:3)
- OFFERED: F, W, Su
- PREREQUISITE: Chem 105 or concurrent enrollment.
- DESCRIPTION: Principles of prokaryotic biology emphasizing cell structure, function, and metabolism. Introduction to bacterial genetics, microbial diversity, and microbial ecology.

MMBIO 240 : Molecular Biology. (3:3:1)
- OFFERED: F, W, Sp
- PREREQUISITE: PDBio 120, Chem 105.
- DESCRIPTION: Fundamentals of protein and nucleic acid structure and their function in the context of the classical experiments that have informed our current models of biology at the molecular level.

MMBIO 241 : Molecular and Cellular Biology Laboratory. (1:0:3)
- OFFERED: F, W, Sp
- PREREQUISITE: MMBio 240 or concurrent enrollment.
- DESCRIPTION: Molecular and cellular biology techniques laboratory.

MMBIO 361 : Infection and Immunity. (4:4:0)
- OFFERED: F, W, Sp
- PREREQUISITE: Chem 105; PDBio 120 or MMBio 221 or equivalent.
- DESCRIPTION: Principles of infectious organisms (principally bacteria and viruses), the diseases they cause, and the role of host immune responses in health and disease.

PDBIO 120 : Science of Biology. (2:2:1)
- OFFERED: F, W, Sp, Su; Honors also.
- DESCRIPTION: General biology course designed for biological science majors, emphasizing the scientific method, cell theory, biochemical unity, the Central Dogma, bioenergetics, reproduction, and evolutionary theory.

PDBIO 360 : Cell Biology. (3:3:1)
- OFFERED: F, W
- PREREQUISITE: MMBio 240.
- DESCRIPTION: Fundamentals of cell structure and function with reference to analytical methods used by cell biologists. Practice in designing, executing, and interpreting relative experiments.

2. Complete the following chemistry courses:

CHEM 105 : General College Chemistry. (4:5:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
- DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energetics, electrochemistry, acids and bases, inorganic and organic chemistry.
- NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

CHEM 106 : General College Chemistry. (3:4:0)
- OFFERED: F, W, Su

PREREQUISITE: Chem 105 or equivalent.
DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.
NOTE: Three lectures and one recitation section per week.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 106 or concurrent enrollment.
DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.
NOTE: Required for most students needing one year of general chemistry.

CHEM 351 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105, 111; or equivalents.
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: Primarily for majors in chemical engineering and the biological sciences.

CHEM 352 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 351 or equivalent.
DESCRIPTION: Continuation of Chem 351.

CHEM 353 : Organic Chemistry Laboratory--Nonmajors. (1-2:0:6)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 352 or concurrent enrollment (preferred).
DESCRIPTION: Physical and chemical properties, isolation and purification, characterization, syntheses.
NOTE: For predentistry, premedicine, and other majors who do not intend to take Chem 455.

CHEM 481 : Biochemistry 1. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Chem 352; Biol 100 or equivalent.
DESCRIPTION: First-semester biochemistry. Molecular components of cells, chemical structure and function, enzymes, metabolic transformations, photosynthesis.
NOTE: For chemistry majors and students in biological sciences who contemplate pursuing advanced degrees, including medicine.

3. Complete four courses from the following (at least two of which must have a lab component):

MMBIO 460 : Microbial Genetics. (4:3:3)
OFFERED: F, W
PREREQUISITE: MMBio 151, 240.
DESCRIPTION: How DNA governs complex bacterial functions. Classical and modern approaches to gene discovery, including genetic screens, gene mapping, targeted genetic manipulations, and analyzing gene activity.

MMBIO 461 : Advanced Bacterial Physiology. (3:3:0)
OFFERED: W
PREREQUISITE: Chem 481, MMBio 151.
DESCRIPTION: Principles of prokaryotic physiology, including cell structure and function, gene regulation, and biochemical processes; focusing on the unique aspects of prokaryotic biology.

MMBIO 462 : Microbial Ecology. (3:2:3)
OFFERED: F
PREREQUISITE: MMBio 151, PDBio 120.
DESCRIPTION: Natural history of a microbe; its distribution and abundance. Critical influence of scale and perspective in determining underlying mechanisms.

MMBIO 463 : Immunology. (3:3:0)
OFFERED: F, W
PREREQUISITE: MMBio 240, 361.
DESCRIPTION: Advanced concepts of immunological processes.

MMBIO 464 : Bacterial Pathogenesis. (4:3:3)
OFFERED: F, W
PREREQUISITE: MMBio 361.
DESCRIPTION: Fundamental principles of bacterial pathogenesis, emphasizing the molecular interactions of

medically important bacteria and their hosts.

MMBIO 465 : Virology. (3:3:0)
OFFERED: F, W
PREREQUISITE: MMBio 361 or equivalent.
DESCRIPTION: Basic principles of virology, emphasizing selected molecular aspects of virus life cycles and disease processes.

Note: MMBio 463 and 465 can be taken with or without the MMBio 467 or 466 labs, respectively.

4. Complete one of the following options:
Either
PHSCS 105 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: High school algebra and trigonometry.
RECOMMENDED: Concurrent enrollment in Phscs 107.
DESCRIPTION: Applied physics course not requiring calculus. Topics include mechanics, heat, wave motion, sound.

PHSCS 106 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Phscs 105 or equivalent.
RECOMMENDED: Concurrent enrollment in Phscs 108.
DESCRIPTION: Continuation of Phscs 105. Topics include electricity and magnetism, atomic and nuclear physics, and optics.

Or
STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

5. Complete at least 10 hours from the following:
BIO 350 : Ecology. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Bio 220A,B.
DESCRIPTION: Distribution and abundance of organisms and their interactions with the physical and biotic components of the earth.

BIO 420 : Evolutionary Biology. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: MMBio 240, PSW 340.
DESCRIPTION: Intensive examination of evolution as the conceptual cornerstone of biology.

BIO 421 : Evolutionary Biology Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: MMBio 240; Bio 420 or concurrent enrollment.
DESCRIPTION: Methodology and evidence used in evolutionary biology: comparative anatomy, DNA and protein techniques, radiometric and non-radiometric dating, fossil data, etc.

CHEM 482 : Biochemistry 2. (3:3:0)
OFFERED: W, Sp
PREREQUISITE: Biol 360; Chem 481 or equivalent.
DESCRIPTION: Second-semester biochemistry. Nucleic acid biochemistry and molecular biology: nucleotide metabolism, chromosome and chromatin structure, DNA structure and replication, RNA transcription and gene expression, protein synthesis and regulation, eukaryotic gene systems, signal transduction.

MMBIO 390R : Readings in Molecular Biology. (1:1:0)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 360.
DESCRIPTION: Selected readings in molecular biology.

MMBIO 399R : Academic Internship. (1-9:0:40)

OFFERED: F, W, Sp, Su
PREREQUISITE: Mentor's consent.
DESCRIPTION: Approved experiential learning.

MMBIO 407 : Clinical Microbiology. (4:2:6)
OFFERED: W
PREREQUISITE: MMBio 361.
DESCRIPTION: Approaches to laboratory diagnosis of infectious diseases.

MMBIO 417 : Medical Parasitology. (3:2:3)
OFFERED: F, W
PREREQUISITE: Bio 100 or equivalent.
DESCRIPTION: Pathogenesis, diagnosis, and epidemiology of human parasitic diseases. Laboratory included.

MMBIO 430 : Advanced Cell Biology. (3:3:0)
OFFERED: F
PREREQUISITE: PDBio 360; bioscience major status.
DESCRIPTION: Molecular genetics, cell biology, and developmental biology.

MMBIO 441 : Advanced Molecular Biology. (3:3:0)
OFFERED: W
PREREQUISITE: MMBio 240, Chem 352.
DESCRIPTION: Molecular biology of gene structure and expression in prokaryotic and eukaryotic organisms.

MMBIO 442 : Advanced Molecular Biology Laboratory. (2:0:6)
OFFERED: W
PREREQUISITE: MMBio 241; MMBio 441 or concurrent enrollment.
DESCRIPTION: Laboratory to accompany MMBio 441.

MMBIO 466 : Virology Laboratory. (1:0:3)
OFFERED: F, W
PREREQUISITE: MMBio 361; 465 or concurrent enrollment.
DESCRIPTION: Laboratory exercises illustrating in vitro behavior of selected viruses. Developing laboratory skills for virus studies.

MMBIO 467 : Immunology Lab. (1:0:3)
OFFERED: F, W
PREREQUISITE: MMBio 361; 463 or concurrent enrollment.
DESCRIPTION: Laboratory exercises in advanced concepts of immunological processes.

MMBIO 494R : Mentored Research. (1-3:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Mentor's consent.
DESCRIPTION: Mentored research.

MMBIO 554 : Molecular Virology. (2:2.0:0.0)
PREREQUISITE: MMBio 354, 454; or equivalents.
DESCRIPTION: Molecular mechanisms of virus architecture, attachment and entry pathways, replication strategies, oncogenesis, evolution, and mechanisms of pathogenesis.

NDFS 361 : Food Microbiology. (3:2:3)
OFFERED: F
PREREQUISITE: MMBio 221, 222; or equivalents.
DESCRIPTION: Pathogenic and spoilage microorganisms in foods and their control. Beneficial microorganisms in food systems. Influence of the food system on growth and survival of microorganisms.

PWS 340 : Genetics. (2:2:1)
OFFERED: F, W, Su
PREREQUISITE: MMBio 240.
DESCRIPTION: Genetic mechanisms, their fundamental nature, interactions, and applications to human affairs. Genetics in quantitative terms. Extensive practice in problem solving.

PWS 514 : Soil Microbiology. (2:2:3)
OFFERED: W odd years
PREREQUISITE: Chem 106, 107; or equivalents.
DESCRIPTION: Ecology and role of soil microorganisms in nutrient cycling, decomposition of organic matter and waste materials, and degradation of agricultural chemicals in soil.

or courses not chosen under item 4 above:

MMBIO 460 : Microbial Genetics. (4:3:3)
OFFERED: F, W
PREREQUISITE: MMBio 151, 240.
DESCRIPTION: How DNA governs complex bacterial functions. Classical and modern approaches to gene discovery, including genetic screens, gene mapping, targeted genetic manipulations, and analyzing gene activity.

MMBIO 461 : Advanced Bacterial Physiology. (3:3:0)
OFFERED: W
PREREQUISITE: Chem 481, MMBio 151.
DESCRIPTION: Principles of prokaryotic physiology, including cell structure and function, gene regulation, and biochemical processes; focusing on the unique aspects of prokaryotic biology.

MMBIO 462 : Microbial Ecology. (3:2:3)
OFFERED: F
PREREQUISITE: MMBio 151, PDBio 120.
DESCRIPTION: Natural history of a microbe; its distribution and abundance. Critical influence of scale and perspective in determining underlying mechanisms.

MMBIO 463 : Immunology. (3:3:0)
OFFERED: F, W
PREREQUISITE: MMBio 240, 361.
DESCRIPTION: Advanced concepts of immunological processes.

MMBIO 464 : Bacterial Pathogenesis. (4:3:3)
OFFERED: F, W
PREREQUISITE: MMBio 361.
DESCRIPTION: Fundamental principles of bacterial pathogenesis, emphasizing the molecular interactions of medically important bacteria and their hosts.

MMBIO 465 : Virology. (3:3:0)
OFFERED: F, W
PREREQUISITE: MMBio 361 or equivalent.
DESCRIPTION: Basic principles of virology, emphasizing selected molecular aspects of virus life cycles and disease processes.

Note: Only 3 hours of MMBio 399R and 494R combined will count toward major hours.

6. Pass the Biology Major Field Exam.
7. Complete an exit interview.

Recommended Courses

ENGL 316 : Technical Communication. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
PREREQUISITE: Engl 150 or equivalent; junior or senior status.
DESCRIPTION: Effective processes of written, oral, and visual technical communication, including collaborative processes. Writing for academic and professional audiences.
NOTE: Carries GE Advanced Written and Oral Communication credit.

MATH 119 : Introduction to Calculus. (4:4:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Introduction to plane analytic geometry and calculus.
NOTE: For students in the College of Life Sciences and the Marriott School of Management.

or
MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

MATH 113 : Calculus 2. (4:5:0)

OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
NOTE: Honors also.

PHSCS 107 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 105 or concurrent enrollment.

PHSCS 108 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Su
PREREQUISITE: Phscs 106 or concurrent enrollment.

Note: Students desiring a minor in chemistry must take Chem 223 and 2 hours of Chem 353.

*Hours include courses that may fulfill university core requirements.

OFFERED: F; Independent Study also.
DESCRIPTION: Major world civilizations from antiquity through the early Italian Renaissance, approached through literature and emphasizing socioeconomic, religious, political, intellectual, and aesthetic developments.

ENGL 202 : Honors Masterpieces of World Literature 2. (3:3:0)
Honors Masterpieces of World Literature 2.
OFFERED: W; Independent Study also.
PREREQUISITE: Engl 201.
DESCRIPTION: Major world civilizations from Europe's High Renaissance to modern times, approached through literature and emphasizing socioeconomic, religious, political, intellectual, and aesthetic developments.

ENGL 311 : Honors Writing About the Arts and Humanities. (3:3:0)
Honors Writing About the Arts and Humanities.
OFFERED: F, W
PREREQUISITE: Engl 150 or equivalent; junior or senior status.
DESCRIPTION: Writing for both academic and mass audiences about the functions, meanings, values, and qualities of art and the humanities. Library research paper.
NOTE: Carries GE Advanced Written and Oral Communication credit.

ENGL 312 : Honors Persuasive Writing. (3:3:0)
Honors Persuasive Writing.
PREREQUISITE: Engl 150 or equivalent; junior or senior status.
DESCRIPTION: Expository and persuasive writing focusing on practical reasons for evaluating audiences, generating and structuring an argument, and making stylistic decisions. Library research paper.
NOTE: Carries GE Advanced Written and Oral Communication credit.

ENGL 315 : Honors Writing in the Social Sciences. (3:3:0)
Honors Writing in the Social Sciences.
OFFERED: F, W
PREREQUISITE: Engl 150 or equivalent; junior or senior status.
DESCRIPTION: Writing characteristic of disciplines that inquire into human behavior and institutions; correspondence proposals, library paper, empirical research, and reviews.
NOTE: Carries GE Advanced Written and Oral Communication credit.

ENGL 316 : Honors Technical Communication. (3:3:0)
Honors Technical Communication.
OFFERED: F, W
PREREQUISITE: Engl 150 or equivalent; junior or senior status.
DESCRIPTION: Effective processes of written, oral, and visual technical communication, including collaborative processes. Writing for academic and professional audiences.
NOTE: Carries GE Advanced Written and Oral Communication credit.

EXSC 349 : Honors Body, Mind, Spirit. (3:3:0)
Honors Body, Mind, Spirit.
OFFERED: W
DESCRIPTION: Sacredness of the body and its meaningfulness to the whole being. Comparative approach utilizing ideas fom the restored gospel and Western and Eastern philosophy (nature of being).

FREN 202 : Honors Intermediate French, Part 2. (3:3:1)
Honors Intermediate French, Part 2.
OFFERED: F, W, Sp, Su
PREREQUISITE: Fren 201 or equivalent.
DESCRIPTION: Final course for GE Foreign Language requirement (except for returned missionaries); extensive reading in French literature and culture.

GEOG 120 : Honors Geography and World Affairs. (3:3:0)
Honors Geography and World Affairs.
OFFERED: F, W, Sp, Su
DESCRIPTION: Survey of the world, stressing geography of major political regions.
NOTE: Independent Study also.

GEOL 101 : Honors Introduction to Geology. (3:2:1)
Honors Introduction to Geology.

GERM 330 : Honors Cultural History of German-Speaking Peoples. (3:3:1.5)
Honors Cultural History of German-Speaking Peoples.
PREREQUISITE: Germ 202 or equivalent experience.
DESCRIPTION: Culture, with listening, speaking, reading, writing, and grammar as secondary emphases. Includes International Cinema.
NOTE: Entry course for returned missionaries or others with equivalent German language experience. Required course for obtaining language credit by examination (Germ 101, 102, 201, 311R). Prerequisite to all 400-level courses.

GERM 340 : Honors: Writing About Literature. (3:3:0)
Honors: Writing About Literature.
DESCRIPTION: Methods of literary interpretation. Reading, writing, and research skills integral to the literary analysis expected in German major or minor courses.
NOTE: Fills GE Advanced Written and Oral Communication requirement.

HEB 133 : Honors Hebrew and the Old Testament. (4:4:0)
Honors Hebrew and the Old Testament.
OFFERED: F
DESCRIPTION: Rapid survey of biblical Hebrew.
NOTE: Must be taken in conjunction with specified Honors section of Rel A 301.

HEB 134 : Honors Hebrew and the Old Testament. (4:4:0)
Honors Hebrew and the Old Testament.
OFFERED: W
DESCRIPTION: Rapid survey of biblical Hebrew.
NOTE: Must be taken in conjunction with specified Honors section of Rel A 302.

HIST 201 : Honors World Civilization to 1500. (3:3:0)
Honors World Civilization to 1500.
DESCRIPTION: World civilization from Greek antiquity to Renaissance; explores fundamental questions in the human experience, examines formative events in history, and seeks to teach value of important texts.
NOTE: Independent Study also.

HIST 202 : Honors World Civilization from 1500. (3:3:0)
Honors World Civilization from 1500.
PREREQUISITE: Hist 201.

Program Requirements | View MAP

1. Complete the following:

BIO 420 : Evolutionary Biology. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: MMBio 240, PSW 340.
DESCRIPTION: Intensive examination of evolution as the conceptual cornerstone of biology.

MMBIO 240 : Molecular Biology. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 120, Chem 105.
DESCRIPTION: Fundamentals of protein and nucleic acid structure and their function in the context of the classical experiments that have informed our current models of biology at the molecular level.

MMBIO 241 : Molecular and Cellular Biology Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: MMBio 240 or concurrent enrollment.
DESCRIPTION: Molecular and cellular biology techniques laboratory.

PDBIO 120 : Science of Biology. (2:2:1)
OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: General biology course designed for biological science majors, emphasizing the scientific method, cell theory, biochemical unity, the Central Dogma, bioenergetics, reproduction, and evolutionary theory.

PDBIO 360 : Cell Biology. (3:3:1)
OFFERED: F, W
PREREQUISITE: MMBio 240.
DESCRIPTION: Fundamentals of cell structure and function with reference to analytical methods used by cell biologists. Practice in designing, executing, and interpreting relative experiments.

PWS 340 : Genetics. (2:2:1)
OFFERED: F, W, Su
PREREQUISITE: MMBio 240.
DESCRIPTION: Genetic mechanisms, their fundamental nature, interactions, and applications to human affairs. Genetics in quantitative terms. Extensive practice in problem solving.

2. Complete the following chemistry courses:

CHEM 105 : General College Chemistry. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energectics, electrochemistry, acids and bases, inorganic and organic chemistry.
NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

CHEM 106 : General College Chemistry. (3:4:0)
OFFERED: F, W, Su
PREREQUISITE: Chem 105 or equivalent.
DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.

NOTE: Three lectures and one recitation section per week.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 106 or concurrent enrollment.
DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.
NOTE: Required for most students needing one year of general chemistry.

CHEM 351 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105, 111; or equivalents.
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: Primarily for majors in chemical engineering and the biological sciences.

CHEM 352 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 351 or equivalent.
DESCRIPTION: Continuation of Chem 351.

CHEM 353 : Organic Chemistry Laboratory--Nonmajors. (1-2:0:6)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 352 or concurrent enrollment (preferred).
DESCRIPTION: Physical and chemical properties, isolation and purification, characterization, syntheses.
NOTE: For predentistry, premedicine, and other majors who do not intend to take Chem 455.

CHEM 481 : Biochemistry 1. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Chem 352; Biol 100 or equivalent.
DESCRIPTION: First-semester biochemistry. Molecular components of cells, chemical structure and function, enzymes, metabolic transformations, photosynthesis.
NOTE: For chemistry majors and students in biological sciences who contemplate pursuing advanced degrees, including medicine.

3. Complete the following molecular biology courses:

MMBIO 265 : (MMBio-Bio-PWS) Genomics. (3:2:1)
OFFERED: F, W
PREREQUISITE: Bioinformatics major status or PDBio 120.
DESCRIPTION: Introduction to genomics and genome projects (human, plant, bacterial, yeast, parasites). Introduction to genes and genomes; computational and statistical approaches for analyzing genomic data, including genome sequencing and annotation, gene expression and the transcriptome, proteomics and functional genomics, and genetic variation and SNPs.

MMBIO 390R : Readings in Molecular Biology. (1:1:0)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 360.
DESCRIPTION: Selected readings in molecular biology.

MMBIO 441 : Advanced Molecular Biology. (3:3:0)
OFFERED: W
PREREQUISITE: MMBio 240, Chem 352.
DESCRIPTION: Molecular biology of gene structure and expression in prokaryotic and eukaryotic organisms.

MMBIO 442 : Advanced Molecular Biology Laboratory. (2:0:6)
OFFERED: W
PREREQUISITE: MMBio 241; MMBio 441 or concurrent enrollment.
DESCRIPTION: Laboratory to accompany MMBio 441.

MMBIO 490R : Molecular Biology Seminar. (1:1:0)
OFFERED: F, W
PREREQUISITE: MMBio 441; senior status.
DESCRIPTION: Critical examination of current literature and research in molecular biology.

4. Complete two registrations of the following (not same semester or term) for a total of 3 hours as approved by mentor:

MMBIO 494R : Mentored Research. (1-3:ARR:ARR)
OFFERED: F, W, Sp, Su

PREREQUISITE: Mentor's consent.
DESCRIPTION: Mentored research.

5. Complete one of the following options:

Either

MATH 119 : Introduction to Calculus. (4:4:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Introduction to plane analytic geometry and calculus.
NOTE: For students in the College of Life Sciences and the Marriott School of Management.

Or

MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

MATH 113 : Calculus 2. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
NOTE: Honors also.

6. Complete the following:

PHSCS 105 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: High school algebra and trigonometry.
RECOMMENDED: Concurrent enrollment in Phscs 107.
DESCRIPTION: Applied physics course not requiring calculus. Topics include mechanics, heat, wave motion, sound.

PHSCS 106 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Phscs 105 or equivalent.
RECOMMENDED: Concurrent enrollment in Phscs 108.
DESCRIPTION: Continuation of Phscs 105. Topics include electricity and magnetism, atomic and nuclear physics, and optics.

7. Complete at least 10 hours (one of which must include a lab) from the following:

BIO 465† : Bioinformatics. (3:2:1)
OFFERED: W
PREREQUISITE: Bio 265
DESCRIPTION: 3-D protein structural comparisons, hidden Markov models for database comparisons, homology detection, multiple sequence analyses, and protein family comparisons. Exercises in computer programming in genomics.

CHEM 461 : Physical Chemistry. (3:3:0)
OFFERED: F, W
PREREQUISITE: Chem 227 or ChEn 263 or equivalent; Phscs 123 or concurrent enrollment.
RECOMMENDED: Math 302.
DESCRIPTION: Thermodynamics and equilibria, states of matter, kinetic-molecular theory, kinetics.
NOTE: May be taken before or after Chem 462.

CHEM 468 : Biophysical Chemistry. (3:3:0)
OFFERED: W
PREREQUISITE: Chem 462; 481 or concurrent enrollment.
DESCRIPTION: Applications of physical chemistry to biological systems. Thermodynamics, equilibria, transport properties, kinetics, spectroscopic applications, computational methods, structural biochemistry.

CHEM 482 : Biochemistry 2. (3:3:0)
OFFERED: W, Sp
PREREQUISITE: Biol 360; Chem 481 or equivalent.
DESCRIPTION: Second-semester biochemistry. Nucleic acid biochemistry and molecular biology: nucleotide metabolism, chromosome and chromatin structure, DNA structure and replication, RNA transcription and gene expression, protein synthesis and regulation, eukaryotic gene systems,

signal transduction.

CHEM 581 : Advanced Biochemical Methodology 1. (3:3:0)
OFFERED: F
PREREQUISITE: Chem 482 or equivalent.
DESCRIPTION: Physical methods used in biochemical research, including centrifugation, structural determinations, and use of radioactivity and spectroscopy.
NOTE: First of two required courses for biochemistry graduate students.

CHEM 584† : Biochemistry Laboratory/Proteins. (3:1:2)
OFFERED: F, W
PREREQUISITE: Chem 481 or equivalent.
DESCRIPTION: Introduction to current biochemical research procedures including spectrophotometry, chromatography, electrophoresis, and immunological techniques. Protein over-expression; isolation and characterization methods. Enzyme kinetics and protein-ligand interactions. Introduction to bioinformatics.

CHEM 586† : Biochemistry Laboratory/Nucleic Acids. (3:1:2)
OFFERED: F, W
PREREQUISITE: Chem 482 or equivalent.
DESCRIPTION: Laboratory course covering major techniques involved in isolation, amplification, and cloning of recombinant DNA as well as isolation, synthesis, translation, and identification of RNA.

MMBIO 151† : Introduction to Microbiology. (4:3:3)
OFFERED: F, W, Su
PREREQUISITE: Chem 105 or concurrent enrollment.
DESCRIPTION: Principles of prokaryotic biology emphasizing cell structure, function, and metabolism. Introduction to bacterial genetics, microbial diversity, and microbial ecology.

MMBIO 361 : Infection and Immunity. (4:4:0)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105; PDBio 120 or MMBio 221 or equivalent.
DESCRIPTION: Principles of infectious organisms (principally bacteria and viruses), the diseases they cause, and the role of host immune responses in health and disease.

MMBIO 399R : Academic Internship. (1-9:0:40)
OFFERED: F, W, Sp, Su
PREREQUISITE: Mentor's consent.
DESCRIPTION: Approved experiential learning.

MMBIO 430 : Advanced Cell Biology. (3:3:0)
OFFERED: F
PREREQUISITE: PDBio 360; bioscience major status.
DESCRIPTION: Molecular genetics, cell biology, and developmental biology.

MMBIO 460† : Microbial Genetics. (4:3:3)
OFFERED: F, W
PREREQUISITE: MMBio 151, 240.
DESCRIPTION: How DNA governs complex bacterial functions. Classical and modern approaches to gene discovery, including genetic screens, gene mapping, targeted genetic manipulations, and analyzing gene activity.

MMBIO 463† : Immunology. (3:3:0)
OFFERED: F, W
PREREQUISITE: MMBio 240, 361.
DESCRIPTION: Advanced concepts of immunological processes.

MMBIO 465 : Virology. (3:3:0)
OFFERED: F, W
PREREQUISITE: MMBio 361 or equivalent.
DESCRIPTION: Basic principles of virology, emphasizing selected molecular aspects of virus life cycles and disease processes.

MMBIO 466† : Virology Laboratory. (1:0:3)
OFFERED: F, W
PREREQUISITE: MMBio 361; 465 or concurrent enrollment.
DESCRIPTION: Laboratory exercises illustrating in vitro behavior of selected viruses. Developing laboratory skills for virus studies.

MMBIO 467† : Immunology Lab. (1:0:3)
OFFERED: F, W
PREREQUISITE: MMBio 361; 463 or concurrent enrollment.
DESCRIPTION: Laboratory exercises in advanced concepts of immunological processes.

PDBIO 482† : Developmental Biology. (3:3:1)
OFFERED: F, W
PREREQUISITE: Biol 240, 241, 360.
RECOMMENDED: PDBio 225.
DESCRIPTION: Invertebrate and vertebrate developmental biology. Embryonic gastrulation, neurulation, pattering, etc. Modern approaches and research strategies. Emphasizes gene function, cell signaling, signal transduction during embryogenesis.

PDBIO 582† : Developmental Genetics. (3:3:0)
OFFERED: W
PREREQUISITE: PDBio 482 or equivalent.
DESCRIPTION: Gene function and regulation during cell specification and differentiation, pattern formation, and organogenesis in developing embryo.

PWS 525 : Plant Development. (3:3:0)
OFFERED: F odd years
PREREQUISITE: PDBio 360 or equivalent; PWS 586.
DESCRIPTION: Molecular and genetic interactions in plant development.

PWS 580† : Plant Transformation. (2:1:3)
OFFERED: W even years.
PREREQUISITE: PDBio 360 or equivalent; PWS 586.
DESCRIPTION: Theory and methods of plant transformation.

PWS 586 : Plant Cell Biology. (3:3:0)
OFFERED: F even years.
PREREQUISITE: PDBio 360, PWS 340, 440; or equivalents.
DESCRIPTION: Molecular aspects of the structural and functional characteristics of plant cells, emphasizing characteristics of plant cells setting them apart from animal cells.

Note 1: Only 3 hours of MMBio 399R will count toward major hours.
Note 2: † indicates a course with a lab included.

8. Pass the Biology Major Field Exam.
9. Complete an exit interview.

Recommended Courses

ENGL 316 : Technical Communication. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
PREREQUISITE: Engl 150 or equivalent; junior or senior status.
DESCRIPTION: Effective processes of written, oral, and visual technical communication, including collaborative processes. Writing for academic and professional audiences.
NOTE: Carries GE Advanced Written and Oral Communication credit.

PHSCS 107 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 105 or concurrent enrollment.

PHSCS 108 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Su
PREREQUISITE: Phscs 106 or concurrent enrollment.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

*Hours include courses that may fulfill university core requirements.

Minor in Microbiology (14–16 hours, plus prerequisites in coupled major)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements

1. Complete the following:

MMBIO 151 : Introduction to Microbiology. (4:3:3)
OFFERED: F, W, Su
PREREQUISITE: Chem 105 or concurrent enrollment.
DESCRIPTION: Principles of prokaryotic biology emphasizing cell structure, function, and metabolism. Introduction to bacterial genetics, microbial diversity, and microbial ecology.

MMBIO 361 : Infection and Immunity. (4:4:0)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105; PDBio 120 or MMBio 221 or equivalent.
DESCRIPTION: Principles of infectious organisms (principally bacteria and viruses), the diseases they cause, and the role of host immune responses in health and disease.

2. Complete two courses from the following (at least one must have a lab component):

MMBIO 460 : Microbial Genetics. (4:3:3)
OFFERED: F, W
PREREQUISITE: MMBio 151, 240.
DESCRIPTION: How DNA governs complex bacterial functions. Classical and modern approaches to gene discovery, including genetic screens, gene mapping, targeted genetic manipulations, and analyzing gene activity.

MMBIO 461 : Advanced Bacterial Physiology. (3:3:0)
OFFERED: W
PREREQUISITE: Chem 481, MMBio 151.
DESCRIPTION: Principles of prokaryotic physiology, including cell structure and function, gene regulation, and biochemical processes; focusing on the unique aspects of prokaryotic biology.

MMBIO 462 : Microbial Ecology. (3:2:3)
OFFERED: F
PREREQUISITE: MMBio 151, PDBio 120.
DESCRIPTION: Natural history of a microbe; its distribution and abundance. Critical influence of scale and perspective in determining underlying mechanisms.

MMBIO 463 : Immunology. (3:3:0)
OFFERED: F, W
PREREQUISITE: MMBio 240, 361.
DESCRIPTION: Advanced concepts of immunological processes.

MMBIO 464 : Bacterial Pathogenesis. (4:3:3)
OFFERED: F, W
PREREQUISITE: MMBio 361.
DESCRIPTION: Fundamental principles of bacterial pathogenesis, emphasizing the molecular interactions of medically important bacteria and their hosts.

MMBIO 465 : Virology. (3:3:0)
OFFERED: F, W
PREREQUISITE: MMBio 361 or equivalent.

DESCRIPTION: Basic principles of virology, emphasizing selected molecular aspects of virus life cycles and disease processes.

Minor in Molecular Biology (11 hours, plus prerequisites in coupled major)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements

1. Complete the following:

MMBIO 265 : (MMBio-Bio-PWS) Genomics. (3:2:1)
OFFERED: F, W
PREREQUISITE: Bioinformatics major status or PDBio 120.
DESCRIPTION: Introduction to genomics and genome projects (human, plant, bacterial, yeast, parasites). Introduction to genes and genomes; computational and statistical approaches for analyzing genomic data, including genome sequencing and annotation, gene expression and the transcriptome, proteomics and functional genomics, and genetic variation and SNPs.

MMBIO 441 : Advanced Molecular Biology. (3:3:0)
OFFERED: W
PREREQUISITE: MMBio 240, Chem 352.
DESCRIPTION: Molecular biology of gene structure and expression in prokaryotic and eukaryotic organisms.

MMBIO 442 : Advanced Molecular Biology Laboratory. (2:0:6)
OFFERED: W
PREREQUISITE: MMBio 241; MMBio 441 or concurrent enrollment.
DESCRIPTION: Laboratory to accompany MMBio 441.

2. Complete at least 3 hours from the following:

BIO 420 : Evolutionary Biology. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: MMBio 240, PSW 340.
DESCRIPTION: Intensive examination of evolution as the conceptual cornerstone of biology.

BIO 465 : Bioinformatics. (3:2:1)
OFFERED: W
PREREQUISITE: Bio 265
DESCRIPTION: 3-D protein structural comparisons, hidden Markov models for database comparisons, homology detection, multiple sequence analyses, and protein family comparisons. Exercises in computer programming in genomics.

CHEM 461 : Physical Chemistry. (3:3:0)
OFFERED: F, W
PREREQUISITE: Chem 227 or ChEn 263 or equivalent; Phscs 123 or concurrent enrollment.
RECOMMENDED: Math 302.
DESCRIPTION: Thermodynamics and equilibria, states of matter, kinetic-molecular theory, kinetics.
NOTE: May be taken before or after Chem 462.

CHEM 468 : Biophysical Chemistry. (3:3:0)
OFFERED: W
PREREQUISITE: Chem 462; 481 or concurrent enrollment.
DESCRIPTION: Applications of physical chemistry to biological systems. Thermodynamics, equilibria, transport properties, kinetics, spectroscopic applications, computational methods, structural biochemistry.

CHEM 482 : Biochemistry 2. (3:3:0)
OFFERED: W, Sp

PREREQUISITE: Biol 360; Chem 481 or equivalent.
DESCRIPTION: Second-semester biochemistry. Nucleic acid biochemistry and molecular biology: nucleotide metabolism, chromosome and chromatin structure, DNA structure and replication, RNA transcription and gene expression, protein synthesis and regulation, eukaryotic gene systems, signal transduction.

CHEM 581 : Advanced Biochemical Methodology 1. (3:3:0)
OFFERED: F
PREREQUISITE: Chem 482 or equivalent.
DESCRIPTION: Physical methods used in biochemical research, including centrifugation, structural determinations, and use of radioactivity and spectroscopy.
NOTE: First of two required courses for biochemistry graduate students.

CHEM 584 : Biochemistry Laboratory/Proteins. (3:1:2)
OFFERED: F, W
PREREQUISITE: Chem 481 or equivalent.
DESCRIPTION: Introduction to current biochemical research procedures including spectrophotometry, chromatography, electrophoresis, and immunological techniques. Protein over-expression; isolation and characterization methods. Enzyme kinetics and protein-ligand interactions. Introduction to bioinformatics.

CHEM 586 : Biochemistry Laboratory/Nucleic Acids. (3:1:2)
OFFERED: F, W
PREREQUISITE: Chem 482 or equivalent.
DESCRIPTION: Laboratory course covering major techniques involved in isolation, amplification, and cloning of recombinant DNA as well as isolation, synthesis, translation, and identification of RNA.

MMBIO 151 : Introduction to Microbiology. (4:3:3)
OFFERED: F, W, Su
PREREQUISITE: Chem 105 or concurrent enrollment.
DESCRIPTION: Principles of prokaryotic biology emphasizing cell structure, function, and metabolism. Introduction to bacterial genetics, microbial diversity, and microbial ecology.

MMBIO 361 : Infection and Immunity. (4:4:0)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105; PDBio 120 or MMBio 221 or equivalent.
DESCRIPTION: Principles of infectious organisms (principally bacteria and viruses), the diseases they cause, and the role of host immune responses in health and disease.

MMBIO 399R : Academic Internship. (1-9:0:40)
OFFERED: F, W, Sp, Su
PREREQUISITE: Mentor's consent.
DESCRIPTION: Approved experiential learning.

MMBIO 430 : Advanced Cell Biology. (3:3:0)
OFFERED: F
PREREQUISITE: PDBio 360; bioscience major status.
DESCRIPTION: Molecular genetics, cell biology, and developmental biology.

MMBIO 460 : Microbial Genetics. (4:3:3)
OFFERED: F, W
PREREQUISITE: MMBio 151, 240.
DESCRIPTION: How DNA governs complex bacterial functions. Classical and modern approaches to gene discovery, including genetic screens, gene mapping, targeted genetic manipulations, and analyzing gene activity.

MMBIO 461 : Advanced Bacterial Physiology. (3:3:0)
OFFERED: W
PREREQUISITE: Chem 481, MMBio 151.
DESCRIPTION: Principles of prokaryotic physiology, including cell structure and function, gene regulation, and biochemical processes; focusing on the unique aspects of prokaryotic biology.

MMBIO 463 : Immunology. (3:3:0)
OFFERED: F, W
PREREQUISITE: MMBio 240, 361.
DESCRIPTION: Advanced concepts of immunological processes.

MMBIO 465 : Virology. (3:3:0)

HUM 201 : Honors Western Humanities 1: Antiquity to Renaissance. (3:3:0)
Honors Western Humanities 1: Antiquity to Renaissance.
OFFERED: F, W
DESCRIPTION: Western civilization from Greek antiquity to Renaissance from perspective of traditional humanistic values reflected in its arts and ideas. Examines fundamental questions about human experience, formative events in history, and value of important literary and artistic texts.

HUM 202 : Honors Western Humanities 2: Renaissance to the Present. (3:3:0)
Honors Western Humanities 2: Renaissance to the Present.
OFFERED: F, W
DESCRIPTION: Western civilization from Renaissance to present from perspective of traditional humanistic values reflected in its arts and ideas. Examines fundamental questions about human experience, formative events in history, and value of important literary and artistic texts.

HUM 261 : Honors American Humanities 1: Colonial Era Through 1876. (3:3:0)
Honors American Humanities 1: Colonial Era Through 1876.
OFFERED: F, Sp
DESCRIPTION: Value systems reflected in the arts and ideas of the United States from the colonial era to 1876.

HUM 262 : Honors American Humanities 2: 1877 to the Present. (3:3:0)
Honors American Humanities 2: 1877 to the Present.
OFFERED: W
DESCRIPTION: Value systems reflected in the arts and ideas of the United States from 1877 to the present.

LATIN 111 : Honors Beginning Latin Accelerated. (5:5:0)
Honors Beginning Latin Accelerated.
DESCRIPTION: Equivalent of combined Latin 101, 102.
NOTE: Prepares students for Latin 201.

MATH 112 : Honors Calculus 1. (4:5:0)
Honors Calculus 1.
PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.

MATH 113 : Honors Calculus 2. (4:5:0)
Honors Calculus 2.
PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.

M COM 320 : Honors Communication in Organizational Settings. (3:3:1)
Honors Communication in Organizational Settings.
OFFERED: F, W, Sp, Su
PREREQUISITE: GE First-Year Writing requirement. To be taken before senior year. Not for freshmen.
DESCRIPTION: Developing written and oral communications for professional organizations, including composing and designing employment communications. Incorporates oral presentations.
NOTE: Fulfills GE Advanced Written and Oral Communication requirement.

MMBIO 221 : Honors General Microbiology. (3:3:0)
Honors General Microbiology.
OFFERED: F, W, Sp, Su
PREREQUISITE: Any chemistry course and any biology course.
DESCRIPTION: Microbial world, emphasizing communicable diseases, their causes, and control.
NOTE: Recommended for students seeking a liberal education in microbiology who do not have the prerequisites to take the more advanced courses.

MUSIC 101 : Honors Introduction to Music. (3:3:0)
Honors Introduction to Music.
OFFERED: F, W, Sp, Su
PREREQUISITE: nonmajor music status.
DESCRIPTION: Designed to aid nonmusic majors in developing skills needed for listening to music creatively. Emphasis on masterworks of Western music from major style periods.

MUSIC 201 : Honors Civilization: Music 1. (3:3:0)
Honors Civilization: Music 1.
OFFERED: F, Sp, or Su on demand
PREREQUISITE: Ability to read musical notation.
DESCRIPTION: History of civilization from Greek antiquity through the seventeenth century, primarily from perspective of musical literature and the arts; exploring fundamental questions in human experience; examining formative events in history; understanding value of important texts.

MUSIC 202 : Honors Civilization: Music 2. (3:3:0)
Honors Civilization: Music 2.
OFFERED: W, Sp, or Su on demand.
PREREQUISITE: Ability to read musical notation.
DESCRIPTION: History of civilization from the eighteenth century through the present day, primarily from perspective of musical literature and the arts; exploring fundamental questions in human experience, examining formative events in history; understanding value of important texts.

PDBIO 120 : Honors Science of Biology. (2:2:1)
Honors Science of Biology.
OFFERED: F, W, Sp, Su
DESCRIPTION: General biology course designed for biological science majors, emphasizing the scientific method, cell theory, biochemical unity, the Central Dogma, bioenergetics, reproduction, and evolutionary theory.

PHIL 110 : Honors Introduction to Philosophy. (3:3:0)
Honors Introduction to Philosophy.
DESCRIPTION: Articulating, assessing, and defending fundamental positions on topics such as reason, knowledge, science, education, ethics, politics, and religion.
NOTE: Independent Study also.

PHIL 150 : Honors Reasoning and Writing. (3:3:0)
Honors Reasoning and Writing.
OFFERED: F, W, Sp, Su
RECOMMENDED: Recommended for philosophy majors and minors.
DESCRIPTION: Informal grammar, logic, and rhetoric as tools for reading and writing. Library research.
NOTE: Fulfills GE First-Year Writing requirement. No course challenges accepted.

PHIL 201 : Honors History of Philosophy 1. (3:3:0)
Honors History of Philosophy 1.
DESCRIPTION: Western civilization from Greek antiquity to Renaissance, primarily from perspective of philosophy; exploring fundamental questions in human experience; examining formative events in history; understanding value of important texts.

OFFERED: F, W
PREREQUISITE: MMBio 361 or equivalent.
DESCRIPTION: Basic principles of virology, emphasizing selected molecular aspects of virus life cycles and disease processes.

MMBIO 466 : Virology Laboratory. (1:0:3)
OFFERED: F, W
PREREQUISITE: MMBio 361; 465 or concurrent enrollment.
DESCRIPTION: Laboratory exercises illustrating in vitro behavior of selected viruses. Developing laboratory skills for virus studies.

MMBIO 494R : Mentored Research. (1-3:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Mentor's consent.
DESCRIPTION: Mentored research.

PDBIO 482 : Developmental Biology. (3:3:1)
OFFERED: F, W
PREREQUISITE: Biol 240, 241, 360.
RECOMMENDED: PDBio 225.
DESCRIPTION: Invertebrate and vertebrate developmental biology. Embryonic gastrulation, neurulation, pattering, etc. Modern approaches and research strategies. Emphasizes gene function, cell signaling, signal transduction during embryogenesis.

PDBIO 582 : Developmental Genetics. (3:3:0)
OFFERED: W
PREREQUISITE: PDBio 482 or equivalent.
DESCRIPTION: Gene function and regulation during cell specification and differentiation, pattern formation, and organogenesis in developing embryo.

PWS 525 : Plant Development. (3:3:0)
OFFERED: F odd years
PREREQUISITE: PDBio 360 or equivalent; PWS 586.
DESCRIPTION: Molecular and genetic interactions in plant development.

PWS 580 : Plant Transformation. (2:1:3)
OFFERED: W even years.
PREREQUISITE: PDBio 360 or equivalent; PWS 586.
DESCRIPTION: Theory and methods of plant transformation.

PWS 586 : Plant Cell Biology. (3:3:0)
OFFERED: F even years.
PREREQUISITE: PDBio 360, PWS 340, 440; or equivalents.
DESCRIPTION: Molecular aspects of the structural and functional characteristics of plant cells, emphasizing characteristics of plant cells setting them apart from animal cells.

Note: Be aware of prerequisites for the above courses (usually filled in a coupled major).

*Hours include courses that may fulfill university core requirements.

Undergraduate Courses

100-Level Courses

MMBIO 102 : Introduction to Clinical Laboratory Techniques. (1:0:3)
OFFERED: F, W
DESCRIPTION: Hospital laboratory techniques.

MMBIO 151 : Introduction to Microbiology. (4:3:3)
OFFERED: F, W, Su
PREREQUISITE: Chem 105 or concurrent enrollment.
DESCRIPTION: Principles of prokaryotic biology emphasizing cell structure, function, and metabolism. Introduction to bacterial genetics, microbial diversity, and microbial ecology.

200-Level Courses

MMBIO 221 : General Microbiology. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Any chemistry course and any biology course.
DESCRIPTION: Microbial world, emphasizing communicable diseases, their causes, and control.
NOTE: Recommended for students seeking a liberal education in microbiology who do not have the prerequisites to take the more advanced courses.

: Honors General Microbiology.

MMBIO 222 : General Microbiology Laboratory. (1:0:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: MMBio 221 or concurrent enrollment.

MMBIO 240 : Molecular Biology. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 120, Chem 105.
DESCRIPTION: Fundamentals of protein and nucleic acid structure and their function in the context of the classical experiments that have informed our current models of biology at the molecular level.

MMBIO 241 : Molecular and Cellular Biology Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: MMBio 240 or concurrent enrollment.
DESCRIPTION: Molecular and cellular biology techniques laboratory.

MMBIO 265 : (MMBio-Bio-PWS) Genomics. (3:2:1)
OFFERED: F, W
PREREQUISITE: Bioinformatics major status or PDBio 120.
DESCRIPTION: Introduction to genomics and genome projects (human, plant, bacterial, yeast, parasites). Introduction to genes and genomes; computational and statistical approaches for analyzing genomic data, including genome sequencing and annotation, gene expression and the transcriptome, proteomics and functional genomics, and genetic variation and SNPs.

300-Level Courses

MMBIO 361 : Infection and Immunity. (4:4:0)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105; PDBio 120 or MMBio 221 or equivalent.
DESCRIPTION: Principles of infectious organisms (principally bacteria and viruses), the diseases they cause, and the role of host immune responses in health and disease.

MMBIO 362R : Survey of Careers in Microbiology. (1:ARR:ARR)
OFFERED: F
DESCRIPTION: Lectures and field trips surveying career choices.

MMBIO 390R : Readings in Molecular Biology. (1:1:0)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 360.
DESCRIPTION: Selected readings in molecular biology.

MMBIO 392 : Hematology. (2.5:2.5:1)
OFFERED: W

MMBIO 393 : Immunohematology and Coagulation Theory. (2.5:2.5:1)
OFFERED: W
PREREQUISITE: Clinical laboratory science program acceptance.
DESCRIPTION: Theory and practice of bloodbanking and coagulation theory.

MMBIO 394 : Practical Hematology. (2:0:7)
OFFERED: W
PREREQUISITE: MMBio 392 or concurrent enrollment.
DESCRIPTION: Laboratory to accompany MMBio 392; medical laboratory techniques in hematology.

MMBIO 395 : Practical Immunohematology and Coagulation Theory. (2:0:7)
OFFERED: W
PREREQUISITE: MMBio 393 or concurrent enrollment.
DESCRIPTION: Laboratory to accompany MMBio 393; medical laboratory techniques in immunohematology and coagulation theory.

MMBIO 399R : Academic Internship. (1-9:0:40)
OFFERED: F, W, Sp, Su
PREREQUISITE: Mentor's consent.
DESCRIPTION: Approved experiential learning.

400-Level Courses

MMBIO 407 : Clinical Microbiology. (4:2:6)
OFFERED: W
PREREQUISITE: MMBio 361.
DESCRIPTION: Approaches to laboratory diagnosis of infectious diseases.

MMBIO 417 : Medical Parasitology. (3:2:3)
OFFERED: F, W
PREREQUISITE: Bio 100 or equivalent.
DESCRIPTION: Pathogenesis, diagnosis, and epidemiology of human parasitic diseases. Laboratory included.

MMBIO 420 : Pathophysiology and Laboratory Diagnosis in Clinical Chemistry. (5:4:2)
OFFERED: F
PREREQUISITE: Clinical laboratory science program acceptance.
DESCRIPTION: Laboratory diagnosis of disorders involving the major systems of the human body.

MMBIO 421 : Laboratory Techniques in Clinical Chemistry and Diagnostic Molecular Biology. (4:0:14)
OFFERED: F
PREREQUISITE: Concurrent enrollment in MMBio 420.
DESCRIPTION: Medical laboratory techniques in urinalysis, clinical chemistry, and diagnostic molecular genetics.

MMBIO 430 : Advanced Cell Biology. (3:3:0)
OFFERED: F
PREREQUISITE: PDBio 360; bioscience major status.
DESCRIPTION: Molecular genetics, cell biology, and developmental biology.

MMBIO 441 : Advanced Molecular Biology. (3:3:0)
OFFERED: W
PREREQUISITE: MMBio 240, Chem 352.
DESCRIPTION: Molecular biology of gene structure and expression in prokaryotic and eukaryotic organisms.

MMBIO 442 : Advanced Molecular Biology Laboratory. (2:0:6)
OFFERED: W
PREREQUISITE: MMBio 241; MMBio 441 or concurrent enrollment.
DESCRIPTION: Laboratory to accompany MMBio 441.

MMBIO 460 : Microbial Genetics. (4:3:3)
OFFERED: F, W
PREREQUISITE: MMBio 151, 240.
DESCRIPTION: How DNA governs complex bacterial functions. Classical and modern approaches to gene discovery, including genetic screens, gene mapping, targeted genetic manipulations, and analyzing gene activity.

MMBIO 461 : Advanced Bacterial Physiology. (3:3:0)
OFFERED: W
PREREQUISITE: Chem 481, MMBio 151.
DESCRIPTION: Principles of prokaryotic physiology, including cell structure and function, gene regulation, and biochemical processes; focusing on the unique aspects of prokaryotic biology.

MMBIO 462 : Microbial Ecology. (3:2:3)
OFFERED: F
PREREQUISITE: MMBio 151, PDBio 120.
DESCRIPTION: Natural history of a microbe; its distribution and abundance. Critical influence of scale and perspective in determining underlying mechanisms.

MMBIO 463 : Immunology. (3:3:0)
OFFERED: F, W
PREREQUISITE: MMBio 240, 361.
DESCRIPTION: Advanced concepts of immunological processes.

MMBIO 464 : Bacterial Pathogenesis. (4:3:3)

OFFERED: F, W
PREREQUISITE: MMBio 361.
DESCRIPTION: Fundamental principles of bacterial pathogenesis, emphasizing the molecular interactions of medically important bacteria and their hosts.

MMBIO 465 : Virology. (3:3:0)
OFFERED: F, W
PREREQUISITE: MMBio 361 or equivalent.
DESCRIPTION: Basic principles of virology, emphasizing selected molecular aspects of virus life cycles and disease processes.

MMBIO 466 : Virology Laboratory. (1:0:3)
OFFERED: F, W
PREREQUISITE: MMBio 361; 465 or concurrent enrollment.
DESCRIPTION: Laboratory exercises illustrating in vitro behavior of selected viruses. Developing laboratory skills for virus studies.

MMBIO 467 : Immunology Lab. (1:0:3)
OFFERED: F, W
PREREQUISITE: MMBio 361; 463 or concurrent enrollment.
DESCRIPTION: Laboratory exercises in advanced concepts of immunological processes.

MMBIO 490R : Molecular Biology Seminar. (1:1:0)
OFFERED: F, W
PREREQUISITE: MMBio 441; senior status.
DESCRIPTION: Critical examination of current literature and research in molecular biology.

MMBIO 491 : Concept Applications in Laboratory Medicine. (1:1:0)
OFFERED: F
PREREQUISITE: Acceptance into clinical laboratory science program.
DESCRIPTION: Case presentations of various medical disorders.

MMBIO 494R : Mentored Research. (1-3:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Mentor's consent.
DESCRIPTION: Mentored research.

MMBIO 496R : Clinical Experience. (1-9:0:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: MMBio 392, 393, 394, 395, 407, 417, 420, 421, 491.
DESCRIPTION: Performing the full range of clinical laboratory tests in an affiliated clinical facility. A six-month internship experience.

MMBIO 499R : Senior Honors Thesis. (1-3:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Topic to be cleared with Honors Program and Department of Microbiology and Molecular Biology.

500-Level Graduate Courses (available to advanced undergraduates)

MMBIO 518 : Select Pathogens. (2:2:0)
OFFERED: F odd years
PREREQUISITE: MMBio 453 or equivalent.
DESCRIPTION: Current literature in special pathogens.

MMBIO 551R : Current Topics in Microbiology and Molecular Biology. (1-3:Arr.:0)
OFFERED: On demand.
DESCRIPTION: Readings from current literature on a specific topic; student presentations and discussion.

: Cell Biology
: Evolution.
: Gene Expression.
: Immunology.
: Microbial Ecology.
: Microbial Genetics.
: Microbial Physiology.
: Parasitology.
: Pathogenic Microbiology.
: Virology.

MMBIO 554 : Molecular Virology. (2:2.0:0.0)
PREREQUISITE: MMBio 354, 454; or equivalents.
DESCRIPTION: Molecular mechanisms of virus architecture, attachment and entry pathways, replication strategies, oncogenesis, evolution, and mechanisms of pathogenesis.

MMBIO 557 : Genes and Cancer. (2:2.0:0.0)
OFFERED: W odd years
PREREQUISITE: MMBio 441 or equivalent.
DESCRIPTION: Molecular basis of human cancers, emphasizing oncogenes, tumor suppressor genes, chromosomal instability, hereditary cancers, chemical and physical carcinogens, and viral carcinogenesis.

Graduate Courses

Microbiology and Molecular Biology Faculty

Professors

Anderson, Shauna Christine

COLLEGE: Life Sciences
DEPARTMENT: Microbiology and Moledular Biology
RANK: Professor
DEGREES: AS, Ricks College, 1965
BS, Brigham Young University, 1967
MS, University of Utah, 1973
PhD, University of Washington, 1984

Bradshaw, William S

COLLEGE: Life Sciences
DEPARTMENT: Microbiology and Moledular Biology
RANK: Professor
DEGREES: BA, Harvard University, 1963
PhD, University of Illinios, Urbana, 1968

Harker, Alan Reed

COLLEGE: Life Sciences
DEPARTMENT: Microbiology and Moledular Biology
RANK: Professor
DEGREES: BS, University of Utah, 1976
PhD, University of Utah, 1982

Johnson, F Brent

COLLEGE: Life Sciences
DEPARTMENT: Microbiology and Moledular Biology
RANK: Professor
DEGREES: BS, Brigham Young University, 1966
MS, Brigham Young University, 1967
PhD, Brigham Young University, 1970

Murray, Byron Kerr

COLLEGE: Life Sciences
DEPARTMENT: Microbiology and Moledular Biology
RANK: Professor
DEGREES: AS, Ricks College, 1964
BS, Brigham Young University, 1966
MS, Brigham Young University, 1969
PhD, Brigham Young University, 1971

Nielsen, Brent Lynn

COLLEGE: Life Sciences
DEPARTMENT: Microbiology and Moledular Biology

Admission to Degree Program

Enrollment in the School of Music's degree programs is limited. Prospective majors must pass an audition and aural skills exam. Please consult the General Information section below and visit the college advisement center for details.

The Discipline

The School of Music respects and celebrates the historic position of music at the heart of a liberal education and the gospel. From ancient times, music has proven its power to enlighten the understanding, strengthen the spirit, and shape character. With this power music civilizes and invigorates any society in which it is cultivated.

In the School of Music the student learns self-discipline through rigorous practice in pursuit of accurate and passionate performance. The student also learns cooperation and mutual sensitivity through ensemble work. In the study of music theory and history, the student comes to hear and appreciate the grammar and syntax of various musical languages, to distinguish nuances of style, and to grasp the ways in which styles intertwine with ideas.

Students learn in a variety of situations: private lessons, small seminars, multimedia labs, and large lectures. These are offered with a holistic approach that embraces academic rigor, intuitive insight, physical grace, and spiritual eloquence.

Career Opportunities

The School of Music leads its students toward careers in performance, studio teaching, music education, creating and managing music projects for the media, recording and sound technology, arts management, music journalism, composition, music therapy, and other music-related professions. Because the music curriculum is rigorous, it is also an excellent pre-professional course of study for those interested in fields as diverse as law, business, library science, or medicine. Whatever degrees one obtains, however, an education in music pertains not only to earning a living through the art but also using the art to enhance one's satisfaction and joy in living.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Majors
- BA in Music
- BM in Jazz Studies
- BM in Media Music Studies
- BM in Music Composition
- BM in Music Education
  - Emphases:
    - K-12 Choral
    - K-12 Instrumental
    - Elementary Music Specialist
- BM in Music Performance
  - Emphases:
    - Brass
    - Combined Piano and Organ
    - Organ
    - Percussion
    - Piano
    - String
    - Vocal
    - Woodwind
- BM in Sound Recording Technology

Minor
- Music

Students should see their college advisement center for help or information concerning the undergraduate programs.

Graduate Programs and Degrees

MA in Music
MM in Music

For more information see the BYU 2008–2009 Graduate Catalog.

General Information

1. Admission applications to the School of Music must be received by January 15.
2. All entering students (including transfer students) must pass a performance audition on their major instrument (or voice). Live auditions are held on the last Saturday of January. Students who cannot attend the live audition must submit an audio or VHS videotape for consideration; these tapes must be received by January 15. See the School of Music office (C-550 HFAC) for further details regarding the audition process and requirements, or call (801) 422-3083.
3. All entering students must also pass an aural skills examination. They may take this examination in one of three ways: (1) in a group, at admissions auditions on the last Saturday of January; (2) individually, at the BYU Testing Center (call [801] 422-6129 to schedule times), or (3) individually by proctor at other locations (call the School of Music office to arrange). Students may take the exam as many times as desired to improve their score. (Students who receive a score of 4 or 5 on the aural part of the AP music exam are exempt from this test.)
4. All students who do not have a keyboard emphasis (piano or organ) must complete the piano proficiency requirement by the end of the sophomore year. Students can fulfill this requirement by (1) taking one or both of Music 221, 222, or by (2) taking the Piano Proficiency Exam. (Call the School of Music for more details.)
5. Upon acceptance as a music major, each student must meet with their academic advisor in the college advisement center.
6. Students who pass either part of the AP Music Test with at least a score of 4 should check with the college advisement center before registering for core courses.
7. All major performance instruction must be in the same instrument (or voice).
8. All students registered in Music 161, 250R, 260R, 360R, or 460R must complete an examination before a faculty jury on their major instrument (or voice) near the end of each semester of performance study. (With the approval of the faculty, students may elect to substitute a juried public recital for a jury examination.) Students wanting to enter Music 360R or 460R (normally after the sophomore year) must first be granted approval to do so by a faculty jury.
9. All students must fulfill the ensemble requirements of their individual degree programs as described below. Ensemble requirements are filled through a mixture of assigned "Category 1: Approved Large Ensembles" (Music 311R [University Chorale] if placed by audition, 312R [Men's Chorus], 313R [Women's Chorus], 314R [Concert Choir], 315R [University Singers], 325R [Symphonic Band], 326R [Wind Symphony], 337R [Symphony Orchestra], and 338R [Philharmonic Orchestra]) and "Category 2: Other Ensembles Approved for the Major," as allowed in each degree program. Only one approved large ensemble per semester may count toward this requirement, and this ensemble assignment is determined by the student's major instrumental teacher or by choral audition, not by the student. The total ensemble requirement should be completed in consecutive semesters of enrollment beginning the freshman year. Students may not enroll in more than two conducted or directed ensembles per semester.
10. All transfer students must have their previous university work in music evaluated by the appropriate BYU School of Music faculty members to determine what credits will be accepted in the transfer (see the college advisement center for referrals). We subscribe to the policy of the National Association of Schools of Music and carry no obligation to accept upper-division music credits from other member schools.
11. If any course the School of Music is failed twice, the student is dropped from the major.
12. Students temporarily leaving the School of Music or private studio instruction (for a mission, Study Abroad, etc.) for one or more semesters before their major requirement is completed are required to file a deferment form with the School of Music office (C-550 HFAC). Failure to do so may result in the loss of any music scholarship as well as private studio instruction in the semester or two following the student's return to BYU.
13. It is expected that School of Music students attend at least eight concerts and two School of Music-sponsored lectures each semester, in the process seeking greater exposure to a more diverse variety of music literature and thought. For more information see the "Undergraduate Handbook" published by the School of Music.

PHIL 202 : Honors History of Philosophy 2. (3:3:0)
Honors History of Philosophy 2.
PREREQUISITE: Phil 201.
DESCRIPTION: Western civilization from Renaissance to present, primarily from perspective of philosophy; exploring fundamental questions in human experience; examining formative events in history; understanding value of important texts.
PHIL 210 : Honors Science and Civilization 1. (3:3:0)
Honors Science and Civilization 1.
DESCRIPTION: History of Civilization from Greek antiquity to sciencific revolution; methods in early science and their philosophical significance; exploring fundamental questions in human experience; examining formative events in history; understanding value of important texts.
PHIL 211 : Honors Science and Civilization 2. (3:3:0)
Honors Science and Civilization 2.
PREREQUISITE: Phil 210.
DESCRIPTION: History of Civilization from scientific revolution to present; concepts and methods in modern science and their philosophical significance; exploring fundamental questions in human experience; examining formative events in history; understanding value of important texts.
PHIL 300 : Honors Philosophical Writing. (3:3:0)
Honors Philosophical Writing.
OFFERED: F, W, Sp on demand, Su on demand.
PREREQUISITE: Phil 150, 205; or equivalents.
DESCRIPTION: Writing philosophical papers about philosophical texts or problems. Research methods in philosophy. Library research paper.
NOTE: Fulfills GE Advanced Writing requirement. No course challenges accepted.
PHIL 423 : (Phil-Phscs314) Honors History and Philosophy of Science. (3:3:0)
(Phil-Phscs314) Honors History and Philosophy of Science.
PREREQUISITE: PhyS 100 or instructor's consent.
DESCRIPTION: Scientific explanation, concepts, and models. Philosophical assumptions and criteria for theory selection, as exemplified by historical development of basic ideas in science.
PHY S 100 : Honors Physical Science. (3:3:ARR)
Honors Physical Science.
OFFERED: F, W, Sp, Su
DESCRIPTION: Conceptual lectures and demonstrations of the most significant and universal laws and models describing the physical world by faculty from Physics and Astronomy, Chemistry and Biochemistry, and Geology departments.
NOTE: Satisfies GE Physical Science requirement.
PHSCS 127 : Honors Descriptive Astronomy. (3:3:1)
Honors Descriptive Astronomy.
OFFERED: F, W, Sp
DESCRIPTION: Nonmathematical presentation of knowledge of the content and history of the cosmos, frequently using observatory and planetarium.
PL SC 110 : Honors American Government and Politics. (3:3:0)
Honors American Government and Politics.
DESCRIPTION: Origin and development of federal Constitution; national, state, and local governments and politics.
NOTE: Independent Study also.
PL SC 150 : Honors Comparative Government and Politics. (3:3:0)
Honors Comparative Government and Politics.
DESCRIPTION: Patterns of European, Asian, Latin American, and other political systems.
PL SC 201 : Honors Western Political Heritage 1. (3:3:0)
Honors Western Political Heritage 1.
DESCRIPTION: Western civilization from Greek antiquity to Renaissance, primarily from perspective of political philosophy and scriptures; exploring fundamental questions in human experience; examining formative events in history; understanding value of important texts.
PL SC 202 : Honors Western Political Heritage 2. (3:3:0)
Honors Western Political Heritage 2.
DESCRIPTION: Western civilization from Renaissance to present, primarily from perspective of political philosophy; exploring fundamental questions in human experience; examining formative events in history; understanding value of important texts.
PSYCH 111 : Honors General Psychology. (3:3:0)
Honors General Psychology.
OFFERED: F, W, Sp, Su
DESCRIPTION: Basic course in modern scientific psychology.
SFL 160 : Honors: Introduction to Family Processes. (3:3:0)
Honors: Introduction to Family Processes.
OFFERED: F, W, Sp, Su
DESCRIPTION: Ways of strengthening family life by understanding such family processes as generations, emotions, communication, and rituals.
SOC 111 : Honors Introductory Sociology. (3:3:0)
Honors Introductory Sociology.
OFFERED: F, W, Sp, Su
DESCRIPTION: Social group influcence; social interaction, processes, organization, and change; family, religion, government, population, culture, race relations.
SOC 112 : Honors Current Social Problems. (3:3:0)
Honors Current Social Problems.
OFFERED: F, W, Sp, Su
DESCRIPTION: Individual deviance (violence, insanity, drugs, sex, crime, etc.) and social disorganization (poverty, race and sex discrimination, divorce, overpopulation, etc.). Conditions, causes, solutions.
STAT 221 : Honors Principles of Statistics. (3:3:2)
Honors Principles of Statistics.
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Independent Study also.

Religious Education:

REL A 121 : Honors The Book of Mormon. (2:2:0)
Honors The Book of Mormon.
OFFERED: F, W, Sp, Su
DESCRIPTION: Narrative, doctrines, and precepts of the Book of Mormon. Covers 1 Nephi through Alma 29.
NOTE: *Returned missionaries must enroll in sections designated specifically for returned missionaries.*
REL A 122 : Honors The Book of Mormon. (2:2:0)

BA in Music (57–76 hours*)

Show All Course Descriptions
Hide All Course Descriptions

This is a limited-enrollment program requiring departmental admissions approval. Please see the college advisement center for information regarding requirements for admission to this major.

The bachelor of arts degree offers a broad liberal arts education with a concentration in music. It also provides excellent preparation for a variety of professional music careers or graduate work in theory or musicology.

Program Requirements | View MAP

1. See the college advisement center to obtain information concerning official acceptance into a specific degree program.
2. Complete the following lower-division music core courses:

MUSIC 193 : Dictation 1. (1:0:2)
OFFERED: F, Sp
PREREQUISITE: Acceptance as a music major; concurrent enrollment in Music 195, 197.
DESCRIPTION: Development of aural skills through melodic, rhythmic, and harmonic dictation.

MUSIC 194 : Dictation 2. (1:0:2)
OFFERED: W, Su
PREREQUISITE: C- or higher in Music 193, 195, 197; concurrent enrollment in Music 198, 196.
DESCRIPTION: Continuation of Music 193.

MUSIC 195 : Music Theory 1. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: Acceptance as a music major; concurrent enrollment in Music 193, 197.
DESCRIPTION: Writing and analysis in diatonic harmony.

MUSIC 196 : Music Theory 2. (3:3:0)
OFFERED: W, Su
PREREQUISITE: C- or higher in Music 193, 195, 197; concurrent enrollment in 194, 198.
DESCRIPTION: Writing and analysis in diatonic and chromatic harmony.

MUSIC 197 : Sight Singing 1. (.5:0:1)
OFFERED: F, Sp
PREREQUISITE: Acceptance as a music major; concurrent enrollment in Music 193, 195.
DESCRIPTION: Rhythm and pitch-reading skills using two systems of counting and melodic solfeggio singing with hand signs.

MUSIC 198 : Sight Singing 2. (.5:0:1)
OFFERED: W, Su
PREREQUISITE: C- or higher in Music 193, 195, 197; concurrent enrollment in Music 194, 196.
DESCRIPTION: Continuation of Music 197.

MUSIC 221 : Functional Piano Skills 1. (2:2:0)
OFFERED: F, Sp
PREREQUISITE: Piano skills determined by entrance diagnostic exam; music major status.
DESCRIPTION: Provides music majors with basic keyboarding ability in such areas as sight reading, technique, harmonization, and score reading.

MUSIC 222 : Functional Piano Skills 2. (2:2:0)
OFFERED: W, Su
PREREQUISITE: Music 221; music major status.

The

DESCRIPTION: Continuation of Music 221.

MUSIC 235 : Conducting Techniques. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: music major status, C- or higher in Music 194, 196, 198.
DESCRIPTION: Physical techniques and musical understanding required to conduct a performance ensemble.

MUSIC 293 : Dictation 3. (1:0:2)
OFFERED: F, Sp
PREREQUISITE: C- or higher in Music 194, 196, and 198; concurrent enrollment in Music 295, 297.
DESCRIPTION: Continuation of Music 194.

MUSIC 294 : Dictation 4. (1:0:2)
OFFERED: W, Su
PREREQUISITE: C- or higher in Music 293, 295, 297; concurrent enrollment in Music 296, 298.
DESCRIPTION: Continuation of Music 293.

MUSIC 295 : Music Theory 3. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: C- or higher in Music 194, 196, and 198; concurrent enrollment in Music 293, 297.
DESCRIPTION: Extended chromatic techniques and introduction to twentieth-century concepts.

MUSIC 296 : Music Theory 4. (3:3:0)
OFFERED: W, Su
PREREQUISITE: C- or higher in Music 293, 295, 297; concurrent enrollment in Music 294, 298.
DESCRIPTION: Set theory, serialism, and late twentieth-century concepts.

MUSIC 297 : Sight Singing 3. (.5:0:1)
OFFERED: F, Sp
PREREQUISITE: C- or higher in Music 194, 196, and 198; concurrent enrollment in Music 293 *and* 295.
DESCRIPTION: Continuation of Music 198.

MUSIC 298 : Sight Singing 4. (.5:0:1)
OFFERED: W, Su
PREREQUISITE: C- or higher in Music 293, 295, 297; concurrent enrollment in Music 294, 296.
DESCRIPTION: Continuation of Music 297.

3. Complete one of the following options:
   a. Instrumentalists complete the following:
      MUSIC 260R : Performance Instruction. (.5-2:1:1)
      OFFERED: F, W, Sp
      PREREQUISITE: Music major status.
      DESCRIPTION: Private instruction and studio class.
      NOTE: From one to four hours of daily practice. Fee.

      : Performance Instruction: Bassoon.
      : Performance Instruction: Brass and Percussion.
      : Performance Instruction: Cello.
      : Performance Instruction: Clarinet.
      : Performance Instruction: Euphonium.
      : Performance Instruction: Flute.
      : Performance Instruction: Guitar.
      : Performance Instruction: Harp.
      : Performance Instruction: Harpsichord.
      : Performance Instruction: Horn.
      : Performance Instruction: Oboe.
      : Performance Instruction: Organ.
      : Performance Instruction: Percussion.
      : Performance Instruction: Piano.
      : Performance Instruction: Recorder.
      : Performance Instruction: Saxophone.
      : Performance Instruction: String Bass.
      : Performance Instruction: Strings.
      : Performance Instruction: Synthesizer.
      : Performance Instruction: Trombone.
      : Performance Instruction: Trumpet.
      : Performance Instruction: Tuba.
      : Performance Instruction: Viola.
      : Performance Instruction: Violin.

: Performance Instruction: Voice.
: Performance Instruction: Woodwinds.

(8 hours).

b. Vocalists complete the following:

MUSIC 161 : Voice Technique. (2:2:0)
OFFERED: F, W
PREREQUISITE: Acceptance by audition to the School of Music.
DESCRIPTION: Class instruction in voice technique.

MUSIC 260R : Performance Instruction. (.5-2:1:1)
OFFERED: F, W, Sp
PREREQUISITE: Music major status.
DESCRIPTION: Private instruction and studio class.
NOTE: From one to four hours of daily practice. Fee.

: Performance Instruction: Bassoon.
: Performance Instruction: Brass and Percussion.
: Performance Instruction: Cello.
: Performance Instruction: Clarinet.
: Performance Instruction: Euphonium.
: Performance Instruction: Flute.
: Performance Instruction: Guitar.
: Performance Instruction: Harp.
: Performance Instruction: Harpsichord.
: Performance Instruction: Horn.
: Performance Instruction: Oboe.
: Performance Instruction: Organ.
: Performance Instruction: Percussion.
: Performance Instruction: Piano.
: Performance Instruction: Recorder.
: Performance Instruction: Saxophone.
: Performance Instruction: String Bass.
: Performance Instruction: Strings.
: Performance Instruction: Synthesizer.
: Performance Instruction: Trombone.
: Performance Instruction: Trumpet.
: Performance Instruction: Tuba.
: Performance Instruction: Viola.
: Performance Instruction: Violin.
: Performance Instruction: Voice.
: Performance Instruction: Woodwinds.

(6 hours).

4. Complete one hour of ensemble each semester for four semesters, including 2-3 hours from Category 1: Approved Large Ensembles (see General Information) and 1-2 hours from the following Category 2 ensembles:

MUSIC 316R : Opera Workshop. (1:6:0)
OFFERED: F
PREREQUISITE: audition; instructor's consent.
DESCRIPTION: Training and experience in operatic choral music and stage movement.

MUSIC 317R : Opera Ensemble. (.5-3:6:0)
OFFERED: F, W, Sp
PREREQUISITE: audition; instructor's consent.
DESCRIPTION: Training and experience in operatic excerpts, chamber opera, and full productions for operatic soloists.

MUSIC 318R : Music Theatre Ensemble. (1:0:5)
OFFERED: F, W, Sp
PREREQUISITE: audition and director's consent.
DESCRIPTION: Auditioned chorus or orchestra for opera or music dance theatre productions.

MUSIC 319R : Music Theatre Performance. (.5-3:0:0)
OFFERED: F, W, Sp
PREREQUISITE: audition and director's consent.
DESCRIPTION: Participation as soloists, coaches, or directors in music dance theatre or opera performances.

: Living Legends Performance.
: Young Ambassador Performance.

MUSIC 323R : Marching Band. (1:0:6)
OFFERED: F
PREREQUISITE: audition or director's consent.

MUSIC 330R : Steel Band. (1:0:2)
OFFERED: F, W
PREREQUISITE: director's consent.

MUSIC 331R : Jazz Combos. (1:1:2)
OFFERED: F, W
PREREQUISITE: audition.

MUSIC 332R : Show Band. (1:0:6)
OFFERED: F, W
PREREQUISITE: Audition.
DESCRIPTION: Contemporary and traditional show music (Young Ambassadors) and ethnic music (Lamanite Generation).

MUSIC 333R : Jazz Ensemble. (1:1:2)
OFFERED: F, W, Sp
PREREQUISITE: Audition.
DESCRIPTION: Includes Jazz Ensemble (big band), Jazz Lab Band (entry-level big band), and Vocal Jazz Ensembles.

: Jazz Lab Band.

(Vocal Jazz)
MUSIC 333R : Jazz Ensemble. (1:1:2)
OFFERED: F, W, Sp
PREREQUISITE: Audition.
DESCRIPTION: Includes Jazz Ensemble (big band), Jazz Lab Band (entry-level big band), and Vocal Jazz Ensembles.

: Jazz Lab Band.

(Jazz Ensemble)
MUSIC 334R : Synthesis. (1:0:4)
OFFERED: F, W
PREREQUISITE: audition.

MUSIC 335R : Jazz Legacy Band. (1:2:0)
OFFERED: F, W
PREREQUISITE: Audition.
DESCRIPTION: Traditional ensemble specializing in early jazz. Band occasionally tours off campus.

MUSIC 339R : Chamber Orchestra. (1:0:2)
OFFERED: F, W
PREREQUISITE: audition.

MUSIC 341R : Brass Chamber Music. (1:1:2)
OFFERED: F, W, Sp
PREREQUISITE: director's consent.

: Brass Choir.
: Brass Ensemble.
: Trombone Choir.

MUSIC 342R : Early Music Ensemble. (1:1:3)
OFFERED: F, W
PREREQUISITE: director's consent.

MUSIC 343R : Guitar Ensemble. (1:1:2)
OFFERED: F, W
PREREQUISITE: director's consent.

MUSIC 344R : Keyboard in Ensemble. (1:0:3)
OFFERED: F, W, Sp

PREREQUISITE: Music 260R or instructor's consent.
DESCRIPTION: Accompanying and ensemble performance.

MUSIC 345R : Percussion Ensemble. (1:0:2)
OFFERED: F, W
PREREQUISITE: director's consent.

MUSIC 346R : String Chamber Music. (1:1:2)
OFFERED: F, W, Sp
PREREQUISITE: director's consent.

MUSIC 347R : Vocal Point. (1:5:0)
OFFERED: F, W
PREREQUISITE: director's consent.

MUSIC 348R : Woodwind Chamber Music. (1:1:2)
OFFERED: F, W, Sp
PREREQUISITE: director's consent.

: Flute Choir.
: Saxophone Ensemble.
: Woodwind Ensemble.

MUSIC 441R : New Music Ensemble. (1:0:1)
OFFERED: F, W
PREREQUISITE: instructor's consent.

5. Complete the following upper-division music core courses:
MUSIC 301 : Survey of Music Literature 1. (2:2:0)
OFFERED: F, Sp
PREREQUISITE: Music 194, 196, 198; 201, 202, or equivalent.
DESCRIPTION: Survey of musical genres, forms, styles, and performance practices from antiquity through the sixteenth century.

MUSIC 302 : Survey of Music Literature 2. (2:2:0)
OFFERED: W, Su
PREREQUISITE: Music 194, 196, 198; 201, 202, or equivalent.
DESCRIPTION: Survey of musical genres, forms, styles, and performance practices from the baroque through the early classic.

MUSIC 303 : Survey of Music Literature 3. (2:2:0)
OFFERED: F, Sp
PREREQUISITE: Music 294, 296, 298; 201, 202, or equivalent.
DESCRIPTION: Survey of music genres, forms, styles, and performance practices from the high classic through the romantic.

MUSIC 304 : Survey of Music Literature 4. (2:2:0)
OFFERED: W, Su
PREREQUISITE: Music 294, 296, 298; 201, 202, or equivalent.
DESCRIPTION: Survey of musical genres, forms, styles, and performance practices of the twentieth century.

MUSIC 395 : Form and Analysis. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: C- or higher in Music 293, 295, 297.
DESCRIPTION: Analytical study of forms from the common-practice period, including baroque contrapuntal structures and instrumental forms, classical sonata cycle, and romantic part forms.

6. Complete 3–20 prerequisite hours in foreign language studies as required to meet the GE Languages of Learning requirement. (Prerequisite courses may be waived for those students who have equivalent language experience.) ASL may not be used.

7. Complete one course from a GE Arts or Letters requirement outside music (in addition to the GE requirement) or one humanities course approved by faculty advisor.

8. Complete two of the following music elective courses:
MUSIC 203 : World Music Cultures. (3:3:0)
OFFERED: F, W
DESCRIPTION: Traditional music of selected cultures of Asia, Oceania, Africa, Europe, and the Americas, including both folk and art music traditions.

BM in Media Music Studies (75 hours*)

Show All Course Descriptions
Hide All Course Descriptions

This is a limited-enrollment program requiring departmental admissions approval. Please see the college advisement center for information regarding requirements for admission to this major.

A major in media music studies prepares the student for music industry opportunities in creating and managing music for the media (radio, TV, records, film). The program combines rigorous grounding in traditional repertoires with preprofessional course work and project experience in current industry models and musical styles.

BM in Music Composition (78 hours)

Show All Course Descriptions
Hide All Course Descriptions

This is a limited-enrollment program requiring departmental admissions approval. Please see the college advisement center for information regarding requirements for admission to this major.

The BM in composition degree program teaches young composers to write with modern and experimental music vocabularies as well as historic vocabularies, write for diverse color combinations (including orchestral and electroacoustic), and recruit and rehearse players to perform their music.

The music composition major prepares the student for graduate study in composition and theory or may lead to a professional career in composing, arranging, or related fields.

Program Requirements | View MAP

1. See the college advisement center for the application procedure for official acceptance into a specific degree program.

BM in Music Education: K–12 Choral Emphasis (87 hours, including licensure hours)

Show All Course Descriptions
Hide All Course Descriptions

This is a limited-enrollment program requiring departmental admissions approval. Please see the college advisement center for information regarding requirements for admission to this emphasis.

A degree in music education prepares the student for K-12 licensure as a public school music teacher with a choral emphasis. The degree program is a composite of music and education. Graduates may obtain a teaching position, pursue graduate work, or use the degree as professional preparation for other fields of endeavor.

Program Requirements | View MAP

1. See the college advisement center and enroll in Music 176 winter semester or summer term. This course is prerequisite to official acceptance into music education.
2. Proficiency requirements: All professional education courses (below) and Music 260R, 262, 263, and 363 credits **must be completed before student teaching** (Sc Ed 476R). Twenty minutes of solo performance time and ten minutes of chamber music performance time are required, which may be accomplished through master classes, recitals, juries, or in-class performances in Sc Ed 276R and 476R. Students opting for a juried recital must register for Music 349R.

MUSIC 193 : Dictation 1. (1:0:2)
OFFERED: F, Sp
PREREQUISITE: Acceptance as a music major; concurrent enrollment in Music 195, 197.
DESCRIPTION: Development of aural skills through melodic, rhythmic, and harmonic dictation.

MUSIC 194 : Dictation 2. (1:0:2)
OFFERED: W, Su
PREREQUISITE: C- or higher in Music 193, 195, 197; concurrent enrollment in Music 198, 196.
DESCRIPTION: Continuation of Music 193.

MUSIC 195 : Music Theory 1. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: Acceptance as a music major; concurrent enrollment in Music 193, 197.
DESCRIPTION: Writing and analysis in diatonic harmony.

MUSIC 196 : Music Theory 2. (3:3:0)
OFFERED: W, Su
PREREQUISITE: C- or higher in Music 193, 195, 197; concurrent enrollment in 194, 198.
DESCRIPTION: Writing and analysis in diatonic and chromatic harmony.

MUSIC 197 : Sight Singing 1. (.5:0:1)
OFFERED: F, Sp
PREREQUISITE: Acceptance as a music major; concurrent enrollment in Music 193, 195.
DESCRIPTION: Rhythm and pitch-reading skills using two systems of counting and melodic solfeggio singing with hand signs.

MUSIC 198 : Sight Singing 2. (.5:0:1)
OFFERED: W, Su
PREREQUISITE: C- or higher in Music 193, 195, 197; concurrent enrollment in Music 194, 196.
DESCRIPTION: Continuation of Music 197.

MUSIC 221 : Functional Piano Skills 1. (2:2:0)

OFFERED: F, Sp
PREREQUISITE: Piano skills determined by entrance diagnostic exam; music major status.
DESCRIPTION: Provides music majors with basic keyboarding ability in such areas as sight reading, technique, harmonization, and score reading.

MUSIC 235 : Conducting Techniques. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: music major status, C- or higher in Music 194, 196, 198.
DESCRIPTION: Physical techniques and musical understanding required to conduct a performance ensemble.

MUSIC 293 : Dictation 3. (1:0:2)
OFFERED: F, Sp
PREREQUISITE: C- or higher in Music 194, 196, and 198; concurrent enrollment in Music 295, 297.
DESCRIPTION: Continuation of Music 194.

MUSIC 294 : Dictation 4. (1:0:2)
OFFERED: W, Su
PREREQUISITE: C- or higher in Music 293, 295, 297; concurrent enrollment in Music 296, 298.
DESCRIPTION: Continuation of Music 293.

MUSIC 295 : Music Theory 3. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: C- or higher in Music 194, 196, and 198; concurrent enrollment in Music 293, 297.
DESCRIPTION: Extended chromatic techniques and introduction to twentieth-century concepts.

MUSIC 296 : Music Theory 4. (3:3:0)
OFFERED: W, Su
PREREQUISITE: C- or higher in Music 293, 295, 297; concurrent enrollment in Music 294, 298.
DESCRIPTION: Set theory, serialism, and late twentieth-century concepts.

MUSIC 297 : Sight Singing 3. (.5:0:1)
OFFERED: F, Sp
PREREQUISITE: C- or higher in Music 194, 196, and 198; concurrent enrollment in Music 293 *and* 295.
DESCRIPTION: Continuation of Music 198.

MUSIC 298 : Sight Singing 4. (.5:0:1)
OFFERED: W, Su
PREREQUISITE: C- or higher in Music 293, 295, 297; concurrent enrollment in Music 294, 296.
DESCRIPTION: Continuation of Music 297.

4. Complete the following:
MUSIC 161 : Voice Technique. (2:2:0)
OFFERED: F, W
PREREQUISITE: Acceptance by audition to the School of Music.
DESCRIPTION: Class instruction in voice technique.

5. Complete six hours of the following in voice (students must be enrolled in 250R or 260R each semester in residence up to six semesters):
MUSIC 250R : Performance Study: Voice. (.5-1:0.5:0)
Performance Study: Voice.
OFFERED: F, W, Sp
PREREQUISITE: Music major status (K-12 Choral Emphas or Elementary Music Specialist Emphasis only).
DESCRIPTION: Performance study, private instruction, and studio class. From one to three hours of daily practice required.
MUSIC 260R : Performance Instruction: Voice. (.5-2:1:1)
Performance Instruction: Voice.
OFFERED: F, W, Sp
PREREQUISITE: Music major status.
DESCRIPTION: Private instruction and studio class.
NOTE: From one to four hours of daily practice. Fee.

6. Music education majors must enroll in at least one hour of large ensemble each semester for seven semesters within student's area of specialization. At least one hour must be the 311R evening section.

7. Complete the following upper-division music core courses:
MUSIC 301 : Survey of Music Literature 1. (2:2:0)
OFFERED: F, Sp
PREREQUISITE: Music 194, 196, 198; 201, 202, or equivalent.

DESCRIPTION: Survey of musical genres, forms, styles, and performance practices from antiquity through the sixteenth century.

MUSIC 302 : Survey of Music Literature 2. (2:2:0)
OFFERED: W, Su
PREREQUISITE: Music 194, 196, 198; 201, 202, or equivalent.
DESCRIPTION: Survey of musical genres, forms, styles, and performance practices from the baroque through the early classic.

MUSIC 303 : Survey of Music Literature 3. (2:2:0)
OFFERED: F, Sp
PREREQUISITE: Music 294, 296, 298; 201, 202, or equivalent.
DESCRIPTION: Survey of music genres, forms, styles, and performance practices from the high classic through the romantic.

MUSIC 304 : Survey of Music Literature 4. (2:2:0)
OFFERED: W, Su
PREREQUISITE: Music 294, 296, 298; 201, 202, or equivalent.
DESCRIPTION: Survey of musical genres, forms, styles, and performance practices of the twentieth century.

MUSIC 395 : Form and Analysis. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: C- or higher in Music 293, 295, 297.
DESCRIPTION: Analytical study of forms from the common-practice period, including baroque contrapuntal structures and instrumental forms, classical sonata cycle, and romantic part forms.

DESCRIPTION: Continuation of Music 197.

Division of Continuing Education

399 HCEB
(801) 422-4146

Dean: Richard C. Eddy
Associate Dean: Kenneth W. Anderson
Associate Dean: Wayne J. Lott
Assistant to the Dean—Financial and Administrative Services: Darin R. Oviatt
Assistant to the Dean—Assessment: Jeff E. Hoyt
Assistant to the Dean—Compliance: Justin K. Johansen
Assistant to the Dean—Development: Gary L. Bauer

The purpose of the Division of Continuing Education is to provide educational programs and university services for part-time and off-campus students. These educational opportunities also assist regular daytime students. BYU cooperates with the Continuing Education programs sponsored by the Church Educational System and its components. The same university standards required of regular day students apply to those enrolled through the Division of Continuing Education while they are on campus.

Organization. Continuing Education programs represent both BYU and the Church Educational System, and the department and center descriptions will be distinguished in the material that follows.

Requirements for Enrollment in Continuing Education Classes

Noncredit classes are open to anyone having the desire and the necessary ability.

Credit classes are open to:

1. Matriculated students.
2. Anyone twenty-three years of age or older. (Some exceptions exist at the BYU Salt Lake Center.)
3. Individuals desiring to audit courses.
4. High school students in their junior or senior year who have a 3.0 GPA (may concurrently enroll in selected workshops and seminars if authorized by the University Admissions Committee).

Students who have been suspended from Brigham Young University or any other institution of higher learning for any reason are not eligible to register in Continuing Education credit classes until such suspension is cleared. Independent Study courses are an exception.

Enrollment Limitations. Persons enrolling in credit courses offered by the Division of Continuing Education who are officially admitted to the university can take any courses offered to a maximum of 18 credit hours per semester (9 hours per term). All others, twenty-three years of age and older, who have not been formally admitted to the university are limited to a maximum of 8.5 credit hours per semester (4 hours during spring or summer term). Contact the Division of Continuing Education for any additional conditions of enrollment.

Student Responsibility. Acceptance in a Continuing Education course *does not* constitute acceptance by BYU or any other university on a degree-seeking basis. It is the student's responsibility to gain admission to the university of his or her choice as a degree-seeking student through the normal procedures. At BYU students may accomplish this through the Office of Admissions.

Note: Students enrolled in the Division of Continuing Education would not be eligible for university employment, housing, or financial aid except for that assistance available to part-time students through the Division of Continuing Education.

BM in Music Education: Elementary Music Specialist Emphasis (117.5 hours*, including licensure hours)

Show All Course Descriptions
Hide All Course Descriptions

This is a limited-enrollment program requiring departmental admissions approval. Please see the college advisement center for information regarding requirements for admission to this emphasis.

A five-year program, the degree offers a dual major in elementary music education and elementary education. It will also prepare the student for licensure as an elementary classroom teacher and as an elementary music specialist. Graduates may obtain a teaching position in either area or a combination of both, pursue graduate work, or use the degree as preparation for other fields of endeavor.

Program Requirements | View MAP

1. See the college advisement center for the application procedure for official acceptance into a specific degree program.
2. Complete the following lower-division music core courses:

CPSE 400 : Exceptional Students: Principles of Collaboration. (2:1:ARR)
OFFERED: F, W, Sp
DESCRIPTION: Basic principles and legislative issues in effectively communicating and collaborating with professionals, parents, and other service providers to meet needs of individuals with disabilities in inclusive educational environments. Lab.

DANCE 326 : Rhythm and Dance. (2:1:2)
OFFERED: F, W, Sp
DESCRIPTION: Methodology course for elementary education majors; creative dance and structured rhythmic dance forms.

EDLF 452 : Foundations of Education. (.5-2:2:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Introduction to the philosophical, sociological, and historical foundations of American education, with special reference to current issues in U.S. public schooling.

EL ED 302 : Planning and Management. (2:2:0)
OFFERED: F, W
PREREQUISITE: Admittance to elementary education program.
DESCRIPTION: Learning principles, lesson planning, classroom atmosphere, classroom management, professional attitudes and practices.

EL ED 340 : Children's Literature. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: Some sections require acceptance to program.
DESCRIPTION: Trends and titles in children's and adolescent literature. Reading and critiquing as well as practical uses of children's literature in both school and home.

EL ED 351 : Multicultural Education. (2:2:0)
OFFERED: F, W, Sp
DESCRIPTION: Cultural issues related to public education that promote constructive interaction among people of differing economic, social, racial, ethnic, and religious backgrounds.

EL ED 354 : Assessing and Supporting Literacy Development: Practicum 1. (1:0:2)

OFFERED: F, W
PREREQUISITE: Concurrent enrollment in ElEd 356.
DESCRIPTION: Applying reading and writing assessment and instructional strategies in the primary grades.

EL ED 355 : Assessing and Supporting Literacy Development: Practicum 2. (1:0:2)
OFFERED: F, W
PREREQUISITE: Concurrent enrollment in ElEd 357.
DESCRIPTION: Applying reading and writing assessment and instructional strategies in grades three to six.

EL ED 356 : Teaching Reading and Language Arts in the Primary Grades. (2:2:0)
OFFERED: F, W
PREREQUISITE: Major status; concurrent enrollment in El Ed 354.
DESCRIPTION: Issues, theories, and practices of literacy instruction for primary grades, including developing literacy through listening, speaking, reading, and writing.

EL ED 357 : Teaching Reading and Language Arts in the Intermediate Grades. (2:2:0)
OFFERED: F, W
PREREQUISITE: Concurrent enrollment in ElEd 355.
DESCRIPTION: Issues and practices for teaching language arts in grades three to six, including content area reading and writing, literature, comprehending and responding, vocabulary development, and structural analysis applications.

EL ED 361 : Teaching Mathematics in the Elementary School. (2:2:0)
OFFERED: F, W
PREREQUISITE: Major status; MthEd 305, 306; concurrent enrollment in El Ed 362.
DESCRIPTION: Methods and materials for teaching elementary school mathematics guided by current principles of curriculum, instruction, and assessment in mathematics education.

EL ED 362 : Practicum in Teaching Mathematics. (1:0:2)
OFFERED: F, W
PREREQUISITE: Major status; MthEd 305, 306; concurrent enrollment in El Ed 361.
DESCRIPTION: Applying content and methods learned in El Ed 361 in an elementary school classroom.

EL ED 363 : Teaching Science in the Elementary School. (2:2:0)
OFFERED: F, W
PREREQUISITE: Major status; departmental approval.
DESCRIPTION: Developing knowledge, skills, and attitudes related to teaching science in the elementary school.

EL ED 365 : Teaching Social Studies in the Elementary School. (2:2:0)
OFFERED: F, W
DESCRIPTION: Developing instructional methods and curriculum design to initiate and maintain effective learning in social studies classrooms.

EL ED 372 : Instruction and Assessment. (2:2:0)
OFFERED: F, W
PREREQUISITE: Admittance to elementary education program.
DESCRIPTION: Taken during second professional semester. Extended planning, integrated units, teaching strategies, management problems, and assessment and reporting of student progress.

EXSC 375 : Physical Education for Elementary School Teachers. (2:1:3)
OFFERED: F, W, Sp
PREREQUISITE: ExSc 169.

HLTH 361 : School Health for Elementary Teachers. (2:2:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Preparing for the role as a health educator, emphasizing skill-based teaching methods and acquisition of teaching resources.

IP&T 287 : Instructional Technology for Early Childhood, Elementary, and Special Education. (2:2:ARR)
OFFERED: F, W
DESCRIPTION: Using instructional design, visual design, and differentiated staffing principles, along with multimedia authoring systems, telecommunication, and other computer-based tools in the development of educational applications for early childhood, elementary, and special education settings.

IP&T 301 : Educational Psychology. (2:2:0)
OFFERED: F, W
DESCRIPTION: Basic principles of educational psychology applied to teaching, including learning theory,

instructional strategies, assessment of learning outcomes, and classroom inquiry.

MTHED 305 : Basic Concepts of Mathematics. (3:3:1)
OFFERED: F, W
PREREQUISITE: Math 110 or equivalent; permission from Teacher Education Department.
DESCRIPTION: Concept-oriented exploration of number, measurement, and informal geometry in relation to children's learning.
NOTE: Required of prospective elementary school teachers.

MTHED 306 : Concepts of Mathematics. (3:3:1)
OFFERED: F, W
PREREQUISITE: MthEd 305; permission from Teacher Education Department.
DESCRIPTION: Concept-oriented exploration of rational numbers and proportional reasoning, probability, and early algebraic reasoning in relation to children's learning.
NOTE: Required of prospective elementary school teachers.

TMA 352 : Drama in the Elementary Classroom. (2:2:2)
DESCRIPTION: Using theatre techniques as a tool to enrich all subject matter taught in the elementary school classroom. Puppetry, improvisation, storytelling, etc.

VAEDU 326 : Art for Elementary Teachers. (2:2:1)
OFFERED: F, W, Sp, Su
DESCRIPTION: Preservice preparation designed to help elementary classroom teachers understand the visual arts and develop skills necessary for implementing a discipline-based approach for art education.

13. Complete 12 hours of one of the following (prior application required):

EL ED 400R : Elementary Student-Teaching Internship. (1-12:ARR:ARR)
OFFERED: F, W
PREREQUISITE: Three-semester professional sequence and prior application. See EAC for application dates.
DESCRIPTION: Semester-long or two consecutive term, full-day student teaching internship in the public schools. Seminar attendance required.

EL ED 496R : Academic Internship. (12:ARR:ARR)
OFFERED: F
PREREQUISITE: Three-semester professional sequence and prior application. See Education Advisement and Certification Office for application dates.
DESCRIPTION: A full-year classroom teaching internship in the public schools in lieu of El Ed 400, student teaching.

Recommended Courses

The following courses are strongly recommended:

BIO 100 : Principles of Biology. (3:3:1)
OFFERED: F, W, Sp, Su
DESCRIPTION: Introductory course for general education students.

BIO 101 : Principles of Biology Laboratory. (1:0:2)
OFFERED: F, W
PREREQUISITE: Concurrent enrollment in Bio 100.
NOTE: Required of all elementary education and early childhood education majors; enrollment limited to elementary education of early childhood education majors.

ENGL 313 : Expository Writing for Elementary Education Majors. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Engl 150 or equivalent; junior or senior status.
DESCRIPTION: Learning to write as professional educators and to teach writing to children. Best taken before the professional sequence. Library research paper.
NOTE: Carries GE Advanced Written and Oral Communication credit.

GEOG 120 : Geography and World Affairs. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Survey of the world, stressing geography of major political regions.
NOTE: Honors and Independent Study also.

PHY S 111A : Physical Science A Laboratory. (1:0:2)
OFFERED: F, W, Sp
PREREQUISITE: Phy S 100; for majors in elementary, early childhood, or special education.
DESCRIPTION: Laboratory exercises that illustrate physics and chemistry principles.

Independent Study

R. Dwight Laws, Director
209 HCEB
(801) 422-2868

Independent Study is a university "outreach program" that can bring the BYU experience to students anytime, anywhere. Through Independent Study, BYU offers nearly 250 college-level credit courses, providing a practical and flexible solution for university students with scheduling problems and for working students, armed forces personnel, teachers, and others who cannot take all their classes in residence.

Up to 36 semester hours of work completed through Independent Study can be used toward a bachelor's degree from BYU, and courses are also available for teacher recertification. Individual high school-level courses, a full-curriculum high school transcript program, and noncredit courses for personal development and enrichment are also available.

Students may register for an Independent Study course at any time during the year. Students are given one year to complete a course, although most do so in less time. Catalogs are available without charge and list all the courses available, current fees, and enrollment policies and procedures.

Independent Study now has most courses on the Internet at http://elearn.byu.edu

Conferences and Workshops

Steven W. Taggart, Director
130 HCEB
(801) 422-3559

The Department of Conferences and Workshops assists the university's colleges, schools, and departments in developing and offering hundreds of outreach programs per year. A variety of both credit and noncredit programs are offered, including conferences, workshops, symposia, short courses, seminars, association meetings, test-prep courses, and youth camps. These programs use both campus and off-campus facilities in extending university offerings to alumni, youth, the campus community, and other adults.

For a comprehensive listing of courses or for information on how we can help you plan a conference, visit our Web site at http://conferences.byu.edu

BM in Music Performance: String Emphasis (77 hours)

Show All Course Descriptions
Hide All Course Descriptions

This is a limited-enrollment program requiring departmental admissions approval. Please see the college advisement center for information regarding requirements for admission to this emphasis.

The bachelor of music degree in performance prepares the students for professional work as a performer, a studio teacher, or a combination of both. Some will pursue advanced work on the graduate level to prepare for a performance career or college teaching.

Program Requirements | View MAP

BM in Music Performance: Vocal Emphasis (76 hours)

Show All Course Descriptions
Hide All Course Descriptions

This is a limited-enrollment program requiring departmental admissions approval. Please see the college advisement center for information regarding requirements for admission to this emphasis.

The vocal performance degree program prepares students for professional work as performers and studio teachers. The degree includes a strong pedagogy emphasis, including supervised teaching. Many students in this program continue their studies on the graduate level to further prepare for a performing career or college teaching.

BYU Conference Center

Spencer E. Hansen, Manager
2255 CONF
(801) 422-7700

The BYU Conference Center is located east of the Marriott Center and adjacent to the Harman Continuing Education Building. The primary host facility for conference guests on campus, it is especially equipped to provide a favorable learning environment for guests participating in conferences, workshops, training seminars, and other educational programs. University units may sponsor or cosponsor conference center events. When certain qualifications are met, off-campus professional, government, corporate, civic, religious, family, or community organizations may also schedule events. The center is not available to promote a product or service or for other entrepreneurial efforts.

Those interested in scheduling the center are invited to contact the BYU Conference Center.

This is a limited-enrollment program requiring departmental admissions approval. Please see the college advisement center for information regarding requirements for admission to this emphasis.

The bachelor of music degree in performance prepares the students for professional work as a performer, a studio teacher, or a combination of both. Some will pursue advanced work on the graduate level to prepare for a performance career or college teaching.

Program Requirements | View MAP

BM in Sound Recording Technology (77 hours*)

Show All Course Descriptions
Hide All Course Descriptions

This is a limited-enrollment program requiring departmental admissions approval. Please see the college advisement center for information regarding requirements for admission to this major.

Students majoring in sound recording technology prepare for engineering opportunities in the recording industry and related fields such as broadcasting and video sweetening. This degree gives students theoretical and practical experience in the recording of music in an acoustical environment and also includes course work in the digital recording and digital editing procedures that characterize the recording field today. The program combines rigorous grounding in traditional repertoires with preprofessional course work and project experience in recording.

Program Requirements | View MAP

1. See the college advisement center for the application procedure for official acceptance into the degree program.
2. Complete the following lower-division music core courses:

CES Adult Programs

R. Neil Carlile, Director
297 HCEB
(801) 422-7380

Church Educational System Continuing Education annually provides more than 300 religious education programs to more than 70,000 adult and youth patrons throughout the United States and Canada. These programs are designed to be spiritually strengthening, to inspire lifelong learning and service, to extend the blessings of learning, and to develop friends for the Church and the university. The primary programs offered are Adult Religion Classes, Best of Especially for Youth programs, Scripture Seminars, and Family Relation Seminars.

In addition, the department organizes Campus Education Week, which has been held at BYU since 1922. Featuring 1,000 classes and 200 presenters, this program serves approximately 22,000 students coming from each of the United States and several other countries.

UNDERGRADUATE CATALOG 2008 - 2009

BYU Salt Lake Center

Lee J. Glines, Director
345 West North Temple Street
3 Triad Center, Suite 300
Salt Lake City, UT 84180
Telephone: (801) 933-9400
Internet: http://ce.byu.edu/sl/

As the continuing education arm of the university in the Salt Lake Valley, the BYU Salt Lake Center offers courses through colleges and departments of the university. Most classes are held at night, making it possible for full-time and part-time students to take many of their required courses as well as general education and elective courses in Salt Lake City. Register for BYU Salt Lake Center classes by using the online registration screens on Route Y.

Students not admitted to Brigham Young University are welcome to take classes at the BYU Salt Lake Center provided they have earned a high school diploma (or passed the GED), are willing to live by the CES Honor Code and the BYU Dress and Grooming Standards, have received ecclesiastical endorsement, and have been cleared for enrollment at the center.

Students who are formally admitted to BYU's Bachelor of General Studies program are able to complete university core, religion, and many of their required emphasis courses at the Salt Lake Center. BGS admission gives registration eligibility for Salt Lake Center courses so no additional clearance is needed to enroll. For admission and program details, see the Bachelor of General Studies section.

The executive MPA (Master of Public Administration) program is offered at the center, allowing students to pursue a master's degree by attending classes one night each week while continuing to work during the day.

Professional development courses, a certification program in family history, and personal enrichment courses are also offered at the BYU Salt Lake Center.

Class schedules for each semester or term are available at the Web address noted above, at the BYU Web site, or on online registration system screens. Print versions can be obtained by contacting the BYU Salt Lake Center or picking them up at the information desk in the Wilkinson Student Center, the Smoot Administration Building, or the Harman Continuing Education Building. BYU Salt Lake Center Classes are also listed in the online BYU class schedules.

Music Dance Theatre

Admission to Degree Program

This is a limited-enrollment program requiring program admissions approval.

The Discipline

The BFA in music dance theatre (MDT) is an interdisciplinary degree offered by the College of Fine Arts and Communications through the cooperative involvement of its School of Music and Department of Theatre and Media Arts and the College of Health and Human Performance's Department of Dance.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

: Performance Instruction: Guitar.
: Performance Instruction: Harp.
: Performance Instruction: Harpsichord.
: Performance Instruction: Horn.

Bachelor of General Studies Program (BGS)

Ellen Allred, Director
315 HCEB
(801) 422-4351, toll-free 888-298-3137

Brigham Young University's Bachelor of General Studies (BGS) Program offers former BYU students who are no longer able to attend BYU and have been away from the university for two or more years an opportunity to complete their bachelor's degree from home. Applicants must have already completed 30 credit hours at the BYU campus in Provo as an admitted day student and must abide by the Church Educational System Honor Code and receive an annual ecclesiastical endorsement. This program is not available to current BYU students.

Admission to Degree Program

Applicants complete the admission procedure through the Bachelor of General Studies Office and pay a fee of $30. The BGS program is open to former students who meet all of the following criteria:

- Have completed a minimum of 30 semester hours of BYU on-campus credit in Provo as an admitted day student.
- Have not completed any courses as a BYU day continuing student in the last two years.
- Have never completed a bachelor's or higher degree.
- Are in good standing (academic, financial, etc.) at all universities attended.
- Have a 2.0 or higher BYU and cumulative GPA. (If any academic disciplinary action—warning, probation, or suspension—has been taken against you, contact the BGS Office before proceeding with the application process.)
- Will abide by the Church Educational System Honor Code and receive an annual ecclesiastical endorsement.
- Have been approved by the BGS admissions committee.
- Have successfully completed the StDev 100 course (1-credit-hour Independent Study course taken **after provisional acceptance into program)**.

The Discipline

The bachelor of general studies degree is designed to help former BYU students utilize their previously earned credit as much as possible. The BGS uses the same BYU curriculum offered on campus and requires the same general education, religious education, and campus residency as on-campus degrees. Up to 90 of the required 120 credit hours may be earned through Independent Study. The major is general studies, with an emphasis in one of eight areas of study. The emphasis adds a measure of specialization and can be completed in one of the following areas: American studies, English and American literature, family history, family life, history, management, psychology, or writing.

Students may earn only one emphasis and do not have the option of creating custom-made areas of study. However, within the number of general electives available, students can utilize credit previously earned in a former major or choose to take courses in a particular concentration.

The BGS is a fully accredited bachelor's degree from Brigham Young University. Students pursue this program for a variety of reasons. Some desire a sense of accomplishment—to complete a degree they began years ago. Others are looking for career advancement or to eventually pursue a postgraduate degree.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a

: Performance Instruction: Oboe.
: Performance Instruction: Organ.

PREREQUISITE: Dance 382R or equivalent; instructor's consent.
DESCRIPTION: Participation as dancers in concert dance production.

DANCE 440R : Modern Dance Technique and Theory 4. (2.5:0:7.5)
OFFERED: F, W
PREREQUISITE: Dance 340R or equivalent; instructor's consent.

DANCE 462 : Dance Composition, Advanced. (1:0:3)
OFFERED: F, W
PREREQUISITE: Dance 362.
DESCRIPTION: Creation and presentation of complete choreographic works.

DANCE 468R : The Dancers' Company - Modern Dance Performance. (2:0:12)
OFFERED: F, W
PREREQUISITE: Audition.
DESCRIPTION: Performing modern dance repertory and new works on and off campus.

DANCE 490R : Ballet Technique 5. (3:0:9.5)
OFFERED: F, W
PREREQUISITE: Audition.
DESCRIPTION: Advanced ballet technique, including advanced pointe work for women and advanced technique for men.

DANCE 495R : Pas de Deux. (1:0:ARR)
DANCE 498R : Ballet Performance Company. (2:0:10)
DANCE 540R : Modern Dance Technique and Theory 5. (2:0:5)
DANCE 562R : Modern Dance Composition, Advanced. (1:0:4)
DANCE 563R : Modern Dance Improvisation, Advanced. (1:0:4)

TMA 100 : Introduction to Visual Literacy. (3:2:2)
TMA 127 : Beginning Stage Combat. (1:2:1)
TMA 215R : Workshop 1: Special Projects. (.5-6:0:ARR)
TMA 224 : Acting for Film and TV. (3:6:ARR)
TMA 225 : Neutral Mask. (2:2:0)
TMA 236 : Directing Fundamentals. (2:4:1)
TMA 322 : Classical Voice. (2:4:0)
TMA 324 : Acting Classics. (3:6:0)
TMA 325 : Stage Combat. (2:4:2)
TMA 329 : Theatre and Film Acting Conservatory. (3:6:ARR)
TMA 336 : Directing Principles and Practices. (3:4:1)
TMA 399R : Academic Internship. (.5-9:ARR:ARR)
TMA 420R : Performance Workshop 2. (.5-3:0:ARR)
TMA 422 : Dialects. (2:4:1)
TMA 424 : Advanced Acting. (3:6:0)
TMA 425 : Character Mask. (2:4:0)
TMA 429 : Performance: Recital. (3:2:4)
TMA 443R : Writer/Director/Actor Workshop. (3:6:1)
TMA 515R : Workshop 3: Special Projects. (1-6:0:ARR)

Admission to Degree Program

Some degree programs in the Department of Nutrition, Dietetics, and Food Science carry special enrollment limitations. Please see the department for specific details.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Majors

BS in Dietetics
BS in Food Science
BS in Nutritional Science

Minor

Nutrition

Students should see Life Sciences Student Services for help or information concerning the undergraduate programs.

Note: For the molecular biology program, see Microbiology and Molecular Biology.

Graduate Programs and Degrees

MS in Food Science
MS in Nutritional Science

BS in Dietetics (80 hours*)

Show All Course Descriptions
Hide All Course Descriptions

This is a limited-enrollment program requiring departmental admissions approval. Please see below for information regarding requirements for admission to this major.

Following prerequisite courses, the Didactic Program in Dietetics (DPD) consists primarily of dietetics course work at the junior and senior level. The Brigham Young University Didactic Program in Dietetics is currently granted accreditation status by the Commission on Accreditation for Dietetics Education of the American Dietetic Association, 120 South Riverside Plaza, Suite 2000, Chicago, IL 60606-6995, (312) 899-4876. Following graduation, students must gain acceptance into and complete a dietetic internship (DI) to qualify for the national examination required for Registered Dietitian (RD) status.

Program Acceptance Requirements

1. Students must apply by February 15 for admission into the professional sequence in the fall. Formal acceptance is required to continue with the professional sequence.
2. Enrollment is limited to 40 students.
3. Four of the following eight courses must be completed at the time of application: Acc 200, Chem 285, MMBio 221, NDFS 100, 200, 290; PDBio 220, 305.
4. Major GPA and performance in nutrition, dietetics, and food science courses will be considered. Successful applicants typically have a major GPA greater than 3.0 and nutrition, dietetics, and food science course grades greater than B–.
5. Applicants need at least 300 hours of dietetics-related work and/or volunteer experience.

Program Requirements | View MAP

1. Complete the following courses (to be completed before professional sequence):

   A. Complete the following:

   NDFS 100 : Essentials of Human Nutrition. (3:3:0)
   OFFERED: F, W, Su
   DESCRIPTION: Food-oriented study of nutritional facts and principles as a basis for dietary choices; consequences of choices; scientifically examining controversial topics.

   NDFS 200 : Nutrient Metabolism. (3:3:0)
   OFFERED: F, Sp
   PREREQUISITE: NDFS 100 and organic chemistry, or concurrent enrollment.
   DESCRIPTION: Chemical structures of nutrients, their food sources, requirements, digestion, absorption, transport, metabolism, functions, storage and excretion; metabolic consequences of nutrient deficiencies, interactions, imbalances, and toxicities.

   NDFS 250 : Essentials of Food Science. (3:3:0)
   OFFERED: F, W, Sp
   PREREQUISITE: Organic chemistry or concurrent enrollment; and concurrent enrollment in NDFS 251.
   DESCRIPTION: Overview of food science, including chemical, physical and microbiological principles related to food processing, storage, and utilization. Current issues in food science.

   NDFS 251 : Essentials of Food Science Laboratory. (1:0:3)
   OFFERED: F, W, Sp
   PREREQUISITE: Concurrent enrollment in NDFS 250.
   DESCRIPTION: Laboratory experience in the chemistry of changes occurring during food processing, storage, and utilization.

NDFS 290 : Introduction to Dietetics. (1:1:0)
OFFERED: F
DESCRIPTION: The profession of dietetics; exposure to specialty areas through guest lectures.

B. Complete the following:
CHEM 101** : Introductory General Chemistry. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 97 or equivalent.
DESCRIPTION: Atomic and molecular structure, periodic relationships, states of matter, chemical reactions and stoichiometry, acids and bases.
NOTE: Primarily for nonscience majors who require a broad introduction to general chemistry.

CHEM 285*** : Introductory Bio-organic Chemistry. (4:4:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 101 or equivalent.
DESCRIPTION: Principles of organic chemistry and biochemistry relating to biomolecule structure and function.

****Note:** Or an equivalent general chemistry course from high school or junior college.

*****Note:** Chem 105, 106, 107, 351, 352, 481 sequence is recommended for students interested in medical or dental school or graduate programs in nutrition.

C. Complete one course from the following:
CHEM 103 : Introductory Chemistry Laboratory. (1:0:3)
OFFERED: W
PREREQUISITE: Chem 101 or equivalent.
DESCRIPTION: Introductory laboratory techniques required for simple classical experiments in chemistry.

MMBIO 222 : General Microbiology Laboratory. (1:0:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: MMBio 221 or concurrent enrollment.

D. Complete the following:
ACC 200 : Principles of Accounting. (3:3:0)
DESCRIPTION: Financial and managerial accounting principles. Basic accounting statements, processes, and management applications. Open to all students.
NOTE: Independent Study also.

MMBIO 221 : General Microbiology. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Any chemistry course and any biology course.
DESCRIPTION: Microbial world, emphasizing communicable diseases, their causes, and control.
NOTE: Recommended for students seeking a liberal education in microbiology who do not have the prerequisites to take the more advanced courses.

PDBIO 220 : Human Anatomy (with lab). (3:2:2)
OFFERED: F, W, Sp, Su
DESCRIPTION: Structure and function of the human body. Lab included.

PDBIO 305 : Human Physiology (with lab). (4:4:2)
OFFERED: F, W, Sp
PREREQUISITE: Chem 101 or equivalent.
RECOMMENDED: A general biology course.
DESCRIPTION: Function of body organ systems.
NOTE: Not acceptable for physiology and developmental biology, biophysics, or neuroscience majors. Designed for students with basic chemistry / no molecular biology. Students with chemistry/molecular biology should take PDBio 362.

PSYCH 111 : General Psychology. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: Basic course in modern scientific psychology.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence

intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.

NOTE: Honors and Independent Study also.

2. Complete the following professional sequence courses (after being admitted into the program):

NDFS 300 : Clinical Nutrition 1. (4:4:0)
OFFERED: F
PREREQUISITE: NDFS 200; physiology, biochemistry; dietetics major status.
DESCRIPTION: Nutritional assessment and medical nutrition therapy across disease states.

NDFS 356 : Clinical Nutrition 2. (3:3:0)
OFFERED: W
PREREQUISITE: NDFS 300.
DESCRIPTION: Medical nutrition therapy across disease states; continuation of NDFS 300.

NDFS 374 : Food Production Management. (2:2:0)
OFFERED: F
PREREQUISITE: NDFS 200, 250, 251.
DESCRIPTION: Managing processes and techniques of quantity food production in commercial and institutional food systems.

NDFS 375 : Food Production Management Laboratory. (2:0:8)
OFFERED: F, W
PREREQUISITE: NDFS 374 or concurrent enrollment.

NDFS 400 : Community Nutrition. (3:3:4)
OFFERED: F
PREREQUISITE: Dietetics major or NDFS 200 or 201.
DESCRIPTION: Public health nutrition applied to community programs.

NDFS 401 : Community Nutrition Fieldwork. (.5:0:2)
OFFERED: F
PREREQUISITE: NFDS 300, concurrent enrollment in NDFS 400, and dietetics major status.
DESCRIPTION: Experience in public health and community nutrition programs.

NDFS 405 : Nutrition Assessment Lab. (.5:0:3)
OFFERED: F on block
PREREQUISITE: NDFS 300, 356.
DESCRIPTION: Developing skill in anthropometric, biochemical, clinical, and dietary parameters of nutritional assessment.

NDFS 424 : Nutrition Through the Life Cycle. (2:2:0)
OFFERED: W
PREREQUISITE: NDFS 300 or 305 or instructor's consent.
DESCRIPTION: Dietary recommendations for pregnancy and lactation; infant feeding; nutritional requirements, diet, and health concerns of preschoolers, school-age children, adolescents, and the elderly.

NDFS 435 : Nutritional Biochemistry. (4:4:0)
OFFERED: F, W
PREREQUISITE: NDFS 200; PDBio 305; Chem 481 or equivalent.
DESCRIPTION: Metabolic interrelationships among nutrients.

NDFS 440 : Teaching Methods in Dietetics. (3:3:0)
OFFERED: F
DESCRIPTION: Learning settings, learning theory; curriculum development and dissemination for dietetics majors.

NDFS 445 : Food Service Systems. (3:3:0)
OFFERED: W
PREREQUISITE: NDFS 374.
DESCRIPTION: Input, transformation, and output in the food service system; emphasizes procurement, production, service, and sanitation.

NDFS 458 : Management in Dietetics. (3:3:0)
OFFERED: F
PREREQUISITE: NDFS 445.
DESCRIPTION: Management cycle and theory applied to clinical and administrative dietetics.

NDFS 466 : Advanced Dietetics Practice. (3:3:0)
OFFERED: W
PREREQUISITE: NDFS 356, 445.
DESCRIPTION: Skill development in specialized topics of medical nutrition therapy and administrative dietetics.

NDFS 475 : Research Methods in Dietetics. (2:2:0)
OFFERED: W
PREREQUISITE: Concurrent enrollment in NDFS 466.
DESCRIPTION: Research techniques in a variety of dietetics practice areas.

NDFS 490 : Professionalism Seminar. (2:2:0)
OFFERED: W
PREREQUISITE: Senior status in dietetics program.
DESCRIPTION: Issues in professional practice.

NDFS 491 : Internship Preparation. (1:1:0)
OFFERED: F
PREREQUISITE: Senior status in dietetics program.
DESCRIPTION: Selecting internship sites and preparing dietetic internship application packet.

PDBIO 365 : Pathophysiology. (4:4:0)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 305 or 362.
DESCRIPTION: Variations in physiological mechanisms that account for development of common disturbances in normal control and activities of body's organs and organ systems.

Recommended Courses

BUS M 300 : Financial Management. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Acc 200 or equivalent.
DESCRIPTION: Emphasizes financial statement analysis, financial planning, sources of financing, working capital management, risk and return, and valuation.
NOTE: For nonmanagement majors.

BUS M 340 : Marketing Management. (3:3:0)
OFFERED: F, W, Sp, Su; Independent Study also.
DESCRIPTION: Emphasizes marketing's role in society and the firm, marketing opportunities, the consumer market, and management of marketing mix.
NOTE: For nonmanagement majors.

I SYS 100 : Computer Spreadsheet Skills. (.5:0:1)
OFFERED: F, W, Sp, Su
DESCRIPTION: Basic computer skills, focusing on spreadsheet and database programs. No technical background necessary.
NOTE: Fee.

I SYS 101 : Computer Presentation Skills. (.5:0:1)
OFFERED: F, W, Sp, Su
DESCRIPTION: Basic computer skills focusing on developing presentations. No technical background necessary.
NOTE: Fee.

NDFS 310 : Sports Nutrition. (2:2:0)
OFFERED: F, Sp
PREREQUISITE: NDFS 100, PDBio 305.
DESCRIPTION: Scientific basis for the role of nutrition in human performance. Critical evaluation of popular practices; making optimal food choices for physical activity.

NDFS 361 : Food Microbiology. (3:2:3)
OFFERED: F
PREREQUISITE: MMBio 221, 222; or equivalents.
DESCRIPTION: Pathogenic and spoilage microorganisms in foods and their control. Beneficial microorganisms in food systems. Influence of the food system on growth and survival of microorganisms.

NDFS 380 : International Nutrition and Health. (3:3:0)
OFFERED: W even years.
PREREQUISITE: NDFS 200 or instructor's consent.
DESCRIPTION: Causes and consequences of nutrient deficiencies common in developing countries. Appropriate interventions to prevent or treat malnutrition.

Recommended Minors

complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Major

BGS in General Studies

Emphases

American Studies
English and American Literature
Family History
Family Life
History
Management
Psychology
Writing

Students should see the BGS office for help or information concerning the undergraduate programs.

General Information

To earn a bachelor of general studies degree, students must complete the following requirements:

1. A minimum of 120 semester hours of earned credit, which breaks down as follows:

StDev 100 Independent Study course	(1 hour)
University core	(48.5 hours minimum)
Emphasis requirements	(30 hours)
StDev 490 Independent Study course	(2 hours)
General electives	(10–39 hours)

2. 30 hours of BYU campus residency
3. 40 credit hours of 300- or 400-level courses, including 15 hours in the emphasis.

The following policies also apply:

1. A minimum of 10 hours in the area of emphasis must be enrolled in and completed through BYU **after** formal admission to the BGS program. All emphasis courses taken after admission to BGS must be BYU courses.
2. Students must earn a minimum 2.0 BYU, cumulative, and emphasis grade point average (management emphasis requires 2.25).
3. The program must be completed in eight years (or fewer).

BGS course and credit requirements can be filled in the following ways:

Prior Courses and Credits Transferred into the Program

1. Credits earned previously through BYU.
2. Credits earned previously at accredited colleges and universities.

Courses and Credits Earned After Admission to the Program

Once admitted to the BGS program, it is expected that any remaining course work will be completed through BYU. This can be done in the following ways:

1. Courses completed through BYU Independent Study.
2. Courses completed at the BYU Salt Lake Center.
3. Courses completed through BYU Evening Classes.
4. Courses completed at BYU during spring and summer terms.

The Church of Jesus

The following minors are very complementary to a dietetics major, but any area of interest could be considered:

Business
Communication
Gerontology (See School of Family Life).
International Development
Spanish

*Hours include courses that may fulfill university core requirements.

BS in Food Science (65–68 hours*)

Show All Course Descriptions
Hide All Course Descriptions

The Discipline

Food science is the multidisciplinary study of food and the application of knowledge thus gained to developing food products and processes, preserving and storing food, and assuring food safety and quality. Food science addresses the conversion of raw agricultural products into a nutritious, convenient, and economical food supply. Most of the food products available in grocery stores were developed, produced, and tested by food scientists. Students graduating in food science are well prepared for immediate employment in the food industry. The technical track curriculum is approved by the Institute of Food Technologists, the principal professional organization of food scientists, and provides excellent preparation as a premedical, predental, or other preprofessional major. With the addition of one credit hour, students graduating in the technical track are able to obtain a minor in chemistry. Students pursuing the management track are eligible to apply for a business minor and are well prepared for graduate studies in a Master of Business Administration (MBA) program.

Valuable experience is gained through numerous opportunities available in the program, including faculty-mentored research, employment within the department, and paid food industry internships. Students also develop a network of professional contacts through participation in the Food Science Club, professional organizations, and national competitions. Scholarships are available from department, college, university, and professional organizations.

Career Opportunities

Exciting careers are available in such areas as food product development, production management and sales, ensuring food safety and quality, or basic research. Salaries are highly competitive. Typically there are not enough graduates to fill all the unique and challenging opportunities available in the worldwide, multibillion dollar food industry. The many facets of food science provide employment in large and small food companies, food ingredient companies, government agencies, and universities. Graduates are prepared for immediate employment, further study toward advanced degrees, or professional programs such as medicine, dentistry, pharmacy, law, and business.

Program Requirements | View MAP

1. Consult with a faculty advisor prior to finalizing your curriculum plan.
2. Complete the following core requirements:

CHEM 105 : General College Chemistry. (4:5:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
- DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energetics, electrochemistry, acids and bases, inorganic and organic chemistry.
- NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

MMBIO 221 : General Microbiology. (3:3:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Any chemistry course and any biology course.
- DESCRIPTION: Microbial world, emphasizing communicable diseases, their causes, and control.
- NOTE: Recommended for students seeking a liberal education in microbiology who do not have the prerequisites to take the more advanced courses.

MMBIO 222 : General Microbiology Laboratory. (1:0:2)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: MMBio 221 or concurrent enrollment.

NDFS 250 : Essentials of Food Science. (3:3:0)
- OFFERED: F, W, Sp

PREREQUISITE: Organic chemistry or concurrent enrollment; and concurrent enrollment in NDFS 251.
DESCRIPTION: Overview of food science, including chemical, physical and microbiological principles related to food processing, storage, and utilization. Current issues in food science.

NDFS 251 : Essentials of Food Science Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: Concurrent enrollment in NDFS 250.
DESCRIPTION: Laboratory experience in the chemistry of changes occurring during food processing, storage, and utilization.

NDFS 350 : Food Analysis. (4:3:3)
OFFERED: W
PREREQUISITE: Chem 351, 352, 353; NDFS 250, 251.
DESCRIPTION: Principles, methods and techniques of qualitative and quantitative physical, chemical, and biological analysis of food and food ingredients.

NDFS 355 : Food Process Engineering. (4:3:3)
OFFERED: W
PREREQUISITE: Phscs 105 and calculus.
DESCRIPTION: Mass and energy balances, thermodynamics, fluid flow, heat and mass transfer; unit operations in food processing, including thermal processing, frying, irradiation, refrigeration, freezing, and dehydration.

NDFS 361 : Food Microbiology. (3:2:3)
OFFERED: F
PREREQUISITE: MMBio 221, 222; or equivalents.
DESCRIPTION: Pathogenic and spoilage microorganisms in foods and their control. Beneficial microorganisms in food systems. Influence of the food system on growth and survival of microorganisms.

NDFS 362 : Food Commodity Processing. (3:2:3)
OFFERED: F
PREREQUISITE: NDFS 250, 251.
DESCRIPTION: Characteristics of raw food material; principles of food preservation and food processing techniques; packaging materials and methods; sanitation and water and waste management.

NDFS 462 : Food Regulations and Quality Assurance. (2:2:0)
OFFERED: F
PREREQUISITE: Stat 221, NDFS 250, 251.
DESCRIPTION: Federal and international food regulations and methods of assuring food quality.

PHSCS 105 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: High school algebra and trigonometry.
RECOMMENDED: Concurrent enrollment in Phscs 107.
DESCRIPTION: Applied physics course not requiring calculus. Topics include mechanics, heat, wave motion, sound.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

3. Complete one of the following tracks:
   A. Food science technical track:
      1. Complete the following:

CHEM 106 : General College Chemistry. (3:4:0)
OFFERED: F, W, Su
PREREQUISITE: Chem 105 or equivalent.
DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.
NOTE: Three lectures and one recitation section per week.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 106 or concurrent enrollment.

DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.
NOTE: Required for most students needing one year of general chemistry.

CHEM 351 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105, 111; or equivalents.
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: Primarily for majors in chemical engineering and the biological sciences.

CHEM 352 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 351 or equivalent.
DESCRIPTION: Continuation of Chem 351.

CHEM 353 : Organic Chemistry Laboratory--Nonmajors. (1-2:0:6)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 352 or concurrent enrollment (preferred).
DESCRIPTION: Physical and chemical properties, isolation and purification, characterization, syntheses.
NOTE: For predentistry, premedicine, and other majors who do not intend to take Chem 455.

(1 hour minimum)
CHEM 481 : Biochemistry 1. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Chem 352; Biol 100 or equivalent.
DESCRIPTION: First-semester biochemistry. Molecular components of cells, chemical structure and function, enzymes, metabolic transformations, photosynthesis.
NOTE: For chemistry majors and students in biological sciences who contemplate pursuing advanced degrees, including medicine.

NDFS 200 : Nutrient Metabolism. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: NDFS 100 and organic chemistry, or concurrent enrollment.
DESCRIPTION: Chemical structures of nutrients, their food sources, requirements, digestion, absorption, transport, metabolism, functions, storage and excretion; metabolic consequences of nutrient deficiencies, interactions, imbalances, and toxicities.

NDFS 450 : Food Chemistry. (3:3:0)
OFFERED: F
PREREQUISITE: NDFS 250, 251.
DESCRIPTION: Structure and properties of food components, including water, carbohydrates, protein, lipids, other nutrients, and food additives. Chemistry of changes occurring during processing, storage, and utilization.

NDFS 464 : Food Sensory Evaluation. (1::3)
OFFERED: W
PREREQUISITE: Stat 221; concurrent enrollment in NDFS 465.
DESCRIPTION: Analytical and affective methods of assessing sensory properties of food using statistical methods. Laboratory experience in sensory research and techniques. Integrative capstone course.

NDFS 465 : Food Product Development. (3:1:6)
OFFERED: W
PREREQUISITE: NDFS 350, 355, 361, 362, 462, or concurrent enrollment; concurrent enrollment in NDFS 464.
DESCRIPTION: Integration and application of food science principles to develop new food products. Laboratory experience in food product design and development. Integrative capstone course.

PHSCS 106 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Phscs 105 or equivalent.
RECOMMENDED: Concurrent enrollment in Phscs 108.
DESCRIPTION: Continuation of Phscs 105. Topics include electricity and magnetism, atomic and nuclear physics, and optics.

TMA 150 : Public Speaking. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Principles and methods of public speaking; speaking experiences.

2. Complete one course from the following:
MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

MATH 119 : Introduction to Calculus. (4:4:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Introduction to plane analytic geometry and calculus.
NOTE: For students in the College of Life Sciences and the Marriott School of Management.

B. Food industry management track:

1. Complete the following:
ACC 200 : Principles of Accounting. (3:3:0)
DESCRIPTION: Financial and managerial accounting principles. Basic accounting statements, processes, and management applications. Open to all students.
NOTE: Independent Study also.

BUS M 300 : Financial Management. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Acc 200 or equivalent.
DESCRIPTION: Emphasizes financial statement analysis, financial planning, sources of financing, working capital management, risk and return, and valuation.
NOTE: For nonmanagement majors.

BUS M 488 : Agribusiness Management 1. (3:3:0)
OFFERED: F
PREREQUISITE: Acc 200, Econ 110; Bus M 300 or 340 or concurrent enrollment.
DESCRIPTION: Concepts, tools, and approaches to understanding competitive forces and the development of sustainable competitive advantage for firms in the food, fiber, and horticulture industries.

BUS M 489 : Agribusiness Management 2. (3:3:0)
OFFERED: W
PREREQUISITE: Acc 200 (or equivalent), Econ 110 (or equivalent), Bus M 340.
DESCRIPTION: Developing and implementing marketing plans and programs for companies participating in the value chain of agribusiness industries.

CHEM 285 : Introductory Bio-organic Chemistry. (4:4:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 101 or equivalent.
DESCRIPTION: Principles of organic chemistry and biochemistry relating to biomolecule structure and function.

ECON 110 : Economic Principles and Problems. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Strengths and weaknesses of markets and governments for solving problems of social organization or conflict, including policy response to inflation, unemployment, pollution, poverty, growth, etc.

NDFS 100 : Essentials of Human Nutrition. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: Food-oriented study of nutritional facts and principles as a basis for dietary choices; consequences of choices; scientifically examining controversial topics.

NDFS 191 : Introduction to Food Science. (1:1:0)
OFFERED: F, W
DESCRIPTION: Guest lectures and exposure to vocations in food science.

NDFS 399R : Academic Internship. (1-9:ARR:ARR)

OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent.
DESCRIPTION: Off-campus work experience sponsored by industrial, government, or academic institutions.

(1 hour minimum required)

ORG B 320 : Organizational Effectiveness. (3:Arr:2)
OFFERED: F, W, Sp, Su; Independent Study also.
DESCRIPTION: Theories and concepts for creating effective organizations, e.g., individual, group, and organizational processes and human resource functions, including selection, compensation, and performance management.
NOTE: Taught online.

2. Complete one course from the following guest lecture series:

BUS M 371R : Entrepreneurship Lecture Series. (1:1:0)
OFFERED: F, W, Sp
DESCRIPTION: Lectures by successful entrepreneurs on subjects significant to entrepreneur-type opportunities.

: Marriott School Lecture Series.
: Women Entrepreneurs.

BUS M 380 : Executive Lectures. (1:1:0)
OFFERED: F
DESCRIPTION: Lectures by top executives on subjects significant to executive leadership.

BUS M 382 : Financial Services Lecture Series. (1:1:0)
OFFERED: W
DESCRIPTION: Lectures by executives on financial services topics.

3. Complete one of the following major electives:

BUS M 372 : Basic Entrepreneurship Skills. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Practical aspects of business formation and growth; key skills and principles needed to successfully start up and grow a business.
NOTE: For non-Marriott School of Management students.

NDFS 200 : Nutrient Metabolism. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: NDFS 100 and organic chemistry, or concurrent enrollment.
DESCRIPTION: Chemical structures of nutrients, their food sources, requirements, digestion, absorption, transport, metabolism, functions, storage and excretion; metabolic consequences of nutrient deficiencies, interactions, imbalances, and toxicities.

NDFS 450 : Food Chemistry. (3:3:0)
OFFERED: F
PREREQUISITE: NDFS 250, 251.
DESCRIPTION: Structure and properties of food components, including water, carbohydrates, protein, lipids, other nutrients, and food additives. Chemistry of changes occurring during processing, storage, and utilization.

NDFS 465 : Food Product Development. (3:1:6)
OFFERED: W
PREREQUISITE: NDFS 350, 355, 361, 362, 462, or concurrent enrollment; concurrent enrollment in NDFS 464.
DESCRIPTION: Integration and application of food science principles to develop new food products. Laboratory experience in food product design and development. Integrative capstone course.

4. During the junior year or upon declaring food science as a major, students are strongly encouraged to select one of the following options to enhance career preparation (students in food industry management track MUST take 1 credit hour of NDFS 399R to graduate):
   A. Choose a research topic and faculty mentor. Working in a research laboratory for 10–20 hours per week over the course of eight months, the student has daily contact with graduate students, technicians, and fellow undergraduate colleagues and frequent interactions with a faculty mentor. Student research often leads to participation in a publication and/or a presentation at a professional meeting. NDFS 494R credit is available.

   B. Produce a senior thesis in collaboration with a faculty mentor, derived primarily from library study that extensively explores the relevant questions. The thesis is written in the format of a scientific review paper. NDFS 494R credit is available.

C. Work in an approved, faculty-supervised summer internship with a food company (generally the internship does not include study abroad.) NDFS 399R credit is available.

Recommended Courses

Consult with a faculty advisor before selecting:

1. Food science technical track:

CHEM 223 : Quantitative and Qualitative Analysis. (4:2:6)
OFFERED: F, Sp
PREREQUISITE: Chem 106 or equivalent.
DESCRIPTION: Principles of chemical equilibrium, quantitative chemical measurements, and qualitative detection of selected chemical species.
NOTE: Primarily for majors in molecular biology and the life sciences.

ECON 110 : Economic Principles and Problems. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Strengths and weaknesses of markets and governments for solving problems of social organization or conflict, including policy response to inflation, unemployment, pollution, poverty, growth, etc.

ENGL 316 : Technical Communication. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
PREREQUISITE: Engl 150 or equivalent; junior or senior status.
DESCRIPTION: Effective processes of written, oral, and visual technical communication, including collaborative processes. Writing for academic and professional audiences.
NOTE: Carries GE Advanced Written and Oral Communication credit.

IAS 220 : Introduction to Development Studies. (3:3:0)
OFFERED: F
DESCRIPTION: Exploration of international development in non-formal education, micro-enterprises, community organizations; hunger, poverty, and other special problems in developing areas of the world.

MFG 201 : History of Creativity in the Arts, Science, and Technology 1. (3:3:0)
OFFERED: F, Sp
DESCRIPTION: Western civilization from Egyptian antiquity to Renaissance from perspective of changes in civilization enabled by technology. Creativity throughout history. How to improve personal creativity.

MFG 202 : History of Creativity in the Arts, Science, and Technology 2. (3:3:0)
OFFERED: W, Su
DESCRIPTION: Western civilization from Renaissance to present from perspective of changes in civilization enabled by technology. Creativity throughout history. How to improve personal creativity.

MFG 355 : Plastics Materials and Processing. (3:2:3)
OFFERED: W
PREREQUISITE: Me En 250 or instructor's consent.
DESCRIPTION: Understanding plastic materials, properties, and uses. Survey of plastic-manufacturing processes. Designing plastic products and manufacturing systems.

NDFS 100 : Essentials of Human Nutrition. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: Food-oriented study of nutritional facts and principles as a basis for dietary choices; consequences of choices; scientifically examining controversial topics.

NDFS 191 : Introduction to Food Science. (1:1:0)
OFFERED: F, W
DESCRIPTION: Guest lectures and exposure to vocations in food science.

PHSCS 107 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 105 or concurrent enrollment.

PHSCS 108 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Su
PREREQUISITE: Phscs 106 or concurrent enrollment.

PWS 100 : Living with Plants. (3:3:0)

OFFERED: F, W, Sp
DESCRIPTION: Physiological, morphological, and ecological characteristics of plants used for food, fiber, and aesthetic enhancement.

2. Food industry mangement track:

ENGL 316 : Technical Communication. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
PREREQUISITE: Engl 150 or equivalent; junior or senior status.
DESCRIPTION: Effective processes of written, oral, and visual technical communication, including collaborative processes. Writing for academic and professional audiences.
NOTE: Carries GE Advanced Written and Oral Communication credit.

or

M COM 320 : Communication in Organizational Settings. (3:3:1)
OFFERED: F, W, Sp, Su; Honors also.
PREREQUISITE: GE First-Year Writing requirement. To be taken before senior year. Not for freshmen.
DESCRIPTION: Developing written and oral communications for professional organizations, including composing and designing employment communications. Incorporates oral presentations.
NOTE: Fulfills GE Advanced Written and Oral Communication requirement.

IAS 220 : Introduction to Development Studies. (3:3:0)
OFFERED: F
DESCRIPTION: Exploration of international development in non-formal education, micro-enterprises, community organizations; hunger, poverty, and other special problems in developing areas of the world.

MATH 119 : Introduction to Calculus. (4:4:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Introduction to plane analytic geometry and calculus.
NOTE: For students in the College of Life Sciences and the Marriott School of Management.

MFG 201 : History of Creativity in the Arts, Science, and Technology 1. (3:3:0)
OFFERED: F, Sp
DESCRIPTION: Western civilization from Egyptian antiquity to Renaissance from perspective of changes in civilization enabled by technology. Creativity throughout history. How to improve personal creativity.

MFG 202 : History of Creativity in the Arts, Science, and Technology 2. (3:3:0)
OFFERED: W, Su
DESCRIPTION: Western civilization from Renaissance to present from perspective of changes in civilization enabled by technology. Creativity throughout history. How to improve personal creativity.

MFG 479 : (Mfg-BusM) Creating and Managing New Ventures. (3:3:0)
OFFERED: F
PREREQUISITE: For management majors: BusM 301, 341, 361; major status. For engineering and technology majors: management minor status; senior status.
DESCRIPTION: Key issues and problems facing managers in start-up companies. Team-taught by professors and entrepreneurs; particularly helpful for students starting businesses.

NDFS 200 : Nutrient Metabolism. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: NDFS 100 and organic chemistry, or concurrent enrollment.
DESCRIPTION: Chemical structures of nutrients, their food sources, requirements, digestion, absorption, transport, metabolism, functions, storage and excretion; metabolic consequences of nutrient deficiencies, interactions, imbalances, and toxicities.

NDFS 450 : Food Chemistry. (3:3:0)
OFFERED: F
PREREQUISITE: NDFS 250, 251.
DESCRIPTION: Structure and properties of food components, including water, carbohydrates, protein, lipids, other nutrients, and food additives. Chemistry of changes occurring during processing, storage, and utilization.

NDFS 464 : Food Sensory Evaluation. (1::3)
OFFERED: W
PREREQUISITE: Stat 221; concurrent enrollment in NDFS 465.
DESCRIPTION: Analytical and affective methods of assessing sensory properties of food using statistical methods.

Laboratory experience in sensory research and techniques. Integrative capstone course.

PHSCS 106 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Phscs 105 or equivalent.
RECOMMENDED: Concurrent enrollment in Phscs 108.
DESCRIPTION: Continuation of Phscs 105. Topics include electricity and magnetism, atomic and nuclear physics, and optics.

PWS 100 : Living with Plants. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Physiological, morphological, and ecological characteristics of plants used for food, fiber, and aesthetic enhancement.

TMA 150 : Public Speaking. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Principles and methods of public speaking; speaking experiences.

*Hours include courses that may fulfill university core requirements.

BS in Nutritional Science (61 hours*)

Show All Course Descriptions
Hide All Course Descriptions

This degree provides excellent preparation for those individuals in preprofessional programs (e.g., premedicine, predentistry, prelaw) or for an advanced degree (MS, PhD) in nutrition or biological sciences.

Program Requirements | View MAP

1. Complete the following core requirements:

NDFS 100 : Essentials of Human Nutrition. (3:3:0)
- OFFERED: F, W, Su
- DESCRIPTION: Food-oriented study of nutritional facts and principles as a basis for dietary choices; consequences of choices; scientifically examining controversial topics.

NDFS 200 : Nutrient Metabolism. (3:3:0)
- OFFERED: F, Sp
- PREREQUISITE: NDFS 100 and organic chemistry, or concurrent enrollment.
- DESCRIPTION: Chemical structures of nutrients, their food sources, requirements, digestion, absorption, transport, metabolism, functions, storage and excretion; metabolic consequences of nutrient deficiencies, interactions, imbalances, and toxicities.

NDFS 305 : Nutritional Implications of Disease. (4:4:0)
- OFFERED: W
- PREREQUISITE: NDFS 200; PDBio 305.
- DESCRIPTION: Nutritional assessment and medical nutrition therapy across disease states.
- NOTE: For nutritional science majors.

NDFS 394 : Nutrition Research Fundamentals. (1:1:0)
- OFFERED: F
- PREREQUISITE: NDFS 200 or instructor's consent.
- DESCRIPTION: Design and protocols for and ethics of research with human subjects and animals. Scientific literature searches and presentations.

NDFS 435 : Nutritional Biochemistry. (4:4:0)
- OFFERED: F, W
- PREREQUISITE: NDFS 200; PDBio 305; Chem 481 or equivalent.
- DESCRIPTION: Metabolic interrelationships among nutrients.

2. After consulting with a faculty advisor, complete 8 hours from the following:

MMBIO 241 : Molecular and Cellular Biology Laboratory. (1:0:3)
- OFFERED: F, W, Sp
- PREREQUISITE: MMBio 240 or concurrent enrollment.
- DESCRIPTION: Molecular and cellular biology techniques laboratory.

NDFS 201 : Nutrition and Prevention of Chronic Disease. (2:2:0)
- OFFERED: W
- PREREQUISITE: NDFS 100.
- DESCRIPTION: Role of dietary choices in preventing or ameliorating chronic diseases. Examples of dietary interventions.

NDFS 250 : Essentials of Food Science. (3:3:0)
- OFFERED: F, W, Sp
- PREREQUISITE: Organic chemistry or concurrent enrollment; and concurrent enrollment in NDFS 251.

BGS in General Studies: American Studies Emphasis (33 hours*)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements | View MAP

1. Complete the following prerequisite course:
   STDEV 100 : Essential College Skills. (1:1:0)
   OFFERED: F, W, Sp, Su
   DESCRIPTION: Developing essential college skills. Aims of BYU, values and goals, sound thinking skills. Learning styles and adjustment to college courses. College requirements and planning.
   NOTE: Independent Study also.

2. Complete the following core courses:
   ECON 110 : Economic Principles and Problems. (3:3:0)
   OFFERED: F, W, Sp, Su
   DESCRIPTION: Strengths and weaknesses of markets and governments for solving problems of social organization or conflict, including policy response to inflation, unemployment, pollution, poverty, growth, etc.

   HIST 220 : The United States Through 1877. (3:3:0)
   OFFERED: F, W, Sp, Su; Independent study also.
   DESCRIPTION: Discovery, colonization, American Revolution, estabishment of the Constitution, foreign affairs, westward expansion, slavery, sectionalism, Civil War, and reconstruction.

   HIST 221 : The United States Since 1877. (3:3:0)
   OFFERED: F, W, Sp, Su; Independent Study also.
   DESCRIPTION: Industrialization, immigration, urbanization, political and social movements, and foreign policy.

   PL SC 110 : American Government and Politics. (3:3:0)
   OFFERED: F, W; Sp and Su on demand. Honors also. Independent Study also.
   DESCRIPTION: Origin and development of federal Constitution; national, state, and local governments and politics.

3. Complete 18 hours from the following:
   A HTG 100 : American Heritage. (3:3:0)
   DESCRIPTION: Synthesis of American constitutional and economic principles, and patterns of historical development.

   ENGL 293 : American Literary History. (3:3:0)
   OFFERED: F, W, Sp, Su; Independent Study also.
   PREREQUISITE: Engl 251 or 252 or concurrent enrollment.
   DESCRIPTION: Development of ideas, movements, genres, and styles in American literature as illustrated through representative texts.

   ENGL 336 : The American Novel. (3:3:0)
   OFFERED: F, W; Independent Study also.
   PREREQUISITE: Engl 251 or 252.
   DESCRIPTION: Representative novels of the American tradition from the late eighteenth century to the present.

   ENGL 361 : American Literature to the Mid--Nineteenth Century. (3:3:0)
   OFFERED: F, W
   PREREQUISITE: Engl 251 or 252; 293.
   DESCRIPTION: Major and selected minor writers and literary trends from Puritanism through transcendentalism.

   ENGL 362 : American Literature from the Late Nineteenth to the Early Twentieth Century (3:3:0)
   OFFERED: F, W; Independent Study also.

DESCRIPTION: Overview of food science, including chemical, physical and microbiological principles related to food processing, storage, and utilization. Current issues in food science.

NDFS 251 : Essentials of Food Science Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: Concurrent enrollment in NDFS 250.
DESCRIPTION: Laboratory experience in the chemistry of changes occurring during food processing, storage, and utilization.

NDFS 310 : Sports Nutrition. (2:2:0)
OFFERED: F, Sp
PREREQUISITE: NDFS 100, PDBio 305.
DESCRIPTION: Scientific basis for the role of nutrition in human performance. Critical evaluation of popular practices; making optimal food choices for physical activity.

NDFS 380 : International Nutrition and Health. (3:3:0)
OFFERED: W even years.
PREREQUISITE: NDFS 200 or instructor's consent.
DESCRIPTION: Causes and consequences of nutrient deficiencies common in developing countries. Appropriate interventions to prevent or treat malnutrition.

NDFS 400 : Community Nutrition. (3:3:4)
OFFERED: F
PREREQUISITE: Dietetics major or NDFS 200 or 201.
DESCRIPTION: Public health nutrition applied to community programs.

NDFS 424 : Nutrition Through the Life Cycle. (2:2:0)
OFFERED: W
PREREQUISITE: NDFS 300 or 305 or instructor's consent.
DESCRIPTION: Dietary recommendations for pregnancy and lactation; infant feeding; nutritional requirements, diet, and health concerns of preschoolers, school-age children, adolescents, and the elderly.

NDFS 494R : Undergraduate Research in Nutrition, Dietetics, or Food Science. (1-3:0:9)
OFFERED: F, W
PREREQUISITE: Instructor's and department chair's consent; 14 hours of nutrition, dietetics, and food science courses.
DESCRIPTION: Mentored research experience or library thesis.

(up to 3 hours)
PDBIO 360 : Cell Biology. (3:3:1)
OFFERED: F, W
PREREQUISITE: MMBio 240.
DESCRIPTION: Fundamentals of cell structure and function with reference to analytical methods used by cell biologists. Practice in designing, executing, and interpreting relative experiments.

PWS 340 : Genetics. (2:2:1)
OFFERED: F, W, Su
PREREQUISITE: MMBio 240.
DESCRIPTION: Genetic mechanisms, their fundamental nature, interactions, and applications to human affairs. Genetics in quantitative terms. Extensive practice in problem solving.

3. Complete the following:

CHEM 105 : General College Chemistry. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energectics, electrochemistry, acids and bases, inorganic and organic chemistry.
NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

CHEM 106 : General College Chemistry. (3:4:0)
OFFERED: F, W, Su
PREREQUISITE: Chem 105 or equivalent.
DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.
NOTE: Three lectures and one recitation section per week.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)

OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 106 or concurrent enrollment.
DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.
NOTE: Required for most students needing one year of general chemistry.

CHEM 351 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105, 111; or equivalents.
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: Primarily for majors in chemical engineering and the biological sciences.

CHEM 352 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 351 or equivalent.
DESCRIPTION: Continuation of Chem 351.

CHEM 353 : Organic Chemistry Laboratory--Nonmajors. (1-2:0:6)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 352 or concurrent enrollment (preferred).
DESCRIPTION: Physical and chemical properties, isolation and purification, characterization, syntheses.
NOTE: For predentistry, premedicine, and other majors who do not intend to take Chem 455.

(1 hour required)
CHEM 481 : Biochemistry 1. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Chem 352; Biol 100 or equivalent.
DESCRIPTION: First-semester biochemistry. Molecular components of cells, chemical structure and function, enzymes, metabolic transformations, photosynthesis.
NOTE: For chemistry majors and students in biological sciences who contemplate pursuing advanced degrees, including medicine.

MMBIO 240 : Molecular Biology. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 120, Chem 105.
DESCRIPTION: Fundamentals of protein and nucleic acid structure and their function in the context of the classical experiments that have informed our current models of biology at the molecular level.

PDBIO 120 : Science of Biology. (2:2:1)
OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: General biology course designed for biological science majors, emphasizing the scientific method, cell theory, biochemical unity, the Central Dogma, bioenergetics, reproduction, and evolutionary theory.

PDBIO 305 : Human Physiology (with lab). (4:4:2)
OFFERED: F, W, Sp
PREREQUISITE: Chem 101 or equivalent.
RECOMMENDED: A general biology course.
DESCRIPTION: Function of body organ systems.
NOTE: Not acceptable for physiology and developmental biology, biophysics, or neuroscience majors. Designed for students with basic chemistry / no molecular biology. Students with chemistry/molecular biology should take PDBio 362.

PHSCS 105 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: High school algebra and trigonometry.
RECOMMENDED: Concurrent enrollment in Phscs 107.
DESCRIPTION: Applied physics course not requiring calculus. Topics include mechanics, heat, wave motion, sound.

PHSCS 106 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Phscs 105 or equivalent.
RECOMMENDED: Concurrent enrollment in Phscs 108.
DESCRIPTION: Continuation of Phscs 105. Topics include electricity and magnetism, atomic and nuclear physics, and optics.

PHSCS 107 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 105 or concurrent enrollment.

PHSCS 108 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Su
PREREQUISITE: Phscs 106 or concurrent enrollment.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

Recommended Courses

CHEM 223 : Quantitative and Qualitative Analysis. (4:2:6)
OFFERED: F, Sp
PREREQUISITE: Chem 106 or equivalent.
DESCRIPTION: Principles of chemical equilibrium, quantitative chemical measurements, and qualitative detection of selected chemical species.
NOTE: Primarily for majors in molecular biology and the life sciences.

HLTH 345 : Principles of Epidemiology. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Stat 221.
DESCRIPTION: Applying analytical tools to study acute and chronic disease to facilitate investigation and control of epidemics.

MMBIO 221 : General Microbiology. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Any chemistry course and any biology course.
DESCRIPTION: Microbial world, emphasizing communicable diseases, their causes, and control.
NOTE: Recommended for students seeking a liberal education in microbiology who do not have the prerequisites to take the more advanced courses.

*Hours include courses that may fulfill university core requirements.

Minor in Nutrition (16 hours)

Show All Course Descriptions
Hide All Course Descriptions

Many of these courses have prerequisites. Most students choosing this minor will have completed the prerequisites as part of their major. Other students will need to complete them.

Program Requirements

1. Complete the following:

NDFS 100 : Essentials of Human Nutrition. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: Food-oriented study of nutritional facts and principles as a basis for dietary choices; consequences of choices; scientifically examining controversial topics.

NDFS 200 : Nutrient Metabolism. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: NDFS 100 and organic chemistry, or concurrent enrollment.
DESCRIPTION: Chemical structures of nutrients, their food sources, requirements, digestion, absorption, transport, metabolism, functions, storage and excretion; metabolic consequences of nutrient deficiencies, interactions, imbalances, and toxicities.

2. After consulting with a faculty advisor, complete 10 hours from the following:

NDFS 201 : Nutrition and Prevention of Chronic Disease. (2:2:0)
OFFERED: W
PREREQUISITE: NDFS 100.
DESCRIPTION: Role of dietary choices in preventing or ameliorating chronic diseases. Examples of dietary interventions.

NDFS 305 : Nutritional Implications of Disease. (4:4:0)
OFFERED: W
PREREQUISITE: NDFS 200; PDBio 305.
DESCRIPTION: Nutritional assessment and medical nutrition therapy across disease states.
NOTE: For nutritional science majors.

NDFS 310 : Sports Nutrition. (2:2:0)
OFFERED: F, Sp
PREREQUISITE: NDFS 100, PDBio 305.
DESCRIPTION: Scientific basis for the role of nutrition in human performance. Critical evaluation of popular practices; making optimal food choices for physical activity.

NDFS 380 : International Nutrition and Health. (3:3:0)
OFFERED: W even years.
PREREQUISITE: NDFS 200 or instructor's consent.
DESCRIPTION: Causes and consequences of nutrient deficiencies common in developing countries. Appropriate interventions to prevent or treat malnutrition.

NDFS 400 : Community Nutrition. (3:3:4)
OFFERED: F
PREREQUISITE: Dietetics major or NDFS 200 or 201.
DESCRIPTION: Public health nutrition applied to community programs.

NDFS 424 : Nutrition Through the Life Cycle. (2:2:0)
OFFERED: W

PREREQUISITE: NDFS 300 or 305 or instructor's consent.
DESCRIPTION: Dietary recommendations for pregnancy and lactation; infant feeding; nutritional requirements, diet, and health concerns of preschoolers, school-age children, adolescents, and the elderly.

NDFS 435 : Nutritional Biochemistry. (4:4:0)
OFFERED: F, W
PREREQUISITE: NDFS 200; PDBio 305; Chem 481 or equivalent.
DESCRIPTION: Metabolic interrelationships among nutrients.

Undergraduate Courses

100-Level Courses

NDFS 100 : Essentials of Human Nutrition. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: Food-oriented study of nutritional facts and principles as a basis for dietary choices; consequences of choices; scientifically examining controversial topics.

NDFS 191 : Introduction to Food Science. (1:1:0)
OFFERED: F, W
DESCRIPTION: Guest lectures and exposure to vocations in food science.

200-Level Courses

NDFS 200 : Nutrient Metabolism. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: NDFS 100 and organic chemistry, or concurrent enrollment.
DESCRIPTION: Chemical structures of nutrients, their food sources, requirements, digestion, absorption, transport, metabolism, functions, storage and excretion; metabolic consequences of nutrient deficiencies, interactions, imbalances, and toxicities.

NDFS 201 : Nutrition and Prevention of Chronic Disease. (2:2:0)
OFFERED: W
PREREQUISITE: NDFS 100.
DESCRIPTION: Role of dietary choices in preventing or ameliorating chronic diseases. Examples of dietary interventions.

NDFS 250 : Essentials of Food Science. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Organic chemistry or concurrent enrollment; and concurrent enrollment in NDFS 251.
DESCRIPTION: Overview of food science, including chemical, physical and microbiological principles related to food processing, storage, and utilization. Current issues in food science.

NDFS 251 : Essentials of Food Science Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: Concurrent enrollment in NDFS 250.
DESCRIPTION: Laboratory experience in the chemistry of changes occurring during food processing, storage, and utilization.

NDFS 290 : Introduction to Dietetics. (1:1:0)
OFFERED: F
DESCRIPTION: The profession of dietetics; exposure to specialty areas through guest lectures.

NDFS 292R : Fieldwork in Dietetics. (.5-2:Arr:Arr)
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent.
DESCRIPTION: Fieldwork for international students.

300-Level Courses

NDFS 300 : Clinical Nutrition 1. (4:4:0)
OFFERED: F
PREREQUISITE: NDFS 200; physiology, biochemistry; dietetics major status.
DESCRIPTION: Nutritional assessment and medical nutrition therapy across disease states.

NDFS 305 : Nutritional Implications of Disease. (4:4:0)
OFFERED: W
PREREQUISITE: NDFS 200; PDBio 305.
DESCRIPTION: Nutritional assessment and medical nutrition therapy across disease states.
NOTE: For nutritional science majors.

NDFS 310 : Sports Nutrition. (2:2:0)
OFFERED: F, Sp
PREREQUISITE: NDFS 100, PDBio 305.
DESCRIPTION: Scientific basis for the role of nutrition in human performance. Critical evaluation of popular practices; making optimal food choices for physical activity.

NDFS 330 : Comparative Animal Nutrition. (3:3:0)

OFFERED: W
DESCRIPTION: Comparative digestion, absorption, and utilization of nutrients and nutritional applications of domestic, pet, and wildlife species.

NDFS 350 : Food Analysis. (4:3:3)
OFFERED: W
PREREQUISITE: Chem 351, 352, 353; NDFS 250, 251.
DESCRIPTION: Principles, methods and techniques of qualitative and quantitative physical, chemical, and biological analysis of food and food ingredients.

NDFS 355 : Food Process Engineering. (4:3:3)
OFFERED: W
PREREQUISITE: Phscs 105 and calculus.
DESCRIPTION: Mass and energy balances, thermodynamics, fluid flow, heat and mass transfer; unit operations in food processing, including thermal processing, frying, irradiation, refrigeration, freezing, and dehydration.

NDFS 356 : Clinical Nutrition 2. (3:3:0)
OFFERED: W
PREREQUISITE: NDFS 300.
DESCRIPTION: Medical nutrition therapy across disease states; continuation of NDFS 300.

NDFS 361 : Food Microbiology. (3:2:3)
OFFERED: F
PREREQUISITE: MMBio 221, 222; or equivalents.
DESCRIPTION: Pathogenic and spoilage microorganisms in foods and their control. Beneficial microorganisms in food systems. Influence of the food system on growth and survival of microorganisms.

NDFS 362 : Food Commodity Processing. (3:2:3)
OFFERED: F
PREREQUISITE: NDFS 250, 251.
DESCRIPTION: Characteristics of raw food material; principles of food preservation and food processing techniques; packaging materials and methods; sanitation and water and waste management.

NDFS 374 : Food Production Management. (2:2:0)
OFFERED: F
PREREQUISITE: NDFS 200, 250, 251.
DESCRIPTION: Managing processes and techniques of quantity food production in commercial and institutional food systems.

NDFS 375 : Food Production Management Laboratory. (2:0:8)
OFFERED: F, W
PREREQUISITE: NDFS 374 or concurrent enrollment.

NDFS 380 : International Nutrition and Health. (3:3:0)
OFFERED: W even years.
PREREQUISITE: NDFS 200 or instructor's consent.
DESCRIPTION: Causes and consequences of nutrient deficiencies common in developing countries. Appropriate interventions to prevent or treat malnutrition.

NDFS 390R : Special Topics in Food Science and Nutrition. (1-3:ARR:0)
DESCRIPTION: Topics vary.

NDFS 394 : Nutrition Research Fundamentals. (1:1:0)
OFFERED: F
PREREQUISITE: NDFS 200 or instructor's consent.
DESCRIPTION: Design and protocols for and ethics of research with human subjects and animals. Scientific literature searches and presentations.

NDFS 399R : Academic Internship. (1-9:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent.
DESCRIPTION: Off-campus work experience sponsored by industrial, government, or academic institutions.

400-Level Courses

NDFS 400 : Community Nutrition. (3:3:4)
OFFERED: F
PREREQUISITE: Dietetics major or NDFS 200 or 201.
DESCRIPTION: Public health nutrition applied to community programs.

NDFS 401 : Community Nutrition Fieldwork. (.5:0:2)
OFFERED: F
PREREQUISITE: NFDS 300, concurrent enrollment in NDFS 400, and dietetics major status.
DESCRIPTION: Experience in public health and community nutrition programs.

NDFS 405 : Nutrition Assessment Lab. (.5:0:3)
OFFERED: F on block
PREREQUISITE: NDFS 300, 356.
DESCRIPTION: Developing skill in anthropometric, biochemical, clinical, and dietary parameters of nutritional assessment.

NDFS 424 : Nutrition Through the Life Cycle. (2:2:0)
OFFERED: W
PREREQUISITE: NDFS 300 or 305 or instructor's consent.
DESCRIPTION: Dietary recommendations for pregnancy and lactation; infant feeding; nutritional requirements, diet, and health concerns of preschoolers, school-age children, adolescents, and the elderly.

NDFS 435 : Nutritional Biochemistry. (4:4:0)
OFFERED: F, W
PREREQUISITE: NDFS 200; PDBio 305; Chem 481 or equivalent.
DESCRIPTION: Metabolic interrelationships among nutrients.

NDFS 440 : Teaching Methods in Dietetics. (3:3:0)
OFFERED: F
DESCRIPTION: Learning settings, learning theory; curriculum development and dissemination for dietetics majors.

NDFS 445 : Food Service Systems. (3:3:0)
OFFERED: W
PREREQUISITE: NDFS 374.
DESCRIPTION: Input, transformation, and output in the food service system; emphasizes procurement, production, service, and sanitation.

NDFS 450 : Food Chemistry. (3:3:0)
OFFERED: F
PREREQUISITE: NDFS 250, 251.
DESCRIPTION: Structure and properties of food components, including water, carbohydrates, protein, lipids, other nutrients, and food additives. Chemistry of changes occurring during processing, storage, and utilization.

NDFS 458 : Management in Dietetics. (3:3:0)
OFFERED: F
PREREQUISITE: NDFS 445.
DESCRIPTION: Management cycle and theory applied to clinical and administrative dietetics.

NDFS 462 : Food Regulations and Quality Assurance. (2:2:0)
OFFERED: F
PREREQUISITE: Stat 221, NDFS 250, 251.
DESCRIPTION: Federal and international food regulations and methods of assuring food quality.

NDFS 464 : Food Sensory Evaluation. (1::3)
OFFERED: W
PREREQUISITE: Stat 221; concurrent enrollment in NDFS 465.
DESCRIPTION: Analytical and affective methods of assessing sensory properties of food using statistical methods. Laboratory experience in sensory research and techniques. Integrative capstone course.

NDFS 465 : Food Product Development. (3:1:6)
OFFERED: W
PREREQUISITE: NDFS 350, 355, 361, 362, 462, or concurrent enrollment; concurrent enrollment in NDFS 464.
DESCRIPTION: Integration and application of food science principles to develop new food products. Laboratory experience in food product design and development. Integrative capstone course.

NDFS 466 : Advanced Dietetics Practice. (3:3:0)
OFFERED: W
PREREQUISITE: NDFS 356, 445.
DESCRIPTION: Skill development in specialized topics of medical nutrition therapy and administrative dietetics.

NDFS 475 : Research Methods in Dietetics. (2:2:0)
OFFERED: W
PREREQUISITE: Concurrent enrollment in NDFS 466.
DESCRIPTION: Research techniques in a variety of dietetics practice areas.

NDFS 490 : Professionalism Seminar. (2:2:0)
OFFERED: W
PREREQUISITE: Senior status in dietetics program.
DESCRIPTION: Issues in professional practice.

NDFS 491 : Internship Preparation. (1:1:0)
OFFERED: F
PREREQUISITE: Senior status in dietetics program.
DESCRIPTION: Selecting internship sites and preparing dietetic internship application packet.

NDFS 492 : Fieldwork in Nutrition, Dietetics, or Food Science. (1-8:0:24)
OFFERED: Sp, Su
PREREQUISITE: 12-15 hours in nutrition, dietetics, and food science; instructor's consent.

NDFS 494R : Undergraduate Research in Nutrition, Dietetics, or Food Science. (1-3:0:9)
OFFERED: F, W
PREREQUISITE: Instructor's and department chair's consent; 14 hours of nutrition, dietetics, and food science courses.
DESCRIPTION: Mentored research experience or library thesis.

500-Level Graduate Courses (available to advanced undergraduates)

NDFS 520R : Supervised Practice Experience. (1-4:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Acceptance into dietetic internship.
DESCRIPTION: Supervised practice experience in clinical, management, and community dietetics settings.

Graduate Courses

For 600- and 700-level courses, see the BYU 2008–2009 Graduate Catalog.

Professors

Christensen, Merrill J
- **COLLEGE:** Life Sciences
- **DEPARTMENT:** Nutrition, Dietetics, and Food Science
- **RANK:** Professor
- **DEGREES:** BS, Brigham Young University, 1977
  PhD, Massachusetts Institute of Technology, 1982

Johnston, N Paul
- **COLLEGE:** Life Sciences
- **DEPARTMENT:** Nutrition, Dietetics, and Food Science
- **RANK:** Professor
- **DEGREES:** BA, Brigham Young University, 1966
  MS, Oregon State University, 1967
  MBA, University of Utah, 1969
  PhD, Oregon State University, 1971

Ogden, Lynn Verl
- **COLLEGE:** Life Sciences
- **DEPARTMENT:** Nutrition, Dietetics, and Food Science
- **RANK:** Professor
- **DEGREES:** BS, Utah State University, 1966
  MS, Utah State University, 1967
  PhD, University of Minnesota, St. Paul, 1973

Pike, Oscar A.
- **COLLEGE:** Life Sciences
- **DEPARTMENT:** Nutrition, Dietetics, and Food Science
- **RANK:** Professor
- **DEGREES:** BS, Brigham Young University, 1980
  MS, Brigham Young University, 1982
  PhD, Purdue University, 1986

Associate Professors

Brown, Lora Beth
- **COLLEGE:** Life Sciences
- **DEPARTMENT:** Nutrition, Dietetics, and Food Science
- **RANK:** Associate Professor
- **DEGREES:** BS, Iowa State University, 1965
  MS, Cornell University, 1967
  EdD, Brigham Young University, 1982

Dunn, Michael L
- **COLLEGE:** Life Sciences
- **DEPARTMENT:** Nutrition, Dietetics, and Food Science

PREREQUISITE: Engl 251 or 252; 293.
DESCRIPTION: Major and selected minor writers and literary trends from the late nineteenth century through naturalism.

ENGL 363 : American Literature from the Early to Mid--Twentieth Century (3:3:0)
OFFERED: F, W, Sp; Independent Study also.
PREREQUISITE: Engl 251 or 252; 293.
DESCRIPTION: Major and selected minor writers and literary trends from the first half of the twentieth century through modernism.

GEOG 250 : United States and Canada. (3:3:0)
OFFERED: W
DESCRIPTION: Analysis of the natural environment, historical development, cultural patterns, economic systems, and political structures of geographic regions.

HIST 373 : Civil War Era, 1848-1877. (3:3:0)
OFFERED: F odd years.
DESCRIPTION: Causes of the war, major military events (leaders, campaigns, soldiers), war on the home fronts, why the South lost, Reconstruction, the legacy of the war.

HIST 378 : American Family History. (3:3:0)
DESCRIPTION: History of American families from colonial period to the present.

HIST 400 : The Family and the Law in American History. (3:3:0)
OFFERED: F, W
DESCRIPTION: The interaction of families with law and government as illustrated in original American sources; individual family histories reconstructed in the broader perspective of history.

PL SC 316 : American Political Parties. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Electoral and policy-making roles of American political parties today and their future in American politics.

PL SC 321 : The Media in American Politics. (3:3:0)
OFFERED: On demand.
DESCRIPTION: News media's role in processes of American politics, including electoral process, legislative process, and public policy-making.

The following BYU campus undergraduate courses (including Salt Lake Center courses) may be used to satisfy emphasis elective requirements:

Any American Studies course

Art history and curatorial studies dealing with American art and architecture.

English courses dealing with American literature.

History courses dealing with American history.

Native American Studies.

Political science courses dealing specifically with the American political system and thought.

Humanities courses dealing with American humanities.

4. Complete the following capstone course:
STDEV 490 : Bachelor of General Studies Capstone. (2:2:0)
OFFERED: Independent Study only.
PREREQUISITE: StDev 100; completion of all other BGS program requirements.
DESCRIPTION: Culminating course required for bachelor of general studies degree: analyze and evaluate BGS experience in light of the "Aims of a BYU Education" and summarize this experience in a reflective paper, integrate material learned in emphasis by completing a scholarly essay, and demonstrate accomplishment of learning outcomes.

*Hours include courses that may fulfill university core requirements.

RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1987
MS, Brigham Young University, 1989
PhD, Cornell University, 1996

Nyland, Nora Kay
COLLEGE: Life Sciences

Assistant Professors

Davidson, Robert Ted
COLLEGE: Life Sciences
DEPARTMENT: Nutrition, Dietetics, and Food Science
RANK: Assistant Professor
DEGREES: BS, Utah State University, 1992
MS, Utah State University, 1994
PhD, University of Wisconsin, Madison, 1998

Hancock, Chad R.
COLLEGE: Life Sciences
DEPARTMENT: Nutrition, Dietetics, and Food Science
RANK: Assistant Professor
DEGREES: BS, Brigham Young University, 1998
PhD, University of Missouri, Columbia, 2005

Parker, Tory L.
COLLEGE: Life Sciences
DEPARTMENT: Nutrition, Dietetics, and Food Science
RANK: Assistant Professor
DEGREES: BS, Brigham Young University, 2001
MS, Brigham Young University, 2004
PhD, University of Illinois, Urbana-Champaign, 2008

Richards, Rickelle
COLLEGE: Life Sciences
DEPARTMENT: Nutrition, Dietetics, and Food Science
RANK: Assistant Professor
DEGREES: BS, Utah State University, 2001
MPH, Tulane University School of Public Health & Tropical Medicine, 2003
PhD, RD, University of Minnesota, 2007

Steele, Frost M
COLLEGE: Life Sciences
DEPARTMENT: Nutrition, Dietetics, and Food Science
RANK: Assistant Professor
DEGREES: BS, Brigham Young University, 1985
MS, Brigham Young University, 1987
PhD, Purdue University, 1990

Teaching Professor

McGuire, Diana L
COLLEGE: Life Sciences
DEPARTMENT: Nutrition, Dietetics, and Food Science
RANK: Teaching Professor
DEGREES: BS, Brigham Young University, 1974

MS, Brigham Young University, 1976

Associate Teaching Professor

Fullmer, Susan

COLLEGE: Life Sciences
DEPARTMENT: Nutrition, Dietetics, and Food Science
RANK: Associate Teaching Professor
DEGREES: BA, University of Utah, 1986
MS, University of Utah, 1989
PhD, Brigham Young University, 2004

UNDERGRADUATE CATALOG 2008 - 2009

Neuroscience Center

Neuroscience Center Office
1055 SWKT, (801) 422-1218

College of Family, Home, and Social Sciences Advisement Center
151 SWKT, (801) 422-3541

College of Life Sciences Academic Advisement Office
380 WIDB, (801) 422-3042

The neuroscience undergraduate program is an interdisciplinary program that allows students to seek advisement at the College of Life Sciences Academic Advisement Office or the College of Family, Home, and Social Sciences Advisement Center.

Admission to Degree Program

The degree program in the Neuroscience Center carries special enrollment limitations. Please see the college advisement center for specific details.

The Discipline

Neuroscience is the field of study covering the development and function of the central nervous system and its connection to influencing/regulating behavior. The study of neuroscience examines topics such as neuroanatomy, neuropsychopharmacology, neurophysiology, molecular neurobiology, and neuroendocrinology. The interdisciplinary nature of neuroscience requires the tools provided by experience and training in calculus, general biology, genetics, physiology, molecular biology, chemistry (general, organic, and biochemistry), physics, psychology (hormones and behavior, memory, cognition, sensation, and perception), and research design and analysis.

The objectives for students pursuing a major in neuroscience are to (1) establish and promote an interdisciplinary education in neuroscience, (2) produce scientifically literate individuals having the ability to design, conduct, and analyze research activities, and (3) have students think critically in an integrative fashion based upon research-rich and inquiry-based academic curricula.

Career Opportunities

Neuroscience prepares students to pursue advanced degrees in graduate school or to enter into the pharmaceutical and biotechnology workforce. Neuroscience is an excellent preprofessional field of study for those interested in health professions, law, or business.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

BS in Neuroscience

Students should see their college advisement center for help or information concerning the undergraduate programs.

This is a limited-enrollment program requiring departmental admissions approval. Please see the Family, Home, and Social Sciences College Advisement Center for information regarding requirements for admission to this major.

Program Requirements | View MAP

1. Complete the following prerequisite courses:

   CHEM 105 : General College Chemistry. (4:5:0)
   - OFFERED: F, W, Sp, Su
   - PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
   - DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energectics, electrochemistry, acids and bases, inorganic and organic chemistry.
   - NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

   PDBIO 120 : Science of Biology. (2:2:1)
   - OFFERED: F, W, Sp, Su; Honors also.
   - DESCRIPTION: General biology course designed for biological science majors, emphasizing the scientific method, cell theory, biochemical unity, the Central Dogma, bioenergetics, reproduction, and evolutionary theory.

2. Students must have a minimum grade of C+ for each of the above courses before being accepted to the major. Grades will be accepted from transfer students for chemistry and introductory biology. Information regarding the average grades earned in prerequisite courses by students accepted into the major can be obtained from the College of Family, Home, and Social Sciences Advisement Center.

3. Complete the following:

   MMBIO 240 : Molecular Biology. (3:3:1)
   - OFFERED: F, W, Sp
   - PREREQUISITE: PDBio 120, Chem 105.
   - DESCRIPTION: Fundamentals of protein and nucleic acid structure and their function in the context of the classical experiments that have informed our current models of biology at the molecular level.

   NEURO 205 : Neurobiology. (3:3:0)
   - OFFERED: F, W
   - PREREQUISITE: Neuroscience majors or pre-neuroscience majors.
   - DESCRIPTION: The nervous system; cellular communication, neural basis of behavior, and hormonal influences.

   NEURO 360 : Neuroanatomy. (2:2:0)
   - OFFERED: F, W, Sp
   - PREREQUISITE: Neuro 205.
   - DESCRIPTION: Functonal anatomy of the human brain and spinal cord, including surface and cross-sectional gross anatomy, microscopic anatomy, and sensory, motor, and integrative systems' circuitry.

   NEURO 380 : Behavioral Neuroscience. (3:3:0)
   - OFFERED: W
   - PREREQUISITE: Neuro 205; neuroscience major status.
   - DESCRIPTION: Critical examination of anatomical, physiological, and chemical bases of behavioral expression.

   NEURO 480 : Advanced Neuroscience. (3:3:0)
   - OFFERED: F, W
   - PREREQUISITE: Neuro 205, Biol 360; neuroscience majors only.

DESCRIPTION: Principles of neural science. Structure-function relationships and integration of the nervous system.

NEURO 481 : Neuroscience Laboratory. (1:0:3)
OFFERED: F, W
PREREQUISITE: Neuro 480 or concurrent enrollment; neuroscience majors only.
DESCRIPTION: Exposure to classical/modern experiments in neuroscience.

PDBIO 360 : Cell Biology. (3:3:1)
OFFERED: F, W
PREREQUISITE: MMBio 240.
DESCRIPTION: Fundamentals of cell structure and function with reference to analytical methods used by cell biologists. Practice in designing, executing, and interpreting relative experiments.

PDBIO 362 : Advanced Physiology. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Biol 240; Phscs 106 or 220.
DESCRIPTION: Integrated approach to organ system and cellular physiology. Problem solving/calculations.
NOTE: Requires background in chemistry and molecular biology. Students without this background should take PDBio 305.

PWS 340 : Genetics. (2:2:1)
OFFERED: F, W, Su
PREREQUISITE: MMBio 240.
DESCRIPTION: Genetic mechanisms, their fundamental nature, interactions, and applications to human affairs. Genetics in quantitative terms. Extensive practice in problem solving.

4. Complete the following:

CHEM 106 : General College Chemistry. (3:4:0)
OFFERED: F, W, Su
PREREQUISITE: Chem 105 or equivalent.
DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.
NOTE: Three lectures and one recitation section per week.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 106 or concurrent enrollment.
DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.
NOTE: Required for most students needing one year of general chemistry.

CHEM 351 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105, 111; or equivalents.
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: Primarily for majors in chemical engineering and the biological sciences.

CHEM 352 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 351 or equivalent.
DESCRIPTION: Continuation of Chem 351.

CHEM 481 : Biochemistry 1. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Chem 352; Biol 100 or equivalent.
DESCRIPTION: First-semester biochemistry. Molecular components of cells, chemical structure and function, enzymes, metabolic transformations, photosynthesis.
NOTE: For chemistry majors and students in biological sciences who contemplate pursuing advanced degrees, including medicine.

5. Complete one of the following options

Either

PHSCS 105 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: High school algebra and trigonometry.
RECOMMENDED: Concurrent enrollment in Phscs 107.

DESCRIPTION: Applied physics course not requiring calculus. Topics include mechanics, heat, wave motion, sound.

PHSCS 106 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Phscs 105 or equivalent.
RECOMMENDED: Concurrent enrollment in Phscs 108.
DESCRIPTION: Continuation of Phscs 105. Topics include electricity and magnetism, atomic and nuclear physics, and optics.

PHSCS 107 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 105 or concurrent enrollment.

PHSCS 108 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Su
PREREQUISITE: Phscs 106 or concurrent enrollment.

Or

PHSCS 121 : Principles of Physics 1. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Calculus or concurrent enrollment.
DESCRIPTION: Newtonian mechanics. Weekly lab.

PHSCS 123 : Principles of Physics 2. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121.
DESCRIPTION: Waves, thermal physics, optics, special relativity, and introduction to modern physics. Weekly lab.

PHSCS 220 : Principles of Physics 3. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121 or equivalent; Math 113 or equivalent.
DESCRIPTION: Electricity and magnetism. Weekly lab.

6. Complete the following:

ENGL 316 : Technical Communication. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
PREREQUISITE: Engl 150 or equivalent; junior or senior status.
DESCRIPTION: Effective processes of written, oral, and visual technical communication, including collaborative processes. Writing for academic and professional audiences.
NOTE: Carries GE Advanced Written and Oral Communication credit.

7. Complete one course from the following:

MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

MATH 113 : Calculus 2. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
NOTE: Honors also.

MATH 119 : Introduction to Calculus. (4:4:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Introduction to plane analytic geometry and calculus.
NOTE: For students in the College of Life Sciences and the Marriott School of Management.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.

DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

8. Complete at least 10 hours from three different departments from the following electives:

BIO 370 : Bioethics. (2:1:3)
OFFERED: F, W
PREREQUISITE: Introductory biology course.
DESCRIPTION: In-depth lecture and small group discussion of varied bioethical issues. LDS Church positions emphasized when appropriate.

CHEM 482 : Biochemistry 2. (3:3:0)
OFFERED: W, Sp
PREREQUISITE: Biol 360; Chem 481 or equivalent.
DESCRIPTION: Second-semester biochemistry. Nucleic acid biochemistry and molecular biology: nucleotide metabolism, chromosome and chromatin structure, DNA structure and replication, RNA transcription and gene expression, protein synthesis and regulation, eukaryotic gene systems, signal transduction.

NEURO 449R** : Undergraduate Research Experience. (.5-3:0:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Undergraduate research experience in neuroscience.

PDBIO 363 : Advanced Physiology Laboratory. (1:0.5:1.5)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 362 or concurrent enrollment; or instructor's consent.
DESCRIPTION: Experiments and exercises in advanced physiology emphasizing human physiology. Computer simulations of muscle function, endocrine disease, and human physiology. Emphasizes problem solving and calculations.

PDBIO 561 : Physiology of Drug Mechanisms. (3:2:3)
OFFERED: F
PREREQUISITE: PDBio 352 or instructor's consent.
DESCRIPTION: Overview of physiological and pharmacological mechanisms and principles of human therapeutics as applied to clinically significant pathophysiology.

PDBIO 565** : Endocrinology. (3:3:0)
OFFERED: W
PREREQUISITE: PDBio 362 or instructor's consent.
DESCRIPTION: Mammalian hormones.

PDBIO 568** : Cellular Electrophysiology and Biophysics. (3:2:3)
OFFERED: F
PREREQUISITE: PDBio 362, Phscs 140, 220; or instructor's consent.
DESCRIPTION: Using electrophysiology and biophysics as an approach to study of physiology. Extensive look at ion channels and cell signaling.

PSYCH 370*** : Sensation and Perception. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent; or Neuro 105 for neuroscience majors.
DESCRIPTION: Sensory basis of perception and principles of perceptual organization.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

PSYCH 375 : Cognition. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent.
DESCRIPTION: Perceptual organization; information processing; cognitive development; relationships between sensory analysis, perception, memory, learning, language, and problem solving.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

PSYCH 382 : Stress Psychobiology. (3:3:0)
OFFERED: F
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent. (Neuro 205 will substitute for Psych 302.)
DESCRIPTION: Behavioral neurobiology of stress.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

PSYCH 584** : Cognitive Neuroscience. (3:3:0)

OFFERED: W
PREREQUISITE: Psych 381 or equivalent; or instructor's consent.
DESCRIPTION: Critical analysis of neurobiological bases of perception and cognition.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

Either

MATH 119 : Introduction to Calculus. (4:4:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Introduction to plane analytic geometry and calculus.
NOTE: For students in the College of Life Sciences and the Marriott School of Management.

Or

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

Note: Students should carefully consult with the Neuroscience Center and faculty regarding which electives they should take to best support their postgraduate plans.

**These courses require the instructor's signature before enrolling.

***This course is strongly recommended.

Recommended Courses

In addition to the above courses, students may find the following courses helpful (see Preprofessional Advisement Center, 3326 WSC):

CHEM 353 : Organic Chemistry Laboratory--Nonmajors. (1-2:0:6)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 352 or concurrent enrollment (preferred).
DESCRIPTION: Physical and chemical properties, isolation and purification, characterization, syntheses.
NOTE: For predentistry, premedicine, and other majors who do not intend to take Chem 455.

PDBIO 220 : Human Anatomy (with lab). (3:2:2)
OFFERED: F, W, Sp, Su
DESCRIPTION: Structure and function of the human body. Lab included.

STDEV 139 : Introduction to Health Professions. (1:1:0)
OFFERED: F, W
DESCRIPTION: Overview of health professions: medical, dental, and other specialties. Primary focus on guest lectures from various practitioners and clinicians.

STDEV 227 : Preview of Optometry. (1:1:0)
OFFERED: F, W
DESCRIPTION: Preview of optometry with lectures by optometrists; overview of required courses; application process; recommended extracurricular opportunities.

STDEV 229 : Preview of Dentistry. (1:1:0)
OFFERED: F, W
DESCRIPTION: Preview of dentistry with lectures by dentists; overview of required courses; application process; recommended extracurricular opportunities.

STDEV 239 : Preview of Medicine. (1:1:0)
OFFERED: F, W
DESCRIPTION: Preview of medical practice with lectures by doctors; overview of required courses; application process; recommended extracurricular opportunities.

STDEV 329 : Dental School Preparation Laboratory Experience. (2:0:2)
OFFERED: F, W
DESCRIPTION: Dental laboratory practices; tooth terminology, morphology, and anatomy. Procedures including oral pathology, diagnosis, and X-rays.

STDEV 399R : Health Professions Internship. (1-3:Arr:Arr)
OFFERED: F, W
DESCRIPTION: Internships with health care providers.

: Dental Internship.
: Medical Internship.

STDEV 439 : Medical and Dental School Application. (2:2:0)
OFFERED: F, W
DESCRIPTION: Preparation for medical and dental school applications; entire application process, including school identification and submission.

*Hours include courses that may fulfill university core requirements.

Undergraduate Courses

200-Level Courses

NEURO 205 : Neurobiology. (3:3:0)
OFFERED: F, W
PREREQUISITE: Neuroscience majors or pre-neuroscience majors.
DESCRIPTION: The nervous system; cellular communication, neural basis of behavior, and hormonal influences.

300-Level Courses

NEURO 360 : Neuroanatomy. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: Neuro 205.
DESCRIPTION: Functonal anatomy of the human brain and spinal cord, including surface and cross-sectional gross anatomy, microscopic anatomy, and sensory, motor, and integrative systems' circuitry.

NEURO 380 : Behavioral Neuroscience. (3:3:0)
OFFERED: W
PREREQUISITE: Neuro 205; neuroscience major status.
DESCRIPTION: Critical examination of anatomical, physiological, and chemical bases of behavioral expression.

400-Level Courses

NEURO 449R : Undergraduate Research Experience. (.5-3:0:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Undergraduate research experience in neuroscience.

NEURO 480 : Advanced Neuroscience. (3:3:0)
OFFERED: F, W
PREREQUISITE: Neuro 205, Biol 360; neuroscience majors only.
DESCRIPTION: Principles of neural science. Structure-function relationships and integration of the nervous system.

NEURO 481 : Neuroscience Laboratory. (1:0:3)
OFFERED: F, W
PREREQUISITE: Neuro 480 or concurrent enrollment; neuroscience majors only.
DESCRIPTION: Exposure to classical/modern experiments in neuroscience.

NEURO 496R : Neuroscience Academic Internship. (.5-12:0:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Major status.
DESCRIPTION: Off-campus internship experience in neuroscience.

BGS in General Studies: English and American Literature Emphasis (33 hours*)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements | View MAP

1. Complete the following prerequisite course:
   STDEV 100 : Essential College Skills. (1:1:0)
   OFFERED: F, W, Sp, Su
   DESCRIPTION: Developing essential college skills. Aims of BYU, values and goals, sound thinking skills. Learning styles and adjustment to college courses. College requirements and planning.
   NOTE: Independent Study also.

2. Complete the following core courses:
   ENGL 251 : Fundamentals of Literary Interpretation and Criticism. (3:3:0)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: Engl 150 or equivalent.
   DESCRIPTION: Introduction to concepts and practice of literary analysis; critical theories; and elements of fiction, poetry, and drama.

   And complete two courses from the following:

   ENGL 291 : British Literary History 1. (3:3:0)
   OFFERED: F, W, Sp, Su; Independent Study also.
   PREREQUISITE: Engl 251 or 252 or concurrent enrollment.
   DESCRIPTION: Development of ideas, movements, genres, and styles in early English literature as illustrated through representative texts.

   ENGL 292 : British Literary History 2. (3:3:0)
   OFFERED: F, W, Sp, Su; Independent Study also.
   PREREQUISITE: Engl 251 or 252 or concurrent enrollment.
   DESCRIPTION: Development of ideas, movements, genres, and styles in later English literature as illustrated through representative texts.

   ENGL 293 : American Literary History. (3:3:0)
   OFFERED: F, W, Sp, Su; Independent Study also.
   PREREQUISITE: Engl 251 or 252 or concurrent enrollment.
   DESCRIPTION: Development of ideas, movements, genres, and styles in American literature as illustrated through representative texts.

3. Complete 18 hours from the following:
   ENGL 336 : The American Novel. (3:3:0)
   OFFERED: F, W; Independent Study also.
   PREREQUISITE: Engl 251 or 252.
   DESCRIPTION: Representative novels of the American tradition from the late eighteenth century to the present.

   ENGL 350 : The Bible as Literature. (3:3:0)
   OFFERED: F, W, Sp; Independent Study also.
   DESCRIPTION: Literary artistry, human values, and cultural significance of the Bible.

   ENGL 361 : American Literature to the Mid--Nineteenth Century. (3:3:0)
   OFFERED: F, W
   PREREQUISITE: Engl 251 or 252; 293.
   DESCRIPTION: Major and selected minor writers and literary trends from Puritanism through transcendentalism.

Admission to Degree Program

The degree programs in the College of Nursing carry special enrollment limitations. Please see the college advisement center for specific details.

The Discipline

Brigham Young University's baccalaureate nursing program prepares general clinicians with the knowledge, skills, leadership abilities, and values commensurate with professional nursing practice. Nursing education builds on the sciences, humanities, and religious studies to develop the strong theoretical and practical base necessary to understand and meet the needs of people in various health care settings.

Learning comes alive as students move from the classroom through the clinical simulation laboratory to actual patient care. Students assess, diagnose, and treat actual and potential human responses in an effort to promote, restore, or maintain health. Baccalaureate graduates develop their ability to be sensitive to the welfare of others, communicate effectively, evaluate research findings, think critically, solve problems, and utilize appropriate technology as they provide quality nursing care to people of all ages and from diverse backgrounds.

Career Opportunities

Career positions are available in various health care settings.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

BS in Nursing

Students should see their college advisement center for help or information concerning the undergraduate programs.

Graduate Programs and Degrees

MS in Nursing

For more information see the BYU 2008–2009 Graduate Catalog.

Undergraduate Admittance Requirements

The following criteria have been established for acceptance and progression in the baccalaureate program.

1. Be fully matriculated at BYU.
2. Acceptance into the nursing major is competitive and restricted to a limited number of openings each year. Not all students who meet the minimum requirements are guaranteed acceptance into the program.

   Applicants are evaluated on a variety of criteria using a point system. Admission criteria has included academic progression; written communication skills; community, school, and church service; recommendations from employers and/or educators; and the professional judgment of the admissions committee. In the last three years, the average GPA of students accepted into the program has been from 3.76 to 3.87, with a range of 3.387 to 4.0.

3. Complete the following before beginning nursing courses:
   Chem 285.
   MFHD 210 or Psych 220.
   Nurs 180.
   PDBio 305.
   And an additional 16–20 hours from the university core.

   Note: Students may apply to the baccalaureate program during the semester they are completing prerequisite courses.

4. Students with English as a second language: Take the English Proficiency Examination plus all ESL service courses as recommended by the examination outcome. Successfully complete Nurs 102. The college requires a TOEFL score of at least 580 (paper based) or 237 (computer based) or 92 (IBT).

5. Maintain a C grade or above in all nursing courses, including prerequisite and supporting courses. A grade of C– does not allow advancement to the next course in the sequence.

Note: Notify the college advisement center before dropping or interrupting course work.

Note: Transfer credit older than seven years will not apply to the major without prior approval of the associate dean, undergraduate affairs.

Note: Students may repeat prerequisite courses only one time. More than one repeat may adversely affect admission.

Applicants who meet the above criteria are eligible to be considered for acceptance. Students who have been admitted to BYU must apply for the nursing program through the college advisement center (551 SWKT). Students are accepted fall and winter semesters. Application deadlines and requirements are available online at http://nursing.byu.edu/academics/UnderGrad/advisement.asp. Nursing applicants are required to have a current CPR certification (see advisement center for CPR requirements) and a current first aid certification when applying. Once accepted, students are required to have a physical examination, pass background checks, and submit immunization records to the Nursing Advisement Center. Students are responsible for the cost of these required elements.

Computers are used in all health care facilities; and students are expected to be computer literate when accepted into the College of Nursing.

General Information

The college nursing program is accredited by the Commission on Collegiate Nursing Education.

Clinical Assignments and Transportation.

Educational experiences are located in Utah, Salt Lake, and Davis counties. Didactic courses are taught in Provo. Clinical experiences are in agencies throughout the Wasatch Front. Visits to agencies and client homes are also required. To achieve the best possible clinical education, students will need to travel throughout their course work. Access to a car is highly recommended. Students are responsible for their own transportation. Transcultural rural and international clinical experiences are also available.

This is a limited-enrollment program requiring college admissions approval. Please see the college advisement center office for information regarding requirements for admission to this major.

Program Requirements | View MAP

1. A C grade or above must be maintained in all required courses.

2. Complete the following prerequisite courses:

   CHEM 285 : Introductory Bio-organic Chemistry. (4:4:1)
   OFFERED: F, W, Sp
   PREREQUISITE: Chem 101 or equivalent.
   DESCRIPTION: Principles of organic chemistry and biochemistry relating to biomolecule structure and function.

   NURS 180 : Preview of Nursing. (1:2:0)
   OFFERED: F on block, W on block, Sp
   DESCRIPTION: Development of nursing as a profession; the issues and trends evident throughout nursing history, and their impact on nursing today.

   PDBIO 305 : Human Physiology (with lab). (4:4:2)
   OFFERED: F, W, Sp
   PREREQUISITE: Chem 101 or equivalent.
   RECOMMENDED: A general biology course.
   DESCRIPTION: Function of body organ systems.
   NOTE: Not acceptable for physiology and developmental biology, biophysics, or neuroscience majors. Designed for students with basic chemistry / no molecular biology. Students with chemistry/molecular biology should take PDBio 362.

   Note: Chem 101 or an acceptable score on the Chemistry Placement Exam is prerequisite to Chem 285 if the student has completed no previous chemistry course work.

3. Complete one course from the following prerequisite courses:

   SFL 210 : Human Development. (3:3:0)
   OFFERED: F, W, Sp or Su
   DESCRIPTION: Growth and development of the child from conception through adolescence; influences of family, peers, and schools.
   NOTE: Independent Study also.

   PSYCH 220 : Human Development: Life Span. (3:3:0)
   OFFERED: F, W, Sp, Su
   DESCRIPTION: Interaction of psychological, biological, and social influences on behavior and psychological development through the life span.

4. Be admitted to the program.

5. Complete the following supporting courses:

   MMBIO 221 : General Microbiology. (3:3:0)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: Any chemistry course and any biology course.
   DESCRIPTION: Microbial world, emphasizing communicable diseases, their causes, and control.
   NOTE: Recommended for students seeking a liberal education in microbiology who do not have the prerequisites to take the more advanced courses.

MMBIO 222 : General Microbiology Laboratory. (1:0:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: MMBio 221 or concurrent enrollment.

NDFS 100 : Essentials of Human Nutrition. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: Food-oriented study of nutritional facts and principles as a basis for dietary choices; consequences of choices; scientifically examining controversial topics.

PDBIO 220 : Human Anatomy (with lab). (3:2:2)
OFFERED: F, W, Sp, Su
DESCRIPTION: Structure and function of the human body. Lab included.

PDBIO 365 : Pathophysiology. (4:4:0)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 305 or 362.
DESCRIPTION: Variations in physiological mechanisms that account for development of common disturbances in normal control and activities of body's organs and organ systems.

PSYCH 342 : Abnormal Psychology. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent.
DESCRIPTION: Dynamics of maladjustment; major psychological disorders and therapeutic procedures. Fieldwork required.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

Note: Math 110 (or equivalent) may need to be taken prior to Stat 221.

6. Complete one course from the following:
ANTHR 101 : Social/Cultural Anthropology. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Aspects of society and culture: kinship, beliefs, economy, and political order among peoples worldwide. Methods and perspectives used in social/cultural anthropology.
NOTE: Honors also.

SOC 112 : Current Social Problems. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: Individual deviance (violence, insanity, drugs, sex, crime, etc.) and social disorganization (poverty, race and sex discrimination, divorce, overpopulation, etc.). Conditions, causes, solutions.

SOC 323 : Racial and Minority-Group Relations. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Social psychological and social structural analysis of racial and ethnic relations; prejudice, discrimination, responses, protests, current issues.

7. Complete the following:
NURS 294 : Health Assessment and Promotion. (3:2:2)
OFFERED: F, W
PREREQUISITE: Nursing major status; concurrent enrollment in NDFS 100, MMBio 221, 222, PDBio 220.
DESCRIPTION: Acquiring and applying health assessment knowledge and skills. Health promotion, health maintenance,and therapeutic communication.

NURS 295 : Fundamental Nursing Concepts and Care. (2:1.5:1)
OFFERED: F, W
PREREQUISITE: Nurs 294, Stat 221; concurrent enrollment in Nurs 296, 297, 320.
DESCRIPTION: Acquiring and applying basic nursing skills and concepts; utilizing the nursing process: assessment, diagnosis, planning, implementation, and evaluation. Skills lab included.

NURS 296 : Introduction to Community Health Nursing. (1:2:0)

OFFERED: F, W
PREREQUISITE: Nurs 294, Stat 221; concurrent enrollment in Nurs 295, 297, 320.
DESCRIPTION: Basic community health nursing concepts, emphasizing health of groups.

NURS 297 : Nursing Care of the Older Adult. (3.5:2:4.5)
OFFERED: F, W
PREREQUISITE: Nurs 294, Stat 221; concurrent enrollment in Nurs 295, 296, 320.
DESCRIPTION: Applying assessment, communication, critical thinking, and technical skills to optimize the functional status of older adults through health promotion, risk reduction, and disease prevention strategies.

NURS 300 : Pharmacology in Nursing. (3:3:0)
OFFERED: F, W
PREREQUISITE: Stat 221, Nurs 295, 296, 297, 320; concurrent enrollment in PDBio 365, Nurs 330.
DESCRIPTION: Common categories of drugs: their action, use and desired and undesired effects; implications for nursing care.

NURS 320 : Scholarly Inquiry in Nursing. (3:3:0)
OFFERED: F, W
PREREQUISITE: Nurs 294; Stat 221 or concurrent enrollment; concurrent enrollment in Nurs 295, 296, and 297.
DESCRIPTION: Acquiring knowledge of the research process, identifying clinical problems, evaluating and using evidence, and engaging in advanced writing and oral communication in the discipline.
NOTE: Completion of both Nurs 320 and 339 fulfills GE Advanced Written and Oral Communication.

NURS 330 : Nursing Care of Adults with Acute and Chronic Illnesses. (8:3:14)
OFFERED: F, W
PREREQUISITE: Stat 221, Nurs 295, 296, 297, 320; concurrent enrollment in PDBio 365, Nurs 300.
DESCRIPTION: Care of acutely/chronically ill adults in inpatient settings; professional behavior; illness implications for patients/families; proficiency in technical skills.

NURS 339 : Ethics in Nursing. (2:2:0)
OFFERED: F, W
PREREQUISITE: PDBio 365, Nurs 300, 330; concurrent enrollment in Nurs 340, 360.
DESCRIPTION: Overview of ethical principles and theories, emphasizing role of ethics in nursing; instruction and practice in advanced oral and written communication skills for professional nursing practice.
NOTE: Completion of both Nurs 320 and Nurs 339 fulfills GE Advanced Written and Oral Communication.

NURS 340 : Nursing Care of the Childbearing Family. (4:2.0:6.0)
OFFERED: F, W
PREREQUISITE: PDBio 365, Nurs 300, 330; concurrent enrollment in Nurs 339, 360.
DESCRIPTION: Care of childbearing families from diverse backgrounds. Health promotion, assessment, and interventions related to complicated and uncomplicated pregnancy and birth.

NURS 360 : Nursing Care of the Child-Rearing Family. (4:2.0:6.0)
OFFERED: F, W
PREREQUISITE: PDBio 365, Nurs 300, 330; concurrent enrollment in Nurs 339, 340.
DESCRIPTION: Care of children and their families from diverse backgrounds. Health promotion, disease prevention, care of acute and chronic illness, and growth development.

NURS 400 : Global Health and Human Diversity. (4:1.5:7)
OFFERED: Sp
PREREQUISITE: Nurs 339, 340, 360.
DESCRIPTION: Theory and practice of nursing in diverse populations within a global context. Clinical experiences for some sections include costs for travel, housing, meals, and incidental expenses.

NURS 460 : Psychiactric Nursing. (3.5:2:4.5)
OFFERED: F, W
PREREQUISITE: Nurs 339, 340, 360, Psych 342; concurrent enrollment in Nurs 470.
DESCRIPTION: Nursing care for clients with complex psychiatric disorders.

NURS 470 : Nursing Care of Adults in Crisis. (6.5:3:10.5)
OFFERED: F, W
PREREQUISITE: Nurs 339, 340, 360, Psych 342; concurrent enrollment in Nurs 460.
DESCRIPTION: Nursing intervention for individuals and families in crisis.

NURS 480 : Senior Seminar. (1:2.0:0.0)
OFFERED: F, W

PREREQUISITE: Nurs 460, 470; concurrent enrollment in Nurs 490.
DESCRIPTION: Characteristics of the nursing profession; professional behaviors and values. Review of nursing history.

NURS 489 : Advanced Community Health Nursing. (3:2:3)
PREREQUISITE: Nurs 400, 460, 470; concurrent enrollment in Nurs 480, 490.
DESCRIPTION: Application of community health nursing concepts emphasizing the health of individuals, groups, and families.

NURS 490 : Nursing Capstone. (8:4:18)
OFFERED: F, W
PREREQUISITE: Nurs 460, 470; concurrent enrollment in Nurs 480.
DESCRIPTION: Clinical synthesis experience with focus on planning, delivering, and managing patient care in complex environments. Leadership components incorporated into clinical experiences and practices.

*Hours include courses that may fulfill university core requirements.

Undergraduate Courses

100-Level Courses

NURS 102 : Nursing and Medical Terminology. (2:2:0)
DESCRIPTION: Nursing and medical terminology for prenursing and beginning nursing students or those interested in health occupations.
NOTE: Independent Study also.

NURS 180 : Preview of Nursing. (1:2:0)
OFFERED: F on block, W on block, Sp
DESCRIPTION: Development of nursing as a profession; the issues and trends evident throughout nursing history, and their impact on nursing today.

200-Level Courses

NURS 288 : Family Health Management. (2:2:0)
PREREQUISITE: Non-nursing major status.
DESCRIPTION: Promotion and maintenance of health over the life span, emphasizing current issues affecting family health.

NURS 294 : Health Assessment and Promotion. (3:2:2)
OFFERED: F, W
PREREQUISITE: Nursing major status; concurrent enrollment in NDFS 100, MMBio 221, 222, PDBio 220.
DESCRIPTION: Acquiring and applying health assessment knowledge and skills. Health promotion, health maintenance,and therapeutic communication.

NURS 295 : Fundamental Nursing Concepts and Care. (2:1.5:1)
OFFERED: F, W
PREREQUISITE: Nurs 294, Stat 221; concurrent enrollment in Nurs 296, 297, 320.
DESCRIPTION: Acquiring and applying basic nursing skills and concepts; utilizing the nursing process: assessment, diagnosis, planning, implementation, and evaluation. Skills lab included.

DESCRIPTION: Applying assessment, communication, critical thinking, and technical skills to optimize the functional status of older adults through health promotion, risk reduction, and disease prevention strategies.

300-Level Courses

NURS 300 : Pharmacology in Nursing. (3:3:0)
OFFERED: F, W
PREREQUISITE: Stat 221, Nurs 295, 296, 297, 320; concurrent enrollment in PDBio 365, Nurs 330.
DESCRIPTION: Common categories of drugs: their action, use and desired and undesired effects; implications for nursing care.

NURS 320 : Scholarly Inquiry in Nursing. (3:3:0)
OFFERED: F, W
PREREQUISITE: Nurs 294; Stat 221 or concurrent enrollment; concurrent enrollment in Nurs 295, 296, and 297.
DESCRIPTION: Acquiring knowledge of the research process, identifying clinical problems, evaluating and using evidence, and engaging in advanced writing and oral communication in the discipline.
NOTE: Completion of both Nurs 320 and 339 fulfills GE Advanced Written and Oral Communication.

NURS 330 : Nursing Care of Adults with Acute and Chronic Illnesses. (8:3:14)
OFFERED: F, W
PREREQUISITE: Stat 221, Nurs 295, 296, 297, 320; concurrent enrollment in PDBio 365, Nurs 300.
DESCRIPTION: Care of acutely/chronically ill adults in inpatient settings; professional behavior; illness implications for patients/families; proficiency in technical skills.

NURS 339 : Ethics in Nursing. (2:2:0)
OFFERED: F, W
PREREQUISITE: PDBio 365, Nurs 300, 330; concurrent enrollment in Nurs 340, 360.
DESCRIPTION: Overview of ethical principles and theories, emphasizing role of ethics in nursing; instruction and practice in advanced oral and written communication skills for professional nursing practice.
NOTE: Completion of both Nurs 320 and Nurs 339 fulfills GE Advanced Written and Oral Communication.

NURS 340 : Nursing Care of the Childbearing Family. (4:2.0:6.0)
OFFERED: F, W
PREREQUISITE: PDBio 365, Nurs 300, 330; concurrent enrollment in Nurs 339, 360.
DESCRIPTION: Care of childbearing families from diverse backgrounds. Health promotion, assessment, and interventions related to complicated and uncomplicated pregnancy and birth.

NURS 360 : Nursing Care of the Child-Rearing Family. (4:2.0:6.0)
OFFERED: F, W
PREREQUISITE: PDBio 365, Nurs 300, 330; concurrent enrollment in Nurs 339, 340.
DESCRIPTION: Care of children and their families from diverse backgrounds. Health promotion, disease prevention, care of acute and chronic illness, and growth development.

NURS 390R : Independent Study in the Practice of Nursing. (.5-9:ARR:ARR)
PREREQUISITE: instructor's consent.

NURS 399R : Academic Internship in Nursing Practice. (1-4:Arr:Arr)
OFFERED: F, W, Sp, Su
PREREQUISITE: Nurs 297; departmental approval.
DESCRIPTION: Work experience evaluated by supervisor and posted on student's transcript.

400-Level Courses

NURS 400 : Global Health and Human Diversity. (4:1.5:7)
OFFERED: Sp
PREREQUISITE: Nurs 339, 340, 360.
DESCRIPTION: Theory and practice of nursing in diverse populations within a global context. Clinical experiences for some sections include costs for travel, housing, meals, and incidental expenses.

NURS 460 : Psychiactric Nursing. (3.5:2:4.5)
OFFERED: F, W
PREREQUISITE: Nurs 339, 340, 360, Psych 342; concurrent enrollment in Nurs 470.
DESCRIPTION: Nursing care for clients with complex psychiatric disorders.

NURS 470 : Nursing Care of Adults in Crisis. (6.5:3:10.5)
OFFERED: F, W
PREREQUISITE: Nurs 339, 340, 360, Psych 342; concurrent enrollment in Nurs 460.
DESCRIPTION: Nursing intervention for individuals and families in crisis.

NURS 480 : Senior Seminar. (1:2.0:0.0)
OFFERED: F, W
PREREQUISITE: Nurs 460, 470; concurrent enrollment in Nurs 490.
DESCRIPTION: Characteristics of the nursing profession; professional behaviors and values. Review of nursing history.

NURS 489 : Advanced Community Health Nursing. (3:2:3)
PREREQUISITE: Nurs 400, 460, 470; concurrent enrollment in Nurs 480, 490.
DESCRIPTION: Application of community health nursing concepts emphasizing the health of individuals, groups, and families.

NURS 490 : Nursing Capstone. (8:4:18)
OFFERED: F, W
PREREQUISITE: Nurs 460, 470; concurrent enrollment in Nurs 480.
DESCRIPTION: Clinical synthesis experience with focus on planning, delivering, and managing patient care in complex environments. Leadership components incorporated into clinical experiences and practices.

NURS 499R : Honors Thesis. (.5-3:0:0)
DESCRIPTION: Honors thesis preparation.

500-Level Graduate Courses (available to advanced undergraduates)

NURS 555 : Pharmacology in Advanced Practice. (3:3:0)
OFFERED: W
DESCRIPTION: Principles of pharmacology and drug therapy for advanced practice nurses.

NURS 590R : Independent Study. (.5-4:ARR:ARR)
PREREQUISITE: instructor's consent.
DESCRIPTION: Individualized study.

Nursing Faculty

Professors

Callister, Lynn Clark

COLLEGE: Nursing
RANK: Professor
DEGREES: BS, Brigham Young University, 1964
MN, Wichita State University, 1988
PhD, University of Utah, 1993

Cole, Beth V.

COLLEGE: Nursing
RANK: Professor
DEGREES: BSN, University of Cincinnati, 1965
MS, Boston University, 1967
PhD, Brigham Young University, 1978

Mandleco, Barbara L

COLLEGE: Nursing
RANK: Professor
DEGREES: BSN, University of Wisconsin, Madison, 1967
MN, University of Florida, 1968
PhD, Brigham Young University, 1991

Associate Professors

Beckstrand, Renea L

COLLEGE: Nursing
RANK: Associate Professor
DEGREES: AS, Ricks College, 1979
AS, Brigham Young University, 1981
BS, Brigham Young University, 1983
MS, Brigham Young University, 1987
PhD, University of Utah, 2001

Berry, Judith Gould

COLLEGE: Nursing
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1969
MS, Catholic University of America, 1984
PhD, Rush University, 2006

Coverston, Catherine

COLLEGE: Nursing
RANK: Associate Professor
DEGREES: AS, Brigham Young University, 1969
BS, University of the State of New York, Albany, 1987
MS, Medical College of Georgia, 1989
PhD, University of Utah, 2001

Memmott, Rae Jeanne

COLLEGE: Nursing
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1965
MS, University of Colorado, 1967

Ravert, Patricia (Patty) Kay

COLLEGE: Nursing
RANK: Associate Professor
DEGREES: AS, Brigham Young University, 1974
BS, Brigham Young University, 1975
MS, Brigham Young University, 1994
PhD, University of Utah, 2004

Rushton, Patricia

COLLEGE: Nursing
RANK: Associate Professor
DEGREES: BS, University of Utah, 1971
MS, Brigham Young University, 1977
PhD, Brigham Young University, 1989

Williams, Mary

COLLEGE: Nursing
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1971
MS, University of Utah, 1980
PhD, University of Arizona, 1991

Assistant Professors

Birkhead, Ana

COLLEGE: Nursing
RANK: Assistant Professor
DEGREES: BS, University of Phoenix, 1997
MS, University of Phoenix, 1999
PhD, University of California, 2007

Dearing, Karen S

COLLEGE: Nursing
RANK: Assistant Professor
DEGREES: AD, Weber State College, 1975
BS, University of Utah, 1976
MS, University of Utah, 1978
PhD, University of Utah, 2003

Freeborn, Donna Susan

COLLEGE: Nursing
RANK: Assistant Professor
DEGREES: AS, Brigham Young University, 1974
BS, Chapman University, 1983
MS, University of California, Los Angeles, 1994

ENGL 362 : American Literature from the Late Nineteenth to the Early Twentieth Century (3:3:0)
OFFERED: F, W; Independent Study also.
PREREQUISITE: Engl 251 or 252; 293.
DESCRIPTION: Major and selected minor writers and literary trends from the late nineteenth century through naturalism.

ENGL 363 : American Literature from the Early to Mid--Twentieth Century (3:3:0)
OFFERED: F, W, Sp; Independent Study also.
PREREQUISITE: Engl 251 or 252; 293.
DESCRIPTION: Major and selected minor writers and literary trends from the first half of the twentieth century through modernism.

ENGL 366 : Studies in Poetry. (3:3:0)
OFFERED: W; Independent Study also.
PREREQUISITE: Engl 251 or 252.
DESCRIPTION: Topics vary.

ENGL 374 : English Literature from 1780 to 1832: The Romantic Period. (3:3:0)
OFFERED: F, W; Independent Study also.
PREREQUISITE: Engl 251 or 252; 292.
DESCRIPTION: Includes writings of Blake, Wordsworth, Coleridge, Byron, Shelley, Keats, and their contemporaries.

ENGL 382 : Shakespeare. (3:3:0)
OFFERED: F, W, Sp, Su; Independent Study also.
PREREQUISITE: Engl 251 or 252; 291.
DESCRIPTION: Intensive reading, discussion, and (in some sections) viewing of plays from the comedy, tragedy, romance, and history genres.
NOTE: For English majors and minors.

ENGL 385 : English Literature 1603-1660: The Late Renaissance Period. (3:3:0)
OFFERED: F
PREREQUISITE: Engl 251 or 252; 291.
DESCRIPTION: English drama, poetry, and prose of the Stuart period.

ENGL 395R : Studies in Literature. (3:3:0)
PREREQUISITE: Engl 251.
DESCRIPTION: Topics vary.
NOTE: Independent Study also.

(section 1)
ENGL 420 : Literature for Adolescents. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Engl 251 or 252.
DESCRIPTION: Wide range of literature written for or read by teenagers.

BYU undergraduate campus courses (including Salt Lake Center courses) as follows:

Any English courses dealing with English and American literature may also be used to satisfy emphasis elective requirements.

4. Complete the following as the last course in the emphasis:
ENGL 495 : The Senior Course. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Senior status; English major status.
DESCRIPTION: In-depth study of a limited area of literature, language, or criticism. Content varies; requires research and writing.

(section 3)

5. Complete the following capstone course:
STDEV 490 : Bachelor of General Studies Capstone. (2:2:0)
OFFERED: Independent Study only.
PREREQUISITE: StDev 100; completion of all other BGS program requirements.
DESCRIPTION: Culminating course required for bachelor of general studies degree: analyze and evaluate BGS experience in light of the "Aims of a BYU Education" and summarize this experience in a reflective paper, integrate material learned in emphasis by completing a scholarly essay, and demonstrate

Heise, Barbara A

Organizational Behavior (Org B)

Show All Course Descriptions
Hide All Course Descriptions

Undergraduate Courses

300-Level Courses

ORG B 320 : Organizational Effectiveness. (3:Arr:2)
OFFERED: F, W, Sp, Su; Independent Study also.
DESCRIPTION: Theories and concepts for creating effective organizations, e.g., individual, group, and organizational processes and human resource functions, including selection, compensation, and performance management.
NOTE: Taught online.

ORG B 321 : Organizational Effectiveness. (3:2:2)
OFFERED: F, W, Su
PREREQUISITE: For Marriott School of Management majors only.
DESCRIPTION: Theories and concepts for creating effective organizations, e.g., individual, group, and organizational processes and human resource functions, including selection, compensation, and performance management.

ORG B 327 : Human Resource Management. (3:3:0)
OFFERED: F, W; Independent Study also.
DESCRIPTION: Functions of human resource management: employee selection, wage and salary administration, training and development, employee relations, and human resource planning.

ORG B 330 : Organizational Development and Change. (3:3:0)
OFFERED: W
DESCRIPTION: Macro topics in organizational behavior, including organizational structure, culture, design, change management, strategic implementation, and HR training and development.

ORG B 347 : Managerial Leadership Development. (3:3:0)
OFFERED: F, W, Sp, Su; Independent Study also.
DESCRIPTION: Principles and practices needed to serve as effective leaders in families, church, community, and work settings -- planning, decision making, self-awareness, effective human influence, and community building.

400-Level Courses

ORG B 400 : Business Ethics. (2:2:0)
DESCRIPTION: Moral leadership, character development, and multiple perspectives for making ethical decisions in organizations.
NOTE: Independent Study also.

ORG B 428 : Talent Management. (3:3:0)
OFFERED: W
DESCRIPTION: Topics related to managing highly skilled employees: succession planning, attracting and retaining employees, employment brand, labor market competition, executive recruiting and talent metrics.

ORG B 429 : Compensation, Benefits, and Performance Management. (3:3:0)
OFFERED: W
DESCRIPTION: Wage and salary administration, incentives, employee benefits, grievance and discipline systems, performance appraisal.

ORG B 431 : International Human Resources. (3:3:0)
OFFERED: F
PREREQUISITE: Admittance to organizational behavior/human resource management emphasis.
DESCRIPTION: International policies and practices in organizational behavior and human resource management.

ORG B 490R : Professional Development Seminar. (.5-3:ARR:0)
DESCRIPTION: Special topics in organizational behavior. Course content varies from year to year.

Physiology and Developmental Biology

James P. Porter, Chair
574 WIDB, (801) 422-2006

Life Sciences Student Services
379 WIDB, (801) 422-3042

Admission to Degree Program

All degree programs in the Department of Physiology and Developmental Biology are open enrollment.

The Discipline

Physiology is the study of the *functions* of the body systems. Developmental biology is the study of how specific genes govern differentiation of cells, tissues, and organs with unique structure and functions. Both disciplines require a firm foundation of mathematics, chemistry, physics, and cellular biology. The related area of biophysics uses the methods of physics, chemistry, mathematics, and biology to investigate the *physical* basis of life.

Upper-division courses require synthesizing and integrating information from many areas of science to allow understanding of such remarkable processes as how the heart pumps blood, how neurons communicate with one another, how insulin regulates blood sugar, and how specific gene products determine the morphology and functional capacity of the nervous system. Knowledge in these areas is expanding rapidly as new techniques are applied in molecular biology. Hence, significant exposure to the concepts and techniques of molecular biology is an important component of the major.

Career Opportunities

A major in physiology and developmental biology prepares students to pursue advanced degrees in either the biological sciences or nonbiological fields or to enter directly into employment. This major provides outstanding preparation for students seeking admittance into professional programs in medicine, dentistry, optometry, podiatry, chiropractic, or pharmacy. Students who have aspirations of doing health-related research will find a challenging, thorough preparation for entrance into graduate programs and beyond. Graduates of the program will also have the academic and laboratory skills necessary for employment in medical, biotechnological, and pharmaceutical industries. This degree offers students pursuing advanced degrees in business, public management, or law the knowledge and training necessary to be admitted into professional schools and work in governmental agencies, health care and biotechnical industries, and patent or health care law.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Majors

BS in Biophysics
BS in Physiology and Developmental Biology

Students should see the Life Sciences Student Services for help or information concerning the undergraduate programs.

Note: For the neuroscience program, see the Neuroscience Center section.

Graduate Programs and Degrees

MS and PhD degrees are offered. For information see the BYU 2008–2009 Graduate Catalog and the Web page for the College of Life Sciences.

Program Requirements | View MAP

1. Complete the following life sciences core courses:

BIO 420 : Evolutionary Biology. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: MMBio 240, PSW 340.
DESCRIPTION: Intensive examination of evolution as the conceptual cornerstone of biology.

MMBIO 240 : Molecular Biology. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 120, Chem 105.
DESCRIPTION: Fundamentals of protein and nucleic acid structure and their function in the context of the classical experiments that have informed our current models of biology at the molecular level.

MMBIO 241 : Molecular and Cellular Biology Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: MMBio 240 or concurrent enrollment.
DESCRIPTION: Molecular and cellular biology techniques laboratory.

PDBIO 120 : Science of Biology. (2:2:1)
OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: General biology course designed for biological science majors, emphasizing the scientific method, cell theory, biochemical unity, the Central Dogma, bioenergetics, reproduction, and evolutionary theory.

PDBIO 360 : Cell Biology. (3:3:1)
OFFERED: F, W
PREREQUISITE: MMBio 240.
DESCRIPTION: Fundamentals of cell structure and function with reference to analytical methods used by cell biologists. Practice in designing, executing, and interpreting relative experiments.

PWS 340 : Genetics. (2:2:1)
OFFERED: F, W, Su
PREREQUISITE: MMBio 240.
DESCRIPTION: Genetic mechanisms, their fundamental nature, interactions, and applications to human affairs. Genetics in quantitative terms. Extensive practice in problem solving.

2. Complete the following chemistry courses:

CHEM 105 : General College Chemistry. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energectics, electrochemistry, acids and bases, inorganic and organic chemistry.
NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

CHEM 106 : General College Chemistry. (3:4:0)
OFFERED: F, W, Su
PREREQUISITE: Chem 105 or equivalent.
DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.

NOTE: Three lectures and one recitation section per week.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 106 or concurrent enrollment.
DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.
NOTE: Required for most students needing one year of general chemistry.

CHEM 351 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105, 111; or equivalents.
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: Primarily for majors in chemical engineering and the biological sciences.

CHEM 352 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 351 or equivalent.
DESCRIPTION: Continuation of Chem 351.

CHEM 353 : Organic Chemistry Laboratory--Nonmajors. (1-2:0:6)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 352 or concurrent enrollment (preferred).
DESCRIPTION: Physical and chemical properties, isolation and purification, characterization, syntheses.
NOTE: For predentistry, premedicine, and other majors who do not intend to take Chem 455.

(1 hour required)
CHEM 462 : Physical Chemistry. (3:3:0)
OFFERED: F, W
PREREQUISITE: Chem 227 or ChEn 263; Phscs 123 or concurrent enrollment.
DESCRIPTION: Quantum mechanics, group theory, atomic and molecular structure, spectroscopy, computational methods, statistical mechanics.
NOTE: May be taken before or after Chem 461.

CHEM 481 : Biochemistry 1. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Chem 352; Biol 100 or equivalent.
DESCRIPTION: First-semester biochemistry. Molecular components of cells, chemical structure and function, enzymes, metabolic transformations, photosynthesis.
NOTE: For chemistry majors and students in biological sciences who contemplate pursuing advanced degrees, including medicine.

3. Complete one course from the following:

CHEM 461 : Physical Chemistry. (3:3:0)
OFFERED: F, W
PREREQUISITE: Chem 227 or ChEn 263 or equivalent; Phscs 123 or concurrent enrollment.
RECOMMENDED: Math 302.
DESCRIPTION: Thermodynamics and equilibria, states of matter, kinetic-molecular theory, kinetics.
NOTE: May be taken before or after Chem 462.

CHEM 468 : Biophysical Chemistry. (3:3:0)
OFFERED: W
PREREQUISITE: Chem 462; 481 or concurrent enrollment.
DESCRIPTION: Applications of physical chemistry to biological systems. Thermodynamics, equilibria, transport properties, kinetics, spectroscopic applications, computational methods, structural biochemistry.

4. Complete the following:

MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

MATH 113 : Calculus 2. (4:5:0)
OFFERED: F, W, Sp, Su

PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
NOTE: Honors also.

PHSCS 121 : Principles of Physics 1. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Calculus or concurrent enrollment.
DESCRIPTION: Newtonian mechanics. Weekly lab.

PHSCS 123 : Principles of Physics 2. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121.
DESCRIPTION: Waves, thermal physics, optics, special relativity, and introduction to modern physics. Weekly lab.

PHSCS 140 : Electronics Lab. (1:1:2)
OFFERED: F, Sp
DESCRIPTION: Introduction to analog and digital circuits.

PHSCS 220 : Principles of Physics 3. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121 or equivalent; Math 113 or equivalent.
DESCRIPTION: Electricity and magnetism. Weekly lab.

5. Complete the following major core courses:
PDBIO 362 : Advanced Physiology. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Biol 240; Phscs 106 or 220.
DESCRIPTION: Integrated approach to organ system and cellular physiology. Problem solving/calculations.
NOTE: Requires background in chemistry and molecular biology. Students without this background should take PDBio 305.

PDBIO 363 : Advanced Physiology Laboratory. (1:0.5:1.5)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 362 or concurrent enrollment; or instructor's consent.
DESCRIPTION: Experiments and exercises in advanced physiology emphasizing human physiology. Computer simulations of muscle function, endocrine disease, and human physiology. Emphasizes problem solving and calculations.

PDBIO 455R : Physiology and Developmental Biology Seminar. (.5:1:0)
OFFERED: F, W
DESCRIPTION: Seminar (research) presentations for undergraduates in physiology and developmental biology.

6. Complete the following capstone course:
PDBIO 568 : Cellular Electrophysiology and Biophysics. (3:2:3)
OFFERED: F
PREREQUISITE: PDBio 362, Phscs 140, 220; or instructor's consent.
DESCRIPTION: Using electrophysiology and biophysics as an approach to study of physiology. Extensive look at ion channels and cell signaling.

7. Complete 9 hours from the following. At least 4 hours must come from the mentored experience and at least 3 hours from electives.
a. Mentored laboratory experience (must be in an approved biophysics lab):
PDBIO 494R : Undergraduate Research in Physiology and Developmental Biology. (1-4:ARR:ARR)
OFFERED: F, W, Sp Su
DESCRIPTION: Basic (entry level) research laboratory experience for students interested in physiology and developmental biology.

PDBIO 495R : Advanced Undergraduate Research in Physiology and Developmental Biology. (1-4:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: 2 credit hours of PDBio 494R.
DESCRIPTION: Senior level research laboratory experience for majors in physiology and developmental biology.

b. Electives
CHEM 223 : Quantitative and Qualitative Analysis. (4:2:6)
OFFERED: F, Sp
PREREQUISITE: Chem 106 or equivalent.

DESCRIPTION: Principles of chemical equilibrium, quantitative chemical measurements, and qualitative detection of selected chemical species.
NOTE: Primarily for majors in molecular biology and the life sciences.

CHEM 227 : Introductory Analytical Chemistry. (4:2:6)
OFFERED: F, Sp
PREREQUISITE: Chem 113.
DESCRIPTION: Principles of quantitative analysis, introductory instrumental methods, and computer applications to chemical analysis.

CHEM 482 : Biochemistry 2. (3:3:0)
OFFERED: W, Sp
PREREQUISITE: Biol 360; Chem 481 or equivalent.
DESCRIPTION: Second-semester biochemistry. Nucleic acid biochemistry and molecular biology: nucleotide metabolism, chromosome and chromatin structure, DNA structure and replication, RNA transcription and gene expression, protein synthesis and regulation, eukaryotic gene systems, signal transduction.

CHEM 489 : Structural Biochemistry. (3:3:0)
OFFERED: On demand.
PREREQUISITE: Chem 481 or equivalent.
DESCRIPTION: Molecular structures of proteins, RNA and DNA as determinants of biological function. Topics include thermodynamics of folding and binding, structural determination, spectroscopy, modeling, protein recognition.

CHEM 581 : Advanced Biochemical Methodology 1. (3:3:0)
OFFERED: F
PREREQUISITE: Chem 482 or equivalent.
DESCRIPTION: Physical methods used in biochemical research, including centrifugation, structural determinations, and use of radioactivity and spectroscopy.
NOTE: First of two required courses for biochemistry graduate students.

CHEM 583 : Advanced Biochemical Methodology 2. (3:3:0)
OFFERED: W
PREREQUISITE: Chem 482 or equivalent.
DESCRIPTION: Molecular biological methods used in biochemistry, including immunotechniques, bioinformatics, and selected recombinant DNA techniques.
NOTE: Second of two required courses for biochemistry graduate students.

CHEM 584 : Biochemistry Laboratory/Proteins. (3:1:2)
OFFERED: F, W
PREREQUISITE: Chem 481 or equivalent.
DESCRIPTION: Introduction to current biochemical research procedures including spectrophotometry, chromatography, electrophoresis, and immunological techniques. Protein over-expression; isolation and characterization methods. Enzyme kinetics and protein-ligand interactions. Introduction to bioinformatics.

CHEM 586 : Biochemistry Laboratory/Nucleic Acids. (3:1:2)
OFFERED: F, W
PREREQUISITE: Chem 482 or equivalent.
DESCRIPTION: Laboratory course covering major techniques involved in isolation, amplification, and cloning of recombinant DNA as well as isolation, synthesis, translation, and identification of RNA.

EC EN 301 : Elements of Electrical Engineering. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 220; Math 303 or 334.
DESCRIPTION: Linear electric circuits, computer organization, and logic circuits for nonmajors.
NOTE: Fee.

MMBIO 430 : Advanced Cell Biology. (3:3:0)
OFFERED: F
PREREQUISITE: PDBio 360; bioscience major status.
DESCRIPTION: Molecular genetics, cell biology, and developmental biology.

MMBIO 441 : Advanced Molecular Biology. (3:3:0)
OFFERED: W
PREREQUISITE: MMBio 240, Chem 352.
DESCRIPTION: Molecular biology of gene structure and expression in prokaryotic and eukaryotic organisms.

MMBIO 442 : Advanced Molecular Biology Laboratory. (2:0:6)
OFFERED: W
PREREQUISITE: MMBio 241; MMBio 441 or concurrent enrollment.
DESCRIPTION: Laboratory to accompany MMBio 441.

NEURO 480 : Advanced Neuroscience. (3:3:0)
OFFERED: F, W
PREREQUISITE: Neuro 205, Biol 360; neuroscience majors only.
DESCRIPTION: Principles of neural science. Structure-function relationships and integration of the nervous system.

PDBIO 325 : Tissue Biology (with lab). (3:2:3)
OFFERED: F, W
PREREQUISITE: Biol 120.
DESCRIPTION: Human anatomy and histology; function of cells in tissue; early stages of embryology.

PDBIO 365 : Pathophysiology. (4:4:0)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 305 or 362.
DESCRIPTION: Variations in physiological mechanisms that account for development of common disturbances in normal control and activities of body's organs and organ systems.

PDBIO 450R : Topics in Physiology and Developmental Biology. (1-3:ARR:ARR)
OFFERED: F, W, Sp, Su
DESCRIPTION: Topics vary.

: Clinical Pharmacology.
: Herbal Pharmacology.
: Protein Expression in Bacteria.
: Techniques in Embryology.

PDBIO 482 : Developmental Biology. (3:3:1)
OFFERED: F, W
PREREQUISITE: Biol 240, 241, 360.
RECOMMENDED: PDBio 225.
DESCRIPTION: Invertebrate and vertebrate developmental biology. Embryonic gastrulation, neurulation, pattering, etc. Modern approaches and research strategies. Emphasizes gene function, cell signaling, signal transduction during embryogenesis.

PDBIO 484 : Human Embryology. (3:3:0)
OFFERED: F
PREREQUISITE: Biol 360 or equivalent.
RECOMMENDED: PDBio 225.
DESCRIPTION: Developmental milestones of prenatal life: etiology of congenital malformations, emphasizing molecular and cellular changes and their functional consequences.

PDBIO 561 : Physiology of Drug Mechanisms. (3:2:3)
OFFERED: F
PREREQUISITE: PDBio 352 or instructor's consent.
DESCRIPTION: Overview of physiological and pharmacological mechanisms and principles of human therapeutics as applied to clinically significant pathophysiology.

PDBIO 565 : Endocrinology. (3:3:0)
OFFERED: W
PREREQUISITE: PDBio 362 or instructor's consent.
DESCRIPTION: Mammalian hormones.

PHSCS 145 : Experimental Methods in Physics. (1:0:3)
OFFERED: W, Su
PREREQUISITE: Phscs 121, 140.
DESCRIPTION: Introduction to physical measurement and analysis, optics, sensors, actuators, and computer-based data acquisition.

PHSCS 230 : Computational Physics Lab 1. (1:0:3)
OFFERED: F, W
PREREQUISITE: Phscs 220 or concurrent enrollment.
DESCRIPTION: Numerical and symbolic differentiation, integration, and differential equations, using Maple.

Applications in mechanics, optics, and special relativity.

PHSCS 240 : Design, Fabrication, and Use of Scientific Apparatus. (2:0:6)
OFFERED: F, Sp
PREREQUISITE: Phscs 123, 145.
DESCRIPTION: Machining, computer interfacing, controls, and vacuum systems.

*Hours include courses that may fulfill university core requirements.

1. Complete the following life sciences core courses:

BIO 420 : Evolutionary Biology. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: MMBio 240, PSW 340.
DESCRIPTION: Intensive examination of evolution as the conceptual cornerstone of biology.

MMBIO 240 : Molecular Biology. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 120, Chem 105.
DESCRIPTION: Fundamentals of protein and nucleic acid structure and their function in the context of the classical experiments that have informed our current models of biology at the molecular level.

MMBIO 241 : Molecular and Cellular Biology Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: MMBio 240 or concurrent enrollment.
DESCRIPTION: Molecular and cellular biology techniques laboratory.

PDBIO 120 : Science of Biology. (2:2:1)
OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: General biology course designed for biological science majors, emphasizing the scientific method, cell theory, biochemical unity, the Central Dogma, bioenergetics, reproduction, and evolutionary theory.

PDBIO 360 : Cell Biology. (3:3:1)
OFFERED: F, W
PREREQUISITE: MMBio 240.
DESCRIPTION: Fundamentals of cell structure and function with reference to analytical methods used by cell biologists. Practice in designing, executing, and interpreting relative experiments.

PWS 340 : Genetics. (2:2:1)
OFFERED: F, W, Su
PREREQUISITE: MMBio 240.
DESCRIPTION: Genetic mechanisms, their fundamental nature, interactions, and applications to human affairs. Genetics in quantitative terms. Extensive practice in problem solving.

2. Complete the following chemistry and physics courses:

CHEM 105 : General College Chemistry. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energectics, electrochemistry, acids and bases, inorganic and organic chemistry.
NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

CHEM 106 : General College Chemistry. (3:4:0)
OFFERED: F, W, Su
PREREQUISITE: Chem 105 or equivalent.
DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.

NOTE: Three lectures and one recitation section per week.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 106 or concurrent enrollment.
DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.
NOTE: Required for most students needing one year of general chemistry.

CHEM 351 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105, 111; or equivalents.
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: Primarily for majors in chemical engineering and the biological sciences.

CHEM 352 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 351 or equivalent.
DESCRIPTION: Continuation of Chem 351.

CHEM 481 : Biochemistry 1. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Chem 352; Biol 100 or equivalent.
DESCRIPTION: First-semester biochemistry. Molecular components of cells, chemical structure and function, enzymes, metabolic transformations, photosynthesis.
NOTE: For chemistry majors and students in biological sciences who contemplate pursuing advanced degrees, including medicine.

PHSCS 105 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: High school algebra and trigonometry.
RECOMMENDED: Concurrent enrollment in Phscs 107.
DESCRIPTION: Applied physics course not requiring calculus. Topics include mechanics, heat, wave motion, sound.

PHSCS 106 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Phscs 105 or equivalent.
RECOMMENDED: Concurrent enrollment in Phscs 108.
DESCRIPTION: Continuation of Phscs 105. Topics include electricity and magnetism, atomic and nuclear physics, and optics.

3. Complete the following major core courses:

PDBIO 220 : Human Anatomy (with lab). (3:2:2)
OFFERED: F, W, Sp, Su
DESCRIPTION: Structure and function of the human body. Lab included.

PDBIO 325 : Tissue Biology (with lab). (3:2:3)
OFFERED: F, W
PREREQUISITE: Biol 120.
DESCRIPTION: Human anatomy and histology; function of cells in tissue; early stages of embryology.

PDBIO 362 : Advanced Physiology. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Biol 240; Phscs 106 or 220.
DESCRIPTION: Integrated approach to organ system and cellular physiology. Problem solving/calculations.
NOTE: Requires background in chemistry and molecular biology. Students without this background should take PDBio 305.

PDBIO 363 : Advanced Physiology Laboratory. (1:0.5:1.5)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 362 or concurrent enrollment; or instructor's consent.
DESCRIPTION: Experiments and exercises in advanced physiology emphasizing human physiology. Computer simulations of muscle function, endocrine disease, and human physiology. Emphasizes problem solving and calculations.

PDBIO 455R : Physiology and Developmental Biology Seminar. (.5:1:0)

OFFERED: F, W
DESCRIPTION: Seminar (research) presentations for undergraduates in physiology and developmental biology.

PDBIO 482 : Developmental Biology. (3:3:1)
OFFERED: F, W
PREREQUISITE: Biol 240, 241, 360.
RECOMMENDED: PDBio 225.
DESCRIPTION: Invertebrate and vertebrate developmental biology. Embryonic gastrulation, neurulation, pattering, etc. Modern approaches and research strategies. Emphasizes gene function, cell signaling, signal transduction during embryogenesis.

4. Complete one course from the following:

PDBIO 365 : Pathophysiology. (4:4:0)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 305 or 362.
DESCRIPTION: Variations in physiological mechanisms that account for development of common disturbances in normal control and activities of body's organs and organ systems.

PDBIO 484 : Human Embryology. (3:3:0)
OFFERED: F
PREREQUISITE: Biol 360 or equivalent.
RECOMMENDED: PDBio 225.
DESCRIPTION: Developmental milestones of prenatal life: etiology of congenital malformations, emphasizing molecular and cellular changes and their functional consequences.

5. Complete one course from the following advanced molecular courses:

CHEM 482 : Biochemistry 2. (3:3:0)
OFFERED: W, Sp
PREREQUISITE: Biol 360; Chem 481 or equivalent.
DESCRIPTION: Second-semester biochemistry. Nucleic acid biochemistry and molecular biology: nucleotide metabolism, chromosome and chromatin structure, DNA structure and replication, RNA transcription and gene expression, protein synthesis and regulation, eukaryotic gene systems, signal transduction.

CHEM 489 : Structural Biochemistry. (3:3:0)
OFFERED: On demand.
PREREQUISITE: Chem 481 or equivalent.
DESCRIPTION: Molecular structures of proteins, RNA and DNA as determinants of biological function. Topics include thermodynamics of folding and binding, structural determination, spectroscopy, modeling, protein recognition.

MMBIO 430 : Advanced Cell Biology. (3:3:0)
OFFERED: F
PREREQUISITE: PDBio 360; bioscience major status.
DESCRIPTION: Molecular genetics, cell biology, and developmental biology.

MMBIO 441 : Advanced Molecular Biology. (3:3:0)
OFFERED: W
PREREQUISITE: MMBio 240, Chem 352.
DESCRIPTION: Molecular biology of gene structure and expression in prokaryotic and eukaryotic organisms.

6. Complete one course from the following capstone courses:

NEURO 480 : Advanced Neuroscience. (3:3:0)
OFFERED: F, W
PREREQUISITE: Neuro 205, Biol 360; neuroscience majors only.
DESCRIPTION: Principles of neural science. Structure-function relationships and integration of the nervous system.

PDBIO 561 : Physiology of Drug Mechanisms. (3:2:3)
OFFERED: F
PREREQUISITE: PDBio 352 or instructor's consent.
DESCRIPTION: Overview of physiological and pharmacological mechanisms and principles of human therapeutics as applied to clinically significant pathophysiology.

PDBIO 562 : Reproductive Physiology. (3:3:0)
OFFERED: F
PREREQUISITE: PDBio 362 or equivalent.
RECOMMENDED: Chem 481, PDBio 482; or equivalents.

BGS in General Studies: Family History Emphasis (33 hours*)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements | View MAP

1. Complete the following prerequisite course:
   STDEV 100 : Essential College Skills. (1:1:0)
   OFFERED: F, W, Sp, Su
   DESCRIPTION: Developing essential college skills. Aims of BYU, values and goals, sound thinking skills. Learning styles and adjustment to college courses. College requirements and planning.
   NOTE: Independent Study also.

2. In consultation with a BGS advisor, select a geographic area of interest (i.e., United States, New England, Latin America, British Isles, Europe, etc.) and select options that correspond to that area.

3. Recommended foundational course (may count toward religion credits):
   REL C 261 : Introduction to Family History (Genealogy). (2:2:0)
   OFFERED: F, W, Sp, Su
   DESCRIPTION: Introduction to the doctrinal significance, necessary skills, and available resources dealing with family history and genealogy.
   NOTE: Honors also.

4. Complete the following introductory course:
   HIST 400 : The Family and the Law in American History. (3:3:0)
   OFFERED: F, W
   DESCRIPTION: The interaction of families with law and government as illustrated in original American sources; individual family histories reconstructed in the broader perspective of history.

5. Complete two of the following area source courses:
   HIST 403 : U.S. - Midwest Family History Research. (3:3:0)
   OFFERED: F
   DESCRIPTION: In-depth examination of sources and problem solving in Midwestern states research.

   HIST 404 : U.S. - Southern States Family History Research. (3:3:0)
   OFFERED: F
   DESCRIPTION: In-depth examination of sources and problem solving in Southern states research.

   HIST 409R : Germanic Family History Research. (3:3:0)
   OFFERED: W
   DESCRIPTION: In-depth examination of sources and problem solving in various Germanic-speaking countries.

   (section 1)
   HIST 411R : Latin American Family History Research. (3:3:0)
   OFFERED: W
   DESCRIPTION: Records, geo-historical background, paleography, and methods for reconstruction of individual families; development of demographic and family history studies in Latin America and Spanish United States.

   HIST 413 : England/Wales Since 1700 Family History Research. (3:3:0)
   OFFERED: F
   DESCRIPTION: In-depth examination of sources and problem solving in England and Wales since 1700.

   HIST 414 : Scottish Family History Research. (3:3:0)
   DESCRIPTION: In-depth examination of sources and problem solving in Scotland.

DESCRIPTION: Mammalian reproductive physiology.

PDBIO 565 : Endocrinology. (3:3:0)
OFFERED: W
PREREQUISITE: PDBio 362 or instructor's consent.
DESCRIPTION: Mammalian hormones.

PDBIO 568 : Cellular Electrophysiology and Biophysics. (3:2:3)
OFFERED: F
PREREQUISITE: PDBio 362, Phscs 140, 220; or instructor's consent.
DESCRIPTION: Using electrophysiology and biophysics as an approach to study of physiology. Extensive look at ion channels and cell signaling.

PDBIO 582 : Developmental Genetics. (3:3:0)
OFFERED: W
PREREQUISITE: PDBio 482 or equivalent.
DESCRIPTION: Gene function and regulation during cell specification and differentiation, pattern formation, and organogenesis in developing embryo.

7. Complete 6.5 hours from the following courses, including at least 1 hour from the mentored experience list and at least 2 hours from the advanced laboratory requirement list.
   a. Mentored experience:

PDBIO 349R : Physiology and Developmental Biology Teaching Seminar. (1-3:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: B or above in the specific physiology and developmental biology course; instructor's consent.
DESCRIPTION: Undergraduate students teaching small help sections for lecture portion of physiology and developomental biology courses or helping to teach departmental student laboratory.

PDBIO 494R : Undergraduate Research in Physiology and Developmental Biology. (1-4:ARR:ARR)
OFFERED: F, W, Sp Su
DESCRIPTION: Basic (entry level) research laboratory experience for students interested in physiology and developmental biology.

PDBIO 550R : Advanced Topics in Physiology and Developmental Biology. (.5-4:ARR:ARR)
OFFERED: On demand.
PREREQUISITE: Instructor's consent.
DESCRIPTION: Close interaction between small groups of students and instructor on topics in physiology, developmental biology, or biophysics.

   b. Advanced laboratory experience:

CHEM 581 : Advanced Biochemical Methodology 1. (3:3:0)
OFFERED: F
PREREQUISITE: Chem 482 or equivalent.
DESCRIPTION: Physical methods used in biochemical research, including centrifugation, structural determinations, and use of radioactivity and spectroscopy.
NOTE: First of two required courses for biochemistry graduate students.

CHEM 583 : Advanced Biochemical Methodology 2. (3:3:0)
OFFERED: W
PREREQUISITE: Chem 482 or equivalent.
DESCRIPTION: Molecular biological methods used in biochemistry, including immunotechniques, bioinformatics, and selected recombinant DNA techniques.
NOTE: Second of two required courses for biochemistry graduate students.

CHEM 584 : Biochemistry Laboratory/Proteins. (3:1:2)
OFFERED: F, W
PREREQUISITE: Chem 481 or equivalent.
DESCRIPTION: Introduction to current biochemical research procedures including spectrophotometry, chromatography, electrophoresis, and immunological techniques. Protein over-expression; isolation and characterization methods. Enzyme kinetics and protein-ligand interactions. Introduction to bioinformatics.

CHEM 586 : Biochemistry Laboratory/Nucleic Acids. (3:1:2)
OFFERED: F, W
PREREQUISITE: Chem 482 or equivalent.
DESCRIPTION: Laboratory course covering major techniques involved in isolation, amplification, and cloning of recombinant DNA as well as isolation, synthesis, translation, and identification of RNA.

MMBIO 442 : Advanced Molecular Biology Laboratory. (2:0:6)
OFFERED: W
PREREQUISITE: MMBio 241; MMBio 441 or concurrent enrollment.
DESCRIPTION: Laboratory to accompany MMBio 441.

PDBIO 399R : Academic Internship: Physiology and Developmental Biology. (1-9:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Department cooperative education coordinator's consent.
DESCRIPTION: On-the-job experience in off-campus laboratories with a focus related to physiology, biophysics, or developmental biology.

PDBIO 495R : Advanced Undergraduate Research in Physiology and Developmental Biology. (1-4:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: 2 credit hours of PDBio 494R.
DESCRIPTION: Senior level research laboratory experience for majors in physiology and developmental biology.

c. Elective courses (courses used to fill any requirements listed above cannot count for this requirement):

BIO 265 : (Bio-MMBio-PWS) Genomics. (3:2:1)
OFFERED: F, W
PREREQUISITE: Bioinformatics major status or PDBio 120.
DESCRIPTION: Introduction to genomics and genome projects (human, plant, bacterial, yeast, parasites). Introduction to genes and genomes; computational and statistical approaches for analyzing genomic data, including genome sequencing and annotation, gene expression and the transcriptome, proteomics and functional genomics, and genetic variation and SNPs.

BIO 350 : Ecology. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Bio 220A,B.
DESCRIPTION: Distribution and abundance of organisms and their interactions with the physical and biotic components of the earth.

BIO 370 : Bioethics. (2:1:3)
OFFERED: F, W
PREREQUISITE: Introductory biology course.
DESCRIPTION: In-depth lecture and small group discussion of varied bioethical issues. LDS Church positions emphasized when appropriate.

BIO 421 : Evolutionary Biology Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: MMBio 240; Bio 420 or concurrent enrollment.
DESCRIPTION: Methodology and evidence used in evolutionary biology: comparative anatomy, DNA and protein techniques, radiometric and non-radiometric dating, fossil data, etc.

CHEM 482 : Biochemistry 2. (3:3:0)
OFFERED: W, Sp
PREREQUISITE: Biol 360; Chem 481 or equivalent.
DESCRIPTION: Second-semester biochemistry. Nucleic acid biochemistry and molecular biology: nucleotide metabolism, chromosome and chromatin structure, DNA structure and replication, RNA transcription and gene expression, protein synthesis and regulation, eukaryotic gene systems, signal transduction.

CHEM 489 : Structural Biochemistry. (3:3:0)
OFFERED: On demand.
PREREQUISITE: Chem 481 or equivalent.
DESCRIPTION: Molecular structures of proteins, RNA and DNA as determinants of biological function. Topics include thermodynamics of folding and binding, structural determination, spectroscopy, modeling, protein recognition.

CHEM 581 : Advanced Biochemical Methodology 1. (3:3:0)
OFFERED: F
PREREQUISITE: Chem 482 or equivalent.
DESCRIPTION: Physical methods used in biochemical research, including centrifugation, structural determinations, and use of radioactivity and spectroscopy.
NOTE: First of two required courses for biochemistry graduate students.

CHEM 583 : Advanced Biochemical Methodology 2. (3:3:0)

OFFERED: W
PREREQUISITE: Chem 482 or equivalent.
DESCRIPTION: Molecular biological methods used in biochemistry, including immunotechniques, bioinformatics, and selected recombinant DNA techniques.
NOTE: Second of two required courses for biochemistry graduate students.

CHEM 584 : Biochemistry Laboratory/Proteins. (3:1:2)
OFFERED: F, W
PREREQUISITE: Chem 481 or equivalent.
DESCRIPTION: Introduction to current biochemical research procedures including spectrophotometry, chromatography, electrophoresis, and immunological techniques. Protein over-expression; isolation and characterization methods. Enzyme kinetics and protein-ligand interactions. Introduction to bioinformatics.

CHEM 586 : Biochemistry Laboratory/Nucleic Acids. (3:1:2)
OFFERED: F, W
PREREQUISITE: Chem 482 or equivalent.
DESCRIPTION: Laboratory course covering major techniques involved in isolation, amplification, and cloning of recombinant DNA as well as isolation, synthesis, translation, and identification of RNA.

EXSC 463 : Exercise Physiology. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: PDBio 305.

EXSC 464 : Exercise Physiology Lab. (.5:0:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: ExSc 463 or concurrent enrollment.

MMBIO 265 : (MMBio-Bio-PWS) Genomics. (3:2:1)
OFFERED: F, W
PREREQUISITE: Bioinformatics major status or PDBio 120.
DESCRIPTION: Introduction to genomics and genome projects (human, plant, bacterial, yeast, parasites). Introduction to genes and genomes; computational and statistical approaches for analyzing genomic data, including genome sequencing and annotation, gene expression and the transcriptome, proteomics and functional genomics, and genetic variation and SNPs.

MMBIO 361 : Infection and Immunity. (4:4:0)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105; PDBio 120 or MMBio 221 or equivalent.
DESCRIPTION: Principles of infectious organisms (principally bacteria and viruses), the diseases they cause, and the role of host immune responses in health and disease.

MMBIO 417 : Medical Parasitology. (3:2:3)
OFFERED: F, W
PREREQUISITE: Bio 100 or equivalent.
DESCRIPTION: Pathogenesis, diagnosis, and epidemiology of human parasitic diseases. Laboratory included.

MMBIO 430 : Advanced Cell Biology. (3:3:0)
OFFERED: F
PREREQUISITE: PDBio 360; bioscience major status.
DESCRIPTION: Molecular genetics, cell biology, and developmental biology.

MMBIO 441 : Advanced Molecular Biology. (3:3:0)
OFFERED: W
PREREQUISITE: MMBio 240, Chem 352.
DESCRIPTION: Molecular biology of gene structure and expression in prokaryotic and eukaryotic organisms.

MMBIO 442 : Advanced Molecular Biology Laboratory. (2:0:6)
OFFERED: W
PREREQUISITE: MMBio 241; MMBio 441 or concurrent enrollment.
DESCRIPTION: Laboratory to accompany MMBio 441.

NDFS 200 : Nutrient Metabolism. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: NDFS 100 and organic chemistry, or concurrent enrollment.
DESCRIPTION: Chemical structures of nutrients, their food sources, requirements, digestion, absorption, transport, metabolism, functions, storage and excretion; metabolic consequences of nutrient

deficiencies, interactions, imbalances, and toxicities.

NEURO 480 : Advanced Neuroscience. (3:3:0)
OFFERED: F, W
PREREQUISITE: Neuro 205, Biol 360; neuroscience majors only.
DESCRIPTION: Principles of neural science. Structure-function relationships and integration of the nervous system.

PDBIO 320 : Dissection Techniques in Human Anatomy. (1:0:3)
OFFERED: On demand.
PREREQUISITE: PDBio 220.
DESCRIPTION: Techniques of human cadaver dissection.

PDBIO 365 : Pathophysiology. (4:4:0)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 305 or 362.
DESCRIPTION: Variations in physiological mechanisms that account for development of common disturbances in normal control and activities of body's organs and organ systems.

PDBIO 450R : Topics in Physiology and Developmental Biology. (1-3:ARR:ARR)
OFFERED: F, W, Sp, Su
DESCRIPTION: Topics vary.

: Clinical Pharmacology.
: Herbal Pharmacology.
: Protein Expression in Bacteria.
: Techniques in Embryology.

PDBIO 455R : Physiology and Developmental Biology Seminar. (.5:1:0)
OFFERED: F, W
DESCRIPTION: Seminar (research) presentations for undergraduates in physiology and developmental biology.

PDBIO 484 : Human Embryology. (3:3:0)
OFFERED: F
PREREQUISITE: Biol 360 or equivalent.
RECOMMENDED: PDBio 225.
DESCRIPTION: Developmental milestones of prenatal life: etiology of congenital malformations, emphasizing molecular and cellular changes and their functional consequences.

PDBIO 561 : Physiology of Drug Mechanisms. (3:2:3)
OFFERED: F
PREREQUISITE: PDBio 352 or instructor's consent.
DESCRIPTION: Overview of physiological and pharmacological mechanisms and principles of human therapeutics as applied to clinically significant pathophysiology.

PDBIO 562 : Reproductive Physiology. (3:3:0)
OFFERED: F
PREREQUISITE: PDBio 362 or equivalent.
RECOMMENDED: Chem 481, PDBio 482; or equivalents.
DESCRIPTION: Mammalian reproductive physiology.

PDBIO 565 : Endocrinology. (3:3:0)
OFFERED: W
PREREQUISITE: PDBio 362 or instructor's consent.
DESCRIPTION: Mammalian hormones.

PDBIO 568 : Cellular Electrophysiology and Biophysics. (3:2:3)
OFFERED: F
PREREQUISITE: PDBio 362, Phscs 140, 220; or instructor's consent.
DESCRIPTION: Using electrophysiology and biophysics as an approach to study of physiology. Extensive look at ion channels and cell signaling.

PDBIO 582 : Developmental Genetics. (3:3:0)
OFFERED: W
PREREQUISITE: PDBio 482 or equivalent.
DESCRIPTION: Gene function and regulation during cell specification and differentiation, pattern formation, and organogenesis in developing embryo.

PWS 265 : (PWS-Bio-MMBio) Genomics. (3:2:1)
OFFERED: F, W
PREREQUISITE: Bioinformatics major status or PDBio 120.
DESCRIPTION: Introduction to genomics and genome projects (human, plant, bacterial, yeast, parasites). Introduction to genes and genomes; computational and statistical approaches for analyzing genomic data, including genome sequencing and annotation, gene expression and the transcriptome, proteomics and functional genomics, and genetic variation and SNPs.

Recommended Courses

Professional schools and graduate programs may require additional courses not required for this major, such as Phscs 107, 108, Chem, calculus, or statistics. Contact the programs to which you may apply to determine the specific courses required.

Students considering professional or graduate degrees should take at least two semesters of mathematical courses. The recommended sequences are:

1. Math 119, Stat 221 for students who want exposure to calculus and statistics.
2. Math 112, 113 for students who want a firm foundation in calculus.
3. Math 112, 113, Stat 221 for students who want a firm foundation in both calculus and statistics.

*Hours include courses that may fulfill university core requirements.

Undergraduate Courses

100-Level Courses

PDBIO 120 : Science of Biology. (2:2:1)
OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: General biology course designed for biological science majors, emphasizing the scientific method, cell theory, biochemical unity, the Central Dogma, bioenergetics, reproduction, and evolutionary theory.

: Honors Science of Biology.

200-Level Courses

PDBIO 205 : Human Biology. (3:3:0)
OFFERED: F, W
DESCRIPTION: Body systems and influence of heredity.
NOTE: For nonbiology majors.

PDBIO 210 : Human Anatomy (without lab). (3:3:0)
OFFERED: Independent Study only.
DESCRIPTION: Structure and function of the human body. No lab included.

PDBIO 220 : Human Anatomy (with lab). (3:2:2)
OFFERED: F, W, Sp, Su
DESCRIPTION: Structure and function of the human body. Lab included.

300-Level Courses

PDBIO 305 : Human Physiology (with lab). (4:4:2)
OFFERED: F, W, Sp
PREREQUISITE: Chem 101 or equivalent.
RECOMMENDED: A general biology course.
DESCRIPTION: Function of body organ systems.
NOTE: Not acceptable for physiology and developmental biology, biophysics, or neuroscience majors. Designed for students with basic chemistry / no molecular biology. Students with chemistry/molecular biology should take PDBio 362.

PDBIO 320 : Dissection Techniques in Human Anatomy. (1:0:3)
OFFERED: On demand.
PREREQUISITE: PDBio 220.
DESCRIPTION: Techniques of human cadaver dissection.

PDBIO 325 : Tissue Biology (with lab). (3:2:3)
OFFERED: F, W
PREREQUISITE: Biol 120.
DESCRIPTION: Human anatomy and histology; function of cells in tissue; early stages of embryology.

PDBIO 349R : Physiology and Developmental Biology Teaching Seminar. (1-3:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: B or above in the specific physiology and developmental biology course; instructor's consent.
DESCRIPTION: Undergraduate students teaching small help sections for lecture portion of physiology and developmental biology courses or helping to teach departmental student laboratory.

PDBIO 360 : Cell Biology. (3:3:1)
OFFERED: F, W
PREREQUISITE: MMBio 240.
DESCRIPTION: Fundamentals of cell structure and function with reference to analytical methods used by cell biologists. Practice in designing, executing, and interpreting relative experiments.

PDBIO 362 : Advanced Physiology. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Biol 240; Phscs 106 or 220.
DESCRIPTION: Integrated approach to organ system and cellular physiology. Problem solving/calculations.
NOTE: Requires background in chemistry and molecular biology. Students without this background should take PDBio 305.

PDBIO 363 : Advanced Physiology Laboratory. (1:0.5:1.5)
OFFERED: F, W, Sp

PDBIO 365 : Pathophysiology. (4:4:0)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 305 or 362.
DESCRIPTION: Variations in physiological mechanisms that account for development of common disturbances in normal control and activities of body's organs and organ systems.

PDBIO 399R : Academic Internship: Physiology and Developmental Biology. (1-9:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Department cooperative education coordinator's consent.
DESCRIPTION: On-the-job experience in off-campus laboratories with a focus related to physiology, biophysics, or developmental biology.

400-Level Courses

PDBIO 450R : Topics in Physiology and Developmental Biology. (1-3:ARR:ARR)
OFFERED: F, W, Sp, Su
DESCRIPTION: Topics vary.

: Clinical Pharmacology.
: Herbal Pharmacology.
: Protein Expression in Bacteria.
: Techniques in Embryology.

PDBIO 455R : Physiology and Developmental Biology Seminar. (.5:1:0)
OFFERED: F, W
DESCRIPTION: Seminar (research) presentations for undergraduates in physiology and developmental biology.

PDBIO 482 : Developmental Biology. (3:3:1)
OFFERED: F, W
PREREQUISITE: Biol 240, 241, 360.
RECOMMENDED: PDBio 225.
DESCRIPTION: Invertebrate and vertebrate developmental biology. Embryonic gastrulation, neurulation, pattering, etc. Modern approaches and research strategies. Emphasizes gene function, cell signaling, signal transduction during embryogenesis.

PDBIO 484 : Human Embryology. (3:3:0)
OFFERED: F
PREREQUISITE: Biol 360 or equivalent.
RECOMMENDED: PDBio 225.
DESCRIPTION: Developmental milestones of prenatal life: etiology of congenital malformations, emphasizing molecular and cellular changes and their functional consequences.

PDBIO 494R : Undergraduate Research in Physiology and Developmental Biology. (1-4:ARR:ARR)
OFFERED: F, W, Sp Su
DESCRIPTION: Basic (entry level) research laboratory experience for students interested in physiology and developmental biology.

PDBIO 495R : Advanced Undergraduate Research in Physiology and Developmental Biology. (1-4:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: 2 credit hours of PDBio 494R.
DESCRIPTION: Senior level research laboratory experience for majors in physiology and developmental biology.

PDBIO 499R : Senior Honors Thesis. (1-3:ARR:ARR)
OFFERED: F, W, Sp, Su
DESCRIPTION: Honors thesis. Topic to be cleared with Honors Program and Physiology and Developmental Biology Department.

500-Level Graduate Courses (available to advanced undergraduates)

PDBIO 550R : Advanced Topics in Physiology and Developmental Biology. (.5-4:ARR:ARR)
OFFERED: On demand.
PREREQUISITE: Instructor's consent.
DESCRIPTION: Close interaction between small groups of students and instructor on topics in physiology, developmental biology, or biophysics.

PDBIO 561 : Physiology of Drug Mechanisms. (3:2:3)
OFFERED: F
PREREQUISITE: PDBio 352 or instructor's consent.
DESCRIPTION: Overview of physiological and pharmacological mechanisms and principles of human therapeutics as applied to clinically significant pathophysiology.

PDBIO 562 : Reproductive Physiology. (3:3:0)
OFFERED: F
PREREQUISITE: PDBio 362 or equivalent.
RECOMMENDED: Chem 481, PDBio 482; or equivalents.
DESCRIPTION: Mammalian reproductive physiology.

PDBIO 565 : Endocrinology. (3:3:0)
OFFERED: W
PREREQUISITE: PDBio 362 or instructor's consent.
DESCRIPTION: Mammalian hormones.

PDBIO 568 : Cellular Electrophysiology and Biophysics. (3:2:3)
OFFERED: F
PREREQUISITE: PDBio 362, Phscs 140, 220; or instructor's consent.
DESCRIPTION: Using electrophysiology and biophysics as an approach to study of physiology. Extensive look at ion channels and cell signaling.

The

PDBIO 582 : Developmental Genetics. (3:3:0)
OFFERED: W
PREREQUISITE: PDBio 482 or equivalent.
DESCRIPTION: Gene function and regulation during cell specification and differentiation, pattern formation, and organogenesis in developing embryo.

Physiology and Developmental Biology Faculty

Professors

Bell, John David

COLLEGE: Life sciences
DEPARTMENT: Physiology and Developmental Biology
RANK: Professor
DEGREES: BS, Brigham Young University, 1982
PhD, University of California, San Diego, 1987

Busath, David Don

COLLEGE: Life Sciences
DEPARTMENT: Physiology and Developmental Biology
RANK: Professor
DEGREES: BA, University of Utah, 1974
MD, University of Utah, 1978

Judd, Allan M

COLLEGE: Life Sciences
DEPARTMENT: Physiology and Developmental Biology
RANK: Professor
DEGREES: BS, Brigham Young University, 1973
MS, Brigham Young University, 1978
PhD, West Virginia University, 1982

Lephart, Edwin D

COLLEGE: Life Sciences
DEPARTMENT: Physiology and Developmental Biology
RANK: Professor
DEGREES: BS, Brigham Young University, 1979
MS, Brigham Young University, 1982
PhD, University of Texas Southwestern Medical Center, Dallas, 1989

Porter, James Paul

COLLEGE: Life Sciences
DEPARTMENT: Physiology and Developmental Biology
RANK: Professor
DEGREES: BS, Brigham Young University, 1976
MS, Brigham Young University, 1978
PhD, University of California, San Francisco, 1982

Rhees, Reuben Ward

COLLEGE: Life Sciences
DEPARTMENT: Physiology and Developmental Biology
RANK: Professor
DEGREES: BS, University of Utah, 1967
PhD, Colorado State University, 1971

Seegmiller, Robert E

COLLEGE: Life Sciences
DEPARTMENT: Physiology and Developmental Biology
RANK: Professor
DEGREES: BS, University of Utah, 1965
MS, University of Utah, 1967
PhD, McGill University, 1970

Winder, William W

COLLEGE: Life Sciences
DEPARTMENT: Physiology and Developmental Biology
RANK: Professor
DEGREES: BS, Brigham Young University, 1966
PhD, Brigham Young University, 1971

Woodbury, Dixon John

COLLEGE: Life Sciences
DEPARTMENT: Physiology and Developmental Biology
RANK: Professor
DEGREES: BA, University of Utah, 1980
BA, University of Utah, 1980
PhD, University of California, Irvine, 1986

Woolley, Bruce

COLLEGE: Life Sciences
DEPARTMENT: Physiology and Developmental Biology
RANK: Professor
DEGREES: BS, University of Utah, 1965
PharmD, University of Southern California, 1972

Associate Professors

Kooyman, David Lee

COLLEGE: Life Sciences
DEPARTMENT: Physiology and Developmental Biology
RANK: Associate Professor
DEGREES: AA, Ottumwa Heights College, 1974
BS, California State Polytechnic University, Pomona, 1982
MS, California State Polytechnic University, Pomona, 1986
PhD, Ohio University, Athens, 1993

Silcox, Roy W

COLLEGE: Life Sciences
DEPARTMENT: Physiology and Developmental Biology
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1981
MS, North Carolina State University, 1984
PhD, North Carolina State University, 1986

Sudweeks, Sterling N

COLLEGE: Life Sciences
DEPARTMENT: Physiology and Developmental Biology
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1992
PhD, University of Utah, 1997

HIST 415 : Irish Family History Research. (3:3:0)
DESCRIPTION: In-depth examination of sources and problem solving in Ireland.

6. Complete one of the following social history courses:
HIST 319 : The Family in Europe. (3:3:0)
OFFERED: F odd years.
DESCRIPTION: Nature and development of marriage and family life and structure from the ancient to modern era.
NOTE: Independent Study also.

HIST 378 : American Family History. (3:3:0)
DESCRIPTION: History of American families from colonial period to the present.

7. Complete one of the following handwriting courses:
GERM 490R : Special Studies in German. (.5-3:ARR:ARR)
PREREQUISITE: Instructor's consent.
NOTE: Variable credit for individual or group study as approved for special circumstances. Not applicable to German major or minor.

(section 3)
HIST 390R : Special Topics in History. (.5-3:3:0)
OFFERED: F, W; Independent Study also.
DESCRIPTION: Presented by visiting or regular faculty. Varied topics include oral history, demographics, psychohistory, Christianity in history, etc.

(section 1)
HIST 421 : England Language Handwriting and Documents. (3:3:0)
DESCRIPTION: Interpretation of handwriting in vernacular scripts in the British Isles, sixteenth through eighteenth centuries, in family history sources.

8. Complete one of the following area history courses:
GEOG 250 : United States and Canada. (3:3:0)
OFFERED: W
DESCRIPTION: Analysis of the natural environment, historical development, cultural patterns, economic systems, and political structures of geographic regions.

HIST 220 : The United States Through 1877. (3:3:0)
OFFERED: F, W, Sp, Su; Independent study also.
DESCRIPTION: Discovery, colonization, American Revolution, estabishment of the Constitution, foreign affairs, westward expansion, slavery, sectionalism, Civil War, and reconstruction.

HIST 252 : Modern Latin America. (3:3:0)
OFFERED: F, W
DESCRIPTION: National period (1810 to present): independence, institutional development, culture, and inter-American relations.

HIST 322 : English History to 1689. (3:3:0)
OFFERED: F even years; Independent Study also.
DESCRIPTION: Political, social, and cultural developments from prehistoric times to the Glorious Revolution. Medieval, Tudor, and Stuart periods.

9. Complete 6 hours from the following elective courses (including any area source or handwriting courses not used for core above):
ENGL 220 : Composing Personal History. (3:3:0)
DESCRIPTION: Composing personal history through writing, mementos, oral history, chronologies, letters, documents, journals, and other mediums.
NOTE: Independent Study also.

HIST 481R : Directed Research in Family History. (.5-3:0:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Student research directed by faculty member on family history topic of mutual interest.

REL C 393R : Special Studies in Religion: Church History and Doctrine. (.5-3:ARR:0)
OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: Topical studies in religion based on student interest and teacher expertise.

: Book of Mormon Witnesses.
: Doctrine and Teachings of Joseph Smith.
: Family History in Great Britain.
: LDS Temples.

Assistant Professors

Barrow, Jeffery Richard

Admission to Degree Program

All degree programs in the Department of Philosophy are open enrollment.

The Discipline

From its first appearance in ancient Greece down to the present, philosophy has sought to understand the world and the place of human beings within it. As it frames ideas by means of which to clarify and explain experience, philosophy discloses its faith in the ultimate lucidity of things. Philosophy's respect for the authority of intelligence fosters a preference for persuasion that is fundamental to personal growth and democratic society.

Students who study philosophy will find that it not only provides insight into life's fundamental concerns, it also helps them develop their capacity for clear thinking and perceptive judgment. Such competence will serve them well as they pursue further education or begin their careers.

Career Opportunities

Philosophy offers excellent career preparation, but not in the way that, say, accounting does. The value of a major in philosophy resides in the intellectual development it promotes. It lays a foundation on which more specialized study may build. In various standardized tests, philosophy majors tend to do extremely well on the verbal aptitude and on the analytic thinking sections. So philosophy can prepare a student for any type of work that requires highly developed reading and writing skills. Students who elect to major in philosophy should look beyond their bachelor's degree right from the start. For example, philosophy is an excellent background for the study of law or medicine. Those who intend to enter graduate school will need to start early on the foreign-language requirement.

General Information

The Department of Philosophy strongly recommends that StDev 317, a 1-credit-hour course, be taken at the end of the sophomore year or the beginning of the junior year. Because liberal arts degrees provide preparation in a variety of useful fields rather than a single career track, this course is recommended to help liberal arts students focus on specific educational and occupational goals and to identify the career options or educational opportunities available to them. The course will introduce them to the resources needed for accessing information about graduate schools, internships, careers, and career development. Students will learn basic employment strategies, including the steps necessary for obtaining employment related to their own specialty.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

1. Complete the following sources and methods courses:

PHIL 201 : History of Philosophy 1. (3:3:0)
OFFERED: F, W, Sp on demand, Su on demand; Honors also.
DESCRIPTION: Western civilization from Greek antiquity to Renaissance, primarily from perspective of philosophy; exploring fundamental questions in human experience; examining formative events in history; understanding value of important texts.

PHIL 202 : History of Philosophy 2. (3:3:0)
OFFERED: F, W, Sp on demand, Su on demand; Honors also.
PREREQUISITE: Phil 201.
DESCRIPTION: Western civilization from Renaissance to present, primarily from perspective of philosophy; exploring fundamental questions in human experience; examining formative events in history; understanding value of important texts.

PHIL 205 : Deductive Logic. (3:3:0)
OFFERED: F, W, Sp on demand.
DESCRIPTION: History and use of syllogistic and propositional logic; evaluating arguments with Venn diagrams, truth tables, and Copi-style proofs and proof strategies.

PHIL 300 : Philosophical Writing. (3:3:0)
OFFERED: F, W, Sp on demand, Su on demand; Honors also.
PREREQUISITE: Phil 150, 205; or equivalents.
DESCRIPTION: Writing philosophical papers about philosophical texts or problems. Research methods in philosophy. Library research paper.
NOTE: Fulfills GE Advanced Writing requirement. No course challenges accepted.

PHIL 305 : Predicate Logic. (3:3:0)
OFFERED: F, W, Sp on demand.
PREREQUISITE: Phil 205.
DESCRIPTION: History and use of predicate logic; evaluating arguments with counterexamples and proofs; informal mathematical proofs.
NOTE: Fulfills GE Languages of Learning requirement.

2. Complete two of the following historical periods courses (should not be in the same period):

PHIL 320R : Studies in Ancient Philosophy. (3:3:0)
OFFERED: F, W
PREREQUISITE: Phil 201.
DESCRIPTION: Selected figures or topics.

: Aristotle.
: Buddhism.
: Chinese Philosophy.
: Church Fathers.
: Greek Epistemology.
: Greek Ethics.
: Greek Logic.
: Greek Metaphysics.
: Greek Philosophy of Religion.
: Greek Political Theory.
: Greek Science.

: Helenistic Philosophy.
: Hindu Philosophy.
: Neo-Platonism.
: Plato.
: Plotinus.
: Pre-Socratics.
: Socrates.
: Stoicism.
: Topics in Greek Philosophy.

PHIL 330R : Studies in Medieval Philosophy. (3:3:0)
OFFERED: F, W
PREREQUISITE: Phil 201.
DESCRIPTION: Selected figures or topics.

: Anselm.
: Aquinas.
: Augustine.
: Averroes.
: Boethius.
: Bonaventure.
: Duns Scotus.
: Maimonides.
: Medieval Arabic Philosophers.
: Medieval Epistemology.
: Medieval Ethics.
: Medieval Jewish Philosophers.
: Medieval Logic.
: Medieval Metaphysics.
: Medieval Philosophy and Religion.
: Medieval Political Theory.
: Medieval Science.
: Meister Eckhart.
: Topics in Medieval Philosophy.
: William of Ockham.

PHIL 340R : Studies in Modern Philosophy. (3:3:0)
OFFERED: F, W
PREREQUISITE: Phil 202.
DESCRIPTION: Selected figures or topics.

: Alexander.
: Bentham.
: Bergson.
: Berkeley.
: Bosanquet.
: Bradley.
: British Empiricism.
: British Idealism.
: Continental Rationalism.
: Descartes and Locke.
: Descartes.
: Dewey.
: German Idealism.
: Hegel.
: Hobbes.
: Hume.
: J. S. Mill.
: Kant.
: Kierkegaard.
: Leibniz.
: Locke.
: Modern Political Theory.
: Nietzsche and Freud.
: Nietzsche.
: Peirce.
: Pragmatism.
: Schopenhauer.
: Spinoza.
: Topics in Modern Philosophy.
: Utilitarianism.
: William James.

PHIL 350R : Studies in Contemporary Philosophy. (3:3:0)
OFFERED: F, W
PREREQUISITE: One philosophy course.
DESCRIPTION: Selected figures or topics.

: Contemporary Analytical Philosophy.
: Contemporary French Philosophy.
: Contemporary Political Theory.
: Continental Philosophy.
: Derrida.
: Dufrenne.
: Existentialism.
: Foucault.
: Frege.
: Gadamer.
: Heidegger.
: Hermeneutics.
: Husserl.
: Leotard.
: Levinas.
: Logical Positivism.
: Marion.
: Merleau-Ponty.
: Moore.
: Oakeshott.
: Ordinary Language of Philosophy.
: Phenomenology.
: Philosophy and Film.
: Philosophy and Literature.
: Philosophy of Architecture.
: Philosophy of Cognitive Science.
: Philosophy of History.
: Philosophy of Mind.
: Philosophy of Psychology.
: Philosophy of Social Science.
: Philosophy of Theology.
: Ricoeur.
: Russell.
: Sartre.
: Topics in Contemporary Philosophy.
: Truth.
: Whitehead.
: Wittgenstein.

3. Complete one of the following values and conduct courses:

PHIL 213 : Introduction to Ethics. (3:3:0)
OFFERED: F, W, Sp on demand.
DESCRIPTION: Nature and justification of moral standards, beliefs, and decisions.

PHIL 214 : Introduction to the Philosophy of Art. (3:3:0)
OFFERED: F, W
DESCRIPTION: The experience of beauty in nature, in literature, and in the arts.

PHIL 215 : Introduction to the Philosophy of Religion. (3:3:0)
OFFERED: F, W
DESCRIPTION: Existence and nature of God, God's foreknowledge and man's free will, faith, immortality, and religious experience and language.

PHIL 218 : Science and Religion. (3:3:0)
OFFERED: Irregularly (check with department).
PREREQUISITE: One philosophy course.
DESCRIPTION: Epistemological and metaphysical similarities and differences undergirding historical problems in science and religion. Nature and effects of past reconciliations; possibility and desirability of current reconciliations.

PHIL 413 : Ethics. (3:3:0)
OFFERED: F, Sp on demand.
PREREQUISITE: One philosophy course.

DESCRIPTION: Selected figures or problems.

PHIL 414R : Philosophy of Art. (3:3:0)
OFFERED: F
PREREQUISITE: one philosophy course.
DESCRIPTION: Selected figures or topics in aesthetics.

PHIL 416 : Philosophy of Law. (3:3:0)
OFFERED: F, W
PREREQUISITE: One philosophy course.
DESCRIPTION: The relation between natural and enacted law; theories of punishment; utilitarian and nonutilitarian theories of law; liberty.

4. Complete two of the following knowledge and reality courses:

PHIL 405 : Metalogic. (3:3:0)
OFFERED: F
PREREQUISITE: Phil 305.
DESCRIPTION: Completeness and undecidability of predicate logic; incompleteness of arithmetic and set theory; treatment of related philosophical topics and of nonclassical topics as time permits.

PHIL 415 : Philosophy of Religion. (3:3:0)
OFFERED: F, W
PREREQUISITE: One philosophy course.
DESCRIPTION: Selected figures or problems.

PHIL 420 : Philosophy of Language. (3:3:0)
OFFERED: F, W
PREREQUISITE: One philosophy course.
DESCRIPTION: Meaning and reference, synonymy, metaphor, exemplification, translation; linguistic, artistic, and perceptual symbol systems.

PHIL 421 : Metaphysics. (3:3:0)
OFFERED: F, Sp on demand.
PREREQUISITE: One philosophy course.
DESCRIPTION: Basic categories of being: appearance and reality, law, causality, space, time, eternity, deity.

PHIL 422 : Epistemology. (3:3:0)
OFFERED: W, Su on demand.
PREREQUISITE: One philosophy course.
DESCRIPTION: Meaning, limits, and justification of knowledge.

PHIL 423 : (Phil 423--Physcs 314) History and Philosophy of Science. (3:3:0)
OFFERED: F, W; Honors also.
PREREQUISITE: Phy S 100 or instructor's consent.
DESCRIPTION: Scientific explanation, concepts, and models. Philosophical assumptions and criteria for theory selection, as exemplified by historical development of basic ideas in science.

5. Complete 12 additional hours (excluding 499R) (with no more than three hours of 449R). Students must have a total of 27 credit hours of upper-division course work (300-level or above) in the major.

6. Complete the following seminar:

PHIL 490 : Senior Seminar. (1:1.0:0)
OFFERED: F, W
PREREQUISITE: Senior status.
DESCRIPTION: Review of philosophical principles and advanced writing experiences culminating in a publishable paper.

*Hours include courses that may fulfill university core requirements.

Undergraduate Courses

100-Level Courses

PHIL 110 : Introduction to Philosophy. (3:3:0)
OFFERED: F, W, Sp; Honors also.
DESCRIPTION: Articulating, assessing, and defending fundamental positions on topics such as reason, knowledge, science, education, ethics, politics, and religion.

: Honors Introduction to Philosophy.

PHIL 150 : Reasoning and Writing. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
RECOMMENDED: Recommended for philosophy majors and minors.
DESCRIPTION: Informal grammar, logic, and rhetoric as tools for reading and writing. Library research.
NOTE: Fulfills GE First-Year Writing requirement. No course challenges accepted.

: Honors Reasoning and Writing.

200-Level Courses

PHIL 201 : History of Philosophy 1. (3:3:0)
OFFERED: F, W, Sp on demand, Su on demand; Honors also.
DESCRIPTION: Western civilization from Greek antiquity to Renaissance, primarily from perspective of philosophy; exploring fundamental questions in human experience; examining formative events in history; understanding value of important texts.

: Honors History of Philosophy 1.

PHIL 202 : History of Philosophy 2. (3:3:0)
OFFERED: F, W, Sp on demand, Su on demand; Honors also.
PREREQUISITE: Phil 201.
DESCRIPTION: Western civilization from Renaissance to present, primarily from perspective of philosophy; exploring fundamental questions in human experience; examining formative events in history; understanding value of important texts.

: Honors History of Philosophy 2.

PHIL 205 : Deductive Logic. (3:3:0)
OFFERED: F, W, Sp on demand.
DESCRIPTION: History and use of syllogistic and propositional logic; evaluating arguments with Venn diagrams, truth tables, and Copi-style proofs and proof strategies.

PHIL 210 : Science and Civilization 1. (3:3:0)
OFFERED: F; Honors also.
DESCRIPTION: History of Civilization from Greek antiquity to scientific revolution; methods in early science and their philosophical significance; exploring fundamental questions in human experience; examining formative events in history; understanding value of important texts.

: Honors Science and Civilization 1.

PHIL 211 : Science and Civilization 2. (3:3:0)
OFFERED: W; Honors also.
PREREQUISITE: Phil 210.
DESCRIPTION: History of Civilization from scientific revolution to present; concepts and methods in modern science and their philosophical significance; exploring fundamental questions in human experience; examining formative events in history; understanding value of important texts.

: Honors Science and Civilization 2.

PHIL 213 : Introduction to Ethics. (3:3:0)
OFFERED: F, W, Sp on demand.
DESCRIPTION: Nature and justification of moral standards, beliefs, and decisions.

PHIL 214 : Introduction to the Philosophy of Art. (3:3:0)
OFFERED: F, W
DESCRIPTION: The experience of beauty in nature, in literature, and in the arts.

PHIL 215 : Introduction to the Philosophy of Religion. (3:3:0)
OFFERED: F, W
DESCRIPTION: Existence and nature of God, God's foreknowledge and man's free will, faith, immortality, and religious experience and language.

PHIL 218 : Science and Religion. (3:3:0)

OFFERED: Irregularly (check with department).
PREREQUISITE: One philosophy course.
DESCRIPTION: Epistemological and metaphysical similarities and differences undergirding historical problems in science and religion. Nature and effects of past reconciliations; possibility and desirability of current reconciliations.

300-Level Courses

PHIL 300 : Philosophical Writing. (3:3:0)
OFFERED: F, W, Sp on demand, Su on demand; Honors also.
PREREQUISITE: Phil 150, 205; or equivalents.
DESCRIPTION: Writing philosophical papers about philosophical texts or problems. Research methods in philosophy. Library research paper.
NOTE: Fulfills GE Advanced Writing requirement. No course challenges accepted.

: Honors Philosophical Writing.

PHIL 305 : Predicate Logic. (3:3:0)
OFFERED: F, W, Sp on demand.
PREREQUISITE: Phil 205.
DESCRIPTION: History and use of predicate logic; evaluating arguments with counterexamples and proofs; informal mathematical proofs.
NOTE: Fulfills GE Languages of Learning requirement.

PHIL 320R : Studies in Ancient Philosophy. (3:3:0)
OFFERED: F, W
PREREQUISITE: Phil 201.
DESCRIPTION: Selected figures or topics.

: Aristotle.
: Buddhism.
: Chinese Philosophy.
: Church Fathers.
: Greek Epistemology.
: Greek Ethics.
: Greek Logic.
: Greek Metaphysics.
: Greek Philosophy of Religion.
: Greek Political Theory.

: William of Ockham.

PHIL 340R : Studies in Modern Philosophy. (3:3:0)
OFFERED: F, W
PREREQUISITE: Phil 202.
DESCRIPTION: Selected figures or topics.

: Alexander.
: Bentham.
: Bergson.
: Berkeley.
: Bosanquet.
: Bradley.
: British Empiricism.
: British Idealism.
: Continental Rationalism.
: Descartes and Locke.

: Latter-Day Saints in Wartime.
: Lectures on Faith.
: Men and Women of Mormonism.
: Presidents of the Church.

(section 6)

Note: A maximum of 3 hours of directed research credit can be counted toward the 6 hours of electives.

10. Other BYU campus classes (including Evening and Salt Lake Center classes) dealing with social history, handwriting, area source, and area history for geographic areas not offered through Independent Study may be substituted for core courses above. Obtain prior approval before enrolling.

11. Complete 6 hours from the following as the last courses in the emphasis:

HIST 433 : Writing Family Histories. (3:3:0)
OFFERED: F; Independent Study also.
DESCRIPTION: Selecting themes and sources, and determining issues to be dealt with.

HIST 482 : Professional Paths and Credentials in Family History. (3:3:0)
OFFERED: F, W
DESCRIPTION: Directed research and instruction for completing the application/test for professional accreditation or certification in family history.

HIST 496R : Academic Internship: Family History. (.5-5:0:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Work with Department of History on various projects, under supervision of professional.

(3 hours maximum)

12. Complete the following capstone course:

STDEV 490 : Bachelor of General Studies Capstone. (2:2:0)
OFFERED: Independent Study only.
PREREQUISITE: StDev 100; completion of all other BGS program requirements.
DESCRIPTION: Culminating course required for bachelor of general studies degree: analyze and evaluate BGS experience in light of the "Aims of a BYU Education" and summarize this experience in a reflective paper, integrate material learned in emphasis by completing a scholarly essay, and demonstrate accomplishment of learning outcomes.

*Hours include courses that may fulfill university core requirements.

400-Level Courses

PHIL 405 : Metalogic. (3:3:0)
OFFERED: F
PREREQUISITE: Phil 305.
DESCRIPTION: Completeness and undecidability of predicate logic; incompleteness of arithmetic and set theory; treatment of related philosophical topics and of nonclassical topics as time permits.

PHIL 413 : Ethics. (3:3:0)
OFFERED: F, Sp on demand.
PREREQUISITE: One philosophy course.
DESCRIPTION: Selected figures or problems.

PHIL 414R : Philosophy of Art. (3:3:0)
OFFERED: F
PREREQUISITE: one philosophy course.
DESCRIPTION: Selected figures or topics in aesthetics.

PHIL 415 : Philosophy of Religion. (3:3:0)
OFFERED: F, W
PREREQUISITE: One philosophy course.
DESCRIPTION: Selected figures or problems.

PHIL 416 : Philosophy of Law. (3:3:0)
OFFERED: F, W
PREREQUISITE: One philosophy course.
DESCRIPTION: The relation between natural and enacted law; theories of punishment; utilitarian and nonutilitarian theories of law; liberty.

PHIL 420 : Philosophy of Language. (3:3:0)
OFFERED: F, W
PREREQUISITE: One philosophy course.
DESCRIPTION: Meaning and reference, synonymy, metaphor, exemplification, translation; linguistic, artistic, and perceptual symbol systems.

PHIL 421 : Metaphysics. (3:3:0)
OFFERED: F, Sp on demand.
PREREQUISITE: One philosophy course.
DESCRIPTION: Basic categories of being: appearance and reality, law, causality, space, time, eternity, deity.

PHIL 422 : Epistemology. (3:3:0)
OFFERED: W, Su on demand.
PREREQUISITE: One philosophy course.
DESCRIPTION: Meaning, limits, and justification of knowledge.

PHIL 423 : (Phil 423--Physcs 314) History and Philosophy of Science. (3:3:0)
OFFERED: F, W; Honors also.
PREREQUISITE: Phy S 100 or instructor's consent.
DESCRIPTION: Scientific explanation, concepts, and models. Philosophical assumptions and criteria for theory selection, as exemplified by historical development of basic ideas in science.

: (Phil-Phscs314) Honors History and Philosophy of Science.

PHIL 449R : Philosophical Lecture Series. (1:1:0)
OFFERED: F, W
DESCRIPTION: Lectures on philosophical topics by faculty and advanced students.

PHIL 490 : Senior Seminar. (1:1.0:0)
OFFERED: F, W
PREREQUISITE: Senior status.
DESCRIPTION: Review of philosophical principles and advanced writing experiences culminating in a publishable paper.

PHIL 499R : Honors Thesis. (.5-6:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent.
DESCRIPTION: Selected topic or figure in philosophy

500-Level Graduate Courses (available to advanced undergraduates)

PHIL 501R : Graduate Seminar. (.5-5:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent.
DESCRIPTION: Selected topic, figure, or movement in philosophy, as announced in current class schedule.

Program Requirements | View MAP

1. No D credit is allowed in major courses.

2. Complete the following:

BIO 100 : Principles of Biology. (3:3:1)
OFFERED: F, W, Sp, Su
DESCRIPTION: Introductory course for general education students.

CHEM 105 : General College Chemistry. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energectics, electrochemistry, acids and bases, inorganic and organic chemistry.
NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

CHEM 106 : General College Chemistry. (3:4:0)
OFFERED: F, W, Su
PREREQUISITE: Chem 105 or equivalent.
DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.
NOTE: Three lectures and one recitation section per week.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 106 or concurrent enrollment.
DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.
NOTE: Required for most students needing one year of general chemistry.

CHEM 223 : Quantitative and Qualitative Analysis. (4:2:6)
OFFERED: F, Sp
PREREQUISITE: Chem 106 or equivalent.
DESCRIPTION: Principles of chemical equilibrium, quantitative chemical measurements, and qualitative detection of selected chemical species.
NOTE: Primarily for majors in molecular biology and the life sciences.

CHEM 351 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105, 111; or equivalents.
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: Primarily for majors in chemical engineering and the biological sciences.

CHEM 501 : Safe Chemical Practices. (.5:.5:0)
OFFERED: W 2nd block
DESCRIPTION: University and department safety policies. Chemical hazards, fire safety, and biosafety, including laws.

GEOL 111 : Physical Geology. (4:3:2)
OFFERED: F, W
PREREQUISITE: Math 112 or concurrent enrollment.
DESCRIPTION: Materials, structure, and surface features of the earth and the geologic processes involved in their development. Field trips and lab studies, use of aerial photos.

GEOL 112 : Historical Geology. (4:3:2)
OFFERED: W, Su
PREREQUISITE: Geol 111.
DESCRIPTION: Developmental history of the earth, its landforms, and life forms, emphasizing the North American continent. Field trips and lab studies.

GEOL 210 : Field Studies. (3:0:9)
OFFERED: F
PREREQUISITE: Geol 111, 112.
DESCRIPTION: Procedures in observing, collecting, and recording field data concerning properties of rock units.
NOTE: Contact Geological Sciences Department before April 15 for dates of upcoming August trip.

PHIL 423 : (Phil 423--Physcs 314) History and Philosophy of Science. (3:3:0)
OFFERED: F, W; Honors also.
PREREQUISITE: Phy S 100 or instructor's consent.
DESCRIPTION: Scientific explanation, concepts, and models. Philosophical assumptions and criteria for theory selection, as exemplified by historical development of basic ideas in science.

PHSCS 105 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: High school algebra and trigonometry.
RECOMMENDED: Concurrent enrollment in Phscs 107.
DESCRIPTION: Applied physics course not requiring calculus. Topics include mechanics, heat, wave motion, sound.

PHSCS 106 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Phscs 105 or equivalent.
RECOMMENDED: Concurrent enrollment in Phscs 108.
DESCRIPTION: Continuation of Phscs 105. Topics include electricity and magnetism, atomic and nuclear physics, and optics.

PHSCS 107 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 105 or concurrent enrollment.

PHSCS 108 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Su
PREREQUISITE: Phscs 106 or concurrent enrollment.

PHSCS 127 : Descriptive Astronomy. (3:3:1)
OFFERED: F, W, Sp; Honors also.
DESCRIPTION: Nonmathematical presentation of knowledge of the content and history of the cosmos, frequently using observatory and planetarium.

PHSCS 137 : Introduction to the Atmosphere and Weather. (3:3:0)
OFFERED: F, W
PREREQUISITE: PhyS 100 or equivalent.
DESCRIPTION: Nonmathematical introduction to characteristics of the atmosphere, emphasizing structure and dynamic behavior, including the environmental impact of man.

3. Complete one course from the following:

GEOL 100 : Dinosaurs. (3:1:2)
OFFERED: W
DESCRIPTION: Hands-on examination of vertebrate fossils -- especially dinosaurs. For nonscience majors. Field trips.

GEOL 351 : Mineralogy. (4:3:4)
OFFERED: F
PREREQUISITE: Chem 105 or 111 or concurrent enrollment.
DESCRIPTION: Principles of crystallography and crystal chemistry. Physical, chemical, and crystallographic properties of minerals.

GEOL 370 : Sedimentology and Stratigraphy. (3:3:3)
OFFERED: W
PREREQUISITE: Geol 111, 112.
DESCRIPTION: Erosion; sediment entrainment, transport, and deposition; depositional systems and facies analysis; principles of stratigraphy. Field trips.

GEOL 480 : Paleontology. (3:3:2)
OFFERED: F
PREREQUISITE: Geol 112.
DESCRIPTION: Distribution, morphology, paleoecology, evolution, and stratigraphic significance of organisms in the geologic record. Field trips.

4. Declare major status by application available online at the Teacher Education Department Web site by January 15 for Fall semester and September 15 for Winter semester.

5. A grade lower than a C- will not be accepted in any of the professional education courses.

6. Complete the Professional Education Component:
   a. Complete the following:

CPSE 402 : Educating Students with Disabilities in Secondary Classrooms. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or comparable major course.
DESCRIPTION: Issues, policies, and methods in teaching secondary students with disabilities in general education classrooms. Lab.

IP&T 286 : Instructional Technology in Teaching. (1:1:ARR)
OFFERED: F, W, Sp
DESCRIPTION: Using instructional design, visual design, and differentiated staffing principles along with multimedia authoring systems, telecommunication, and other computer-based tools in the development of educational applications for secondary education settings.

PHY S 276 : Exploration of Teaching. (4:4:0)
DESCRIPTION: Field-based initial teaching experience directed at helping prospective teachers experience demands and opportunities associated with teaching secondary students.

PHY S 377 : Teaching Methods and Instruction. (3:3:0)
OFFERED: F, W
PREREQUISITE: Phy S 276; fingerprint and FBI clearance.
DESCRIPTION: Developing meaningful and engaging instruction for secondary students; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

PHY S 378 : Practicum in Secondary Education. (1:0:3)
OFFERED: F, W
PREREQUISITE: Concurrent enrollment in Phy S 377.
DESCRIPTION: Implementing meaningful and engaging instruction for secondary students; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

SC ED 350 : Adolescent Development in an Education Context. (2:2:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Sc Ed 276R or comparable major course.
DESCRIPTION: Adolescent development and its implications for integrated school culture, curriculum design, instructional practices, and assessment.

SC ED 353 : Multicultural Education. (2:2:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or comparable major course.
DESCRIPTION: Designing and adapting instruction for diverse learners, collaborating with families, cultures, and communities in promoting and sustaining learning.

SC ED 379 : Classroom Management. (1:1:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Concurrent enrollment in Sc Ed 377R and 378, or equivalent major courses.
DESCRIPTION: Current theory, research, and application in classroom management; creating positive teacher-student and peer relationships; developing optimal learning environments.

Note: Fingerprinting and FBI clearance must be completed prior to enrollment in Phy S 276.

b. Complete 12 hours of one of the following:

SC ED 476R : Secondary Student-Teaching Internship. (12:ARR:ARR)
OFFERED: F, W
PREREQUISITE: Completion of all course work or departmental approval.
DESCRIPTION: Capstone, field-based, semester-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

: Secondary Student Teaching Internship - Theatre and Media Arts.
: Secondary Student-Teaching Internship - Art.
: Secondary Student-Teaching Internship - Biological Sciences.
: Secondary Student-Teaching Internship - Dance.
: Secondary Student-Teaching Internship - English.
: Secondary Student-Teaching Internship - Foreign Language.
: Secondary Student-Teaching Internship - French.
: Secondary Student-Teaching Internship - German.
: Secondary Student-Teaching Internship - Health.
: Secondary Student-Teaching Internship - Home Economics.
: Secondary Student-Teaching Internship - Mathematics.
: Secondary Student-Teaching Internship - Music.
: Secondary Student-Teaching Internship - Physical Education.
: Secondary Student-Teaching Internship - Physical Science.
: Secondary Student-Teaching Internship - Social Science.
: Secondary Student-Teaching Internship - Spanish.
: Secondary Student-Teaching Internship - Technology Teacher Education.

SC ED 496R : Academic Internship: Secondary Education. (12:ARR:ARR)
OFFERED: F, W
PREREQUISITE: Completion of all course work or departmental approval.
DESCRIPTION: Capstone, field-based, year-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

: Academic Internship: Biological Sciences.
: Academic Internship: English.
: Academic Internship: Mathematics.
: Academic Internship: Social Sciences.
: Academic Internship: Physical Sciences.

*Hours include courses that may fulfill university core requirements.

BGS in General Studies: Family Life Emphasis (33 hours*)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements | View MAP

1. Complete the following prerequisite course:
   STDEV 100 : Essential College Skills. (1:1:0)
   OFFERED: F, W, Sp, Su
   DESCRIPTION: Developing essential college skills. Aims of BYU, values and goals, sound thinking skills. Learning styles and adjustment to college courses. College requirements and planning.
   NOTE: Independent Study also.

2. Complete the following core courses:
   SFL 100 : Strengthening Marriage and Family: Proclamation Principles and Scholarship. (3:3:0)
   OFFERED: F, W, Sp, Su
   DESCRIPTION: Understanding, applying, and sharing principles of successful marriage and family life from the LDS proclamation on the family, using sacred and scholarly perspectives.

   SFL 160 : Introduction to Family Processes. (3:3:0)
   OFFERED: F, W, Sp or Su
   DESCRIPTION: Ways of strengthening family life by understanding such family processes as generations, emotions, communication, and rituals.
   NOTE: Honors and Independent Study also.

   SFL 210 : Human Development. (3:3:0)
   OFFERED: F, W, Sp or Su
   DESCRIPTION: Growth and development of the child from conception through adolescence; influences of family, peers, and schools.
   NOTE: Independent Study also.

   SFL 260 : Family Finance. (3:3:0)
   OFFERED: F, W, Sp, Su
   DESCRIPTION: Introduction to time value of money, budgeting, saving, credit, taxes, housing, insurance, and investing emphasizing practical application in the home.

3. Complete one course from the following:
   SFL 223 : Preparation for Marriage. (3:3:0)
   OFFERED: F, W, Sp, Su
   DESCRIPTION: Factors related to quality relationships, mate selection, and the transition into marriage.

   SFL 224 : Marriage Enhancement. (3:3:0)
   OFFERED: F, W, Sp
   DESCRIPTION: Designed primarily for those who are married or engaged. Couples are encouraged to enroll together.

   SFL 240 : Parenting and Child Guidance. (3:3:0)
   OFFERED: F, W
   DESCRIPTION: Theories and skills related to quality parent-child relationships.

4. Complete 15 hours from the following elective courses:
   CPSE 515R : Current Topics in Counseling. (.5-3:3:1)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: Instructor's consent.
   NOTE: CPSE 515R credit may count toward a graduate degree if prior approval is obtained.

Physical Science (Phy S)

Show All Course Descriptions
Hide All Course Descriptions

Undergraduate Courses

100-Level Courses

PHY S 100 : Physical Science. (3:3:ARR)
OFFERED: F, W, Sp, Su Honors also.
DESCRIPTION: Conceptual lectures and demonstrations of the most significant and universal laws and models describing the physical world by faculty from the Physics and Astronomy, Chemistry and Biochemistry, and Geology departments.
NOTE: Satisfies GE Physical Science requirement.

: Honors Physical Science.

PHY S 110A : Physical Science A. (4:3:2)
OFFERED: F, W, Sp
PREREQUISITE: For majors in elementary, early childhood, or special education.
DESCRIPTION: Classical and modern physics and chemistry as they relate to current concepts of the physical world. Lab exercises illustrate many topics with concrete examples.
NOTE: With PhyS 110B satisfies GE Physical Science requirement.

PHY S 110B : Physical Science B. (2:2:1)
OFFERED: F, W, Su
PREREQUISITE: For majors in elementary, early childhood, or special education.
DESCRIPTION: Concepts and methods used in geology to interpret rock record, protect and make use of earth materials, and better understand natural environment and how to live in it. Lab studies, field trips, home projects.
NOTE: With PhyS 110A satisfies GE Physical Science requirement.

PHY S 111A : Physical Science A Laboratory. (1:0:2)
OFFERED: F, W, Sp
PREREQUISITE: Phy S 100; for majors in elementary, early childhood, or special education.
DESCRIPTION: Laboratory exercises that illustrate physics and chemistry principles.
NOTE: To accompany or follow PhyS 100 lecture course. Not for students enrolled in PhyS 110A or 110B.

PHY S 111B : Physical Science B Laboratory. (1:0:2)
OFFERED: F, W, Su
PREREQUISITE: Phy S 100; for majors in elementary, early childhood, or special education.
DESCRIPTION: Laboratory exercises that illustrate geology principles.
NOTE: To accompany or follow PhyS 100 lecture course. Not for students enrolled in PhyS 110A or 110B.

200-Level Courses

PHY S 276 : Exploration of Teaching. (4:4:0)
DESCRIPTION: Field-based initial teaching experience directed at helping prospective teachers experience demands and opportunities associated with teaching secondary students.

300-Level Courses

PHY S 377 : Teaching Methods and Instruction. (3:3:0)
OFFERED: F, W
PREREQUISITE: Phy S 276; fingerprint and FBI clearance.
DESCRIPTION: Developing meaningful and engaging instruction for secondary students; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

PHY S 378 : Practicum in Secondary Education. (1:0:3)
OFFERED: F, W
PREREQUISITE: Concurrent enrollment in Phy S 377.
DESCRIPTION: Implementing meaningful and engaging instruction for secondary students; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

Admission to Degree Program

All degree programs in the Department of Physics and Astronomy are open enrollment. However, special limitations apply for teaching majors.

The Discipline

Over the centuries physicists and astronomers have studied the fundamental principles that govern the structure and dynamics of matter and energy in the physical world, from subatomic particles to the cosmos. Physicists also apply this understanding to the development of new technologies. For example, physicists invented the first lasers and semiconductor electronic devices.

Physics and astronomy students learn to approach complex problems in science and technology from a broad background in mechanics, electricity and magnetism, statistical and thermal physics, quantum mechanics, relativity, and optics. The tools they develop at BYU include problem solving by mathematical and computational modeling, as well as experimental discovery and analysis. All students gain professional experience in a research, capstone, or internship project, usually in close association with faculty. Together these experiences can provide excellent preparation for employment or for graduate studies in physics, other sciences, engineering, medicine, law, or business.

Most physicists and astronomers work in research and development in industrial, government, or university labs to solve new problems in technology and science. They also share the beauty discovered in our physical universe by teaching in high schools, colleges, and universities.

Career Opportunities

A degree in physics or physics–astronomy can provide:

1. Preparation for those who intend to enter industrial or governmental service as physicists or astronomers.
2. Education for those who intend to pursue graduate work in physics or astronomy.
3. Education in the subject matter of physics for prospective teachers of the physical sciences.
4. Undergraduate education for those who will pursue graduate work in the professions: business (e.g., an MBA), law, medicine, etc.
5. Fundamental background for other physical sciences and engineering, in preparation for graduate study in these fields.
6. Physics fundamentals required by the biological science, medical, dental, nursing, and related programs.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Graduate Programs and Degrees

MS in Physics
PhD in Physics
PhD in Physics and Astronomy

For more information see the BYU 2008–2009 Graduate Catalog.

General Information

1. It is recommended that a student complete the following courses in high school:
   3 units of English
   1 unit of physical science, either chemistry or physics.
   4 units of mathematics, consisting of algebra, geometry, trigonometry, and calculus. This should qualify students to begin college mathematics with Math 113, Calculus 2.

   Because mathematics provides the foundation for all work in the physical and mathematical sciences, high school preparation in this subject is of particular importance.
2. Students in physics should take mathematics beginning the first semester of the freshman year. Physics majors should ordinarily begin with Math 113. If preparation is inadequate, students might wish to enter the university during the spring or summer term and bring their mathematics preparation to the point where they can take Math 113 concurrently with Phscs 121 during the fall semester.
3. Students are strongly urged to learn to use a computer, including some knowledge of programming.

Hide All Course Descriptions

Program Requirements | View MAP

1. No D credit is allowed in major courses.

2. Complete the following:

PHSCS 121 : Principles of Physics 1. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Calculus or concurrent enrollment.
DESCRIPTION: Newtonian mechanics. Weekly lab.

PHSCS 123 : Principles of Physics 2. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121.
DESCRIPTION: Waves, thermal physics, optics, special relativity, and introduction to modern physics. Weekly lab.

PHSCS 140 : Electronics Lab. (1:1:2)
OFFERED: F, Sp
DESCRIPTION: Introduction to analog and digital circuits.

PHSCS 145 : Experimental Methods in Physics. (1:0:3)
OFFERED: W, Su
PREREQUISITE: Phscs 121, 140.
DESCRIPTION: Introduction to physical measurement and analysis, optics, sensors, actuators, and computer-based data acquisition.

PHSCS 191 : Introduction to Physics Careers and Research. (.5:1:0)
OFFERED: F
DESCRIPTION: Survey of BYU undergraduate physics and astronomy programs, careers in physics and astronomy, and current physics and astronomy research.
NOTE: Take first semester after registered as physics major.

PHSCS 220 : Principles of Physics 3. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121 or equivalent; Math 113 or equivalent.
DESCRIPTION: Electricity and magnetism. Weekly lab.

PHSCS 222 : Modern Physics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Phscs 121, 123, 220.
DESCRIPTION: Quantum physics, atoms, molecules, condensed matter, nuclei, elementary particles, and selected topics in contemporary physics.

PHSCS 230 : Computational Physics Lab 1. (1:0:3)
OFFERED: F, W
PREREQUISITE: Phscs 220 or concurrent enrollment.
DESCRIPTION: Numerical and symbolic differentiation, integration, and differential equations, using Maple. Applications in mechanics, optics, and special relativity.

PHSCS 240 : Design, Fabrication, and Use of Scientific Apparatus. (2:0:6)
OFFERED: F, Sp
PREREQUISITE: Phscs 123, 145.

DESCRIPTION: Machining, computer interfacing, controls, and vacuum systems.

PHSCS 318 : Introduction to Classical Field Theory. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Math 303 or 334; Phscs 230.
DESCRIPTION: Classical equations of physical fields; algebra of complex variables; applying Fourier analysis, Fourier transforms, and orthogonal functions.

PHSCS 321 : Mechanics. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: Phscs 121, 230; Math 303 or 334 or concurrent enrollment.
RECOMMENDED: Concurrent enrollment in Phscs 330.
DESCRIPTION: Newton's laws applied to particles and systems of particles, including rigid bodies. Conservation principles and Lagrange's and Hamilton's equations.

PHSCS 330 : Computational Physics Lab 2. (1:0:3)
OFFERED: F, Sp
PREREQUISITE: Phscs 230; 321 or concurrent enrollment; Math 303 or 334 or equivalent.
DESCRIPTION: Numerical solution of ordinary differential equations, linear algebra and eigenvalues, chaos theory. Applications to dynamics. Introduction to programming in Matlab.

PHSCS 430 : Computational Physics Lab 3. (1:0:3)
OFFERED: W, Su
PREREQUISITE: Phscs 222, 318, 330.
DESCRIPTION: Static and dynamic boundary value problems, partial differential equations. Applications in electrostatics, thermodynamics, waves, and quantum mechanics. Programming with Matlab.

PHSCS 441 : Electrostatics and Magnetism. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: Phscs 220, 318.
DESCRIPTION: Classical theory of static electric and magnetic fields.

PHSCS 581 : Solid-State Physics. (3:3:0)
OFFERED: W
PREREQUISITE: Phscs 222 or equivalent.
DESCRIPTION: Introduction to the physics of solids. Crystal structure and symmetry, X-ray diffraction, lattice vibrations, metals and semiconductors, superconductivity, thermal properties, magnetic properties, and dielectric and optical properties.

Note: Phscs 191 should be taken the first semester.

3. Complete one of the following options:

Either

MATH 113 : Calculus 2. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
NOTE: Honors also.

MATH 302 : Mathematics for Engineering 1. (4:4:0)
OFFERED: F, W
PREREQUISITE: Math 113 and passing grade on required preparatory exam taken during first week of class. (Practice exams available on class Website).
DESCRIPTION: Multivariable calculus, linear algebra, and numerical methods.

Or

MATH 113 : Calculus 2. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
NOTE: Honors also.

MATH 214 : Calculus of Several Variables. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 113; 343 or concurrent enrollment.

DESCRIPTION: Partial differentiation, the Jacobian matrix, and integral theorems of vector calculus.

MATH 343 : Elementary Linear Algebra. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or 119.
DESCRIPTION: Linear systems, matrices, vectors and vector spaces, linear transformations, determinants, inner product spaces, eigenvalues, and eigenvectors.

4. Complete one course from the following:

MATH 303 : Mathematics for Engineering 2. (4:4:0)
OFFERED: F, W
PREREQUISITE: Math 302; or Math 214 and 343.
DESCRIPTION: ODEs, Laplace transforms, Fourier series, PDEs, numerical methods.

MATH 334 : Ordinary Differential Equations. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 113, 343.
DESCRIPTION: Methods and theory of ordinary differential equations.

5. Complete the following:

C S 142 : Introduction to Computer Programming. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Knowledge of algebra.
DESCRIPTION: Introduction to object-oriented program design and development. Principles of algorithm formulation and implementation.

C S 235 : Data Structures and Algorithms. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: C S 142.
DESCRIPTION: Fundamental data structures and algorithms of computer science; basic algorithm analysis; recursion; sorting and searching; lists, stacks, queues, trees, hashing; object-oriented data abstraction.

C S 236 : Discrete Structures. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: C S 235.
DESCRIPTION: Introduction to grammars and parsing; predicate and propositional logic; proof techniques; sets, functions, relations, relational data model; graphs and graph algorithms.

C S 240 : Advanced Programming Concepts. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: C S 236.
DESCRIPTION: Advanced software development with an object-oriented focus. Development and testing of several 1500 to 2000 line modules from formal specifications. UNIX and C++ environment.

6. Complete one course from the following:

C S 124 : (C S-EC En) Introduction to Computer Systems. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: C S 142 or concurrent enrollment.
DESCRIPTION: How a computer works, from hardware to high-level programming. Logic circuits, computer instructions, assembly language, binary arithmetic, C programming, program translation, data structures, and algorithm analysis.

C S 252 : Introduction to Computational Theory. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: C S 236.
DESCRIPTION: Finite state automata, regular languages, lexical analysis; push-down automata, context-free languages, parsing; Turing machines and unrestricted grammars; computability complexity, NP-completeness.

C S 330 : Concepts of Programming Languages. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: C S 236, 240.
DESCRIPTION: Principles and concepts characterizing high-level computer programming languages, process and data abstration, encapsulation, inheritance, functional programming, logic programming, scanners, and parsers.

EC EN 124 : (EC En-C S) Introduction to Computing Systems. (3:3:2)

OFFERED: F, W, Sp
PREREQUISITE: C S 142 or concurrent enrollment.
DESCRIPTION: How a computer works, from hardware to high-level programming: logic circuits, computer instructions, assembly language, binary arithmetic, C programming, program translation, data structures, algorithm analysis.

EC EN 224 : Fundamentals of Digital Systems. (3:3:2)
OFFERED: F, W, Su
PREREQUISITE: CS-ECEn 124.
DESCRIPTION: Digital logic: theory, design, and implementation of combinational and sequential logic. Laboratory experience in construction of digital logic circuits.

EC EN 324 : Computer Systems. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: EC En 224, C S 235.
DESCRIPTION: Machine-level representations of programs and data, processor architecture, program performance optimizaton, memory hierarchies, virtual memory, linking, exceptions.

EC EN 450 : Introduction to Semiconductor Devices. (3:3:1)
OFFERED: W
PREREQUISITE: ECEn 313, Phscs 281.
DESCRIPTION: Physics of electronic and optical solid state devices; includes semiconductor materials, bipolar and FET device physics and modeling, optical properties of semiconductors, and lasers.

PHSCS 513R : Special Topics in Contemporary Physics. (.5-3:3:0)
OFFERED: On demand.
PREREQUISITE: Instructor's consent.
DESCRIPTION: Topics generally related to recent developments in physics.

7. Complete one course from the following:

PHSCS 360 : Statistical and Thermal Physics. (3:3:0)
OFFERED: W
PREREQUISITE: Phscs 222; Math 303 or 334.
DESCRIPTION: Principles of statistical mechanics and thermodynamics, with applications.

PHSCS 427 : Introduction to Astrophysics. (3:3:0)
OFFERED: F
PREREQUISITE: Phscs 227, 228.
DESCRIPTION: Principles and observational techniques of astrophysics.

PHSCS 442 : Electrodynamics. (3:3:0)
OFFERED: W, Su
PREREQUISITE: Phscs 441.
DESCRIPTION: Maxwell?s equations, radiation, interaction of electromagnetic fields with matter, and special relativity.

PHSCS 451 : Quantum Mechanics. (3:3:0)
OFFERED: F
PREREQUISITE: Phscs 222, 318, or equivalent.
DESCRIPTION: Analytical foundations of quantum mechanics.

PHSCS 471 : Principles of Optics. (3:3:1)
OFFERED: F, W
PREREQUISITE: Phscs 123, 220.
RECOMMENDED: Phscs 318.
DESCRIPTION: Electromagnetic wave phenomena, including polarization effects, interference, coherence, dispersion, ray theory, diffraction; introduction to quantum nature of light. Laboratory component emphasizes applications.

PHSCS 545 : Introduction to Plasma Physics. (3:3:0)
OFFERED: F alternate years
PREREQUISITE: Phscs 321, 431, 441.
DESCRIPTION: Introduction to plasma physics, including single-particle motion and both fluid and kinetic models of plasma behavior.

PHSCS 561 : (Phscs-Me En) Fundamentals of Acoustics. (3:3:0)
OFFERED: F

PREREQUISITE: Phscs 123 or equivalent; Math 303 or 334 or equivalent.
RECOMMENDED: Phscs 318, 321; or equivalents.
DESCRIPTION: Sound generation, transmission, reflection, and reception. Vibrating systems, elastic media, mechanical energy, and radiation. Sound in tubes and cavities. Acoustic filters. Noise measurement and perception.

PHSCS 571 : Laser Physics. (3:3:0)
OFFERED: F alt. yr.
PREREQUISITE: Phscs 471 or basic understanding of electromagnetic waves and optics.
DESCRIPTION: Laser amplification, cavity design, and control and characterization of temporal and spatial modes. Applications in nonlinear optics and atomic physics.

PHSCS 585 : Thin-Film Physics. (3:3:0)
OFFERED: W alternate years
PREREQUISITE: Phscs 222 or equivalent.
DESCRIPTION: Preparation, characterization, use, and special properties of modern thin films; interdisciplinary treatment. Of interest to students in applied physics and engineering.

8. Complete a capstone project, including the following:
   a. Meet with department applied physics capstone project coordinator early in the junior year or before to obtain information about projects and procedures.
   b. Complete 2 hours of the following
      PHSCS 492R : Capstone Project in Applied Physics. (.5-3:0:ARR)
      OFFERED: F, W, Sp, Su
      DESCRIPTION: Senior capstone projects in applied physics. Topic must be approved by department applied physics capstone project coordinator or department chair.

9. Take a department exit examination in the senior year.

*Hours include courses that may fulfill university core requirements.

Program Requirements | View MAP

1. No D credit is allowed in major courses.
2. Consult with a faculty advisor as early as possible to choose electives.
3. Complete the following:

PHSCS 121 : Principles of Physics 1. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Calculus or concurrent enrollment.
DESCRIPTION: Newtonian mechanics. Weekly lab.

PHSCS 123 : Principles of Physics 2. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121.
DESCRIPTION: Waves, thermal physics, optics, special relativity, and introduction to modern physics. Weekly lab.

PHSCS 140 : Electronics Lab. (1:1:2)
OFFERED: F, Sp
DESCRIPTION: Introduction to analog and digital circuits.

PHSCS 145 : Experimental Methods in Physics. (1:0:3)
OFFERED: W, Su
PREREQUISITE: Phscs 121, 140.
DESCRIPTION: Introduction to physical measurement and analysis, optics, sensors, actuators, and computer-based data acquisition.

PHSCS 191 : Introduction to Physics Careers and Research. (.5:1:0)
OFFERED: F
DESCRIPTION: Survey of BYU undergraduate physics and astronomy programs, careers in physics and astronomy, and current physics and astronomy research.
NOTE: Take first semester after registered as physics major.

PHSCS 220 : Principles of Physics 3. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121 or equivalent; Math 113 or equivalent.
DESCRIPTION: Electricity and magnetism. Weekly lab.

PHSCS 222 : Modern Physics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Phscs 121, 123, 220.
DESCRIPTION: Quantum physics, atoms, molecules, condensed matter, nuclei, elementary particles, and selected topics in contemporary physics.

PHSCS 230 : Computational Physics Lab 1. (1:0:3)
OFFERED: F, W
PREREQUISITE: Phscs 220 or concurrent enrollment.
DESCRIPTION: Numerical and symbolic differentiation, integration, and differential equations, using Maple. Applications in mechanics, optics, and special relativity.

PHSCS 240 : Design, Fabrication, and Use of Scientific Apparatus. (2:0:6)

OFFERED: F, Sp
PREREQUISITE: Phscs 123, 145.
DESCRIPTION: Machining, computer interfacing, controls, and vacuum systems.

PHSCS 245 : Experiments in Contemporary Physics. (2:0:6)
OFFERED: W, Su
PREREQUISITE: Phscs 220, 240.
DESCRIPTION: In-depth, multi-period experiments in contemporary physics, using advanced instrumentation.

PHSCS 318 : Introduction to Classical Field Theory. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Math 303 or 334; Phscs 230.
DESCRIPTION: Classical equations of physical fields; algebra of complex variables; applying Fourier analysis, Fourier transforms, and orthogonal functions.

PHSCS 321 : Mechanics. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: Phscs 121, 230; Math 303 or 334 or concurrent enrollment.
RECOMMENDED: Concurrent enrollment in Phscs 330.
DESCRIPTION: Newton's laws applied to particles and systems of particles, including rigid bodies. Conservation principles and Lagrange's and Hamilton's equations.

PHSCS 330 : Computational Physics Lab 2. (1:0:3)
OFFERED: F, Sp
PREREQUISITE: Phscs 230; 321 or concurrent enrollment; Math 303 or 334 or equivalent.
DESCRIPTION: Numerical solution of ordinary differential equations, linear algebra and eigenvalues, chaos theory. Applications to dynamics. Introduction to programming in Matlab.

PHSCS 430 : Computational Physics Lab 3. (1:0:3)
OFFERED: W, Su
PREREQUISITE: Phscs 222, 318, 330.
DESCRIPTION: Static and dynamic boundary value problems, partial differential equations. Applications in electrostatics, thermodynamics, waves, and quantum mechanics. Programming with Matlab.

PHSCS 441 : Electrostatics and Magnetism. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: Phscs 220, 318.
DESCRIPTION: Classical theory of static electric and magnetic fields.

Note: Phscs 191 should be taken the first semester.

4. Complete one course from the following:

EC EN 466 : Introduction to Optical Engineering. (2:3:1)
OFFERED: F 2nd block.
PREREQUISITE: ECEn 462.
DESCRIPTION: Introduces principles and practices of optical engineering including optical communications system and components.

PHSCS 442 : Electrodynamics. (3:3:0)
OFFERED: W, Su
PREREQUISITE: Phscs 441.
DESCRIPTION: Maxwell?s equations, radiation, interaction of electromagnetic fields with matter, and special relativity.

PHSCS 471 : Principles of Optics. (3:3:1)
OFFERED: F, W
PREREQUISITE: Phscs 123, 220.
RECOMMENDED: Phscs 318.
DESCRIPTION: Electromagnetic wave phenomena, including polarization effects, interference, coherence, dispersion, ray theory, diffraction; introduction to quantum nature of light. Laboratory component emphasizes applications.

5. After gaining department chair's approval of courses selected to define an option, complete an additional 12 hours of electives (cannot include any courses already taken above). These 12 hours must consist of a coherent set of upper-division courses with an identified educational goal.

6. Complete one of the following options:

: Classroom Behavior Management.
: Current Topics in Educational Psychology.
: Current Topics in Special Education.
: Effective Teaching.
: Gifted and Talented.
: Iss Comm Sci Dsrd
: Learning Disabled.
: Motivation.
: Program Evaluation.
: Self-Concept.

(section 2)

EL ED 340 : Children's Literature. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: Some sections require acceptance to program.
DESCRIPTION: Trends and titles in children's and adolescent literature. Reading and critiquing as well as practical uses of children's literature in both school and home.

ENGL 420 : Literature for Adolescents. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Engl 251 or 252.
DESCRIPTION: Wide range of literature written for or read by teenagers.

HIST 378 : American Family History. (3:3:0)
DESCRIPTION: History of American families from colonial period to the present.

HIST 400 : The Family and the Law in American History. (3:3:0)
OFFERED: F, W
DESCRIPTION: The interaction of families with law and government as illustrated in original American sources; individual family histories reconstructed in the broader perspective of history.

HIST 433 : Writing Family Histories. (3:3:0)
OFFERED: F; Independent Study also.
DESCRIPTION: Selecting themes and sources, and determining issues to be dealt with.

HLTH 370 : Consumer Health. (2:2:0)
OFFERED: F, W, Sp
DESCRIPTION: Current consumer health issues; selecting proper health products, services, and information; sources of consumer health protection.

HLTH 466 : Health and the Aging Process. (2:2:1)
OFFERED: F, W, Su
DESCRIPTION: Theories of aging as a normal process, as a pathological process; health promotion and extension of life.

IP&T 515R : Special Topics in Instructional Psychology and Technology. (.5-3:ARR:ARR)
OFFERED: F, W, Sp, Su on demand.

: Evaluating Student Learning.
: Instructional Techniques in Teaching.
: Program Evaluation.
: Tutoring Children in Reading.

(section 26)

NDFS 100 : Essentials of Human Nutrition. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: Food-oriented study of nutritional facts and principles as a basis for dietary choices; consequences of choices; scientifically examining controversial topics.

PSYCH 306 : Psychology of Gender. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent.
DESCRIPTION: Biological and social contributions to sex role development, sexual self-concept, and complementarity of sex roles.
NOTE: Contains content featured in the Graduate Record Examination (GRE) Subject Test.

PSYCH 320 : Developmental Psychology: Childhood. (3:3:0)
OFFERED: F, W, Sp, Su

Either

MATH 113 : Calculus 2. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
NOTE: Honors also.

MATH 302 : Mathematics for Engineering 1. (4:4:0)
OFFERED: F, W
PREREQUISITE: Math 113 and passing grade on required preparatory exam taken during first week of class. (Practice exams available on class Website).
DESCRIPTION: Multivariable calculus, linear algebra, and numerical methods.

Or

MATH 113 : Calculus 2. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
NOTE: Honors also.

MATH 214 : Calculus of Several Variables. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 113; 343 or concurrent enrollment.
DESCRIPTION: Partial differentiation, the Jacobian matrix, and integral theorems of vector calculus.

MATH 343 : Elementary Linear Algebra. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or 119.
DESCRIPTION: Linear systems, matrices, vectors and vector spaces, linear transformations, determinants, inner product spaces, eigenvalues, and eigenvectors.

7. Complete one course from the following:
   MATH 303 : Mathematics for Engineering 2. (4:4:0)
   OFFERED: F, W
   PREREQUISITE: Math 302; or Math 214 and 343.
   DESCRIPTION: ODEs, Laplace transforms, Fourier series, PDEs, numerical methods.

   MATH 334 : Ordinary Differential Equations. (3:3:0)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: Math 113, 343.
   DESCRIPTION: Methods and theory of ordinary differential equations.

8. Complete a capstone project, including the following:
   a. Meet with department applied physics capstone project coordinator early in the junior year or before to obtain information about projects and procedures.
   b. Complete 2 hours of the following
      PHSCS 492R : Capstone Project in Applied Physics. (.5-3:0:ARR)
      OFFERED: F, W, Sp, Su
      DESCRIPTION: Senior capstone projects in applied physics. Topic must be approved by department applied physics capstone project coordinator or department chair.

9. Take a department exit examination in the senior year.

Sample Elective Courses

Acoustics:

PHSCS 561 : (Phscs-Me En) Fundamentals of Acoustics. (3:3:0)
OFFERED: F
PREREQUISITE: Phscs 123 or equivalent; Math 303 or 334 or equivalent.
RECOMMENDED: Phscs 318, 321; or equivalents.
DESCRIPTION: Sound generation, transmission, reflection, and reception. Vibrating systems, elastic media, mechanical energy, and radiation. Sound in tubes and cavities. Acoustic filters. Noise measurement and perception.

ME EN 562 : (Me En-Phscs 660) Analysis of Acoustic Systems. (3:3:0)
OFFERED: W
PREREQUISITE: Phscs 561 or instructor's consent.
DESCRIPTION: Analyzing and modeling electro-mechano-acoustic systems. Transducers, calibration, and acoustical

measurements. Sound sources, arrays, coupling, radiation, and directivity. Duct acoustics. Energy-based acoustics.

and choices from

EC EN 380 : Signals and Systems. (5:4:3)
OFFERED: F, W, Sp
PREREQUISITE: ECEn 212, Math 334.
DESCRIPTION: Time and frequency domain analysis of discrete or continuous systems subjected to periodic or nonperiodic input signals.

EC EN 487 : Introduction to Discrete-Time Signal Processing. (4:3:3)
OFFERED: W
PREREQUISITE: ECEn 370, 380.
DESCRIPTION: Digital signal processing, fast Fourier transforms, digital filter design, spectrum analysis. Applications in speech processing, SONAR, communications, etc.

ME EN 363 : Elementary Instrumentation. (3:3:1.5)
OFFERED: F, W, Sp or Su
PREREQUISITE: Math 303 or 334; ECEn 301; Engl 316 or concurrent enrollment.
DESCRIPTION: Fundamentals of mechanical measuring systems; sensors, signal conditioning, statistical error analysis, dynamic response, standards.

Biophysics:
Biology
Biochemistry
PDBIO 568 : Cellular Electrophysiology and Biophysics. (3:2:3)
OFFERED: F
PREREQUISITE: PDBio 362, Phscs 140, 220; or instructor's consent.
DESCRIPTION: Using electrophysiology and biophysics as an approach to study of physiology. Extensive look at ion channels and cell signaling.

Electrical Engineering (graduate school preparation):
EC EN 320 : Digital System Design. (3:3:3)
OFFERED: F, W
PREREQUISITE: EC En 212, 224.
DESCRIPTION: Advanced digital design, including hardware description languages, electrical properties of digital circuits, synchronous and asynchronous circuits, computer arithmetic, and interfacing to external circuitry.

EC EN 324 : Computer Systems. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: EC En 224, C S 235.
DESCRIPTION: Machine-level representations of programs and data, processor architecture, program performance optimizaton, memory hierarchies, virtual memory, linking, exceptions.

EC EN 380 : Signals and Systems. (5:4:3)
OFFERED: F, W, Sp
PREREQUISITE: ECEn 212, Math 334.
DESCRIPTION: Time and frequency domain analysis of discrete or continuous systems subjected to periodic or nonperiodic input signals.

and 400-level courses.

Materials Science (graduate school preparation):
PHSCS 451 : Quantum Mechanics. (3:3:0)
OFFERED: F
PREREQUISITE: Phscs 222, 318, or equivalent.
DESCRIPTION: Analytical foundations of quantum mechanics.

PHSCS 452 : Applications of Quantum Mechanics. (3:3:0)
OFFERED: W
PREREQUISITE: Phscs 451.
DESCRIPTION: Applications of quantum mechanics to atomic, molecular, statistical, condensed-matter, and nuclear physics; elementary particles.

PHSCS 581 : Solid-State Physics. (3:3:0)
OFFERED: W
PREREQUISITE: Phscs 222 or equivalent.
DESCRIPTION: Introduction to the physics of solids. Crystal structure and symmetry, X-ray diffraction, lattice vibrations, metals and semiconductors, superconductivity, thermal properties, magnetic properties, and dielectric and optical properties.

CHEM 105 : General College Chemistry. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction

energectics, electrochemistry, acids and bases, inorganic and organic chemistry.
NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

CHEM 106 : General College Chemistry. (3:4:0)
OFFERED: F, W, Su
PREREQUISITE: Chem 105 or equivalent.
DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.
NOTE: Three lectures and one recitation section per week.

or
CHEM 111 : Principles of Chemistry. (3:3:1)
OFFERED: F
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
RECOMMENDED: High school chemistry, physics, and introductory calculus or concurrent enrollment in Math 112.
DESCRIPTION: Stoichiometry, kinetic-molecular theory, thermodynamics, states of matter, solutions and equilibria, electrochemistry, structure and bonding, chemical reactions, kinetics.
NOTE: Tutorial included.

CHEM 112 : Principles of Chemistry. (3:3:2)
OFFERED: W
PREREQUISITE: Chem 111 or equivalent.
DESCRIPTION: Continuation of Chem 111.
NOTE: Tutorial included.

Microelectronics/Semiconductor Devices:
CHEM 105 : General College Chemistry. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energetics, electrochemistry, acids and bases, inorganic and organic chemistry.
NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

CH EN 381 : Introduction to Semiconductor Processing. (3:2:1)
OFFERED: F
PREREQUISITE: Chem 105 or 111 or equivalent; Math 303 or equivalent; Ch En 273 or instructor's consent.
DESCRIPTION: Unit operations related to silicon-based semiconductor processing, including substrate preparation, photolithography, doping, etching, and thin film formation. Lab included.

PHSCS 281 : Principles of Solid State Physics. (3:3:1)
OFFERED: F
PREREQUISITE: Phscs 121, 122.
DESCRIPTION: Introduction to physics of solids, including laboratory experience.
NOTE: For students in science, computer science, technology, and engineering.

or
PHSCS 581 : Solid-State Physics. (3:3:0)
OFFERED: W
PREREQUISITE: Phscs 222 or equivalent.
DESCRIPTION: Introduction to the physics of solids. Crystal structure and symmetry, X-ray diffraction, lattice vibrations, metals and semiconductors, superconductivity, thermal properties, magnetic properties, and dielectric and optical properties.

EC EN 450 : Introduction to Semiconductor Devices. (3:3:1)
OFFERED: W
PREREQUISITE: ECEn 313, Phscs 281.
DESCRIPTION: Physics of electronic and optical solid state devices; includes semiconductor materials, bipolar and FET device physics and modeling, optical properties of semiconductors, and lasers.

or
PHSCS 587 : Physics of Semiconductor Devices. (3:3.0:0.0)
OFFERED: F alternate years.
PREREQUISITE: Phscs 281 or 581 or ECEn 450.
DESCRIPTION: Device physics, with an in-depth study of the MOS transistor and other nanoscale computing devices.

STAT 332 : Quality Improvement for Industry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Math 112 or 119.
DESCRIPTION: Quality management philosophies (Deming, etc.) Strategies for continuous improvement. Graphical and numerical methods of data analysis. Process control charts. Design and analysis of experiments for process characterization and improvement.

Nuclear Physics (power generation for industry or navy):

PHSCS 360 : Statistical and Thermal Physics. (3:3:0)
OFFERED: W
PREREQUISITE: Phscs 222; Math 303 or 334.
DESCRIPTION: Principles of statistical mechanics and thermodynamics, with applications.

PHSCS 451 : Quantum Mechanics. (3:3:0)
OFFERED: F
PREREQUISITE: Phscs 222, 318, or equivalent.
DESCRIPTION: Analytical foundations of quantum mechanics.

PHSCS 452 : Applications of Quantum Mechanics. (3:3:0)
OFFERED: W
PREREQUISITE: Phscs 451.
DESCRIPTION: Applications of quantum mechanics to atomic, molecular, statistical, condensed-matter, and nuclear physics; elementary particles.

ME EN 422 : Applied Thermodynamics. (3:3:1)
OFFERED: W; Sp or Su
PREREQUISITE: Me En 321, 363, 373.
DESCRIPTION: Applied engineering thermodynamics including air and steam power cycles, thermodynamic relations, and introduction to combustion and equilibrium chemical reactions.

Optical Communication Engineering:

PHSCS 471 : Principles of Optics. (3:3:1)
OFFERED: F, W
PREREQUISITE: Phscs 123, 220.
RECOMMENDED: Phscs 318.
DESCRIPTION: Electromagnetic wave phenomena, including polarization effects, interference, coherence, dispersion, ray theory, diffraction; introduction to quantum nature of light. Laboratory component emphasizes applications.

PHSCS 571 : Laser Physics. (3:3:0)
OFFERED: F alt. yr.
PREREQUISITE: Phscs 471 or basic understanding of electromagnetic waves and optics.
DESCRIPTION: Laser amplification, cavity design, and control and characterization of temporal and spatial modes. Applications in nonlinear optics and atomic physics.

EC EN 380 : Signals and Systems. (5:4:3)
OFFERED: F, W, Sp
PREREQUISITE: ECEn 212, Math 334.
DESCRIPTION: Time and frequency domain analysis of discrete or continuous systems subjected to periodic or nonperiodic input signals.

EC EN 466 : Introduction to Optical Engineering. (2:3:1)
OFFERED: F 2nd block.
PREREQUISITE: ECEn 462.
DESCRIPTION: Introduces principles and practices of optical engineering including optical communications system and components.

EC EN 555 : Optoelectronic Devices. (3:2:1)
OFFERED: F
PREREQUISITE: ECEn 450 or equivalent or instructor's consent.
DESCRIPTION: Design, operation, and fabrication of modern optoelectronic devices, including photodiodes, photovoltaics, LEDs, and lasers.

EC EN 562 : Optical Communication Components and Systems. (3:3:0)
PREREQUISITE: EC En 462, 466; or equivalents.
DESCRIPTION: Fiber-optic communication system components and their operating and performance characteristics.

Optical/Laser Engineering:

PHSCS 442 : Electrodynamics. (3:3:0)
OFFERED: W, Su
PREREQUISITE: Phscs 441.
DESCRIPTION: Maxwell?s equations, radiation, interaction of electromagnetic fields with matter, and special relativity.

PHSCS 471 : Principles of Optics. (3:3:1)
OFFERED: F, W
PREREQUISITE: Phscs 123, 220.
RECOMMENDED: Phscs 318.
DESCRIPTION: Electromagnetic wave phenomena, including polarization effects, interference, coherence, dispersion, ray theory, diffraction; introduction to quantum nature of light. Laboratory component emphasizes applications.

and/or
PHSCS 571 : Laser Physics. (3:3:0)

OFFERED: F alt. yr.
PREREQUISITE: Phscs 471 or basic understanding of electromagnetic waves and optics.
DESCRIPTION: Laser amplification, cavity design, and control and characterization of temporal and spatial modes. Applications in nonlinear optics and atomic physics.

EC EN 466 : Introduction to Optical Engineering. (2:3:1)
OFFERED: F 2nd block.
PREREQUISITE: ECEn 462.
DESCRIPTION: Introduces principles and practices of optical engineering including optical communications system and components.

EC EN 555 : Optoelectronic Devices. (3:2:1)
OFFERED: F
PREREQUISITE: ECEn 450 or equivalent or instructor's consent.
DESCRIPTION: Design, operation, and fabrication of modern optoelectronic devices, including photodiodes, photovoltaics, LEDs, and lasers.

and/or
EC EN 562 : Optical Communication Components and Systems. (3:3:0)
PREREQUISITE: EC En 462, 466; or equivalents.
DESCRIPTION: Fiber-optic communication system components and their operating and performance characteristics.

Premedicine, Prelaw (including patent law), Prebusiness:
Courses in specialty.

*Hours include courses that may fulfill university core requirements.

1. No D credit is allowed in major courses.

2. Complete the following:

PHSCS 121 : Principles of Physics 1. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Calculus or concurrent enrollment.
DESCRIPTION: Newtonian mechanics. Weekly lab.

PHSCS 123 : Principles of Physics 2. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121.
DESCRIPTION: Waves, thermal physics, optics, special relativity, and introduction to modern physics. Weekly lab.

PHSCS 140 : Electronics Lab. (1:1:2)
OFFERED: F, Sp
DESCRIPTION: Introduction to analog and digital circuits.

PHSCS 145 : Experimental Methods in Physics. (1:0:3)
OFFERED: W, Su
PREREQUISITE: Phscs 121, 140.
DESCRIPTION: Introduction to physical measurement and analysis, optics, sensors, actuators, and computer-based data acquisition.

PHSCS 191 : Introduction to Physics Careers and Research. (.5:1:0)
OFFERED: F
DESCRIPTION: Survey of BYU undergraduate physics and astronomy programs, careers in physics and astronomy, and current physics and astronomy research.
NOTE: Take first semester after registered as physics major.

PHSCS 220 : Principles of Physics 3. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121 or equivalent; Math 113 or equivalent.
DESCRIPTION: Electricity and magnetism. Weekly lab.

PHSCS 222 : Modern Physics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Phscs 121, 123, 220.
DESCRIPTION: Quantum physics, atoms, molecules, condensed matter, nuclei, elementary particles, and selected topics in contemporary physics.

PHSCS 230 : Computational Physics Lab 1. (1:0:3)
OFFERED: F, W
PREREQUISITE: Phscs 220 or concurrent enrollment.
DESCRIPTION: Numerical and symbolic differentiation, integration, and differential equations, using Maple. Applications in mechanics, optics, and special relativity.

PHSCS 240 : Design, Fabrication, and Use of Scientific Apparatus. (2:0:6)
OFFERED: F, Sp
PREREQUISITE: Phscs 123, 145.

DESCRIPTION: Machining, computer interfacing, controls, and vacuum systems.

PHSCS 245 : Experiments in Contemporary Physics. (2:0:6)
OFFERED: W, Su
PREREQUISITE: Phscs 220, 240.
DESCRIPTION: In-depth, multi-period experiments in contemporary physics, using advanced instrumentation.

PHSCS 318 : Introduction to Classical Field Theory. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Math 303 or 334; Phscs 230.
DESCRIPTION: Classical equations of physical fields; algebra of complex variables; applying Fourier analysis, Fourier transforms, and orthogonal functions.

PHSCS 321 : Mechanics. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: Phscs 121, 230; Math 303 or 334 or concurrent enrollment.
RECOMMENDED: Concurrent enrollment in Phscs 330.
DESCRIPTION: Newton's laws applied to particles and systems of particles, including rigid bodies. Conservation principles and Lagrange's and Hamilton's equations.

PHSCS 330 : Computational Physics Lab 2. (1:0:3)
OFFERED: F, Sp
PREREQUISITE: Phscs 230; 321 or concurrent enrollment; Math 303 or 334 or equivalent.
DESCRIPTION: Numerical solution of ordinary differential equations, linear algebra and eigenvalues, chaos theory. Applications to dynamics. Introduction to programming in Matlab.

PHSCS 360 : Statistical and Thermal Physics. (3:3:0)
OFFERED: W
PREREQUISITE: Phscs 222; Math 303 or 334.
DESCRIPTION: Principles of statistical mechanics and thermodynamics, with applications.

PHSCS 430 : Computational Physics Lab 3. (1:0:3)
OFFERED: W, Su
PREREQUISITE: Phscs 222, 318, 330.
DESCRIPTION: Static and dynamic boundary value problems, partial differential equations. Applications in electrostatics, thermodynamics, waves, and quantum mechanics. Programming with Matlab.

PHSCS 441 : Electrostatics and Magnetism. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: Phscs 220, 318.
DESCRIPTION: Classical theory of static electric and magnetic fields.

PHSCS 442 : Electrodynamics. (3:3:0)
OFFERED: W, Su
PREREQUISITE: Phscs 441.
DESCRIPTION: Maxwell?s equations, radiation, interaction of electromagnetic fields with matter, and special relativity.

PHSCS 451 : Quantum Mechanics. (3:3:0)
OFFERED: F
PREREQUISITE: Phscs 222, 318, or equivalent.
DESCRIPTION: Analytical foundations of quantum mechanics.

PHSCS 452 : Applications of Quantum Mechanics. (3:3:0)
OFFERED: W
PREREQUISITE: Phscs 451.
DESCRIPTION: Applications of quantum mechanics to atomic, molecular, statistical, condensed-matter, and nuclear physics; elementary particles.

PHSCS 471 : Principles of Optics. (3:3:1)
OFFERED: F, W
PREREQUISITE: Phscs 123, 220.
RECOMMENDED: Phscs 318.
DESCRIPTION: Electromagnetic wave phenomena, including polarization effects, interference, coherence, dispersion, ray theory, diffraction; introduction to quantum nature of light. Laboratory component emphasizes applications.

Note: Phscs 191 should be taken the first semester.

3. Complete one of the following options:

Either

MATH 113 : Calculus 2. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
NOTE: Honors also.

MATH 302 : Mathematics for Engineering 1. (4:4:0)
OFFERED: F, W
PREREQUISITE: Math 113 and passing grade on required preparatory exam taken during first week of class. (Practice exams available on class Website).
DESCRIPTION: Multivariable calculus, linear algebra, and numerical methods.

Or

MATH 113 : Calculus 2. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
NOTE: Honors also.

MATH 214 : Calculus of Several Variables. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 113; 343 or concurrent enrollment.
DESCRIPTION: Partial differentiation, the Jacobian matrix, and integral theorems of vector calculus.

MATH 343 : Elementary Linear Algebra. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or 119.
DESCRIPTION: Linear systems, matrices, vectors and vector spaces, linear transformations, determinants, inner product spaces, eigenvalues, and eigenvectors.

4. Complete one course from the following:

MATH 303 : Mathematics for Engineering 2. (4:4:0)
OFFERED: F, W
PREREQUISITE: Math 302; or Math 214 and 343.
DESCRIPTION: ODEs, Laplace transforms, Fourier series, PDEs, numerical methods.

MATH 334 : Ordinary Differential Equations. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 113, 343.
DESCRIPTION: Methods and theory of ordinary differential equations.

5. Complete a senior thesis, including the following:
   a. Meet with department undergraduate research coordinator early in the junior year or before to obtain information about research projects and senior thesis procedures.
   b. Complete two hours of the following

PHSCS 498R : Senior Thesis. (.5-3:0:ARR)
OFFERED: F, W, Sp, Su
DESCRIPTION: Individually directed research for seniors.
NOTE: Thesis topic must be cleared by faculty member before registration.

6. Take a department exit examination in the senior year.

Recommended Course

CHEM 105 : General College Chemistry. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energectics, electrochemistry, acids and bases, inorganic and organic chemistry.
NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

*Hours include courses that may fulfill university core requirements.

Program Requirements | View MAP

1. No D credit is allowed in major courses.

2. Complete the following:

PHSCS 121 : Principles of Physics 1. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Calculus or concurrent enrollment.
DESCRIPTION: Newtonian mechanics. Weekly lab.

PHSCS 123 : Principles of Physics 2. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121.
DESCRIPTION: Waves, thermal physics, optics, special relativity, and introduction to modern physics. Weekly lab.

PHSCS 140 : Electronics Lab. (1:1:2)
OFFERED: F, Sp
DESCRIPTION: Introduction to analog and digital circuits.

PHSCS 145 : Experimental Methods in Physics. (1:0:3)
OFFERED: W, Su
PREREQUISITE: Phscs 121, 140.
DESCRIPTION: Introduction to physical measurement and analysis, optics, sensors, actuators, and computer-based data acquisition.

PHSCS 191 : Introduction to Physics Careers and Research. (.5:1:0)
OFFERED: F
DESCRIPTION: Survey of BYU undergraduate physics and astronomy programs, careers in physics and astronomy, and current physics and astronomy research.
NOTE: Take first semester after registered as physics major.

PHSCS 220 : Principles of Physics 3. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121 or equivalent; Math 113 or equivalent.
DESCRIPTION: Electricity and magnetism. Weekly lab.

PHSCS 222 : Modern Physics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Phscs 121, 123, 220.
DESCRIPTION: Quantum physics, atoms, molecules, condensed matter, nuclei, elementary particles, and selected topics in contemporary physics.

PHSCS 227 : Solar System Astronomy. (3:3:0)
OFFERED: F
PREREQUISITE: Phscs 121, 123; Math 113 or concurrent enrollment.
DESCRIPTION: Physics of light and matter, Newton's laws, solar-system dynamics, and planetary surfaces and atmospheres.

PHSCS 228 : Stellar and Extragalactic Astronomy. (3:3:0)
OFFERED: W
PREREQUISITE: Math 113, Phscs 227.

PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent.
DESCRIPTION: Physical, mental, emotional, and social development of the child.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

PSYCH 321 : Developmental Psychology: Adolescence. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent.
DESCRIPTION: Development and maturation during adolescence; research methodology.
NOTE: Contains content featured in the Graduate Record Examination (GRE) Subject Test.

PSYCH 341 : Personality. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent.
DESCRIPTION: Individual patterns of behavior, thought, and emotion; personality theories and their associated strategies of research, assessments, and personality change.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

REL C 261 : Introduction to Family History (Genealogy). (2:2:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Introduction to the doctrinal significance, necessary skills, and available resources dealing with family history and genealogy.
NOTE: Honors also.

SFL 110 : Food Preparation in the Home. (2:1:2)
OFFERED: F, W, Sp, Su
DESCRIPTION: Principles of cooking and skill development in food preparation techniques. Lab required.
NOTE: Fee.

Any core course not used above.

BYU undergraduate campus courses (including Salt Lake Center courses) as follows:

Courses from the School of Family Life may also be used to satisfy the emphasis elective requirements.

5. Complete the following capstone course:
STDEV 490 : Bachelor of General Studies Capstone. (2:2:0)
OFFERED: Independent Study only.
PREREQUISITE: StDev 100; completion of all other BGS program requirements.
DESCRIPTION: Culminating course required for bachelor of general studies degree: analyze and evaluate BGS experience in light of the "Aims of a BYU Education" and summarize this experience in a reflective paper, integrate material learned in emphasis by completing a scholarly essay, and demonstrate accomplishment of learning outcomes.

*Hours include courses that may fulfill university core requirements.

The Church of Jesus Christ of Latter-day Saints | BYU-Hawaii | BYU-Idaho | BYU Jerusalem Center | BYU Salt Lake Center | LDS Business College | Missionary Training Center
Please report any problems to web_ugrad_cat@byu.edu, Brigham Young University, Provo, UT 84602 - (801)422-4245 - Copyright 2007, All Rights Reserved XHTML CSS 508

DESCRIPTION: Stellar atmospheres, stellar interiors, stellar evolution, interstellar matter, galactic structure, external galaxies, and cosmology.

PHSCS 230 : Computational Physics Lab 1. (1:0:3)
OFFERED: F, W
PREREQUISITE: Phscs 220 or concurrent enrollment.
DESCRIPTION: Numerical and symbolic differentiation, integration, and differential equations, using Maple. Applications in mechanics, optics, and special relativity.

PHSCS 240 : Design, Fabrication, and Use of Scientific Apparatus. (2:0:6)
OFFERED: F, Sp
PREREQUISITE: Phscs 123, 145.
DESCRIPTION: Machining, computer interfacing, controls, and vacuum systems.

PHSCS 318 : Introduction to Classical Field Theory. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Math 303 or 334; Phscs 230.
DESCRIPTION: Classical equations of physical fields; algebra of complex variables; applying Fourier analysis, Fourier transforms, and orthogonal functions.

PHSCS 321 : Mechanics. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: Phscs 121, 230; Math 303 or 334 or concurrent enrollment.
RECOMMENDED: Concurrent enrollment in Phscs 330.
DESCRIPTION: Newton's laws applied to particles and systems of particles, including rigid bodies. Conservation principles and Lagrange's and Hamilton's equations.

PHSCS 329 : Observational Astronomy. (3:2:4)
OFFERED: W
PREREQUISITE: Phscs 127 (or 227 and 228).
DESCRIPTION: Basic techniques of observational astronomy, emphasizing practical experience in optical data acquisition and analysis.

PHSCS 330 : Computational Physics Lab 2. (1:0:3)
OFFERED: F, Sp
PREREQUISITE: Phscs 230; 321 or concurrent enrollment; Math 303 or 334 or equivalent.
DESCRIPTION: Numerical solution of ordinary differential equations, linear algebra and eigenvalues, chaos theory. Applications to dynamics. Introduction to programming in Matlab.

PHSCS 360 : Statistical and Thermal Physics. (3:3:0)
OFFERED: W
PREREQUISITE: Phscs 222; Math 303 or 334.
DESCRIPTION: Principles of statistical mechanics and thermodynamics, with applications.

PHSCS 427 : Introduction to Astrophysics. (3:3:0)
OFFERED: F
PREREQUISITE: Phscs 227, 228.
DESCRIPTION: Principles and observational techniques of astrophysics.

PHSCS 428 : Introduction to Astrophysics. (3:3:0)
OFFERED: W
PREREQUISITE: Phscs 227, 228.
DESCRIPTION: Principles and observational techniques of astrophysics.

PHSCS 451 : Quantum Mechanics. (3:3:0)
OFFERED: F
PREREQUISITE: Phscs 222, 318, or equivalent.
DESCRIPTION: Analytical foundations of quantum mechanics.

PHSCS 471 : Principles of Optics. (3:3:1)
OFFERED: F, W
PREREQUISITE: Phscs 123, 220.
RECOMMENDED: Phscs 318.
DESCRIPTION: Electromagnetic wave phenomena, including polarization effects, interference, coherence, dispersion, ray theory, diffraction; introduction to quantum nature of light. Laboratory component emphasizes applications.

Note: Phscs 191 should be taken the first semester.

3. Complete one of the following options:

Either

MATH 113 : Calculus 2. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
NOTE: Honors also.

MATH 302 : Mathematics for Engineering 1. (4:4:0)
OFFERED: F, W
PREREQUISITE: Math 113 and passing grade on required preparatory exam taken during first week of class. (Practice exams available on class Website).
DESCRIPTION: Multivariable calculus, linear algebra, and numerical methods.

Or

MATH 113 : Calculus 2. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
NOTE: Honors also.

MATH 214 : Calculus of Several Variables. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 113; 343 or concurrent enrollment.
DESCRIPTION: Partial differentiation, the Jacobian matrix, and integral theorems of vector calculus.

MATH 343 : Elementary Linear Algebra. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or 119.
DESCRIPTION: Linear systems, matrices, vectors and vector spaces, linear transformations, determinants, inner product spaces, eigenvalues, and eigenvectors.

4. Complete one course from the following:

MATH 303 : Mathematics for Engineering 2. (4:4:0)
OFFERED: F, W
PREREQUISITE: Math 302; or Math 214 and 343.
DESCRIPTION: ODEs, Laplace transforms, Fourier series, PDEs, numerical methods.

MATH 334 : Ordinary Differential Equations. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 113, 343.
DESCRIPTION: Methods and theory of ordinary differential equations.

5. Complete a senior thesis, including the following:
   a. Meet with department undergraduate research coordinator early in the junior year or before to obtain information about research projects and senior thesis procedures.
   b. Complete two hours of the following

PHSCS 498R : Senior Thesis. (.5-3:0:ARR)
OFFERED: F, W, Sp, Su
DESCRIPTION: Individually directed research for seniors.
NOTE: Thesis topic must be cleared by faculty member before registration.

6. Take a department exit examination in the senior year.

Recommended Course

CHEM 105 : General College Chemistry. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energectics, electrochemistry, acids and bases, inorganic and organic chemistry.
NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

*Hours include courses that may fulfill university core requirements.

Program Requirements | View MAP

1. No D credit is allowed in major courses.
2. Contact the Education Advisement and Certification Office for entrance requirements into the licensure program.
3. A teaching minor is not required for licensure. However, it is strongly recommended.
4. Complete the following:

PHSCS 121 : Principles of Physics 1. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Calculus or concurrent enrollment.
DESCRIPTION: Newtonian mechanics. Weekly lab.

PHSCS 123 : Principles of Physics 2. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121.
DESCRIPTION: Waves, thermal physics, optics, special relativity, and introduction to modern physics. Weekly lab.

PHSCS 127 : Descriptive Astronomy. (3:3:1)
OFFERED: F, W, Sp; Honors also.
DESCRIPTION: Nonmathematical presentation of knowledge of the content and history of the cosmos, frequently using observatory and planetarium.

PHSCS 140 : Electronics Lab. (1:1:2)
OFFERED: F, Sp
DESCRIPTION: Introduction to analog and digital circuits.

PHSCS 145 : Experimental Methods in Physics. (1:0:3)
OFFERED: W, Su
PREREQUISITE: Phscs 121, 140.
DESCRIPTION: Introduction to physical measurement and analysis, optics, sensors, actuators, and computer-based data acquisition.

PHSCS 191 : Introduction to Physics Careers and Research. (.5:1:0)
OFFERED: F
DESCRIPTION: Survey of BYU undergraduate physics and astronomy programs, careers in physics and astronomy, and current physics and astronomy research.
NOTE: Take first semester after registered as physics major.

PHSCS 220 : Principles of Physics 3. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121 or equivalent; Math 113 or equivalent.
DESCRIPTION: Electricity and magnetism. Weekly lab.

PHSCS 222 : Modern Physics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Phscs 121, 123, 220.
DESCRIPTION: Quantum physics, atoms, molecules, condensed matter, nuclei, elementary particles, and selected topics in contemporary physics.

PHSCS 240 : Design, Fabrication, and Use of Scientific Apparatus. (2:0:6)

OFFERED: F, Sp
PREREQUISITE: Phscs 123, 145.
DESCRIPTION: Machining, computer interfacing, controls, and vacuum systems.

Note: Phscs 191 should be taken the first semester.

5. Complete one course from the following:

PHIL 423 : (Phil 423--Physcs 314) History and Philosophy of Science. (3:3:0)
OFFERED: F, W; Honors also.
PREREQUISITE: Phy S 100 or instructor's consent.
DESCRIPTION: Scientific explanation, concepts, and models. Philosophical assumptions and criteria for theory selection, as exemplified by historical development of basic ideas in science.

PHSCS 314 : (Phscs-Phil 423) History and Philosophy of Science. (3:3:0)
PREREQUISITE: PhyS 100 or instructor's consent.
DESCRIPTION: Scientific explanation, concepts, and models. Philosophical assumptions and criteria for theory selection, as exemplified by historical development of basic ideas in science.

6. Complete the following:

Either

MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

MATH 113 : Calculus 2. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
NOTE: Honors also.

MATH 302 : Mathematics for Engineering 1. (4:4:0)
OFFERED: F, W
PREREQUISITE: Math 113 and passing grade on required preparatory exam taken during first week of class. (Practice exams available on class Website).
DESCRIPTION: Multivariable calculus, linear algebra, and numerical methods.

Or

MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

MATH 113 : Calculus 2. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
NOTE: Honors also.

MATH 214 : Calculus of Several Variables. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 113; 343 or concurrent enrollment.
DESCRIPTION: Partial differentiation, the Jacobian matrix, and integral theorems of vector calculus.

MATH 343 : Elementary Linear Algebra. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or 119.
DESCRIPTION: Linear systems, matrices, vectors and vector spaces, linear transformations, determinants, inner product spaces, eigenvalues, and eigenvectors.

7. Complete one course from the following:

MATH 303 : Mathematics for Engineering 2. (4:4:0)
OFFERED: F, W
PREREQUISITE: Math 302; or Math 214 and 343.
DESCRIPTION: ODEs, Laplace transforms, Fourier series, PDEs, numerical methods.

MATH 334 : Ordinary Differential Equations. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 113, 343.
DESCRIPTION: Methods and theory of ordinary differential equations.

8. Complete an additional nine hours from the following or any 300-, 400-, or 550-level physics course not already taken. At least six hours must be upper-division physics courses (Phscs 321 and 471 are highly recommended):

PHSCS 137 : Introduction to the Atmosphere and Weather. (3:3:0)
OFFERED: F, W
PREREQUISITE: PhyS 100 or equivalent.
DESCRIPTION: Nonmathematical introduction to characteristics of the atmosphere, emphasizing structure and dynamic behavior, including the environmental impact of man.

PHSCS 167 : Descriptive Acoustics of Music and Speech. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: PhyS 100 or equivalent.
DESCRIPTION: Introductory acoustics course, emphasizing physical principles underlying production and perception of music and speech.

PHSCS 281 : Principles of Solid State Physics. (3:3:1)
OFFERED: F
PREREQUISITE: Phscs 121, 122.
DESCRIPTION: Introduction to physics of solids, including laboratory experience.
NOTE: For students in science, computer science, technology, and engineering.

9. Complete the Professional Education Component:
   a. Complete the following:

CPSE 402 : Educating Students with Disabilities in Secondary Classrooms. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or comparable major course.
DESCRIPTION: Issues, policies, and methods in teaching secondary students with disabilities in general education classrooms. Lab.

IP&T 286 : Instructional Technology in Teaching. (1:1:ARR)
OFFERED: F, W, Sp
DESCRIPTION: Using instructional design, visual design, and differentiated staffing principles along with multimedia authoring systems, telecommunication, and other computer-based tools in the development of educational applications for secondary education settings.

PHY S 276 : Exploration of Teaching. (4:4:0)
DESCRIPTION: Field-based initial teaching experience directed at helping prospective teachers experience demands and opportunities associated with teaching secondary students.

PHY S 377 : Teaching Methods and Instruction. (3:3:0)
OFFERED: F, W
PREREQUISITE: Phy S 276; fingerprint and FBI clearance.
DESCRIPTION: Developing meaningful and engaging instruction for secondary students; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

PHY S 378 : Practicum in Secondary Education. (1:0:3)
OFFERED: F, W
PREREQUISITE: Concurrent enrollment in Phy S 377.
DESCRIPTION: Implementing meaningful and engaging instruction for secondary students; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

SC ED 350 : Adolescent Development in an Education Context. (2:2:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Sc Ed 276R or comparable major course.
DESCRIPTION: Adolescent development and its implications for integrated school culture, curriculum design, instructional practices, and assessment.

SC ED 353 : Multicultural Education. (2:2:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or comparable major course.
DESCRIPTION: Designing and adapting instruction for diverse learners, collaborating with families, cultures, and communities in promoting and sustaining learning.

SC ED 379 : Classroom Management. (1:1:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Concurrent enrollment in Sc Ed 377R and 378, or equivalent major courses.
DESCRIPTION: Current theory, research, and application in classroom management; creating positive teacher-student and peer relationships; developing optimal learning environments.

Note: Fingerprinting and FBI clearance must be completed prior to enrollment in Phy S 377.

b. Complete 12 hours of one of the following:
SC ED 476R : Secondary Student-Teaching Internship. (12:ARR:ARR)
OFFERED: F, W
PREREQUISITE: Completion of all course work or departmental approval.
DESCRIPTION: Capstone, field-based, semester-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

: Secondary Student Teaching Internship - Theatre and Media Arts.
: Secondary Student-Teaching Internship - Art.
: Secondary Student-Teaching Internship - Biological Sciences.
: Secondary Student-Teaching Internship - Dance.
: Secondary Student-Teaching Internship - English.
: Secondary Student-Teaching Internship - Foreign Language.
: Secondary Student-Teaching Internship - French.
: Secondary Student-Teaching Internship - German.
: Secondary Student-Teaching Internship - Health.
: Secondary Student-Teaching Internship - Home Economics.
: Secondary Student-Teaching Internship - Mathematics.
: Secondary Student-Teaching Internship - Music.
: Secondary Student-Teaching Internship - Physical Education.
: Secondary Student-Teaching Internship - Physical Science.
: Secondary Student-Teaching Internship - Social Science.
: Secondary Student-Teaching Internship - Spanish.
: Secondary Student-Teaching Internship - Technology Teacher Education.

SC ED 496R : Academic Internship: Secondary Education. (12:ARR:ARR)
OFFERED: F, W
PREREQUISITE: Completion of all course work or departmental approval.
DESCRIPTION: Capstone, field-based, year-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

: Academic Internship: Biological Sciences.
: Academic Internship: English.
: Academic Internship: Mathematics.
: Academic Internship: Social Sciences.
: Academic Internship: Physical Sciences.

10. Take a department exit examination in the senior year.

*Hours include courses that may fulfill university core requirements.

Program Requirements

Complete the following:

MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

MATH 113 : Calculus 2. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
NOTE: Honors also.

PHSCS 121 : Principles of Physics 1. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Calculus or concurrent enrollment.
DESCRIPTION: Newtonian mechanics. Weekly lab.

PHSCS 127 : Descriptive Astronomy. (3:3:1)
OFFERED: F, W, Sp; Honors also.
DESCRIPTION: Nonmathematical presentation of knowledge of the content and history of the cosmos, frequently using observatory and planetarium.

PHSCS 227 : Solar System Astronomy. (3:3:0)
OFFERED: F
PREREQUISITE: Phscs 121, 123; Math 113 or concurrent enrollment.
DESCRIPTION: Physics of light and matter, Newton's laws, solar-system dynamics, and planetary surfaces and atmospheres.

PHSCS 228 : Stellar and Extragalactic Astronomy. (3:3:0)
OFFERED: W
PREREQUISITE: Math 113, Phscs 227.
DESCRIPTION: Stellar atmospheres, stellar interiors, stellar evolution, interstellar matter, galactic structure, external galaxies, and cosmology.

PHSCS 329 : Observational Astronomy. (3:2:4)
OFFERED: W
PREREQUISITE: Phscs 127 (or 227 and 228).
DESCRIPTION: Basic techniques of observational astronomy, emphasizing practical experience in optical data acquisition and analysis.

*Hours include courses that may fulfill university core requirements.

Program Requirements

Complete the following:

MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

MATH 113 : Calculus 2. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
NOTE: Honors also.

PHSCS 121 : Principles of Physics 1. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Calculus or concurrent enrollment.
DESCRIPTION: Newtonian mechanics. Weekly lab.

PHSCS 123 : Principles of Physics 2. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121.
DESCRIPTION: Waves, thermal physics, optics, special relativity, and introduction to modern physics. Weekly lab.

PHSCS 140 : Electronics Lab. (1:1:2)
OFFERED: F, Sp
DESCRIPTION: Introduction to analog and digital circuits.

PHSCS 145 : Experimental Methods in Physics. (1:0:3)
OFFERED: W, Su
PREREQUISITE: Phscs 121, 140.
DESCRIPTION: Introduction to physical measurement and analysis, optics, sensors, actuators, and computer-based data acquisition.

PHSCS 220 : Principles of Physics 3. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121 or equivalent; Math 113 or equivalent.
DESCRIPTION: Electricity and magnetism. Weekly lab.

PHSCS 222 : Modern Physics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Phscs 121, 123, 220.
DESCRIPTION: Quantum physics, atoms, molecules, condensed matter, nuclei, elementary particles, and selected topics in contemporary physics.

PHSCS 240 : Design, Fabrication, and Use of Scientific Apparatus. (2:0:6)
OFFERED: F, Sp
PREREQUISITE: Phscs 123, 145.
DESCRIPTION: Machining, computer interfacing, controls, and vacuum systems.

*Hours include courses that may fulfill university core requirements

BGS in General Studies: History Emphasis (33 hours*)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements | View MAP

1. Complete the following prerequisite course:
   STDEV 100 : Essential College Skills. (1:1:0)
   OFFERED: F, W, Sp, Su
   DESCRIPTION: Developing essential college skills. Aims of BYU, values and goals, sound thinking skills. Learning styles and adjustment to college courses. College requirements and planning.
   NOTE: Independent Study also.

2. Complete the following core courses:
   HIST 201 : World Civilization to 1500. (3:3:0)
   OFFERED: F, W, Sp, Su; Honors also. Independent Study also.
   DESCRIPTION: World civilization from Greek antiquity to Renaissance; explores fundamental questions in the human experience, examines formative events in history, and seeks to teach value of important texts.

   HIST 202 : World Civilization from 1500. (3:3:0)
   OFFERED: F, W, Sp, Su; Honors also.
   PREREQUISITE: Hist 201.
   DESCRIPTION: World civilization from Renaissance to present; explores fundamental questions in the human experience, examines formative events in history, and seeks to teach value of important texts.

   HIST 220 : The United States Through 1877. (3:3:0)
   OFFERED: F, W, Sp, Su; Independent study also.
   DESCRIPTION: Discovery, colonization, American Revolution, estabishment of the Constitution, foreign affairs, westward expansion, slavery, sectionalism, Civil War, and reconstruction.

   HIST 221 : The United States Since 1877. (3:3:0)
   OFFERED: F, W, Sp, Su; Independent Study also.
   DESCRIPTION: Industrialization, immigration, urbanization, political and social movements, and foreign policy.

3. Complete 18 hours from the following (at least one course must be chosen from each of three of the four following geographic areas):
   a. Asia or the Near East
      HIST 340 : Traditional China. (3:3:0)
      OFFERED: W
      DESCRIPTION: From a loose federation of Neolithic societies, Chinese civilization emerges as East Asia's dominant political and cultural force; developments to ca. 1500.

      HIST 341 : Modern China Since 1500. (3:3:0)
      DESCRIPTION: Economic and political foundations of modernity during high Imperial China; challenge of new order from the West; rise of Chinese nationalism, revolution, and development.

   b. Europe
      HIST 322 : English History to 1689. (3:3:0)
      OFFERED: F even years; Independent Study also.
      DESCRIPTION: Political, social, and cultural developments from prehistoric times to the Glorious Revolution. Medieval, Tudor, and Stuart periods.

      HIST 323 : English History Since 1689. (3:3:0)
      OFFERED: W odd years.
      DESCRIPTION: Emergence of Britain as a great colonial and industrial power, as well as more recent decline

Minor in Physics Teaching (26 hours*)

Show All Course Descriptions
Hide All Course Descriptions

The physics teaching minor is intended for students who are pursuing secondary education licensure through the David O. McKay School of Education.

Program Requirements

Complete the following:

MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

MATH 113 : Calculus 2. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
NOTE: Honors also.

PHSCS 121 : Principles of Physics 1. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Calculus or concurrent enrollment.
DESCRIPTION: Newtonian mechanics. Weekly lab.

PHSCS 123 : Principles of Physics 2. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121.
DESCRIPTION: Waves, thermal physics, optics, special relativity, and introduction to modern physics. Weekly lab.

PHSCS 145 : Experimental Methods in Physics. (1:0:3)
OFFERED: W, Su
PREREQUISITE: Phscs 121, 140.
DESCRIPTION: Introduction to physical measurement and analysis, optics, sensors, actuators, and computer-based data acquisition.

PHSCS 220 : Principles of Physics 3. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121 or equivalent; Math 113 or equivalent.
DESCRIPTION: Electricity and magnetism. Weekly lab.

PHSCS 222 : Modern Physics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Phscs 121, 123, 220.
DESCRIPTION: Quantum physics, atoms, molecules, condensed matter, nuclei, elementary particles, and selected topics in contemporary physics.

PHSCS 240 : Design, Fabrication, and Use of Scientific Apparatus. (2:0:6)
OFFERED: F, Sp
PREREQUISITE: Phscs 123, 145.
DESCRIPTION: Machining, computer interfacing, controls, and vacuum systems.

PHSCS 314 : (Phscs-Phil 423) History and Philosophy of Science. (3:3:0)

PREREQUISITE: PhyS 100 or instructor's consent.
DESCRIPTION: Scientific explanation, concepts, and models. Philosophical assumptions and criteria for theory selection, as exemplified by historical development of basic ideas in science.

*Hours include courses that may fulfill university core requirements.

Undergraduate Courses

100-Level Courses

PHSCS 101 : Fundamentals of Physics. (3:3:0)
OFFERED: F
DESCRIPTION: Principles of classical and modern physics as they relate to current concepts of our physical environment.

PHSCS 105 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: High school algebra and trigonometry.
RECOMMENDED: Concurrent enrollment in Phscs 107.
DESCRIPTION: Applied physics course not requiring calculus. Topics include mechanics, heat, wave motion, sound.

PHSCS 106 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Phscs 105 or equivalent.
RECOMMENDED: Concurrent enrollment in Phscs 108.
DESCRIPTION: Continuation of Phscs 105. Topics include electricity and magnetism, atomic and nuclear physics, and optics.

PHSCS 107 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 105 or concurrent enrollment.

PHSCS 108 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Su
PREREQUISITE: Phscs 106 or concurrent enrollment.

PHSCS 121 : Principles of Physics 1. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Calculus or concurrent enrollment.
DESCRIPTION: Newtonian mechanics. Weekly lab.

PHSCS 123 : Principles of Physics 2. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121.
DESCRIPTION: Waves, thermal physics, optics, special relativity, and introduction to modern physics. Weekly lab.

PHSCS 127 : Descriptive Astronomy. (3:3:1)
OFFERED: F, W, Sp; Honors also.
DESCRIPTION: Nonmathematical presentation of knowledge of the content and history of the cosmos, frequently using observatory and planetarium.

: Honors Descriptive Astronomy.

PHSCS 137 : Introduction to the Atmosphere and Weather. (3:3:0)
OFFERED: F, W
PREREQUISITE: PhyS 100 or equivalent.
DESCRIPTION: Nonmathematical introduction to characteristics of the atmosphere, emphasizing structure and dynamic behavior, including the environmental impact of man.

PHSCS 140 : Electronics Lab. (1:1:2)
OFFERED: F, Sp
DESCRIPTION: Introduction to analog and digital circuits.

PHSCS 145 : Experimental Methods in Physics. (1:0:3)
OFFERED: W, Su
PREREQUISITE: Phscs 121, 140.
DESCRIPTION: Introduction to physical measurement and analysis, optics, sensors, actuators, and computer-based data acquisition.

PHSCS 167 : Descriptive Acoustics of Music and Speech. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: PhyS 100 or equivalent.
DESCRIPTION: Introductory acoustics course, emphasizing physical principles underlying production and perception of music and speech.

PHSCS 191 : Introduction to Physics Careers and Research. (.5:1:0)
OFFERED: F

PHSCS 198 : Physics and Mathematics Review. (1:2:0)
OFFERED: F 1st block.
PREREQUISITE: Phscs 121; Math 113 or concurrent enrollment.
DESCRIPTION: Review of mathematics and introductory physics for returning missionaries and others returning after a significant break.

200-Level Courses

PHSCS 220 : Principles of Physics 3. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121 or equivalent; Math 113 or equivalent.
DESCRIPTION: Electricity and magnetism. Weekly lab.

PHSCS 222 : Modern Physics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Phscs 121, 123, 220.
DESCRIPTION: Quantum physics, atoms, molecules, condensed matter, nuclei, elementary particles, and selected topics in contemporary physics.

PHSCS 227 : Solar System Astronomy. (3:3:0)
OFFERED: F
PREREQUISITE: Phscs 121, 123; Math 113 or concurrent enrollment.
DESCRIPTION: Physics of light and matter, Newton's laws, solar-system dynamics, and planetary surfaces and atmospheres.

PHSCS 228 : Stellar and Extragalactic Astronomy. (3:3:0)
OFFERED: W
PREREQUISITE: Math 113, Phscs 227.
DESCRIPTION: Stellar atmospheres, stellar interiors, stellar evolution, interstellar matter, galactic structure, external galaxies, and cosmology.

PHSCS 230 : Computational Physics Lab 1. (1:0:3)
OFFERED: F, W
PREREQUISITE: Phscs 220 or concurrent enrollment.
DESCRIPTION: Numerical and symbolic differentiation, integration, and differential equations, using Maple. Applications in mechanics, optics, and special relativity.

PHSCS 240 : Design, Fabrication, and Use of Scientific Apparatus. (2:0:6)
OFFERED: F, Sp
PREREQUISITE: Phscs 123, 145.
DESCRIPTION: Machining, computer interfacing, controls, and vacuum systems.

PHSCS 245 : Experiments in Contemporary Physics. (2:0:6)
OFFERED: W, Su
PREREQUISITE: Phscs 220, 240.
DESCRIPTION: In-depth, multi-period experiments in contemporary physics, using advanced instrumentation.

PHSCS 281 : Principles of Solid State Physics. (3:3:1)
OFFERED: F
PREREQUISITE: Phscs 121, 122.
DESCRIPTION: Introduction to physics of solids, including laboratory experience.
NOTE: For students in science, computer science, technology, and engineering.

PHSCS 297R : Introduction to Research. (1-3:0:ARR)
OFFERED: F, W, Sp, Su
DESCRIPTION: Faculty-supervised research experience.

300-Level Courses

PHSCS 313R : Special Topics in Physics. (.5-3:ARR:0)
OFFERED: On demand
DESCRIPTION: Special topics in physics for undergraduate physics majors.

PHSCS 314 : (Phscs-Phil 423) History and Philosophy of Science. (3:3:0)
PREREQUISITE: PhyS 100 or instructor's consent.
DESCRIPTION: Scientific explanation, concepts, and models. Philosophical assumptions and criteria for theory selection, as exemplified by historical development of basic ideas in science.

PHSCS 318 : Introduction to Classical Field Theory. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Math 303 or 334; Phscs 230.
DESCRIPTION: Classical equations of physical fields; algebra of complex variables; applying Fourier analysis, Fourier transforms, and orthogonal functions.

PHSCS 321 : Mechanics. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: Phscs 121, 230; Math 303 or 334 or concurrent enrollment.
RECOMMENDED: Concurrent enrollment in Phscs 330.
DESCRIPTION: Newton's laws applied to particles and systems of particles, including rigid bodies. Conservation principles and Lagrange's and Hamilton's equations.

PHSCS 329 : Observational Astronomy. (3:2:4)
OFFERED: W
PREREQUISITE: Phscs 127 (or 227 and 228).

PHSCS 330 : Computational Physics Lab 2. (1:0:3)
OFFERED: F, Sp
PREREQUISITE: Phscs 230; 321 or concurrent enrollment; Math 303 or 334 or equivalent.
DESCRIPTION: Numerical solution of ordinary differential equations, linear algebra and eigenvalues, chaos theory. Applications to dynamics. Introduction to programming in Matlab.

PHSCS 360 : Statistical and Thermal Physics. (3:3:0)
OFFERED: W
PREREQUISITE: Phscs 222; Math 303 or 334.
DESCRIPTION: Principles of statistical mechanics and thermodynamics, with applications.

PHSCS 391R : Seminar in Current Physics. (1:1:0)
OFFERED: F, W on demand

PHSCS 399R : Academic Internship. (.5-9:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Both department chair's and cooperative education coordinator's consent.
NOTE: For students engaged in the cooperative education program.

400-Level Courses

PHSCS 416A : Writing in Physics 1. (1:3:0)
OFFERED: W on block, Sp
PREREQUISITE: Completed research for thesis or capstone project.
DESCRIPTION: Writing scientific and technical articles and proposals. Writing and presentation skills applied to senior thesis or capstone project. Resources and guidelines for publishing in physics.

PHSCS 416B : Writing In Physics 2. (2:3:0)
OFFERED: W on block, Su
PREREQUISITE: Phscs 416A.
DESCRIPTION: Writing scientific and technical articles and proposals. Writing and presentation skills applied to senior thesis or capstone project. Resources and guidelines for publishing in physics.

PHSCS 427 : Introduction to Astrophysics. (3:3:0)
OFFERED: F
PREREQUISITE: Phscs 227, 228.
DESCRIPTION: Principles and observational techniques of astrophysics.

PHSCS 428 : Introduction to Astrophysics. (3:3:0)
OFFERED: W
PREREQUISITE: Phscs 227, 228.
DESCRIPTION: Principles and observational techniques of astrophysics.

PHSCS 430 : Computational Physics Lab 3. (1:0:3)
OFFERED: W, Su
PREREQUISITE: Phscs 222, 318, 330.
DESCRIPTION: Static and dynamic boundary value problems, partial differential equations. Applications in electrostatics, thermodynamics, waves, and quantum mechanics. Programming with Matlab.

PHSCS 441 : Electrostatics and Magnetism. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: Phscs 220, 318.
DESCRIPTION: Classical theory of static electric and magnetic fields.

PHSCS 442 : Electrodynamics. (3:3:0)
OFFERED: W, Su
PREREQUISITE: Phscs 441.
DESCRIPTION: Maxwell?s equations, radiation, interaction of electromagnetic fields with matter, and special relativity.

PHSCS 451 : Quantum Mechanics. (3:3:0)
OFFERED: F
PREREQUISITE: Phscs 222, 318, or equivalent.
DESCRIPTION: Analytical foundations of quantum mechanics.

PHSCS 452 : Applications of Quantum Mechanics. (3:3:0)
OFFERED: W
PREREQUISITE: Phscs 451.
DESCRIPTION: Applications of quantum mechanics to atomic, molecular, statistical, condensed-matter, and nuclear physics; elementary particles.

PHSCS 471 : Principles of Optics. (3:3:1)
OFFERED: F, W
PREREQUISITE: Phscs 123, 220.
RECOMMENDED: Phscs 318.
DESCRIPTION: Electromagnetic wave phenomena, including polarization effects, interference, coherence, dispersion, ray theory, diffraction; introduction to quantum nature of light. Laboratory component emphasizes applications.

PHSCS 492R : Capstone Project in Applied Physics. (.5-3:0:ARR)
OFFERED: F, W, Sp, Su
DESCRIPTION: Senior capstone projects in applied physics. Topic must be approved by department applied physics capstone project coordinator or department chair.

PHSCS 497R : Research In Physics. (1-3:0:ARR)
OFFERED: F, W, Sp, Su

PHSCS 498R : Senior Thesis. (.5-3:0:ARR)
OFFERED: F, W, Sp, Su
DESCRIPTION: Individually directed research for seniors.
NOTE: Thesis topic must be cleared by faculty member before registration.

500-Level Graduate Courses (available to advanced undergraduates)

PHSCS 513R : Special Topics in Contemporary Physics. (.5-3:3:0)
OFFERED: On demand.
PREREQUISITE: Instructor's consent.
DESCRIPTION: Topics generally related to recent developments in physics.

PHSCS 529 : Advanced Observational Astronomy. (3:3:0)
OFFERED: F
PREREQUISITE: Phscs 427, 428.
DESCRIPTION: Advanced techniques of observational astronomy, emphasizing knowledge and skills necessary to carry out observational scientific investigation in astronomy.

PHSCS 545 : Introduction to Plasma Physics. (3:3:0)
OFFERED: F alternate years
PREREQUISITE: Phscs 321, 431, 441.
DESCRIPTION: Introduction to plasma physics, including single-particle motion and both fluid and kinetic models of plasma behavior.

PHSCS 561 : (Phscs-Me En) Fundamentals of Acoustics. (3:3:0)
OFFERED: F
PREREQUISITE: Phscs 123 or equivalent; Math 303 or 334 or equivalent.
RECOMMENDED: Phscs 318, 321; or equivalents.
DESCRIPTION: Sound generation, transmission, reflection, and reception. Vibrating systems, elastic media, mechanical energy, and radiation. Sound in tubes and cavities. Acoustic filters. Noise measurement and perception.

PHSCS 571 : Laser Physics. (3:3:0)
OFFERED: F alt. yr.
PREREQUISITE: Phscs 471 or basic understanding of electromagnetic waves and optics.
DESCRIPTION: Laser amplification, cavity design, and control and characterization of temporal and spatial modes. Applications in nonlinear optics and atomic physics.

PHSCS 581 : Solid-State Physics. (3:3:0)
OFFERED: W
PREREQUISITE: Phscs 222 or equivalent.
DESCRIPTION: Introduction to the physics of solids. Crystal structure and symmetry, X-ray diffraction, lattice vibrations, metals and semiconductors, superconductivity, thermal properties, magnetic properties, and dielectric and optical properties.

PHSCS 583 : Physics of Nanostructures, Surfaces, and Interfaces. (3:3.0:0.0)
OFFERED: On demand.
PREREQUISITE: Phscs 222 or equivalent.
RECOMMENDED: Phscs 281 or 581 or equivalent; Phscs 451 or Chem 462 or equivalent.
DESCRIPTION: Properties of nanostructures, surfaces, and interfaces; experimental methods. Applications to emerging problems and opportunities in science and technology. Emphasis on concepts.

PHSCS 585 : Thin-Film Physics. (3:3:0)
OFFERED: W alternate years
PREREQUISITE: Phscs 222 or equivalent.
DESCRIPTION: Preparation, characterization, use, and special properties of modern thin films; interdisciplinary treatment. Of interest to students in applied physics and engineering.

PHSCS 587 : Physics of Semiconductor Devices. (3:3.0:0.0)
OFFERED: F alternate years.
PREREQUISITE: Phscs 281 or 581 or ECEn 450.
DESCRIPTION: Device physics, with an in-depth study of the MOS transistor and other nanoscale computing devices.

PHSCS 599R : Academic Internship. (.5-9:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: department cooperative education coordinator's consent.
DESCRIPTION: Cooperative education internships off campus.

Physics and Astronomy Faculty

Professors

Allred, David D

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Physics and Astronomy
RANK: Professor
DEGREES: BS, Brigham Young University, 1971
MS, Princeton University, 1973
PhD, Princeton University, 1977

Berrondo, Manuel

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Physics and Astronomy
RANK: Professor
DEGREES: BS, University of Mexico, 1966
PhD, University of Uppsala, Sweden, 1969

Clark, Robert Beck

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Physics and Astronomy
RANK: Professor
DEGREES: BA, Yale University, 1963
PhM, Yale University, 1967
PhD, Yale University, 1968

Moody, Joseph Ward

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Physics and Astronomy
RANK: Professor
DEGREES: BS, Brigham Young University, 1980
MS, University of Michigan, Ann Arbor, 1984
PhD, University of Michigan, Ann Arbor, 1986

Peatross, Justin Bruce

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Physics and Astronomy
RANK: Professor
DEGREES: BS, Brigham Young University, 1988
MS, University of Rochester, 1990
PhD, University of Rochester, 1993

Rees, Lawrence B

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Physics and Astronomy
RANK: Professor
DEGREES: BS, Brigham Young University, 1976
MS, University of Maryland, College Park, 1979
PhD, University of Maryland, College Park, 1983

Sommerfeldt, Scott D

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Physics and Astronomy
RANK: Professor
DEGREES: BM, Brigham Young University, 1983
MS, Brigham Young University, 1986
PhD, Pennsylvania State University, 1989

Spencer, Ross Loren

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Physics and Astronomy
RANK: Professor
DEGREES: BS, Brigham Young University, 1974
MS, University of Wisconsin, Madison, 1976
PhD, University of Wisconsin, Madison, 1979

Stokes, Harold T

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Physics and Astronomy
RANK: Professor
DEGREES: BS, Brigham Young University, 1971
PhD, University of Utah, 1977

Taylor, Benjamin Joseph

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Physics and Astronomy
RANK: Professor
DEGREES: AA, Pasadena City College, 1962
BA, University of California, Berkeley, 1964
PhD, University of California, Berkeley, 1969

Turley, R. Steven

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Physics and Astronomy
RANK: Professor
DEGREES: BS, Brigham Young University, 1978
PhD, Massachusetts Institute of Technology, 1984

Associate Professors

Bergeson, Scott D

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Physics and Astronomy
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1990
PhD, University of Wisconsin, Madison, 1995

Campbell, Branton J

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Physics and Astronomy
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1993
MA, University of California, Santa Barbara, 1995
PhD, University of California, Santa Barbara, 1999

Christensen, Clark G

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Physics and Astronomy
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1966
PhD, California Institute of Technology, 1972

Colton, John S

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Physics and Astronomy
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1994
MS, University of California, Berkeley, 1997
PhD, University of California, Berkeley, 2000

Davis, Robert Clinton

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Physics and Astronomy
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1989
PhD, University of Utah, 1996

Durfee, Dallin S

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Physics and Astronomy
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1994
PhD, Massachusetts Institute of Technology, 1999

Hart, Grant W

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Physics and Astronomy
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1977
PhD, University of Maryland, College Park, 1983

Hart, Gus L. W.

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Physics and Astronomy
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1994
MS, University of California, Davis, 1997
PhD, University of California, Davis, 1999

Hess, Bret C

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Physics and Astronomy
RANK: Associate Professor
DEGREES: BS, Brigham Young Iniversity, 1982
PhD, Iowa State University, 1988

Hintz, Eric G.B.

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Physics and Astronomy
RANK: Associate Professor
DEGREES: BS, Case Western Reserve University, 1988
BS, Case Western Reserve University, 1988
PhD, Brigham Young University, 1995

Hirschmann, Eric W

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Physics and Astronomy
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1991
PhD, University of California, Santa Barbara, 1996

Leishman, Timothy W.

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Physics and Astronomy
RANK: Associate Professor

of Britain's influence. Emphasis also on cultural developments.

HIST 331 : Twentieth -Century Russia. (3:3:0)
OFFERED: W
DESCRIPTION: The rise and fall of the Soviet Union and recent attempts to refashion the Russian economy and government.

c. Latin America
HIST 252 : Modern Latin America. (3:3:0)
OFFERED: F, W
DESCRIPTION: National period (1810 to present): independence, institutional development, culture, and inter-American relations.

d. United States
HIST 373 : Civil War Era, 1848-1877. (3:3:0)
OFFERED: F odd years.
DESCRIPTION: Causes of the war, major military events (leaders, campaigns, soldiers), war on the home fronts, why the South lost, Reconstruction, the legacy of the war.

HIST 378 : American Family History. (3:3:0)
DESCRIPTION: History of American families from colonial period to the present.

HIST 400 : The Family and the Law in American History. (3:3:0)
OFFERED: F, W
DESCRIPTION: The interaction of families with law and government as illustrated in original American sources; individual family histories reconstructed in the broader perspective of history.

BYU undergraduate campus courses (including Salt Lake Center courses) as follows:

Any BYU courses in history (not including family history) may also be used to satisfy the emphasis elective requirements.

4. Complete the following capstone course:
STDEV 490 : Bachelor of General Studies Capstone. (2:2:0)
OFFERED: Independent Study only.
PREREQUISITE: StDev 100; completion of all other BGS program requirements.
DESCRIPTION: Culminating course required for bachelor of general studies degree: analyze and evaluate BGS experience in light of the "Aims of a BYU Education" and summarize this experience in a reflective paper, integrate material learned in emphasis by completing a scholarly essay, and demonstrate accomplishment of learning outcomes.

*Hours include courses that may fulfill university core requirements.

Admission to Degree Program

All degree programs in the Department of Political Science are open enrollment.

The Discipline

The political science major is designed to fulfill the admonition of the Doctrine and Covenants (88:79–80) to teach one another "things which are at home, things which are abroad; the wars and the perplexities of the nations, and the judgments which are on the land; and a knowledge also of countries and of kingdoms that ye may be prepared in all things."

Politics extends far beyond the immediate concerns of politicians or pollsters; it is essential to the human condition. Since we are all shaped by the institutions we inhabit, political science helps us to understand not only our world but ourselves. It involves fundamental choices concerning our life in communities whether locally, nationally, or globally. Without politics there could be only chaos and conflict. With politics there is the chance for order and thus the opportunity to seek prosperity and fulfillment. Often conflictual but just as often cooperative, politics reflects our basic needs and interests, our highest aspirations, and the often harsh requirements of power.

Political science involves this full range of inquiry, including questions of "who gets what," questions of the best or most just political order, and questions of the nature, uses, and abuses of power. Political science students will be exposed to a broad range of perspectives or great ideas about politics to better understand questions such as "Why is campaign finance reform so difficult?" "Why did the Soviet Union fall?" "Were the Athenians justified in condemning Socrates to death?" and "Do democracies fight fewer wars?" Students will learn a variety of methods ranging from statistical analysis of quantifiable data to historical comparison of institutions to reflection on influential texts. Before graduating, students will not only better define their own values and ideas about politics but also develop their own significant research project as political scientists. Students will be prepared "in all things" to influence their communities for the better.

Career Opportunities

The Political Science Department offers an undergraduate degree in political science for students who are preparing for graduate study in related fields, professional degrees (law or business), or a wide variety of public service occupations, or for liberal arts students who are interested in an undergraduate major that focuses on challenging questions facing modern society.

Students may emphasize the subfields of American politics, comparative politics, international politics, political philosophy, or public policy.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Major

BA in Political Science

Minors

Political Science
Political Science Teaching

Students should see their college advisement center for help or information concerning the undergraduate programs.

General Information

All political science students should enrich their undergraduate education and enhance their career prospects with an off-campus internship experience. Several high-quality opportunities are available for which credit may be earned toward the major or minor.

Washington Seminar. Students from any academic discipline spend a semester or term in Washington, D.C., working in government, business, communications, or the arts. Complementing course work involving readings and briefings on contemporary national issues is part of the curriculum. From 6 to 12 hours of upper-division credit may be earned.

Utah State Legislature Internship. During each winter semester students from any academic discipline may work as interns in the Utah State Legislature. Students interested in legislative and public policy processes will particularly benefit from the experience. Complementing course work on state government can be taken in conjunction with the internship. From 6 to 12 hours of upper-division credit may be earned.

State and Local Government Internships. Throughout the year students may intern with city, county, or state governments, as well as the district offices of U.S. senators and representatives (availability of positions may vary). From 3 to 6 hours of upper-division credit may be earned.

International Internships. The International Internship Program at the David M. Kennedy Center places students in a variety of internships with foreign governments and international institutions.

Requirements

1. Internships should be completed during the junior or senior year. Prior to the internship students should have completed Pl Sc 110 and 200.
2. Students must have a cumulative grade point average of 2.7 or better (Washington Seminar requires a 3.0) and be in good academic standing. Strong research and writing skills are important qualifications.
3. All internship programs have a strong and complementing academic component to help students gain the most from their experience. Students completing any of the above internships must be enrolled for credit.

Hide All Course Descriptions

The Discipline

See general description of the discipline.

Career Opportunities

Career choices open to graduates in political science include careers in law, teaching, business, journalism, the media, and libraries, as well as with interest groups and associations. In addition, majors are also placed with federal, state, and local governments and are found in elective politics. A number of these options do require additional graduate training.

Program Requirements | View MAP

1. At least 27 hours of political science courses must be taken in residency at BYU (BYU Independent Study courses do not meet this requirement).
2. Pl Sc 101, 102, and 297 do not count toward the major or minor.
3. Only 6 hours of 298R and 399R combined may count toward the major.
4. No cooperative education (internship) credit from other universities or colleges will be accepted toward the major.
5. Majors are strongly encouraged to take Phil 150 to complete the GE First-Year Writing requirement.
6. Pl Sc 200 is prerequisite to all upper-division courses and must be taken no later than the sophomore year.
7. Complete the following:
   ECON 110 : Economic Principles and Problems. (3:3:0)
   OFFERED: F, W, Sp, Su
   DESCRIPTION: Strengths and weaknesses of markets and governments for solving problems of social organization or conflict, including policy response to inflation, unemployment, pollution, poverty, growth, etc.
8. Complete two of the following foundation courses before higher-numbered courses (they do not need to be taken in order):
   PL SC 110 : American Government and Politics. (3:3:0)
   OFFERED: F, W; Sp and Su on demand. Honors also. Independent Study also.
   DESCRIPTION: Origin and development of federal Constitution; national, state, and local governments and politics.

   PL SC 150 : Comparative Government and Politics. (3:3:0)
   OFFERED: F, W; Sp and Su on demand. Honors also.
   DESCRIPTION: Patterns of European, Asian, Latin American, and other political systems.

   PL SC 170 : Introduction to International Politics. (3:3:0)
   OFFERED: F, W; Sp and Su on demand.
   DESCRIPTION: Basic forces, practices, institutions, and foreign policies of major powers; problem areas in international politics.

   Note: Students who do not take one of these three foundation courses must take a corresponding upper-division elective course. If you do not take Pl Sc 110, you must take one course selected from Pl Sc 310–319R, 320, 321, 322, or 410. If you do not take Pl Sc 150, you must take one course selected from Pl Sc 341–349R, 350–359R, 444, or 450–458. If you do not take Pl Sc 170, you must take one course selected from Pl Sc 370–379R, 380–388, or 470–474.

9. Complete one of the following foundation courses before higher-numbered courses:

PL SC 202 : Western Political Heritage 2. (3:3:0)
OFFERED: F, W; Sp and Su on demand. Honors also.
DESCRIPTION: Western civilization from Renaissance to present, primarily from perspective of political philosophy; exploring fundamental questions in human experience; examining formative events in history; understanding value of important texts.

PHIL 202 : History of Philosophy 2. (3:3:0)
OFFERED: F, W, Sp on demand, Su on demand; Honors also.
PREREQUISITE: Phil 201.
DESCRIPTION: Western civilization from Renaissance to present, primarily from perspective of philosophy; exploring fundamental questions in human experience; examining formative events in history; understanding value of important texts.

Note: If students do not take Pl Sc 201 or Phil 201, they must take an upper-division elective course selected from Pl Sc 300–309, 400–409, or 322, 334, 336, 364, 374, 473.

10. Complete the following methodology courses:

PL SC 200 : Political Inquiry. (4:3:1)
OFFERED: F, W; Sp and Su on demand.
DESCRIPTION: Methodology of political science, including theory and techniques of qualitative and quantitative research design.
NOTE: Prerequisite to all upper-division courses.

PL SC 328 : Quantitative Political Methodology. (4:3:1)
OFFERED: F, W
PREREQUISITE: Pl Sc 200.
DESCRIPTION: Quantitative techniques in political research.

Note: Pl Sc 200, along with a capstone seminar, fulfills the University Core Advanced Written and Oral Communication requirement. Pl Sc 328 fulfills the University Core Languages of Learning requirement (math option).

11. Complete one of the following theory courses during the junior year (note prerequisites in course descriptions):

PL SC 300 : Contemporary Political Theory. (3:3:0)
OFFERED: F, W; Sp and Su on demand.
PREREQUISITE: PlSc 201, 202; or Phil 201, 202.
DESCRIPTION: History of political science, including the moral and ethical dimensions of politics.

PL SC 310 : Theories of American Politics. (3:3:0)
OFFERED: F, W; Sp and Su on demand.
PREREQUISITE: Pl Sc 110, 200.
DESCRIPTION: Major theories and approaches used to explain American politics.

PL SC 330 : Theories of Public Policy. (3:3:0)
OFFERED: F and W on demand.
PREREQUISITE: Econ 110, PlSc 110, 200.
DESCRIPTION: Major theories used in assessing public policies, including policy formation, interaction of politics and economics, institutions of policy making, and policy.

PL SC 350 : Theories of Comparative Politics. (3:3:0)
OFFERED: F and W on demand.
PREREQUISITE: Pl Sc 150, 200.
DESCRIPTION: Selected issues of comparative politics such as crisis and discontinuity; development; political infrastructure (e.g., political culture and social structure); political institutions.

PL SC 370 : Theory of International Relations. (3:3:0)
OFFERED: F and W on demand.
PREREQUISITE: PlSc 170, 200.
DESCRIPTION: Most influential traditions of thought in international relations; includes realism, idealism, Marxism, neorealism, complex interdependence, etc.

12. Complete 24 additional hours of political science electives, except 400, 410, 430, 450, 470. Only one 100-level course and one 200-level course may be counted.

13. Complete one of the following capstone seminars during the senior year. A completed capstone paper with at least a C– grade is required to receive a final grade in all capstone classes and fulfill the University Core Advanced Written and Oral Communication requirement (note prerequisites in course descriptions):

PL SC 400 : Capstone Seminar in Political Theory. (3:3:0)
OFFERED: F and W on demand.
PREREQUISITE: PlSc 200, 201, 202, 300. For political science majors only.
DESCRIPTION: Seminar in political theory for students in their senior year.

PL SC 410 : Capstone Seminar in American Politics. (3:3:0)
OFFERED: F, W; Sp and Su on demand.
PREREQUISITE: PlSc 110, 200.
DESCRIPTION: Seminar in American politics and government for students in their senior year.
NOTE: For political science majors only.

PL SC 430 : Capstone Seminar in Public Policy. (3:3:0)
PREREQUISITE: PlSc 110, 200.
DESCRIPTION: Seminar in public policy for students in their senior year.
NOTE: For political science and public policy majors only.

PL SC 450 : Capstone Seminar in Comparative Politics. (3:3:0)
OFFERED: F, W; Sp and Su on demand.
PREREQUISITE: PlSc 150, 200.
DESCRIPTION: Seminar in comparative politics and government for students in their senior year.
NOTE: For political science majors only.

PL SC 470 : Capstone Seminar in International Relations. (3:3:0)
OFFERED: F, W; Sp and Su on demand.
PREREQUISITE: PlSc 170, 200.
DESCRIPTION: Seminar in international relations and politics for students in their senior year.
NOTE: For political science majors only.

14. All students are strongly encouraged to complete an internship. Established programs are available through Washington Seminar, Utah State Legislature, or the Kennedy Center. Up to 6 hours of credit earned from an internship (399R) may be counted toward the major.

15. Students who plan no formal education beyond the bachelor's degree should take a double major or develop adequate skills through other courses that will enhance their employment opportunities. Consult the college advisement center or department Web site.
Students who plan to seek MA or PhD degrees are strongly encouraged to strengthen their quantitative and analytical skills. These students should consult with faculty about other skills that specific graduate programs might require.

16. Students scoring a 5 on the American Government and/or Comparative Government AP exams may substitute AP credit for Pl Sc 110 or Pl Sc 150, respectively. However, they are required to take at least one upper-division elective in each subfield in which they substitute AP credit for American Government and Politics or Comparative Government and Politics.

*Hours include courses that may fulfill university core requirements.

Undergraduate Courses

100-Level Courses

PL SC 101R : Current Events and Political Science. (1-2:Arr:0)
OFFERED: F, W
DESCRIPTION: An introduction to political science using both national and international current events. Introduces faculty, career opportunities, academic expectations, and campus resources. Appropriate for non-majors.

PL SC 102 : Review of U.S. Government for Washington Seminar Students. (1:1:0)
DESCRIPTION: Review of the essentials of American national government for nonmajors participating in the Washington Seminar.
NOTE: May not count toward a political science major or minor.

PL SC 110 : American Government and Politics. (3:3:0)
OFFERED: F, W; Sp and Su on demand. Honors also. Independent Study also.
DESCRIPTION: Origin and development of federal Constitution; national, state, and local governments and politics.

: Honors American Government and Politics.

PL SC 150 : Comparative Government and Politics. (3:3:0)
OFFERED: F, W; Sp and Su on demand. Honors also.
DESCRIPTION: Patterns of European, Asian, Latin American, and other political systems.

: Honors Comparative Government and Politics.

PL SC 170 : Introduction to International Politics. (3:3:0)
OFFERED: F, W; Sp and Su on demand.
DESCRIPTION: Basic forces, practices, institutions, and foreign policies of major powers; problem areas in international politics.

200-Level Courses

PL SC 200 : Political Inquiry. (4:3:1)
OFFERED: F, W; Sp and Su on demand.
DESCRIPTION: Methodology of political science, including theory and techniques of qualitative and quantitative research design.
NOTE: Prerequisite to all upper-division courses.

PL SC 201 : Western Political Heritage 1. (3:3:0)
OFFERED: F, W; Sp and Su on demand. Honors also.
DESCRIPTION: Western civilization from Greek antiquity to Renaissance, primarily from perspective of political philosophy and scriptures; exploring fundamental questions in human experience; examining formative events in history; understanding value of important texts.

: Honors Western Political Heritage 1.

PL SC 202 : Western Political Heritage 2. (3:3:0)
OFFERED: F, W; Sp and Su on demand. Honors also.
DESCRIPTION: Western civilization from Renaissance to present, primarily from perspective of political philosophy; exploring fundamental questions in human experience; examining formative events in history; understanding value of important texts.

: Honors Western Political Heritage 2.

PL SC 297 : Internship Program Preparation. (1-2:ARR:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Preparatory seminar for students who will be participating in departmental internship programs.

300-Level Courses

PL SC 300 : Contemporary Political Theory. (3:3:0)
OFFERED: F, W; Sp and Su on demand.
PREREQUISITE: PlSc 201, 202; or Phil 201, 202.
DESCRIPTION: History of political science, including the moral and ethical dimensions of politics.

PL SC 301 : Philosophy of the Social Sciences. (3:3:0)
DESCRIPTION: Comparative analysis of the philosophy of scientific and normative inquiry.

PL SC 308 : Theories of Human Freedom. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Scope of human freedom at the metaphysical, individual, social, and political levels.

PL SC 309R : Topics in Political Philosophy. (3:3:0)

PL SC 310 : Theories of American Politics. (3:3:0)
OFFERED: F, W; Sp and Su on demand.
PREREQUISITE: Pl Sc 110, 200.
DESCRIPTION: Major theories and approaches used to explain American politics.

PL SC 311 : State and Local Government and Politics. (3:3:0)
OFFERED: On demand.
PREREQUISITE: Pl Sc 110.
DESCRIPTION: Relation of state and national governments, forms of state governments and politics, types of municipal governments and their operation.

PL SC 312 : Japanese-American Internment: Topaz Plus. (3:3:0)
OFFERED: F alternate years.
RECOMMENDED: Pl Sc 110.
DESCRIPTION: Japanese-American internment in the context of American democracy. Assessing how this was allowed to happen in our democratic system of government. Focus on the situation at Topaz Relocation Camp (located near Delta, Utah) and the other nine camps; the cause for incarceration of such a sizeable number of citizens. Field trip to Topaz.

PL SC 313 : Interest Groups. (3:3:0)
OFFERED: On demand.
PREREQUISITE: PlSc 110.
DESCRIPTION: Theories on formation and maintenance of interest groups; tactics of groups in legislative, executive, bureaucratic, and court settings; influence of groups on elections and public policy.

PL SC 314 : The United States Presidency. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Presidential power in the United States, focusing on major roles of the American presidency.

PL SC 315 : Congress and the Legislative Process. (3:3:0)
OFFERED: On demand.
PREREQUISITE: PlSc 110.
DESCRIPTION: Election process; structure, organization, and procedures of legislative bodies; relations with pressure groups, the president, and executive branch.

PL SC 316 : American Political Parties. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Electoral and policy-making roles of American political parties today and their future in American politics.

PL SC 317 : Public Opinion and Voting Behavior. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Relationship between attitudes, opinion, and voting behavior in American politics and institutions.

PL SC 318 : Campaigns and Elections. (3:3:0)
DESCRIPTION: Analyzes electoral process in the United States, including history, significance in governance, campaign strategy, finance, media role, etc.

PL SC 319R : Topics in American Government and Politics. (.5-3:3:0)

PL SC 320 : American Politics Through Literature. (3:3:0)
DESCRIPTION: American politics through the novel and other literary works. Developing political concepts and themes that come from significant political novels.

PL SC 321 : The Media in American Politics. (3:3:0)
OFFERED: On demand.
DESCRIPTION: News media's role in processes of American politics, including electoral process, legislative process, and public policy-making.

PL SC 322 : Early American Political Thought: 1620-1865. (3:3.0:0.0)
OFFERED: On demand.

Admission to Degree Program

All undergraduate degree programs in the Department of Psychology are open enrollment.

The Discipline

Psychology is a traditional discipline in the liberal arts and sciences and is rooted in the Western intellectual tradition. Since its founding in the late nineteenth century, psychology has distinguished itself primarily as a science with a wide scope of interests. Many psychologists also provide treatment for a broad range of disorders, and others work to solve pressing social issues. The diverse world community of academic and professional psychologists is devoted to expanding our understanding of individual and collective behavior and applying that understanding toward improving the human condition.

The department joins students and faculty together to make a scientific and applied contribution to the discipline of psychology. Its faculty members and administrators are committed to an educational experience that excites learning and understanding in personal and collaborative settings. At the same time the department honors the restored gospel as vital for psychological theory, as a guide for professional conduct, and as a source of unique insight. Aware of the history of psychology and as active participants therein, faculty members hold students to high standards of individual and collective performance and understanding. Students are expected to respond to multiple styles of teaching and broad opportunities for engagement in research and application with serious and sustained interest and effort. In this way the department distinguishes itself as a community of scholarship, moral principle, and devotion to the elevation of humankind.

Career Opportunities

The psychology major is a gateway to professional employment and to advanced study in psychology. Psychologists engage in a variety of academic roles as teachers, researchers, and administrators and also provide counseling, clinical, and consulting services to individuals and organizations. Psychologists are employed by colleges and universities, public and private schools, clinics, and hospitals. They work in private practice and for corporations and government entities. The study of psychology has particular value for family life and for civic and cultural roles generally. The psychology major provides a well-informed perspective on human and organizational behavior in preparation for occupations in law enforcement, law, or business.

Most professional positions require a master's or doctoral degree, although a bachelor's degree may be sufficient to gain employment in mental health care, detention and probation services, auxiliary social work, personnel, or human resources. Further, the psychology major gives students a particularly strong background leading to graduate study in business, law, or medicine.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Major
- BS in Psychology

Minors
- Psychology
- Psychology Teaching

Students should see their college advisement center for help or information concerning the undergraduate programs.

Graduate Programs and Degrees

MS in Psychology
PhD in Psychology
PhD in Clinical Psychology

PSYCH 353 : LDS Perspectives and Psychology. (3:3:0)
OFFERED: F, W
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent.
DESCRIPTION: Relationships between theories of psychology and LDS thought.

PSYCH 354 : Psychology of Religion. (3:3:0)
OFFERED: W
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent.
DESCRIPTION: Classification of religious behavior and experience; source of religious motivation; religion and the growth process.

PSYCH 356 : Introduction to Health Psychology. (3:3:0)
OFFERED: F
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent.
DESCRIPTION: Psychology focusing on the Biopsychological Model, i.e., health issues from standpoint of biological, psychological, and social factors.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

PSYCH 358 : Leadership Development. (3:2:2)
OFFERED: F, W
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent.
DESCRIPTION: Principles and practices of successful leadership: decision making, communications, planning, team building, motivation, and interpersonal skills.

PSYCH 359 : Environmental Psychology. (3:3:0)
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent.
DESCRIPTION: Interaction between people and their physical context.

PSYCH 361 : Principles of Learning. (3:3:0)
OFFERED: F, W
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent.
DESCRIPTION: Principles of learning; representative experiments.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

PSYCH 365 : Motivation. (3:3:0)
OFFERED: F, W
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent.
DESCRIPTION: Determinants of motivation, relationship of motives to emotion, cognition, personality, and action. Implications for understanding self and others.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

PSYCH 370 : Sensation and Perception. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent; or Neuro 105 for neuroscience majors.
DESCRIPTION: Sensory basis of perception and principles of perceptual organization.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

PSYCH 375 : Cognition. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent.
DESCRIPTION: Perceptual organization; information processing; cognitive development; relationships between sensory analysis, perception, memory, learning, language, and problem solving.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

PSYCH 376 : Language Development. (3:3:0)
OFFERED: F alternate years.
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent.
DESCRIPTION: Principles of language acquisition including communicative development in infancy, sematic and syntactic development, language and literacy in the school years, and effects of brain damage.

PSYCH 381 : Behavioral Neurobiology. (3:3:0)
OFFERED: F, W
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent. (Neuro 205 will substitute for Psych 302.)
DESCRIPTION: Basic physiological, anatomical, and chemical foundations of psychology.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

PSYCH 382 : Stress Psychobiology. (3:3:0)
OFFERED: F
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent. (Neuro 205 will substitute for Psych 302.)
DESCRIPTION: Behavioral neurobiology of stress.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

PSYCH 386R : Behavioral Neurobiology Laboratory. (.5-3:ARR:ARR)
OFFERED: F, W
PREREQUISITE: Psych 381, 382; or concurrent enrollment and instructor's consent.

PSYCH 387 : Introduction to Primate Behavior. (3:3:0)
OFFERED: W
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent.
DESCRIPTION: Overview of primate behavior; the role of parental care on developmental outcome, functional neurobiology, and psychopathology.

PSYCH 390R : Special Topics in Psychology. (.5-3:3:0)
OFFERED: F, W, Sp, Su

: Advanced Personality Studies.
: Comp. Animal Behavior.
: Ethology and Sociobiology.
: Forum Lecture.

PSYCH 399R : Academic Internship. (.5-9:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent.

400-Level Courses

PSYCH 410R : Senior Practicum: Teaching of Psychology. (1-8:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Psych 301, 302, 303, 304; cluster requirements (or concurrent enrollment in last elective course); or instructor's consent.
DESCRIPTION: Capstone experience as an undergraduate teaching assistant or Psych Central tutor or in other teaching-related activities, including research.

PSYCH 420R : Senior Practicum: Community Projects. (1-8:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Psych 301, 302, 303, 304; cluster requirements (or concurrent enrollment in last elective course); or instructor's consent.
DESCRIPTION: Capstone experience in community-based service learning related to practice of psychology. Structured record of student's experience required.

PSYCH 430R : Senior Practicum: Research in Psychology. (1-8:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Psych 301, 302, 303, 304; cluster requirements (or concurrent enrollment in last elective course); or instructor's consent.
DESCRIPTION: Capstone experience in psychological research--laboratory-based, field based, or otherwise. Student typically work with a research team.

PSYCH 492R : Supervised Instructional or Research Experience. (.5-3:0:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent.
DESCRIPTION: Course-related instructional activities or laboratory/field research.

PSYCH 495R : Independent Readings. (.5-3:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent.

PSYCH 499R : Independent Research. (.5-3:0:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent.

500-Level Graduate Courses (available to advanced undergraduates)

PSYCH 501 : Data Analysis in Psychological Research 1. (4:3:1)
OFFERED: F
PREREQUISITE: Psych 301; or Stat 221, 222, 223; or equivalent; or instructor's consent.
DESCRIPTION: Using and interpreting major quantitative methods in psychology; some commonly used computer methods.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

PSYCH 502 : Data Analysis in Psychological Research 2. (4:3:1)
OFFERED: W
PREREQUISITE: Psych 501 or instructor's consent.
DESCRIPTION: Introduction to multivariate data analysis methods, including multivariate analysis of variance, factor analysis, discriminant analysis, multivariate multiple regression, canonical correlation, structural equations modeling, cluster analysis, etc.

PSYCH 503 : Research Measurement. (3:3:0)
OFFERED: W
PREREQUISITE: Psych 501 or instructor's consent.
DESCRIPTION: Classical true score and item response theories; estimation procedures for instrument reliability and validity.

PSYCH 504 : Research Design. (3:3:0)
OFFERED: F
PREREQUISITE: Concurrent enrollment in Psych 501.
DESCRIPTION: Overview of designs used in psychotherapeutic literature, emphasizing critical analysis of empirical research.

PSYCH 505 : Clinical Research. (3:3:0)
OFFERED: W
PREREQUISITE: Psych 503, 504; or instructor's consent.
DESCRIPTION: Overview of research examining processes and outcomes of psychological treatments for psychological disorders.

PSYCH 510 : History and Systems of Psychology. (3:3:0)
OFFERED: Sp alternate years.
PREREQUISITE: Psych 210 or equivalent; or instructor's consent.
DESCRIPTION: Survey of origins and development of modern psychology, including consideration of the schools and theoretical systems.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

PSYCH 511 : Philosophy of Science for the Social Sciences. (3:3:0)
OFFERED: W
PREREQUISITE: Instructor's consent or admission to PhD program.
DESCRIPTION: Issues in philosophy of science as they apply to social sciences, including methods, epistemology, and construction of knowledge.

PSYCH 512 : Qualitative Research Methods. (3:3:0)
OFFERED: W alternate years.
PREREQUISITE: Psych 501, 502; or instructor's consent.
DESCRIPTION: Theories and methods of qualitative research emphasizing philosophical assumptions, question formulation, data gathering, interpretation, and presentation of findings.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

PSYCH 520 : Advanced Developmental Psychology. (3:3:0)
OFFERED: Sp alternate years.
PREREQUISITE: Psych 320, 321, or 322 or equivalent; or instructor's consent.
DESCRIPTION: Major research in developmental psychology, emphasizing theory, content, and methodology.

PSYCH 531 : Organizational Psychology. (3:3:0)
PREREQUISITE: Psych 330 or equivalent; or instructor's consent.
DESCRIPTION: Personal and interpersonal aspects of organizational life: goal setting, decision making, problem solving, communication, control, leadership, motivation, and change.

PSYCH 535 : Behavior Modification Techniques. (3:2:2)
PREREQUISITE: Psych 361 or equivalent; or instructor's consent.
DESCRIPTION: Practical application of behavior modification to academic discipline; emotional target behaviors of individuals and groups.

PSYCH 540 : Personality Theory. (3:3:0)
OFFERED: W
PREREQUISITE: Psych 341 or equivalent; or instructor's consent.
DESCRIPTION: Contemporary theories of personality developed within the framework of major psychological systems.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

PSYCH 550 : Theory and Research in Social Psychology. (3:3:0)
OFFERED: F
PREREQUISITE: Psych 350 or equivalent; or instructor's consent.
DESCRIPTION: Current theories and research on interaction with others.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

PSYCH 552 : Applied Social Psychology. (3:3:0)
OFFERED: W
PREREQUISITE: Psych 352 or equivalent; or instructor's consent.
DESCRIPTION: Overview of domains in which social psychological theory and research have been applied in field settings.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

PSYCH 555 : Group Dynamics. (3:3:0)
OFFERED: F alternate years.
PREREQUISITE: Psych-Soc 350 or equivalent; or instructor's consent.
DESCRIPTION: Theories and research on small-group processes and mass behavior.

PSYCH 560 : Learning Theory. (3:3:0)
OFFERED: W
PREREQUISITE: Psych 361 or equivalent; or instructor's consent.
DESCRIPTION: Critical review of current theories and persistent issues.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

PSYCH 565 : Motivational Psychology. (3:3:0)
OFFERED: F
PREREQUISITE: Psych 365 or equivalent; or instructor's consent.
DESCRIPTION: Theoretical, historical, and empirical overview; recent trends and issues; role of animal studies; methodological issues.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

PSYCH 575 : Cognitive Processes. (3:3:0)
OFFERED: F
PREREQUISITE: Psych 370, 375; or equivalents; or instructor's consent.
DESCRIPTION: Theory and research in perception, attention, language, problem solving, and other thinking processes.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

PSYCH 583 : Biological and Health Psychology. (3:3:0)
OFFERED: W
PREREQUISITE: Psych 381, 382; or equivalents; or instructor's consent.
DESCRIPTION: In-depth examination of biological bases of behavior from perspective of health and disease.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

PSYCH 584 : Cognitive Neuroscience. (3:3:0)
OFFERED: W
PREREQUISITE: Psych 381 or equivalent; or instructor's consent.
DESCRIPTION: Critical analysis of neurobiological bases of perception and cognition.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

PSYCH 585 : Human Neuropsychology. (3:3:0)
OFFERED: W on demand.
PREREQUISITE: Psych 381, 382; or equivalents; or instructor's consent.
DESCRIPTION: Critical study of brain-behavior relationships.

PSYCH 586 : Hormones and Behavior. (3:3:0)
PREREQUISITE: Psych 381, 382; or equivalents; or instructor's consent.
DESCRIPTION: Neural and endocrine mechanisms underlying behavior.

PSYCH 587 : Sensory and Perceptual Processes. (3:3:0)
OFFERED: F on demand, W on demand
PREREQUISITE: Psych 370, 381; or equivalents; or instructor's consent.
DESCRIPTION: Critical examination of sensory mechanisms and perceptual organization.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

PSYCH 592R : Supervised Teaching Experience. (.5-3:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent.
NOTE: For graduate teaching assistants.

Undergraduate Courses

300-Level Courses

P MGT 321 : Financial Issues in Public and Not-for-Profit Management. (3:3:0)
DESCRIPTION: Introduction to fund accounting, budgeting processes, and sources of revenue such as taxes, municipal bonds, user fees, donations, grants, dues, and ticket sales.

Graduate Courses

For 500-, 600-, and 700-level courses, see George W. Romney Institute of Public Management in the BYU 2008–2009 Graduate Catalog.

Professors

Adolphson, Donald L.
COLLEGE: Marriott School of Management
DEPARTMENT: Romney Institute of Public Management
RANK: Professor
DEGREES: BA, University of California, Berkeley, 1966
MS, University of Wisconsin, Madison, 1968
PhD, University of Wisconsin, Madison, 1973

Cornia, Gary C.
COLLEGE: Marriott School of Management
DEPARTMENT: Romney Institute of Public Management
RANK: Professor
DEGREES: BS, Weber State College, 1972
MS, Utah State University, 1974
PhD, Ohio State University, Columbus, 1979

Walters, Lawrence C.
COLLEGE: Marriott School of Management
DEPARTMENT: Romney Institute of Public Management
RANK: Professor
DEGREES: BA, Brigham Young University, 1981
PhD, University of Pennsylvania, 1987

Associate Professors

Hart, David W.
COLLEGE: Marriott School of Management
DEPARTMENT: Romney Institute of Public Management
RANK: Associate Professor
DEGREES: BA, Brigham Young University, 1989
MPA, Brigham Young University, 1991
PhD, State University of New York, Albany, 1997

Seawright, Kristie Kay
COLLEGE: Marriott School of Management
DEPARTMENT: Romney Institute of Public Management
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1977

BS, University of Utah, 1987
MBA, University of Utah, 1989
PhD, University of Utah, 1993

The Church of Jesus Christ of Latter-day Saints |BYU-Hawaii | BYU-Idaho | BYU Jerusalem Center | BYU Salt Lake Center | LDS Business College | Missionary Training Center

Assistant Professors

Arbon, Chyleen A.

COLLEGE: Marriott School of Management
DEPARTMENT: Romney Institute of Public Management
RANK: Assistant Professor
DEGREES: BA, Brigham Young University, 1994
MPA, Brigham Young University, 1996
PhD, University of Utah, 2004

Facer, Rex L

COLLEGE: Marriott School of Management
DEPARTMENT: Romney Institute of Public Management
RANK: Assistant Professor
DEGREES: BA, Brigham Young University, 1991
MPA, Brigham Young University, 1993
PhD, University of Georgia, 2002

Thompson, Jeffery A.

COLLEGE: Marriott School of Management
DEPARTMENT: Romney Institute of Public Management
RANK: Assistant Professor
DEGREES: BA, Brigham Young University, 1992
MBA, Brigham Young University, 1995
PhD, University of Minnesota, 1999

Wadsworth, Lori L.

COLLEGE: Marriott School of Management
DEPARTMENT: Romney Institute of Public Management
RANK: Assistant Professor
DEGREES: AS, West Valley College, 1980
BS, Brigham Young University, 1982
MPA, Brigham Young University, 1995
PhD, University of Utah, 2003

Assistant Lecturer

Miller, Aaron

COLLEGE: Marriott School of Management
DEPARTMENT: Romney Institute of Public Management
RANK: Assistant Lecturer
DEGREES: BA, Brigham Young University, 2002
JD, Brigham Young University, 2006
MPA, Brigham Young University, 2006

Plant and Wildlife Sciences

Val J. Anderson, Chair
275 WIDB, (801) 422-3527

College of Life Sciences Office of Academic Advisement Office
379 WIDB, (801) 422-3042

Admission to Degree Program

All degree programs in the Department of Plant and Wildlife Sciences are open enrollment.

The Discipline

Disciplines in the Department of Plant and Wildlife Sciences focus on four of the great dilemmas facing mankind in the twenty-first century: harnessing biological technology to meet the needs of an expanding human population in the developing world; assessing and minimizing the impact of human activities on an increasingly vulnerable environment; management and conservation of wildlife and wildlands; and managing landscapes to meet increasing water, space, and other resource limitations while enhancing the aesthetic quality of urban environments.

Majors offered provide a flexible education for directly entering the job market or preparing for professional schools in business, engineering, the health professions (medical and dental schools), landscape architecture, law, public administration, or science.

Career Opportunities

Genetics and Biotechnology

The discipline of genetics and biotechnology focuses on applications of molecular biology and genomics to solve problems related to health, crop and animal production, forensics, and environmental remediation. This field holds tremendous promise for meeting food sustainability needs in the developing world, delivering medical treatments customized to each patient's genomic makeup, and reducing human impacts upon the environment. The major program educates students in scientific principles and current biotechniques through a combination of classroom instruction and mentored laboratory experience on original research projects with faculty and graduate students. Graduates are prepared for immediate employment in the biotechnology industry or for graduate study in biotechnology, molecular genetics, or the health professions. An optional, integrated track in biotechnology business affords students the option of obtaining a management minor through the Marriott School of Management in preparation for management careers in life sciences industries or for law school and subsequent careers as biological patent attorneys.

Environmental Science

Students majoring in environmental science learn fundamental principles of ecology; bioadversity; conservation; chemistry; engineering; geology; geography; and plant, animal (invertebrate/vertebrate), and soil sciences to help them solve environmental problems. They are prepared for graduate study and direct employment in fields dealing with assessing and remediating human-induced environmental impacts, as well as for careers in law, business, and the health professions.

Landscape Management

This program is accredited by the Professional Landcare Network (PLANET), the leading professional organization in landscape contracting. The major combines practice and instruction in horticultural science, business, and landscape design to prepare students for employment as managers in landscape contracting or for graduate studies in business, law, landscape architecture, and horticulture.

Wildlife and Wildlands Conservation

Wildlife and wildlands conservation is directed at managing wildland ecosystems-optimizing the function and services of natural ecosystems. Students are educated in wildland plants, animals, soils, and ecology, as well as wildlife and land management techniques. This focused approach not only qualifies students for four federal job series occupations but also prepares them to work for a wide array of government and private land-management and conservation agencies.

This degree program qualifies students for federal job series employment in wildlife biology, range conservation, ecology, zoology, and botany. It also prepares for graduate programs in renewable natural resources and for eventual professional agencies, including the U.S. Forest Service, Bureau of Land Management, Natural Resource Conservation Service, Fish and Wildlife Service, and Park Service. Graduates are well prepared to deal with complex issues involving wildlife and wildlands management and the overall conservation of natural resources.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0

- Be in good standing with the Honor Code Office

The

Undergraduate Programs and Degrees

Majors

BS in Environmental Science
BS in Genetics and Biotechnology
BS in Landscape Management
BS in Wildlife and Wildlands Conservation

Minors

Environmental Science
Landscape Management

Students should see their college advisement center for help or information concerning the undergraduate programs. Undergraduate advisement in major requirements is available from departmental faculty (assigned advisor).

Graduate Programs and Degrees

MS in Agronomy
MS in Genetics and Biotechnology
MS in Wildlife and Wildlands Conservation
PhD in Wildlife and Wildlands Conservation

For more information see the BYU 2008–2009 Graduate Catalog.

BS in Environmental Science (56–57 hours*)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements | View MAP

1. Complete the following environmental science core courses:

PWS 150 : Environmental Biology. (3:3:0)
OFFERED: F, W
DESCRIPTION: Conservation and management of natural resources concurrent with increasing socioeconomic and human population demands; factors such as soil, water, and air pollution, resources management, bioremediation, nutrient cycles, and global climate changes

PWS 282 : Introduction to Soil Science. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: PWS 283.
DESCRIPTION: Physical, chemical and microbiological properties of soils that affect plant growth in natural, agricultural, and urban environments.

PWS 283 : Introduction to Soil Science Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: PWS 282 or concurrent enrollment.
DESCRIPTION: Laboratory techniques in determining soil physical, chemical, and fertility properties.

PWS 303 : Soils Conservation and Resources. (3:3:0)
OFFERED: F
PREREQUISITE: PWS 100 or equivalent; PWS 282, Chem 105 (or 101), Math 110 or equivalent.
RECOMMENDED: Geol 111.
DESCRIPTION: Taxonomy of world soils; conservation and management of agricultural, wildland, wetland, and urban soils.

: Soil Conservation and Management.

PWS 305 : Soils and Water Quality. (3:3:0)
OFFERED: W
PREREQUISITE: PWS 100 or equivalent; PWS 282; Chem 105 (or 101), Math 110 or equivalent.
DESCRIPTION: Principles and practices of safe management of agricultural and urban wastes; amendments and nutrients including remediation methods for conservation of soils and water quality.

: Conservation and Management.
: Soil and Water.

PWS 345 : Air Pollution and Air Quality. (3:3:0)
OFFERED: F
DESCRIPTION: Biogenic and anthropogenic factors influencing air pollution and air quality. How various compounds (COx, SOx, NOx, particulate matter, ozone, etc.) are generated and influence air quality. Other topics include global warming, coal-fired power generation, transportation-derived pollutants, smog, acid rain, ozone depletion, etc.

PWS 375 : Environmental Policies and Laws. (2:2:0)
OFFERED: W
PREREQUISITE: PWS 150.
DESCRIPTION: Environmental laws (Clean Water Act, Clean Air Act, etc.) and the regulations (National Environmental Policy Act, Nutrient Management Plan, etc.) established in the USA to improve environmental quality.

PWS 491R : Undergraduate Seminar. (1:1:0)
OFFERED: W
DESCRIPTION: Current information in the plant and wildlife sciences.

2. Complete one course from the following:

BIO 450 : Conservation Biology. (3:3:0)
OFFERED: F
PREREQUISITE: Bio 220A or B, 350.
DESCRIPTION: Scientific principles of conservation: applying population genetics, and phylogenetic and ecological theory to preservation of biological diversity; developing sustainable ecological systems compatible with human resource use.

PWS 490 : Case Studies. (2:1:2)
OFFERED: F
PREREQUISITE: PWS 282.
DESCRIPTION: Contemporary agricultural and environmental problems using decision case studies dealing with environmental technology issues and analysis.

PWS 494R : Mentored Learning Experience. (1-6:ARR:ARR)
OFFERED: F, W, Sp, Su
DESCRIPTION: Topics vary.
NOTE: Registration required for mentored experiences.

: Analytical Techniques in Plant Biology.
: Analytical Techniques in Soil Science.
: Animal Cytogenetics Laboratory.
: Animal Genetics and Breeding Techniques.
: Animal Reproductive Research Laboratory.
: Biotechnology Laboratory.
: Environmental Science Computation Laboratory.
: Environmental Science Field Techniques.
: Environmental Science Laboratory.
: Field Techniques in Environmental Soil Research.
: Molecular Genetics and Gene Mapping Laboratory.
: Plant Breeding Field Techniques.
: Plant Cell Biology Laboratory.
: Plant Cytogenetics Laboratory.
: Plant ID / URME Team.
: Plant Physiology Laboratory.
: Plant Tissue Culture and Transformation Techniques.
: Plant and Animal Genomics Laboratory.
: Plant and Soil Science Field Techniques.
: Soil Microbiology Laboratory.
: Soil Physical Properties Laboratory.
: Soil and Water Chemistry Laboratory.
: Soil, Plant, and Water Science Laboratory.

(2 hours required).

3. Complete the following biology courses:

BIO 350 : Ecology. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Bio 220A,B.
DESCRIPTION: Distribution and abundance of organisms and their interactions with the physical and biotic components of the earth.

PDBIO 120 : Science of Biology. (2:2:1)
OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: General biology course designed for biological science majors, emphasizing the scientific method, cell theory, biochemical unity, the Central Dogma, bioenergetics, reproduction, and evolutionary theory.

4. Complete at least 6 hours of the following supporting core courses:

CHEM 105 : General College Chemistry. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energectics, electrochemistry, acids and bases, inorganic and organic chemistry.
NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

Or
CHEM 101 : Introductory General Chemistry. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 97 or equivalent.
DESCRIPTION: Atomic and molecular structure, periodic relationships, states of matter, chemical reactions and stoichiometry, acids and bases.
NOTE: Primarily for nonscience majors who require a broad introduction to general chemistry.

CHEM 106 : General College Chemistry. (3:4:0)
OFFERED: F, W, Su
PREREQUISITE: Chem 105 or equivalent.
DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.
NOTE: Three lectures and one recitation section per week.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 106 or concurrent enrollment.
DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.
NOTE: Required for most students needing one year of general chemistry.

Or
CHEM 103 : Introductory Chemistry Laboratory. (1:0:3)
OFFERED: W
PREREQUISITE: Chem 101 or equivalent.
DESCRIPTION: Introductory laboratory techniques required for simple classical experiments in chemistry.

CHEM 152 : Introductory Organic Chemistry. (2:2:0)
OFFERED: F, W
PREREQUISITE: Chem 101 or adequate high school preparation in chemistry.
DESCRIPTION: Principles of structure and reactivity, properties and reactions of compound classes, syntheses.

Or
CHEM 351 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105, 111; or equivalents.
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: Primarily for majors in chemical engineering and the biological sciences.

Note: Recommended courses for graduate school track or preprofessional track: Chem 105, 106, 107, 351, 352, 353.

5. Complete a minimum of 24 hours (9 hours maximum of lower-division courses) from the following:

BIO 220A : Biological Diversity: Animals. (4:3:3)
OFFERED: F, W
PREREQUISITE: PDBio 120 or equivalent.
DESCRIPTION: Comparative organization and evolutionary significance of morphological, physiological, reproductive, and ecological differences in invertebrates and vertebrates. Laboratory included.

BIO 370 : Bioethics. (2:1:3)
OFFERED: F, W
PREREQUISITE: Introductory biology course.
DESCRIPTION: In-depth lecture and small group discussion of varied bioethical issues. LDS Church positions emphasized when appropriate.

BIO 441 : Entomology. (3:2:3)
OFFERED: F
PREREQUISITE: Bio 220A or equivalent.
DESCRIPTION: External morphology, natural history, evolution, distribution, and phylogeny of insects. Insect collection required.

CHEM 223 : Quantitative and Qualitative Analysis. (4:2:6)
OFFERED: F, Sp
PREREQUISITE: Chem 106 or equivalent.
DESCRIPTION: Principles of chemical equilibrium, quantitative chemical measurements, and qualitative detection

of selected chemical species.
NOTE: Primarily for majors in molecular biology and the life sciences.

CHEM 227 : Introductory Analytical Chemistry. (4:2:6)
OFFERED: F, Sp
PREREQUISITE: Chem 113.
DESCRIPTION: Principles of quantitative analysis, introductory instrumental methods, and computer applications to chemical analysis.

CHEM 285 : Introductory Bio-organic Chemistry. (4:4:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 101 or equivalent.
DESCRIPTION: Principles of organic chemistry and biochemistry relating to biomolecule structure and function.

CHEM 351 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105, 111; or equivalents.
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: Primarily for majors in chemical engineering and the biological sciences.

CHEM 352 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 351 or equivalent.
DESCRIPTION: Continuation of Chem 351.

CHEM 353 : Organic Chemistry Laboratory--Nonmajors. (1-2:0:6)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 352 or concurrent enrollment (preferred).
DESCRIPTION: Physical and chemical properties, isolation and purification, characterization, syntheses.
NOTE: For predentistry, premedicine, and other majors who do not intend to take Chem 455.

CHEM 481 : Biochemistry 1. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Chem 352; Biol 100 or equivalent.
DESCRIPTION: First-semester biochemistry. Molecular components of cells, chemical structure and function, enzymes, metabolic transformations, photosynthesis.
NOTE: For chemistry majors and students in biological sciences who contemplate pursuing advanced degrees, including medicine.

ECON 440 : Natural Resources and Environmental Economics. (3:3:0)
PREREQUISITE: Econ 380; 388 or concurrent enrollment.
DESCRIPTION: Economic theory applied to allocation of natural resources and environmental amenities. Issues relating to externalities, common property resources, public goods, allocation of depletable natural resources over time, economic factors of environmental polarization, and others.

GEOG 101 : Global Environment: Understanding Physical Geography. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Physical environment, distribution and interrelationships of climates, landforms, ecosystems and their human significance.

GEOG 212 : Introduction to Geographic Information Systems. (3:2:1)
OFFERED: F, W; Sp on demand.
DESCRIPTION: Concepts in the use of small- and large-scale digital map data, emphasizing landscape interpretation and feature description.

GEOG 303 : Biogeography. (3:3:0)
OFFERED: F
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Broad-scale distribution of plants and animals. Theoretical and practical applications to conservation and effects of global environmental change.

GEOG 305 : Geography of Landforms. (3:3:0)
OFFERED: F (as needed).
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Elements of landforms: distributions and cultural significance.

GEOG 306 : Public Land Conservation. (3:3:0)

OFFERED: F
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Environmental and social geography of public lands; analyzing historical, planning, management, and ecological issues.

GEOG 307 : Landscape Ecology. (3:3:0)
OFFERED: W
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Interaction between spatial patterns and spatial processes in an ecological context. Methods, theories, and practical applications of landscapes at various scales.

GEOG 310 : Principles of Land Use Planning. (3:3:0)
OFFERED: F
DESCRIPTION: Land use concepts, practical and theoretical problems, activities, and techniques.

GEOG 311 : Geographic Data Management. (3:3:0)
OFFERED: W
PREREQUISITE: Geog 212 or equivalent.
DESCRIPTION: Nature of geographic information and its practical management in GIS; design of GIS databases, data collection from primary and secondary sources, manipulating data in preparation for analysis, and data exploration.

GEOG 331 : Economic Geography. (3:3:0)
OFFERED: F, Alt. term
DESCRIPTION: Introduction to economic processes and spatial patterns, emphasizing theoretical approaches, locational strategies, and changing economic land-use patterns.

GEOG 412 : Problem Solving with Geographic Information Systems. (3:3:1)
OFFERED: F on demand.
PREREQUISITE: Geog 311 or instructor's consent.
DESCRIPTION: Solving practical geographic problems and performing scientific research using raster and vector analysis tools in GIS.

GEOL 101 : Introduction to Geology. (3:2:1)
OFFERED: F, W, Sp, Su
DESCRIPTION: Cultural focus on physical and environmental geology for nonscience majors; rocks and minerals. Field trips.
NOTE: Honors also.

GEOL 111 : Physical Geology. (4:3:2)
OFFERED: F, W
PREREQUISITE: Math 112 or concurrent enrollment.
DESCRIPTION: Materials, structure, and surface features of the earth and the geologic processes involved in their development. Field trips and lab studies, use of aerial photos.

GEOL 404 : Chemical Processes in the Environment. (3:3:0)
OFFERED: F
PREREQUISITE: Geol 111 or 330.
DESCRIPTION: Natural controls on the composition of water; anthropogenic effects on air and water relative to understanding a range of environmental problems.

GEOL 435 : Introduction to Groundwater. (3:3:0)
OFFERED: F
PREREQUISITE: Geol 111 or 330; Math 110 or equivalent.
DESCRIPTION: Introduction to the occurrence, movement, and properties of subsurface water; surface and groundwater relationships.

MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

Or
MATH 119 : Introduction to Calculus. (4:4:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.

OFFERED: F, W, Sp, Su
DESCRIPTION: Aspects of society and culture: kinship, beliefs, economy, and political order among peoples worldwide. Methods and perspectives used in social/cultural anthropology.
NOTE: Honors also.

PSYCH 306 : Psychology of Gender. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent.
DESCRIPTION: Biological and social contributions to sex role development, sexual self-concept, and complementarity of sex roles.
NOTE: Contains content featured in the Graduate Record Examination (GRE) Subject Test.

PSYCH 330 : Organizational Psychology. (3:3:0)
OFFERED: F, W
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent.
DESCRIPTION: Personal, interactional, and structural aspects of organizations; motivation, decision making, problem-solving communication, leadership, organizational structure, change.
NOTE: Org B 321 will not substitute for this course.

PSYCH 338 : Sport Psychology. (3:3:0)
OFFERED: F, W
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent.
DESCRIPTION: Application of psychological principles to sporting activities.

PSYCH 350 : (Psych-Soc) Introduction to Social Psychology. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Conformity and obedience; socialization, norms, roles; attitudes, leadership, group processes.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

PSYCH 358 : Leadership Development. (3:2:2)
OFFERED: F, W
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent.
DESCRIPTION: Principles and practices of successful leadership: decision making, communications, planning, team building, motivation, and interpersonal skills.

PSYCH 361 : Principles of Learning. (3:3:0)
OFFERED: F, W
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent.
DESCRIPTION: Principles of learning; representative experiments.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

PSYCH 365 : Motivation. (3:3:0)
OFFERED: F, W
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent.
DESCRIPTION: Determinants of motivation, relationship of motives to emotion, cognition, personality, and action. Implications for understanding self and others.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

BYU undergraduate campus courses (including Salt Lake Center courses) as follows:

Any BYU course in psychology may be used to satisfy the emphasis elective requirement.

4. Complete the following capstone course:
STDEV 490 : Bachelor of General Studies Capstone. (2:2:0)
OFFERED: Independent Study only.
PREREQUISITE: StDev 100; completion of all other BGS program requirements.
DESCRIPTION: Culminating course required for bachelor of general studies degree: analyze and evaluate BGS experience in light of the "Aims of a BYU Education" and summarize this experience in a reflective paper, integrate material learned in emphasis by completing a scholarly essay, and demonstrate accomplishment of learning outcomes.

*Hours include courses that may fulfill university core requirements.

The Church of Jesus Christ of Latter-day Saints | BYU-Hawaii | BYU-Idaho | BYU Jerusalem Center | BYU Salt Lake Center | LDS Business College | Missionary Training Center
Please report any problems to web_ugrad_cat@byu.edu, Brigham Young University, Provo, UT 84602 - (801)422-4245 - Copyright 2007, All

DESCRIPTION: Introduction to plane analytic geometry and calculus.
NOTE: For students in the College of Life Sciences and the Marriott School of Management.

MATH 302 : Mathematics for Engineering 1. (4:4:0)
OFFERED: F, W
PREREQUISITE: Math 113 and passing grade on required preparatory exam taken during first week of class. (Practice exams available on class Website).
DESCRIPTION: Multivariable calculus, linear algebra, and numerical methods.

MATH 303 : Mathematics for Engineering 2. (4:4:0)
OFFERED: F, W
PREREQUISITE: Math 302; or Math 214 and 343.
DESCRIPTION: ODEs, Laplace transforms, Fourier series, PDEs, numerical methods.

MMBIO 221 : General Microbiology. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Any chemistry course and any biology course.
DESCRIPTION: Microbial world, emphasizing communicable diseases, their causes, and control.
NOTE: Recommended for students seeking a liberal education in microbiology who do not have the prerequisites to take the more advanced courses.

MMBIO 240 : Molecular Biology. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 120, Chem 105.
DESCRIPTION: Fundamentals of protein and nucleic acid structure and their function in the context of the classical experiments that have informed our current models of biology at the molecular level.

MMBIO 241 : Molecular and Cellular Biology Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: MMBio 240 or concurrent enrollment.
DESCRIPTION: Molecular and cellular biology techniques laboratory.

PDBIO 360 : Cell Biology. (3:3:1)
OFFERED: F, W
PREREQUISITE: MMBio 240.
DESCRIPTION: Fundamentals of cell structure and function with reference to analytical methods used by cell biologists. Practice in designing, executing, and interpreting relative experiments.

PHSCS 105 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: High school algebra and trigonometry.
RECOMMENDED: Concurrent enrollment in Phscs 107.
DESCRIPTION: Applied physics course not requiring calculus. Topics include mechanics, heat, wave motion, sound.

Or
PHSCS 121 : Principles of Physics 1. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Calculus or concurrent enrollment.
DESCRIPTION: Newtonian mechanics. Weekly lab.

PHSCS 106 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Phscs 105 or equivalent.
RECOMMENDED: Concurrent enrollment in Phscs 108.
DESCRIPTION: Continuation of Phscs 105. Topics include electricity and magnetism, atomic and nuclear physics, and optics.

Or
PHSCS 123 : Principles of Physics 2. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121.
DESCRIPTION: Waves, thermal physics, optics, special relativity, and introduction to modern physics. Weekly lab.

PHSCS 107 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Sp

PREREQUISITE: Phscs 105 or concurrent enrollment.

PHSCS 108 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Su
PREREQUISITE: Phscs 106 or concurrent enrollment.

PHIL 205 : Deductive Logic. (3:3:0)
OFFERED: F, W, Sp on demand.
DESCRIPTION: History and use of syllogistic and propositional logic; evaluating arguments with Venn diagrams, truth tables, and Copi-style proofs and proof strategies.

PL SC 535 : Natural Resources Policy. (3:3:0)
DESCRIPTION: Processes and politics of public policies related to natural resources. Problems of analysis and evaluation.

PL SC 536 : Environmental Regulation. (3:3:0)
DESCRIPTION: Regulatory programs aimed at air and water pollution, hazardous waste, toxic chemicals, and other environmental problems. Alternative regulatory mechanisms and approaches.

PWS 215 : Principles of Range Management. (3:3:0)
OFFERED: W
DESCRIPTION: Overview of rangeland resources and management principles, including rangeland classification, multiple use management, natural resource policy, and grazing management.

PWS 225 : Principles of Wildlife and Fisheries Management. (3:3:0)
OFFERED: F
RECOMMENDED: PWS 115.
DESCRIPTION: Basic principles of fish and wildlife management, their habitats, and their human users. Ecological concepts, population dynamics, nutrition, behavior, population assessment, management strategies, habitat sampling and management.

PWS 306 : Soil Fertility and Plant Nutrition Laboratory. (1:0:3)
OFFERED: W
PREREQUISITE: PWS 305 or concurrent enrollment.
DESCRIPTION: Laboratory for studying nutrient-supplying power of soils, nutrient deficiencies and toxicities, and plant adaptation to nutritional stresses.

PWS 310 : Mentored Laboratory Techniques. (2:.5:1.5)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 107, MMBio 241.
DESCRIPTION: Mentored, systematic instruction in basic biotechnology techniques and their application in addressing molecular genetic research questions.

PWS 330 : Rangeland Plant Identification and Ecology. (3:2:3)
OFFERED: W
DESCRIPTION: Identification, characteristics, phenology, distribution, site adaptation, forage value, and response to management of significant range and pasture plants.

PWS 331 : Science of Plant Pest Control. (3:3:0)
OFFERED: W
PREREQUISITE: PWS 100, 282; or equivalents.
DESCRIPTION: Identifying important insect, disease, and weed pest problems. Pest classification, biology, and methods of control.

PWS 340 : Genetics. (2:2:1)
OFFERED: F, W, Su
PREREQUISITE: MMBio 240.
DESCRIPTION: Genetic mechanisms, their fundamental nature, interactions, and applications to human affairs. Genetics in quantitative terms. Extensive practice in problem solving.

PWS 355 : Rangeland Vegetation Measurements and Analysis. (3:2:3)
OFFERED: F even years.
DESCRIPTION: Field methodologies for vegetation inventories and analysis (density, biomass, cover, frequency, utilization, etc.) in wildland settings.

PWS 390R : Special Topics in Plant and Animal Sciences. (1-3:ARR:0)
OFFERED: F, W
DESCRIPTION: Various topics of importance in plant and animal sciences.

PWS 402 : Urban Soils and Water. (4:4:0)
OFFERED: F
PREREQUISITE: PWS 100, 282.
DESCRIPTION: Principles of water management, soil physics, and soil fertility used in a problem-solving environment addressing current challenges in managing soils and water in the urban landscape.

PWS 411 : Watershed Management. (3:2:3)
OFFERED: F even years.
PREREQUISITE: Bio 350.
DESCRIPTION: Processes and management of the hydrologic cycle of forests and rangelands. Field trips required.

PWS 416 : Rangeland Vegetation Improvement. (3:2:3)
OFFERED: F odd years.
RECOMMENDED: PWS 310, 350.
DESCRIPTION: Habitat improvement for domestic and wild animals. Plant control by mechanical equipment, herbicides, and prescribed fire. Restoration of disturbed lands.
NOTE: Field trips required.

PWS 419 : Forest Management and Ecology. (3:2:3)
OFFERED: F even years.
DESCRIPTION: Managing forests, emphasizing ecosystem managment.
NOTE: Field trips required.

PWS 511 : Soil Physics. (3:3:0)
OFFERED: W even years
PREREQUISITE: PWS 282, Chem 105, Math 112 or 119; or equivalents.
RECOMMENDED: Phscs 105 or 121 or equivalent.
DESCRIPTION: Physical relationships of water, heat, and gases in soils; physical and chemical properties of clays. Mathematical modeling of physical properties and transport processes.

PWS 514 : Soil Microbiology. (2:2:3)
OFFERED: W odd years
PREREQUISITE: Chem 106, 107; or equivalents.
DESCRIPTION: Ecology and role of soil microorganisms in nutrient cycling, decomposition of organic matter and waste materials, and degradation of agricultural chemicals in soil.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

Federal Register Requirements

The federal register requirements for environmental science ecology or physical science emphasis can be met by choosing appropriate electives. Ecology requires 30 semester hours of basic and applied biology, including at least 9 semester hours of ecology and 12 hours of physical and mathematical sciences. Physical science requires 25 semester hours of physical sciences (chemistry, physics, math, etc.)

Recommended courses from list of electives for various emphases:

A. Environmental Science (Physical Science Emphasis)
Complete 14 hours from the following:

ECON 440 : Natural Resources and Environmental Economics. (3:3:0)
PREREQUISITE: Econ 380; 388 or concurrent enrollment.
DESCRIPTION: Economic theory applied to allocation of natural resources and environmental amenities. Issues relating to externalities, common property resources, public goods, allocation of depletable natural resources over time, economic factors of environmental polarization, and others.

GEOG 101 : Global Environment: Understanding Physical Geography. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Physical environment, distribution and interrelationships of climates, landforms, ecosystems and their human significance.

GEOG 212 : Introduction to Geographic Information Systems. (3:2:1)
OFFERED: F, W; Sp on demand.
DESCRIPTION: Concepts in the use of small- and large-scale digital map data, emphasizing landscape interpretation and feature description.

GEOG 412 : Problem Solving with Geographic Information Systems. (3:3:1)
OFFERED: F on demand.
PREREQUISITE: Geog 311 or instructor's consent.
DESCRIPTION: Solving practical geographic problems and performing scientific research using raster and vector analysis tools in GIS.

GEOL 111 : Physical Geology. (4:3:2)
OFFERED: F, W
PREREQUISITE: Math 112 or concurrent enrollment.
DESCRIPTION: Materials, structure, and surface features of the earth and the geologic processes involved in their development. Field trips and lab studies, use of aerial photos.

GEOL 435 : Introduction to Groundwater. (3:3:0)
OFFERED: F
PREREQUISITE: Geol 111 or 330; Math 110 or equivalent.
DESCRIPTION: Introduction to the occurrence, movement, and properties of subsurface water; surface and groundwater relationships.

B. Environmental Science (Ecology Emphasis)
Complete 18 hours from the following:

BIO 370 : Bioethics. (2:1:3)
OFFERED: F, W
PREREQUISITE: Introductory biology course.
DESCRIPTION: In-depth lecture and small group discussion of varied bioethical issues. LDS Church positions emphasized when appropriate.

PWS 215 : Principles of Range Management. (3:3:0)
OFFERED: W
DESCRIPTION: Overview of rangeland resources and management principles, including rangeland classification, multiple use management, natural resource policy, and grazing management.

PWS 225 : Principles of Wildlife and Fisheries Management. (3:3:0)
OFFERED: F
RECOMMENDED: PWS 115.
DESCRIPTION: Basic principles of fish and wildlife management, their habitats, and their human users. Ecological concepts, population dynamics, nutrition, behavior, population assessment, management strategies, habitat sampling and management.

PWS 330 : Rangeland Plant Identification and Ecology. (3:2:3)
OFFERED: W
DESCRIPTION: Identification, characteristics, phenology, distribution, site adaptation, forage value, and response to management of significant range and pasture plants.

PWS 355 : Rangeland Vegetation Measurements and Analysis. (3:2:3)
OFFERED: F even years.
DESCRIPTION: Field methodologies for vegetation inventories and analysis (density, biomass, cover, frequency, utilization, etc.) in wildland settings.

PWS 411 : Watershed Management. (3:2:3)
OFFERED: F even years.
PREREQUISITE: Bio 350.
DESCRIPTION: Processes and management of the hydrologic cycle of forests and rangelands. Field trips required.

PWS 416 : Rangeland Vegetation Improvement. (3:2:3)
OFFERED: F odd years.
RECOMMENDED: PWS 310, 350.
DESCRIPTION: Habitat improvement for domestic and wild animals. Plant control by mechanical equipment, herbicides, and prescribed fire. Restoration of disturbed lands.
NOTE: Field trips required.

PWS 419 : Forest Management and Ecology. (3:2:3)
OFFERED: F even years.

The

DESCRIPTION: Managing forests, emphasizing ecosystem managment.
NOTE: Field trips required.

Preprofessional students should consult with the Preprofessional Advisement Center (3326 WSC) to determine which additional courses they will be required to complete.

The following courses are recommended for students who plan to pursue graduate degrees in environmental science.

Chem 351, 352, 353, 481.
Math 119 or higher.
Phscs 105, 106, 107, 108.

*Hours include courses that may fulfill university core requirements.

Program Requirements | View MAP

1. Complete the following core courses:

C S 142 : Introduction to Computer Programming. (3:3:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Knowledge of algebra.
- DESCRIPTION: Introduction to object-oriented program design and development. Principles of algorithm formulation and implementation.

CHEM 105 : General College Chemistry. (4:5:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
- DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energectics, electrochemistry, acids and bases, inorganic and organic chemistry.
- NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

CHEM 106 : General College Chemistry. (3:4:0)
- OFFERED: F, W, Su
- PREREQUISITE: Chem 105 or equivalent.
- DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.
- NOTE: Three lectures and one recitation section per week.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Chem 106 or concurrent enrollment.
- DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.
- NOTE: Required for most students needing one year of general chemistry.

MMBIO 240 : Molecular Biology. (3:3:1)
- OFFERED: F, W, Sp
- PREREQUISITE: PDBio 120, Chem 105.
- DESCRIPTION: Fundamentals of protein and nucleic acid structure and their function in the context of the classical experiments that have informed our current models of biology at the molecular level.

MMBIO 241 : Molecular and Cellular Biology Laboratory. (1:0:3)
- OFFERED: F, W, Sp
- PREREQUISITE: MMBio 240 or concurrent enrollment.
- DESCRIPTION: Molecular and cellular biology techniques laboratory.

PDBIO 120 : Science of Biology. (2:2:1)
- OFFERED: F, W, Sp, Su; Honors also.
- DESCRIPTION: General biology course designed for biological science majors, emphasizing the scientific method, cell theory, biochemical unity, the Central Dogma, bioenergetics, reproduction, and evolutionary theory.

PDBIO 360 : Cell Biology. (3:3:1)
- OFFERED: F, W
- PREREQUISITE: MMBio 240.

DESCRIPTION: Fundamentals of cell structure and function with reference to analytical methods used by cell biologists. Practice in designing, executing, and interpreting relative experiments.

PWS 265 : (PWS-Bio-MMBio) Genomics. (3:2:1)
OFFERED: F, W
PREREQUISITE: Bioinformatics major status or PDBio 120.
DESCRIPTION: Introduction to genomics and genome projects (human, plant, bacterial, yeast, parasites). Introduction to genes and genomes; computational and statistical approaches for analyzing genomic data, including genome sequencing and annotation, gene expression and the transcriptome, proteomics and functional genomics, and genetic variation and SNPs.

PWS 310 : Mentored Laboratory Techniques. (2:.5:1.5)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 107, MMBio 241.
DESCRIPTION: Mentored, systematic instruction in basic biotechnology techniques and their application in addressing molecular genetic research questions.

PWS 340 : Genetics. (2:2:1)
OFFERED: F, W, Su
PREREQUISITE: MMBio 240.
DESCRIPTION: Genetic mechanisms, their fundamental nature, interactions, and applications to human affairs. Genetics in quantitative terms. Extensive practice in problem solving.

PWS 488 : Readings in Biotechnology. (2:2:0)
OFFERED: W
PREREQUISITE: PWS 340, PDBio 360.
RECOMMENDED: PWS 440 or PDBio 362.
DESCRIPTION: Capstone course for the genetics and biotechnology major focusing on scientific literature relating to the biotechnological improvement of plants, animals, and microbes.
NOTE: Course should be taken the last year before graduation.

And complete one of the following:

MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

MATH 119 : Introduction to Calculus. (4:4:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Introduction to plane analytic geometry and calculus.
NOTE: For students in the College of Life Sciences and the Marriott School of Management.

2. Complete 27 hours from one of the following tracks:

A. Plant Genetics and biotechnology core track:
1. Complete the following:

BIO 420 : Evolutionary Biology. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: MMBio 240, PSW 340.
DESCRIPTION: Intensive examination of evolution as the conceptual cornerstone of biology.

CHEM 351 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105, 111; or equivalents.
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: Primarily for majors in chemical engineering and the biological sciences.

CHEM 352 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 351 or equivalent.
DESCRIPTION: Continuation of Chem 351.

CHEM 481 : Biochemistry 1. (3:3:0)

OFFERED: F, W, Sp
PREREQUISITE: Chem 352; Biol 100 or equivalent.
DESCRIPTION: First-semester biochemistry. Molecular components of cells, chemical structure and function, enzymes, metabolic transformations, photosynthesis.
NOTE: For chemistry majors and students in biological sciences who contemplate pursuing advanced degrees, including medicine.

PWS 100 : Living with Plants. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Physiological, morphological, and ecological characteristics of plants used for food, fiber, and aesthetic enhancement.

PWS 410 : Advanced Biotechnology Instrumentation. (2:0:6)
OFFERED: F, W, Sp, Su
PREREQUISITE: PWS 310R.
DESCRIPTION: Laboratory experiences using advanced biotechnology and genomics instrumentation and protocols.

PWS 440 : Plant Physiology. (3:3.0:0)
OFFERED: F, W
PREREQUISITE: GE Biological Science requirement; college chemistry
RECOMMENDED: Chem 285; or 351, 352.
DESCRIPTION: Photosynthesis, respiration, water relations, mineral nutrition, growth of flowering plants.

PWS 485 : Plant Breeding and Biotechnology. (2:2:0)
OFFERED: F
PREREQUISITE: PWS 340.
DESCRIPTION: Introduction to modern plant improvement through selective breeding and application of plant biotechnology.

2. Complete an additional 6 hours from the general major electives list below.

B. Animal genetics and biotechnology core track:
1. Complete the following:

BIO 420 : Evolutionary Biology. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: MMBio 240, PSW 340.
DESCRIPTION: Intensive examination of evolution as the conceptual cornerstone of biology.

CHEM 351 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105, 111; or equivalents.
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: Primarily for majors in chemical engineering and the biological sciences.

CHEM 352 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 351 or equivalent.
DESCRIPTION: Continuation of Chem 351.

CHEM 481 : Biochemistry 1. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Chem 352; Biol 100 or equivalent.
DESCRIPTION: First-semester biochemistry. Molecular components of cells, chemical structure and function, enzymes, metabolic transformations, photosynthesis.
NOTE: For chemistry majors and students in biological sciences who contemplate pursuing advanced degrees, including medicine.

PDBIO 482 : Developmental Biology. (3:3:1)
OFFERED: F, W
PREREQUISITE: Biol 240, 241, 360.
RECOMMENDED: PDBio 225.
DESCRIPTION: Invertebrate and vertebrate developmental biology. Embryonic gastrulation, neurulation, pattering, etc. Modern approaches and research strategies. Emphasizes gene function, cell signaling, signal transduction during embryogenesis.

PWS 410 : Advanced Biotechnology Instrumentation. (2:0:6)
OFFERED: F, W, Sp, Su
PREREQUISITE: PWS 310R.
DESCRIPTION: Laboratory experiences using advanced biotechnology and genomics instrumentation and protocols.

2. Complete one of the following:

BIO 380 : Comparative Animal Physiology and Anatomy. (4:3:3)
OFFERED: F
PREREQUISITE: Bio 220A or instructor's consent.
DESCRIPTION: Structure and function of animal organ systems; structural and physiological responses to demands of and changes in environment; evolutionary constraints on anatomy and physiology.

PDBIO 362 : Advanced Physiology. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Biol 240; Phscs 106 or 220.
DESCRIPTION: Integrated approach to organ system and cellular physiology. Problem solving/calculations.
NOTE: Requires background in chemistry and molecular biology. Students without this background should take PDBio 305.

3. Complete an additional 7–8 hours from the general major electives list below.

C. Microbial genetics and biotechnology core track:

1. Complete the following:

BIO 420 : Evolutionary Biology. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: MMBio 240, PSW 340.
DESCRIPTION: Intensive examination of evolution as the conceptual cornerstone of biology.

CHEM 351 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105, 111; or equivalents.
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: Primarily for majors in chemical engineering and the biological sciences.

CHEM 352 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 351 or equivalent.
DESCRIPTION: Continuation of Chem 351.

CHEM 481 : Biochemistry 1. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Chem 352; Biol 100 or equivalent.
DESCRIPTION: First-semester biochemistry. Molecular components of cells, chemical structure and function, enzymes, metabolic transformations, photosynthesis.
NOTE: For chemistry majors and students in biological sciences who contemplate pursuing advanced degrees, including medicine.

MMBIO 221 : General Microbiology. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Any chemistry course and any biology course.
DESCRIPTION: Microbial world, emphasizing communicable diseases, their causes, and control.
NOTE: Recommended for students seeking a liberal education in microbiology who do not have the prerequisites to take the more advanced courses.

MMBIO 460 : Microbial Genetics. (4:3:3)
OFFERED: F, W
PREREQUISITE: MMBio 151, 240.
DESCRIPTION: How DNA governs complex bacterial functions. Classical and modern approaches to gene discovery, including genetic screens, gene mapping, targeted genetic manipulations, and analyzing gene activity.

MMBIO 461 : Advanced Bacterial Physiology. (3:3:0)
OFFERED: W
PREREQUISITE: Chem 481, MMBio 151.

DESCRIPTION: Principles of prokaryotic physiology, including cell structure and function, gene regulation, and biochemical processes; focusing on the unique aspects of prokaryotic biology.

PWS 410 : Advanced Biotechnology Instrumentation. (2:0:6)
OFFERED: F, W, Sp, Su
PREREQUISITE: PWS 310R.
DESCRIPTION: Laboratory experiences using advanced biotechnology and genomics instrumentation and protocols.

2. Complete an additional 3 hours from the general major electives list below.

D. Bio-business core track:
1. Complete the following:

ACC 200 : Principles of Accounting. (3:3:0)
DESCRIPTION: Financial and managerial accounting principles. Basic accounting statements, processes, and management applications. Open to all students.
NOTE: Independent Study also.

BUS M 300 : Financial Management. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Acc 200 or equivalent.
DESCRIPTION: Emphasizes financial statement analysis, financial planning, sources of financing, working capital management, risk and return, and valuation.
NOTE: For nonmanagement majors.

BUS M 488 : Agribusiness Management 1. (3:3:0)
OFFERED: F
PREREQUISITE: Acc 200, Econ 110; Bus M 300 or 340 or concurrent enrollment.
DESCRIPTION: Concepts, tools, and approaches to understanding competitive forces and the development of sustainable competitive advantage for firms in the food, fiber, and horticulture industries.

CHEM 285 : Introductory Bio-organic Chemistry. (4:4:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 101 or equivalent.
DESCRIPTION: Principles of organic chemistry and biochemistry relating to biomolecule structure and function.

ORG B 320 : Organizational Effectiveness. (3:Arr:2)
OFFERED: F, W, Sp, Su; Independent Study also.
DESCRIPTION: Theories and concepts for creating effective organizations, e.g., individual, group, and organizational processes and human resource functions, including selection, compensation, and performance management.
NOTE: Taught online.

2. Complete one of the following:

BUS M 340 : Marketing Management. (3:3:0)
OFFERED: F, W, Sp, Su; Independent Study also.
DESCRIPTION: Emphasizes marketing's role in society and the firm, marketing opportunities, the consumer market, and management of marketing mix.
NOTE: For nonmanagement majors.

BUS M 489 : Agribusiness Management 2. (3:3:0)
OFFERED: W
PREREQUISITE: Acc 200 (or equivalent), Econ 110 (or equivalent), Bus M 340.
DESCRIPTION: Developing and implementing marketing plans and programs for companies participating in the value chain of agribusiness industries.

3. Complete one of the following:

BUS M 371R : Entrepreneurship Lecture Series. (1:1:0)
OFFERED: F, W, Sp
DESCRIPTION: Lectures by successful entrepreneurs on subjects significant to entrepreneur-type opportunities.

: Marriott School Lecture Series.
: Women Entrepreneurs.

BUS M 380 : Executive Lectures. (1:1:0)

UNDERGRADUATE CATALOG 2008 - 2009

BGS in General Studies: Writing Emphasis (33 hours*)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements | View MAP

1. Complete the following prerequisite course:
   STDEV 100 : Essential College Skills. (1:1:0)
   OFFERED: F, W, Sp, Su
   DESCRIPTION: Developing essential college skills. Aims of BYU, values and goals, sound thinking skills. Learning styles and adjustment to college courses. College requirements and planning.
   NOTE: Independent Study also.

2. Complete the following core courses:
   ELANG 322 : Modern American Usage. (3:3:0)
   OFFERED: F, W, Su
   PREREQUISITE: ELang 223 or Ling 330.
   DESCRIPTION: Current conventions and effective use of American English.

   ENGL 218R : Creative Writing. (3:3:0)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: Engl 150 or equivalent.
   DESCRIPTION: Individual sections dealing with poetry, personal essays, drama, fiction, or science fiction, or combinations of these.

   M COM 320 : Communication in Organizational Settings. (3:3:1)
   OFFERED: F, W, Sp, Su; Honors also.
   PREREQUISITE: GE First-Year Writing requirement. To be taken before senior year. Not for freshmen.
   DESCRIPTION: Developing written and oral communications for professional organizations, including composing and designing employment communications. Incorporates oral presentations.
   NOTE: Fulfills GE Advanced Written and Oral Communication requirement.

   And one additional advanced writing course from the following:

   ENGL 312 : Persuasive Writing. (3:3:0)
   OFFERED: F, W, Sp, Su; Honors also.
   PREREQUISITE: Engl 150 or equivalent; junior or senior status.
   DESCRIPTION: Expository and persuasive writing focusing on practical reasons for evaluating audiences, generating and structuring an argument, and making stylistic decisions. Library research paper.
   NOTE: Carries GE Advanced Written and Oral Communication credit.

   ENGL 313 : Expository Writing for Elementary Education Majors. (3:3:0)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: Engl 150 or equivalent; junior or senior status.
   DESCRIPTION: Learning to write as professional educators and to teach writing to children. Best taken before the professional sequence. Library research paper.
   NOTE: Carries GE Advanced Written and Oral Communication credit.

   ENGL 314 : Writing About Literature. (3:3:0)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: Engl 150 or equivalent.
   DESCRIPTION: Writing about the functions, meanings, qualities, and contexts of literature for specialist and nonspecialist audiences using selected critical theories. Research paper.
   NOTE: Primarily for majors in literary studies. Carries GE Advanced Written and Oral

OFFERED: F
DESCRIPTION: Lectures by top executives on subjects significant to executive leadership.

4. Complete an additional 7 hours from the general major electives list below.

General Major Electives:

BIO 220A : Biological Diversity: Animals. (4:3:3)
OFFERED: F, W
PREREQUISITE: PDBio 120 or equivalent.
DESCRIPTION: Comparative organization and evolutionary significance of morphological, physiological, reproductive, and ecological differences in invertebrates and vertebrates. Laboratory included.

BIO 220B : Biological Diversity: Plants. (4:3:3)
OFFERED: F, W
PREREQUISITE: PDBio 120 or equivalent.
DESCRIPTION: Comparative organization and evolutionary significance of morphological, physiological, reproductive, and ecological differences in fungi, algae, and principal groups of land plants. Laboratory included.

BIO 350 : Ecology. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Bio 220A,B.
DESCRIPTION: Distribution and abundance of organisms and their interactions with the physical and biotic components of the earth.

BIO 365 : Computational Biology. (3:2:1)
OFFERED: F
PREREQUISITE: Bio 265, C S 240.
DESCRIPTION: Computational analysis of DNA data; introduction to bioinformatics databasing using Perl and SQL; configuration of UNIX workstations for bioinformatics analyses.

BIO 370 : Bioethics. (2:1:3)
OFFERED: F, W
PREREQUISITE: Introductory biology course.
DESCRIPTION: In-depth lecture and small group discussion of varied bioethical issues. LDS Church positions emphasized when appropriate.

BIO 420 : Evolutionary Biology. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: MMBio 240, PSW 340.
DESCRIPTION: Intensive examination of evolution as the conceptual cornerstone of biology.

BIO 421 : Evolutionary Biology Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: MMBio 240; Bio 420 or concurrent enrollment.
DESCRIPTION: Methodology and evidence used in evolutionary biology: comparative anatomy, DNA and protein techniques, radiometric and non-radiometric dating, fossil data, etc.

BIO 430 : Plant Classification. (3:2:3)
OFFERED: W, Sp
PREREQUISITE: Bio 220B or instructor's consent.
DESCRIPTION: General principles of taxonomy and classification, emphasizing family identification and use of keys to the temperate flora.

BIO 450 : Conservation Biology. (3:3:0)
OFFERED: F
PREREQUISITE: Bio 220A or B, 350.
DESCRIPTION: Scientific principles of conservation: applying population genetics, and phylogenetic and ecological theory to preservation of biological diversity; developing sustainable ecological systems compatible with human resource use.

BIO 465 : Bioinformatics. (3:2:1)
OFFERED: W
PREREQUISITE: Bio 265
DESCRIPTION: 3-D protein structural comparisons, hidden Markov models for database comparisons, homology detection, multiple sequence analyses, and protein family comparisons. Exercises in computer programming in genomics.

BIO 560 : Population Genetics. (4:4:0)
OFFERED: W odd years.
PREREQUISITE: Bio 420 or equivalent.
DESCRIPTION: Basic principles of population genetics applied to natural populations; drift, selection, and nonrandom mating; inferring population subdivision, migration, and gene flow.

MMBIO 221 : General Microbiology. (3:3:0)
OFFERED: F, W, Sp, Su

PREREQUISITE: Any chemistry course and any biology course.
DESCRIPTION: Microbial world, emphasizing communicable diseases, their causes, and control.
NOTE: Recommended for students seeking a liberal education in microbiology who do not have the prerequisites to take the more advanced courses.

MMBIO 361 : Infection and Immunity. (4:4:0)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105; PDBio 120 or MMBio 221 or equivalent.
DESCRIPTION: Principles of infectious organisms (principally bacteria and viruses), the diseases they cause, and the role of host immune responses in health and disease.

MMBIO 390R : Readings in Molecular Biology. (1:1:0)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 360.
DESCRIPTION: Selected readings in molecular biology.

MMBIO 430 : Advanced Cell Biology. (3:3:0)
OFFERED: F
PREREQUISITE: PDBio 360; bioscience major status.
DESCRIPTION: Molecular genetics, cell biology, and developmental biology.

MMBIO 441 : Advanced Molecular Biology. (3:3:0)
OFFERED: W
PREREQUISITE: MMBio 240, Chem 352.
DESCRIPTION: Molecular biology of gene structure and expression in prokaryotic and eukaryotic organisms.

MMBIO 442 : Advanced Molecular Biology Laboratory. (2:0:6)
OFFERED: W
PREREQUISITE: MMBio 241; MMBio 441 or concurrent enrollment.
DESCRIPTION: Laboratory to accompany MMBio 441.

MMBIO 460 : Microbial Genetics. (4:3:3)
OFFERED: F, W
PREREQUISITE: MMBio 151, 240.
DESCRIPTION: How DNA governs complex bacterial functions. Classical and modern approaches to gene discovery, including genetic screens, gene mapping, targeted genetic manipulations, and analyzing gene activity.

MMBIO 461 : Advanced Bacterial Physiology. (3:3:0)
OFFERED: W
PREREQUISITE: Chem 481, MMBio 151.
DESCRIPTION: Principles of prokaryotic physiology, including cell structure and function, gene regulation, and biochemical processes; focusing on the unique aspects of prokaryotic biology.

MMBIO 462 : Microbial Ecology. (3:2:3)
OFFERED: F
PREREQUISITE: MMBio 151, PDBio 120.
DESCRIPTION: Natural history of a microbe; its distribution and abundance. Critical influence of scale and perspective in determining underlying mechanisms.

MMBIO 463 : Immunology. (3:3:0)
OFFERED: F, W
PREREQUISITE: MMBio 240, 361.
DESCRIPTION: Advanced concepts of immunological processes.

MMBIO 464 : Bacterial Pathogenesis. (4:3:3)
OFFERED: F, W
PREREQUISITE: MMBio 361.
DESCRIPTION: Fundamental principles of bacterial pathogenesis, emphasizing the molecular interactions of medically important bacteria and their hosts.

MMBIO 465 : Virology. (3:3:0)
OFFERED: F, W
PREREQUISITE: MMBio 361 or equivalent.
DESCRIPTION: Basic principles of virology, emphasizing selected molecular aspects of virus life cycles and disease processes.

MMBIO 466 : Virology Laboratory. (1:0:3)
OFFERED: F, W
PREREQUISITE: MMBio 361; 465 or concurrent enrollment.
DESCRIPTION: Laboratory exercises illustrating in vitro behavior of selected viruses. Developing laboratory skills for virus studies.

MMBIO 467 : Immunology Lab. (1:0:3)
OFFERED: F, W
PREREQUISITE: MMBio 361; 463 or concurrent enrollment.

DESCRIPTION: Laboratory exercises in advanced concepts of immunological processes.

MMBIO 490R : Molecular Biology Seminar. (1:1:0)
OFFERED: F, W
PREREQUISITE: MMBio 441; senior status.
DESCRIPTION: Critical examination of current literature and research in molecular biology.

NDFS 330 : Comparative Animal Nutrition. (3:3:0)
OFFERED: W
DESCRIPTION: Comparative digestion, absorption, and utilization of nutrients and nutritional applications of domestic, pet, and wildlife species.

PDBIO 325 : Tissue Biology (with lab). (3:2:3)
OFFERED: F, W
PREREQUISITE: Biol 120.
DESCRIPTION: Human anatomy and histology; function of cells in tissue; early stages of embryology.

PDBIO 363 : Advanced Physiology Laboratory. (1:0.5:1.5)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 362 or concurrent enrollment; or instructor's consent.
DESCRIPTION: Experiments and exercises in advanced physiology emphasizing human physiology. Computer simulations of muscle function, endocrine disease, and human physiology. Emphasizes problem solving and calculations.

PDBIO 482 : Developmental Biology. (3:3:1)
OFFERED: F, W
PREREQUISITE: Biol 240, 241, 360.
RECOMMENDED: PDBio 225.
DESCRIPTION: Invertebrate and vertebrate developmental biology. Embryonic gastrulation, neurulation, pattering, etc. Modern approaches and research strategies. Emphasizes gene function, cell signaling, signal transduction during embryogenesis.

PDBIO 562 : Reproductive Physiology. (3:3:0)
OFFERED: F
PREREQUISITE: PDBio 362 or equivalent.
RECOMMENDED: Chem 481, PDBio 482; or equivalents.
DESCRIPTION: Mammalian reproductive physiology.

PDBIO 582 : Developmental Genetics. (3:3:0)
OFFERED: W
PREREQUISITE: PDBio 482 or equivalent.
DESCRIPTION: Gene function and regulation during cell specification and differentiation, pattern formation, and organogenesis in developing embryo.

PWS 100 : Living with Plants. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Physiological, morphological, and ecological characteristics of plants used for food, fiber, and aesthetic enhancement.

PWS 199R : Academic Internship. (.5-3:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Consent of both department chair and cooperative education coordinator.
DESCRIPTION: Work experience evaluated by supervisor and posted on student's transcript.

PWS 282 : Introduction to Soil Science. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: PWS 283.
DESCRIPTION: Physical, chemical and microbiological properties of soils that affect plant growth in natural, agricultural, and urban environments.

PWS 283 : Introduction to Soil Science Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: PWS 282 or concurrent enrollment.
DESCRIPTION: Laboratory techniques in determining soil physical, chemical, and fertility properties.

PWS 301 : Plant Growth and Reproduction. (3:2:2)
OFFERED: W
PREREQUISITE: PWS 100 or equivalent.
DESCRIPTION: Scientific principles of plant propagation by seeds, cuttings, budding and grafting, and tissue culture.

PWS 305 : Soils and Water Quality. (3:3:0)
OFFERED: W
PREREQUISITE: PWS 100 or equivalent; PWS 282; Chem 105 (or 101), Math 110 or equivalent.
DESCRIPTION: Principles and practices of safe management of agricultural and urban wastes; amendments and nutrients including remediation methods for conservation of soils and water quality.

: Conservation and Management.
: Soil and Water.

PWS 306 : Soil Fertility and Plant Nutrition Laboratory. (1:0:3)
OFFERED: W
PREREQUISITE: PWS 305 or concurrent enrollment.
DESCRIPTION: Laboratory for studying nutrient-supplying power of soils, nutrient deficiencies and toxicities, and plant adaptation to nutritional stresses.

PWS 331 : Science of Plant Pest Control. (3:3:0)
OFFERED: W
PREREQUISITE: PWS 100, 282; or equivalents.
DESCRIPTION: Identifying important insect, disease, and weed pest problems. Pest classification, biology, and methods of control.

PWS 431 : Integrated Management of Plant Pests. (3:2:3)
OFFERED: F
PREREQUISITE: PWS 100, 282, 331.
DESCRIPTION: Diagnosing, identifiying, and managing of weed, insect, and disease problems in plants. Integrated pest management solutions. Proper pesticide management and safety.

PWS 494R : Mentored Learning Experience. (1-6:ARR:ARR)
OFFERED: F, W, Sp, Su
DESCRIPTION: Topics vary.
NOTE: Registration required for mentored experiences.

: Analytical Techniques in Plant Biology.
: Analytical Techniques in Soil Science.
: Animal Cytogenetics Laboratory.
: Animal Genetics and Breeding Techniques.
: Animal Reproductive Research Laboratory.
: Biotechnology Laboratory.
: Environmental Science Computation Laboratory.
: Environmental Science Field Techniques.
: Environmental Science Laboratory.
: Field Techniques in Environmental Soil Research.
: Molecular Genetics and Gene Mapping Laboratory.
: Plant Breeding Field Techniques.
: Plant Cell Biology Laboratory.
: Plant Cytogenetics Laboratory.
: Plant ID / URME Team.
: Plant Physiology Laboratory.
: Plant Tissue Culture and Transformation Techniques.
: Plant and Animal Genomics Laboratory.
: Plant and Soil Science Field Techniques.
: Soil Microbiology Laboratory.
: Soil Physical Properties Laboratory.
: Soil and Water Chemistry Laboratory.
: Soil, Plant, and Water Science Laboratory.

PWS 514 : Soil Microbiology. (2:2:3)
OFFERED: W odd years
PREREQUISITE: Chem 106, 107; or equivalents.
DESCRIPTION: Ecology and role of soil microorganisms in nutrient cycling, decomposition of organic matter and waste materials, and degradation of agricultural chemicals in soil.

PWS 559 : Plant Molecular Breeding. (2:2:0)
OFFERED: W even years.
PREREQUISITE: PWS 265, 340, 485; or equivalents; PWS 494R or concurrent enrollment.
DESCRIPTION: Molecular genetic methods applied to improvement of economically important plants.

PWS 575 : Plant Pathology. (3:2:3)
OFFERED: F odd years.
PREREQUISITE: PWS 100 or Bio 131; PWS 331 or MMBio 240; or equivalents.
DESCRIPTION: Concepts associated with symptoms, development, control, and classification of plant diseases.

PWS 586 : Plant Cell Biology. (3:3:0)
OFFERED: F even years.
PREREQUISITE: PDBio 360, PWS 340, 440; or equivalents.
DESCRIPTION: Molecular aspects of the structural and functional characteristics of plant cells, emphasizing characteristics of plant cells setting them apart from animal cells.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis

testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

Recommended Courses

For preprofessional students in tracks A, B, or C above:

ACC 200 : Principles of Accounting. (3:3:0)
DESCRIPTION: Financial and managerial accounting principles. Basic accounting statements, processes, and management applications. Open to all students.
NOTE: Independent Study also.

BUS M 300 : Financial Management. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Acc 200 or equivalent.
DESCRIPTION: Emphasizes financial statement analysis, financial planning, sources of financing, working capital management, risk and return, and valuation.
NOTE: For nonmanagement majors.

PHSCS 105 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: High school algebra and trigonometry.
RECOMMENDED: Concurrent enrollment in Phscs 107.
DESCRIPTION: Applied physics course not requiring calculus. Topics include mechanics, heat, wave motion, sound.

PHSCS 106 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Phscs 105 or equivalent.
RECOMMENDED: Concurrent enrollment in Phscs 108.
DESCRIPTION: Continuation of Phscs 105. Topics include electricity and magnetism, atomic and nuclear physics, and optics.

PHSCS 107 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 105 or concurrent enrollment.

PHSCS 108 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Su
PREREQUISITE: Phscs 106 or concurrent enrollment.

For graduate school preparation in biotechnology:

PHSCS 105 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: High school algebra and trigonometry.
RECOMMENDED: Concurrent enrollment in Phscs 107.
DESCRIPTION: Applied physics course not requiring calculus. Topics include mechanics, heat, wave motion, sound.

PHSCS 106 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Phscs 105 or equivalent.
RECOMMENDED: Concurrent enrollment in Phscs 108.
DESCRIPTION: Continuation of Phscs 105. Topics include electricity and magnetism, atomic and nuclear physics, and optics.

PHSCS 107 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 105 or concurrent enrollment.

PHSCS 108 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Su
PREREQUISITE: Phscs 106 or concurrent enrollment.

For students seeking employment in the biotech industry:

PWS 199R : Academic Internship. (.5-3:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Consent of both department chair and cooperative education coordinator.
DESCRIPTION: Work experience evaluated by supervisor and posted on student's transcript.

GE courses for bio-business students seeking a Marriott School of Management minor:

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and

hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

ECON 110 : Economic Principles and Problems. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Strengths and weaknesses of markets and governments for solving problems of social organization or conflict, including policy response to inflation, unemployment, pollution, poverty, growth, etc.

*Hours include courses that may fulfill university core requirements.

BS in Landscape Management (60.5–63.5 hours*)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements | View MAP

1. Complete the following required departmental courses:

PWS 100 : Living with Plants. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Physiological, morphological, and ecological characteristics of plants used for food, fiber, and aesthetic enhancement.

PWS 103 : Residential Landscape Design. (3:3:0)
OFFERED: F, W
DESCRIPTION: Design and composition as applied to development of residential grounds.

PWS 105 : Landscape Design Graphics. (2:2:0)
OFFERED: W, Sp
PREREQUISITE: PWS 103.
DESCRIPTION: Communication through descriptive drawing and professional plan graphics: plan views, elevation, color, and computer-aided design.

PWS 198R : BYU Grounds Practicum. (.5:0:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent; concurrent employment with BYU Grounds Department.
DESCRIPTION: Multiple horticulture experiences through collaboration with BYU Grounds.

PWS 199R : Academic Internship. (.5-3:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Consent of both department chair and cooperative education coordinator.
DESCRIPTION: Work experience evaluated by supervisor and posted on student's transcript.

PWS 211 : Landscape Structures. (2:2:0)
OFFERED: F
PREREQUISITE: PWS 103.
DESCRIPTION: Theory and mechanics of hardscape design and construction.

PWS 212 : Landscape Laboratory. (1:0:2)
OFFERED: F
PREREQUISITE: PWS 211.
DESCRIPTION: Working methods of the landscape industry: irrigation, equipment, and materials.

PWS 214 : Landscape Bidding and Estimating. (2:2:0)
OFFERED: W
PREREQUISITE: Math 110 or equivalent; PWS 103.
DESCRIPTION: Competitive bidding strategies, quantity takeoffs, bid analyses for landscape construction and maintenance.

PWS 282 : Introduction to Soil Science. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: PWS 283.
DESCRIPTION: Physical, chemical and microbiological properties of soils that affect plant growth in natural, agricultural, and urban environments.

PWS 283 : Introduction to Soil Science Laboratory. (1:0:3)

OFFERED: F, W, Sp
PREREQUISITE: PWS 282 or concurrent enrollment.
DESCRIPTION: Laboratory techniques in determining soil physical, chemical, and fertility properties.

PWS 301 : Plant Growth and Reproduction. (3:2:2)
OFFERED: W
PREREQUISITE: PWS 100 or equivalent.
DESCRIPTION: Scientific principles of plant propagation by seeds, cuttings, budding and grafting, and tissue culture.

PWS 319 : Turf Science. (2:1:2)
OFFERED: F
PREREQUISITE: PWS 100.
DESCRIPTION: Management of turf relative to climate, soil, and use on the golf course, park, and private areas.

PWS 320 : Arboriculture. (3:3:0)
OFFERED: W
PREREQUISITE: PWS 100, 282.
RECOMMENDED: Bio 235.
DESCRIPTION: Biology and culture of woody plants for use in urban landscapes.

PWS 331 : Science of Plant Pest Control. (3:3:0)
OFFERED: W
PREREQUISITE: PWS 100, 282; or equivalents.
DESCRIPTION: Identifying important insect, disease, and weed pest problems. Pest classification, biology, and methods of control.

PWS 391R : Careers in Plant and Wildlife Sciences. (1:1:0)
OFFERED: F
DESCRIPTION: Current information on internships, career options, and employment preparation skills in the plant and wildlife sciences.
NOTE: For sophomores and juniors.

: Careers in Horticulture.

PWS 402 : Urban Soils and Water. (4:4:0)
OFFERED: F
PREREQUISITE: PWS 100, 282.
DESCRIPTION: Principles of water management, soil physics, and soil fertility used in a problem-solving environment addressing current challenges in managing soils and water in the urban landscape.

PWS 431 : Integrated Management of Plant Pests. (3:2:3)
OFFERED: F
PREREQUISITE: PWS 100, 282, 331.
DESCRIPTION: Diagnosing, identifiying, and managing of weed, insect, and disease problems in plants. Integrated pest management solutions. Proper pesticide management and safety.

2. Complete the following required non-departmental courses:

ACC 200 : Principles of Accounting. (3:3:0)
DESCRIPTION: Financial and managerial accounting principles. Basic accounting statements, processes, and management applications. Open to all students.
NOTE: Independent Study also.

BUS M 300 : Financial Management. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Acc 200 or equivalent.
DESCRIPTION: Emphasizes financial statement analysis, financial planning, sources of financing, working capital management, risk and return, and valuation.
NOTE: For nonmanagement majors.

BUS M 488 : Agribusiness Management 1. (3:3:0)
OFFERED: F
PREREQUISITE: Acc 200, Econ 110; Bus M 300 or 340 or concurrent enrollment.
DESCRIPTION: Concepts, tools, and approaches to understanding competitive forces and the development of sustainable competitive advantage for firms in the food, fiber, and horticulture industries.

BUS M 489 : Agribusiness Management 2. (3:3:0)
OFFERED: W

PREREQUISITE: Acc 200 (or equivalent), Econ 110 (or equivalent), Bus M 340.
DESCRIPTION: Developing and implementing marketing plans and programs for companies participating in the value chain of agribusiness industries.

ECON 110 : Economic Principles and Problems. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Strengths and weaknesses of markets and governments for solving problems of social organization or conflict, including policy response to inflation, unemployment, pollution, poverty, growth, etc.

I SYS 100 : Computer Spreadsheet Skills. (.5:0:1)
OFFERED: F, W, Sp, Su
DESCRIPTION: Basic computer skills, focusing on spreadsheet and database programs. No technical background necessary.
NOTE: Fee.

I SYS 101 : Computer Presentation Skills. (.5:0:1)
OFFERED: F, W, Sp, Su
DESCRIPTION: Basic computer skills focusing on developing presentations. No technical background necessary.
NOTE: Fee.

And complete one course from the following:

CHEM 101 : Introductory General Chemistry. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 97 or equivalent.
DESCRIPTION: Atomic and molecular structure, periodic relationships, states of matter, chemical reactions and stoichiometry, acids and bases.
NOTE: Primarily for nonscience majors who require a broad introduction to general chemistry.

CHEM 105 : General College Chemistry. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energectics, electrochemistry, acids and bases, inorganic and organic chemistry.
NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

3. Complete three courses from the following:

BIO 235 : Field Botany. (3:3:6)
OFFERED: F
DESCRIPTION: Recognition, characteristics, and uses of common trees and shrubs.

BIO 430 : Plant Classification. (3:2:3)
OFFERED: W, Sp
PREREQUISITE: Bio 220B or instructor's consent.
DESCRIPTION: General principles of taxonomy and classification, emphasizing family identification and use of keys to the temperate flora.

PWS 112 : Floral Design. (3:2:2)
OFFERED: F, W, Sp
DESCRIPTION: History and principles of floral design; identification, care, and handling of cut flowers; techniques of arranging flowers and other plant materials for home and professional use.
NOTE: Fee.

PWS 210 : Herbaceous Plants. (2:2:0)
OFFERED: F
DESCRIPTION: Identification and landscape use of flowers and groundcovers.

PWS 213 : Interior Plants and Landscapes. (2:2:0)
OFFERED: F, W
DESCRIPTION: Identification and culture of plants used in the interior landscape industry; applying principles of design to the placement and use in interior landscapes.

PWS 330 : Rangeland Plant Identification and Ecology. (3:2:3)
OFFERED: W
DESCRIPTION: Identification, characteristics, phenology, distribution, site adaptation, forage value, and response to management of significant range and pasture plants.

PWS 380 : Plant Community Design. (2:2:0)

OFFERED: W
PREREQUISITE: PWS 103, 105, Bio 235.
DESCRIPTION: Design and ecology of thematic plant communities.

Recommended Courses

A management minor is *strongly* recommended.

Completion of the following courses (some listed above) will meet the requirements for this minor:

ACC 200 : Principles of Accounting. (3:3:0)
DESCRIPTION: Financial and managerial accounting principles. Basic accounting statements, processes, and management applications. Open to all students.
NOTE: Independent Study also.

BUS M 300 : Financial Management. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Acc 200 or equivalent.
DESCRIPTION: Emphasizes financial statement analysis, financial planning, sources of financing, working capital management, risk and return, and valuation.
NOTE: For nonmanagement majors.

BUS M 371R : Entrepreneurship Lecture Series. (1:1:0)
OFFERED: F, W, Sp
DESCRIPTION: Lectures by successful entrepreneurs on subjects significant to entrepreneur-type opportunities.

: Marriott School Lecture Series.
: Women Entrepreneurs.

BUS M 489 : Agribusiness Management 2. (3:3:0)
OFFERED: W
PREREQUISITE: Acc 200 (or equivalent), Econ 110 (or equivalent), Bus M 340.
DESCRIPTION: Developing and implementing marketing plans and programs for companies participating in the value chain of agribusiness industries.

ECON 110 : Economic Principles and Problems. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Strengths and weaknesses of markets and governments for solving problems of social organization or conflict, including policy response to inflation, unemployment, pollution, poverty, growth, etc.

MATH 110 : College Algebra. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 97 or equivalent.
DESCRIPTION: Functions, polynomials, theory of equations, exponential and logarithmic functions, matrices, determinants, systems of linear equations, permutations, combinations, binomial theorem.

ORG B 320 : Organizational Effectiveness. (3:Arr:2)
OFFERED: F, W, Sp, Su; Independent Study also.
DESCRIPTION: Theories and concepts for creating effective organizations, e.g., individual, group, and organizational processes and human resource functions, including selection, compensation, and performance management.
NOTE: Taught online.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

The following courses are also suggested:

BUS M 372 : Basic Entrepreneurship Skills. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Practical aspects of business formation and growth; key skills and principles needed to successfully start up and grow a business.
NOTE: For non-Marriott School of Management students.

TMA 150 : Public Speaking. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Principles and methods of public speaking; speaking experiences.

For students planning to pursue a master's degree in landscape architecture (MLA), the following courses are also recommended:

Communication credit.

ENGL 315 : Writing in the Social Sciences. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
PREREQUISITE: Engl 150 or equivalent; junior or senior status.
DESCRIPTION: Writing characteristic of disciplines that inquire into human behavior and institutions; correspondence, proposals, library paper, empirical research, and reviews.
NOTE: Carries GE Advanced Written and Oral Communication credit.

ENGL 316 : Technical Communication. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
PREREQUISITE: Engl 150 or equivalent; junior or senior status.
DESCRIPTION: Effective processes of written, oral, and visual technical communication, including collaborative processes. Writing for academic and professional audiences.
NOTE: Carries GE Advanced Written and Oral Communication credit.

3. Complete 15 hours from the following:

ELANG 350 : Basic Editing Skills. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: ELang 322, 325.
DESCRIPTION: Editing theory and practice, emphasizing copy editing and basic line editing.

ENGL 220 : Composing Personal History. (3:3:0)
DESCRIPTION: Composing personal history through writing, mementos, oral history, chronologies, letters, documents, journals, and other mediums.
NOTE: Independent Study also.

ENGL 319R : Writing Poetry. (3:3:0)
OFFERED: F, W, Sp; Independent Study also.
PREREQUISITE: Engl 218R or instructor's consent.
DESCRIPTION: Creation of style and technique in poetry; discipline and practice of the poet.

ENGL 320R : Writing for Children and Adolescents. (3:3:0)
OFFERED: F, W; Independent Study also.
PREREQUISITE: Engl 218R.
DESCRIPTION: Theory and practice of writing prose and verse for youth readership. Specific attention to requirements of picture books, middle-grade novels, and young adult stories.

HIST 433 : Writing Family Histories. (3:3:0)
OFFERED: F; Independent Study also.
DESCRIPTION: Selecting themes and sources, and determining issues to be dealt with.

IP&T 515R : Special Topics in Instructional Psychology and Technology. (.5-3:ARR:ARR)
OFFERED: F, W, Sp, Su on demand.

: Evaluating Student Learning.
: Instructional Techniques in Teaching.
: Program Evaluation.
: Tutoring Children in Reading.

(section 8)
TMA 251 : Playwriting 1. (3:4:0)
PREREQUISITE: major status or instructor's consent; TMA 114.
DESCRIPTION: Basic playwriting principles through reading, completing writing assignments, testing, and writing the first draft of a one-act play.
NOTE: Independent Study also.

BYU undergraduate campus courses (including Salt Lake Center courses) as follows:

BYU campus courses dealing with writing or the teaching of writing under English, theatre and media arts, communications, or foreign languages may also be used to satisfy the emphasis elective requirements. Only one additional GE Advanced Written and Oral Communication course (Engl 312, 313, 314, 315, and 316) may be used to satisfy the emphasis elective requirements.

4. Complete the following as the last course in the emphasis:

ENGL 495 : The Senior Course. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Senior status; English major status.
DESCRIPTION: In-depth study of a limited area of literature, language, or criticism. Content varies; requires

BIO 350 : Ecology. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Bio 220A,B.
DESCRIPTION: Distribution and abundance of organisms and their interactions with the physical and biotic components of the earth.

CM 105 : Construction Documents. (3:3:0)
OFFERED: F, W
DESCRIPTION: How and why specific types of contract documents and specifications are compiled for a project; reading and interpreting complex construction documents.
NOTE: Fee.

GEOG 212 : Introduction to Geographic Information Systems. (3:2:1)
OFFERED: F, W; Sp on demand.
DESCRIPTION: Concepts in the use of small- and large-scale digital map data, emphasizing landscape interpretation and feature description.

PWS 380 : Plant Community Design. (2:2:0)
OFFERED: W
PREREQUISITE: PWS 103, 105, Bio 235.
DESCRIPTION: Design and ecology of thematic plant communities.

For students planning to pursue a master's degree in horticulture science (MS), the following courses are recommended:

BIO 350 : Ecology. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Bio 220A,B.
DESCRIPTION: Distribution and abundance of organisms and their interactions with the physical and biotic components of the earth.

CHEM 106 : General College Chemistry. (3:4:0)
OFFERED: F, W, Su
PREREQUISITE: Chem 105 or equivalent.
DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.
NOTE: Three lectures and one recitation section per week.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 106 or concurrent enrollment.
DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.
NOTE: Required for most students needing one year of general chemistry.

CHEM 351 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105, 111; or equivalents.
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: Primarily for majors in chemical engineering and the biological sciences.

CHEM 352 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 351 or equivalent.
DESCRIPTION: Continuation of Chem 351.

CHEM 481 : Biochemistry 1. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Chem 352; Biol 100 or equivalent.
DESCRIPTION: First-semester biochemistry. Molecular components of cells, chemical structure and function, enzymes, metabolic transformations, photosynthesis.
NOTE: For chemistry majors and students in biological sciences who contemplate pursuing advanced degrees, including medicine.

MATH 119 : Introduction to Calculus. (4:4:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Introduction to plane analytic geometry and calculus.
NOTE: For students in the College of Life Sciences and the Marriott School of Management.

Or
STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer

package.
NOTE: Honors and Independent Study also.

PHSCS 105 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: High school algebra and trigonometry.
RECOMMENDED: Concurrent enrollment in Phscs 107.
DESCRIPTION: Applied physics course not requiring calculus. Topics include mechanics, heat, wave motion, sound.

PHSCS 106 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Phscs 105 or equivalent.
RECOMMENDED: Concurrent enrollment in Phscs 108.
DESCRIPTION: Continuation of Phscs 105. Topics include electricity and magnetism, atomic and nuclear physics, and optics.

PWS 305 : Soils and Water Quality. (3:3:0)
OFFERED: W
PREREQUISITE: PWS 100 or equivalent; PWS 282; Chem 105 (or 101), Math 110 or equivalent.
DESCRIPTION: Principles and practices of safe management of agricultural and urban wastes; amendments and nutrients including remediation methods for conservation of soils and water quality.

: Conservation and Management.
: Soil and Water.

PWS 369 : Science of Plant Production. (4:4:0)
OFFERED: F
PREREQUISITE: PWS 100, 282; or equivalents.
DESCRIPTION: Scientific principles of crop production related to agronomic and horticultural plants, including relationship of management principles and physiological processes in plants.

PWS 390R : Special Topics in Plant and Animal Sciences. (1-3:ARR:0)
OFFERED: F, W
DESCRIPTION: Various topics of importance in plant and animal sciences.

PWS 440 : Plant Physiology. (3:3.0:0)
OFFERED: F, W
PREREQUISITE: GE Biological Science requirement; college chemistry
RECOMMENDED: Chem 285; or 351, 352.
DESCRIPTION: Photosynthesis, respiration, water relations, mineral nutrition, growth of flowering plants.

PWS 494R : Mentored Learning Experience. (1-6:ARR:ARR)
OFFERED: F, W, Sp, Su
DESCRIPTION: Topics vary.
NOTE: Registration required for mentored experiences.

: Analytical Techniques in Plant Biology.
: Analytical Techniques in Soil Science.
: Animal Cytogenetics Laboratory.
: Animal Genetics and Breeding Techniques.
: Animal Reproductive Research Laboratory.
: Biotechnology Laboratory.
: Environmental Science Computation Laboratory.
: Environmental Science Field Techniques.
: Environmental Science Laboratory.
: Field Techniques in Environmental Soil Research.
: Molecular Genetics and Gene Mapping Laboratory.
: Plant Breeding Field Techniques.
: Plant Cell Biology Laboratory.
: Plant Cytogenetics Laboratory.
: Plant ID / URME Team.
: Plant Physiology Laboratory.
: Plant Tissue Culture and Transformation Techniques.
: Plant and Animal Genomics Laboratory.
: Plant and Soil Science Field Techniques.
: Soil Microbiology Laboratory.
: Soil Physical Properties Laboratory.
: Soil and Water Chemistry Laboratory.
: Soil, Plant, and Water Science Laboratory.

PWS 511 : Soil Physics. (3:3:0)
OFFERED: W even years
PREREQUISITE: PWS 282, Chem 105, Math 112 or 119; or equivalents.
RECOMMENDED: Phscs 105 or 121 or equivalent.
DESCRIPTION: Physical relationships of water, heat, and gases in soils; physical and chemical properties of clays. Mathematical modeling of physical properties and transport processes.

BS in Wildlife and Wildlands Conservation (63 hours*)

Show All Course Descriptions
Hide All Course Descriptions

The Discipline

This degree program qualifies students for federal job series employment in wildlife biology, range conservation, fisheries, ecology, biology, zoology, and botany. It also prepares for graduate programs in renewable natural resources and for eventual professional affiliations with state wildlife agencies and a number of federal agencies, including the U.S. Forest Service, Natural Resource Conservation Service, Bureau of Land Management, Fish and Wildlife Service, and Park Service. Graduates are well prepared to deal with complex issues involving wildlife and wildlands management and the overall conservation of natural resources.

Program Requirements | View MAP

1. Complete the following:

BIO 447 : Mammalogy. (3:2:3)
OFFERED: F
PREREQUISITE: Bio 220A.
DESCRIPTION: Mammalian diversity, evolution, distribution, and natural history. Two three-day field trips required.

BIO 450 : Conservation Biology. (3:3:0)
OFFERED: F
PREREQUISITE: Bio 220A or B, 350.
DESCRIPTION: Scientific principles of conservation: applying population genetics, and phylogenetic and ecological theory to preservation of biological diversity; developing sustainable ecological systems compatible with human resource use.

NDFS 330 : Comparative Animal Nutrition. (3:3:0)
OFFERED: W
DESCRIPTION: Comparative digestion, absorption, and utilization of nutrients and nutritional applications of domestic, pet, and wildlife species.

PDBIO 120 : Science of Biology. (2:2:1)
OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: General biology course designed for biological science majors, emphasizing the scientific method, cell theory, biochemical unity, the Central Dogma, bioenergetics, reproduction, and evolutionary theory.

PWS 115 : Introduction to Wildlife and Wildlands Conservation. (1:1:0)
OFFERED: F
DESCRIPTION: Assisting students in choosing individual professions and curricula.

PWS 215 : Principles of Range Management. (3:3:0)
OFFERED: W
DESCRIPTION: Overview of rangeland resources and management principles, including rangeland classification, multiple use management, natural resource policy, and grazing management.

PWS 225 : Principles of Wildlife and Fisheries Management. (3:3:0)
OFFERED: F
RECOMMENDED: PWS 115.
DESCRIPTION: Basic principles of fish and wildlife management, their habitats, and their human users. Ecological concepts, population dynamics, nutrition, behavior, population assessment, management strategies, habitat sampling and management.

PWS 275 : (PWS - Bio) Genetics and Reproduction. (3:3:0)
OFFERED: W
PREREQUISITE: Any general biology course.
DESCRIPTION: Principles of inheritance.

PWS 330 : Rangeland Plant Identification and Ecology. (3:2:3)
OFFERED: W
DESCRIPTION: Identification, characteristics, phenology, distribution, site adaptation, forage value, and response to management of significant range and pasture plants.

PWS 350 : Rangeland Ecology. (3:2:3)
OFFERED: F
PREREQUISITE: Bio 100 or PDBio 120.
DESCRIPTION: Distribution and abundance of organisms and their interactions with the physical and biotic components of the earth emphasizing rangeland ecosystems.

PWS 355 : Rangeland Vegetation Measurements and Analysis. (3:2:3)
OFFERED: F even years.
DESCRIPTION: Field methodologies for vegetation inventories and analysis (density, biomass, cover, frequency, utilization, etc.) in wildland settings.

PWS 375 : Environmental Policies and Laws. (2:2:0)
OFFERED: W
PREREQUISITE: PWS 150.
DESCRIPTION: Environmental laws (Clean Water Act, Clean Air Act, etc.) and the regulations (National Environmental Policy Act, Nutrient Management Plan, etc.) established in the USA to improve environmental quality.

PWS 416 : Rangeland Vegetation Improvement. (3:2:3)
OFFERED: F odd years.
RECOMMENDED: PWS 310, 350.
DESCRIPTION: Habitat improvement for domestic and wild animals. Plant control by mechanical equipment, herbicides, and prescribed fire. Restoration of disturbed lands.
NOTE: Field trips required.

PWS 417 : Rangeland Planning and GIS. (3:2:3)
OFFERED: F odd years.
RECOMMENDED: PWS 215, 225, 350.
DESCRIPTION: Development of a multiple-use natural resource plan for watershed forestry, recreation, wildlife, and livestock. Policies that govern planning and conflict resolution.

PWS 446 : (PWS-Bio) Ornithology. (3:2:3)
OFFERED: W
PREREQUISITE: Bio 220A.
DESCRIPTION: Avian systematics, evolution, distribution, and natural history.
NOTE: Two three-day field trips required.

PWS 492 : Wildlife and Wildlands Conservation Senior Seminar. (1:1:0)
OFFERED: F, W
DESCRIPTION: Capstone course bringing together portfolios, student experiences, exams, and exercises necessary for completing and assessing wildlife and wildlands program learning outcomes.

2. Complete 21 elective credit hours from the following course list. With the help of your advisor, select courses to qualify for 2–3 federal job series (wildlife biologist, ecologist, range conservationist, GIS specialist, soil conservationist, botanist, fisheries biologist):

BIO 220A : Biological Diversity: Animals. (4:3:3)
OFFERED: F, W
PREREQUISITE: PDBio 120 or equivalent.
DESCRIPTION: Comparative organization and evolutionary significance of morphological, physiological, reproductive, and ecological differences in invertebrates and vertebrates. Laboratory included.

BIO 220B : Biological Diversity: Plants. (4:3:3)
OFFERED: F, W
PREREQUISITE: PDBio 120 or equivalent.
DESCRIPTION: Comparative organization and evolutionary significance of morphological, physiological, reproductive, and ecological differences in fungi, algae, and principal groups of land plants. Laboratory included.

BIO 270 : Animal Restraint. (1:0:2)
OFFERED: W
DESCRIPTION: Restraint and first aid techniques for pet, laboratory, domestic, and wild animals.

BIO 352 : Introduction to Marine Biology. (3:3:0)
OFFERED: W
PREREQUISITE: Bio 220A.
DESCRIPTION: Marine life, the sea as an environment, and research methods.

BIO 380 : Comparative Animal Physiology and Anatomy. (4:3:3)
OFFERED: F
PREREQUISITE: Bio 220A or instructor's consent.
DESCRIPTION: Structure and function of animal organ systems; structural and physiological responses to demands of and changes in environment; evolutionary constraints on anatomy and physiology.

BIO 420 : Evolutionary Biology. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: MMBio 240, PSW 340.
DESCRIPTION: Intensive examination of evolution as the conceptual cornerstone of biology.

BIO 430 : Plant Classification. (3:2:3)
OFFERED: W, Sp
PREREQUISITE: Bio 220B or instructor's consent.
DESCRIPTION: General principles of taxonomy and classification, emphasizing family identification and use of keys to the temperate flora.

BIO 441 : Entomology. (3:2:3)
OFFERED: F
PREREQUISITE: Bio 220A or equivalent.
DESCRIPTION: External morphology, natural history, evolution, distribution, and phylogeny of insects. Insect collection required.

BIO 442 : Advanced Invertebrate Zoology. (5:6:0)
OFFERED: F even years.
PREREQUISITE: Bio 220A.
DESCRIPTION: Functional morphology, cladistics, ecology, behavior, and interrelationships of invertebrates.

BIO 443 : Ichthyology. (3:2:3)
OFFERED: F odd years.
PREREQUISITE: Bio 220A.
DESCRIPTION: Fish systematics, evolution, morphology, distribution, and natural history.

BIO 445 : Herpetology. (4:3:2)
OFFERED: W even years.
PREREQUISITE: Bio 220A.
DESCRIPTION: Reptile and amphibian evolution, systematics, morphology, distribution, and natural history. Lab emphasizes taxonomy, classification, and distribution of western U.S. species.

BIO 452 : Marine Ecology. (3:2:3)
OFFERED: Sp
PREREQUISITE: Bio 352 and instructor's consent.
DESCRIPTION: Principles of marine ecology of planktonic, sublittoral, rocky shore, sandy shore, and mudflat communities. Extensive field trips.

BIO 453 : Development of Marine Animals. (3:0:6)
OFFERED: Sp
PREREQUISITE: Bio 352 and instructor's consent.
DESCRIPTION: Culturing, studying, and reporting on the development of eggs, embryos, and larvae of marine animals.

BIO 525 : Animal Disease, Biosecurity, and Zoonoses. (3:3.0:0)
OFFERED: W
PREREQUISITE: Bio 380 or instructor's consent.
DESCRIPTION: Animal disease emphasizing prevention, organ systems affected, biosecurity, and zoonotic potential.

BIO 541 : Aquatic Entomology. (4:2:4)

OFFERED: F even years.
PREREQUISITE: Bio 441 or equivalent.
DESCRIPTION: Morphology, classification, biology, and functional ecology of aquatic insects. Field trips required.

BIO 556 : Limnology. (2:2:0)
OFFERED: F even years.
PREREQUISITE: Bio 350, Chem 106; or equivalents.
DESCRIPTION: Lakes, reservoirs; their biota and physical/chemical properties.

BIO 557 : Stream and Wetland Ecology. (3:3:0)
OFFERED: F odd years.
PREREQUISITE: Bio 350, Chem 106; or equivalent.
DESCRIPTION: Stream and wetland ecology; their biota and their physical/chemical properties.

BIO 558 : Aquatic Ecology Laboratory. (1:0:3)
OFFERED: F even years.
PREREQUISITE: Bio 556 or 557 or concurrent registration.
DESCRIPTION: Field experience in aquatic ecology, including shoreline processes, fluvial mechanics, and quantitative and qualitative assessment of lotic and lentic systems. Overnight field trips required.

GEOG 211 : Map Use and Interpretation. (3:2:2)
OFFERED: F, W; Sp on demand.
DESCRIPTION: Maps as tools for spatial analysis of problems in physical and cultural geography.

GEOG 212 : Introduction to Geographic Information Systems. (3:2:1)
OFFERED: F, W; Sp on demand.
DESCRIPTION: Concepts in the use of small- and large-scale digital map data, emphasizing landscape interpretation and feature description.

GEOG 219 : Global Positioning Systems and Geodesy. (2:2:0)
OFFERED: F
PREREQUISITE: Geog 211 or instructor's consent.
DESCRIPTION: Earth coordinate systems, map projections, and global positioning system methods.

GEOG 306 : Public Land Conservation. (3:3:0)
OFFERED: F
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Environmental and social geography of public lands; analyzing historical, planning, management, and ecological issues.

GEOG 412 : Problem Solving with Geographic Information Systems. (3:3:1)
OFFERED: F on demand.
PREREQUISITE: Geog 311 or instructor's consent.
DESCRIPTION: Solving practical geographic problems and performing scientific research using raster and vector analysis tools in GIS.

PDBIO 482 : Developmental Biology. (3:3:1)
OFFERED: F, W
PREREQUISITE: Biol 240, 241, 360.
RECOMMENDED: PDBio 225.
DESCRIPTION: Invertebrate and vertebrate developmental biology. Embryonic gastrulation, neurulation, pattering, etc. Modern approaches and research strategies. Emphasizes gene function, cell signaling, signal transduction during embryogenesis.

PWS 100 : Living with Plants. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Physiological, morphological, and ecological characteristics of plants used for food, fiber, and aesthetic enhancement.

PWS 270 : Animal Husbandry. (2:2:0)
OFFERED: W
PREREQUISITE: Concurrent enrollment in Bio 270.
DESCRIPTION: Introduction to animal husbandry and management techniques for domestic and wild animals.

PWS 282 : Introduction to Soil Science. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: PWS 283.

DESCRIPTION: Physical, chemical and microbiological properties of soils that affect plant growth in natural, agricultural, and urban environments.

PWS 283 : Introduction to Soil Science Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: PWS 282 or concurrent enrollment.
DESCRIPTION: Laboratory techniques in determining soil physical, chemical, and fertility properties.

PWS 301 : Plant Growth and Reproduction. (3:2:2)
OFFERED: W
PREREQUISITE: PWS 100 or equivalent.
DESCRIPTION: Scientific principles of plant propagation by seeds, cuttings, budding and grafting, and tissue culture.

PWS 303 : Soils Conservation and Resources. (3:3:0)
OFFERED: F
PREREQUISITE: PWS 100 or equivalent; PWS 282, Chem 105 (or 101), Math 110 or equivalent.
RECOMMENDED: Geol 111.
DESCRIPTION: Taxonomy of world soils; conservation and management of agricultural, wildland, wetland, and urban soils.

: Soil Conservation and Management.

PWS 325 : Fisheries and Wetlands Management. (3:2:3)
OFFERED: F odd years.
RECOMMENDED: PWS 225 or equivalent.
DESCRIPTION: Principles of fisheries and wetlands mangement, emphasizing managing fish populations and their diverse micro- and macro-habitats within the context of community and ecosystem dynamics. Case studies and models used to evaluate growth, recruitments, and mortality in age-structured populations in relationship to the dynamics of watershed and wetland landscapes.

PWS 357 : Techniques for Wildlife Investigations and Management. (3:2:3)
OFFERED: F even years.
RECOMMENDED: PWS 350, 355.
DESCRIPTION: Investigatiion and management of fish and wildlife populations. Methods for population assessment, capture, handling, marking, radio-telemetry, behavioral studies, and human disturbance. Lab is required.

PWS 411 : Watershed Management. (3:2:3)
OFFERED: F even years.
PREREQUISITE: Bio 350.
DESCRIPTION: Processes and management of the hydrologic cycle of forests and rangelands. Field trips required.

PWS 412 : Rangeland-Landscape Ecology and GIS. (3:2:3)
OFFERED: W even years.
PREREQUISITE: Geog 212.
RECOMMENDED: PWS 215.
DESCRIPTION: Characterizing heterogeneous ecosystems for understanding patterns and processes. Applying scale, resolution, patch dynamics, time change, etc. to rangeland ecosystems. Utilizing GIS, remote sensing, and GPS for collecting and analyzing data.

PWS 419 : Forest Management and Ecology. (3:2:3)
OFFERED: F even years.
DESCRIPTION: Managing forests, emphasizing ecosystem managment.
NOTE: Field trips required.

PWS 424 : Wildlife Law Enforcement. (3:3:0)
OFFERED: W
PREREQUISITE: Bio 100 or equivalent.
DESCRIPTION: Current and historical principles of federal and state wildlife law enforcement, case development, evidence, evaluation, human rights, and testimony.

PWS 440 : Plant Physiology. (3:3.0:0)
OFFERED: F, W
PREREQUISITE: GE Biological Science requirement; college chemistry
RECOMMENDED: Chem 285; or 351, 352.
DESCRIPTION: Photosynthesis, respiration, water relations, mineral nutrition, growth of flowering plants.

PWS 553 : Restoration Ecology. (3:3:0)
OFFERED: W odd years.
PREREQUISITE: PWS 282, 416; Bio 350; or equivalents.
DESCRIPTION: Nature of ecosystem disturbance and plant succession; developing science and practice of ecological restoration; case studies of applied restoration.

PWS 554 : Wildlife Behavioral Ecology. (3:3:0)
OFFERED: W
PREREQUISITE: Bio 100, 350; or equivalents.
DESCRIPTION: Integrating principles of ethology, sociobiology, and behavioral ecology using examples from wildlife resources; behavioral sampling methods.
NOTE: Field trips required.

Recommended Courses for Preprofessional Track

CHEM 105 : General College Chemistry. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energectics, electrochemistry, acids and bases, inorganic and organic chemistry.
NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

CHEM 106 : General College Chemistry. (3:4:0)
OFFERED: F, W, Su
PREREQUISITE: Chem 105 or equivalent.
DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.
NOTE: Three lectures and one recitation section per week.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 106 or concurrent enrollment.
DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.
NOTE: Required for most students needing one year of general chemistry.

CHEM 351 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105, 111; or equivalents.
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: Primarily for majors in chemical engineering and the biological sciences.

CHEM 352 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 351 or equivalent.
DESCRIPTION: Continuation of Chem 351.

CHEM 353 : Organic Chemistry Laboratory--Nonmajors. (1-2:0:6)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 352 or concurrent enrollment (preferred).
DESCRIPTION: Physical and chemical properties, isolation and purification, characterization, syntheses.
NOTE: For predentistry, premedicine, and other majors who do not intend to take Chem 455.

PHSCS 105 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: High school algebra and trigonometry.
RECOMMENDED: Concurrent enrollment in Phscs 107.
DESCRIPTION: Applied physics course not requiring calculus. Topics include mechanics, heat, wave motion, sound.

PHSCS 106 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Phscs 105 or equivalent.
RECOMMENDED: Concurrent enrollment in Phscs 108.
DESCRIPTION: Continuation of Phscs 105. Topics include electricity and magnetism, atomic and nuclear physics, and optics.

PHSCS 107 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 105 or concurrent enrollment.

PHSCS 108 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Su

PREREQUISITE: Phscs 106 or concurrent enrollment.

PDBIO 305 : Human Physiology (with lab). (4:4:2)
OFFERED: F, W, Sp
PREREQUISITE: Chem 101 or equivalent.
RECOMMENDED: A general biology course.
DESCRIPTION: Function of body organ systems.
NOTE: Not acceptable for physiology and developmental biology, biophysics, or neuroscience majors. Designed for students with basic chemistry / no molecular biology. Students with chemistry/molecular biology should take PDBio 362.

Or
PDBIO 362 : Advanced Physiology. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Biol 240; Phscs 106 or 220.
DESCRIPTION: Integrated approach to organ system and cellular physiology. Problem solving/calculations.
NOTE: Requires background in chemistry and molecular biology. Students without this background should take PDBio 305.

Or
BIO 380 : Comparative Animal Physiology and Anatomy. (4:3:3)
OFFERED: F
PREREQUISITE: Bio 220A or instructor's consent.
DESCRIPTION: Structure and function of animal organ systems; structural and physiological responses to demands of and changes in environment; evolutionary constraints on anatomy and physiology.

GIS Applications

Students interested in GIS applications should consider a minor in geographic information systems (20-23 hours). See the Geography Department for details.

*Hours include courses that may fulfill university core requirements.

Show all Plant and Wildlife Sciences (PWS) Courses

research and writing.

(section 5 or 9)

5. Complete the following capstone course:
   STDEV 490 : Bachelor of General Studies Capstone. (2:2:0)
   OFFERED: Independent Study only.
   PREREQUISITE: StDev 100; completion of all other BGS program requirements.
   DESCRIPTION: Culminating course required for bachelor of general studies degree: analyze and evaluate BGS experience in light of the "Aims of a BYU Education" and summarize this experience in a reflective paper, integrate material learned in emphasis by completing a scholarly essay, and demonstrate accomplishment of learning outcomes.

Minor in Environmental Science (16 hours*)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements

1. Complete the following environmental science core courses:
   PWS 150 : Environmental Biology. (3:3:0)
   OFFERED: F, W
   DESCRIPTION: Conservation and management of natural resources concurrent with increasing socioeconomic and human population demands; factors such as soil, water, and air pollution, resources management, bioremediation, nutrient cycles, and global climate changes

   PWS 375 : Environmental Policies and Laws. (2:2:0)
   OFFERED: W
   PREREQUISITE: PWS 150.
   DESCRIPTION: Environmental laws (Clean Water Act, Clean Air Act, etc.) and the regulations (National Environmental Policy Act, Nutrient Management Plan, etc.) established in the USA to improve environmental quality.

2. Complete a minimum of 11 credit hours from the following course lists:
   A. Complete at least 6 hours of the following supporting core courses:
      PWS 282 : Introduction to Soil Science. (3:3:0)
      OFFERED: F, W, Sp
      PREREQUISITE: PWS 283.
      DESCRIPTION: Physical, chemical and microbiological properties of soils that affect plant growth in natural, agricultural, and urban environments.

      PWS 283 : Introduction to Soil Science Laboratory. (1:0:3)
      OFFERED: F, W, Sp
      PREREQUISITE: PWS 282 or concurrent enrollment.
      DESCRIPTION: Laboratory techniques in determining soil physical, chemical, and fertility properties.

      PWS 303 : Soils Conservation and Resources. (3:3:0)
      OFFERED: F
      PREREQUISITE: PWS 100 or equivalent; PWS 282, Chem 105 (or 101), Math 110 or equivalent.
      RECOMMENDED: Geol 111.
      DESCRIPTION: Taxonomy of world soils; conservation and management of agricultural, wildland, wetland, and urban soils.

      : Soil Conservation and Management.

      PWS 305 : Soils and Water Quality. (3:3:0)
      OFFERED: W
      PREREQUISITE: PWS 100 or equivalent; PWS 282; Chem 105 (or 101), Math 110 or equivalent.
      DESCRIPTION: Principles and practices of safe management of agricultural and urban wastes; amendments and nutrients including remediation methods for conservation of soils and water quality.

      : Conservation and Management.
      : Soil and Water.

      PWS 345 : Air Pollution and Air Quality. (3:3:0)
      OFFERED: F
      DESCRIPTION: Biogenic and anthropogenic factors influencing air pollution and air quality. How various compounds (COx, SOx, NOx, particulate matter, ozone, etc.) are generated and influence air quality. Other topics include global warming, coal-fired power generation, transportation-

derived pollutants, smog, acid rain, ozone depletion, etc.

PWS 490 : Case Studies. (2:1:2)
OFFERED: F
PREREQUISITE: PWS 282.
DESCRIPTION: Contemporary agricultural and environmental problems using decision case studies dealing with environmental technology issues and analysis.

PWS 494R : Mentored Learning Experience. (1-6:ARR:ARR)
OFFERED: F, W, Sp, Su
DESCRIPTION: Topics vary.
NOTE: Registration required for mentored experiences.

: Analytical Techniques in Plant Biology.
: Analytical Techniques in Soil Science.
: Animal Cytogenetics Laboratory.
: Animal Genetics and Breeding Techniques.
: Animal Reproductive Research Laboratory.
: Biotechnology Laboratory.
: Environmental Science Computation Laboratory.
: Environmental Science Field Techniques.
: Environmental Science Laboratory.
: Field Techniques in Environmental Soil Research.
: Molecular Genetics and Gene Mapping Laboratory.
: Plant Breeding Field Techniques.
: Plant Cell Biology Laboratory.
: Plant Cytogenetics Laboratory.
: Plant ID / URME Team.
: Plant Physiology Laboratory.
: Plant Tissue Culture and Transformation Techniques.
: Plant and Animal Genomics Laboratory.
: Plant and Soil Science Field Techniques.
: Soil Microbiology Laboratory.
: Soil Physical Properties Laboratory.
: Soil and Water Chemistry Laboratory.
: Soil, Plant, and Water Science Laboratory.

B. Complete up to 5 hours from the following:

BIO 220A : Biological Diversity: Animals. (4:3:3)
OFFERED: F, W
PREREQUISITE: PDBio 120 or equivalent.
DESCRIPTION: Comparative organization and evolutionary significance of morphological, physiological, reproductive, and ecological differences in invertebrates and vertebrates. Laboratory included.

BIO 370 : Bioethics. (2:1:3)
OFFERED: F, W
PREREQUISITE: Introductory biology course.
DESCRIPTION: In-depth lecture and small group discussion of varied bioethical issues. LDS Church positions emphasized when appropriate.

BIO 441 : Entomology. (3:2:3)
OFFERED: F
PREREQUISITE: Bio 220A or equivalent.
DESCRIPTION: External morphology, natural history, evolution, distribution, and phylogeny of insects. Insect collection required.

CHEM 101 : Introductory General Chemistry. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 97 or equivalent.
DESCRIPTION: Atomic and molecular structure, periodic relationships, states of matter, chemical reactions and stoichiometry, acids and bases.
NOTE: Primarily for nonscience majors who require a broad introduction to general chemistry.

CHEM 103 : Introductory Chemistry Laboratory. (1:0:3)
OFFERED: W
PREREQUISITE: Chem 101 or equivalent.
DESCRIPTION: Introductory laboratory techniques required for simple classical experiments in chemistry.

CHEM 105 : General College Chemistry. (4:5:0)

OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energectics, electrochemistry, acids and bases, inorganic and organic chemistry.
NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

CHEM 106 : General College Chemistry. (3:4:0)
OFFERED: F, W, Su
PREREQUISITE: Chem 105 or equivalent.
DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.
NOTE: Three lectures and one recitation section per week.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 106 or concurrent enrollment.
DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.
NOTE: Required for most students needing one year of general chemistry.

CHEM 152 : Introductory Organic Chemistry. (2:2:0)
OFFERED: F, W
PREREQUISITE: Chem 101 or adequate high school preparation in chemistry.
DESCRIPTION: Principles of structure and reactivity, properties and reactions of compound classes, syntheses.

CHEM 223 : Quantitative and Qualitative Analysis. (4:2:6)
OFFERED: F, Sp
PREREQUISITE: Chem 106 or equivalent.
DESCRIPTION: Principles of chemical equilibrium, quantitative chemical measurements, and qualitative detection of selected chemical species.
NOTE: Primarily for majors in molecular biology and the life sciences.

CHEM 227 : Introductory Analytical Chemistry. (4:2:6)
OFFERED: F, Sp
PREREQUISITE: Chem 113.
DESCRIPTION: Principles of quantitative analysis, introductory instrumental methods, and computer applications to chemical analysis.

CHEM 351 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105, 111; or equivalents.
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: Primarily for majors in chemical engineering and the biological sciences.

CHEM 352 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 351 or equivalent.
DESCRIPTION: Continuation of Chem 351.

CHEM 353 : Organic Chemistry Laboratory--Nonmajors. (1-2:0:6)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 352 or concurrent enrollment (preferred).
DESCRIPTION: Physical and chemical properties, isolation and purification, characterization, syntheses.
NOTE: For predentistry, premedicine, and other majors who do not intend to take Chem 455.

CHEM 481 : Biochemistry 1. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Chem 352; Biol 100 or equivalent.
DESCRIPTION: First-semester biochemistry. Molecular components of cells, chemical structure and function, enzymes, metabolic transformations, photosynthesis.
NOTE: For chemistry majors and students in biological sciences who contemplate pursuing advanced degrees, including medicine.

ECON 440 : Natural Resources and Environmental Economics. (3:3:0)

PREREQUISITE: Econ 380; 388 or concurrent enrollment.
DESCRIPTION: Economic theory applied to allocation of natural resources and environmental amenities. Issues relating to externalities, common property resources, public goods, allocation of depletable natural resources over time, economic factors of environmental polarization, and others.

GEOG 101 : Global Environment: Understanding Physical Geography. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Physical environment, distribution and interrelationships of climates, landforms, ecosystems and their human significance.

GEOG 212 : Introduction to Geographic Information Systems. (3:2:1)
OFFERED: F, W; Sp on demand.
DESCRIPTION: Concepts in the use of small- and large-scale digital map data, emphasizing landscape interpretation and feature description.

GEOG 303 : Biogeography. (3:3:0)
OFFERED: F
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Broad-scale distribution of plants and animals. Theoretical and practical applications to conservation and effects of global environmental change.

GEOG 305 : Geography of Landforms. (3:3:0)
OFFERED: F (as needed).
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Elements of landforms: distributions and cultural significance.

GEOG 306 : Public Land Conservation. (3:3:0)
OFFERED: F
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Environmental and social geography of public lands; analyzing historical, planning, management, and ecological issues.

GEOG 307 : Landscape Ecology. (3:3:0)
OFFERED: W
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Interaction between spatial patterns and spatial processes in an ecological context. Methods, theories, and practical applications of landscapes at various scales.

GEOG 310 : Principles of Land Use Planning. (3:3:0)
OFFERED: F
DESCRIPTION: Land use concepts, practical and theoretical problems, activities, and techniques.

GEOG 311 : Geographic Data Management. (3:3:0)
OFFERED: W
PREREQUISITE: Geog 212 or equivalent.
DESCRIPTION: Nature of geographic information and its practical management in GIS; design of GIS databases, data collection from primary and secondary sources, manipulating data in preparation for analysis, and data exploration.

GEOG 331 : Economic Geography. (3:3:0)
OFFERED: F, Alt. term
DESCRIPTION: Introduction to economic processes and spatial patterns, emphasizing theoretical approaches, locational strategies, and changing economic land-use patterns.

GEOG 412 : Problem Solving with Geographic Information Systems. (3:3:1)
OFFERED: F on demand.
PREREQUISITE: Geog 311 or instructor's consent.
DESCRIPTION: Solving practical geographic problems and performing scientific research using raster and vector analysis tools in GIS.

GEOL 101 : Introduction to Geology. (3:2:1)
OFFERED: F, W, Sp, Su
DESCRIPTION: Cultural focus on physical and environmental geology for nonscience majors; rocks and minerals. Field trips.
NOTE: Honors also.

GEOL 111 : Physical Geology. (4:3:2)

OFFERED: F, W
PREREQUISITE: Math 112 or concurrent enrollment.
DESCRIPTION: Materials, structure, and surface features of the earth and the geologic processes involved in their development. Field trips and lab studies, use of aerial photos.

GEOL 404 : Chemical Processes in the Environment. (3:3:0)
OFFERED: F
PREREQUISITE: Geol 111 or 330.
DESCRIPTION: Natural controls on the composition of water; anthropogenic effects on air and water relative to understanding a range of environmental problems.

GEOL 435 : Introduction to Groundwater. (3:3:0)
OFFERED: F
PREREQUISITE: Geol 111 or 330; Math 110 or equivalent.
DESCRIPTION: Introduction to the occurrence, movement, and properties of subsurface water; surface and groundwater relationships.

MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

MATH 119 : Introduction to Calculus. (4:4:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Introduction to plane analytic geometry and calculus.
NOTE: For students in the College of Life Sciences and the Marriott School of Management.

MATH 302 : Mathematics for Engineering 1. (4:4:0)
OFFERED: F, W
PREREQUISITE: Math 113 and passing grade on required preparatory exam taken during first week of class. (Practice exams available on class Website).
DESCRIPTION: Multivariable calculus, linear algebra, and numerical methods.

MATH 303 : Mathematics for Engineering 2. (4:4:0)
OFFERED: F, W
PREREQUISITE: Math 302; or Math 214 and 343.
DESCRIPTION: ODEs, Laplace transforms, Fourier series, PDEs, numerical methods.

MMBIO 221 : General Microbiology. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Any chemistry course and any biology course.
DESCRIPTION: Microbial world, emphasizing communicable diseases, their causes, and control.
NOTE: Recommended for students seeking a liberal education in microbiology who do not have the prerequisites to take the more advanced courses.

MMBIO 240 : Molecular Biology. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 120, Chem 105.
DESCRIPTION: Fundamentals of protein and nucleic acid structure and their function in the context of the classical experiments that have informed our current models of biology at the molecular level.

MMBIO 241 : Molecular and Cellular Biology Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: MMBio 240 or concurrent enrollment.
DESCRIPTION: Molecular and cellular biology techniques laboratory.

PDBIO 360 : Cell Biology. (3:3:1)
OFFERED: F, W
PREREQUISITE: MMBio 240.
DESCRIPTION: Fundamentals of cell structure and function with reference to analytical methods used by cell biologists. Practice in designing, executing, and interpreting relative experiments.

PHSCS 105 : Introductory Applied Physics. (3:3:0)

OFFERED: F, W, Sp
PREREQUISITE: High school algebra and trigonometry.
RECOMMENDED: Concurrent enrollment in Phscs 107.
DESCRIPTION: Applied physics course not requiring calculus. Topics include mechanics, heat, wave motion, sound.

PHSCS 106 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Phscs 105 or equivalent.
RECOMMENDED: Concurrent enrollment in Phscs 108.
DESCRIPTION: Continuation of Phscs 105. Topics include electricity and magnetism, atomic and nuclear physics, and optics.

PHSCS 107 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 105 or concurrent enrollment.

PHSCS 108 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Su
PREREQUISITE: Phscs 106 or concurrent enrollment.

Or
PHSCS 121 : Principles of Physics 1. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Calculus or concurrent enrollment.
DESCRIPTION: Newtonian mechanics. Weekly lab.

PHSCS 123 : Principles of Physics 2. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121.
DESCRIPTION: Waves, thermal physics, optics, special relativity, and introduction to modern physics. Weekly lab.

PHIL 205 : Deductive Logic. (3:3:0)
OFFERED: F, W, Sp on demand.
DESCRIPTION: History and use of syllogistic and propositional logic; evaluating arguments with Venn diagrams, truth tables, and Copi-style proofs and proof strategies.

PL SC 535 : Natural Resources Policy. (3:3:0)
DESCRIPTION: Processes and politics of public policies related to natural resources. Problems of analysis and evaluation.

PL SC 536 : Environmental Regulation. (3:3:0)
DESCRIPTION: Regulatory programs aimed at air and water pollution, hazardous waste, toxic chemicals, and other environmental problems. Alternative regulatory mechanisms and approaches.

PWS 103 : Residential Landscape Design. (3:3:0)
OFFERED: F, W
DESCRIPTION: Design and composition as applied to development of residential grounds.

PWS 215 : Principles of Range Management. (3:3:0)
OFFERED: W
DESCRIPTION: Overview of rangeland resources and management principles, including rangeland classification, multiple use management, natural resource policy, and grazing management.

PWS 225 : Principles of Wildlife and Fisheries Management. (3:3:0)
OFFERED: F
RECOMMENDED: PWS 115.
DESCRIPTION: Basic principles of fish and wildlife management, their habitats, and their human users. Ecological concepts, population dynamics, nutrition, behavior, population assessment, management strategies, habitat sampling and management.

PWS 306 : Soil Fertility and Plant Nutrition Laboratory. (1:0:3)
OFFERED: W
PREREQUISITE: PWS 305 or concurrent enrollment.
DESCRIPTION: Laboratory for studying nutrient-supplying power of soils, nutrient deficiencies and toxicities, and plant adaptation to nutritional stresses.

PWS 310 : Mentored Laboratory Techniques. (2:.5:1.5)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 107, MMBio 241.
DESCRIPTION: Mentored, systematic instruction in basic biotechnology techniques and their application in addressing molecular genetic research questions.

PWS 330 : Rangeland Plant Identification and Ecology. (3:2:3)
OFFERED: W
DESCRIPTION: Identification, characteristics, phenology, distribution, site adaptation, forage value, and response to management of significant range and pasture plants.

PWS 331 : Science of Plant Pest Control. (3:3:0)
OFFERED: W
PREREQUISITE: PWS 100, 282; or equivalents.
DESCRIPTION: Identifying important insect, disease, and weed pest problems. Pest classification, biology, and methods of control.

PWS 340 : Genetics. (2:2:1)
OFFERED: F, W, Su
PREREQUISITE: MMBio 240.
DESCRIPTION: Genetic mechanisms, their fundamental nature, interactions, and applications to human affairs. Genetics in quantitative terms. Extensive practice in problem solving.

PWS 355 : Rangeland Vegetation Measurements and Analysis. (3:2:3)
OFFERED: F even years.
DESCRIPTION: Field methodologies for vegetation inventories and analysis (density, biomass, cover, frequency, utilization, etc.) in wildland settings.

PWS 390R : Special Topics in Plant and Animal Sciences. (1-3:ARR:0)
OFFERED: F, W
DESCRIPTION: Various topics of importance in plant and animal sciences.

PWS 402 : Urban Soils and Water. (4:4:0)
OFFERED: F
PREREQUISITE: PWS 100, 282.
DESCRIPTION: Principles of water management, soil physics, and soil fertility used in a problem-solving environment addressing current challenges in managing soils and water in the urban landscape.

PWS 411 : Watershed Management. (3:2:3)
OFFERED: F even years.
PREREQUISITE: Bio 350.
DESCRIPTION: Processes and management of the hydrologic cycle of forests and rangelands. Field trips required.

PWS 416 : Rangeland Vegetation Improvement. (3:2:3)
OFFERED: F odd years.
RECOMMENDED: PWS 310, 350.
DESCRIPTION: Habitat improvement for domestic and wild animals. Plant control by mechanical equipment, herbicides, and prescribed fire. Restoration of disturbed lands.
NOTE: Field trips required.

PWS 419 : Forest Management and Ecology. (3:2:3)
OFFERED: F even years.
DESCRIPTION: Managing forests, emphasizing ecosystem managment.
NOTE: Field trips required.

PWS 491R : Undergraduate Seminar. (1:1:0)
OFFERED: W
DESCRIPTION: Current information in the plant and wildlife sciences.

PWS 511 : Soil Physics. (3:3:0)
OFFERED: W even years
PREREQUISITE: PWS 282, Chem 105, Math 112 or 119; or equivalents.
RECOMMENDED: Phscs 105 or 121 or equivalent.
DESCRIPTION: Physical relationships of water, heat, and gases in soils; physical and chemical properties of clays. Mathematical modeling of physical properties and transport processes.

PWS 514 : Soil Microbiology. (2:2:3)
OFFERED: W odd years
PREREQUISITE: Chem 106, 107; or equivalents.
DESCRIPTION: Ecology and role of soil microorganisms in nutrient cycling, decomposition of organic matter and waste materials, and degradation of agricultural chemicals in soil.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

*Hours include courses that may fulfill university core requirements.

Minor in Landscape Management (17.5–18 hours*)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements

1. Complete the following:

PWS 103 : Residential Landscape Design. (3:3:0)
OFFERED: F, W
DESCRIPTION: Design and composition as applied to development of residential grounds.

PWS 214 : Landscape Bidding and Estimating. (2:2:0)
OFFERED: W
PREREQUISITE: Math 110 or equivalent; PWS 103.
DESCRIPTION: Competitive bidding strategies, quantity takeoffs, bid analyses for landscape construction and maintenance.

PWS 282 : Introduction to Soil Science. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: PWS 283.
DESCRIPTION: Physical, chemical and microbiological properties of soils that affect plant growth in natural, agricultural, and urban environments.

PWS 391R : Careers in Plant and Wildlife Sciences. (1:1:0)
OFFERED: F
DESCRIPTION: Current information on internships, career options, and employment preparation skills in the plant and wildlife sciences.
NOTE: For sophomores and juniors.

: Careers in Horticulture.

2. Complete one course from the following:

PWS 198R : BYU Grounds Practicum. (.5:0:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent; concurrent employment with BYU Grounds Department.
DESCRIPTION: Multiple horticulture experiences through collaboration with BYU Grounds.

PWS 199R : Academic Internship. (.5-3:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Consent of both department chair and cooperative education coordinator.
DESCRIPTION: Work experience evaluated by supervisor and posted on student's transcript.

3. After consulting with a faculty advisor, complete 8 hours from the following:

Design

PWS 105 : Landscape Design Graphics. (2:2:0)
OFFERED: W, Sp
PREREQUISITE: PWS 103.
DESCRIPTION: Communication through descriptive drawing and professional plan graphics: plan views, elevation, color, and computer-aided design.

PWS 112 : Floral Design. (3:2:2)
OFFERED: F, W, Sp
DESCRIPTION: History and principles of floral design; identification, care, and handling of cut flowers; techniques of arranging flowers and other plant materials for home and professional use.
NOTE: Fee.

PWS 213 : Interior Plants and Landscapes. (2:2:0)
OFFERED: F, W
DESCRIPTION: Identification and culture of plants used in the interior landscape industry; applying principles of design to the placement and use in interior landscapes.

PWS 380 : Plant Community Design. (2:2:0)
OFFERED: W
PREREQUISITE: PWS 103, 105, Bio 235.
DESCRIPTION: Design and ecology of thematic plant communities.

Installation

PWS 211 : Landscape Structures. (2:2:0)
OFFERED: F
PREREQUISITE: PWS 103.
DESCRIPTION: Theory and mechanics of hardscape design and construction.

PWS 212 : Landscape Laboratory. (1:0:2)
OFFERED: F
PREREQUISITE: PWS 211.
DESCRIPTION: Working methods of the landscape industry: irrigation, equipment, and materials.

PWS 283 : Introduction to Soil Science Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: PWS 282 or concurrent enrollment.
DESCRIPTION: Laboratory techniques in determining soil physical, chemical, and fertility properties.

PWS 319 : Turf Science. (2:1:2)
OFFERED: F
PREREQUISITE: PWS 100.
DESCRIPTION: Management of turf relative to climate, soil, and use on the golf course, park, and private areas.

PWS 320 : Arboriculture. (3:3:0)
OFFERED: W
PREREQUISITE: PWS 100, 282.
RECOMMENDED: Bio 235.
DESCRIPTION: Biology and culture of woody plants for use in urban landscapes.

Maintenance

PWS 210 : Herbaceous Plants. (2:2:0)
OFFERED: F
DESCRIPTION: Identification and landscape use of flowers and groundcovers.

PWS 283 : Introduction to Soil Science Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: PWS 282 or concurrent enrollment.
DESCRIPTION: Laboratory techniques in determining soil physical, chemical, and fertility properties.

PWS 319 : Turf Science. (2:1:2)
OFFERED: F
PREREQUISITE: PWS 100.
DESCRIPTION: Management of turf relative to climate, soil, and use on the golf course, park, and private areas.

PWS 320 : Arboriculture. (3:3:0)
OFFERED: W
PREREQUISITE: PWS 100, 282.
RECOMMENDED: Bio 235.
DESCRIPTION: Biology and culture of woody plants for use in urban landscapes.

PWS 431 : Integrated Management of Plant Pests. (3:2:3)
OFFERED: F
PREREQUISITE: PWS 100, 282, 331.
DESCRIPTION: Diagnosing, identifiying, and managing of weed, insect, and disease problems in plants.

Admission to Degree Program

The degree programs in the school carry special enrollment limitations. Please see the Marriott School of Management Advisement Center for specific details.

The Discipline

Accounting has been called the language of business in which accountants control, analyze, and report the financial resources of an enterprise. A good understanding of accounting principles and practices can serve as the basis for a career in any business field.

Career Opportunities

Accountants provide critical input and guidance in profit-seeking organizations, service and charitable organizations, educational institutions, government, public accounting firms—indeed, any organization that exists today.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Major

BS in Accounting

For help or information on the undergraduate programs, please see the Marriott School of Management Advisement Center.

For information on management degrees, see Management section of this catalog.

Graduate Programs and Degrees

MAcc in Professional Accountancy
MAcc in Tax

For more information see the current Marriott School of Management School of Accountancy Web site at http://marriottschool.byu.edu/soa and the BYU 20078–2009 Graduate Catalog.

Integrated pest management solutions. Proper pesticide management and safety.

Note 1: Electives need not be taken from the same emphasis to fill this requirement.

Note 2: PWS 100 will substitute for 3 hours under the elective requirement.

*Hours include courses that may fulfill university core requirements.

Undergraduate Courses

100-Level Courses

PWS 100 : Living with Plants. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Physiological, morphological, and ecological characteristics of plants used for food, fiber, and aesthetic enhancement.

PWS 103 : Residential Landscape Design. (3:3:0)
OFFERED: F, W
DESCRIPTION: Design and composition as applied to development of residential grounds.

PWS 105 : Landscape Design Graphics. (2:2:0)
OFFERED: W, Sp
PREREQUISITE: PWS 103.
DESCRIPTION: Communication through descriptive drawing and professional plan graphics: plan views, elevation, color, and computer-aided design.

PWS 112 : Floral Design. (3:2:2)
OFFERED: F, W, Sp
DESCRIPTION: History and principles of floral design; identification, care, and handling of cut flowers; techniques of arranging flowers and other plant materials for home and professional use.
NOTE: Fee.

PWS 115 : Introduction to Wildlife and Wildlands Conservation. (1:1:0)
OFFERED: F
DESCRIPTION: Assisting students in choosing individual professions and curricula.

PWS 150 : Environmental Biology. (3:3:0)
OFFERED: F, W
DESCRIPTION: Conservation and management of natural resources concurrent with increasing socioeconomic and human population demands; factors such as soil, water, and air pollution, resources management, bioremediation, nutrient cycles, and global climate changes

PWS 198R : BYU Grounds Practicum. (.5:0:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent; concurrent employment with BYU Grounds Department.
DESCRIPTION: Multiple horticulture experiences through collaboration with BYU Grounds.

PWS 199R : Academic Internship. (.5-3:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Consent of both department chair and cooperative education coordinator.
DESCRIPTION: Work experience evaluated by supervisor and posted on student's transcript.

200-Level Courses

PWS 210 : Herbaceous Plants. (2:2:0)
OFFERED: F
DESCRIPTION: Identification and landscape use of flowers and groundcovers.

PWS 211 : Landscape Structures. (2:2:0)
OFFERED: F
PREREQUISITE: PWS 103.
DESCRIPTION: Theory and mechanics of hardscape design and construction.

PWS 212 : Landscape Laboratory. (1:0:2)
OFFERED: F
PREREQUISITE: PWS 211.
DESCRIPTION: Working methods of the landscape industry: irrigation, equipment, and materials.

PWS 213 : Interior Plants and Landscapes. (2:2:0)
OFFERED: F, W
DESCRIPTION: Identification and culture of plants used in the interior landscape industry; applying principles of design to the placement and use in interior landscapes.

PWS 214 : Landscape Bidding and Estimating. (2:2:0)
OFFERED: W
PREREQUISITE: Math 110 or equivalent; PWS 103.

PWS 215 : Principles of Range Management. (3:3:0)
OFFERED: W
DESCRIPTION: Overview of rangeland resources and management principles, including rangeland classification, multiple use management, natural resource policy, and grazing management.

PWS 225 : Principles of Wildlife and Fisheries Management. (3:3:0)
OFFERED: F
RECOMMENDED: PWS 115.
DESCRIPTION: Basic principles of fish and wildlife management, their habitats, and their human users. Ecological concepts, population dynamics, nutrition, behavior, population assessment, management strategies, habitat sampling and management.

PWS 265 : (PWS-Bio-MMBio) Genomics. (3:2:1)
OFFERED: F, W
PREREQUISITE: Bioinformatics major status or PDBio 120.
DESCRIPTION: Introduction to genomics and genome projects (human, plant, bacterial, yeast, parasites). Introduction to genes and genomes; computational and statistical approaches for analyzing genomic data, including genome sequencing and annotation, gene expression and the transcriptome, proteomics and functional genomics, and genetic variation and SNPs.

PWS 270 : Animal Husbandry. (2:2:0)
OFFERED: W
PREREQUISITE: Concurrent enrollment in Bio 270.
DESCRIPTION: Introduction to animal husbandry and management techniques for domestic and wild animals.

PWS 275 : (PWS - Bio) Genetics and Reproduction. (3:3:0)
OFFERED: W
PREREQUISITE: Any general biology course.
DESCRIPTION: Principles of inheritance.

PWS 282 : Introduction to Soil Science. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: PWS 283.
DESCRIPTION: Physical, chemical and microbiological properties of soils that affect plant growth in natural, agricultural, and urban environments.

PWS 283 : Introduction to Soil Science Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: PWS 282 or concurrent enrollment.
DESCRIPTION: Laboratory techniques in determining soil physical, chemical, and fertility properties.

300-Level Courses

PWS 301 : Plant Growth and Reproduction. (3:2:2)
OFFERED: W
PREREQUISITE: PWS 100 or equivalent.
DESCRIPTION: Scientific principles of plant propagation by seeds, cuttings, budding and grafting, and tissue culture.

PWS 303 : Soils Conservation and Resources. (3:3:0)
OFFERED: F
PREREQUISITE: PWS 100 or equivalent; PWS 282, Chem 105 (or 101), Math 110 or equivalent.
RECOMMENDED: Geol 111.
DESCRIPTION: Taxonomy of world soils; conservation and management of agricultural, wildland, wetland, and urban soils.

: Soil Conservation and Management.

PWS 305 : Soils and Water Quality. (3:3:0)
OFFERED: W
PREREQUISITE: PWS 100 or equivalent; PWS 282; Chem 105 (or 101), Math 110 or equivalent.
DESCRIPTION: Principles and practices of safe management of agricultural and urban wastes; amendments and nutrients including remediation methods for conservation of soils and water quality.

: Conservation and Management.
: Soil and Water.

PWS 306 : Soil Fertility and Plant Nutrition Laboratory. (1:0:3)
OFFERED: W
PREREQUISITE: PWS 305 or concurrent enrollment.
DESCRIPTION: Laboratory for studying nutrient-supplying power of soils, nutrient deficiencies and toxicities, and plant adaptation to nutritional stresses.

PWS 310 : Mentored Laboratory Techniques. (2:.5:1.5)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 107, MMBio 241.
DESCRIPTION: Mentored, systematic instruction in basic biotechnology techniques and their application in addressing molecular genetic research questions.

PWS 319 : Turf Science. (2:1:2)
OFFERED: F
PREREQUISITE: PWS 100.
DESCRIPTION: Management of turf relative to climate, soil, and use on the golf course, park, and private areas.

PWS 320 : Arboriculture. (3:3:0)
OFFERED: W
PREREQUISITE: PWS 100, 282.
RECOMMENDED: Bio 235.

PWS 325 : Fisheries and Wetlands Management. (3:2:3)
OFFERED: F odd years.
RECOMMENDED: PWS 225 or equivalent.
DESCRIPTION: Principles of fisheries and wetlands mangement, emphasizing managing fish populations and their diverse micro- and macro-habitats within the context of community and ecosystem dynamics. Case studies and models used to evaluate growth, recruitments, and mortality in age-structured populations in relationship to the dynamics of watershed and wetland landscapes.

PWS 330 : Rangeland Plant Identification and Ecology. (3:2:3)
OFFERED: W
DESCRIPTION: Identification, characteristics, phenology, distribution, site adaptation, forage value, and response to management of significant range and pasture plants.

PWS 331 : Science of Plant Pest Control. (3:3:0)
OFFERED: W
PREREQUISITE: PWS 100, 282; or equivalents.
DESCRIPTION: Identifying important insect, disease, and weed pest problems. Pest classification, biology, and methods of control.

PWS 340 : Genetics. (2:2:1)
OFFERED: F, W, Su
PREREQUISITE: MMBio 240.
DESCRIPTION: Genetic mechanisms, their fundamental nature, interactions, and applications to human affairs. Genetics in quantitative terms. Extensive practice in problem solving.

PWS 344 : Natural History of Wildlife. (3:3:0)
OFFERED: W
RECOMMENDED: PWS 225 or equivalent.
DESCRIPTION: Wildlife species and their habitats, including ecology, life histories, adaptations, behavior, genetics and population viability variables, and the ethics of global stewardship. Field trips required.

PWS 345 : Air Pollution and Air Quality. (3:3:0)
OFFERED: F
DESCRIPTION: Biogenic and anthropogenic factors influencing air pollution and air quality. How various compounds (COx, SOx, NOx, particulate matter, ozone, etc.) are generated and influence air quality. Other topics include global warming, coal-fired power generation, transportation-derived pollutants, smog, acid rain, ozone depletion, etc.

PWS 350 : Rangeland Ecology. (3:2:3)
OFFERED: F
PREREQUISITE: Bio 100 or PDBio 120.
DESCRIPTION: Distribution and abundance of organisms and their interactions with the physical and biotic components of the earth emphasizing rangeland ecosystems.

PWS 355 : Rangeland Vegetation Measurements and Analysis. (3:2:3)
OFFERED: F even years.
DESCRIPTION: Field methodologies for vegetation inventories and analysis (density, biomass, cover, frequency, utilization, etc.) in wildland settings.

PWS 357 : Techniques for Wildlife Investigations and Management. (3:2:3)
OFFERED: F even years.
RECOMMENDED: PWS 350, 355.
DESCRIPTION: Investigation and management of fish and wildlife populations. Methods for population assessment, capture, handling, marking, radio-telemetry, behavioral studies, and human disturbance. Lab is required.

PWS 369 : Science of Plant Production. (4:4:0)
OFFERED: F
PREREQUISITE: PWS 100, 282; or equivalents.
DESCRIPTION: Scientific principles of crop production related to agronomic and horticultural plants, including relationship of management principles and physiological processes in plants.

PWS 375 : Environmental Policies and Laws. (2:2:0)
OFFERED: W
PREREQUISITE: PWS 150.
DESCRIPTION: Environmental laws (Clean Water Act, Clean Air Act, etc.) and the regulations (National Environmental Policy Act, Nutrient Management Plan, etc.) established in the USA to improve environmental quality.

PWS 380 : Plant Community Design. (2:2:0)
OFFERED: W
PREREQUISITE: PWS 103, 105, Bio 235.
DESCRIPTION: Design and ecology of thematic plant communities.

PWS 390R : Special Topics in Plant and Animal Sciences. (1-3:ARR:0)
OFFERED: F, W
DESCRIPTION: Various topics of importance in plant and animal sciences.

PWS 391R : Careers in Plant and Wildlife Sciences. (1:1:0)
OFFERED: F
DESCRIPTION: Current information on internships, career options, and employment preparation skills in the plant and wildlife sciences.
NOTE: For sophomores and juniors.

: Careers in Horticulture.

400-Level Courses

PWS 402 : Urban Soils and Water. (4:4:0)

OFFERED: F
PREREQUISITE: PWS 100, 282.
DESCRIPTION: Principles of water management, soil physics, and soil fertility used in a problem-solving environment addressing current challenges in managing soils and water in the urban landscape.

PWS 410 : Advanced Biotechnology Instrumentation. (2:0:6)
OFFERED: F, W, Sp, Su
PREREQUISITE: PWS 310R.
DESCRIPTION: Laboratory experiences using advanced biotechnology and genomics instrumentation and protocols.

PWS 411 : Watershed Management. (3:2:3)
OFFERED: F even years.
PREREQUISITE: Bio 350.
DESCRIPTION: Processes and management of the hydrologic cycle of forests and rangelands. Field trips required.

PWS 412 : Rangeland-Landscape Ecology and GIS. (3:2:3)
OFFERED: W even years.
PREREQUISITE: Geog 212.
RECOMMENDED: PWS 215.
DESCRIPTION: Characterizing heterogeneous ecosystems for understanding patterns and processes. Applying scale, resolution, patch dynamics, time change, etc. to rangeland ecosystems. Utilizing GIS, remote sensing, and GPS for collecting and analyzing data.

PWS 416 : Rangeland Vegetation Improvement. (3:2:3)
OFFERED: F odd years.
RECOMMENDED: PWS 310, 350.
DESCRIPTION: Habitat improvement for domestic and wild animals. Plant control by mechanical equipment, herbicides, and prescribed fire. Restoration of disturbed lands.
NOTE: Field trips required.

PWS 417 : Rangeland Planning and GIS. (3:2:3)
OFFERED: F odd years.
RECOMMENDED: PWS 215, 225, 350.
DESCRIPTION: Development of a multiple-use natural resource plan for watershed forestry, recreation, wildlife, and livestock. Policies that govern planning and conflict resolution.

PWS 419 : Forest Management and Ecology. (3:2:3)
OFFERED: F even years.
DESCRIPTION: Managing forests, emphasizing ecosystem managment.
NOTE: Field trips required.

PWS 424 : Wildlife Law Enforcement. (3:3:0)
OFFERED: W
PREREQUISITE: Bio 100 or equivalent.
DESCRIPTION: Current and historical principles of federal and state wildlife law enforcement, case development, evidence, evaluation, human rights, and testimony.

PWS 431 : Integrated Management of Plant Pests. (3:2:3)
OFFERED: F
PREREQUISITE: PWS 100, 282, 331.
DESCRIPTION: Diagnosing, identifiying, and managing of weed, insect, and disease problems in plants. Integrated pest management solutions. Proper pesticide management and safety.

PWS 440 : Plant Physiology. (3:3.0:0)
OFFERED: F, W
PREREQUISITE: GE Biological Science requirement; college chemistry
RECOMMENDED: Chem 285; or 351, 352.
DESCRIPTION: Photosynthesis, respiration, water relations, mineral nutrition, growth of flowering plants.

PWS 446 : (PWS-Bio) Ornithology. (3:2:3)
OFFERED: W
PREREQUISITE: Bio 220A.
DESCRIPTION: Avian systematics, evolution, distribution, and natural history.
NOTE: Two three-day field trips required.

PWS 485 : Plant Breeding and Biotechnology. (2:2:0)
OFFERED: F
PREREQUISITE: PWS 340.
DESCRIPTION: Introduction to modern plant improvement through selective breeding and application of plant biotechnology.

PWS 487 : Readings in Animal Biotechnology. (2:2:0)
OFFERED: W
PREREQUISITE: MMBio 240.
DESCRIPTION: Discussion of assigned literature in animal biotechnology.

PWS 488 : Readings in Biotechnology. (2:2:0)
OFFERED: W
PREREQUISITE: PWS 340, PDBio 360.
RECOMMENDED: PWS 440 or PDBio 362.
DESCRIPTION: Capstone course for the genetics and biotechnology major focusing on scientific literature relating to the biotechnological improvement of plants, animals, and microbes.
NOTE: Course should be taken the last year before graduation.

PWS 490 : Case Studies. (2:1:2)
OFFERED: F
PREREQUISITE: PWS 282.
DESCRIPTION: Contemporary agricultural and environmental problems using decision case studies dealing with environmental technology issues and analysis.

PWS 491R : Undergraduate Seminar. (1:1:0)
OFFERED: W
DESCRIPTION: Current information in the plant and wildlife sciences.

PWS 492 : Wildlife and Wildlands Conservation Senior Seminar. (1:1:0)
OFFERED: F, W
DESCRIPTION: Capstone course bringing together portfolios, student experiences, exams, and exercises necessary for completing and assessing wildlife and wildlands program learning outcomes.

PWS 494R : Mentored Learning Experience. (1-6:ARR:ARR)
OFFERED: F, W, Sp, Su
DESCRIPTION: Topics vary.
NOTE: Registration required for mentored experiences.

: Analytical Techniques in Plant Biology.
: Analytical Techniques in Soil Science.
: Animal Cytogenetics Laboratory.
: Animal Genetics and Breeding Techniques.
: Animal Reproductive Research Laboratory.
: Biotechnology Laboratory.
: Environmental Science Computation Laboratory.
: Environmental Science Field Techniques.
: Environmental Science Laboratory.
: Field Techniques in Environmental Soil Research.
: Molecular Genetics and Gene Mapping Laboratory.
: Plant Breeding Field Techniques.
: Plant Cell Biology Laboratory.
: Plant Cytogenetics Laboratory.
: Plant ID / URME Team.
: Plant Physiology Laboratory.
: Plant Tissue Culture and Transformation Techniques.
: Plant and Animal Genomics Laboratory.
: Plant and Soil Science Field Techniques.
: Soil Microbiology Laboratory.
: Soil Physical Properties Laboratory.
: Soil and Water Chemistry Laboratory.
: Soil, Plant, and Water Science Laboratory.

500-Level Graduate Courses (available to advanced undergraduates)

PWS 511 : Soil Physics. (3:3:0)
OFFERED: W even years
PREREQUISITE: PWS 282, Chem 105, Math 112 or 119; or equivalents.
RECOMMENDED: Phscs 105 or 121 or equivalent.
DESCRIPTION: Physical relationships of water, heat, and gases in soils; physical and chemical properties of clays. Mathematical modeling of physical properties and transport processes.

PWS 514 : Soil Microbiology. (2:2:3)
OFFERED: W odd years
PREREQUISITE: Chem 106, 107; or equivalents.
DESCRIPTION: Ecology and role of soil microorganisms in nutrient cycling, decomposition of organic matter and waste materials, and degradation of agricultural chemicals in soil.

PWS 515 : Agrostology: Taxonomy and Ecology of Grasses. (3:2:3)
OFFERED: W even years.
PREREQUISITE: Bio 430 or equivalent.
DESCRIPTION: Classification and ecology of grasses, emphasizing important forage species.

PWS 520 : Saline and Sodic Soils. (3:2:3)
OFFERED: F even years
PREREQUISITE: PWS 305, Chem 105, 106, 107; or equivalents.
DESCRIPTION: Physical and chemical properties of saline and sodic soils and irrigation waters--their diagnosis, reclamation, and management for sustainable crop production.

PWS 525 : Plant Development. (3:3:0)
OFFERED: F odd years
PREREQUISITE: PDBio 360 or equivalent; PWS 586.
DESCRIPTION: Molecular and genetic interactions in plant development.

PWS 540R : Topics in Plant Physiology. (3:3:0)
OFFERED: On demand.
PREREQUISITE: PWS 440 or equivalent; PWS 494R or concurrent enrollment.
DESCRIPTION: Topics in advanced plant physiology.

: Advanced Topics in Crop Physiology.
: Advanced Topics in Plant Metabolism.
: Developmental Plant Physiology.

PWS 546 : World Bird Families. (3:4:2)

OFFERED: W 2nd block.
PREREQUISITE: PWS 446 or instructor's consent.
DESCRIPTION: Distribution, composition, and characteristics of world bird families, using museum specimens.

PWS 551 : Quantitative Ecology. (3:2:3)
OFFERED: W odd years.
PREREQUISITE: Bio 350 or equivalent; Stat 221 or 511 or concurrent enrollment.
DESCRIPTION: Quantitative methods for ecological sampling and data analysis.

PWS 552 : Terrestrial Ecosystems. (3:3:0)
OFFERED: F even years.
DESCRIPTION: Theory and application of plant and animal distribution in terrestrial environments.

PWS 553 : Restoration Ecology. (3:3:0)
OFFERED: W odd years.
PREREQUISITE: PWS 282, 416; Bio 350; or equivalents.
DESCRIPTION: Nature of ecosystem disturbance and plant succession; developing science and practice of ecological restoration; case studies of applied restoration.

PWS 554 : Wildlife Behavioral Ecology. (3:3:0)
OFFERED: W
PREREQUISITE: Bio 100, 350; or equivalents.
DESCRIPTION: Integrating principles of ethology, sociobiology, and behavioral ecology using examples from wildlife resources; behavioral sampling methods.
NOTE: Field trips required.

PWS 559 : Plant Molecular Breeding. (2:2:0)
OFFERED: W even years.
PREREQUISITE: PWS 265, 340, 485; or equivalents; PWS 494R or concurrent enrollment.
DESCRIPTION: Molecular genetic methods applied to improvement of economically important plants.

PWS 560 : Soil and Plant Analysis. (3:2:4)
OFFERED: W
PREREQUISITE: PWS 282 or equivalent.
DESCRIPTION: Laboratory chemical analysis of soils and plant materials in soil and plant research.

PWS 575 : Plant Pathology. (3:2:3)
OFFERED: F odd years.
PREREQUISITE: PWS 100 or Bio 131; PWS 331 or MMBio 240; or equivalents.
DESCRIPTION: Concepts associated with symptoms, development, control, and classification of plant diseases.

PWS 580 : Plant Transformation. (2:1:3)
OFFERED: W even years.
PREREQUISITE: PDBio 360 or equivalent; PWS 586.
DESCRIPTION: Theory and methods of plant transformation.

PWS 586 : Plant Cell Biology. (3:3:0)
OFFERED: F even years.
PREREQUISITE: PDBio 360, PWS 340, 440; or equivalents.
DESCRIPTION: Molecular aspects of the structural and functional characteristics of plant cells, emphasizing characteristics of plant cells setting them apart from animal cells.

PWS 598R : Advanced Topics in the Plant and Wildlife Sciences. (1-3:ARR:0)
OFFERED: On demand.

Graduate Courses

For 600- and 700-level courses, see the BYU 2008–2009 Graduate Catalog.

Plant and Wildlife Sciences Faculty

Professors

Allen, Phil S

COLLEGE: Life Sciences
DEPARTMENT: Plant and Wildlife Sciences
RANK: Professor
DEGREES: BS, Brigham Young University, 1983
MS, Brigham Young University, 1985
PhD, University of Minnesota, 1990

Anderson, Val Jo

COLLEGE: Life Sciences
DEPARTMENT: Plant and Wildlife Sciences
RANK: Professor
DEGREES: AS, Snow College, 1980
BS, Utah State University, 1982
MS, Utah State University, 1985
PhD, Texas A&M University, 1988

Black, Hal Lunt

COLLEGE: Life Sciences
DEPARTMENT: Plant and Wildlife Sciences
RANK: Professor
DEGREES: BS, University of Utah, 1966
MS, University of Utah, 1968
PhD, University of New Mexico, 1972

Booth, Gary M

COLLEGE: Life Sciences
DEPARTMENT: Plant and Wildlife Sciences
RANK: Professor
DEGREES: AS, College of Eastern Utah, 1961
BS, Utah State University, 1963
MS, Utah State University, 1966
PhD, University of California, Riverside, 1969

Christensen, Allen Clare

COLLEGE: Life Sciences
DEPARTMENT: Plant and Wildlife Sciences
RANK: Professor
DEGREES: BS, Brigham Young University, 1957
MS, University of California, Davis, 1960
PhD, Utah State University, 1979

Crookston, R. Kent

COLLEGE: Life Sciences
DEPARTMENT: Plant and Wildlife Sciences
RANK: Professor
DEGREES: BS, Brigham Young University, 1968
MS, University of Minnesota, St. Paul, 1970
PhD, University of Minnesota, St. Paul, 1972

Fairbanks, Daniel J.

COLLEGE: Life Sciences
DEPARTMENT: Plant and Wildlife Sciences
RANK: Professor
DEGREES: BS, Brigham Young University, 1982
MS, University of Minnesota, 1985
PhD, University of Arizona, 1988

Flinders, Jerran T

COLLEGE: Life Sciences
DEPARTMENT: Plant and Wildlife Sciences
RANK: Professor
DEGREES: BS, University of Utah, 1967
MS, University of Utah, 1968
PhD, Colorado State University, 1971

Hess, Wilford M

COLLEGE: Life Sciences
DEPARTMENT: Plant and Wildlife Sciences
RANK: Professor
DEGREES: BS, Brigham Young University, 1957
MS, Oregon State University, 1960
PhD, Oregon State University, 1962

Jolley, Von Dale

COLLEGE: Life Sciences
DEPARTMENT: Plant and Wildlife Sciences
RANK: Professor
DEGREES: BS, Brigham Young University, 1970
MS, Iowa State University, 1974
PhD, Iowa State University, 1976

Kellems, Richard Owen

COLLEGE: Life Sciences
DEPARTMENT: Plant and Wildlife Sciences
RANK: Professor
DEGREES: BS, Brigham Young University, 1969
MS, Oregon State University, 1975
PhD, Oregon State University, 1976

Roundy, Bruce A

COLLEGE: Life Sciences
DEPARTMENT: Plant and Wildlife Sciences
RANK: Professor
DEGREES: BA, University of Nevada, Reno, 1973
MS, University of Nevada, Reno, 1977
PhD, Utah State University, 1984

Terry, Richard Ellis

COLLEGE: Life Sciences
DEPARTMENT: Plant and Wildlife Sciences
RANK: Professor
DEGREES: BS, Brigham Young University, 1972
MS, Purdue University, 1974
PhD, Purdue University, 1976

White, Clayton M

COLLEGE: Life Sciences
DEPARTMENT: Plant and Wildlife Sciences
RANK: Professor
DEGREES: BA, University of Utah, 1960
PhD, University of Utah, 1968

Associate Professors

Coleman, Craig Eliot

COLLEGE: Life Sciences
DEPARTMENT: Plant and Wildlife Sciences
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1985
MS, Brigham Young University, 1987
PhD, Pennsylvania State University, 1992

Hopkins, Bryan Gene

COLLEGE: Life Sciences
DEPARTMENT: Plant and Wildlife Sciences
RANK: Associate Professor
DEGREES: AAS, Ricks College, 1988
BS, Brigham Young University, 1990
MS, Brigham Young University, 1991
PhD, Kansas State University, 1995

Jellen, Eric Nathan

COLLEGE: Life Sciences
DEPARTMENT: Plant and Wildlife Sciences
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1986
MS, University of Minnesota, 1988
PhD, University of Minnesota, 1992

General Information

Undergraduate Application Requirements

All new students entering the undergraduate accounting program commence their study at the beginning of the fall semester. Admission into the undergraduate accounting program is based on consideration of the following:

1. The applicant's overall GPA and GPA in the following preparatory courses: Acc 200, 210, M Com 320, and I Sys 201
2. The applicant's personal statement
3. Comments from professors
4. A review of the overall academic record of the applicant

Admission Policies

The following policies apply in making admission decisions for each fall semester cohort of students:

1. Admission to the undergraduate accounting program is by online application filed directly with the School of Accountancy. Applications are filed at http://marriottschool.byu.edu/soa/. Notice of admission decisions is given online.
2. Each year, the last day to apply to commence study in the fall semester is the last business day in June at 4:30 p.m. A student may, however, apply for fall semester admission as early as November 1 in the preceding year. In most cases admission decisions are made on a monthly basis.
3. Repeating the four preparatory courses (Acc 200, 210, M Com 320, and I Sys 201) to improve grades for purposes of admission is strongly discouraged. For these four courses: (1) a minimum 3.0 GPA is required, and (2) a grade of B or better is required in Acc 200 and Acc 210. The preparatory courses must be completed at the time of application.
4. The accounting program is designed for entry at the beginning of a student's junior year. Moreover, at the end of the junior year, many students immediately commence graduate studies. Therefore, a student entering the accounting program must have substantially completed general education requirements and the following introductory courses: Econ 110, Math 119, Stat 221. Exceptions may be allowed, but it should be understood that it is difficult to complete such courses after entry into the accounting program.
5. Potential applicants who will transfer from other schools are encouraged to take Acc 210 at BYU and include an ACT/SAT score with their application, if the test was taken. Grades transferred from other schools are discounted.
6. The School of Accountancy reserves the right to allow exceptions in the admission process where it is deemed necessary to admit the most qualified students.

UNDERGRADUATE CATALOG 2008 - 2009

Recreation Management and Youth Leadership

Patti A. Freeman, Chair
273C RB, (801) 422-1286

College of Health and Human Performance Advisement Center
203 RB, (801) 422-3638

Admission to Degree Program

All degree programs in the Department of Recreation Management and Youth Leadership are open enrollment.

The Discipline

Students in the Department of Recreation Management and Youth Leadership may choose an undergraduate emphasis from the following areas: leisure services management, therapeutic recreation, or Scouting administration. Though the three areas represent diverse and unique approaches, they share the commitment to a service-oriented profession.

Depending upon the particular emphasis, courses prepare students in the areas of leadership skills, systems management, budgeting and finance, program development, facilities management, and current issues in the recreation profession. Because of the nature of the profession, course work may not be limited to the Recreation Management and Youth Leadership Department. Course work in the related disciplines of business, behavioral sciences, health sciences, exercise sciences, family sciences, and life sciences may be required.

Career Opportunities

The curriculum will prepare students to provide professional services designed to meet the recreation, leisure, and youth leadership needs of communities, families, and individuals. Employment may be found in community (municipal/government) recreation agencies; private, commercial, industrial or military recreation programs; youth agencies and Scouting; clinical treatment settings (hospitals) or adaptive programs for people with disabilities; state and national parks; and/or educational settings.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Major
BS in Recreation Management and Youth Leadership
Emphases:
Leisure Services Management
Therapeutic Recreation

Minor
Nonprofit Management

Students should see their college advisement center for help or information concerning the undergraduate programs.

Graduate Programs and Degrees

MS in Youth and Family Recreation

For more information see the BYU 2008–2009 Graduate Catalog.

Program Requirements | View MAP

1. Complete the following foundation requirements:

P MGT 321 : Financial Issues in Public and Not-for-Profit Management. (3:3:0)
DESCRIPTION: Introduction to fund accounting, budgeting processes, and sources of revenue such as taxes, municipal bonds, user fees, donations, grants, dues, and ticket sales.

RMYL 189 : Field Studies in Leisure Services and Therapeutic Recreation. (1:1:0)
OFFERED: F, W, Sp
DESCRIPTION: Field trips to exemplary leisure service and therapeutic recreation agencies. Facility operations, design, management techniques and philosophy, marketing, and accessibility.
NOTE: Fee.

BS in Recreation Management and Youth Leadership: Therapeutic Recreation Emphasis (57 hours*)

Show All Course Descriptions
Hide All Course Descriptions

General Information

1. Students are advised to take Stat 221 to fulfill their Languages of Learning general education requirement.
2. First aid and CPR certification must be obtained before completing the RMYL 496R internship experience.
3. Most agencies now require therapeutic recreation specialists to be certified through the National Council on Therapeutic Recreation Certification (NCTRC). Students should consult the NCTRC candidate information at www.NCTRC.org to ensure eligibility to sit for the certification exam. To practice in the state of Utah, the law also requires a licensure exam.
4. Students will be required to complete two extensive advising sessions as they declare their major and as they begin their therapeutic recreation core courses.

Program Requirements | View MAP

College of Family, Home, and Social Sciences Advisement Center
151 SWKT, (801) 422-3541

Admission to Degree Program

All degree programs in the Department of Sociology are open enrollment. However, special limitations apply for teaching majors.

The Discipline

Sociology is the study of social relations, for example, the study of social interaction and the relations of power in modern society, family and community life, organizations, and institutions. Among other things, sociologists study social change and social movements, diversity, and the origins of inequality and social conflict. The study of sociology includes learning about the theoretical perspectives and the diverse research methodologies that inform sociological analysis.

Career Opportunities

Students major in sociology in preparation for a number of different careers. Individuals are trained to analyze available information, summarize findings, draw conclusions, and solve problems. The study of sociology prepares a student for professional training in law, social work, public policy, and public or business administration. Sociology also provides training for occupations that do not require graduate training: commercial and retail sales, real estate, financial planning, information management and analysis, and market research. Students interested in working for nonprofit organizations and for government agencies should consider majoring in sociology. Students interested in studying criminology or a career in law enforcement may also consider sociology as a major.

Becoming a sociologist requires further graduate study, either a PhD or a master's degree.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Major
BS in Sociology
Minor
Sociology (General)

Students should see their college advisement center for help or information concerning the undergraduate programs.

Program Requirements | View MAP

1. At least 24 hours of sociology major courses must be taken in residence at BYU.

2. Complete one of the following introductory courses (preferably in sophomore year or earlier):
   SOC 111 : Introductory Sociology. (3:3:0)
   OFFERED: F, W, Sp, Su; Honors also.
   DESCRIPTION: Social group influence; social interaction, processes, organization, and change; family, religion, government, population, culture, race relations.

   SOC 112 : Current Social Problems. (3:3:0)
   OFFERED: F, W, Sp, Su; Honors also.
   DESCRIPTION: Individual deviance (violence, insanity, drugs, sex, crime, etc.) and social disorganization (poverty, race and sex discrimination, divorce, overpopulation, etc.). Conditions, causes, solutions.

3. Complete one of the following introductory statistics courses:
   SOC 306 : Applied Social Statistics. (3:3:0)
   OFFERED: F
   DESCRIPTION: Introductory descriptive and inferential statistics; graphing, central tendency, variation, hypothesis testing and parameter estimation, measures of association, correlation, and regression.

   STAT 221 : Principles of Statistics. (3:3:2)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: Math 110 or equivalent.
   DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
   NOTE: Honors and Independent Study also.

4. Complete the following introductory methodology courses:
   SOC 300 : Methods of Research in Sociology. (3:3:0)
   OFFERED: F, W, Sp
   PREREQUISITE: Soc 111 or 112 or instructor's consent.
   DESCRIPTION: Tools of social research; survey, experimentation, content analysis, secondary analysis, qualitative research, evaluation research, data processing and analysis, and report writing.

   SOC 307 : Data Analysis, Presentation, and Management. (3:3:0)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: Soc 111 or 112; 300; 306 or Stat 221; major status.
   DESCRIPTION: Framing research questions, locating available data, using programs and statistical packages for univariate and bivariate analysis, presenting and summarizing findings.

   Note: Students must declare a sociology major before registering for Soc 307.

5. Complete the following theory courses:
   SOC 310 : Foundations of Social Inquiry. (3:3:0)
   OFFERED: F, W, Sp
   PREREQUISITE: Soc 111 or 112.
   DESCRIPTION: Basic ideas and arguments forming sociological inquiry, including philosophical foundations, philosophy of social science, and development of classical theory.

   SOC 311 : Contemporary Sociological Theory. (3:3:0)

OFFERED: F, W, Sp
PREREQUISITE: Soc 111 or 112; 310.
DESCRIPTION: Ideas, critiques, and arguments that form contemporary sociological inquiry.

Note: Soc 300, 307, 310 and Soc 306 or Stat 221 are foundational courses for the major. Students are encouraged to take these courses as early in their program of studies as possible. Students must complete these four courses with a C– or better grade in order to graduate with a degree in sociology.

6. Complete the following writing course:
ENGL 312 : Persuasive Writing. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
PREREQUISITE: Engl 150 or equivalent; junior or senior status.
DESCRIPTION: Expository and persuasive writing focusing on practical reasons for evaluating audiences, generating and structuring an argument, and making stylistic decisions. Library research paper.
NOTE: Carries GE Advanced Written and Oral Communication credit.

7. Complete at least one course from the following social diversity and inequality courses:
SOC 322 : Class Inequality. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Causes and consequences of class, status, and power differences.

SOC 323 : Racial and Minority-Group Relations. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Social psychological and social structural analysis of racial and ethnic relations; prejudice, discrimination, responses, protests, current issues.

SOC 367 : Sociology of Gender. (3:3:0)
OFFERED: F, W
DESCRIPTION: Gender in social institutions: family, social hierarchies, economics, education, organizations, religion, and science.

8. Complete the following social psychology course:
SOC 350 : (Soc-Psych) Introduction to Social Psychology. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Conformity and obedience; socialization, norms, roles; attitudes, leadership, group processes.

9. Complete at least one course in advanced methodology:
SOC 404 : Qualitative Research Methods. (3:3:0)
PREREQUISITE: Soc 300, 307, 310, 311.
DESCRIPTION: Purposes, methods, and limitations of qualitative research. Includes participant observation and hermeneutics skills.

SOC 405 : Multiple Regression Analysis and Social Science Computing. (3:3:0)
PREREQUISITE: soc 300; 306 or Stat 221; 307.
DESCRIPTION: Data analysis and computer use in sociology; least squares and logistic regression techniques; SPSS and its use in conducting data analysis. Research report required.

Note: Students may wish to take both Soc 404 and 405. In such cases the second advanced methodology course may count toward the four-course requirement listed below (see item 11).

10. Complete two capstone courses from the following:
SOC 420 : Understanding Modern Societies. (3:3:0)
OFFERED: F, W
PREREQUISITE: Soc 310.
DESCRIPTION: Comparative-historical theory and research on the political, economic, social, and cultural processes in the formation, social organization, and future prospects of modern societies.

SOC 421 : Complex Organizations. (3:3:0)
PREREQUISITE: Soc 310.
DESCRIPTION: Complex formal organization perspectives. Bureaucracy, management, structure, and change in private and public sectors. Formation, growth, and partitioning of organizational fields. Writing intensive.

SOC 422 : Social Stratification. (3:3:0)
PREREQUISITE: Soc 310.
DESCRIPTION: Distributions of money, prestige, and power as they relate to life chances, lifestyle, other social institutions, and social justice.

SOC 424 : Political Sociology. (3:3:0)

PREREQUISITE: Soc 310.
DESCRIPTION: Analysis of power and decision-making, political institutions, grass root politics, stratification, and political activity, social movements and revolutions, science/religion and politics. Writing intensive.

SOC 425 : Markets and Society. (3:3:0)
PREREQUISITE: Soc 310.
DESCRIPTION: Economic sociology exploring social dynamics of market behavior from an interdisciplinary perspective; topics include social factors realted to value, price, and price volatility.

SOC 426 : Sociology of Work and Occupations. (3:3:0)
PREREQUISITE: Soc 310.
DESCRIPTION: Distinction between work and occupation, changes in the nature of work and labor force, impacts of work, mobility in work life, and occupational attainment.

SOC 429 : Theory of Social Change and Modernization. (3:3:0)
PREREQUISITE: Soc 310.
DESCRIPTION: Social change in contemporary society from diverse theoretical points of view.

SOC 450 : The Family and Social Change. (3:3:0)
OFFERED: F, W
PREREQUISITE: Soc 310.
DESCRIPTION: Changing patterns of family-related behaviors, functions, and forms. Demographic, economic, and ideological forces shaping the family.

SOC 460 : Issues in Family Sociology. (3:3:0)
OFFERED: F, W
PREREQUISITE: Soc 310.
DESCRIPTION: Advanced sociological analysis of current issues relating to the family (e.g., theory, methodology, parenting, marriage, divorce, family crises, race, gender, etc.).

SOC 470 : Sociology of Law. (3:3:0)
PREREQUISITE: Soc 310.
DESCRIPTION: Law as an institution; influence of law on behavior; relationship between law and institutions; role of law in social change.

SOC 481 : Crime, Justice, and Corrections. (3:3:0)
OFFERED: F, W
PREREQUISITE: Soc 310.
DESCRIPTION: Nature and extent of criminal behavior; current theory and research related to causes of crime and treatment of criminals.

SOC 490R : Special Topics in Sociology. (1-3:0:0)
PREREQUISITE: Soc 310.
DESCRIPTION: Course content varies from year to year.

11. Complete four additional courses from the following. Students are encouraged to enroll in courses that meet their academic and professional interests and needs. Courses taken to fulfill other major requirements may not be used to meet this requirement.
    a. Substantive courses:

SOC 318 : (Soc-SFL 333) Adolescent Development in the Family and Other Social Contexts. (3:3:0)
DESCRIPTION: Examining developmental and social contexts of adolescents, emphasizing the importance of the family. Other contexts include peers, religion, community, schools, and cross-cultural issues.

SOC 322 : Class Inequality. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Causes and consequences of class, status, and power differences.

SOC 323 : Racial and Minority-Group Relations. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Social psychological and social structural analysis of racial and ethnic relations; prejudice, discrimination, responses, protests, current issues.

SOC 325 : Introduction to the Sociology of Religion. (3:3:0)
OFFERED: F, W
DESCRIPTION: Origin, growth, and organizational development of religious groups; church activity, conversion, secularization, religious change.

SOC 326 : Sociology of Education. (3:3:0)
OFFERED: F, W
DESCRIPTION: Social origins of goals and curricula; theories of change and control; the nature of achievement in education.

SOC 327 : Sociology of the LDS Church and Its People. (3:3:0)
OFFERED: W
DESCRIPTION: The LDS Church from a social science perspective, including the Church as a new religious movement; LDS culture; the institutionalization process.

SOC 328 : Sociology of Sport. (3:3:0)
DESCRIPTION: Analysis of the sociological aspects of sport and their relationship to politics, economics, stratification, education, and family. Focus on concepts, theory, and related research.

SOC 329 : Medical Sociology. (3:3:0)
OFFERED: W
DESCRIPTION: Social epidemiology, the sick role, sociocultural definitions of and responses to illness, and the organization of medical-health delivery systems.

SOC 330 : Cultural Sociology. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Recent theories and research in sociological approaches to meaning, including cultural systems and institutions, everyday life, symbolism, agency, power, texts, and globalization.

SOC 335 : Social Change and Modernization in Latin America. (3:3:0)
DESCRIPTION: Contemporary changes in the social institutions and cultures as related to the modernization process.

SOC 345 : World Populations. (3:3:0)
DESCRIPTION: Fertility, mortality, and migration patterns of world populations as they relate to current social, economic, political, and religious issues.

SOC 360 : Introduction to Family Sociology. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Definitions of "family"; surveying the family as a context for sex, marriage, work, social reproduction, and violence in Western societies.

SOC 365 : Sociology of Aging. (3:3:0)
OFFERED: W
DESCRIPTION: Demographic and social factors related to aging: agencies, serving older citizens, and role of community in solving problems of aged.
NOTE: Required for students in gerontology minor and/or certificate programs.

SOC 367 : Sociology of Gender. (3:3:0)
OFFERED: F, W
DESCRIPTION: Gender in social institutions: family, social hierarchies, economics, education, organizations, religion, and science.

SOC 370 : The Sociology of Urban Life. (3:3:0)
OFFERED: W
DESCRIPTION: Norms, social controls, and social processes in urban areas in both historical and contemporary perspectives.

SOC 380 : Deviant Behavior and Social Control. (3:3:0)
DESCRIPTION: Theory and research related to deviance. Specific topics include psychosis, addiction, homosexuality, violence, and rape, among others.

SOC 383 : Juvenile Delinquency. (3:3:0)
OFFERED: F, W
DESCRIPTION: Lawlessness of children and adolescents: causation, treatment, prevention, and outlook.

SOC 390R : Special Topics in Contemporary Sociology. (.5-3:3:0)
PREREQUISITE: Instructor?s consent.
DESCRIPTION: Course content varies from year to year.

b. Advanced methodological courses:
SOC 404 : Qualitative Research Methods. (3:3:0)
PREREQUISITE: Soc 300, 307, 310, 311.

DESCRIPTION: Purposes, methods, and limitations of qualitative research. Includes participant observation and hermeneutics skills.

SOC 405 : Multiple Regression Analysis and Social Science Computing. (3:3:0)
PREREQUISITE: soc 300; 306 or Stat 221; 307.
DESCRIPTION: Data analysis and computer use in sociology; least squares and logistic regression techniques; SPSS and its use in conducting data analysis. Research report required.

SOC 406 : Intermediate Applied Social Statistics. (3:3:0)
PREREQUISITE: Soc 306.
DESCRIPTION: Introduction to structural equation models, analysis of variance and covariance, and factor analysis.

SOC 408 : Survey Research and Social Measurement. (3:3:0)
PREREQUISITE: Soc 300.
DESCRIPTION: Survey research design, measurement, and techniques in the behavioral sciences; research and sampling designs and measurement techniques.

c. Capstone sociology courses:

SOC 420 : Understanding Modern Societies. (3:3:0)
OFFERED: F, W
PREREQUISITE: Soc 310.
DESCRIPTION: Comparative-historical theory and research on the political, economic, social, and cultural processes in the formation, social organization, and future prospects of modern societies.

SOC 421 : Complex Organizations. (3:3:0)
PREREQUISITE: Soc 310.
DESCRIPTION: Complex formal organization perspectives. Bureaucracy, management, structure, and change in private and public sectors. Formation, growth, and partitioning of organizational fields. Writing intensive.

SOC 422 : Social Stratification. (3:3:0)
PREREQUISITE: Soc 310.
DESCRIPTION: Distributions of money, prestige, and power as they relate to life chances, lifestyle, other social institutions, and social justice.

SOC 424 : Political Sociology. (3:3:0)
PREREQUISITE: Soc 310.
DESCRIPTION: Analysis of power and decision-making, political institutions, grass root politics, stratification, and political activity, social movements and revolutions, science/religion and politics. Writing intensive.

SOC 425 : Markets and Society. (3:3:0)
PREREQUISITE: Soc 310.
DESCRIPTION: Economic sociology exploring social dynamics of market behavior from an interdisciplinary perspective; topics include social factors realted to value, price, and price volatility.

SOC 426 : Sociology of Work and Occupations. (3:3:0)
PREREQUISITE: Soc 310.
DESCRIPTION: Distinction between work and occupation, changes in the nature of work and labor force, impacts of work, mobility in work life, and occupational attainment.

SOC 429 : Theory of Social Change and Modernization. (3:3:0)
PREREQUISITE: Soc 310.
DESCRIPTION: Social change in contemporary society from diverse theoretical points of view.

SOC 450 : The Family and Social Change. (3:3:0)
OFFERED: F, W
PREREQUISITE: Soc 310.
DESCRIPTION: Changing patterns of family-related behaviors, functions, and forms. Demographic, economic, and ideological forces shaping the family.

SOC 460 : Issues in Family Sociology. (3:3:0)
OFFERED: F, W
PREREQUISITE: Soc 310.
DESCRIPTION: Advanced sociological analysis of current issues relating to the family (e.g., theory, methodology, parenting, marriage, divorce, family crises, race, gender, etc.).

SOC 470 : Sociology of Law. (3:3:0)
PREREQUISITE: Soc 310.
DESCRIPTION: Law as an institution; influence of law on behavior; relationship between law and institutions; role of law in social change.

SOC 481 : Crime, Justice, and Corrections. (3:3:0)
OFFERED: F, W
PREREQUISITE: Soc 310.
DESCRIPTION: Nature and extent of criminal behavior; current theory and research related to causes of crime and treatment of criminals.

SOC 490R : Special Topics in Sociology. (1-3:0:0)
PREREQUISITE: Soc 310.
DESCRIPTION: Course content varies from year to year.

d. Students are strongly encouraged to participate in a semester-long (3 credit hours) professional or research internship (Soc 399R) or a directed research project with a faculty member (Soc 497R). No more than 3 hours of Soc 399R and no more than 3 hours of Soc 497R may be used to meet this requirement.

*Hours include courses that may fulfill university core requirements.

Minor in Sociology (15 hours*)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements

1. Complete one course from the following:
   SOC 111 : Introductory Sociology. (3:3:0)
   OFFERED: F, W, Sp, Su; Honors also.
   DESCRIPTION: Social group influence; social interaction, processes, organization, and change; family, religion, government, population, culture, race relations.

   SOC 112 : Current Social Problems. (3:3:0)
   OFFERED: F, W, Sp, Su; Honors also.
   DESCRIPTION: Individual deviance (violence, insanity, drugs, sex, crime, etc.) and social disorganization (poverty, race and sex discrimination, divorce, overpopulation, etc.). Conditions, causes, solutions.

2. Complete at least one course from the following social diversity and inequality courses:
   SOC 322 : Class Inequality. (3:3:0)
   OFFERED: F, W, Sp
   DESCRIPTION: Causes and consequences of class, status, and power differences.

   SOC 323 : Racial and Minority-Group Relations. (3:3:0)
   OFFERED: F, W, Sp
   DESCRIPTION: Social psychological and social structural analysis of racial and ethnic relations; prejudice, discrimination, responses, protests, current issues.

   SOC 367 : Sociology of Gender. (3:3:0)
   OFFERED: F, W
   DESCRIPTION: Gender in social institutions: family, social hierarchies, economics, education, organizations, religion, and science.

3. Complete an additional 9 credit hours of course work. Students may select among the electives listed in the major (see item 11 under major requirements).

   Note: Students interested in a sociology minor that emphasizes the research and analysis component of the major may select among the following courses as electives: Soc 300, 307, 404, or 405. Students are cautioned that Soc 404 and 405 have several prerequisites, which will require additional courses beyond the 15 hour minimum for a minor. Soc 307 is currently open only to majors; students interested in the sociology minor may add the course with the instructor's consent.

*Hours include courses that may fulfill university core requirements.

OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: Individual deviance (violence, insanity, drugs, sex, crime, etc.) and social disorganization (poverty, race and sex discrimination, divorce, overpopulation, etc.). Conditions, causes, solutions.

: Honors Current Social Problems.

SOC 113 : Multicultural America. (3:3:0)
OFFERED: F, W
DESCRIPTION: Diverse cultural heritages in the United States. Cultures studied scientifically will include African American, Hispanic, Asian American, and Native American.

200-Level Courses

SOC 222 : (Soc-WS) Introduction to Women's Studies. (3:3:0)
DESCRIPTION: Survey of scholarship about women's lives; new historical, sociological, psychological, and literary approaches that inform our understanding of women's experience.

300-Level Courses

SOC 300 : Methods of Research in Sociology. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Soc 111 or 112 or instructor's consent.
DESCRIPTION: Tools of social research; survey, experimentation, content analysis, secondary analysis, qualitative research, evaluation research, data processing and analysis, and report writing.

SOC 306 : Applied Social Statistics. (3:3:0)
OFFERED: F
DESCRIPTION: Introductory descriptive and inferential statistics; graphing, central tendency, variation, hypothesis testing and parameter estimation, measures of association, correlation, and regression.

SOC 307 : Data Analysis, Presentation, and Management. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Soc 111 or 112; 300; 306 or Stat 221; major status.
DESCRIPTION: Framing research questions, locating available data, using programs and statistical packages for univariate and bivariate analysis, presenting and summarizing findings.

SOC 310 : Foundations of Social Inquiry. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Soc 111 or 112.
DESCRIPTION: Basic ideas and arguments forming sociological inquiry, including philosophical foundations, philosophy of social science, and development of classical theory.

SOC 311 : Contemporary Sociological Theory. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Soc 111 or 112; 310.
DESCRIPTION: Ideas, critiques, and arguments that form contemporary sociological inquiry.

SOC 318 : (Soc-SFL 333) Adolescent Development in the Family and Other Social Contexts. (3:3:0)
DESCRIPTION: Examining developmental and social contexts of adolescents, emphasizing the importance of the family. Other contexts include peers, religion, community, schools, and cross-cultural issues.

SOC 322 : Class Inequality. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Causes and consequences of class, status, and power differences.

SOC 323 : Racial and Minority-Group Relations. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Social psychological and social structural analysis of racial and ethnic relations; prejudice, discrimination, responses, protests, current issues.

SOC 325 : Introduction to the Sociology of Religion. (3:3:0)
OFFERED: F, W
DESCRIPTION: Origin, growth, and organizational development of religious groups; church activity, conversion, secularization, religious change.

SOC 326 : Sociology of Education. (3:3:0)
OFFERED: F, W
DESCRIPTION: Social origins of goals and curricula; theories of change and control; the nature of achievement in education.

SOC 327 : Sociology of the LDS Church and Its People. (3:3:0)
OFFERED: W
DESCRIPTION: The LDS Church from a social science perspective, including the Church as a new religious movement; LDS culture; the institutionalization process.

SOC 328 : Sociology of Sport. (3:3:0)
DESCRIPTION: Analysis of the sociological aspects of sport and their relationship to politics, economics, stratification, education, and family. Focus on concepts, theory, and related research.

SOC 329 : Medical Sociology. (3:3:0)
OFFERED: W
DESCRIPTION: Social epidemiology, the sick role, sociocultural definitions of and responses to illness, and the organization of medical-health delivery systems.

SOC 330 : Cultural Sociology. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Recent theories and research in sociological approaches to meaning, including cultural systems and institutions, everyday life, symbolism, agency, power, texts, and globalization.

SOC 335 : Social Change and Modernization in Latin America. (3:3:0)
DESCRIPTION: Contemporary changes in the social institutions and cultures as related to the modernization process.

SOC 340 : Sociology of International Development. (3:3:0)
DESCRIPTION: Major theoretical paradigms of development with strategies and practical application in the international setting.

SOC 345 : World Populations. (3:3:0)
DESCRIPTION: Fertility, mortality, and migration patterns of world populations as they relate to current social, economic, political, and religious issues.

SOC 350 : (Soc-Psych) Introduction to Social Psychology. (3:3:0)
